ANNUAL REPORT 30 JUNE 2024

CHAIRMAN'S REPORT

Dear Shareholders,

FY24 in review

During the current year, Cycliq was proud to announce the launch of the Fly6 Pro, our most sophisticated bike camera and light system to date. This revolutionary product represents a significant leap in our premium camera line, featuring a cutting-edge redesign and technological advancements including 4K video recording, 5Ghz Wi-Fi downloads and up to 7 hours of battery life in a robust IP67 housing. Sales of the new product were strong, earning \$0.75m since launch in April 2024.

Cycliq also improved and enhanced the consumers experience during the year, following an upgrade of its e-commerce product page layout and cart experience ahead of the Fly6 Pro Launch. The new product pages utilise enhanced UI, cutting edge 3D animations and product videos.

Overall revenue for FY24 was lower than FY23 - \$4.6m compared to \$5.2m. The Company considers this to mainly be the result of a shift in cycling consumer spending which mirrored the current sentiment in the cycling industry. However, a strong 4th quarter of sales, following the long-awaited launch of the Fly6 Pro device and an UpRide 4th Birthday sale indicate a positive turn for FY25.

The Company's balance sheet remains stable with a closing cash position at 30 June 2024 of \$0.6 million and inventory of \$0.3 million.

The Company received a \$0.25 million cash refund under the Federal Government's Research and Development Tax Incentive Scheme in September 2023 and continues to invest in research and development into other new product releases.

On 20 June 2024, the Company announced it had received a Writ of Summons for a legal proceeding commenced out of the Supreme Court of Western Australia by Cycliq Research and Development (HK) Limited. The Board has instructed the Company's lawyers to defend the claim including to challenge the jurisdiction of the Court to hear the claim.

The Year Ahead

During the first few months of FY2025, Cycliq will replenish stock, particularly Fly12 Sport devices, which were depleted globally in the June quarter and meet waiting customer demands.

In the following months, Cycliq will concentrate on building stock levels in global warehouses and streamlining distributionin preparation for the much anticipated Black Friday sales period.

I would like to take this opportunity to thank the management team and fellow Board members for their significant contributions during the year.

Andrew Chapman Interim Chairman

AND CONTROLLED ENTITIES

ANNUAL REPORT 30 JUNE 2024

DIRECTORS' REPORT

Your directors present their report on the Group, consisting of Cycliq Group Limited ("Cycliq" or the "Company") and its controlled entities (collectively the "Group"), for the year ended 30 June 2024.

Directors

The names of Directors in office at any time during the year or since the end of the year are:

Andrew Chapman Non-Executive Interim Chairman Appointed 30 January 2024

David Wheeler Non-Executive Director
Chris Mews Non-Executive Director

Xavier Kris Non-Executive Chairman Resigned 30 January 2024

Directors have been in office since the start of the year to the date of this report unless otherwise stated.

Company Secretary

Tim Slate Joint Company Secretary
Carla Healy Joint Company Secretary

Principal Activities

Cycliq Group Limited ("Cycliq") is a Cycliq is a smart safety, action and sport cycling company based in, Australia, manufacturing and marketing the world-first cycling light and camera safety system the Fly6, Fly6 Pro and Fly12 Sport.

Operating Results

The consolidated loss for the year amounted to \$879,720 (2023: \$426,416).

Material Business Risks

Manufacturer and supplier risk

Cycliq does not have internal manufacturing capabilities and relies on contractors to manufacture the products. Cycliq current relies manufacturers located in mainland China for its main product lines.

Any termination or significant damage to the arrangements with Cycliq's manufacturing partners could affect Cycliq's ability to manufacture its products and meet customer demand until a replacement contractor can be engaged.

Operational difficulties may arise with manufacturers, including reductions in the availability of production capacity, errors in complying with product specifications, insufficient quality control, failures to meet production deadlines, increases in manufacturing costs and increased lead times. Industrial action or workforce issues with contract manufacturers may lead to delays in the production of the products. The price of components for Cycliq products could also increase reducing the margin per product. If there are delays in product development due to contracted manufacturers or suppliers, it could mean a delay in the release of products which could have a negative effect on revenues.

The engagement of additional manufacturing contractors may assist Cycliq in managing and reducing some of these risks.

Whilst Cycliq does not control contracted manufacturers or suppliers, Cycliq requires contracted manufacturers and suppliers to comply with their formal supplier code of conduct and relevant standards and have ongoing audit programs in place to assess compliance with such requirements.

Litigation risk

Due to the nature of the Company's business it may be exposed to potential litigation in the ordinary course of its business from time to time. The Company remains in dispute with its joint venture partner in Hong Kong. The Company continues to seek a final resolution and exit from the joint venture.

On 20 June 2024, the Company announced it had received a Writ of Summons for a legal proceeding commenced out of the Supreme Court of Western Australia by Cycliq Research and Development (HK) Limited. The Board has instructed the Company's lawyers to defend the claim including to challenge the jurisdiction of the Court to hear the claim.

As at the date of this report, there are no current legal proceedings affecting the Company and the Directors are not aware of any legal proceedings pending or threatened against or affecting the Company, other than as set out above.

AND CONTROLLED ENTITIES

ANNUAL REPORT 30 JUNE 2024

DIRECTORS' REPORT

Future capital needs

Additional funding may be required by the Company to effectively implement its business and operations plans in the future, to take advantage of other business opportunities, and to meet any unanticipated liabilities or expenses which it may incur.

Any additional equity financing will dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. There is no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company.

If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations and scale back its business. Further, if adequate funds are not available on acceptable terms, it may impact the ability of the Company to continue as a going concern.

Competition and new technologies

The industry in which Cycliq is involved is subject to increasing domestic and global competition which is fast paced and continuously changing. Whilst the Company will undertake all reasonable and appropriate due diligence prior to making business and operations decisions, Cycliq has no influence or control over the activities or actions of its competitors, whose activities or actions may positively or negatively affect the operating and financial performance of the Company's business operations.

The size and financial strength of some of Cycliq's competitors may make it difficult for it to maintain a competitive position in the technology market. In particular, Cycliq's ability to acquire additional technology interests could be adversely affected if it is unable to respond effectively and/or in a timely manner to the strategies and actions of competitors and potential competitors or the entry of new competitors into the market. This may in turn impede the financial condition and rate of growth of the Company.

Customer retention and attraction to the Cycliq technology

The Company's revenue is impacted by its ability to attract customers to the Cycliq technology. Various factors can affect the level of customers using the Cycliq technology, such as, marketing and promotions, reputation, and pricing. There is no guarantee that the Company's marketing strategies will continue to be successful to maintain and improve the take up of its products by customers in the future.

Staff risk

There is a risk that, where there is a turnover of development staff who have knowledge of the technology and business, that knowledge will be lost in the event that those staff resign or retire. This involves the risk that those staff will have information in respect of the Company's intellectual property which has a commercial value to the Company as well as an opportunity cost for replacement of those staff and subsequent training.

This risk is mitigated as the Company has historically had low levels of staff turnover in the development teams. In addition, all staff contracts contain express provisions with respect to ownership of intellectual property and restraints of trade to limit any potential loss suffered by the Company to the maximum extent possible.

Foreign jurisdiction risk

The financial performance of each of the Company's operations in so far as they rely on suppliers from foreign jurisdictions may be adversely impacted by current or future fiscal or regulatory regimes, local laws and regulations or changes to the economic, political, judicial, administrative and security, climate or policies in those geographies.

