COMPANY PRESENTATION | SEPTEMBER 2024

ASX : FAL

Important Notice and Disclaimers

This presentation has been prepared by Falcon Metals Ltd ACN 651 893 097 (Company). It contains general background information only which is current at the date of this presentation unless otherwise specified. It contains selected summary information and does not purport to be all-inclusive, comprehensive or to contain all of the information that may be relevant, or which a prospective investor may require in evaluations for a possible investment in the Company. Prospective investors should not rely on the information contained in this presentation and must satisfy themselves as to the accuracy of all such information. This presentation has been prepared based on information available at the time of preparation and is subject to change without notice. In receiving this presentation, each recipient agrees to the foregoing terms and conditions, including any modifications to them. No person is under any obligation to update this presentation at any time after its release.

This presentation is provided for general information purposes only. This presentation does not constitute an offer, invitation, solicitation or recommendation with respect to the purchase or sale of securities in the Company in any jurisdiction. It is not a prospectus, product disclosure statement, pathfinder document or any other type of public offer disclosure document for the purposes of the Corporations Act 2001 (Cth) (Corporations Act) and has not been, and is not required to be, lodged with the Australian Securities and Investments Commission. It should not be relied upon by the recipient in considering the merits of the Company, or the acquisition of shares in the Company.

This presentation does not constitute investment or financial product advice. It is not intended to be used as the basis for making a financial decision, nor is it intended to constitute legal, tax, accounting or other advice. This presentation has been prepared without taking account of any person's individual investment objectives, financial situation or particular needs. Before making an investment decision, the recipient should consider its own financial situation, objectives and needs, and conduct its own independent investigation and assessment of the contents of this presentation, including obtaining investment, legal, tax, accounting and such other advice as it considers necessary or appropriate. Any references to or explanations of legislation, regulatory issues, benefits or any other legal commentary (if any) are indicative only, do not summarise all relevant issues and are not intended to be a full explanation of a particular matter. The information in this presentation has been obtained from and based on sources believed by the Company to be reliable. Past performance is not an indication of future performance.

This presentation may contain forward-looking statements, guidance, forecasts, estimates, prospects, projections or statements in relation to future matters that may involve risks or uncertainties and may involve significant items of subjective judgement and assumptions of future events that may or may not eventuate (Forward Statements). Forward Statements can generally be identified by the use of forward looking words such as "anticipate", "estimates", "will", "should", "could", "may", "expects", "plans", "forecast", "target" or similar expressions. Forward Statements including indications, guidance or outlook on future revenues, distributions or financial position and performance or return or growth in underlying investments are provided as a general guide only and should not be relied upon as an indication or guarantee of future performance. To the extent that certain statements contained in this presentation may constitute 'Forward Statements' or statements about forward looking matters, then the information reflects the Company's (and no other party's) intent, belief or expectations as at the date of this presentation. No independent third party has reviewed the reasonableness of any such statements or assumptions. None of the Company, their related bodies corporate and their respective officers, directors, employees, advisers, partners, affiliates and agents (together, the FAL Parties) represent or warrant that such Forward Statements will be achieved or will prove to be correct or gives any warranty, express or implied, as to the accuracy, completeness, likelihood of achievement or reasonableness of any Forward Statement contained in this presentation. Except as required by law or regulation, the Company assumes no obligation to release updates or revisions to Forward Statements to reflect any changes. Recipients should form their own views as to these matters and any assumptions on which any of the Forward Statements are based and not place reliance on such statements.

All dollar values are in Australian dollars (\$) or A\$) unless otherwise stated.

An investment in the Company's securities is subject to known and unknown risks, many of which are beyond the control of the Company, including factors and risks specific to the industry in which the Company operates as well as general economic conditions, prevailing exchange rates and interest rates and conditions in the financial markets. The Company does not guarantee any particular rate of return or the performance of the Company, nor does it guarantee any particular tax treatment. Prospective investors should make their own enquiries and investigations regarding all information in this presentation, including the assumptions, uncertainties and contingencies which may affect future operations of the Company and the impact that different future outcomes may have on the Company.

The distribution of this presentation to persons or in jurisdictions outside Australia may be restricted by law and any person into whose possession this document comes should seek advice on and observe those restrictions. The presentation is not an offer of securities in the Company for subscription, purchase or sale in any jurisdiction outside Australia, including the United States or in relation to any US person (as defined in Regulation S under the U.S Securities Act of 1933, as amended). Any failure to comply with such restrictions may violate applicable securities law.

