### 1.2 Background to the Offers

As announced on 5 July 2024, the Company conducted a placement to sophisticated and professional investors (**Placement Participants**) for 75,000,000 fully paid ordinary Shares at an issue price of \$0.008 per Share (**Placement Shares**) to raise \$600,000 (**Placement**).

The Placement is being conducted in two tranches as follows:

- (a) 37,320,610 Placement Shares which were issued pursuant to the Company's existing placement capacity under Listing Rule 7.1A raising \$298,565; and
- (b) subject to Shareholder approval, an additional 37,679,390 Placement Shares to the Placement Participants to raise an additional \$301,435.

As announced on 25 July 2024, the Company received additional commitments for Placement Shares, resulting in the second tranche of Placement Shares requiring the issue of a total of 62,679,390 Placement Shares (**Tranche 2 Shares**), which received shareholder approval at the Company's general meeting held on 16 September 2024 (**General Meeting**).

Funds raised from the Placement, together with the Company's existing cash reserves will be used to extend exploration activities at the Drummond Gold Basin Project in Queensland and for general working capital.

The Company engaged the services of GBA Capital Pty Ltd (ACN 643 039 123) (**GBA Capital**) to act as lead manager to the Placement pursuant to an agreement dated 2 July 2024 (**Lead Manager Mandate**). Further details relating to the Lead Manager Mandate are outlined in the Company's Notice of Meeting released to the Company's ASX platform on 16 August 2024.

Pursuant to the Lead Manager Mandate, the Company has agreed to issue 10,000,000 listed options with an exercise price \$0.03 and expiry date of 30 June 2026 (ASX: TMGOD) (**Broker Options**).

### 1.3 The Offers

#### (a) Cleansing Offer

Pursuant to this Prospectus, the Company invites investors identified by the Directors to apply for up to 100 Shares at an issue price of \$0.02 per Share, to raise up to \$2 (before expenses).

The Offer will only be extended, and Application Forms will only be provided, to specific parties on invitation from the Directors.

All of the Shares offered under this Prospectus will rank equally with the Shares on issue at the date of this Prospectus. Please refer to Section 3.1 for further information regarding the rights and liabilities attaching to the Shares.

(b) **Broker Offer**

This Prospectus includes an offer of 10,000,000 Broker Options to GBA Capital as part consideration for the lead manager services provided to the Company in connection with the Placement (**Broker Offer**). Accordingly, no funds will be raised from the issue of the Broker Options.

Only GBA Capital may accept the Broker Offer and an Application Form in relation to the Broker Offer will be provided to GBA Capital, together with a copy of this Prospectus. The Broker Options offered under the Broker Offer will be issued on the terms and conditions set out in Section 3.2. All shares issued on exercise of the Broker Options will rank equally with the Shares on issue at the date of this Prospectus. Please refer to Section 3.1 for further information regarding the rights and liabilities attaching to the Shares.

#### 1.4 **Objective**

The primary purpose of this Prospectus is to remove any trading restrictions that may have attached to Shares issued by the Company without disclosure under Chapter 6D of the Corporations Act prior to the Closing Date (including prior to the date of this Prospectus), including the Placement Shares. Accordingly, the Company is seeking to raise only a nominal amount of \$2 under this Prospectus as the purpose of this Prospectus is not to raise capital.

The purpose of the Broker Offer is to satisfy the Company's obligations under the Lead Manager Mandate.

In addition to the above purposes, the Broker Offer is being made under this Prospectus to remove any trading restrictions attaching to the relevant Options, and any Shares issued on exercise of those Options. The Company confirms that:

- (a) the Broker Offer under this Prospectus is being issued with disclosure under this Prospectus (which is a disclosure document under Part 6D.2 of the Corporations Act); and
- (b) the Broker Offer is being made such that the relief provided under ASIC Corporations (Sale Offers That Do Not Need Disclosure) Instrument 2016/80 with respect to the on-sale provisions of section 707 of the Corporations Act is available.

Relevantly, section 708A(11) of the Corporations Act provides that a sale offer does not need disclosure to investors if:

- (a) the relevant securities are in a class of securities that are quoted securities of the body; and
- (b) either:
  - (i) a prospectus is lodged with the ASIC on or after the day on which the relevant securities were issued but before the day on which the sale offer is made; or
  - (ii) a prospectus is lodged with ASIC before the day on which the relevant securities are issued and offers of securities that have been made under the prospectus are still open for acceptance on the day on which the relevant securities were issued; and
- (c) the prospectus is for an offer of securities issued by the body that are in the same class of securities as the relevant securities.

#### 1.5 **Application for Securities**

(a) **Applications for Shares under the Offer**

Applications for Shares must be made by investors at the direction of the Company and must be made using the Application Form accompanying this Prospectus.

Payment for the Shares must be made in full at the issue price of \$0.02 per Share, by no later than the Closing Date, following the instructions on the Application Form.

Completed Application Forms must be mailed or delivered to the Company at the address set out in the Application Form by no later than the Closing Date.

**(b) Applications for Broker Options under the Broker Options Offer**

The Broker Offer will only be extended to GBA Capital. Application Forms will only be provided to GBA Capital.