Any operations of the Company are subject to a number of risks, including (but not limited to):

- Potential difficulties in enforcing agreements and collecting receivables in overseas jurisdictions;
- Potential difficulties in protecting rights and interests in assets;
- Changes in costs of shipping and transportation; and
- The imposition of quotas, tariffs or other taxes.

Inventory Risk

To ensure there is an appropriate amount of inventory for each of the product lines, Cycliq forecast the anticipated demand for each product in advance of demand. This means placing orders with suppliers well in advance of requiring the products. If inventory management is not managed correctly, it could lead to an inability to continue working with channel partners leading to lower levels of revenue. If demands levels are underestimated, it could require Cycliq to source increased production capacity which would incur greater than anticipated costs of components and production leading to lower business and operating results.

AND CONTROLLED ENTITIES

ANNUAL REPORT 30 JUNE 2024

DIRECTORS' REPORT

Product support and warranty

Cycliq offers a limited warranty on its products, depending on jurisdiction, and provides a product support division that addresses any support issues and determines if products are faulty or if the issue can be resolved directly with the customer. Every time a new product is introduced it will expose the Company to liability under the warranty. In addition, as the Company's products are innovative and constantly adapting to change there is a risk that a product may be faulty or require a recall.

Information systems and systems risk

The Company is increasingly dependent on information systems to operate its e-commerce website, process transactions, respond to customer enquiries, manage its supply chain and ship goods, maintain cost efficient operations and provide accurate financial reporting. Failures or interruptions in any of its information systems could affect the Company's ability to conduct and manage its operations.

Logistics and shipping

The Company's business relies on ensuring the efficient and timely delivery of goods to customers. Third party providers are relied upon for warehousing, storage, delivery, tracking, record keeping operations and systems. If any of these systems or operations were to be disrupted it would affect the Company's ability to maintain business operations.

Reliance on key personnel

The Company's success largely depends on the core competencies of its Directors and management and their ability to maintain and grow the Company's business operations.

Product development

The growth of the Company largely depends on the ability to anticipate consumer demand and deliver solutions in a timely manner. The cost and effort involved in product development is substantial and may continue to be a growing cost for the Company. Developing new and innovative products involves many unknown factors such as requiring materials not yet available for design and engineering challenges that could require substantial additional resources. There may not be commercially appropriate uses for these products.

New products

Developing related products and accessories to support the main Cycliq suite of products could divert consumer interest and internal human resources away from the core range of Cycliq products. The market might not readily accept the Company delivering new product ranges with new features and this carries substantial financial risk. Adjusting the product mix by bringing out lower costing products could ultimately reduce general revenues if there is greater demand for the related products.

Foreign exchange

The Company generates some of its revenue through product sales in jurisdictions other than Australia and in foreign currencies. A large portion of the Company's manufacturing and supply costs are also denominated in foreign currencies. Accordingly, fluctuations in foreign exchange rates and the Australian dollar will have a direct effect on the financial performance of the Company.

Intellectual property risk

Cycliq has intellectual property right protection in the form of trademarks, trade mark applications patents and patent applications. The patents and trademarks are only enforceable in the territories in which they are registered.

Legal standards relating to the validity, enforceability and scope of protection of intellectual property rights varies across jurisdictions. Effective patent, trademark, copyright and trade secret protection may not be available to the Company in every country in which the Cycliq technology is sold and may be sold in the future. Accordingly, despite its efforts, the Company may not be able to prevent third parties from copying, infringing upon or misappropriating its intellectual property.

The Company may be required to incur expenses in maintaining, monitoring and protecting its intellectual property rights for itself and/or any current and future licensees and distributors. The Company may initiate or otherwise be involved in legal proceedings against third parties to pursue infringement, or to establish, its intellectual property rights. Any legal proceedings could result in significant expense to the Company and cause a disruption to the Company's operations.

AND CONTROLLED ENTITIES

ANNUAL REPORT 30 JUNE 2024

DIRECTORS' REPORT

Insurance

The Company may maintain insurance within ranges of coverage that it believes to be consistent with industry practice and having regard to the nature of activities being conducted. However, it is not always possible to cost-effectively insure or obtain insurance against all risks associated with such activities. The Company may decide not to take out insurance against certain risks as a result of high premiums or for other reasons.

Should liabilities arise on uninsured risks, the Company's business, financial condition and results of operations and the market price of the Shares may be materially adversely affected.

Environmental regulations

The Company believes they are complying with all of the current environmental regulatory requirements. However, environmental regulations change from time to time and this could affect the Company's business operations and the use of materials in the future.

Technology sector risks

The technology sector is characterised by rapid change. New and disruptive technologies can place competitive pressures on existing companies and business models, and technology stocks may experience greater price volatility than securities in some slower changing market sectors.

The value of the Company's securities may be adversely affected by any general decline in the valuation of listed securities and/or adverse market sentiment towards the technology sector in particular, regardless of the Company's operating performance.

Economic

General economic conditions, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's activities, as well as on its ability to fund those activities.

Market conditions

Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:

- general economic outlook;
- introduction of tax reform or other new legislation;
- interest rates and inflation rates;
- changes in investor sentiment toward particular market sectors;
- the demand for, and supply of, capital;
- fear of global pandemics; and
- terrorism or other hostilities.

The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general. Neither the Company or its Directors warrant the future performance of the Company or any return on an investment in the Company.

Review of Operations

A detailed review of the Group's operations is set out in the Chairmans Report.

Financial Position

The net liabilities of the Group are \$11,980 at 30 June 2024 (2023: net assets \$768,889)

Significant Changes in State of Affairs

There were no significant changes in the state of affairs of Cycliq Group Limited and its controlled entities during the financial year ended 30 June 2024.

Subsequent Events

There are no events of a material nature or transaction, that have arisen since year end and the date of this report that has significantly affected, or may significantly affect, the Group's operations, the results of those operations, or its state of affairs.

DIRECTORS' REPORT

Non-Audit Services

There were no non-audit services provided during the year by the auditor.

Indemnifying Officers or Auditor

The Company has agreed to indemnify the directors of the Company, the directors of controlled entities and executive officers against all liabilities to other persons (other than the Company or a related body corporate) that may arise from their position as directors of the Company and its controlled entities, except where the liability arises out of conduct involving a lack of good faith. The agreement stipulates that the Company will meet the full amount of any such liabilities, including costs and expenses.

During the year the Company paid insurance premiums to insure Directors and Officers against certain liabilities arising out of their conduct while acting as an officer of the Group. Under the terms and conditions of the insurance contract, the nature of the liabilities insured against and the premium paid cannot be disclosed.

Environmental Issues

In the normal course of business, there are no environmental regulations or requirements that the Company is subject to.

The Directors have considered the enacted National Greenhouse and Energy Reporting Act 2007 (the NGER Act) which introduced a single national reporting framework for the reporting and dissemination of information about the greenhouse gas emissions, greenhouse gas projects, and energy use and production of corporations. At the current stage of development, the Directors have determined that the NGER Act has no effect on the Company for the current, nor subsequent, financial year. The Directors will reassess this position as and when the need arises.

Corporate Governance Statement

The Group's full Corporate Governance Statement can be found attached to the appendix 4G lodged on the ASX.

Auditors Independence Declaration

The lead auditor's independence declaration for the year ended 30 June 2024 has been received and can be found on page 13 of this annual report.