No party other than the Company has authorised, permitted or caused the issue, submission, dispatch or provision of this presentation, or takes any responsibility for, or makes or purports to make any statement, representation or undertaking in this presentation and there is no statement in this presentation that is based on any statement by any other party. No person, either as a director, partner or in the employment of the Company has any authority to make, imply, or give any representation or warranty whatsoever in relation to the information contained in this presentation. None of the FAL Parties take any responsibility for any information in this presentation or any action taken by you on the basis of such information.

To the maximum extent permitted by law, the FAL Parties:

- exclude and disclaim all liability, including (without limitation) any liability for fraud or negligence, for any expenses, losses, damages or costs incurred either as a result of the information in this presentation being inaccurate or incomplete in any way for any reason, or otherwise arising in connection with this presentation; and
- make no representation or warranty, express or implied, as to the currency, accuracy, reliability or completeness of information in this presentation.

Competent Person Statement

The information contained within this Presentation is extracted from the following reports titled:

- "Falcon Intersects High Grade Gold at Ironbark East (Amended)" released to the ASX on 15 July 2022
- "Multiple High-Grade Gold Intercepts At Ironbark East" released to the ASX 14 February 2023
- "Gold Anomalies Identified Over Multiple Kilometres" released to the ASX 26 April 2023
- "Exploration Update and Key Bendigo Tenement Awarded" released to the ASX 1 June 2023
- "Targets Upgraded at the Pyramid Hill Gold Project" released to the ASX 14 June 2023
- "Exploration Update – Pyramid Hill & Mt Jackson" released to the ASX 14 September 2023
- "Falcon Recommences Drilling at Pyramid Hill" released to the ASX 24 October 2023
- "Soil Sampling Confirms Gold, Nickel and Lithium Potential at Mt Jackson" released to the ASX 12 December 2023
- "Drilling at Bamganie Gold Prospect Confirms 1KM Long Trend" released to the ASX 11 January 2024
- "High-grade Mineral Sands Intersected at Pyramid Hill" released to the ASX 4 March 2024
- "Drilling Continues to Upgrade Targets at Pyramid Hill" released to the ASX 9 April 2024
- "High-Grade Mineral Sands Discovery" released to the ASX 28 May 2024
- "Electromagnetic Survey Identifies New Targets at Mt Jackson" released to the ASX 11 June 2024
- "Exploration Update at Pyramid Hill Gold Project" released to the ASX 16 July 2024
- "Favourable Metallurgical Characteristics at Farrelly" released to the ASX 29 August 2024
- "Land Access Update at the Farrelly Deposit" released to the ASX 5 September 2024

which are available to view on www.falconmetals.com.au The Company confirms that it is not aware of any new information or data that materially affects the information included in the original document/announcement and the Company confirms that the form and context in which the Competent Person's findings are presented have not materially modified from the original market announcement.

Falcon Project Portfolio

Pyramid Hill Project, VIC

- Largest land position in the prospective Bendigo Zone and Murray Basin Mineral Sands Province
- **High-grade mineral sands discovery at the Farrelly Deposit**
- Major gold aircore drilling program generating targets set to resume Q4 2024

Mt Jackson Project, WA

- 100% owned, underexplored part of the Southern Cross belt
- **Soil sampling and ground EM survey defined several high-priority drill targets for gold and nickel**
- Drilling planned for H2 2024

Joint Ventures

- Viking Gold Project - Earn-in to 70% plus 100% owned tenure, 30km ESE of Norseman
- Hawkstone Nickel-Copper Project – Stavelly Minerals (ASX: SVY) earning up to 80% in two Falcon applications in the Kimberley region

Directors & Management

DR MARK BENNETT

Non-Executive Chair

30+ years' experience in gold and base metal exploration

Founding Managing Director of Sirius Resources, discovered Nova-Bollinger

Currently the Executive Chairman of S2 Resources

TIM MARKWELL

Managing Director

25+ years' experience in gold and base metal exploration with expertise in geology, fund management, and mining

Held the role of Investment Manager of the African Lion funds at Lion Selection Group for 14 years

ALEX DORSCH

Non-Executive Director

Managing Director of Chalice since late 2018, led the company through the Julimar discovery in 2020

Diverse experience in the resources sector in a variety of management, advisory, and consultancy roles

KATINA LAW

Non-Executive Director

30+ years in the mining industry, including board roles with ASX-listed explorers

Served as Chair of Finance and Audit committees and has a strong commitment to corporate governance

Currently NED at Yandal Resources

PRADEEP SUBRAMANIAM

Chief Financial Officer

Chartered accountant with broad financial and commercial experience

15+ years' experience, including with PricewaterhouseCoopers working with Australian and international companies

DOUG WINZAR

Exploration Manager

25+ years' experience in gold, base metal and diamond exploration

Held the role of Exploration Project Manager for IGO in the Kimberley Region and NT

Farrelly Deposit

Mineral Sands, VIC

High-grade mineral sands discovery

The project areas occur on Dja Dja Wurrung land. Falcon acknowledges their ongoing connection to the land and pay our respect to them, their culture and their elders, past, present and emerging.

