# DISCLAIMERS

## Forward looking statements and forecasts

This presentation has been prepared by De Grey Mining Ltd and contains forward-looking statements. Forward-looking statements include those containing words such as “anticipate”, “estimates”, “forecasts”, “indicative”, “should”, “will”, “would”, “expects”, “plans” or similar expressions. Indications of, and guidance or outlook on, future earnings or financial position or performance, including forecast financial information derived from the production target and the DFS, are also forward-looking statements. You are cautioned not to place undue reliance on forward-looking statements. Forward-looking statements are provided as a general guide only.

Such forward-looking statements are based on information available as at the date of this presentation and are not guarantees of future performance and involve known and unknown risks, uncertainties, assumptions and other important factors, many of which are beyond the control of the Company, are preliminary views and are based on assumptions and contingencies subject to change without notice, and which could cause actual results or trends, projections, guidance and estimates to differ materially from those expressed in this presentation.

Relevant factors include risks associated with exploring for gold, project development and construction and the mining, processing and sale of gold, including without limitation, the ability to obtain debt finance on expected terms, obtaining environmental approvals and the time and conditions attached to the same, changes in commodity prices, foreign exchange fluctuations and general economic conditions, increased costs and demand for production inputs, the speculative nature of exploration and project development, including the risks of obtaining necessary licenses and permits and diminishing quantities or grades of reserves, political and social risks, changes to the regulatory framework within which the Company operates or may in the future operate, environmental conditions including extreme weather conditions, geological and geotechnical events, and environmental issues, recruitment and retention of personnel, industrial relations issues and litigation.

Readers of this presentation are cautioned not to place undue reliance on forward-looking statements included in it.

Forward looking statements in this presentation only apply at the date of issue. Subject to any continuing obligations under applicable law or any relevant securities exchange listing rules, in providing this information the Company does not undertake any obligation to publicly update or revise any of the forward-looking statements or to advise of any change in events, conditions or circumstances on which any such statement is based.

## Production Targets

The production targets and forecast financial information derived from them in this announcement were reported in the Scoping, Preliminary Feasibility and Definitive Feasibility Studies for the Hemi Gold Project (“Project” or “Hemi”) in the announcements titled “De Grey Mining Mallina Gold Project Scoping Study”, “Mallina Gold Project Preliminary Feasibility Study Outcomes”, “Hemi Gold Project Definitive Feasibility Study” and “Hemi Regional Scoping Study” dated 5 October 2021, 8 September 2022, 28 September 2023 and 11 July 2024, respectively. The total life of mine production of the Hemi Gold Project schedule is underpinned by 99% Probable Ore Reserves, with the remaining 1% being classified as Inferred Mineral Resources. The information in this presentation that related to the Regional Scoping Study and its outcomes for the Hemi Regional deposits (“Hemi Regional”) is extracted from the ASX announcement “Hemi Regional Scoping Study” dated 11 July 2024. The Hemi Regional life of mine production is underpinned by 84% Measured and Indicated Mineral Resources, with the remaining 16% being classified as Inferred Mineral Resources.

There is a low level of geological confidence associated with Inferred Mineral Resources and there is no certainty that further exploration work will result in the determination of Indicated Mineral Resources or that the production target itself will be realised. The stated production target is based on the Company’s current expectations of future results or events and should not be solely relied upon by investors when making investment decisions. Further evaluation work and appropriate studies are required to establish sufficient confidence that this target will be met. De Grey confirms that the financial viability of the Hemi Gold Project and the Hemi Regionals is not dependent on the inclusion of Inferred Mineral Resources in the production schedule.

De Grey confirms that it is not aware of any new information or data that materially affects the information included in the latest of those announcements. All material assumptions and technical parameters underpinning the estimates or production targets or forecast financial information derived from a production target (as applicable) in the latest of those ASX announcements continue to apply and have not materially changed. De Grey confirms that the form and context in which the Competent Person’s findings are presented have not been materially modified from the latest of those announcements.

