Directors' Report

The Directors of Paterson Resources Limited (“PSL” or “the Company”) present their report, together with the financial statements on the consolidated entity consisting of Paterson Resources Limited and its controlled entities (the “Group”) for the financial year ended 30 June 2024.

DIRECTORS

The names and particulars of the Company’s directors in office during the financial year and at the date of this report are as follows. Directors held office for this entire period unless otherwise stated.

Nick Johansen | Non-Executive Chairman

(resigned 20 March 2024)

A solicitor with extensive mining experience, ranging from junior exploration to production, across a range of commodities, Nick has expertise in transactions, resources regulation, native title and environmental law. Nick completed his Graduate Diploma of Legal Practice at Australian National University. In addition, he holds a BA in economics from the University of Adelaide.

During the past three years, Mr Johansen has held the following directorships in other ASX-listed companies:

- Non-Executive Chairman of Orcoda Limited (current).

Matthew Bull | Executive Director

Matthew Bull is a geologist with over 10 years experience in the mining and exploration industry. He has worked in a wide range of commodities including graphite, bauxite, gold, iron ore, copper and coal. He has considerable experience on the operation greenfield and resource development drilling exploration programs. His previous positions include consultant geologist working on Discovery Africa’s Tanzanian Graphite Project and CEO/Chief Geologist at Baru Resources.

During the past three years, Mr Bull has not held any directorships in other ASX-listed companies.

Kenneth Banks | Non-Executive Director

Mr Banks is a qualified Chartered Secretary and a Fellow of the Chartered Governance Institute. He has held a number of senior management positions notably Chief Financial Officer for two previously ASX-listed mining companies, and Director of an Australian subsidiary company (TWP Australia) which belonged to an internationally listed multi-discipline mining engineering consultancy. He has gained experience in Australia, Indonesia, Zimbabwe, and Brazil by actively participating in the establishment of businesses in all four countries. His most recent position was as General Manager – Corporate, for one of Western Australia’s leading mining services businesses, MLG Oz.

During the past three years, Mr Banks has not held any directorships in other ASX-listed companies.

Greg Entwistle | Non-Executive Director

(appointed 20 March 2024)

Greg is an experienced mining executive who has functioned in multiple countries worldwide. He has played a key role in the development of mines across many commodities. Greg has over 40 years’ experience in design, development and operations in various roles including as a project director, mine manager and Chief Operations Officer.

During the past three years, Mr Entwistle has not held any directorships in other ASX-listed companies.

PRINCIPAL ACTIVITIES

The principal activity of the Group during the financial year was mineral exploration.

REVIEW OF OPERATIONS

Exploration Programs

The Company's current strategy is to conduct exploration programs to advance existing near surface targets at all its projects utilising surface geochemistry, geophysics, and geological mapping, followed by focused drilling.

During this period, exploration programs have included soil sampling, target generation and drilling.

Grace Project – Paterson Province, Western Australia

The Company's priority for focused exploration was at the Grace Gold-Copper Project in the highly prospective Paterson Province, home to Newcrest's world class gold and copper Telfer Mine located 25km to the northeast. The Paterson Range is also host to several other additional major discoveries including Rio Tinto's Winu copper project and the Havieron gold and copper discovery, a joint venture between Newcrest and AIM listed Greatland Gold.

The Grace Gold-Copper Project covers over 345km² of prospective geology in the Paterson Province. The project has been previously explored by Newcrest Mining which identified outcropping gold and copper mineralisation at the Bemm and Grace Prospects, along with bedrock mineralisation at the Lakes, Genoa and Halls Knob Prospects.

The Grace-Bemm deposit has been drilled along 450-500m of strike and 90m across strike to an average depth of 73m. High grade shallow oxide gold mineralisation commences from surface. The historic drilling has allowed the calculation of an inferred mineral resource of 1.59mt @ 1.35g/t Au for 69,000ozs outlined in Table 1 (*PSL ASX Announcement 22 May 2020 – Entitlement Issue Prospectus).

