Company Announcements Platform
ASX Limited
20 Bridge Street
SYDNEY NSW 2000

Dear Sir / Madam

Investor Presentation – 2024 Diggers & Dealers

In accordance with Gold Road Resource Limited's Continuous Disclosure Policy, enclosed is a copy of the Investor Presentation which is being released to the ASX Market Announcements Platform ahead of today's investor briefing at the Diggers & Dealers Mining Forum.

This release has been authorised by the Board.

Yours faithfully
Gold Road Resources Limited

Keely Woodward
Joint Company Secretary

IMPORTANT NOTICES

Nature of this document: The purpose of this presentation is to provide general information about Gold Road Resources Limited (the 'Company'). Unless otherwise stated herein, the information in this presentation is based on the Company's own information and estimates. In attending this presentation or viewing this document you agree to be bound by the following terms and conditions. This document has been prepared by the Company. Information in this document should be read in conjunction with other announcements made by the Company to the Australian Securities Exchange and available at www.goldroad.com.au or www.asx.com.

Not an offer: This presentation is for information purposes only and does not constitute or form any part of any offer or invitation to sell or issue, or any solicitation of any offer to purchase or subscribe for, any securities in the Company in any jurisdiction. This presentation and its contents must not be distributed, transmitted or viewed by any person in any jurisdiction where the distribution, transmission or viewing of this document would be unlawful under the securities or other laws of that or any other jurisdiction.

Not financial product advice: This presentation does not take into account the individual investment objectives, financial situation and particular needs of each of the Company's Shareholders. You may wish to seek independent financial and taxation advice before making any decision in respect of this presentation. Neither the Company nor any of its related bodies corporate is licensed to provide financial product advice in respect of the Company's securities or any other financial products.

Forward-looking statements: Certain statements in the presentation are or may be "forward-looking statements" and represent the Company's intentions, projections, expectations or beliefs concerning, among other things, future operating and exploration results or the Company's future performance. These forward looking statements speak, and the presentation generally speaks, only at the date hereof. The projections, estimates and beliefs contained in such forward looking statements necessarily involve known and unknown risks and uncertainties, and are necessarily based on assumptions, which may cause the Company's actual performance, results and achievements in future periods to differ materially from any express or implied estimates or projections. Accordingly, readers are cautioned not to place undue reliance on forward looking statements. Relevant factors which may affect the Company's actual performance, results and achievements include changes in commodity price, foreign exchange fluctuations and general economic conditions, increased costs and demand for production inputs, the speculative nature of exploration and project development, diminishing quantities or grades of reserves, political and social risks, changes to laws and regulations, environmental conditions, and recruitment and retention of personnel.

Disclaimer: No representation or warranty, express or implied, is made by the Company that the material contained in this presentation will be achieved or prove to be correct. Except for statutory liability which cannot be excluded, each of the Company, its directors, officers, employees, advisers and agents expressly disclaims any responsibility for the accuracy, fairness, sufficiency or completeness of the material contained in this presentation, or any opinions or beliefs contained in this document, and excludes all liability whatsoever (including in negligence) for any loss or damage which may be suffered by any person as a consequence of any information in this presentation or any error or omission there from. The Company is under no obligation to update or keep current the information contained in this presentation or to correct any inaccuracy or omission which may become apparent, or to furnish any person with any further information. Any opinions expressed in the presentation are subject to change without notice.

Unverified information: This presentation may contain information (including information derived from publicly available sources) that has not been independently verified by the Company.

▶ Improving Production & Growth

Gruyere: A World Class Gold Mine (50%)

- Ramping up following challenging 1H 2024
- Increasing production & mining rates
- Ramping up to 350kozpa from 2025
- Hedge-free gold sales
- Encouraging results from deep drilling

Strong Growth Portfolio (100%)

- Strategic investments valued at A\$513M¹
- Yamarna Mine Readiness Project on track
- Encouraging exploration results

▶ Delivering Sustainable Gold Mining

Gruyere JV Operations

Gruyere H1 Performance

- Mining movement in CY2023 below plan
- Rain event at the end of Q1 CY2024
 - Road closures for 7 weeks
 - Disrupted operations for 5 weeks
- Focus on Stage 4 mining to increase Ore availability

Great Central Road 20 March 2024

View looking south into open pit 1 August 2024

Gruyere Production & Guidance

2024 Calendar Year

2024 CY Production Guidance

- Revised 290,000 – 305,000 oz
- Original 300,000 – 335,000 oz
- Impacted by rain event
- Revised range overlaps with original guidance

2024 Attributable AISC Guidance

- Revised A\$2,050 – A\$2,200/oz
- Original A\$1,900 – A\$2,050/oz
- Reduced production increases AISC \$/oz
- Higher gold royalties from higher gold price
- Higher sussex – TSF material conditioning
- Non-cash – Changes to mining plan and stockpile processing (arising from rain event)

Operation (100% basis)	Unit	Jun 2024 Qtr	Mar 2024 Qtr	CY2024
Ore milled	kt	2,082	1,938	4,020
Head Grade	g/t	1.04	1.09	1.06
Recovery	%	90.6	92.7	91.6
Gold Produced*	oz	62,535	64,323	126,858
Gold Road **				
Gold Sold	oz	31,216	32,325	63,542
Average Sales Price	A\$/oz	3,532	3,137	3,331
Cash Cost	A\$/oz	1,246	1,090	1,167
AISC	A\$/oz	2,441	2,194	2,316

See ASX announcement dated 31 July 2024
100% basis unless otherwise stated

#Gold Road operates to a calendar financial year. * Gold produced is after GIC adjustment

**Attributable to Gold Road. Cost per ounce reported against gold ounces produced during the quarter and either sold or held as dore/bullion during the quarter.