# DISCLAIMERS

## Exploration Results

The information in this presentation that relates to the Company's Exploration Results is based on, and fairly represents, information and supporting documentation prepared by Mr Philip Tornatora, a Competent Person who is a member of the Australasian Institute of Mining and Metallurgy. Mr Tornatora is an employee of the Company and has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves." Mr Tornatora consents to the inclusion in this announcement of the matters based on his information and supporting documentation in the form and context in which it appears.

## Mineral Resources and Ore Reserves

This announcement contains estimates of De Grey's Mineral Resources and Ore Reserves. The information in this presentation that relates to De Grey's Mineral Resources and Ore Reserves has been extracted from De Grey's previous ASX announcements including:

1. ASX announcement: "Hemi Gold Project Resource Update – November 2023" dated 21 November 2023
2. ASX Announcement "Hemi Gold Project Definitive Feasibility Study" dated 28 September 2023 ("DFS")
3. ASX Announcement "Mallina Gold Project Resource Statement – 2023" dated 15 June 2023
4. ASX Announcement "Mallina Gold Project Preliminary Feasibility Study Outcomes" dated 8 September 2022
5. ASX announcement "Mallina Gold Project Resource Statement" dated 31 May 2022
6. ASX announcement "Mallina Gold Project Scoping Study" dated 5 October 2021
7. ASX announcement "6.8Moz Hemi Maiden Mineral Resource drives MGP to 9.0Moz" dated 23 June 2021

Copies of these announcements are available at [www.asx.com.au](http://www.asx.com.au) or <https://degreymining.com.au/asx-releases/>. De Grey confirms that it is not aware of any new information or data that materially affects the information included in those announcements and, in relation to the estimates of De Grey's Mineral Resources and Ore Reserves, that all material assumptions and technical parameters underpinning the estimates in the announcements continue to apply and have not materially changed. De Grey confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from those announcements.

## Disclaimer

This presentation is dated 17 September 2024 and is current as at that date; the Company disclaims any obligation to update this presentation. It has been prepared with due care, but no representation is made as to the accuracy, fairness or completeness of the information. It contains a summary of information about the Company, is general in nature and does not purport to be complete, or contain all the information an investor would require when evaluating a possible investment in the Company. To the maximum extent permitted by law, the Company, related bodies corporate and their directors, agents, officers and advisers disclaim all liabilities and make no representations regarding the presentation. This presentation does not constitute financial product or investment advice and has been prepared without taking into account the objectives, financial or tax situation or particular needs of any individual investor. Seek advice from your own financial, legal, tax and other independent advisers.

# ACKNOWLEDGEMENT OF COUNTRY

At De Grey Mining, we acknowledge the Traditional Custodians of the land upon which we operate, the Kariyarra, Ngarluma, Nyamal, Ngarla, Mallina and Whadjuk Noongar peoples. We recognise their unique cultural heritage, beliefs and connection to these lands, waters and communities.

We pay our respects to all members of these Indigenous communities, and to Elders past, present and emerging. We also recognise the importance of continued protection and preservation of cultural, spiritual and educational practices.

As we value treating all people with respect, we are committed to building successful and mutually beneficial relationships with the Traditional Custodians throughout our areas of operation.

# CONSISTENT GROWTH STRATEGY

## Transitioning from studies to development

De Grey becoming a Tier 1 gold producer at Hemi to maximise shareholder value by achieving a re-rating when a producer

Deliver on project implementation activities and progress towards FID: Board approval for detailed engineering, ordering long lead items, contractor engagement and early works where approvals allow

Continue to make new discoveries near surface and at depth to support increased production rates and mine life – Hemi is less than four years old and has a footprint of 2,500km<sup>2</sup> with numerous targets yet to be explored

Continue to grow organisational capability in people and systems to meet strategy – building on an already very experienced development and operations team