Mineral Sands – Introduction

What are they?

Zircon
A Zirconium silicate mineral

Titanium Minerals
Titanium oxides including Ilmenite, Rutile and Leucoxene

Monazite
Phosphate mineral with high Rare Earth Element (REE) content

What are they used for?

How much are they worth?

High-grade Mineral Sands discovery

Underexplored world class minerals province

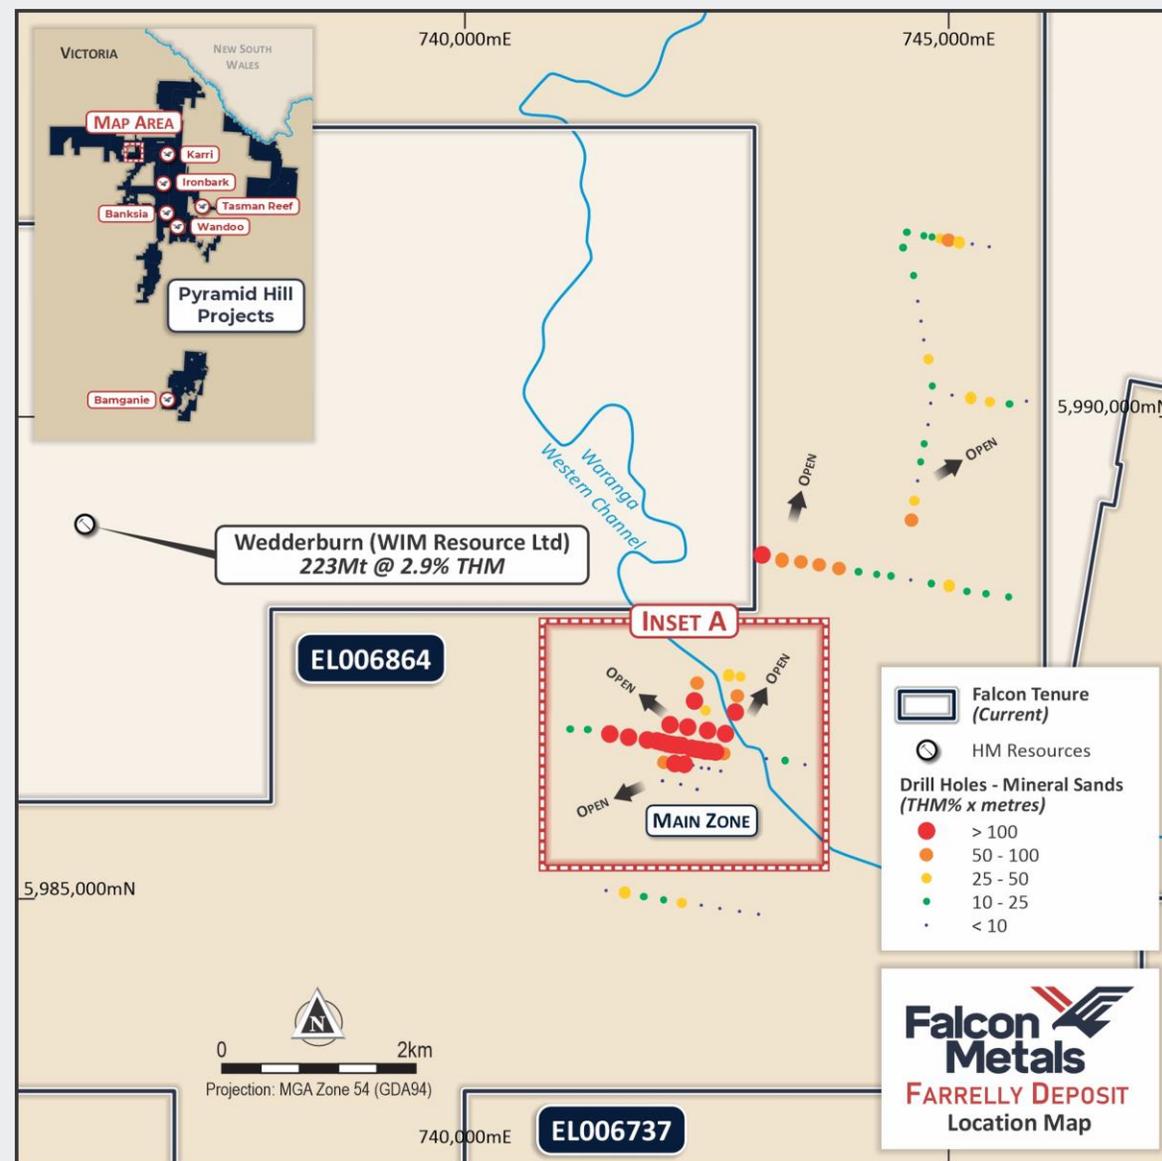

- Victoria's Murray Basin hosts several major mineral sands projects with associated **Critical Minerals** including Rare Earth Elements (REE) at advanced stages of development
- Several of these are adjacent to Falcon's northwestern permits including **WIM Resource, VHM, ACDC and Iluka**
- FAL announced in May 2024 a **high-grade mineral sands discovery at the Farrelly Deposit**, 12km south of Boort:
 - Previously explored by CRA in 1980's
 - Despite intersecting some high-grade zones, limited follow-up
 - FAL completed regional mineral sands reconnaissance drilling in late 2023, testing several zones which returned several thick high-grade intercepts
 - Initial grain counting and mineralogical assessment shows potential for high value mineral suite similar to other Murray Basin deposits
 - **Follow-up drilling in May 2024 confirmed high-grade discovery, open in several directions**

Farrelly Mineral Sands Deposit

Shallow high-grade discovery

- Of 91 holes announced in May 2024:
 - 33 holes contained intersections >10% THM
 - 11 holes contained intersections >20% THM
- Thick continuous zone of high-grade mineralisation defined over 1,200 x 600m
- Open in several directions with some of the best holes on the edge of the currently defined high-grade zone
- Drill holes grades appear significantly higher than other deposits in the region at this scale
- Planning for extensional drilling underway subject to cropping, land access and weather
 - Continuing to engage with landowners on access