Refer to Gold Road's quarterly reports. Following the protracted rain event in March, Gold Road guides annual production at the lower end of the production range presented above.

Gruyere Ramp up to 65-70Mtpa

Securing Future Ore Delivery

Total Material Movement per Month

Additional Mining Fleet to support 65-70Mtpa (total movement)

- New drill fleet – remaining 3 Sandvik DR410 mobilising in August
- New 600t shovel commissioned in June in addition to existing 600t excavator & 3 x 400t class excavators
- 28 x 240t trucks with additional 2 mobilising in August

People and Systems to Support Expansion

- Fully staffed for expanded fleet
- MACA now owned by Thiess – Tier 1 global contractor – capital investment, operating and maintenance practices
- Significant training, development and leadership changes throughout Gruyere

Gruyere JV Outlook & Growth

► Gruyere JV - Golden Highway

Golden Highway Approvals and Studies – Mining from 2026

2023

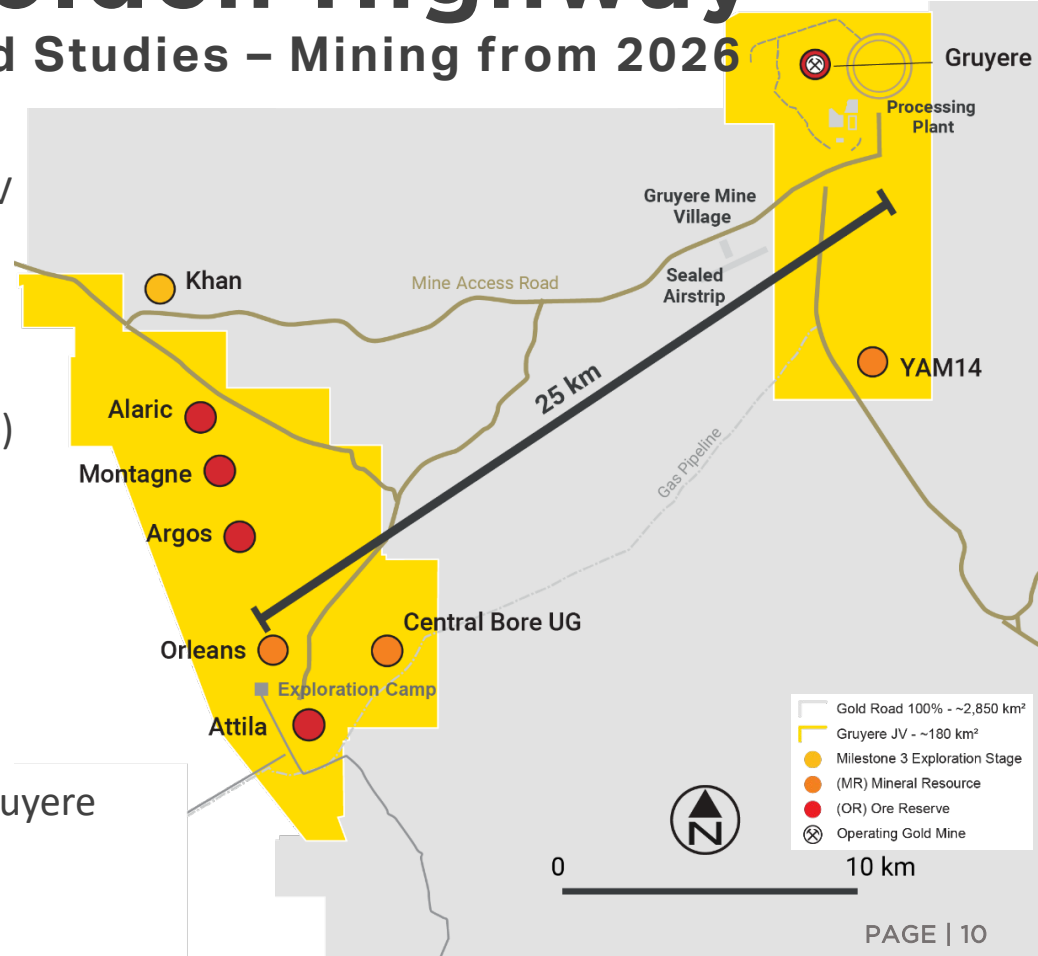

- Resource drill out by Gold Road for Gruyere JV
- Ore Reserves of 0.3 Million Ounces

2024 - 2025

- Mining studies well advanced (complete 2024)
- Environmental and Heritage studies
- Permitting and Approvals