# PROJECT HIGHLIGHTS IN THE LAST YEAR

## Building value and de-risking the Hemi Gold Project

**September 2023**

Grant of Hemi Mining Lease

**September 2023**

Release of DFS and Board approves commencement of pre-development works

**September 2023**

Contemporaneous \$300M raising

**October 2023**

Commencement of Long Lead Item ordering and engineering

**May 2024**

\$600M equity raising

**March 2024**

Ivan Mullany Chair of Project Committee

**November 2023**

Updated Hemi Mineral Resource to 10.5Moz

**October 2023**

Environmental approval levels of assessment as expected following initial submissions in mid-2023

**May 2024**

Credit approved terms for \$1 billion senior debt facility

**June 2024**

High-grade extensions at Eagle

**July 2024**

Hemi Regional Scoping Study

**July 2024**

Appointment of GM Operations

**August 2024**

NAIF funding agreement for \$150M loan

# THE PILBARA – A NEW GOLD PROVINCE

Advancing one of the world's premier gold development projects into production

- A +10Moz gold discovery at Hemi, located 85km by road from Port Hedland
- A 150km-long provincial scale tenement package
- Relatively limited drilling completed outside Hemi since its initial discovery in 2019
- Rapid growth in high confidence Mineral Resource and Ore Reserve:
  - Maiden resource growth of ~500koz per month
  - Hemi gold endowment ~25koz per vertical metre
  - Inferred Mineral Resource definition cost of ~\$11/oz
  - More 1 million metres of drilling
- Studies indicate Hemi will be a top five Australian gold mine
- Hemi's production potential has continued to grow throughout the studies phases as more exploration is completed
- A highly strategic regional asset for processing free milling and refractory gold ores and concentrates in the coming decades
- De Grey is aiming to deliver maximum shareholder returns through a future production re-rating and continued growth in production and mine life

# A TIER 1 MINING REGION

## Project favourably located close to existing world class infrastructure

- Hemi is ideally located 85km by road from Port Hedland, a major mining service centre and import terminal
- Existing infrastructure located within 20km of Hemi:
  - Two major highways
  - Two gas pipelines
  - 220kV transmission line
- Large scale renewable energy projects being established in the region
  - Potential to access in future during operations
- Sufficient good quality water
- Mt Dove tenements and infrastructure lease agreement

# LARGE DEPOSITS ARE INCREASINGLY SCARCE

The value of a +10Moz deposit with provincial scale exploration upside is only growing

# MINERAL RESOURCE GROWTH

Hemi is a provincial scale gold system which continues to get bigger

The Hemi and Hemi Regional Mineral Resource Estimates include Inferred Mineral Resources which have a lower level of geological confidence associated with Inferred Mineral Resources and there is no certainty that further exploration work will result in the determination of Indicated Mineral Resources. Full details of the Hemi Mineral Resource Estimates are contained in the appendices.

DE GREY  
MINING LTD

# DFS OUTCOMES

# DEFINITIVE FEASIBILITY STUDY HIGHLIGHTS

Results of the DFS show high confidence physical metrics<sup>1</sup>

A future **top 5** Australian Gold Mine based on production

Total production<sup>2</sup> **5.7Moz** over **12 years**

**Mining physicals**  
**122Mt @ 1.5g/t Au**  
processed at 93.5% recovery

**Annual production**  
**553koz: first 5 years<sup>2</sup>**  
**530koz: first 10 years<sup>2</sup>**

Updated Ore Reserve  
**6.0Moz @ 1.5g/t Au**

**10Mtpa** plant with 800ktpa pressure oxidation circuit

Reserve contribution to the production profile **99%**

Production profile entirely sourced from **Hemi deposits**

1. Outcomes, forecasts and comparisons taken from the DFS dated 28 September 2023.

2. The mine plan contains approximately 1% Inferred Mineral Resources. There is a low level of geological confidence associated with Inferred Mineral Resources and there is no certainty that further exploration work will result in the determination of Indicated Mineral Resources or that the Production Target itself will be realised.