Farrelly Mineral Sands Deposit

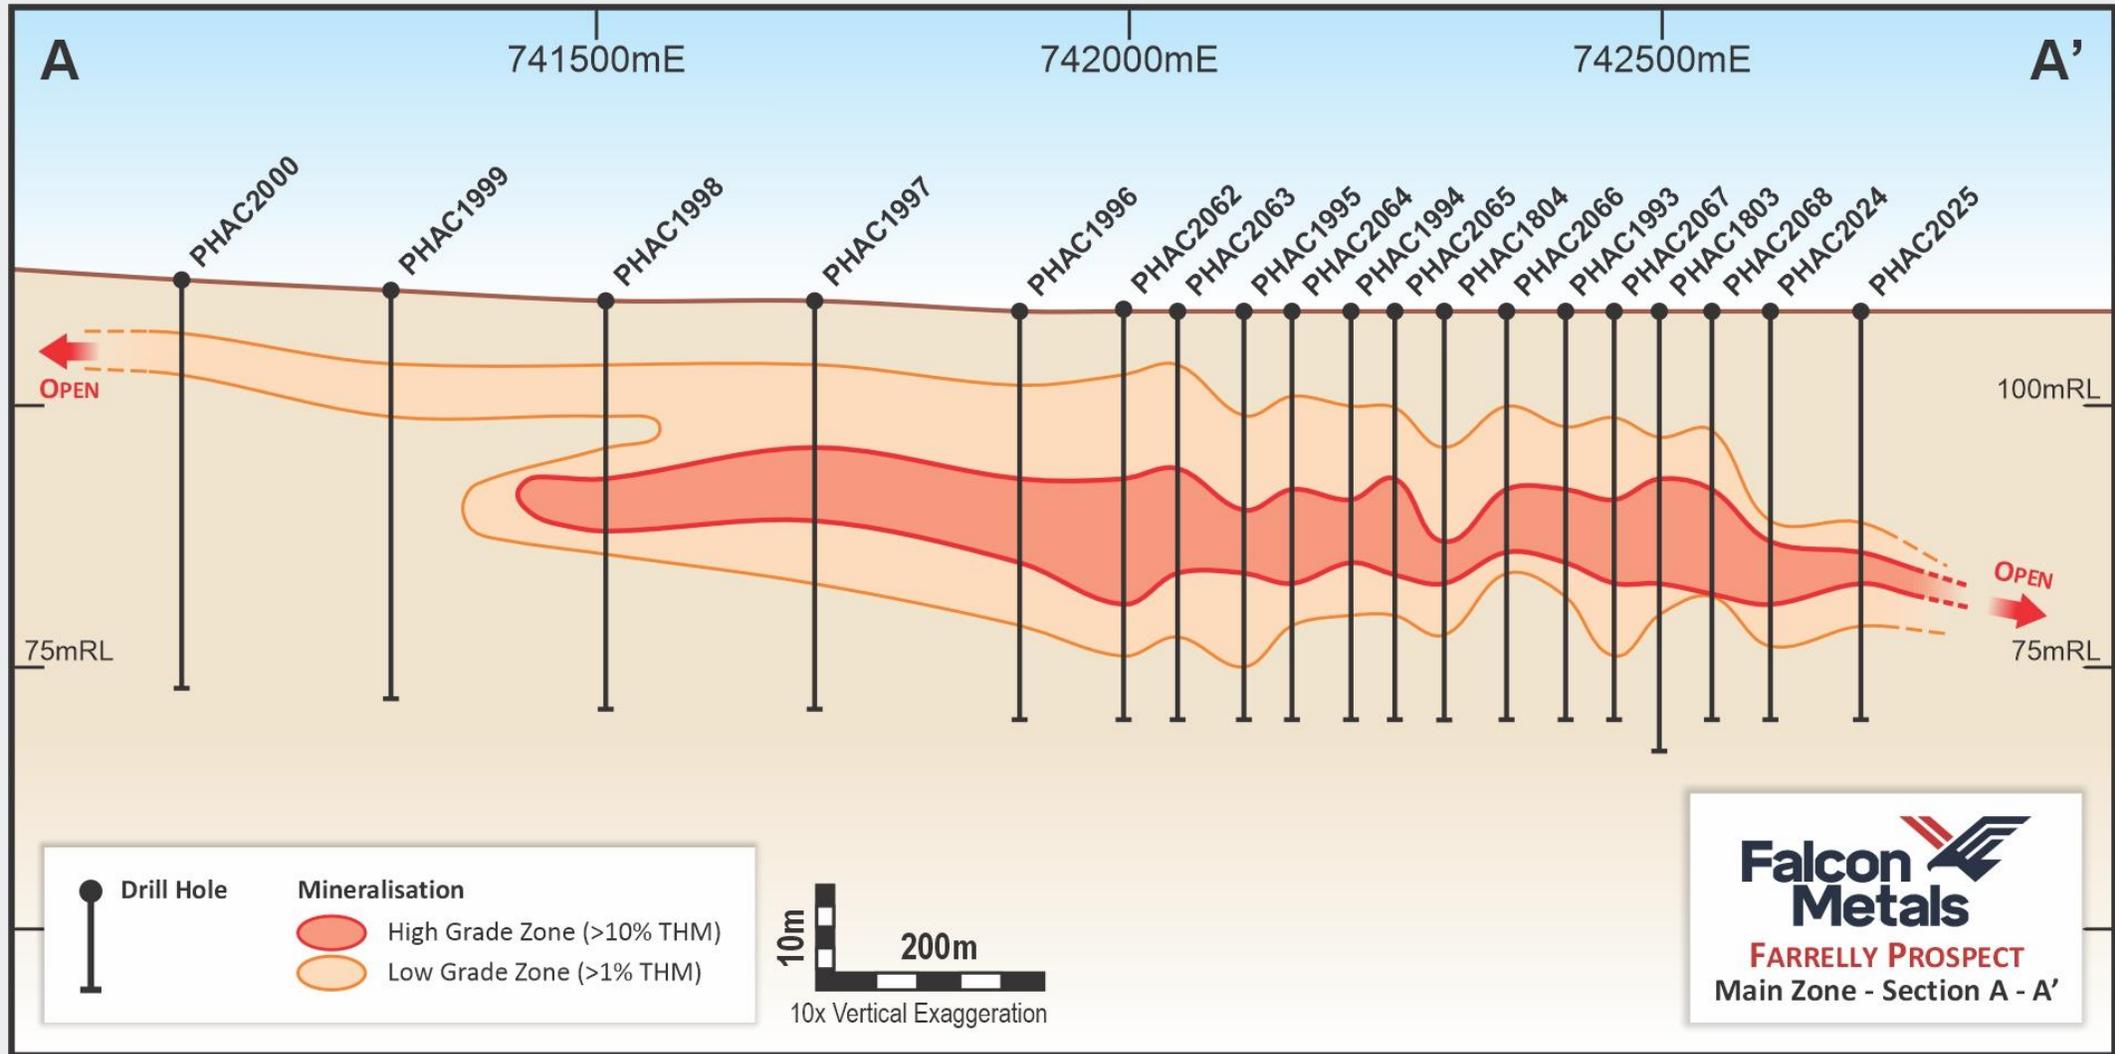

Shallow high-grade discovery

- PHAC2062 26m @ 8.9% THM from 6m; including 5m @ 12.9% THM from 13m
- PHAC2073 22m @ 9.2% THM from 8m, including 12m @ 15.1% THM from 16m; that also includes 3m @ 20.3% THM from 21m
- PHAC2064 20m @ 9.0% THM from 10m; including 9m @ 14.9% THM from 17m
- PHAC2063 22m @ 7.8% THM from 8m; including 10m @ 13.8% THM from 15m
- PHAC2030 18m @ 9.5% THM from 9m; including 10m @ 15.5% THM from 14m; that also includes 2m @ 23.1% THM from 16m
- PHAC2046 16m @ 10.6% THM from 11m, including 8m @ 18.3% THM from 13m; that also includes 4m @ 20.2% THM from 14m
- PHAC1996 19m @ 8.5% THM from 11m, including 8m @ 13.9% THM from 16m
- PHAC1997 17m @ 9.3% THM from 10m, including 7m @ 17.7% THM from 14m; that also includes 3m @ 21.8% THM from 16m
- PHAC2068 11m @ 14.1% THM from 16m, including 10m @ 14.8% THM from 17m; that also includes 1m @ 22.0% THM from 25m