Proceedings on Behalf of Company

No person has applied for leave of court to bring proceedings on behalf of the Company or intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company for all or any part of those proceedings.

To the Board of Directors,

Auditor's Independence Declaration under Section 307C of the Corporations Act 2001

As lead audit Director for the audit of the financial statements of Cycliq Group Limited for the financial year ended 30 June 2024, I declare that to the best of my knowledge and belief, there have been no contraventions of:

- the auditor independence requirements of the Corporations Act 2001 in relation to the audit; and
- any applicable code of professional conduct in relation to the audit.

AND CONTROLLED ENTITIES

ANNUAL REPORT 30 JUNE 2024

DIRECTORS' REPORT – REMUNERATION REPORT (AUDITED)

The information in this remuneration report has been audited as required by s308(3C) of the Corporations Act 2001.

Remuneration Policy

The remuneration policy of Cycliq Group Limited has been designed to align director and management objectives with shareholder and business objectives by providing a fixed remuneration component, and offering specific long-term incentives based on key performance areas affecting the Group's financial results. The Board of Cycliq Group Limited believes the remuneration policy to be appropriate and effective in its ability to attract and retain the best management and directors to run and manage the Group, as well as create goal congruence between directors, executives and shareholders. The Board's policy for determining the nature and amount of remuneration for Board members and senior executives of the Group is as follows:

- All executives receive a base salary (which is based on factors such as length of service and experience), superannuation, options and performance incentives. The Board reviews executive packages annually by reference to the Group's performance, executive performance, and comparable information from industry sectors and other listed companies in similar industries.
- Non-Executive Directors and Executives receive superannuation guarantee contributions as required by legislation and do not receive any other retirement benefits. All remuneration paid to Directors and executives is valued at cost and expensed. Options and performance shares given to Directors and employees are valued using Black-Scholes methodology. The Board's policy is to remunerate Non-Executive Directors at the lower end of market rates for comparable companies for time, commitment, and responsibilities.
- The Group has an incentive option and performance share scheme in place intended to incentivise the Non-Executive Directors. The Board determines payments to the Non-Executive Directors and reviews their remuneration annually based on market practice, duties, and accountability. Independent external advice may be sought when required. The maximum aggregate amount of fees that can be paid to Non-Executive Directors is subject to approval by shareholders at the Annual General Meeting. Fees for Non-Executive Directors are not linked to the performance of the Group. However, to align Directors' interests with shareholder interests, Directors are encouraged to hold shares in the Company.

The remuneration policy has been tailored to increase the direct positive relationship between shareholders' investment objectives and directors' and executives' performance. Currently, this is facilitated through the performance share and incentive option scheme which aims to encourage the alignment of personal and shareholder interests. The Company believes this policy will be effective in increasing shareholder wealth.

Details of Board Remuneration

There were no cash bonuses paid during the year and there are no set performance criteria for achieving cash bonuses.

The table on the following page details the various components of remuneration for each member of the key management personnel of the Group. The term "Key Management Personnel" (or "KMP") (as defined in AASB 124 Related Party Disclosures) refers to those persons having authority and responsibility for planning, directing and controlling the activities of the group directly or indirectly including any Director (whether executive or otherwise) of the Group. The Key Management Personnel of the Group are the following Non-Executive and Executive Directors and officers of the Group.

Andrew Chapman Non-Executive Interim Chairman (appointed 30 Janaury 2024)

David Wheeler Non-Executive DirectorChris Mews Non-Executive Director

Xavier Kris
 Non-Executive Chairman (resigned 30 January 2024)

No other employee had authority or responsibility for planning, directing and controlling the activities of the Company, either directly or indirectly, during the financial year.

DIRECTORS' REPORT – REMUNERATION REPORT (AUDITED)

Service Agreements

Remuneration and other terms of employment for the following Key Management Personnel are formalised in employment agreements. The significant terms of employment at the date of this report are set out below:

Andrew Chapman

Mr Chapman's service agreement has been in place since his appointment on 30 January 2024.

Other Details

Mr Chapman's remuneration comprises director's fees of \$60,000 per annum.

David Wheeler

Mr Wheeler's service agreement has been in place since his commencement of employment on 11 June 2021.

Other Details

Mr Wheeler's remuneration comprises director's fees of \$36,000 per annum.

Chris Mews

Mr Mews' service agreement has been in place since his commencement of employment on 11 June 2021.

Other Details

Mr Mews' remuneration comprises director's fees of \$36,000 per annum.

Xavier Kris

Mr Kris' resigned on 30 January 2024. Prior to his resignation, Mr Kris' remuneration comprised director's fees of \$120,000 per annum.

AND CONTROLLED ENTITIES

ANNUAL REPORT 30 JUNE 2024

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2024

NOTE 1 STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

These are the consolidated financial statements and notes of Cycliq Group Limited ("Company") and controlled entities ("Consolidated Group" or "Group"). Cycliq Group Limited is a company limited by shares, domiciled and incorporated in Australia.

The separate financial statements of the parent entity, Cycliq Group Limited, have not been presented with this financial report as permitted by the Corporations Act 2001.

The financial statements were authorised for issue on 14 August 2024 by the Directors of the Company.

a) Basis of preparation

The financial statements comprise the consolidated financial statements of the Group. For the purpose of preparing the consolidated financial statements, the Company is a for-profit entity. Material accounting policies adopted in the preparation of these financial statements are presented below. They have been consistently applied unless otherwise stated.

i. Statement of compliance

These financial statements are general purpose financial statements which have been prepared in accordance with Australian Accounting Standards and Interpretations of the Australian Accounting Standards Board (AAS Board) and International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB), and the Corporations Act 2011 (Cth).

Australian Accounting Standards (AASBs) set out accounting policies that the AAS Board has concluded would result in a financial report containing relevant and reliable information about transactions, events and conditions to which they apply. Compliance with AASBs ensures that the financial statements and notes also comply with IFRS as issued by the IASB.

ii. Financial position

The consolidated financial statements have been prepared on an accruals basis and are based on historical costs unless otherwise stated in the notes. Cost is based on the fair values of the consideration given in exchange for assets. All amounts are presented in Australian dollars, unless otherwise noted. The amounts presented in the financial statements have been rounded to the nearest dollar.

iii. Going Concern

The financial report has been prepared on a going concern basis which contemplates the continuity of normal business activity, the realisation of assets and the settlement of liabilities in the ordinary course of business.

During the year the Group incurred a net loss of \$879,720 (2023: \$426,416). Net liabilities at 30 June 2024 were \$11,980 (30 June 2023: net assets \$768,889) and the Group held cash assets at 30 June 2024 of \$619,500 (2023: \$1,111,184). These factors indicate a material uncertainty that may cast significant doubt about the Group's ability to continue as a going concern. The directors have prepared a cashflow forecast which indicates that the group will have sufficient cashflows to meet all commitments and working capital requirements for the 12-month period from the date of signing this report.

The Directors are confident of the Group's ability to continue as a going concern for the following reasons:

- Management has prepared a cashflow forecast for the next 12 months that indicates the operating cash inflows will be sufficient to meet expenses and other financial obligations when they fall due;
- Management has demonstrated the ability to contain costs in all areas of the business;
- The Company is intending to introduce new product lines in the coming year providing additional sales
 opportunities to the existing customer base and to new customers; and
- The ability to raise capital or loans from shareholders or related parties.

