# **Management commentary:**

**Managing Director, Mark Waller said:** "We continue to grow the business at an excellent rate with all key metrics trending positively. A key focus for the June Quarter was to continue to improve the product suite available on the One Click Life fintech platform. The opportunity to simplify our customers financial life is extremely motivating for the One Click team.

The quarter ended very strong with revenue up 40% for the half compared to H1 2023, which continued into July with revenues already over \$3m as at 22 July, showing great growth and comparing positively to the previous year's entire calendar year revenue of \$3.85m. Cash receipts were in line with expectations and were very strong in July as expected with over \$2

million in cash receipts received, leaving the Company well funded. Registered users on the One Click Life platform continued to grow during the quarter with marketing activities increasing into the busy July period."

# **Operational overview:**

The key focus of the June Quarter was on increasing digital marketing activities leading up to the busy tax lodgement period from July onwards. Another focus for the quarter was enhancing the Company's flagship tax product on the One Click Life Platform.

During the first half of 2024 the Company achieved a number of milestones including;

- 40% growth in revenue to over \$1 million(1), and
- 69% growth on pcp in user numbers to over 130,000 users at 30 June, quickly surpassing 150,000 in July.

# One Click Life

The One Click Life tax product is the largest revenue generating product on the One Click Life platform. During the quarter focus was given to enhancing our customer's experience in using this product and the One Click Life platform. This included the following enhancements to the One Click Life platform;

- Tax refund tracker
  Providing our customers the ability to track their refund from lodgement through to receipt of cash.
- Access to ATO documents
   A free service providing users the ability to access their ATO documents such as Notice of Assessments and account balances from the One Click Life platform.

Due to the cyclical nature of demand for tax services, the bulk of the Company's revenue is generated in the July to September quarter. During July the Company has receipted over \$2 million(1) improving the Company's working capital position and allowing for reinvestment into marketing activities over the quarter.

One Click Life is part of the way through a journey to create an ecosystem of products which will eventually enable our customers to manage their financial life on the One Click Life platform.

#### One Click Verify

During the Quarter the One Click Verify Digital Identity Verification platform continued to be enhanced to improve the way our customers consume the services available on this platform.

Sales efforts continue to be targeted towards integrations with other platforms to assist with the distribution of the One Click Verify products whilst we continue to commercialise through selling direct to market with a small number of new customers commencing using the product.

For more information on the One Click Verify platform, visit the website here: <a href="https://oneclickverify.com.au/">https://oneclickverify.com.au/</a>.

# **Outlook:**

The July to September quarter is the biggest revenue generating quarter for the One Click Life platform. The platform has had an outstanding start to revenue growth in July after the first half of 2024 growth in revenue of  $40\%^{(1)}$  on prior period. User growth has been strong at the start of July surpassing 150,000 users halfway through the month. This creates an exceptional opportunity for the continued growth in revenue throughout the remainder of 2024 as experienced in 2023 and H1 2024.

The Company will continue to invest in improving the existing product ecosystem available on One Click Life. The goal is to enable our customers to manage all of their financial life on the One Click Life platform in a simple, mobile first format.

For One Click Verify, the focus will continue to be on distribution of the platform. We will continue with current activities to attract new customers directly and look for opportunities to integrate with existing platforms for distribution of the product suite.