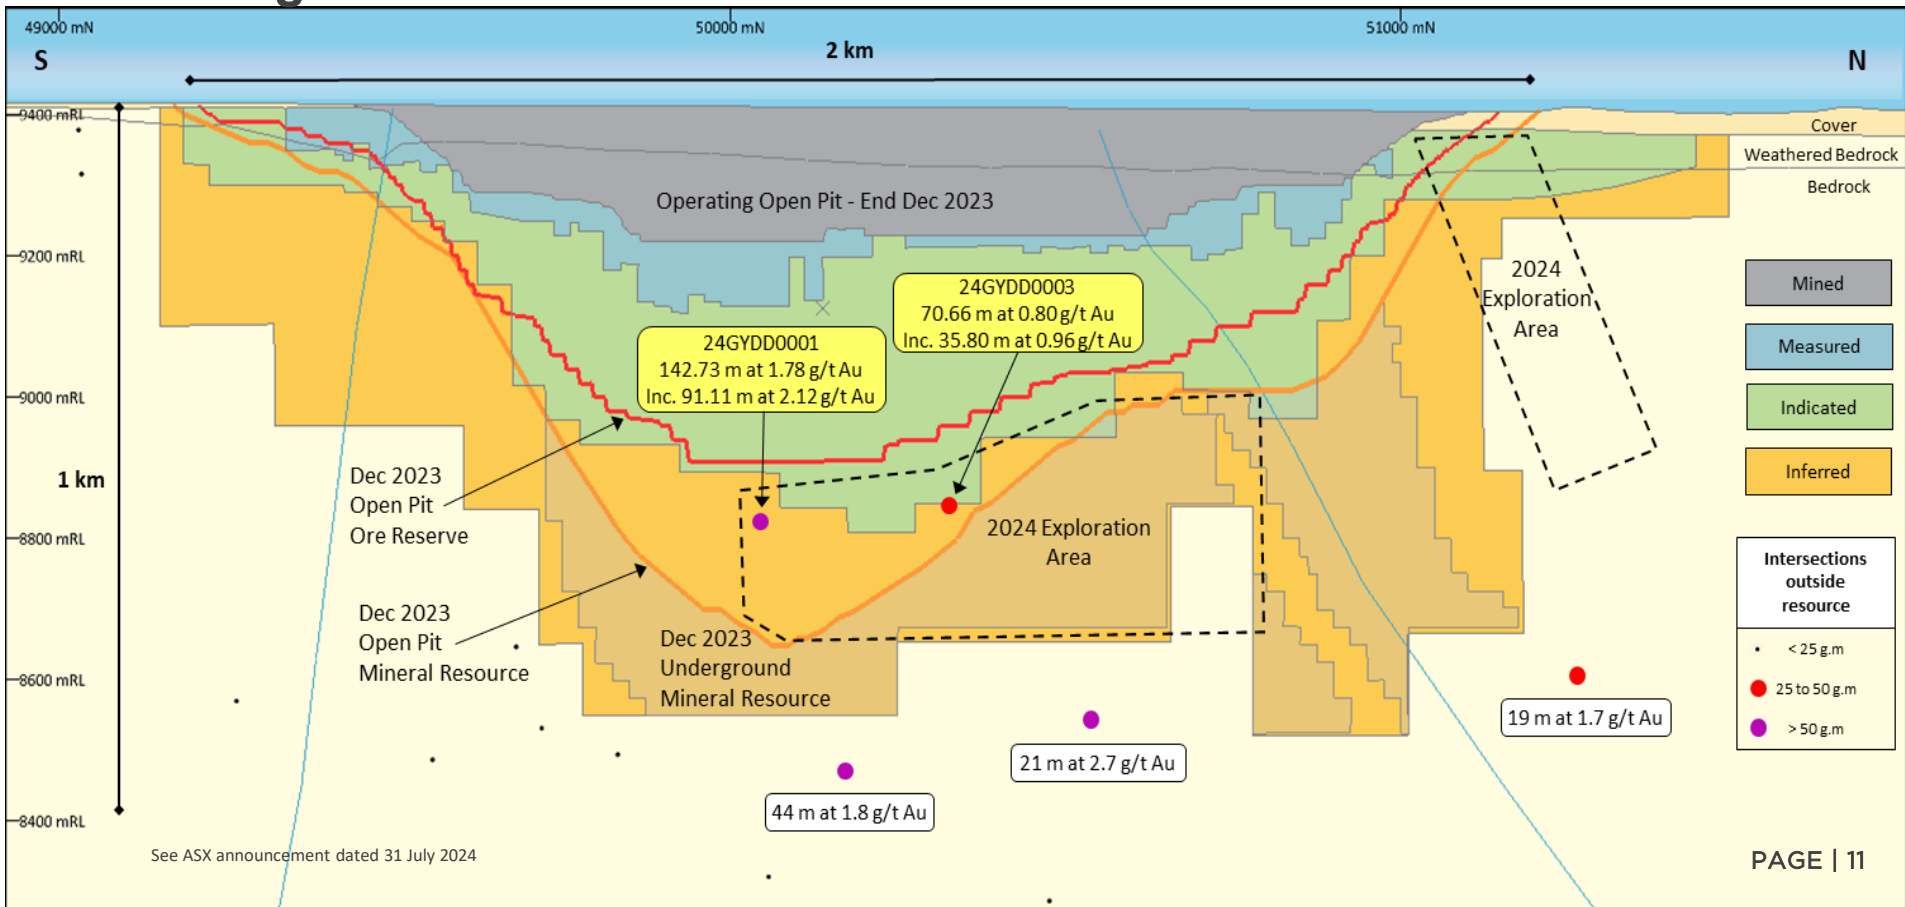

~2026 – 2028

- Approval for mining start in H1 2026
- Mining will augment primary ore supply to Gruyere