Directors' Report

Figure 1: Locality map shopping prominent gold and copper deposits in the Paterson Province

Detailed 3D geological interpretation and wireframing were undertaken, incorporating recent high-grade gold intersections at the Grace-Bemm deposit where intersected. Drilling undertaken by Paterson at the project has hit:

- 15m @ 4.03g/t Au from 77m including 6m @ 9.3g/t Au from 79m (PRC0024*)
- 31m @ 3.13g/t Au from 145m including 7m @ 11.0g/t Au from 148m (PRC0024*)
- 19m @ 1.23g/t Au from 104m including 2m @ 5.9g/t Au from 106m (PRC0025*)

Directors' Report

REVIEW OF OPERATIONS (Continued)

Ground conditions prevented deeper RC drilling. The repetition of gold lodes at depths continues to be a geological model of interest and will be further tested with diamond drilling.

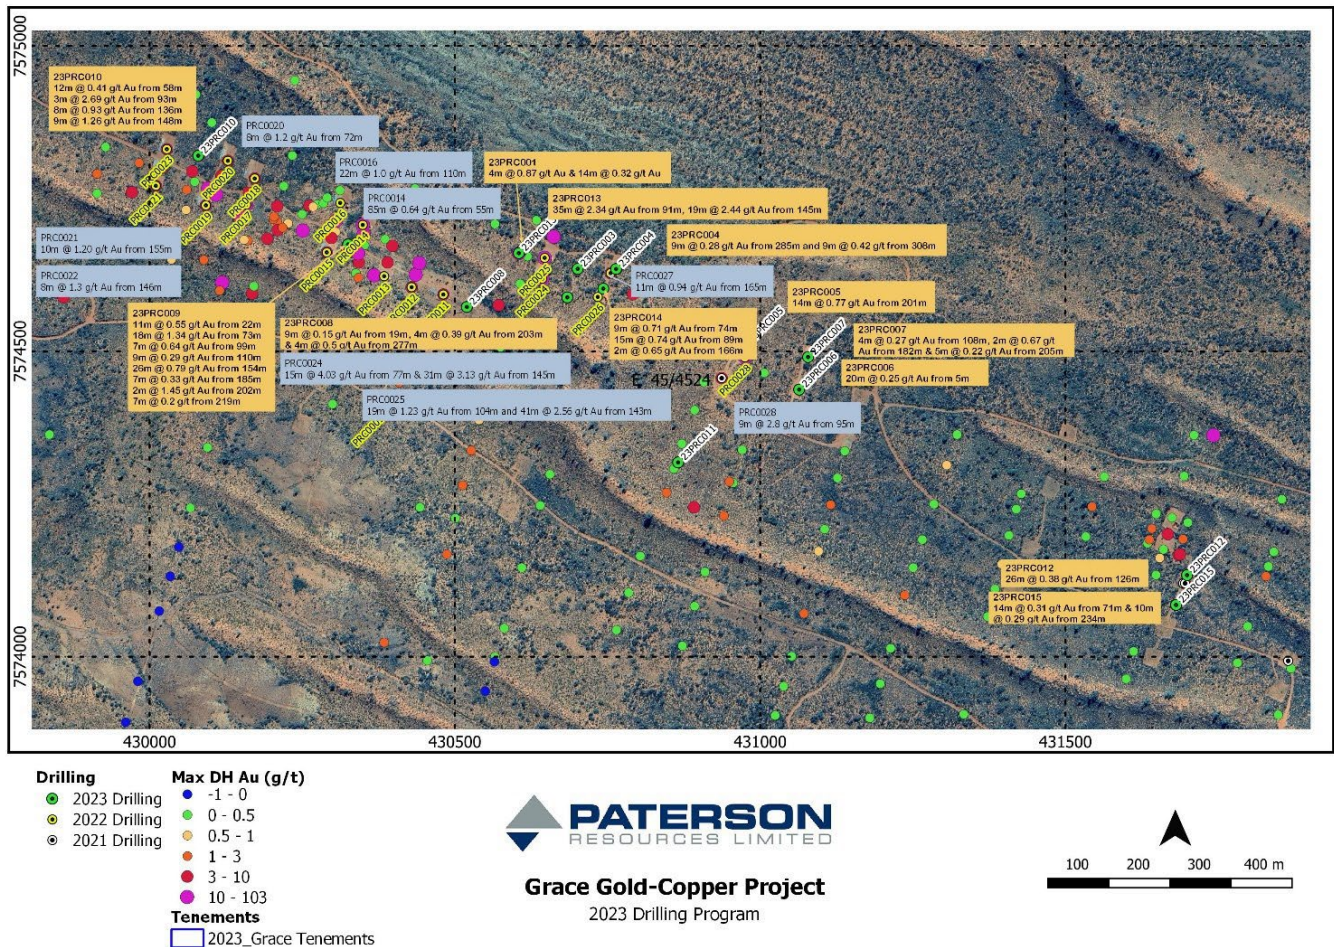

Figure 2: Location plan of 2023 RC drilling program with significant intercepts

Next Steps

Following on from the successful RC drilling campaign at the Grace Gold-Copper Project, Paterson is in the process of:

- Conducting a detailed technical review of all results in conjunction with historical drilling results.
- Integrating assaying and logging into 3D model incorporating geophysical and geochemical data to identify priority drilling targets.
- Obtaining regulatory government and heritage approvals for drilling activities to recommence in the second quarter of 2024.

Directors' Report

REVIEW OF OPERATIONS (Continued)

Burrage Project – Lachlan Fold Belt, New South Wales

Various workers previously proposed an exhalative or volcanic hosted massive sulphide (VHMS) model for the Burrage copper-lead-zinc-gold mineralisation. This interpretation is based on the largely stratiform nature of the mineralisation housed in a sequence of volcanoclastic rocks.

During the final quarter, the Company signed a binding share sale agreement (“SSA”) with Octo Mining Burrage Pty Ltd (Octo) for the sale of 100% of the issued capital of its wholly owned subsidiaries Burrage Copper Pty Ltd, BC Exploration Pty Ltd and Old Lloyds Mine Pty Ltd (Transaction) which hold the following exploration licenses and land that form the Burrage Project in NSW:

- (a) Exploration Licence No. 6463;