**1.6 Minimum subscription**

There is no minimum subscription.

**1.7 Oversubscriptions**

No oversubscriptions will be accepted by the Company.

**1.8 Underwriting**

The Offers are not underwritten.

**1.9 Issue of Shares**

As noted in Section 1.4, the primary purpose of this Prospectus is to remove any trading restrictions that may have attached to Shares issued by the Company without disclosure under Chapter 6D of the Corporations Act prior to the Closing Date (including prior to the date of this Prospectus).

If the Directors decide to issue Securities under the Offers, the issue of Securities under the Offers will be issued in accordance with the ASX Listing Rules and will take place as soon as practicable after the Closing Date.

Pending the issue of the Shares or payment of refunds pursuant to this Prospectus, all Application monies will be held by the Company in trust for the Applicants in a separate bank account as required by the Corporations Act. The Company, however, will be entitled to retain all interest that accrues on the bank account and each Applicant waives the right to claim interest.

The Directors will determine the recipients of all the Shares. The Directors reserve the right to reject any Application Form or to allocate any Applicant fewer Shares than the number applied for. Where the number of Shares issued is less than the number applied for, the surplus monies will be returned by cheque as soon as practicable after the Closing Date. Where no issue of Shares is made, the amount tendered on Application will be returned in full by cheque as soon as practicable after the Closing Date. Interest will not be paid on monies refunded.

The Company's decision on the number of Shares to be allocated to an Applicant will be final.

Holding statements for Shares issued under the Offer will be mailed as soon as practicable after the issue of Shares as soon as practicable after their issue.

**1.10 ASX listing**

Application for Official Quotation of the Shares and Broker Options offered pursuant to this Prospectus will be made within 7 days after the date of this Prospectus. If ASX does not grant Official Quotation of the Shares and Broker Options offered pursuant to this Prospectus before the expiration of three months after the date of issue of the Prospectus, (or such period as varied by the ASIC), the Company will not issue any Shares or Broker Options and will repay all Application monies for the Shares within the time prescribed under the Corporations Act, without interest.

The fact that ASX may grant Official Quotation to the Shares and Broker Options is not to be taken in any way as an indication of the merits of the Company or the Shares now offered for subscription.

## **1.11 Applicants outside Australia**

The distribution of this Prospectus outside Australia may be restricted by law and therefore persons into whose possession this document comes should seek advice on and observe any such restrictions. Any failure to comply with these restrictions constitutes a violation of those laws.

The Offers do not, and are not intended to, constitute offers in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

Residents of countries outside Australia should consult their professional advisers as to whether any government or other consents are required, or whether any formalities need to be observed should they wish to make an Application to take up Shares on the basis of this Prospectus. The return of a duly completed Application Form will be taken to constitute a representation and warranty that there has been no breach of such laws and that all approvals and consents have been obtained.

### **3. RIGHTS AND LIABILITIES ATTACHING TO SECURITIES**

#### **3.1 Rights and liabilities attaching to Shares**

The following is a summary of the more significant rights and liabilities attaching to Shares being offered pursuant to this Prospectus. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights and liabilities attaching to Shares are set out in the Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

##### **(a) General meetings**

Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of the Company.

Shareholders may requisition meetings in accordance with section 249D of the Corporations Act and the Constitution of the Company.

##### **(b) Voting rights**

Subject to any rights or restrictions for the time being attached to any class or classes of shares, at general meetings of shareholders or classes of shareholders:

- (i) each Shareholder entitled to vote may vote in person or by proxy, attorney or representative;
- (ii) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (iii) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder shall, in respect of each fully paid Share held by him, or in respect of which he is appointed a proxy, attorney or representative, have one vote for each Share held, but in respect of partly paid shares shall have such number of votes as bears the same proportion to the total of such Shares registered in the Shareholder's name as the amount paid (not credited) bears to the total amounts paid and payable (excluding amounts credited).

##### **(c) Dividend rights**

Subject to the rights of any preference Shareholders and to the rights of the holders of any shares created or raised under any special arrangement as to dividend, the Directors may from time to time declare a dividend to be paid to the Shareholders entitled to the dividend which shall be payable on all Shares according to the proportion that the amount paid (not credited) is of the total amounts paid and payable (excluding amounts credited) in respect of such Shares.

The Directors may from time to time pay to the Shareholders any interim dividends as they may determine. No dividend shall carry interest as against the Company. The Directors may set aside out of the profits of the Company any amounts that they may determine as reserves, to be applied at the discretion of the Directors, for any purpose for which the profits of the Company may be properly applied.

Subject to the ASX Listing Rules and the Corporations Act, the Company may, by resolution of the Directors, implement a dividend reinvestment plan on such terms and conditions as the Directors think fit and which provides for any dividend which the Directors may declare from time to time payable on Shares which are participating Shares in the dividend reinvestment plan, less any amount which the Company shall either pursuant to the Constitution or any law be entitled or obliged to retain, be applied by the Company to the payment of the subscription price of Shares.

