

JUNE QUARTERLY ACTIVITIES UPDATE

POSITIVE MOMENTUM CONTINUES

Key Highlights and Summary

Positive cash flow from operations continues

During the quarter, cash receipts of \$4,044k generated \$1,009k in positive cash flow from operations which was invested into growth initiatives while maintaining cash and equivalents of ~\$1.1m at the end of period.

Grocery delivery services being integrated into the Rewardle Platform

Vertical integration of grocery delivery services will support the commercialisation of the local membership, points, rewards and payments application of the Rewardle Platform in the future.

Development and testing of new merchant and member services

Software development and beta-testing of new merchant and member products and services including the integration of grocery delivery services.

Rewardle Holdings Limited (ASX:RXH) (“**Rewardle**”; or the “**Company**”) provides the following update with respect to its June quarterly activities and execution of its growth strategy.

The Company has maintained its positive momentum, once again generating strong cash receipts from customers and positive cash flow from operations during the June quarter. As per the Company's growth strategy, cash flow generated by leveraging its operations, resources and capabilities is being invested into growth initiatives to create a compounding growth flywheel effect for the business moving forward.

In addition to its ongoing Growth Services partnership with CloudHolter Pty Ltd (“**CloudHolter**”), the Company has continued progressing the vertical integration of its grocery delivery services as part of its strategy to commercialise the local membership, points, rewards and payments application of its proprietary Business to Business to Consumer (B2B2C) software platform.

During the quarter, the Company commenced migrating YourGrocer and Pepper Leaf to a common e-commerce platform which will standardise and simplify the process of technically integrating their grocery delivery offerings with the Rewardle Platform. As well as committing resources the integration of grocery delivery services, the Company has continued to apply resources to the development and testing of new merchant and member services with the potential to generate high margin, additional income in the future.

The Company has continued to develop its pipeline of Growth Services opportunities which includes a combination of direct opportunities and partnership discussions which could increase deal flow and accelerate its strategy of building a VC style portfolio of transactional, licensing and equity positions in complementary partner businesses.

Rewardle's Founder and Executive Chairman, Ruwan Weerasooriya, said;

"We are continuing to execute our growth strategy, investing the cash flow generated by leveraging our operations, resources and capabilities into growth initiatives to create a compounding growth flywheel for the business moving forward."

"During the quarter we progressed the vertical integration of our grocery delivery operations into the membership, points, rewards and payments application of our proprietary platform and are continuing to develop and test new merchant and membership services that can generate high margin, additional revenue in the future."

"Based on the successful Growth Services partnership with CloudHolter, we're increasingly focussed on leveraging our experience and expertise into AI based opportunities. Along with direct opportunities, we're also exploring partnership models which could increase our deal flow and accelerate our strategy of building a VC style portfolio of transactional, licensing and equity positions in complementary partner businesses."

"Interested investors can reach me via email or mobile should they have any inquiries regarding our strategy, progress, and prospects."

Successfully executing growth strategy

Rewardle is a software business undertaking the development, operation and commercialisation of its proprietary Business to Business to Consumer (B2B2C) software platform (Rewardle Platform).

The Company's strategy is to leverage its operational capabilities, expertise and IP to develop new markets and opportunities without the need for additional funding.

As a technology platform based business with largely fixed costs, the Company has the potential to generate highly profitable additional revenue by leveraging its capabilities and substantial network of local businesses and members that it has already been amassed.

The Company has been successfully executing its growth strategy as outlined in the Investor Presentation released on 22nd December 2021 which is available to view at: www.Rewardle.com/ASX/InvestorPresentationDec2021. Slide 7 of the presentation provides an overview of the Company's key growth areas and has been included below for reference.

During Q4 FY24, the Company has continued to generate positive cash flow from operations which has been, and will continue to be, invested into growth initiatives to create a compounding growth flywheel effect for the business moving forward.

During the June quarter the Company converted \$1,000,000 of fees to equity in CloudHolter, maintaining its total shareholding of 49.9% by matching capital raising undertaken by CloudHolter. Under the agreed terms of the fee to equity conversion, the Company is precluded from acquiring a controlling shareholding in CloudHolter.

CloudHolter is a fast-growing MedTech business that provides GPs with an innovative, in-practice Holter monitoring service and is leveraging the workflow and data generated from its innovative diagnostic service to develop an Artificial Intelligence (AI) powered software solution for ECG analysis and diagnosis of cardiac arrhythmia.

The AI based software solution being developed by CloudHolter has the potential to be faster, cheaper and more accurate than the existing, manual practices and will have broad, global application across a range of use cases to enhance patient care and health outcomes, helping to prevent stroke, death, and disability.

In recent quarters, the Company increased the provision of Growth Services to CloudHolter which accelerated its development and allowed the Company to more aggressively convert fees to equity. The Company expects its provision of Growth Services to CloudHolter to moderate in coming periods as CloudHolter begins to internalise more of its operations in keeping with its business and corporate strategy.

Successfully executing growth strategy ... (cont.)

With the support of the Growth Services partnership, CloudHolter is growing strongly and the Company believes CloudHolter's unique combination of fast-growing cash flow generated by its diagnostic services, along with its promising AI-based software development with global application, has the potential to deliver the Company a return several times greater than its investment.