Farrelly Mineral Sands Deposit

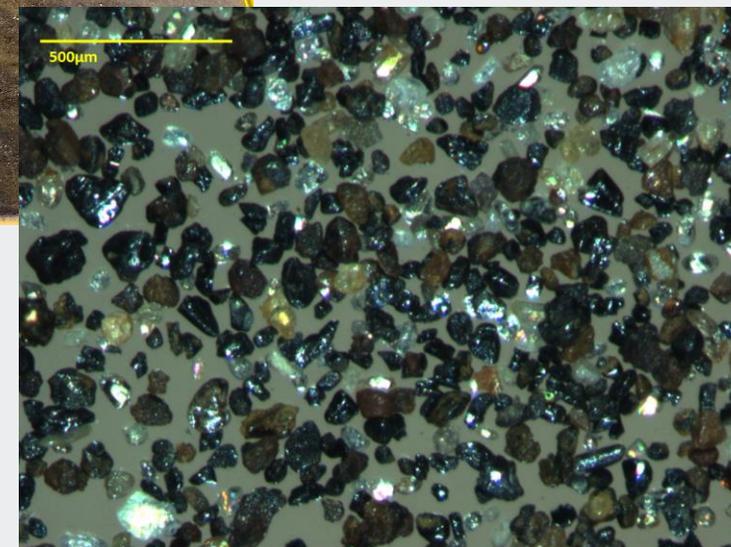

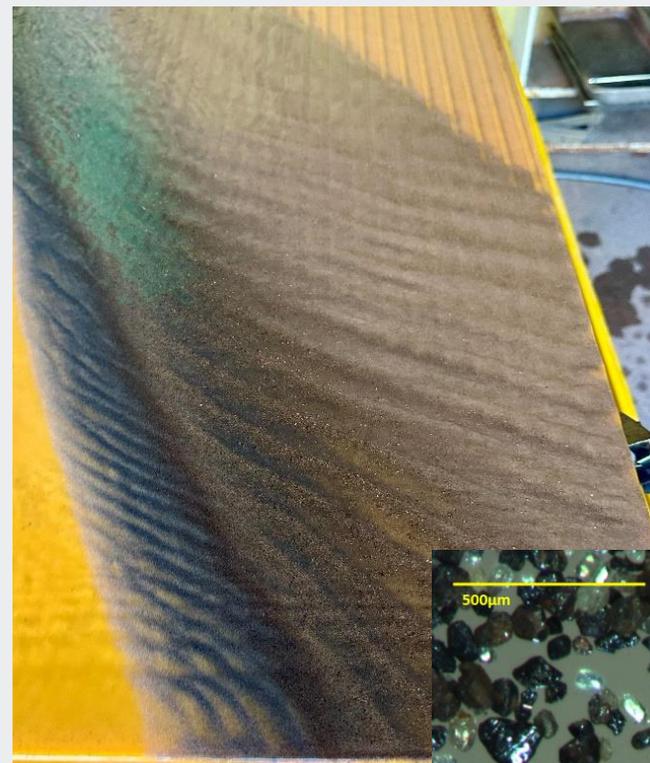

Farrelly Deposit – Cross section

Farrelly Mineral Sands Deposit

Positive Sighter tests

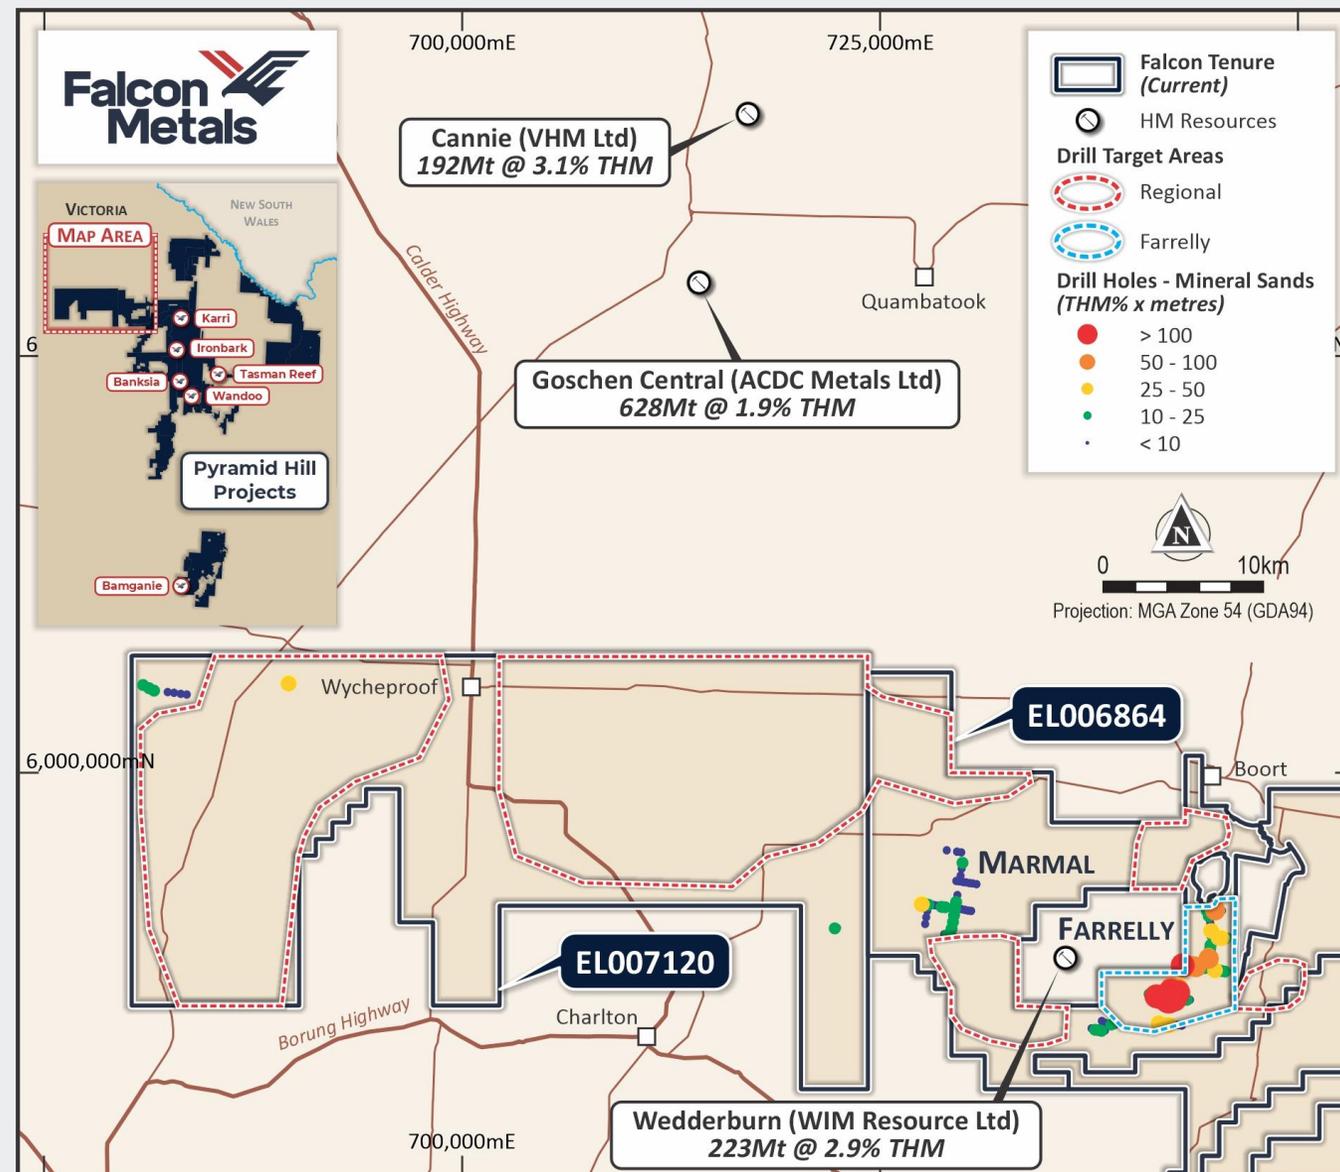

- Preliminary metallurgical assessment completed on ~65kg bulk sample August 2024 grading ~**12.2% THM**:
 - Heavy mineral concentrate (**HMC**) produced from conventional processing methods
 - **High recoveries of zircon, ilmenite, rutile and monazite** in the test work HMC
 - Coarser grain size relative to other Victorian deposits, with negligible HMC content in the fine fraction (<38 μm),
 - **Potential for simplified processing and higher recoveries**
 - Slimes (<38 μm) were easily treated and demonstrated high settling rates with **no issues expected using conventional technology and methods**
- **Next steps**
 - QEMSCANS (Scanning Electron Microscope) to look at minerals/elements in concentrates and potential deleterious elements
 - More comprehensive bulk test work programs following next phase of drilling