 - (b) Exploration Licence No. 6874;
 - (c) Exploration Licence No. 7975;
 - (d) Exploration Licence No. 8826;
 - (e) Exploration Licence No. 9135; and
 - (f) Lot 12 DP 241 638
- (together “the Burrage Project”).

The key terms of the SSA are as follows

1. Cash Consideration of A\$2,850,000 with a deposit of A\$200,000 payable within 5 business days of execution of the SSA and A\$2,650,000 payable on settlement;
2. Settlement up to approximately 60 days from execution of the SSA (unless otherwise extended by agreement between the parties), subject to the satisfaction of the conditions precedent, which include:
 - a) Octo completing legal and other relevant due diligence on the Burrage Project; and
 - b) the Company and Octo obtaining all necessary third-party, board, regulatory approvals, consents and waivers to allow the parties to lawfully complete the matters set out in the SSA.

The sale of the Burrage Project provides additional funding and allows Paterson to focus resources on its flagship Grace Gold-Copper Project in the highly prospective Paterson Province.

The Company received confirmation from ASX that Chapter 11 of the Listing Rules does not apply to the Transaction. The Company received the initial payment of A\$200,000 in June.

Corporate Capital Raising

On 30th October 2023, the Company announced it would raise approximately \$500,000 by way of a placement of up to 17,857,143 shares to sophisticated and professional investors together with one (1) free attaching option for every two (2) Placement Shares subscribed for.

The Placement Shares were issued at \$0.028 per share, representing a 12.5% discount to the 5-day volume weighted average price (VWAP) of the Company's shares on ASX. The issue of the Placement Shares was made under the Company's available placement capacity under Listing Rule 7.1 and rank equally with that of existing fully paid ordinary shares on issue. The Placement Options have an exercise price of \$0.05 and an expiry date of 24th November 2026. The Placement Options were subject to shareholder approval, which was received on 24th November 2023. A total of 17,142,857 Placement Shares and 8,571,430 Placement Options were issued on 11th December 2023.