Gruyere 2024 Exploration

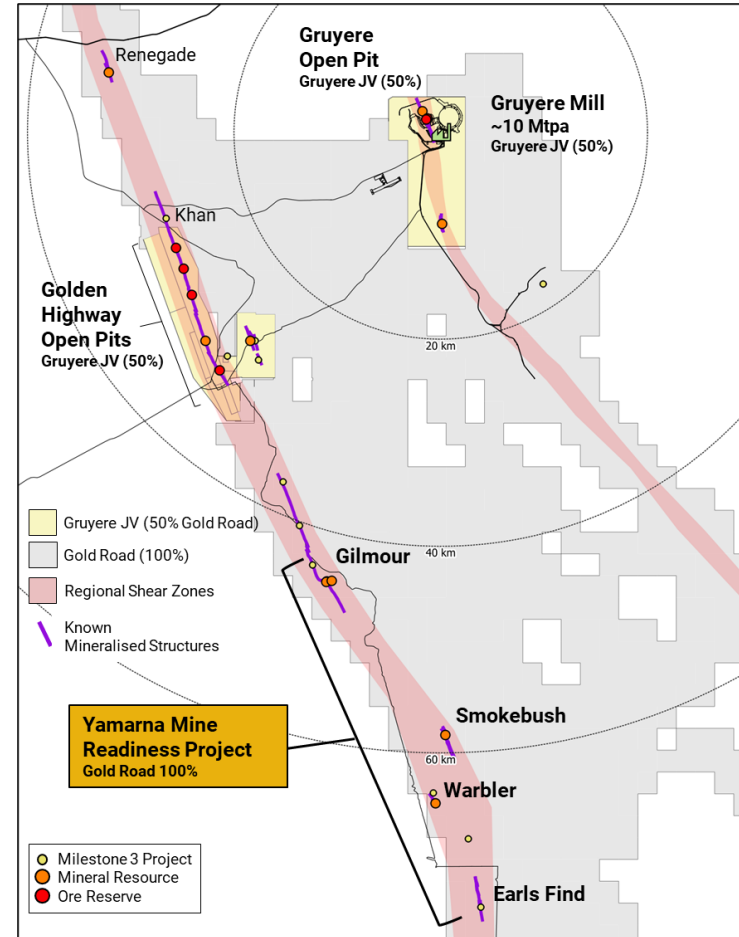

Drilling Beneath Current Ore Reserves

► Yamarna Mine Readiness Project

Advancing Toward Mining

- Continuing the development 100% owned Yamarna assets
Mineral Resources - 6.4 Mt at 2.44 g/t Au for 0.51 Moz
- Ore Reserve definition drilling program progressed at Gilmour (0.3 Moz at 3.28 g/t Au Mineral Resource)
- Permitting and Native Title negotiations underway
- Technical studies progressing
- Targeting mine readiness in 2026
- Pipeline of resources continuing from Gilmour

Gilmour New Results

- Several excellent results returned from Gilmour reserve definition drilling
- Depth/plunge extensions to known ore shoots remain open
- Assay results pending and additional drilling is planned

Gilmour & Gilmour North Long Section (looking west) showing selected recent and previous assay results

Discovery

**GOLD
ROAD**
RESOURCES

► Exploration Strategy

Discover "Mine 2"