AND CONTROLLED ENTITIES

ANNUAL REPORT 30 JUNE 2024

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2024

Based on the above, the Directors consider the going concern basis of preparation to be appropriate for this financial report.

The ability of the Group to continue to pay its debts as and when they fall due is dependent upon the Group generating consistent profits during the next 12 months from existing operations and, if required, raising additional capital to meet any shortfall should the Group require.

The financial statements do not include any adjustment relating to the recoverability or classification of recorded asset amounts or to the amounts or classifications of liabilities that might be necessary should the Group not be able to continue as a going concern.

iv. Use of estimates and judgements

The preparation of consolidated financial statements requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. These estimates and associated assumptions are based on historical experience and various factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period which the estimate is revised and in any future periods affected.

Judgments made by management in the application of AASBs that have significant effect on the consolidated financial statements and estimates with a significant risk of material adjustment in the next year are discussed in note 1(n).

v. Comparative figures

Where required by AASBs comparative (2023) figures have been adjusted to conform with changes in presentation for the current financial year.

Where the Group retrospectively applies an accounting policy, makes a retrospective restatement or reclassifies items in its financial statements, an additional (third) statement of financial position as at the beginning of the preceding period in addition to the minimum comparative financial statements is presented.

b) Principles of consolidation

As at reporting date, the assets and liabilities of all controlled entities have been incorporated into the consolidated financial statements as well as their results for the year then ended. Where controlled entities have entered or left the Consolidated Group during the year, their operating results have been included or excluded from the date control was obtained or ceased.

i. Business combinations

Business combinations are accounted for using the acquisition method as at the acquisition date, which is the date on which control is transferred to the Group. Control exists when the Group is exposed to variable returns from another entity and has the ability to affect those returns through its power over the entity.

The Group measures goodwill at the acquisition date as:

- the fair value of the consideration transferred; plus
- the recognised amount of any non-controlling interests in the acquire; plus
- if the business combination is achieved in stages, the fair value of the existing equity interest in the acquiree;
 less
- the net recognised amount of the identifiable assets acquired and liabilities assumed.

When the excess is negative, a bargain purchase gain is recognised immediately in profit or loss.

The consideration transferred does not include amounts related to settlement of pre-existing relationships. Such amounts are generally recognised in profit or loss

Costs related to the acquisition, other than those associated with the issue of debt or equity securities, that the Group incurs in connection with a business combination are expensed as incurred.

Any contingent consideration payable is recognised at fair value at the acquisition date. If the contingent consideration is classified as equity, it is not remeasured and settlement is accounted for within equity. Otherwise, subsequent changes to the fair value of the contingent consideration are recognised in profit or loss.

AND CONTROLLED ENTITIES

ANNUAL REPORT 30 JUNE 2024

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2024

ii. Subsidiaries

Subsidiaries are entities controlled by the Group. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

The accounting policies of subsidiaries have been changed when necessary to align them with the policies adopted by the Group. Losses applicable to the non-controlling interests in a subsidiary are allocated to the non-controlling interests even if doing so causes the non-controlling interests to have a deficit balance.

A list of controlled entities is contained at note 14 Controlled Entities.

iii. Loss of control

Upon the loss of control, the Group derecognises the assets and liabilities of the subsidiary, any non-controlling interests and the other components of equity related to the subsidiary. Any surplus or deficit arising on the loss of control is recognised in profit or loss. If the Group retains any interest in the previous subsidiary, than such interest is measured at fair value at the date control is lost. Subsequently it is accounted for as an equity-accounted investee or as an available-for-sale financial asset depending on the level of influence retained.

iv. Transactions eliminated on consolidation

All intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements.

c) Income tax

The income tax expense/(income) for the year comprises current income tax expense/(income) and deferred tax expense/(income).

Current income tax expense charged to the profit or loss is the tax payable on taxable income calculated using applicable income tax rates enacted, or substantially enacted, as at reporting date. Current tax liabilities (assets) are therefore measured at the amounts expected to be paid to (recovered from) the relevant taxation authority.

Deferred income tax expense reflects movements in deferred tax asset and deferred tax liability balances during the year as well unused tax losses.

Current and deferred income tax expense (income) is charged or credited outside profit or loss when the tax relates to items recognised outside profit or loss.

Deferred tax assets and liabilities are ascertained based on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets also result where amounts have been fully expensed but future tax deductions are available. No deferred income tax will be recognised from the initial recognition of an asset or liability, excluding a business combination, where there is no effect on accounting or taxable profit or loss.

Deferred tax assets and liabilities are calculated at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates enacted or substantively enacted at reporting date. Their measurement also reflects the manner in which management expects to recover or settle the carrying amount of the related asset or liability.

Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised.

Where temporary differences exist in relation to investments in subsidiaries, branches, associates, and joint ventures, deferred tax assets and liabilities are not recognised where the timing of the reversal of the temporary difference can be controlled and it is not probable that the reversal will occur in the foreseeable future.

Current tax assets and liabilities are offset where a legally enforceable right of set-off exists and it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur. Deferred tax assets and liabilities are offset where a legally enforceable right of set-off exists, the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur in future periods in which significant amounts of deferred tax assets or liabilities are expected to be recovered or settled.

d) Inventories

Inventories are measured at the lower of cost and net realisable value.

AND CONTROLLED ENTITIES

ANNUAL REPORT 30 JUNE 2024

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2024

e) Plant and equipment

i. Recognition and measurement

Items of plant and equipment are measured at cost less accumulated depreciation (see below) and impairment losses (impairment losses are discussed further in note 1i.

Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labour, any other costs directly attributable to bringing the asset to a working condition for its intended use, and the costs of dismantling and removing the items and restoring the site on which they are located, and an appropriate proportion of production overheads.

Where parts of an item of plant and equipment have different useful lives, they are accounted for as separate items of property, plant and equipment.

Gains and losses on disposal of an item of plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of plant and equipment and are recognised net within "other income" in profit or loss.

The carrying amount of plant and equipment is reviewed annually by Directors to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the assets employment and subsequent disposal. The expected net cash flows have not been discounted to their present values in determining recoverable amounts.

ii. Subsequent costs

The cost of replacing part of an item of plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group and its cost can be measured reliably. The costs of the day-to-day servicing of plant and equipment are recognised in the income statement as an expense as incurred.

iii. Depreciation

Depreciation is charged to the income statement on a straight-line basis over the asset's useful life to the consolidated group commencing from the time that the assets is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful lives of the improvements.

		2024 %	2023 %
•	Countertop Display advertising units	50%	50%
•	Computer equipment	33%	33%
•	Office furniture and equipment	33%	33%
•	Test Model	33%	33%

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

f) Intangibles

i. Intangible assets other than goodwill

Intangible assets acquired as part of a business combination, other than goodwill, are initially measured at their fair value as at the date of the acquisition. Intangible assets acquired separately are initially recognised at cost. Indefinite life intangible assets are not amortised and are subsequently measured at cost less any impairment. Finite life intangible assets are subsequently measured at cost less amortisation and any impairment. The gains or losses recognised in profit or loss arising from the derecognition of intangible assets are measured as the difference between net disposal proceeds and the carrying amount of the intangible asset. The method and useful lives of finite life intangible assets are reviewed annually. Changes in the expected pattern of consumption or useful life are accounted for prospectively by changing the amortisation method or period.

