## JUNE 2024 QUARTERLY ACTIVITIES REPORT

Xstate Resources Limited (**ASX:XST**) (**Xstate, XST or the Company**) is pleased to provide the Quarterly Activities Report for the quarter ending 30 June 2024. In summary, the Company was focused on closing the sale of the Red Earth assets which ultimately closed on 8<sup>th</sup> July 2024 with the receipt of the final payment of US\$1.327m (approximately A\$1.973m at time of receipt). The Company's cash balance upon closing has increased to approximately A\$4.342m as a result.

The Company is currently undertaking a global search for new venture opportunities and routinely undertakes technical due diligence to identify new assets for acquisition to expand our portfolio.

**CHAIRMAN Andrew Childs commented:** *"The sale of our Red Earth asset was completed in early July 2024 and the Company is now well positioned to seek new opportunities. We are actively looking at new deals to grow our business and generate value for our shareholders."*

## **About Xstate Resources Limited**

Xstate Resources (**ASX:XST**) is an ASX listed company focused on the oil and gas sector. The Company has existing oil and gas assets located in the California in the United States of America, and oil production assets in Alberta, Canada and Austria. Xstate is presently pursuing new opportunities in the oil and gas sector onshore North America and around the world.

### **Leases**

US and Canadian exploration is conducted on leases granted by Mineral Right owners, including the respective Governments and private individuals or groups. Leases can vary in size from very small parcels (part of an acre) to large landholdings (covering a few square miles). Leases generally are for 5 years and rentals are paid annually. There are no firm work commitments associated with the leases. Some leases are 'Held By Production' (HBP) and royalties are paid to mineral right owners in lieu of rentals. XST has not listed all its leases as it is impractical and not meaningful for potential project value assessment in a conventional natural gas play. A detailed listing of leases may also lead to a loss of competitive advantage and consequent reduced value to XST shareholders.

### **Competent Person**

The technical information provided has been supervised and reviewed in detail by XST's Competent Person, Mr Greg Channon, who is also a Non-Executive Director of the Company. Mr Channon is a qualified geoscientist with over 35 years of oil and gas industry experience and a member of the American Association of Petroleum Geologists and the South East Asian Exploration Society and is a graduate of the Australian Institute of Company Directors. He is qualified as a competent person in accordance with ASX listing rule 5.41. Mr Channon consents to the inclusion of the information in this report in the form and context in which it appears.