(d) **Winding-up**

If the Company is wound up, the liquidator may, with the authority of a special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company, and may for that purpose set such value as he considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

The liquidator may, with the authority of a special resolution, vest the whole or any part of any such property in trustees upon such trusts for the benefit of the contributories as the liquidator thinks fit, but so that no Shareholder is compelled to accept any shares or other securities in respect of which there is any liability.

(e) **Shareholder liability**

As the Shares issued will be fully paid shares, they will not be subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

(f) **Transfer of shares**

Generally, shares in the Company are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act and the ASX Listing Rules.

(g) **Future increase in capital**

The issue of any new Shares is under the control of the Directors of the Company. Subject to restrictions on the issue or grant of Shares contained in the ASX Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing share or class of shares), the Directors may issue Shares as they shall, in their absolute discretion, determine.

(h) **Variation of rights**

Under section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to Shares.

If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

(i) **Alteration of Constitution**

The Options are exercisable at any time on or prior to the Expiry Date (**Exercise Period**).

(e) **Notice of Exercise**

The Options may be exercised during the Exercise Period by notice in writing to the Company in the manner specified on the Option certificate (**Notice of Exercise**) and payment of the Exercise Price for each Option being exercised in Australian currency by electronic funds transfer or other means of payment acceptable to the Company.

(f) **Exercise Date**

| <b>Nature of mineral exploration and exploitation</b> | <p>Possible future development of the Projects is dependent on a number of factors including, but not limited to, the acquisition and/or delineation of economically recoverable mineralisation, favourable geological conditions, receiving the necessary approvals from all relevant authorities and parties, seasonal weather patterns, unanticipated technical and operational difficulties encountered in extraction and production activities, mechanical failure of operating plant and equipment, shortages or increases in the price of consumables, spare parts and plant and equipment, cost overruns, access to the required level of funding and contracting risk from third parties providing essential services.</p> <p>If the Company commences production, its operations may be disrupted by a variety of risks and hazards which are beyond its control, including environmental hazards, industrial accidents, technical failures, labour disputes, unusual or unexpected geological formations, unexpected changes in the aquifers, flooding and extended interruptions due to inclement or hazardous weather conditions, fires, explosions or accidents.</p> <p>No assurance can be given that the Company will achieve commercial viability through the exploration or development of its Projects. The success of the Company will also depend upon the Company having access to sufficient capital to develop its assets, including its ability to maintain Tenements and obtain all required approvals for its activities. In the event the various exploration programs prove to be unsuccessful this could lead to a diminution in the value of the Tenements which in turn would have an adverse impact on the value of the Shares, a reduction in the cash reserves of the Company and possible relinquishment of the Tenements.</p> |

|                                                | knowledge, experience and industry practice. Estimates which were valid when originally calculated may alter significantly when new information or techniques become available. In addition, by their very nature, resource estimates are imprecise and depend to some extent on interpretations, which may prove to be inaccurate. As further information becomes available through additional fieldwork and analysis, the estimates are likely to change. This may result in alterations to development and mining plans which may, in turn, adversely affect the Company's operations.                                                                                                                                         |
| <b>Inability to abstract brine volume</b>      | The Company has utilised specialist consultants in determining its ability to abstract brine from the aquifers, but there is a risk that the Company will be unable to abstract the brine at the predicted rates that are required to establish a full scale commercially viable operation. This can occur due to low permeability of aquifer material, variability in the mineralisation and continuity of the various aquifer layers. As a result, pumping rates may be lower than expected, or require additional bores and/or trenches. Each bore is likely to have a specific life expectancy and will eventually run dry as the brine is extracted. This life expectancy may be variable and shorter than expected.         |
| <b>Variability in brine</b>                    | Brine deposits may be variable due to the geological layering of the host rock, the location within the palaeo-drainage system, inflows of other waters carrying other impurities or fresh water, all of which may affect the brine chemistry across the deposit. Added to this, there is also the potential for dilution after rainfall which may influence changes in the chemistry of brine recovery. These variability factors may cause different evaporation rates, alternative salt evaporites being formed in the evaporation ponds and require additional pumping volumes due to lower grades.                                                                                                                           |
| <b>Inclement weather and natural disasters</b> | The Company's exploration activities are subject to a variety of risks and hazards which are beyond its control, including hazardous weather conditions such as excessive rain, flooding and fires. Severe storms and high rainfall leading to flooding and associated damage may result in disruption to exploration activities including field work, evaporation trials, scouring damage to trenches and roadways. Rainfall may also impact and cause dilution of the mineralisation and/variability in the brine deposit.                                                                                                                                                                                                      |
| <b>Additional requirements for capital</b>     | The Company's capital requirements depend on numerous factors. Depending on the Company's ability to generate income from its operations, the Company may require further financing to develop its business. Any additional equity financing will dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations and scale back its exploration programmes as the case may be. There is however no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company. |
| <b>Climate Risk</b>                            | <p>There are a number of climate-related factors that may affect the operations and proposed activities of the Company. The climate change risks particularly attributable to the Company include:</p> <p>(a) the emergence of new or expanded regulations</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
