AuMEGA Metals Ltd
(Formerly known as Matador Mining Ltd)
Notes to the financial statements
30 June 2024

Note 1. General information

AuMEGA Metals Ltd ("the Company") is a company limited by shares that is incorporated and domiciled in Australia. The Company's shares are publicly traded on the Australian Securities Exchange under the symbol AAM and on the TSX Venture Exchange under the symbol AAM.

These interim financial statements ("financial statements") as at and for the six months ended 30 June 2024 comprise the Company and its subsidiaries (together referred to as the "Group") are presented in Canadian dollars (CAD\$), which is the presentation and functional currency of the Group. The consolidated annual financial statements of the Group as at and for the year ended 31 December 2023 are available upon request from the Company's registered office at 24 Hasler Road, Osborne Park WA 6017 Australia and at www.aumegametals.com.

A description of the nature of the consolidated entity's operations and its principal activities are included in the Management's Discussion and Analysis report, which is not part of the financial statements. The financial statements were authorised for issue, in accordance with a resolution of directors, on 15 August 2024.

Note 2. Material accounting policy information

These general purpose financial statements for the interim half-year reporting period ended 30 June 2024 have been prepared in accordance with Australian Accounting Standard AASB 134 'Interim Financial Reporting' and the Corporations Act 2001, as appropriate for for-profit oriented entities. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 'Interim Financial Reporting'.

These general purpose financial statements do not include all the notes of the type normally included in annual financial statements. Accordingly, these financial statements are to be read in conjunction with the annual report for the year ended 31 December 2023 and any public announcements made by the Company during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, unless otherwise stated.

Note 3. Going concern

The condensed consolidated interim financial report has been prepared on the going concern basis, which contemplates the continuity of normal business activity and the realisation of assets and the settlement of liabilities in the ordinary course of business.

The Group incurred a loss after tax for the six months of \$1,672,495 and an operating cash outflow of \$885,383 and net cash outflow (before financing activities) of \$2,784,277. The ability of the Group to continue as a going concern is principally dependent upon the ability of the Group to secure funds by raising capital from equity markets and managing cashflow in line with available funds.

The directors have prepared a cashflow forecast, which indicates that the Group will have sufficient funds to meet all commitments and working capital requirements for the 12 month period from the date of signing this interim financial report. The directors are confident of the Group's ability to continue as a going concern and to raise additional funds as may be required. However, in the event that the Group is unable to raise additional capital, material uncertainty would exist that may cast doubt on the ability of the Group to continue as a going concern.

Should the Group be unable to continue as a going concern it may be required to realise its assets and extinguish its liabilities other than in the normal course of business and at amounts different to those stated in the condensed consolidated interim financial statements. The condensed consolidated interim financial statements do not include any adjustments relating to the recoverability and classification of asset carrying amounts or to the amount and classification of liabilities that might result should the Group be unable to continue as a going concern and meet its debts as and when they fall due.

AuMEGA Metals Ltd
(Formerly known as Matador Mining Ltd)
Notes to the financial statements
30 June 2024

Note 4. Use of estimates and judgements

In preparing these financial statements, Management has made judgements, estimates and assumptions that affect the application of the accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

The significant judgement made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as at and for the year ended 31 December 2023. Information about judgments related to going concern are disclosed in Note 3.

Measurement of fair values

The Group has established a control framework with respect to the measurement of fair values. Estimates and underlying assumptions are reviewed on an ongoing basis. A number of the Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

When measuring the fair value of an asset or a liability, the Group uses market observable data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- i. Level 1 — quoted prices (unadjusted) in active markets for identical assets or liabilities
- ii. Level 2 — inputs other than quoted prices within Level 1 that are observable for the asset or liability, either directly (i.e. as prices), or indirectly (i.e. derived from prices)
- iii. Level 3 — inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability might be categorised in different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The Group recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

The Group holds performance rights and options which rely on estimates and judgements to calculate a fair value for these financial instruments using the Black Scholes model and Monte Carlo model. These financial assets held at fair value fall within Level 3 of the fair value hierarchy.

Note 5. New accounting policies

Except as described below, the accounting policies applied in these interim consolidated financial statements are the same as those applied in the Group's consolidated financial statements as at and for the 12 months ended 31 December 2023. The changes in accounting policies are also expected to be reflected in the Group's consolidated financial statements as at and for the year ended 31 December 2023.

i. Adoption of other narrow scope amendments to IFRSs and IFRS Interpretations

A number of new standards and amendments to standards are effective for annual periods beginning after 1 January 2023. The Group has not early adopted any other new or amended standards in preparing these consolidated financial statements as the impact of adoption was not significant to the Group's Consolidated Financial Statements.

Note 6. Operating segments

The operating segment information is the same information as provided throughout the consolidated financial statements and therefore not duplicated. The information reported to the Chief Operating Decision Maker ("CODM") is on at least a monthly basis.

The Company's operations are in one reportable business segment, being the exploration for gold. The Company operates in one geographical segment, being Canada.

(a) Issued: During the six-month period ended 30 June 2024

On January 4, 2024, the Company completed a private placement (the **Private Placement**) of 11,527,375 common shares in the capital of the Company, consisting of:

- I. 11,527,375 non-flow-through common shares at a price of \$0.04 per Share.

Ordinary shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on the winding up of the Company in proportion to the number of and amounts paid on the shares held. The fully paid ordinary shares have no par value and the Company does not have a limited amount of authorised capital.