- 100% owned exploration properties

- Australia Wide Portfolio

- Encouraging early-stage results

- Mallina
- Balter
- Greenvale
- Galloway

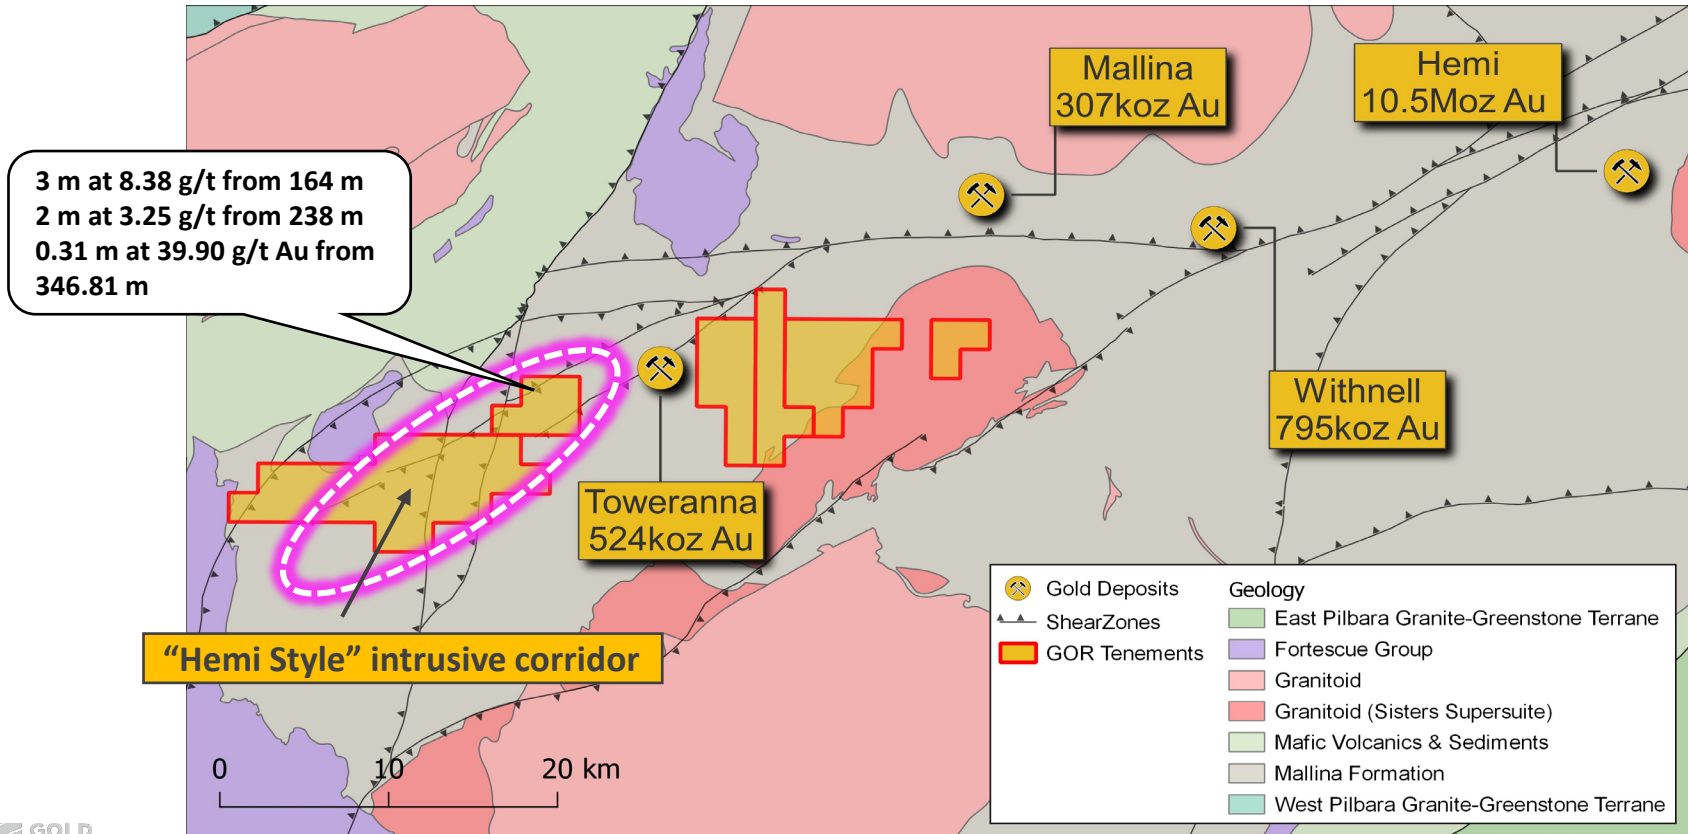

- Non-managed base-metals JV projects

- Free carried

Mallina (100%)