Farrelly Mineral Sands Deposit

Are there more Farrelly's?

- Priority to extend Farrelly Main Zone (blue polygon)
- Review of broader tenement area highlighted several areas (red polygons) with limited effective historical drilling
- Targets on the southern edge of the Murray Basin
- Initially wide-spaced roadside aircore drilling

Pyramid Hill Project

Gold, VIC

Multiple mineralised zones being discovered

The project areas occur on Dja Dja Wurrung, Taungurung and Yorta Yorta land. Falcon acknowledge their ongoing connection to the land and pay our respect to them, their culture and their elders, past, present and emerging.

The Opportunity

Screening undercover program well advanced

- Over 200,000m of aircore drilled at Pyramid Hill
- Over 150km of strike length of prospective structures being targeted
- Regional screening continues to generate multiple gold targets for follow up drilling with highlights including:
 - Eddington – emerging prospect, **multiple intercepts >1gt Au**
 - Pyramid Hill – **24.0g/t Au** intercept at base of hole
 - Karri – **3km strike-length** of mineralised footprint
 - Ironbark – **52.9g/t Au** intercept in a mineralised diorite
 - Wandoo – **9.5g/t Au** intercept in quartz vein at base of hole
 - Bamganie – **2m @ 20.0g/t Au** adjacent to old workings
- **Drilling priority targets to commence Q4 2024**

Mt Jackson Project

Gold and Base Metals, WA

Gold and base metals targets to be drilled

The project area occurs on Marlinyu Ghoorlie land.

Falcon acknowledge their ongoing connection to the land and pay our respect to them, their culture and their elders, past, present and emerging.

Mt Jackson Project

Untested greenstone with surface gold and pathfinder geochemical response

- Located 110km north of Southern Cross
- 100% owned, underexplored northern end of the Southern Cross greenstone belt where it converges with the regional Koolyanobbing Shear Zone
- The Southern Cross Greenstone Belt is a well-endowed mineral province and has historically produced more than 15Moz¹ of gold and ~384kt² of nickel from the southern extension of the belt
- Soil sampling has defined high priority gold and base metal anomalies
- Recent ground EM survey generated **several highly conductive EM plates indicative of massive sulphides**

¹ ASX announcement RRL 03/08/2022, "Diggers and Dealers Mining Forum"

² ASX announcement: IGO 30/08/2022, "FY22 Cosmos and Forrestania Mineral Resources and Ore Reserves", p32

Mt Jackson Project

Central Gold Anomaly

- Coincident 1km long gold soil anomaly and large conductive plate
- Also coincident with Ni, Cu & PGM soil anomaly
- Southern Cross Greenstone belt has examples of significant gold mineralisation associated with pyrrhotite – Bounty Gold Mine¹ (1.7Moz)
- Aircore drill program planned H2 2024 following completion of heritage surveys

¹ John H Coggon & Robert A. Rutherford (1994) GOLD: Bounty Gold Deposit, Western Australia: Magnetic and Electromagnetic Responses, ASEG Extended Abstracts, 1994:1, 233-240, DOI: 10.1071/ASEGSpec07 15

Mt Jackson Project

South Base Metals Targets

- Multiple high-conductance plates defined
- The very strong conductance of these plates (~10,600-17,000 Siemens) is indicative of massive nickel-copper sulphide minerals, sulphide facies banded iron formations or graphite
- Located in favourable magnetic contact positions
- Deeper drill program specifically targeting the conductors planned H2 2024

Investment Highlights

- Highly decorated team with a history of ‘company making’ discoveries (Julimar, Nova-Bollinger, Thunderbox, Waterloo)
- High-grade Farrelly Mineral Sands Discovery being assessed
- Actively screening >7,000km² holding in one of the world’s most exciting high-grade gold regions for the next major discovery
- Major drilling program at Pyramid Hill – high-grade gold results at several prospects and new mineralisation trends already announced
- Gold and base metal targets to be drilled at Mt Jackson in WA
- Strong balance sheet – a unique platform to make significant discoveries