In addition, the Company completed a pro-rata non-renounceable entitlement issue of one (1) Share for every ten (10) Shares held by those Shareholders registered at the Record Date at an issue price of \$0.028 per Share together with one (1) free attaching option for every two (2) Shares applied for and issued to raise up to A\$1,112,424 before costs (based on the number of Shares on issue as at the record date) (Entitlement Offer). The Company prepared and lodged a Prospectus in respect of the Entitlement Offer on 9th November 2023. The Entitlement Offer was underwritten by Viriathus Capital Pty Ltd (Underwriter).

Directors' Report

REVIEW OF OPERATIONS (Continued)

Corporate Capital Raising

The Company received applications from Shareholders subscribing for 13,922,130 New Shares (and 6,961,065 free attaching options) in the Company totalling \$389,819.64. These securities were issued on 5th December 2023. In addition, a total of 17,857,146 shortfall shares and 8,928,576 free attaching options were issued on 21st December 2023.

On 27th December 2023, a total of 9,821,429 shares and 9,821,429 free attaching options were issued, being Director Matt Bull's participation in the October 2023 Placement. The shares were issued at \$0.028 per share and were issued on the same terms and conditions as all other participants in the February 2023 placement. The issue of the securities was approved by shareholders at the AGM held 24th November 2023.

MATTERS SUBSEQUENT TO THE REPORTING PERIOD

The sale of the Burraga Project was completed in August with the final \$2,650,000 received.

Other than the above, there has not been any other matter or circumstance that has arisen since the end of the financial year that has significantly affected, or may significantly affect, the operations of the Group, the results of those operations, or the state of affairs of the Group.

LIKELY DEVELOPMENTS AND EXPECTED RESULTS

Future Exploration

The Group's main exploration efforts will be focussed on continuing to develop value from exploration across its tenements.

Directors' Report

DIRECTORS' MEETINGS

The number of Directors' meetings held during the financial year and the number of meetings attended by each Director during the time the Director held office are:

Director	Number Eligible to Attend	Number Attended
Nick Johansen	-	-
Matthew Bull	3	3
Kenneth Banks	3	3
Greg Entwistle	3	3

In addition to the scheduled Board meetings, Directors regularly communicate by telephone, email or other electronic means, and where necessary, circular resolutions are executed to effect decisions.

Due to the size and scale of the Company, there is no Remuneration and Nomination Committee or Audit Committee at present. Matters typically dealt with by these Committees are, for the time being, managed by the Board. For details of the function of the Board, refer to the Corporate Governance Statement.

This remuneration report for the year ended 30 June 2024 outlines the remuneration arrangements of the Group in accordance with the requirements of the Corporations Act 2001 ("the Act") and its regulations. This information has been audited as required by section 308(3C) of the Act.

REMUNERATION REPORT (AUDITED)

- K Voting at 2023 Annual General Meeting ("AGM")

Directors' Report

REMUNERATION REPORT (AUDITED) (CONTINUED)

A Remuneration Philosophy

KMP have authority and responsibility for planning, directing and controlling the activities of the Group. KMP of the Group comprise of the Board of Directors.

The Group's broad remuneration policy is to ensure the remuneration package properly reflects the person's duties and responsibilities and that remuneration is competitive in attracting, retaining and motivating people of the highest quality.

No remuneration consultants were employed during the financial year.

B Remuneration Governance, Structure and Approvals

Remuneration of Directors is currently set by the Board of Directors. The Board has not established a separate Remuneration Committee at this point in the Group's development, nor has the Board engaged the services of an external remuneration consultant. It is considered that the size of the Board along with the level of activity of the Group renders this impractical. The Board is primarily responsible for:

- The over-arching executive remuneration framework;
- Operation of the incentive plans which apply to executive directors and senior executives, including key performance indicators and performance hurdles;
- Remuneration levels of executives; and
- Non-Executive Director fees.

Their objective is to ensure that remuneration policies and structures are fair and competitive and aligned with the long-term interests of the Company.