A Hemi Style Target

Balter

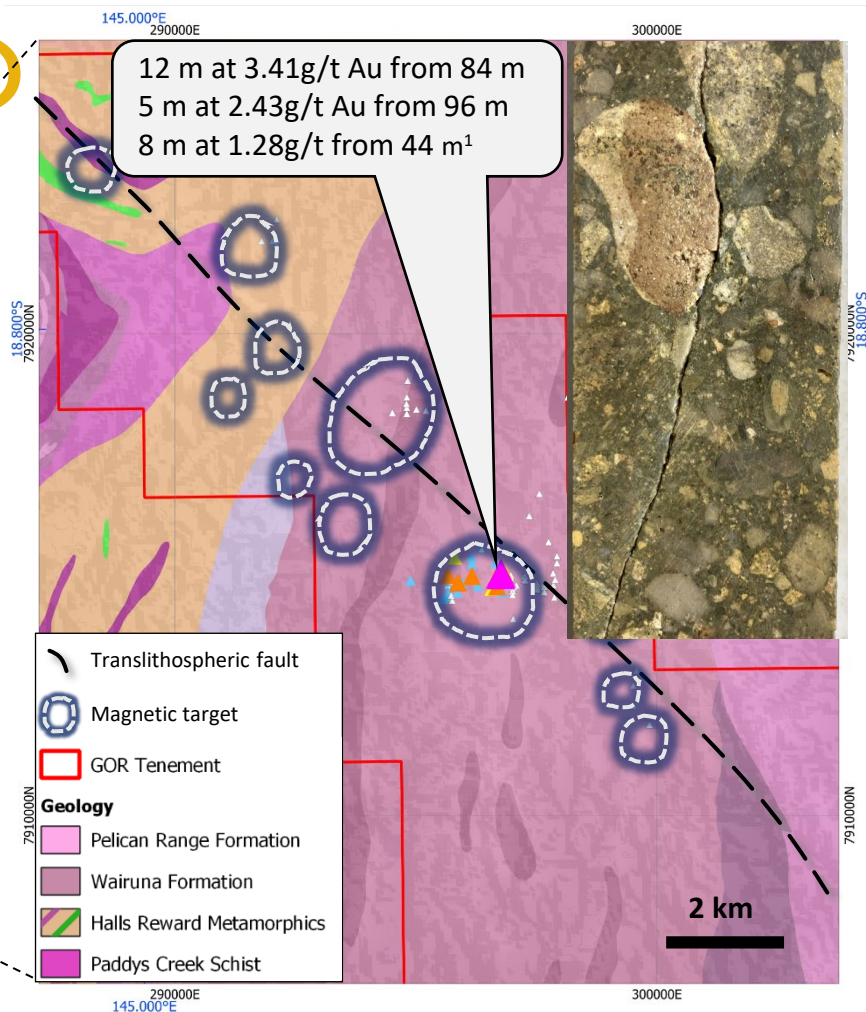

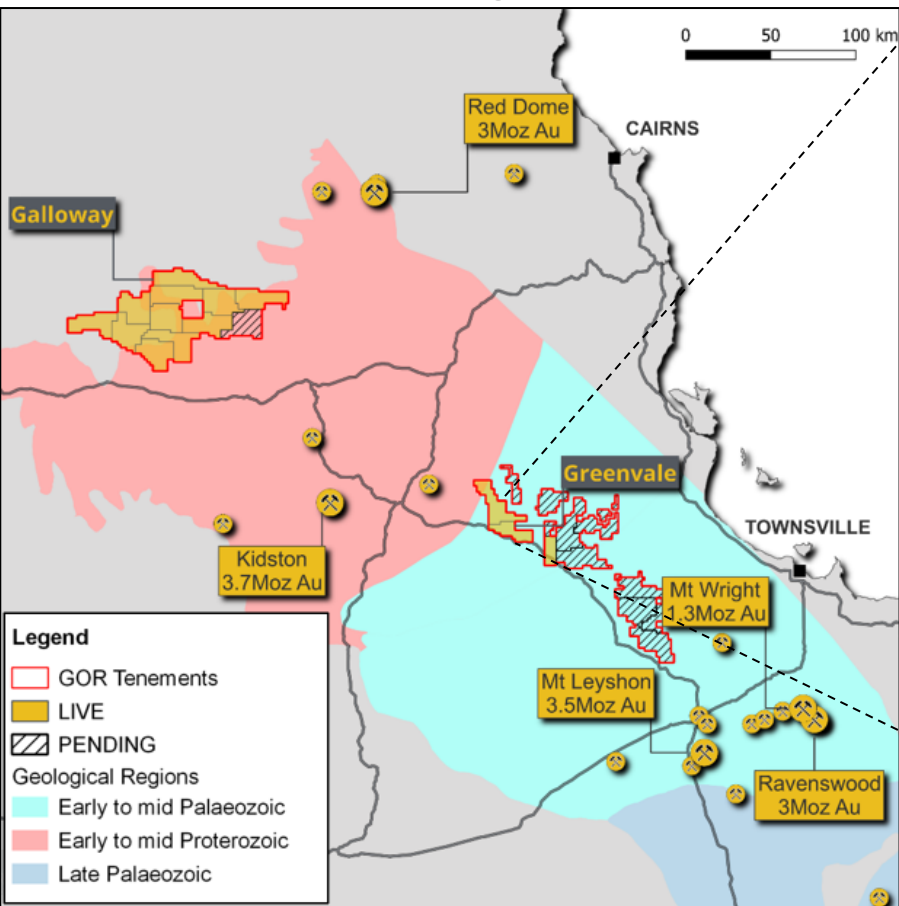

Underexplored Region in WA

- Project acquired early 2024
- No prior drilling
- Two > 5 km long gold in soil anomalies
- Exceptional rock chip results up to 37 g/t Au
- Analogies to Tropicana
- Drilling planned later this year

