These half-yearly financial statements do not include all the notes of the type normally included in the annual financial statements. Accordingly, the half-yearly financial statements are to be read in conjunction with the 31 December 2023 annual report and any public announcements made by Waratah Minerals Limited during the period from 1 January 2024 to the date of this report in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

Directors' Report

Your Directors present their half-yearly report on the Group consisting of Waratah Minerals Limited ("Waratah Minerals" or "the Company") and the entities it controlled at the end of, or during, the period 1 January 2024 to 30 June 2024 ("the Group").

Directors

The names of the Directors of Waratah Minerals Limited during the interim reporting period are as follows.

		Appointed
Mr Peter Duerden	Managing Director	10 January 2022
Dr Darryl Clark	Non-Executive Chairman	22 October 2020
Dr Andrew Stewart	Non-Executive Director	4 September 2023

All Directors were in office for the entire period unless otherwise stated.

Review of Operations

The Group loss for the period from 1 January 2024 to 30 June 2024 was \$5,429,115 (30 June 2023: \$2,216,976).

The Company has continued to carefully manage the operating cost base to ensure the most effective use of its available funding.

Spur Project – Orange, NSW

Exploration activity during the reporting period included the Company's maiden drilling programme, comprising 21 diamond and RC drillholes for 4,034m at the Spur gold-copper project. The drilling activity was designed to test extensions of shallow epithermal gold mineralisation and investigate a potential link with an alkalic porphyry gold-copper system down plunge. Ongoing results have strongly validated the company's exploration strategy, with strong gold + copper intercepts returned, including:

Table 1: Drilling results from Spur Project

In addition, the Company completed an Ambient Noise Tomography (ANT) geophysical survey across priority areas at the Spur Project to aid in target definition, in particular to highlight the margins of intrusive complexes, considered strongly prospective for epithermal-porphyry mineralisation. The survey comprised 100 geodes, spaced 315m apart and covered 9km² in 2 weeks. Data processing used 3D shear velocity models generated via Fleet Space Technologies' proprietary automated data processing. Several features of interest were identified, including:

- north-south trending high-velocity zone east of the main Spur Prospect, interpreted to represent a major new Intrusive-Porphyry Complex (Consols Intrusive-Porphyry Complex)
- north-south trending high-velocity zone west of the main Spur Prospect, interpreted to represent the southern extension of the main Cargo Intrusive Complex (Spur West Intrusive-Porphyry Complex)
- high-velocity zone within the complex Gum Flat Fault Zone, interpreted to represent a major new concealed Intrusive-Porphyry Complex (Millambri Intrusive-Porphyry Complex)
- major WNW-ESE trending break in high-velocity trends, interpreted as a WNW-ESE trending fault (Spur South Fault).

Directors' Report (continued)

In addition to the recently completed ANT survey, high-resolution ground magnetics (100m line spacing) has been completed with interpretation underway. The combined datasets will support ongoing drilling activity by defining extents of epithermal-porphyry mineralisation target zones and assist the development of a geological framework. In particular, the target definition work will define the margins of the early intrusive complexes, which appear to be an important control on epithermal-porphyry mineralisation in the area.

Directors' Report (continued)

Stavely-Stawell Project – Western Victoria

Exploration activity during the reporting period included community and landholder liaison in preparation for future target definition and exploration activity in the White Rabbit-Wonga corridor.

Ongoing exploration results have highlighted the prospectivity of the White Rabbit-Wonga corridor in the project area, with robust indications of Intrusion-related gold (IRG) systems and will form the focus of future exploration activity.

The significance of IRG Mineralisation in the White Rabbit District is demonstrated by the presence of the Wonga IRG Deposit, located 12km northeast and at the southern end of the ~6Moz Stawell Gold Field (Stawell Gold Mines Pty Ltd - Arete Capital Partners) (Figure 5). The White Rabbit District lies along the same regional, northeast trending structural corridor that contains the Wonga Deposit (Figure 5) (Miller and Wilson, 2004).

Azura Project – Kimberley region, Western Australia

Exploration activity during the reporting period included progressing environmental and cultural clearance permitting and discussions with potential funding partners.

Directors' Report (continued)

Change of Name

In January 2024, following shareholder approval in December 2023, the Company changed its name from Battery Minerals Limited to Waratah Minerals Limited. The change of name and code (ASX: WTM) became effective on ASX on 5 January 2024.