❖ Executive Remuneration Structure

The Group's remuneration policy for executive directors is designed to promote superior performance and long-term commitment to the Group. Executives receive a base salary which is market related. Overall remuneration policies are subject to the discretion of the Board and can be changed to reflect competitive market and business conditions where it is in the best interests of the Group and its shareholders to do so. The Board's reward policy reflects its obligation to align executives' remuneration with shareholders' interests and retain appropriately qualified executive talent for the benefit of the Group. The main principles of the policy are:

- Reward reflects the competitive market in which the Group operates;
- Individual reward should be linked to performance criteria; and
- Executives should be rewarded for both financial and non-financial performance.

Refer below for details of Directors' remuneration.

❖ Non-Executive Remuneration Structure

The remuneration of Non-Executive Directors consists of Directors' fees, payable in arrears. The total aggregate fixed sum per annum to be paid to Non-Executive Directors in accordance with the Company's Constitution shall initially be no more than A\$300,000 and may be varied by ordinary resolution of the Shareholders in a General Meeting.

The Board may exercise discretion in relation to approving incentives, bonuses and options. The policy is designed to attract the highest calibre of Executives and reward them for performance that results in long-term growth in shareholder wealth.

Executives are also entitled to participate in the employee share and option arrangements. Refer below for details of all Directors' share and option holdings.

All remuneration paid to directors and executives is valued at the cost to the Group and expensed. Options are valued using an appropriate valuation methodology.

Directors' Report

REMUNERATION REPORT (AUDITED) (CONTINUED)

The remuneration of non-executives are detailed in Table 1 and their contractual arrangements are disclosed in "Section E – Contractual Arrangements".

C Remuneration and Performance

The following table shows the gross revenue, losses, earnings per share ("EPS") and share price of the Group as at 30 June 2024 and 30 June 2023.

	30-Jun-24	30-Jun-23
Other Income (\$)	2,036	6,949
Net loss after tax (\$)	(1,674,769)	(5,656,442)
Loss per share (cents)	(0.39)	(1.58)
Share price (\$)	0.015	0.027

Relationship between Remuneration and Company Performance

Given the current phase of the Company's development, the Board does not consider earnings during the current and previous financial year when determining, and in relation to, the nature and amount of remuneration of KMP.

The pay and reward framework for key management personnel may consist of the following areas:

- a) Fixed Remuneration – base salary
- b) Variable Short-Term Incentives
- c) Variable Long-Term Incentives

The combination of these would comprise the key management personnel's total remuneration.

a) Fixed Remuneration – Base Salary

The fixed remuneration for each senior executive is influenced by the nature and responsibilities of each role and knowledge, skills and experience required for each position. Fixed remuneration provides a base level of remuneration which is market competitive and comprises a base salary inclusive of statutory superannuation. It is structured as a total employment cost package.

Key management personnel are offered a competitive base salary that comprises the fixed component of pay and rewards. The base covers standard business hours and terms. Work performed on weekends, after hours, travel, site visits and special assignments may be charged at hourly rates reviewable by the Board. External remuneration consultants may provide analysis and advice to ensure base pay is set to reflect the market for a comparable role. No external advice was taken this year. Base salary for key management personnel is reviewed annually to ensure the executives' pay is competitive with the market. The pay of key management personnel is also reviewed on promotion. There is no guaranteed pay increase included in any key management personnel's contract.

b) Variable Remuneration – Short -Term Incentives (STI)

Discretionary cash bonuses may be paid to key management personnel annually, subject to the requisite Board and shareholder approvals where applicable.

c) Variable Remuneration – Long-Term Incentives (LTI)

Options and performance rights are issued at the Board's discretion.

Following shareholder approval at the 2020 AGM, the Company issued 4,000,000 performance rights to Mr Matthew Bull. The vesting of the Performance Rights is subject to the achievement of the following performance milestones, which is to be determined by the Board in its discretion:

- (a) 2,000,000 Performance Rights will vest upon the Company's Shares achieving a VWAP of \$0.090 over any 20 consecutive day period on which shares are traded on ASX, expiring 3 years after issue; and
- (b) 2,000,000 Performance Rights will vest upon the Company's Shares achieving a VWAP of \$0.135 over any 20 consecutive day period on which shares are traded on ASX, expiring 4 years after issue.

