Commentary on results

Highlights

Total Group gross sales of \$59.6m, which are up 13.2% on FY23 gross sales of \$52.7m.

Overall operating EBITDA loss of \$1.7m (a reduction of \$2.9m vs FY23) largely driven by sustained citrus unavailability and increased citrus pricing.

Revenue

Net revenues after trading terms and volume rebates were \$49,448,243 The decreased level of promotional activity during the year meant that net revenues were up 16.4% on the PCP.

The Original Juice Co. Limited

The strong revenue growth for the year was supported by price rises (positively impacting Q4) and the high demand of our Original Juice Co. (OJC) and Juice Lab brands. However, continued fruit shortages hindered further growth.

The Juice Lab shots range contributed \$11.3m to total Gross Revenue, an increase of 47.1% over the PCP and continues to be a market-leading wellness beverage offering.

Gross Profit

Gross Profit for the period was \$11.3m, equating to 23% of Net Sales. Increasing ingredient costs, challenges with procurement & rising costs such as transport reduced the Gross Profit Margin over last year.

Expenses

Expenses as a percentage of Net Revenue remained at 26%. A major contributor to the increase in Operating costs are the increases in utility expenses in FY24, which contributed over \$435k to the total \$1m increase.