Research costs are expensed in the period which they are incurred. Development costs are capitalised when it is probable that the project will be a success considering its commercial and technical feasibility; the consolidated entity is able to use or sell the asset; the consolidated entity has sufficient resources and intent to complete the development and its costs can be measured reliably. Capitalised development costs are amortised on a straight-line basis over the period of their expected benefit.

AND CONTROLLED ENTITIES

ANNUAL REPORT 30 JUNE 2024

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2024

g) Employee benefits

i. Defined contribution superannuation funds

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions onto a separate entity and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution superannuation funds are recognised as an expense in the income statement as incurred.

ii. Short-term benefits

Liabilities for employee benefits for wages, salaries, superannuation and leave that are expected to be settled within 12 months of the reporting date represent present obligations resulting from employees' services provided to the reporting date and are calculated at undiscounted amounts based on remuneration wage and salary rates that the Group expects to pay at the reporting date including related on-costs, such as workers' compensation insurance and payroll tax. Liabilities for employee benefits expected to be settled in excess of the 12 months from reporting date are recognised as non-current liabilities.

Non-accumulating non-monetary benefits, such as medical care, housing, cars and free or subsidised goods and services, are expensed based on the net marginal cost to the Group as the benefits are taken by employees.

iii. Termination benefits

When applicable, the Group recognises a liability and expense for termination benefits at the earlier of the date when the Group can no longer withdraw the offer for termination benefits and the date when the Group recognises costs for restructuring pursuant to AASB 137 *Provisions, Contingent Liabilities and Contingent Assets* and the costs include termination benefits. In either case, unless the number of employees affected is known, the obligation for termination benefits is measured on the basis of the number of employees expected to be affected. Termination benefit that are expected to be settled wholly before 12 months after the annual reporting period in which the benefits are recognised are measured at the (undiscounted) amounts expected to be paid. All other termination benefits are accounted for on the same basis as other long-term employee benefits.

iv. Equity-settled compensation

The fair value of options granted is recognised as an employee expense with a corresponding increase in equity. The fair value is measured at grant date and spread over the period during which the employees become unconditionally entitled to the options. The fair value of options granted is measured using the Black-Scholes pricing model, taking into account the terms and conditions upon which the options were granted. The amount recognised is adjusted to reflect the actual number of share options that vest except where forfeiture is only due to market conditions not being met.

AND CONTROLLED ENTITIES

ANNUAL REPORT 30 JUNE 2024

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2024

h) Financial instruments

Initial recognition and measurement

Financial instruments, incorporating financial assets and financial liabilities, are recognised when the entity becomes a party to the contractual provisions of the instrument.

Financial instruments are initially measured at fair value plus transactions costs where the instrument is not classified as at fair value through profit or loss. Transaction costs related to instruments classified as at fair value through profit or loss are expensed to profit or loss immediately. Financial instruments are classified and measured as set out below.

Classification and subsequent measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the assets or liability, assuming the market participants acts in their economic best interests.

The consolidated entity does not designate any interests in subsidiaries, associates or joint venture entities as being subject to the requirements of accounting standards specifically applicable to financial instruments.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are subsequently measured at amortised cost.

Loans and receivables are included in current assets, except for those which are not expected to mature within 12 months after the end of the reporting period. (All other loans and receivables are classified as non-current assets.)

ii. Financial Liabilities

Non-derivative financial liabilities (excluding financial guarantees) are subsequently measured at amortised cost. Gains or losses are recognised in profit and loss through the amortisation process and when the financial liability is derecognised.

Derivative instruments

The consolidated entity does not trade or hold derivatives.

Financial guarantees

The consolidated entity has no material financial guarantees.

iii. Classification and Subsequent Measurement

(1) Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of nine (9) months or less, and bank overdrafts. Bank overdrafts are shown within short-borrowings in current liabilities on the Statement of financial position.

(2) Loans

Loans are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are subsequently measured at amortised cost.

Loans are included in current assets, except for those which are not expected to mature within 12 months after the end of the reporting period.

(3) Trade and other receivables

Receivables are usually settled within 60 days. Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets.

Trade and other receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any provision for impairment. Collectability of trade and other receivables is reviewed on an ongoing basis. An impairment loss is recognised for debts which are known or expected to be uncollectible. An impairment provision is raised for any doubtful amounts.

(4) Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of the financial year which are unpaid and stated at their amortised cost. The amounts are unsecured and are generally settled on 30 day terms.

AND CONTROLLED ENTITIES

ANNUAL REPORT 30 JUNE 2024

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2024

(5) Share capital

Ordinary issued capital is recorded at the consideration received. Incremental costs directly attributable to the issue of ordinary shares and share options are recognised as a deduction from equity, net of any related income tax benefit. Ordinary issued capital bears no special terms or conditions affecting income or capital entitlements of the shareholders.

iv. Amortised cost

Amortised cost is calculated as the amount at which the financial asset or financial liability is measured at initial recognition less principal repayments and any reduction for impairment, and adjusted for any cumulative amortisation of the difference between that initial amount and the maturity amount calculated using the effective interest method.

v. Fair value

Fair value is determined based on current bid prices for all quoted investments. Valuation techniques are applied to determine the fair value for all unlisted securities, including recent arm's length transactions, reference to similar instruments and option pricing models.

vi. Effective interest method

The effective interest method is used to allocate interest income or interest expense over the relevant period and is equivalent to the rate that discounts estimated future cash payments or receipts (including fees, transaction costs and other premiums or discounts) over the expected life (or when this cannot be reliably predicted, the contractual term) of the financial instrument to the net carrying amount of the financial asset or financial liability. Revisions to expected future net cash flows will necessitate an adjustment to the carrying amount with a consequential recognition of an income or expense item in profit or loss.

vii. Impairment

A financial asset is assessed at each reporting date to determine whether there is any objective evidence that it is impaired. A financial asset is considered to be impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount, and the present value of the estimated future cash flows discounted at the original effective interest rate.

Financial assets are tested for impairment on an individual basis.

All impairment losses are recognised in the income statement.

An impairment loss is reversed if the reversal can be related objectively to an event occurring after the impairment loss was recognised. For financial assets measured at amortised cost the reversal is recognised in the income statement.

viii. Derecognition

Financial assets are derecognised where the contractual rights to cash flow expires or the asset is transferred to another party whereby the entity no longer has any significant continuing involvement in the risks and benefits associated with the asset. Financial liabilities are derecognised where the related obligations are either discharged, cancelled or expired. The difference between the carrying value of the financial liability extinguished or transferred to another party and the fair value of consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit or loss.

ix. Finance income and expenses

Finance income comprises interest income on funds invested (including available-for-sale financial assets), gains on the disposal of available-for-sale financial assets and changes in the fair value of financial assets at fair value through profit or loss. Interest income is recognised as it accrues in profit or loss, using the effective interest method.

Financial expenses comprise interest expense on borrowings calculated using the effective interest method, unwinding of discounts on provisions, changes in the fair value of financial assets at fair value through profit or loss and impairment losses recognised on financial assets. All borrowing costs are recognised in profit or loss using the effective interest method.

AND CONTROLLED ENTITIES

ANNUAL REPORT 30 JUNE 2024

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2024

Borrowing costs directly attributable to the acquisition, construction or production of assets that necessarily take a substantial period of time to prepare for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. All other borrowing costs are recognised in income in the period in which they are incurred.

