JUNE 2024 QUARTERLY REPORT

The Board of Locksley Resources Limited (ASX:LKY) ("Locksley" or the "Company") is pleased to provide the following Quarterly Activities Report to 30 June 2024.

HIGHLIGHTS FOR THE JUNE QUARTER 2024: MOJAVE PROJECT

- **Drilling approvals were received to follow-up the high-grade El Campo 'lode'. The El Campo 'lode' previously returned 12.1% (121,388ppm) TREO from rock-chip samples**
- **Locksley staked an additional 5.7km² of mineral claims to the northeast of the North Claim Block, bringing the total land tenure for the Mojave Project to 24.4km²**
- **The Mojave Project is immediately adjacent to the Mountain Pass REE Mine, the only operating REE mine in the US.**

Drilling Approval Received

The United States Bureau of Land Management (BLM) determined that Locksley's Notice of Intent (NOI) for exploration operations by drilling is complete and satisfies all requirements to ensure that unnecessary environmental degradation is prevented. The Company may proceed with the planned drilling program once the Company adopts the financial guarantee.

North Block Stream Sediment and Rock Chip Sampling Program

Locksley reviewed the surface sampling and rock chip sampling process, along with evaluating the strategies for more detailed mapping and rock chip sampling across this rugged terrain.

Additional North-East Claims

The stratigraphy around the Mountain Pass Mine is striking north-west, which is evident in the aerial photography. Interpretation of the radiometric and magnetic imagery has identified features interpreted to be displacements of this north-west oriented stratigraphy. These north-west oriented stratigraphic features show a complex array of displacements perpendicular to the strike which may represent cross cutting structures that create the pathway for REE rich intrusions and mineralisation.

Based on the structural interpretation, Locksley pegged an additional 5.7km² of claims to the north-east, closing off a possible north-west prospective area not previously held.

CORPORATE

Financial

Following the exploration activities, Locksley had a cash position of approximately \$2.30 million at the end of the June quarter. Related party payments for the quarter are as outlined in the Appendix 5B at section 6.1, a total of \$100,502 which includes the directors' fees and statutory superannuation paid to directors.

The Board of Directors of Locksley Resources Limited authorised the release of this announcement.
