Exploration Activities in Western Australia

Andover Project (South and North)

Archaeological/ethnographic heritage surveys were completed over the Andover South and North Project areas, in conjunction with the Ngarluma Aboriginal Corporation ("NAC"), on the 31st March and 8th April 2024 respectively¹.

Following on from the completion of those surveys the Company announced during the reporting period that the final heritage report for the Andover South Project had been received confirming no areas of cultural significance will hinder the planned drill program of known lithium-bearing pegmatite mineralisation on the Andover South project (E47/4061 & E47/4062)².

Management is undertaking discussions with drilling contractors, with the objective of commencing with the drilling program as soon as the final regulatory conditions for drilling have been approved.

Mt Sholl Ni-Cu Project

Evaluation and planning for the drilling program by First Quantum Minerals has continued over the quarter on the Mt Sholl Ni-Cu Project, with drilling expected to commence during the next quarter. All the work is being funded by First Quantum Minerals.

Arrow Project

During the reporting period the Company entered into a binding earn-in agreement with Mallina Co Pty Ltd ("Mallina") in regard to the Arrow gold project in the Pilbara³. Under the terms of the agreement, Raiden shall retain 100% of the rights to all Lithium-Caesium-Tantalum ("LCT") and associated mineralisation in the project.

Following are the key terms of the executed agreement;

- Mallina has committed to a minimum exploration expenditure of \$600k, which shall include at least 3,000 metres of AC drilling, within 12 months of execution of the agreement (Minimum Obligation period)
 - On meeting the Minimum Obligation and electing to proceed with the Farm-In, Mallina shall pay Raiden \$250k in cash or shares in Mallina if it has listed on the Australian Stock Exchange ("ASX")
- Mallina shall have the option to sole finance a further exploration campaign of 17,000 metres of diamond or RC drilling within 24 months after the Minimum Obligation Period to earn into a 51% interest in the project
- Mallina shall have the option to sole finance a further exploration campaign of 30,000 metres of diamond / RC drilling, or complete a PFS over the project to earn into a 75% interest in the project
- If Mallina earn into a 75% interest in the project, Raiden will have the option to;
 - Maintain it's interest in the project by co-financing its portion of further exploration and development costs; or
 - Sell its interest in the project, with Mallina having the right of first offer for that interest

- If the interest of either party dilutes 10% or less, then the party shall be deemed to have converted its interest to a 1% net smelter return royalty

Mallina will be the operator of the project, while Raiden will operate the LCT exploration program.

Other Australian Projects

Management continued to engage with potential partners regarding the divestment and partnerships regarding non-core assets in Australia.

Exploration Activities in Bulgaria

Vuzel (Au/Ag)

During the reporting period, the Company undertook planning activities in regard to a limited drilling program on the Vuzel gold project. The objective of the program was to provide further structural and orientational information for further targeting and drilling, which is planned for later stages. Drilling completed to date amounts to approximately 250m of diamond drilling. Further work may be undertaken in the future and will be based on the results of the work completed. The Company will update the market with regard to future activities on the project.

Zlatusha (Cu/Au)

Throughout the reporting period, the Company and Velocity Minerals amended the Agreement which was executed and announced by the Company on the 24th of January 2023⁴. Under the terms of the Amendment, an application will be made to extend the term of the Zlatusha PL by an additional two years. Velocity is not required to incur any additional exploration expenditure on the Zlatusha PL or make any cash or share payments to Raiden until such time as the term of the Zlatusha PL has been extended and the work program related to the extension has been approved by the Bulgarian authorities (the "Approvals"). Once all Approvals have been received, and if Raiden and the Company agree that a social license is in place to support the resumption of exploration activities, the Standstill Period will conclude and Velocity's obligations under the option will resume (the "Restart")

BG1 project (Cu/Au)

No activities were undertaken on the project during the reporting period.

Exploration Activities in Serbia

Donje Nevlje (Cu/Au)

No activities were undertaken on the project during the reporting period.

Corporate

Performance Rights