AUDITOR'S INDEPENDENCE DECLARATION

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out immediately after this director's report.

NON-AUDIT SERVICES

The Board of Directors has considered the position and is satisfied that the provision of the non-audit services is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001. The Directors are satisfied that the provision of non-audit services by the auditors, as set out below, did not compromise the auditor independent requirements of the Corporations Act 2001 for the following reasons:

- all non-audit services have been reviewed by the Board of Directors to ensure they do not impact the impartiality and objectivity of the auditor; and
- None of the services undermine the general principles relating to the auditor independence as set out in APES 110 Code of Ethics for Professional Accountants.

This report is made in accordance with a resolution of directors, pursuant to section 298(2)(a) of the Corporations Act 2001.

Notes to the Consolidated Financial Statements

NOTE 1 MATERIAL ACCOUNTING POLICY INFORMATION

(a) Reporting Entity

Paterson Resources Limited (referred to as “Paterson” or the “Company”) is a company domiciled in Australia. The address of the Company’s registered office and principal place of business is disclosed in the Corporate Directory of the Annual Report. The consolidated financial statements of the Company as at and for the year ended 30 June 2024 comprise the Company and its subsidiaries (together referred to as the “Consolidated Entity” or the “Group”).

(b) Basis of Preparation

Statement of compliance

The consolidated financial statements are general purpose financial statements which have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (“AASB”) and the Corporations Act 2001. The consolidated financial statements comply with International Financial Reporting Standards (“IFRS”) adopted by the International Accounting Standards Board (“IASB”). Paterson Resources Ltd is a for-profit entity for the purpose of preparing the financial statements.

The annual report was authorised for issue by the Board of Directors on 30 September 2024.

Parent entity information

In accordance with the Corporations Act 2001, these financial statements present the results of the Consolidated Entity only. Supplementary information about the parent entity is disclosed in Note 22.

New or amended Accounting Standards and Interpretations adopted

The Consolidated Entity has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (“AASB”) that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

New standards and interpretations not yet mandatory or early adopted

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory, have not been early adopted by the Consolidated Entity for the annual reporting period ended 30 June 2024. The Consolidated Entity has not yet assessed the impact of these new or amended Accounting Standards and Interpretations.

Significant Judgements and Estimates

The preparation of financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group’s accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 2.

Notes to the Consolidated Financial Statements

NOTE 1 MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Going Concern

As disclosed in the financial statements, the Group incurred a loss of \$1,654,767, including an exploration impairment expense of \$566,498, and had net cash outflows from operating and investing activities of \$685,421 and \$1,080,069 respectively, for the year ended 30 June 2024.

The Directors believe that it is reasonably foreseeable that the Group will continue as a going concern and that it is appropriate to adopt the going concern basis in the preparation of the financial report after consideration of the following factors:

- As disclosed in Note 25, after year-end the Company completed the sale of the Burraga asset and received the final payment of \$2,650,000;
- The Group has the ability to raise capital through the issue of equity; and
- If required, the Group can scale down its operations during the next 12 months, including corporate overheads, to curtail expenditure and ensure sufficient cash is available to meet committed expenditure.

(c) Principles of Consolidation

Subsidiaries

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Paterson Resources Ltd ('Company' or 'parent entity') as at 30 June 2024 and the results of all subsidiaries for the year then ended. Paterson Resources Ltd and its subsidiaries together are referred to in this financial report as the Consolidated Entity.

Subsidiaries are all entities (including special purpose entities) over which the Consolidated Entity has the power to govern the financial and operating policies, generally accompanying a shareholding of more than one-half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Consolidated Entity controls another entity.

Subsidiaries are fully consolidated from the date on which control is transferred to the Consolidated Entity. They are de-consolidated from the date that control ceases.

Intercompany transactions, balances and unrealised gains on transactions between Consolidated Entity companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Consolidated Entity.

The acquisition method of accounting is used to account for business combinations by the Consolidated Entity. A change in ownership interest, without the loss of control, is accounted for as an equity transaction, where the difference between the consideration transferred and the book value of the share of the non-controlling interest acquired is recognised directly in equity attributable to the parent.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of profit or loss and other comprehensive income, statement of changes in equity and statement of financial position respectively.