# DEFINITIVE FEASIBILITY STUDY HIGHLIGHTS

Results of the DFS show outstanding financial metrics

## Undiscounted free cash flow

**\$6,300M:** pre-tax

**\$4,500M:** post-tax

**NPV<sub>5%</sub> \$4,200M:** pre-tax  
**\$2,900M:** post-tax

**IRR 45%:** pre-tax  
**36%:** post-tax

## Pre-production capital

**\$1,298M** cost of plant and infrastructure including  
\$162M of contingency and growth allowance, plus  
**\$47M** pre-stripping cost

## AISC

**\$1,229/oz:** first 5 years

**\$1,295/oz:** first 10 years

**Unleveraged  
payback  
period 1.5 years:** pre-tax  
**1.8 years:** post-tax

**Evaluation period total economic  
contribution \$10.8 billion**

**Assumed gold price: \$2,700/oz**  
**Spot gold price: ~\$3,700/oz<sup>1</sup>**

Outcomes, forecasts and comparisons taken from the DFS dated 28 September 2023. The mine plan contains approximately 1% Inferred Mineral Resources. There is a low level of geological confidence associated with Inferred Mineral Resources and there is no certainty that further exploration work will result in the determination of Indicated Mineral Resources or that the Production Target itself will be realised.

1. As of 5 September 2024. Source: The Perth Mint

# BROLGA STARTER PIT

## Hemi's first mining area delivers rapid project payback of less than two years

- Mineralised intrusion ~250m to 300m wide with a strike length of ~600m
- Evenly distributed sulphides with consistent grades amenable to low cost, bulk mining methods
- Brolga starter pit contributes ~1.35Moz to the production profile and pays back the full capital cost of the project
- Estimated to generate \$2,200M in free cashflow at the DFS gold price assumption of \$2,700/oz
- Open down dip and down plunge to the south and southwest with potential for extension and future underground mining

DE GREY  
MINING LTD

# PRODUCTION AND GROWTH OPPORTUNITIES

# UPSIDE TO DFS METRICS

## Preliminary assessment of provincial scale upside opportunities underway

Potential to increase the Diucon and Eagle pits based on significant extensions identified after the DFS mine design cut-off

Opportunity for the development of the Regional deposits including establishing a Regional concentrator at Withnell concurrently treating Regional deposits west of Hemi

Concept study of the underground mining opportunity of the 1.4Moz MRE below 390m, concurrent with open pit production at Hemi

Conservatism in the DFS design – potential to increase nameplate throughput and scalability built into the comminution and POx circuits

Further near surface success in the Greater Hemi area at similar grades to Hemi has the potential to increase mine life from open pits

Strong leverage to a rising gold price. For example, a ~10% increase from the DFS assumed gold price of A\$2,700/oz, would result in a ~A\$700m increase in post-tax NPV<sub>5%</sub>

# UPSIDE TO THE DFS PRODUCTION PROFILE

## DFS + Eagle pit extension + Regionals production profile producing 7.4Moz

The Hemi production profile contains 1% Inferred Mineral Resources and the Hemi Regional production profile contains 16% Inferred Mineral Resources. The Eagle Extensions are 100% Inferred Mineral Resources. There is a low level of geological confidence associated with Inferred Mineral Resources and there is no certainty that further exploration work will result in the determination of Indicated Mineral Resources or that the production profile itself will be realised. Full details of the Hemi Mineral Resource Estimates are contained in the appendices.