Foreign currency gains and losses are reported on a net basis.

i) Impairment of non-financial assets

The carrying amounts of the Group's non-financial assets, other than deferred tax assets (see accounting policy 1c) are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists then the asset's recoverable amount is estimated.

An impairment loss is recognised if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. A cash-generating unit is the smallest identifiable asset group that generates cash flows that largely are independent from other assets and groups. Impairment losses are recognised in the income statement, unless the asset has previously been revalued, in which case the impairment loss is recognised as a reversal to the extent of that previous revaluation with any excess recognised through the income statement. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amount of the other assets in the unit on a pro rata basis.

The recoverable amount of an asset or cash-generating unit is the greater of its fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

Impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation and amortisation, if no impairment loss had been recognised.

i) Provisions

Provisions for legal claims, service warranties and make good obligations are recognised when the group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period.

k) Revenue and other income

Interest revenue is recognised in accordance with note 1(h)ix Finance income and expenses.

Revenue from the sale of goods and services is measured at the fair value of the consideration received or receivable, net of returns and allowances. Revenue is recognised in the income statement when the significant risks and rewards of ownership have been transferred to the buyer. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due or there is a risk of return of goods or there is continuing management involvement with the goods.

All revenue is stated net of the amount of value added taxes (note 1I Goods and Services Tax).

Goods and Services Tax

Goods and Services Tax (GST) is the term for the broad-based consumption taxes that the Group is exposed to in Australia.

AND CONTROLLED ENTITIES

ANNUAL REPORT 30 JUNE 2024

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2024

Revenues, expenses, and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of expense. Receivables and payables in the statement of financial position are shown inclusive of GST.

The net amount of GST recoverable from, or payable to, the Australian Taxation Office is included as a current asset or liability in the balance sheet.

Cash flows are presented in the statement of cash flows on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

m) Segment reporting

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components. All operating segments' results are regularly reviewed by the Group's Managing Director to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available.

n) Critical Accounting Estimates and Judgments

Management discusses with the Board the development, selection and disclosure of the Group's critical accounting policies and estimates and the application of these policies and estimates. The estimates and judgments that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

i. Key judgment: Going Concern

Refer Note 1(a)iii Going concern.

ii. Key estimate: Impairment

At each reporting date, the Group reviews the carrying values of its tangible and intangible assets to determine whether there is any indication that those assets have been impaired. As a result of this review, the Group has determined that no material impairment was required.

iii. Key estimate: Provision for warranty claims

The group provides warranties to customers for a number of its products. Judgement is required in determining the warranty provision required to be recognised to fulfil any warranty claims. The amount recognised as a provision is the best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The best estimate is based on historical experience and an understanding of the product base applied against sales within the warranty period.

iv. Key estimate: Taxation

Balances disclosed in the financial statements and the notes thereto, related to taxation, are based on the best estimates of directors. These estimates take into account both the financial performance and position of the Group as they pertain to current income taxation legislation, and the directors understanding thereof. No adjustment has been made for pending or future taxation legislation. The current income tax position represents that directors' best estimate, pending an assessment by the Australian Taxation Office.

v. Key estimate: Share-based payments

The value attributed to share options and remuneration shares issued is an estimate calculated using an appropriate mathematical formula based on Black-Scholes option pricing model. The choice of models and the resultant option value require assumptions to be made in relation to the likelihood and timing of the conversion of the options to shares and the value and volatility of the price of the underlying shares. Details of share-based payments assumptions are detailed in Note 21.

AND CONTROLLED ENTITIES

ANNUAL REPORT 30 JUNE 2024

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2024

o) New, revised or amending Accounting Standards and Interpretations adopted

The group has adopted all of the new, revised or amending Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period. The adoption of these Accounting Standards and Interpretations did not have any significant impact on the financial performance or position of the group during the financial year.

Any new, revised or amending Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

p) Accounting Standards that are mandatorily effective for the current reporting year

The Group has adopted all of the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board (the AASB) that are relevant to its operations and effective for an accounting period that begins on or after 1 July 2023.

Changes in accounting policies on initial application of Accounting Standards

In the year ended 30 June 2024, the directors have reviewed all the new and revised Standards and Interpretations issued by the AASB that are relevant to the Group's operations and effective for annual reporting periods beginning on or after 1 July 2023. As a result of this review, the Directors have determined that there is no material impact of any new and revised Standards and Interpretations issued by the AASB.

Standards and Interpretations in issue not yet adopted

The Directors have also reviewed all of the new and revised Standards and Interpretations in issue not yet adopted for the year ending 30 June 2024. As a result of this review, the Directors have determined that there is no material impact of the new and revised Standards and Interpretations in issue not yet adopted on the Group and therefore no material change is necessary to Group accounting policies.

ANNUAL REPORT 30 JUNE 2024

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2024

Product development costs relate to development cost of the new product "Fly 6 Pro" that was launched during the year. The development costs useful life has been aligned to the expected product lifetime and as a result those development costs are amortised on a straight-line basis over the product lifetime period. The amortisation expense has been included in the line item "depreciation and amortisation" in the consolidated statement of profit and loss and other comprehensive income. The directors do not consider there have been any indicators of impairment of the acquired intangible assets during the year up until the date of this report.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2024

NOTE 19 ISSUED CAPITAL	2024 No.	2023 No.	2024 \$	2023 \$
Fully paid ordinary shares at no par value	347,516,658	347,516,658	16,158,852	16,068,852
a) Ordinary shares				
At the beginning of the period	347,516,658	347,516,658	16,068,852	16,068,852
Conversion of performance shares	10,000,000	-	90,000	-
At reporting date	357,516,658	347,516,658	16,158,852	16,068,852

Ordinary shares entitle the holder to participate in dividends and the proceeds on winding up of the Company in proportion to the number of and amounts paid on the shares held. On a show of hands every holder of ordinary shares present at a meeting in person or by proxy, is entitled to one vote, and upon a poll each share is entitled to one vote.

Ordinary shares have no par value and the Company does not have a limited amount of authorised capital.

b) Performance Shares

10,000,000 Class A Performance Shares and 15,000,000 Class B Performance Shares were granted as follows:

Class A Performance Shares	
Grant Date	12 September 2022
Vesting conditions	Vested and converted into fully paid ordinary shares
Expiry Date	12 March 2025
	Anthony Giacoppo Terrain Dynamics Pty Ltd
Number of Class A Performance Shares	5,000,000 5,000,000
Total Valuation	\$90,000
Expense recorded for 30 June 2024	\$8,916

As of 1 August 2023, 10,000,000 Class A Performance Shares vested following satisfaction of the vesting conditions.

5
12 September 2022
Vest on providing continual services over 24 months from 1 August 2022
12 March 2025
Anthony Giacoppo Terrain Dynamics Pty Ltd
5,000,000 10,000,000
\$128,250
\$93,785

These shares have been valued using the share price at the date of issue and taking into account the probability that the vesting conditions are met. As at 30 June 2024, the Board applied a 95% probability that the performance shareholders will achieve the vesting conditions for the Class B Performance Shares.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2024

c) Warrants	Number	Grant Date	Exercise Price	Expiry

Working capital position		(120,145)	508,771

NOTE 20 RESERVES	2024 \$	2023 \$
Foreign currency translation reserve	21,768	25,618
Share-based payment reserve (Options)	3,872,199	3,873,501
Share-based payment reserve (Performance shares)	263,595	249,592
Convertible notes reserve	21,150	21,150
Warrants reserve	103,575	103,575
Total reserves	4,282,287	4,273,436

Foreign currency translation reserve

The foreign currency translation reserve is used to record exchange differences arising from the translation of the financial statements of foreign subsidiaries. It is also used to record the effect of hedging net investments in foreign operations.