Issue of Performance Rights

On 29 January and 14 February 2024, following shareholder approval received at the General Meeting held on 15 December 2023 to issue performance rights to the Directors, the Company issued a total of 6,200,000 Tranche A performance rights and 6,200,000 Tranche B performance rights to Directors (two tranches of 4,750,000 performance rights) and consultants (two tranches of 1,450,000 performance rights). Both tranches have an expiry date 4 years from the date of issue. The Tranche A rights vest upon announcement of a minimum 500,000 ounces of Inferred, Indicated and/or Measured Resources, at a minimum lower cut-off grade of 0.5 grams per tonne of gold at any of the Company's projects. The Tranche B rights vest upon announcement of a minimum 1,000,000 ounces of Inferred, Indicated and/or Measured Resources, at a minimum lower cut-off grade of 0.5 grams per tonne of gold at any of the Company's projects.

Share Placement raises \$3M

In April 2024 the Company announced a capital raising via a share placement raising \$3,000,000 through the issue of 30,000,000 shares at \$0.10 per share.

After Reporting Date Events

On 6 August 2024 the Company announced that it had received firm commitments to raise \$5 million (before costs) via a share placement to institutional, sophisticated and professional investors at \$0.25 per share with 20 million ordinary shares to be issued.

The placement will occur in two tranches with the first tranche of 7.3m shares raising \$1.825m under the Company's existing Listing Rule 7.1 and 7.1A placement capacities, followed by a second tranche of approximately 12.7m shares to raise \$3.175m subject to shareholder approval at a General Meeting expected to be held on 23 September 2024.

The tranche one funds were received on 12 August 2024 with settlement of the tranche two funds expected to occur on 30 September 2024.

Other than the above, no other matters or circumstances have arisen after the end of the reporting period which significantly affected or may significantly affect the operations of the Group.

Auditor's Independence Declaration

The Auditor's Independence Declaration under section 307C of the Corporations Act 2001 can be found on the following page.

This report is signed in accordance with a resolution of the Board of Directors.

Notes to the Condensed Consolidated Financial Statements

1. (a) Basis of Preparation

These general purpose interim financial statements for the half-year reporting period ended 30 June 2024 have been prepared in accordance with Australian Accounting Standard AASB 134: Interim Financial Reporting and the Corporations Act 2001. The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards.

This interim financial report does not include full disclosures of the type normally included in an annual report. It is recommended that this financial report be read in conjunction with the annual financial report for the year ended 31 December 2023 and any public announcements made by Waratah Minerals Limited during the half-year reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The accounting policies have been consistently applied with those of the previous financial year and corresponding interim reporting period, except in relation to the matters disclosed below.

The Group has adopted all new and revised Accounting Standards and Interpretations issued by the Australian Accounting Standards Board that are mandatory for the current reporting period. The adoption of these new and revised Accounting Standards and Interpretations has not resulted in a significant or material change to the Group's accounting policies.

Any new, revised or amending Accounting Standards or Interpretations that are not yet mandatory have not been early adopted by the Group.

(b) Going Concern

The financial report is prepared on a going concern basis, which contemplates the continuity of normal business activity and the realisation of assets and settlement of liabilities in the normal course of business.

The Group incurred a net loss of \$5,429,115 during the 6 months ended 30 June 2024 which included exploration expenditure incurred at the Company's NSW, Victorian and WA projects of \$1,470,227, loss on disposal of listed securities of \$812,352, loss on fair value of investments of \$890,792 and reclassification of cumulative foreign exchange upon the liquidation of foreign operations of \$1,674,246. During the half-year period the Group had cash outflows from operating activities of \$1,581,810 and cash inflows from investing activities of \$98,020 and financing activities of \$2,827,850.

The Directors has prepared a detailed forecast of cash flows through to 30 September 2025 which shows that receipt of proceeds through the sale of Tirupati shares and/or capital raisings will be required for the Company to continue to fund exploration, corporate and administrative expenditure. Subsequent to the half-year end, in August 2024, the Group has successfully raised \$1,825,000 through allotment of new shares issued under the first tranche of a \$5,000,000 share placement announced on 6 August 2024. The Group is expecting to settle the second tranche of the placement being \$3,175,000 on 30 September 2024 subject to receipt of shareholder approval at a general meeting expected to be held on 23 September 2024.