# HEMI UNDERGROUND PRODUCTION POTENTIAL

## MRE update in November 2023 demonstrates greater areas with underground mining potential

- Hemi now contains ~25koz per vertical metre to 390m depth and remains open
- Limited drilling to date along ~6km combined strike is very encouraging, for example at Diucon and Eagle
- Conceptual assessment into the potential scale of underground mining at Hemi is nearing completion, targeting concurrent mining from underground with open pit production

# GREATER HEMI CORRIDOR

A widely mineralised structural corridor with high potential for Resource growth

- Anomalous gold intersected along a 10km corridor
- Targeting +1Moz near surface new discoveries
- Continue Mineral Resource extensional drilling
- Recent Mineral Resource extensional drilling Eagle, Antwerp and Aquila
- Mineral Resource update scheduled for November 2024

# HEMI DISTRICT – EXPLORATION POTENTIAL

Targeting additional large scale, near surface, intrusion hosted deposits

- Greater Hemi Corridor extends for over 40km through DEG tenements
- Corridor contains large scale deep seated regional structures, multiple intrusions, numerous gold anomalies
- Interesting recent results from Gorrion, Antwerp, West Yule (6m @ 3.4g/t, 20m @ 1.2g/t Au) and Egina JV (Lowe - 8m at 4.7g/t Au)
- AC drilling planned for Frillback and MBP, with follow up AC and RC planned for West Yule and Egina JV

DE GREY  
MINING LTD

# CURRENT PROJECT ACTIVITIES

# HEMI PROJECT COMMITTEE

**Experience constructing and commissioning major gold mining projects**

**Ivan Mullany**

Chair of Project Committee

- 35 years experience in mining
- Extensive international leadership strengths in project development, operational excellence, innovation, business strategy and governance
- Involved in the construction and commissioning of major projects at Newmont Mining, Barrick Gold and Goldcorp, including pressure oxidation

**Peter Holmes**

Project Director

- 30+ years of gold industry experience including with Barrick Gold and prior to that with Placer Dome Asia Pacific
- Worked across various jurisdictions including Australia, Canada, United States and South America
- Lead the construction of Pueblo Viejo, one of the world's largest pressure oxidation processing plants

**Glenn Jardine**

Managing Director

- Senior mining executive with direct experience growing resource companies from early stage exploration through to multi-operation entities
- Projects developed include Henty gold mine, Emily Ann, Maggie Hays and Waterloo nickel mines and Thunderbox gold mine

**Geoff Fenton**

General Manager Operations

- 25+ years of mine operational and technical experience including key roles in large-scale gold projects
- Brings significant Pilbara construction and operational experience through Telfer, Hope Downs and Roy Hill

# CURRENT PROJECT STATUS

## A Tier 1 gold project rapidly de-risking and advancing towards production

- Project Financing nearing completion:
  - Equity financing secured with \$900M (before costs) raised in FY2024
  - Credit approved terms from leading lenders received for \$1B senior debt facility plus a \$130M overrun facility
  - Approval from Northern Australia Infrastructure Facility (NAIF) to contribute \$150M into the senior debt facility
  - Targeting completion of final documentation for senior debt facility in the current December half 2024
  - Expected to be fully funded to gold production at Hemi including a substantial liquidity buffer while maintaining exploration expenditure
- Project Approvals progressing:
  - Traditional Owner Mining Agreement in place
  - Mining Lease granted over Hemi project area
  - Environmental approvals well advanced and extensive stakeholder engagement
- Infrastructure taking shape:
  - Lease over Atlas Iron tenements 10km south of Hemi provides road access, communications and 200-person camp
  - Power purchase agreement well advanced with multiple options under assessment

# CURRENT PROJECT STATUS

## A Tier 1 gold project rapidly de-risking and advancing towards production

- Project activities well underway:
  - Front end engineering and design completed to ~30% accuracy to facilitate tendering process
  - Ordering of major long lead plant equipment items nearing completion
- Major contracts being signed:
  - Contract awarded for the permanent camp
  - Tenders underway out for the plant construction
  - Contract mining tender underway and progressing
- Organisation capability growing
  - ~125 personnel employed
  - 25 key personnel in the Project group and 29 in Exploration
  - Remainder covering business services including IT, People and Capability, Risk Health Safety and Environment
- Operational and Business Readiness already of focus
  - Appointment of GM Operations Geoff Fenton to lead early preparation for commissioning and operations