Share-based payments reserve

This reserve is used to record the value of equity benefits provided to employees and Directors as part of their remuneration and consultants. For details regarding share-based payments during the period, please refer to Note 21.

AND CONTROLLED ENTITIES

ANNUAL REPORT 30 JUNE 2024

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2024

Equity component of convertible note

The reserve represents the equity component of the \$500,000 convertible noted issued during 2021.

Warrants reserve

The reserve represents equity benefit or warrants issued.

Transactions with non-controlling interests

This reserve is used to record the differences which may arise as a result of transactions with non-controlling interests that do not result in a loss of control.

NOTE 21 SHARE BASED PAYMENTS

The following share-based payments were made during the year ended 30 June 2024.

a. Performance shares

Refer to Note 19(b).

Share based payments expense in the profit or loss

The fair value of the performance shares recognised in the profit and loss for the year ended 30 June 2024 was \$102,701.

b. Shares

During the period, the company did not issue any shares in lieu of cash in settlement of services provided to the Company.

c. Options

The following share-based payment arrangements were in place during the current period:

Number	Grant Date	Expiry Date	Exercise Price	Fair value at grant date	Vesting date
2,626,395	06/04/2022	06/04/2025	\$0.015	47,950	06/04/2022

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2024

The following table illustrates the number and weighted average exercise prices of and movements in share options issued during the year:

	2024 No.	2023 No.
At the beginning of the period	2,626,395	238,892,568
Options Granted	-	-
Exercised	-	-
Expired	-	(236,266,173)
Balance	2,626,395	2,626,395
Options exercisable at balance date	2,626,395	2,626,395

The weighted average Exercise price of options on issue at balance date is \$0.015 (2023: \$0.027)

The fair value of the equity-settled share options granted during the year is estimated at the date of grant using the Black-Scholes model taking into account the terms and conditions upon which the options were granted.

Dividend yield (%)	0%
Expected volatility (%)	159
Risk-free interest rate (%)	0.08
Expected life of option (years)	2
Exercise price (cents)	0.0015
Grant date share price	0.0015

The expected life of the options is based on historical data and is not necessarily indicative of exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility is indicative of future trends, which may also not necessarily be the actual outcome. No other features of options granted were incorporated into the measurement of fair value.

NOTE 22 KEY MANAGEMENT PERSONNEL COMPENSATION

The names and positions of Key Management Personnel ("KMP") during the period are as follows:

Andrew Chapman Non-Executive Interim Chairman (appointed 30 January 2024)

David Wheeler Non-Executive DirectorChris Mews Non-Executive Director

Xavier Kris Non-Executive Chairman (resigned 30 January 2024)

NOTE 26 FINANCIAL RISK MANAGEMENT

a) Financial risk management policies

This note presents information regarding the Group's exposure to each of the above risks, its objectives, policies and procedures for measuring and managing risk, and the management of capital.

The Group's financial instruments consist mainly of deposits with banks and accounts payable and receivable.

The Group does not speculate in the trading of derivative instruments.

A summary of the Group's financial assets and liabilities is shown below:

	Floating Interest	Fixed Interest	Non- Interest	2024	Floating Interest	Fixed Interest	Non- Interest	2023

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2024

b) Specific financial risk exposures and management

The main risks that the Group is exposed to through its financial instruments are credit risk, liquidity risk and market risk consisting of interest rate, foreign currency and equity price risk.

The Board has overall responsibility for the establishment and oversight of the risk management framework. The Board adopts practices designed to identify significant areas of business risk and to effectively manage those risks in accordance with the Group's risk profile. This includes assessing, monitoring and managing risks for the Group and setting appropriate risk limits and controls. The Group is not of a size nor its affairs of such complexity to justify the establishment of a formal system for risk management and associated controls. Instead, the Board approves all expenditure, is intimately acquainted with all operations and discuss all relevant issues at the Board meetings. Operational and other compliance risk management have also been assessed and found to be operating efficiently and effectively.

i. Credit risk

Exposure to credit risk relating to financial assets arises from the potential non-performance by counterparties of contract obligations that could lead to a financial loss to the Group.

The Group does not have any material credit risk exposure to any single receivable or group of receivables under financial instruments entered into by the Group.

The objective of the Group is to minimise the risk of loss from credit risk. The Group trades only with creditworthy third parties.

In addition, receivable balances are monitored on an ongoing basis with the result that the Group's exposure to bad debts is insignificant. The Group's maximum credit risk exposure is limited to the carrying value of its financial assets as indicated on the statement of financial position.

The Group establishes an allowance for impairment that represents its estimate of incurred losses in respect of trade and other receivables.

Credit risk exposures

The maximum exposure to credit risk is to the Group's trade receivables and that is limited to the carrying amount, net of any provisions for impairment of those assets, as disclosed in the statement of financial position and notes to the financial statements.

Credit risk related to balances with banks and other financial institutions is managed by the Group in accordance with approved Board policy. Such policy requires that surplus funds are only invested with financial institutions residing in Australia, wherever possible.

Impairment losses

The ageing of the Group's trade and other receivables at reporting date was as follows:

	2024 Gross \$	2024 Past due but not mpaired \$	2023 Gross \$	2023 Past due but not impaired \$
Trade receivables				
Not past due	52,931	-	27,375	-
Past due up to 3 months	13,547	-	4,746	-
Past due over 3 months	7,540	-	2,381	-
	74,018	-	34,502	-
Other receivables				
Not past due	77,698	-	30,268	-
Total trade and other receivables	151,716	-	64,770	-

AND CONTROLLED ENTITIES

ANNUAL REPORT 30 JUNE 2024

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2024

ii. Liquidity risk

Liquidity risk arises from the possibility that the Group might encounter difficulty in settling its debts or otherwise meeting its obligations related to financial liabilities.

The Group manages liquidity risk by continuously monitoring forecast and actual cash flows and ensuring cash is available to meet the current and future commitments of the Group.

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

Typically, the Group ensures that it has sufficient cash to meet expected operational expenses for a period of 60 days, including the servicing of financial obligations; this excludes the potential impact of extreme circumstances that cannot reasonably be predicted.

The financial liabilities of the Group are confined to trade and other payables and borrowings as disclosed in the statement of financial position. All trade and other payables are non-interest bearing and due within 30 days of the reporting date.

Contractual Maturities

The following are the contractual maturities of financial assets and liabilities of the Group:

	Within 1 year		Greater than 1 year		Total	
	2024	2023	2024	2023	2024	2023
	\$	\$	\$	\$	\$	\$
Financial Assets						
Cash and cash equivalents	619,500	1,111,184	-	-	619,500	1,111,184
Trade and other receivables	151,716	64,770	-	-	151,716	64,770
Total anticipated inflows	771,216	1,175,954	-	-	771,216	1,175,954
Financial Liabilities						
Trade and other payables	1,436,941	1,394,469	-	-	1,436,941	1,394,469
Borrowings	38,965	42,028	-	-	38,965	42,028
Total contractual outflows	1,475,906	1,436,497	-	-	1,475,906	1,436,497
Net (outflow) / inflow from financial instruments	(704,690)	(260,543)		-	(704,690)	(260,543)

It is not expected that the cash flows included in the maturity analysis could occur significantly earlier or at significantly different amounts than presented.

iii. Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

The Board meets on a regular basis and considers the Group's exposure to interest rate risk.