Outcrop that returned 37 g/t Au

Queensland (100%) Greenvale Project

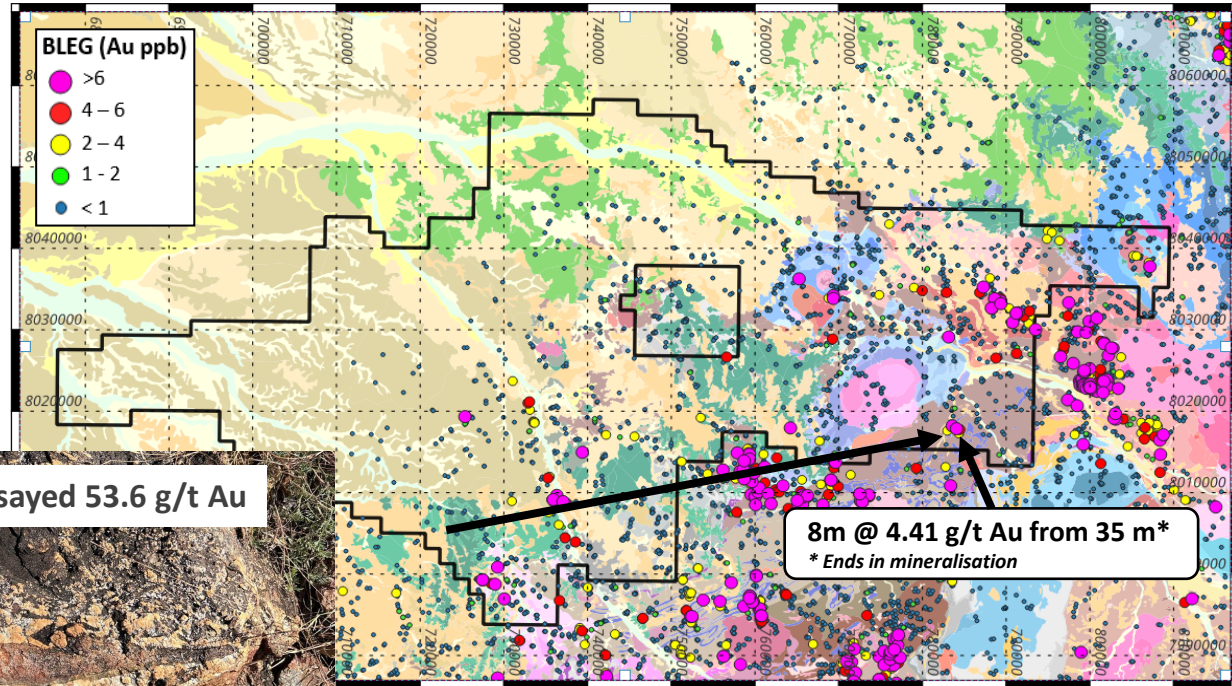

¹Normandy mining Annual Report for Exploration Permits for Minerals 9174, 10076, and 11428, Jupiter Creek Project, North Queensland for the period 10 February 1997 to 9 February 1998. Report CR30413.

► Queensland (100%)

Galloway Project - Applying a New Concept to a Fertile Area

Surface Geology 1:100K

- Early-stage target
- Extensive anomalism
- Crustal-scale structures
- Fieldwork underway

GOLD ROAD SUMMARY

Getting Back On Track

Challenging H1 2024 – rain impacts
Recovery mode for a much stronger 2025
Long Mine Life at Gruyere to at least 2032

Disciplined Growth

Progressing Yamarna Mine Readiness
Multiple encouraging exploration projects
Strategic Investment in De Grey Mining

A Strong Business

Cash and equivalents of \$86M
Debt Free, Hedge Free
Investment portfolio market value ~\$513M*

INVESTOR RELATIONS ENQUIRIES

*Market Value of \$513 million as at 2 August 2024

Appendices

Competent Persons Statement
Mineral Resources & Ore Reserves Table

Competent Persons Statement

Exploration Results

The information in this report which relates to Exploration Results is based on information compiled by Dr Mark Lindsay, General Manager - Discovery. Dr Lindsay is an employee of Gold Road, and a Member of the Australasian Institute of Geoscientists (MAIG 3002). Dr Lindsay is a holder of Gold Road Performance Rights.

Dr Lindsay has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Dr Lindsay consents to the inclusion in the report of the matters based on this information in the form and context in which it appears.

Mineral Resources

The information in this report that relates to the Mineral Resource estimation for the Gruyere, Attila, Argos, Montagne and Alaric Open Pits is based on information compiled by Mr Richard Tully. Mr Tully is an employee of Gold Fields Australia, and is a Member of the Australasian Institute of Mining and Metallurgy (MAusIMM 992513) and a Member of the Australian Institute of Geoscientists (MAIG 2716).

Mr John Donaldson, Principal Resource Geologist for Gold Road has endorsed the Open Pit Mineral Resource estimates for Gruyere, Attila, Argos, Montagne and Alaric on behalf of Gold Road. Mr Donaldson is an employee of Gold Road and a Member of the Australian Institute of Geoscientists and a Registered Professional Geoscientist (MAIG RPGeo Mining 10147). Mr Donaldson is a shareholder and a holder of Performance Rights.

The information in this report that relates to the Mineral Resource estimation for Gruyere and Central Bore Underground, and the Orleans, YAM14, Renegade, Gilmour, Smokebush and Warbler Open Pits is based on information compiled by Mr John Donaldson, Principal Resource Geologist for Gold Road

Messrs Tully and Donaldson have sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as Competent Persons as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Messrs Tully and Donaldson consent to the inclusion in the report of the matters based on this information in the form and context in which it appears.

Ore Reserves

The information in this report that relates to the Ore Reserve estimation for Gruyere, Attila, Montagne, Argos and Alaric is based on information compiled by Mr Sawan Prehar. Mr Prehar is an employee of Gold Fields Australia and a Member of the Australasian Institute of Mining and Metallurgy (MAusIMM 3111441).

Mr Jeff Dang, Manager - Mining and Corporate Development for Gold Road has endorsed the Ore Reserve estimation for Gruyere on behalf of Gold Road. Mr Dang is an employee of Gold Road and is a Member of the Australasian Institute of Mining and Metallurgy (MAusIMM 307499). Mr Dang is a holder of Performance Rights.

Messrs Prehar and Dang have sufficient experience that is relevant to the style of mineralisation and type of deposits under consideration and to the activity currently being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Messrs Prehar and Dang consent to the inclusion in this announcement of the matters based on this information in the form and context in which it appears.

New Information or Data

Gold Road confirms that it is not aware of any new information or data that materially affects the information included in the original market announcements and, in the case of estimates of Mineral Resources and Ore Reserves that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed.

The Company confirms that the form and context in which the Competent Person's findings are presented have not materially changed from the original market announcement.