# PROJECT ACTIVITIES

## Order of long-lead time items progressively de-risking the capital cost estimate

- Locks in a substantial portion of the overall Project capital cost and reduces capital cost risk
- Reduces the risk of equipment delivery timelines affecting the critical path schedule
- Manufacturers have provided major equipment technical specifications allowing FEED to progress to approximately 30% for the plant

Item	Status
Primary crusher	Ordered
High pressure grinding rollers	Ordered
Secondary crushers	Ordered
Flotation cells	Ordered
Cyclones	Ordered
Interstage screens	Ordered
Thickeners	Ordered
Counter current decantation thickeners	Ordered
Permanent camp fabrication	Ordered
Autoclaves and flash vessels and feed pumps	October 2024
Autoclave brick lining	October 2024
Autoclave severe service valves	November 2024

## Fabrication of ball mill and ring gear segments nearing completion

# MT DOVE LEASE AGREEMENT

Strategic transaction to access a laydown area and infrastructure 10km south of Hemi

- Lease signed with Atlas Iron for up to 15 years over Mt Dove
- Turn-off from Great Northern Highway connects the Mt Dove and Hemi access roads
- Infrastructure in place at Mt Dove:
  - Operating borefield
  - Pipeline
  - Power generation
  - Communication tower
  - Decommissioned camp
  - Gravel pit
  - Refurbished 200-person camp
- Provides laydown areas which will be used to locate equipment prior to receiving Hemi final approvals

# OPERATIONAL AND BUSINESS READINESS

## Preparing for an operational transition

- Brolga grade control drilling covering the first year of production in progress
- Metallurgical testwork continuing with focus on early production areas
- Business teams for development in place and evolving for operations
- Commercial Systems implementation well advanced
- Data management and reporting systems developed and being refined for operations
- Communications infrastructure currently being upgraded suitable for future requirements of operations
- Appointment of Geoff Fenton as General Manager Operations, Hemi

# DEBT FINANCING UPDATE

**Strong level of ongoing interest from quality financial institutions, reflective of tier-1 nature of Hemi provides confidence in successful outcome.**

## Credit approved term sheets for \$1.0b senior debt facility with \$130m cost overrun facility received in June 2024

- Proposals received from a syndicate of leading commercial lenders, closely followed by longer tenor facilities from Australian Government agencies
- Extensive legal, technical and financial due diligence program completed
- No red flags or high project risks raised by Independent Technical Review undertaken on behalf of lenders

## Selection of final financing structure and parties to be finalised in the December quarter 2024

- Preferred lender group and structure to be selected following review of credit approved proposals
- Syndicate will be structured to optimise commercial terms, tenor, timing and flexibility
- Documentation to be finalised with lenders in the December quarter 2024