The Directors have reviewed the business outlook and the assets and liabilities of the Group and are of the opinion that the use of the going concern basis of accounting is appropriate as the Directors believe the Company will be able to pay its debts as when they fall due.

Notes to the Condensed Consolidated Financial Statements (continued)

2. Segment Information

Operating Segments

The Group has determined its operating segments based on the reports reviewed by the Chief Operating Decision Makers (CODM) that are used to make strategic decisions regarding the Group's operations. The Group's primary reports are prepared to show the performance and financial position of different business segments which can be distinguished by their risks and rates of return.

The CODM considers the business from functional and geographical perspectives and has identified that there is one reportable segment being:

- Australia – exploration and evaluation activities and investing and corporate management activities.

Following the disposal of Suni Resources SA in April 2023, Mozambique is no longer reported as a separate segment and is disclosed for comparative purposes only.

The following tables represent revenue and loss information for the Group's operating segments for the six months ended 30 June 2024 and 30 June 2023 respectively:

8. Events After the End of the Reporting Period

On 6 August 2024 the Company announced that it had received firm commitments to raise \$5 million (before costs) via a share placement to institutional, sophisticated and professional investors at \$0.25 per share with 20 million ordinary shares to be issued.

The placement will occur in two tranches with the first tranche of 7.3m shares raising \$1.825m under the Company's existing Listing Rule 7.1 and 7.1A placement capacities, followed by a second tranche of approximately 12.7m shares to raise \$3.175m subject to shareholder approval at a General Meeting expected to be held on 23 September 2024.

The tranche one funds were received on 12 August 2024 with settlement of the tranche two funds expected to occur on 30 September 2024.

Other than the above, no other matters or circumstances have arisen after the end of the reporting period which significantly affected or may significantly affect the operations of the Group.

Director's Declaration

The directors of the Company declare that:

- 1) The financial statements and notes are in accordance with the *Corporations Act 2001* and:
 - a) comply with the Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*;
 - b) give a true and fair view of the Group's financial position as at 30 June 2024 and of its performance, as represented by the results of its operations, changes in equity and its cash flows for the period from 1 January 2024 to 30 June 2024.
- 2) At the date of this statement there are reasonable grounds to believe that Waratah Minerals Limited will be able to pay its debts when they become due and payable.

This statement is made in accordance with a resolution of the Board of Directors.

Independent Auditor's Review Report

To the shareholders of Waratah Minerals Limited

Report on the Condensed Interim Financial Report

Conclusion

We have reviewed the accompanying **Condensed Interim Financial Report** of Waratah Minerals Limited.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the Condensed Interim Financial Report of Waratah Minerals Limited does not comply with the *Corporations Act 2001*, including:

- giving a true and fair view of the **Group's** financial position as at 30 June 2024 and of its performance for the Half-year ended on that date; and
- complying with *Australian Accounting Standard AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*.

The **Condensed Interim Financial Report** comprises:

- Condensed consolidated statement of financial position as at 30 June 2024;
- Condensed consolidated statement of profit or loss and other comprehensive income, Condensed consolidated statement of changes in equity and Condensed consolidated statement of cash flows for the Half-year ended on that date;
- Notes 1 to 8 comprising material accounting policies and other explanatory information; and
- The Directors' Declaration.

The **Group** comprises Waratah Minerals Limited (the Company) and the entities it controlled at the half year's end or from time to time during the half-year.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Condensed Interim Financial Report* section of our report.

We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the *Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with these requirements.

Responsibilities of the Directors for the Condensed Interim Financial Report

The Directors of the Company are responsible for:

- the preparation of the Condensed Interim Financial Report that gives a true and fair view in accordance with *Australian Accounting Standards* and the *Corporations Act 2001*
- such internal control as the Directors determine is necessary to enable the preparation of the Condensed Interim Financial Report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Review of the Condensed Interim Financial Report

Our responsibility is to express a conclusion on the Condensed Interim Financial Report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the Condensed Interim Financial Report does not comply with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 30 June 2024 and its performance for the half-Year ended on that date, and complying with *Australian Accounting Standard AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a Condensed Interim Financial Report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with *Australian Auditing Standards* and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