In addition to its ongoing Growth Services partnership with CloudHolter, the Company has continued progressing the vertical integration of its grocery delivery services as part of its strategy to commercialise the local membership, points, rewards and payments application of its proprietary Business to Business to Consumer (B2B2C) software platform. The Company has also continued to apply resources to the development and testing of new merchant and member services with the potential to generate high margin, additional income in the future.

The Company has continued to develop its pipeline of Growth Services opportunities and is in active discussion directly with potential partners while also exploring partnership models that may increase deal flow and accelerate its strategy of building a VC style portfolio of transactional, licensing and equity positions in complementary partner businesses.

The Company will provide updates with respect to the progress of individual opportunities as appropriate, taking into consideration the nature and potential impact on the business.

Quarterly Cash Flow commentary

Q4 FY24 is the 10th consecutive quarter of positive cash flow from operating activities, highlighting the Company's successful execution of its strategy to drive growth through operating leverage without the need for additional funding.

Cash receipts for Q4 FY24 were \$4,044k, a decrease of \$633k or 14% from \$4,677k the previous quarter. A summary of the Q4 FY24 Cash receipts and outflows along with management commentary is provided below:

- Cash receipts from customers were \$3,905k, an increase of 84k or 2% from \$3,905k the previous quarter. The variation was primarily driven by timing of payments.
- There were no government grants and tax incentives, a decrease of \$772k due to the receipt of FY23 R&D rebate during the previous quarter.
- Other cash receipts of \$55k were received during the quarter which related to the return of a security deposit.

Outgoing cash payments for Q4 FY24 were \$3,035k an increase of \$503k or 20% from \$2,532k for the previous quarter. A summary of this movement and management commentary is provided below:

- Product manufacturing and operating costs were \$1,871k an increase of \$398k of 27% from \$1,473k during the prior quarter. The increase was due to a combination of costs associated with the Company's recent acquisitions, timing of payments associated with regular, recurring operating expenses, and variable costs associated with testing of new transactional reward capabilities of the Rewardle Platform.
- Staff costs were \$872k a decrease of \$9k or 1% from \$ 881k during the previous quarter. The decrease is primarily due to timing of payments. The Company is also continuing to pay down accrued liabilities relating to staff costs and the timing of these payments is reflected in the staff costs.
- Administration costs were \$188k, an increase of \$57k or 44% from \$131k during the previous quarter. The increase is primarily due to one off costs associated with recent acquisitions along with a combination of timing of payments associated with administration costs.
- Interest and other costs of finance paid was \$104k an increase of \$57k of 121% from \$47k, during the previous period. These costs primarily relate to payout of vehicle finance and interest associated with financing of YourGrocer's delivery vehicle fleet which are expected to be an ongoing operational expense for the duration of the vehicle fleet finance facilities.
- Payments for equity investments was \$1,000k compared to \$1,680k in the previous quarter. These payments relate to the arrangement with CloudHolter for the Company to convert fees into equity. The decrease in investment compared to the previous quarter was due to the Company achieving the the agreed limit of its fee conversion.
- Other cash flows from investing activities of \$45k relates to the Pepper Leaf founders drawing on the loans offered to them as part of the Company's investment.

Quarterly Cash Flow commentary ... (cont.)

- During Q4 FY24 there were related party payments of \$275k, being \$200k of accrued Directors fees being paid to Mr. Ruwan Weerasooriya, \$30k of accrued Directors fees being paid to Mr. David Niall and \$45k paid to Pepper Leaf founder and Director, Simon Kahil which was drawn down as per the terms offered as part of the Pepper Leaf investment. While the Company intends to continue paying down accrued Directors fees from cash flow as part of its broader strategy to reduce liabilities and strengthen the Company's financial position, the Directors remain supportive and willing to pause payment of fees to preserve cash for investment in growth opportunities as required.

Update on FY23 Financial Statements and working capital management

The Company was not in a position to lodge its accounts by 29th September 2023 which resulted in trading in the Company's listed securities being suspended and they will remain so until lodgement of accounts. The Company is continuing to work with its auditors to finalise its outstanding accounts.

The completion of the FY23 Annual Financial Statements is imminent which will be followed by the 31 December 2023 Interim Report as soon as possible. Once these outstanding accounts are finalised and lodged, the Company is confident that future accounts, including its FY24 Financial Statements will be lodged as per the stipulated deadlines.

In the meantime, the Company is continuing to successfully execute its growth strategy, successfully achieving consecutive quarters of positive cash flow from operating activities over the past 2.5 years.

The Company intends to continue balancing its operating cash flow to invest in growth opportunities while paying down liabilities. As outlined in the Quarterly Cash Flow Commentary, the Company took advantage of its improving cash flow to continue paying down liabilities including accrued Directors fees during the quarter. The Directors remain supportive and willing to pause payment of fees to preserve cash for investment in growth opportunities as required.

While fluctuations in operating cash flow are to be expected, particularly as the Company integrates its acquisitions, investments and partnerships during the current environment of economic uncertainty, the Company is pleased with the progress of its strategy and management is confident that its multi-dimensional growth strategy and agile operating structure can be adapted as required so the business can operate and grow without requiring additional capital.

This announcement has been approved for release to ASX by the Board of Directors

About Rewardle Holdings Limited