GJV Mineral Resource Table

31 December 2023

Project Name / Category	Gruyere Project Joint Venture - 100% basis			Gold Road Attributable

Mineral Resource & Ore Reserve

Mineral Resource Notes:

- All Mineral Resources are completed in accordance with the JORC Code 2012 Edition
- All figures are rounded to reflect appropriate levels of confidence. Apparent differences may occur due to rounding
- Mineral Resources are inclusive of Ore Reserves. Gruyere Measured category includes Surface Stockpiles (5.55 Mt at 0.71 g/t Au for 0.13 Moz). Mineral Resources are depleted for mining
- The Gruyere JV is a 50:50 joint venture between Gold Road and Gruyere Mining Company Pty Ltd, a wholly owned Australian subsidiary of Gold Fields Ltd. Figures are reported on a 100% basis unless otherwise specified, 50% is attributable to Gold Road. Gold Road's 50% attributable Mineral Resource for Gruyere Underground is reported independently of the Gruyere JV
- The Gruyere and Golden Highway Open Pit Mineral Resources are reported between 0.47 to 0.58 (oxide) and 0.50 to 0.61 (fresh) g/t Au cut-off grade. The Orleans and YAM14 Open Pit Mineral Resources are reported at 0.4 g/t Au cut-off grade. The Renegade, Gilmour, Smokebush and Warbler Mineral Resource are reported at 0.5 g/t Au cut-off grade. Cut-off grades allow for processing costs, recovery and haulage to the Gruyere Mill
- The Gruyere Open Pit Mineral Resource is constrained within a A\$2,300 per ounce optimised pit shell. The Golden Highway, Orleans and YAM14 Open Pit Mineral Resources are constrained within A\$2,000 per ounce optimised pit shells. The Renegade, Gilmour, Smokebush and Warbler Open Pit Mineral Resources are constrained within A\$2,200 per ounce optimised pit shells. Gold prices are derived from mining, processing and geotechnical parameters from the Golden Highway PFS, the Gruyere FS and current Gruyere JV operational cost data
- The Underground Mineral Resource at Gruyere was evaluated by Gold Road on the same geology model used to estimate the December 2023 Open Pit Mineral Resource. The model was evaluated exclusively below the A\$2,300 per ounce pit optimisation shell utilised to constrain the Open Pit Mineral Resource and is reported as 100% in the Inferred category
- The Underground Mineral Resource at Gruyere is constrained by Mineable Shape Optimiser (MSO) shapes of dimensions consistent with underground mass mining. The MSO shapes are optimised at cut-off grades based on benchmarked mining costs, current Gruyere operating costs and processing recoveries at a A\$2,000 per ounce gold price
- Underground Mineral Resources at Gruyere considered appropriate for potential mass mining exploitation in the Central Zone are constrained within MSO shapes of 25 metre minimum mining width in a transverse orientation and 25 metre sub-level interval, and are optimised to a cut-off grade of 1.0 g/t Au
- Underground Mineral Resources at Gruyere considered appropriate for potential mass mining exploitation in the Northern Zone are constrained within MSO shapes of 5 metre minimum mining width in longitudinal orientation and 25 metre sub-level interval and are optimised to a cut-off grade of 1.5 g/t Au
- Underground Mineral Resources at Central Bore are constrained by a 1.5 metre minimum stope width that are optimised to a 3.5 g/t Au cut-off reflective of a A\$1,850 per ounce gold price
- Underground Mineral Resources at Gilmour are constrained by an area defined by a 2 metre minimum stope width and a 3.0 g/t Au cut-off reflective of a A\$2,200 per ounce gold price
- Underground Mineral Resources are reported with diluted tonnages and grades based on minimum stope widths

Ore Reserve Notes:

- All Ore Reserves are completed in accordance with the 2012 JORC Code Edition
- All figures are rounded to reflect appropriate levels of confidence. Apparent differences may occur due to rounding.
- The Gruyere JV is a 50:50 joint venture between Gold Road and Gruyere Mining Company Pty Limited, a wholly owned Australian subsidiary of Gold Fields Ltd. Figures are reported on a 100% basis unless otherwise specified, 50% is attributable to Gold Road
- Gold Road holds an uncapped 1.5% net smelter return royalty on Gold Fields' share of production from the Gruyere JV once total gold production exceeds 2 million ounces
- The pit design for reporting the Gruyere Ore Reserve is derived from mining, processing and geotechnical parameters as defined by operational studies, FS and PFS level studies completed between 2019 and 2023 and the 2016 FS. The Ore Reserve is reported using the 2023 Mineral Resource model constrained within the pit design (which is derived from a A\$1,575 per ounce optimisation) and with Ore Reserves reported at A\$2,000 per ounce gold price
- The Ore Reserve for the Golden Highway Deposits which include Attila, Argos, Montagne, and Alaric is constrained within a A\$2,000 per ounce mine design derived from mining, processing and geotechnical parameters as defined by 2020 PFS and operational studies
- The Ore Reserve is evaluated using variable cut-off grades (fresh, transitional and oxide respectively): Gruyere - 0.57, 0.54, 0.54 g/t Au. Attila - 0.69, 0.62, 0.58 g/t Au. Argos - 0.64, 0.64, 0.62 g/t Au. Montagne - 0.67, 0.60, 0.59 g/t Au. Alaric - 0.68, 0.68, 0.66 g/t Au
- Ore block tonnage dilution and mining recovery estimates: Gruyere - 6% and 99%. Attila - 21% and 99%. Argos - 17% and 89%. Montagne - 15% and 94%. Alaric - 31% and 99%
- Gruyere Proved category includes Surface Stockpiles. Ore Reserves are depleted for mining