Every member present at a meeting in person or by proxy shall have one vote and upon a poll each share shall have one vote.

Share buy-back

There is no current on-market share buy-back (30 June 2023: nil).

Options reserve	1,407,674	1,006,339
	<u>944,430</u>	<u>543,095</u>

Foreign currency reserve

The reserve is used to recognise exchange differences arising from the translation of the financial statements of foreign operations to Canadian dollars. It is also used to recognise gains and losses on hedges of the net investments in foreign operations.

Option reserve

The option reserve records items recognised as expenses on the valuation of share options.

Movements in reserves

Movements in each class of reserve during the current financial period are set out below:

Unaudited	Foreign currency translation reserve CAD\$	Options reserve CAD\$	Total CAD\$

Accumulated losses at the beginning of the financial period	(23,086,521)	(17,164,095)
Loss after income tax expense for the period	(1,672,495)	(6,630,286)
Transfer to options reserve	34,080	707,860
Accumulated losses at the end of the financial period	<u>(24,724,936)</u>	<u>(23,086,521)</u>

Note 15. Dividends

There were no dividends paid, recommended or declared during the current or previous financial period.

Note 16. Commitments

(a) Exploration minimum expenditure

The consolidated entity must meet tenement expenditure commitments to maintain its tenements in good standing. These commitments are not provided for in the financial statements and are as follows:

	Unaudited	
	30 June	31 December
	2024	2023
	CAD\$	CAD\$
Committed at the reporting date but not recognised as liabilities, payable:		
Within one year	1,409,883	791,285
One to five years	193,368	528,333
More than five years	570,268	267,391
	<u>2,173,519</u>	<u>1,587,009</u>

(b) Flow-through Financing

Historically, the Company has entered into flow-through private placements ("FT Placements") to fund exploration activities, the most recent being the 2023 FT Placements. Canadian tax rules require the Company to spend flow-through funds on "Canadian exploration expenses" (as defined in the Income Tax Act (Canada)) by the end of the calendar year following the year in which they were raised.

The Company indemnified the subscribers of flow-through shares from any tax consequences should the Company, notwithstanding its plans, fail to meet its commitments under the flow-through subscription agreements. In 2023, the Company completed a Flow-Through Offering for \$4.279 million, thus committing to spend this amount by December 31, 2024 on "Canadian exploration expenses" which qualify as "flow-through mining expenditures", as these terms are defined in the Income Tax Act (Canada) ("Resource Expenditures").

The premium on the \$4.279 million Flow-Through Offering amounted to \$1.003 million. At June 30, 2024, the Company has expended approximately \$2.167 million of the 2023 FT Private Placement amount of \$4.279 million on Resource Expenditures. The Company has until December 31, 2024 to spend the remaining outstanding balance of approximately \$2.112 million on Resource Expenditures.

AuMEGA Metals Ltd
(Formerly known as Matador Mining Ltd)
Notes to the financial statements
30 June 2024

Note 16. Commitments (continued)

The Company may be subject to interest on flow-through proceeds ("Part XII.6 tax") renounced under the look-back rules in respect of prior years, and penalties, in accordance with regulations in the Income Tax Act (Canada), if it is determined that flow-through proceeds were not properly or timely spent on Canadian exploration expenses. Any Part XII.6 tax is expensed as incurred, as an operating expense.

Note 17. Events after the reporting period

No matter or circumstance has arisen since 30 June 2024 that has significantly affected, or may significantly affect the consolidated entity's operations, the results of those operations, or the consolidated entity's state of affairs in future financial years.

Note 19. Capital management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to pursue the exploration and development of its properties and to maintain a flexible capital structure for its projects for the benefit of its stakeholders. In the management of capital, the Company includes the components of shareholders' equity.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares or adjust the amount of cash and cash equivalents. Management reviews the capital structure on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. The Company is not subject to externally imposed capital requirements. There were no changes to the Company's capital management during the six-month period ended 30 June 2024.

Note 20. Financial Instruments

The Company's financial instruments consist of cash and cash equivalents, and trade and other payables. The fair value of the financial instruments approximates their carrying values, unless otherwise noted. The Company's risk exposures and the impact on the Company's financial instruments are summarised below:

a) Credit risk

The Company's credit risk is mainly attributable to its liquid financial assets: cash and cash equivalents. The Company deposits cash with high credit quality financial institutions and credit risk is considered to be minimal. The Company's maximum exposure to credit risk is \$6,227,862 which is the carrying value of the Company's cash and cash equivalents at 30 June 2023.

b) Liquidity risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at 30 June 2024, the Company had available a cash and cash equivalents balance of \$6,227,862 (31 December 2023 - \$8,951,529) to settle current liabilities of \$2,135,882 (31 December 2023 - \$1,710,361).

c) Foreign exchange risk

Foreign exchange risk is the risk that the Company's financial instruments will fluctuate in value as a result of movements in foreign exchange rates. The Company is exposed to foreign currency risk to the extent that monetary assets and liabilities held by the Company are not denominated in Canadian dollars. As at 30 June 2024, the Company is exposed to currency risk as some transactions and balances are denominated in Australian dollars. As at 30 June 2024, a 10% change of the Canadian dollar relative to the Australian dollar would have net financial impact of approximately \$167,785 (31 December 2023 - \$310,621). The Company does not use derivative instruments to hedge exposure to foreign exchange rate risk.