## Relevant Exploration Results and Updates – Greater Hemi and Regional

- Acquisition of Indee Gold - scale and development momentum, 9 February 2017
  - Toweranna A High Grade Gold System, 31 August 2017
  - Significant High-Grade Gold intersected -Toweranna Prospect, 19 December 2017
  - Drilling Update - Toweranna 1M confirm High grade gold lodes, 2 February 2018
  - Toweranna drilling expands high-grade gold footprint, 3 July 2018
  - Ongoing High Grade Gold hits at Mallina and Toweranna, 15 October 2018
  - Further high grade hits beneath Withnell, 5 November 2018
  - Further high grade drilling results achieved at Withnell, 20 March 2019
  - 136m@ 2.0g/t & Further High Grade Drill Results at Toweranna, 15 April 2019
  - Multiple High Grade Intercepts continue at Toweranna, 21 May 2019
  - Ongoing High Grade Intercepts at Toweranna, 11 June 2019
  - Toweranna High Gold recoveries - Conventional CIL Processing, 13 June 2019
  - Withnell drilling continues to delineate high grade Au lodes, 11 July 2019
  - High grade gold veins at Toweranna, 3 October 2019
  - Positive drill results extend Withnell potential, 25 November 2019
  - High grade gold veins at Toweranna, 26 November 2019
  - New Gold Discoveries at Hemi and Antwerp, 17 December 2019
  - Hemi confirms potential for major discovery, 6 February 2020
  - Further impressive thick and high grade gold at Hemi, 11 February 2020
  - Major extension of sulphide mineralisation at Hemi, 26 February 2020
  - RC drilling confirms large scale gold system at Hemi, 5 March 2020
  - Further extensive sulphide mineralisation intersected - Hemi, 10 March 2020
  - Hemi continues to Grow, 17 March 2020
  - Major Gold Extensions defined at BROLGA, 25 March 2020
  - Mallina Update, 1 April 2020
  - BROLGA Continues to Grow, 9 April 2020
  - Aircore drilling defines third large gold zone at Hemi, 17 April 2020
  - Brolga and Aquila drilling update, 22 April 2020
  - Large gold system defined at Crow, 1 May 2020
  - Significant Extension at HEMI- Aquila, 27 May 2020
  - HEMI – Major extension, 5 June 2020
  - HEMI – Broad high grade extensions at Aquila, 9 June 2020
  - Further High Grade & Expanded Footprint at Hemi, 22 June 2020
  - High gold recoveries achieved at Hemi, 9 July 2020
  - Further extensions confirmed at Brolga, 10 July 2020
  - Hemi scale grows with Aquila new extensions, 22 July 2020
  - Strong results boost Aquila westerly extension, 5 August 2020
  - Aquila mineralisation extends 400m vertical & New Crow Lode, 13 August 2020
  - Brolga mineralisation extends north towards Aquila and Scooby Zones, 21 August 2020
  - Exceptional high grade gold intercept at Crow, 27 August 2020
  - Falcon Major new gold discovery at Hemi, 2 September 2020
  - Falcon – Drilling Update, 15 September 2020
  - Strong Brolga infill and extensions, 25 September 2020
  - Encouraging Extensional & Infill Drilling Results at Aquila and Crow, 7 October 2020
  - Thick High Grade near surface hits continue at Falcon, 12 October 2020
  - Further positive results extend Aquila and Crow, 29 October 2020
  - Further high-grade extensions at Crow and Aquila, 12 November 2020
  - High Grade Depth Extensions and Visible Gold at Falcon , 30 November 2020
  - Mallina Gold Project Exploration Update, 4 December 2020
  - Strong infill & extensional results at Brolga, 21 December 2020
  - Consistent extensive gold endowment at Falcon, 13 January 2021
  - Diucon & Eagle-Two new Hemi intrusion Au discoveries, 29 January 2021
  - Greater Hemi - Gold targets light up at Scooby & Antwerp, 4 February 2021
  - Further metallurgical testwork confirms high gold recoveries, 16 February 2021
  - Major depth extensions and new footwall lodes emerge at Falcon, 23 February 2021
  - Crow/Aquila gold system continue to expand, 4 March 2021
  - Rapid growth at Diucon and Eagle, 9 March 2021
  - Extensional results show Brolga plunge potential, 16 March 2021
  - Depth and strike extensions at Falcon, 8 April 2021
  - Impressive resource definition drilling at Brolga, 13 April 2021
  - Strong extension to Diucon and Eagle, 15 April 2021
  - Strong mineralisation intersected in Crow and Aquila, 23 April 2021
  - Large mineralised system confirmed at Diucon – Eagle, 4 May 2021
  - High gold recoveries achieved at Aquila, 10 May 2021
  - Significant Falcon extensional & resource definition results, 27 May 2021
  - Diucon depth, width and strike extensions, 1 September 2021
  - Eagle extensions to the west and at depth, 9 September 2021
  - High gold recoveries also achieved at Falcon and Crow, 21 September 2021
  - Greater Hemi Corridor Update, 30 September 2021
  - Positive Regional Results at Withnell Calvert and Gillies, 13 October 2021
  - Consistent infill results in Brolga Stage 1 pit, 11 November 2021