Interest rate risk

Exposure to interest rate risk arises on financial assets and financial liabilities recognised at the end of the reporting period whereby a future change in interest rates will affect future cash flows or the fair value of fixed rate financial instruments. The Group is also exposed to earnings volatility on floating rate instruments.

AND CONTROLLED ENTITIES

ANNUAL REPORT 30 JUNE 2024

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2024

▶ Foreign exchange risk

Exposure to foreign exchange risk may result in the fair value or future cash flows of a financial instrument fluctuating due to movement in foreign exchange rates of currencies in which the Group holds financial instruments which are other than the Australian Dollar presentation currency of the Group.

Foreign exchange risk is naturally hedged with material trade and other receivables and trade and other payables both being held in USD.

Price risk

Price risk relates to the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices.

iv. Sensitivity analyses

The following table illustrates sensitivities to the Group's exposures to changes in interest rates. The table indicates the impact on how profit and equity values at reporting date would have been affected by changes in the relevant risk variable that management considers to be reasonably possible. These sensitivities assume that the movement in a particular variable is independent of other variables.

Interest rates on borrowings

Profit I	Effect	Equity	Effect
2024	2023	2024	2023
\$	\$	\$	\$
3,896	4,203	-	-

± 100 basis points change in interest rates

v. Net fair values

The fair values of financial assets and financial liabilities are presented in the table in this note and can be compared to their carrying values as presented in the statement of financial position. Fair values are those amounts at which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

Cash and cash equivalents, trade and other receivables, and trade and other payables are short-term investments in nature whose carrying value is equivalent to fair value.

The methods and assumptions used in determining the fair values of financial instruments are disclosed in the accounting policy notes specific to the asset or liability.

ANNUAL REPORT 30 JUNE 2024

DIRECTORS' DECLARATION

The Directors of the Company declare that:

- The financial statements and notes, as set out on pages 18 to 51 are in accordance with the Corporations Act 2001 (Cth)
 and:
 - a) comply with Accounting Standards;
 - b) are in accordance with International Financial Reporting Standards issued by the International Accounting Standards Board, as stated in Note 1 to the financial statements; and
 - c) give a true and fair view of the financial position as at 30 June 2024 and of the financial performance for the year ended on that date of the Company and the Consolidated Group.
- 2. The Consolidated Entity Disclosure Statement is true and correct as at 30 June 2024;
- 3. The Chief Executive Officer (equivalent) and Chief Finance Officer (equivalent) have each declared that:
 - a) the financial records of the Company for the financial year have been properly maintained in accordance with s286 of the *Corporations Act 2001 (Cth);*
 - b) the financial statements and notes for the financial year comply with the Accounting Standards;
 - c) the financial statements and notes for the financial year give a true and fair view; and
 - d) the Consolidated Entity Disclosure Statement is true and correct as at 30 June 2024.
- 3. In the Directors' opinion, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Board of Directors and is signed for and on behalf of the directors by:

Andrew Chapman

Non- Executive Interim Chairman

Dated this Wednesday, 14 August 2024

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF CYCLIQ GROUP LIMITED

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of Cycliq Group Limited ("the Company") and its subsidiaries ("the Consolidated Entity"), which comprises the consolidated statement of financial position as at 30 June 2024, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial statements, including material accounting policy information, the consolidated entity disclosure statement and the director's declaration.

In our opinion:

- a. the accompanying financial report of the Consolidated Entity is in accordance with the Corporations Act 2001, including:
 - (i) giving a true and fair view of the Consolidated Entity's financial position as at 30 June 2024 and of its financial performance for the year then ended; and
 - (ii) complying with Australian Accounting Standards and the Corporations Regulations 2001.
- b. the financial report also complies with International Financial Reporting Standards as disclosed in Note 1(ai)

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Consolidated Entity in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's *APES 110 Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independent Member of

Material Uncertainty Related to Going Concern

We draw attention to Note 1a(iii) in the financial report which indicates that the Consolidated Entity incurred a net loss of \$879,720 during the year ended 30 June 2024. As stated in Note 1a(iii), these events or conditions, along with other matters as set forth in Note 1a(iii), indicate that a material uncertainty exists that may cast significant doubt on the Consolidated Entity's ability to continue as a going concern. Our opinion is not modified in this respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matter	How our audit addressed the Key Audit Matter
Revenue recognition (Refer to Note 2) During the year the Group generated revenue of \$4,608,135.	Our audit procedures included but were not limited to: • Documenting the processes and assessing the internal controls relating to revenue processing
Revenue recognition is considered to be a key audit matter due to the judgement and estimates involved in determining when the performance obligations are met and revenue is recognised.	 Reviewing the revenue recognition policy for compliance with AASB 15 Revenue from Contracts with Customers; Reviewing a sample of revenue to supporting contracts to ensure revenue was recognised in line with the revenue recognition policy; Assessing cut-off of revenue at year end and ensuring revenue has been recorded in the correct reporting period; and Assessing the appropriateness of the disclosures included in the relevant notes to the financial report.

Other Information

The directors are responsible for the other information. The other information comprises the information included in the Consolidated Entity's annual report for the year ended 30 June 2024, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error, and the consolidated entity disclosure statement that is true and correct and is free of misstatement, whether due to fraud or error. In Note 1(ai), the directors also state in accordance with Australian Accounting Standard AASB 101 Presentation of Financial Statements, that the financial report complies with International Financial Reporting Standards.

In preparing the financial report, the directors are responsible for assessing the Consolidated Entity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Consolidated Entity or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures
 that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
 effectiveness of the Consolidated Entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Consolidated Entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Consolidated Entity to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the
 disclosures, and whether the financial report represents the underlying transactions and events in a
 manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Consolidated Entity to express an opinion on the financial report. We are responsible for the direction, supervision and performance of the Consolidated Entity audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Remuneration Report

We have audited the Remuneration Report included in the directors' report for the year ended 30 June 2024. The directors of the Company are responsible for the preparation and presentation of the remuneration report in accordance with s 300A of the Corporations Act 2001. Our responsibility is to express an opinion on the remuneration report, based on our audit conducted in accordance with Australian Auditing Standards.

Auditor's Opinion

In our opinion, the Remuneration Report of Cycliq Group Limited, for the year ended 30 June 2024, complies with section 300A of the Corporations Act 2001.

ANNUAL REPORT 30 JUNE 2024

Substantial holders

Substantial holders in the company are set out below:

	Ordinary Shares	
	Number	% of total
	held	shares issued
MERCHANT FUNDS MANAGEMENT PTY LTD	65,184,126	18.23
SCINTILLA STRATEGIC INVESTMENTS LIMITED	25,219,900	7.05
MR JASON PETERSON	19,916,416	5.57
MR MICHAEL SHERIDAN	18,000,000	5.03

Voting rights

The voting rights attached to ordinary shares are set out below:

Ordinary shares

On a show of hands every member present at a meeting in person or by proxy shall have one vote and upon a poll each share shall have one vote.

There are no other classes of equity securities

Securities Subject to Escrow

No securities are currently subject to any escrow provisions.

On-market Buy-Back

Currently there is no on-market buy-back of the Company's securities.

Restricted Securities

There are no restricted securities currently on issue