Notes to the Consolidated Financial Statements

NOTE 1 MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Where the Consolidated Entity loses control over a subsidiary, it derecognises the assets including goodwill, liabilities and non-controlling interest in the subsidiary together with any cumulative translation differences recognised in equity. The Consolidated Entity recognises the fair value of the consideration received and the fair value of any investment retained together with any gain or loss in profit or loss.

(d) Impairment of non-financial assets

Goodwill and other intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other non-financial assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount.

Recoverable amount is the higher of an asset's fair value less costs of disposal and value-in-use. The value-in-use is the present value of the estimated future cash flows relating to the asset using a pre-tax discount rate specific to the asset or cash-generating unit to which the asset belongs. Assets that do not have independent cash flows are grouped together to form a cash-generating unit.

(e) Fair value measurement

When an asset or liability, financial or non-financial, is measured at fair value for recognition or disclosure purposes, the fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date; and assumes that the transaction will take place either: in the principal market; or in the absence of a principal market, in the most advantageous market.

Fair value is measured using the assumptions that market participants would use when pricing the asset or liability, assuming they act in their economic best interests. For non-financial assets, the fair value measurement is based on its highest and best use. Valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, are used, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Assets and liabilities measured at fair value are classified into three levels, using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. Classifications are reviewed at each reporting date and transfers between levels are determined based on a reassessment of the lowest level of input that is significant to the fair value measurement.

For recurring and non-recurring fair value measurements, external valuers may be used when internal expertise is either not available or when the valuation is deemed to be significant. External valuers are selected based on market knowledge and reputation. Where there is a significant change in fair value of an asset or liability from one period to another, an analysis is undertaken, which includes a verification of the major inputs applied in the latest valuation and a comparison, where applicable, with external sources of data.

(f) Current and non-current classification

Assets and liabilities are presented in the statement of financial position based on current and non-current classification.

An asset is classified as current when: it is either expected to be realised or intended to be sold or consumed in the consolidated entity's normal operating cycle; it is held primarily for the purpose of trading; it is expected to be realised within 12 months after the reporting period; or the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period. All other assets are classified as non-current.

A liability is classified as current when: it is either expected to be settled in the consolidated entity's normal operating cycle; it is held primarily for the purpose of trading; it is due to be settled within 12 months after the reporting period; or there is no unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. All other liabilities are classified as non-current.

Deferred tax assets and liabilities are always classified as non-current.

NOTE 2 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS AND ASSUMPTIONS

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events management believes to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. The judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

Exploration and Evaluation Expenditure

Exploration and evaluation costs have been capitalised on the basis that the Consolidated Entity will commence commercial production in the future, from which time the costs will be amortised in proportion to the depletion of the mineral resources. Key judgements are applied in considering costs to be capitalised which includes determining expenditures directly related to these activities and allocating overheads between those that are expensed and capitalised. In addition, costs are only capitalised that are expected to be recovered either through successful development or sale of the relevant mining interest. Factors that could impact the future commercial production at the mine include the level of reserves and resources, future technology changes, which could impact the cost of mining, future legal changes and changes in commodity prices. To the extent that capitalised costs are determined not to be recoverable in the future, they will be written off in the period in which this determination is made.

Share-based payment transactions

The Consolidated Entity measures the cost of equity-settled transactions with employees or suppliers by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by using either the Binomial or Hoadley ES02 model taking into account the terms and conditions upon which the instruments were granted. The accounting estimates and assumptions relating to equity-settled share-based payments would have no impact on the carrying amounts of assets and liabilities within the next annual reporting period but may impact profit or loss and equity.

NOTE 3 SEGMENT INFORMATION

The Group operates in the mineral exploration industry in Australia only.

Given the nature of the Consolidated Entity, its size and current operations, management does not treat any part of the Group as a separate operating segment. Internal financial information used by the Group's decision makers is presented on a "whole of entity" manner without dissemination to any separately identifiable segments.

The Group's management operate the business as a whole without any special responsibilities for any separately identifiable segments of the business.

Accordingly, the financial information reported elsewhere in this financial report is representative of the nature and financial effects of the business activities in which it engages and the economic environments in which it operates.

Accounting Policy

Operating segments are presented using the 'management approach', where the information presented is on the same basis as the internal reports provided to the Chief Operating Decision Makers ('CODM'). The CODM is responsible for the allocation of resources to operating segments and assessing their performance.

Notes to the Consolidated Financial Statements

NOTE 6 INCOME TAX (Continued)

Accounting Policy

The income tax expense (revenue) for the year comprises current income tax expense (income) and deferred tax expense (income).

Current Tax

Current income tax expense charged to the profit or loss is the tax payable on taxable income calculated using applicable income tax rates enacted, or substantially enacted, as at the end of the reporting period. Current tax liabilities (assets) are therefore measured at the amounts expected to be paid to (recovered from) the relevant taxation authority.

Deferred Tax

Deferred tax expense reflects movements in deferred tax asset and deferred tax liability balances during the year as well unused tax losses.

Current and deferred income tax expense (income) is charged or credited directly to equity instead of the profit or loss when the tax relates to items that are credited or charged directly to equity.

Deferred tax assets and liabilities are ascertained based on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets also result where amounts have been fully expensed but future tax deductions are available. No deferred income tax will be recognised from the initial recognition of an asset or liability, excluding a business combination, where there is no effect on accounting or taxable profit or loss.

Deferred tax assets and liabilities are calculated at the tax rates that are expected to apply to the period when the assets realised or the liability is settled, based on tax rates enacted or substantively enacted at the end of the reporting period. Their measurement also reflects the manner in which management expects to recover or settle the carrying amount of the related asset or liability.

Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised. Where temporary differences exist in relation to investments in subsidiaries, branches, associates, and joint ventures, deferred tax assets and liabilities are not recognised where the timing of the reversal of the temporary difference can be controlled, and it is not probable that the reversal will occur in the foreseeable future.

Current tax assets and liabilities are offset where a legally enforceable right of set-off exists and it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur. Deferred tax assets and liabilities are offset where a legally enforceable right of set-off exists, the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur in future periods in which significant amounts of deferred tax assets or liabilities are expected to be recovered or settled.

NOTE 7 LOSS PER SHARE

Basic loss per share amounts is calculated by dividing net loss for the year attributable to ordinary equity holders of the Company by the weighted average number of ordinary shares outstanding during the year.

Diluted loss per share amounts is calculated by dividing the net loss attributable to ordinary equity holders of the Company by the weighted average number of ordinary shares outstanding during the year plus the weighted average number of ordinary shares that would be issued on the conversion of all the dilutive potential ordinary shares into ordinary shares.

Options on issue are not considered dilutive to the earnings per share as the Company is in a loss-making position.		
Basic and diluted loss per share (cents)	(0.39)	(1.58)

Accounting Policy*Basic earnings per share*

Basic earnings per share are calculated by dividing:

- The profit attributable to owners of the Company, excluding any costs of servicing equity other than ordinary shares; and
- By the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year and excluding treasury shares.

Diluted earnings per share

Diluted earnings per share adjust the figures used in the determination of basic earnings per share to take into account:

- The after-income tax effect of interest and other financing costs associated with dilutive potential ordinary shares; and
- The weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential ordinary shares.

The Consolidated Entity has recognised a loss of \$Nil in profit or loss in respect of the expected credit losses for the year ended 30 June 2024 (2023: \$Nil).

Accounting Policy

Trade and Other Receivables

Trade receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any allowance for expected credit losses. Trade receivables are generally due for settlement within 30 days.

The Group has applied the simplified approach to measuring expected credit losses, which uses a lifetime expected loss allowance. To measure the expected credit losses, trade receivables have been grouped based on days overdue. Other receivables are recognised at amortised cost, less any allowance for expected credit losses.

Accounting policy

Goods and services Tax ('GST') and other similar taxes

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the tax authority. In this case it is recognised as part of the cost of the acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the taxation authority is included as a current asset or liability in the Consolidated Statement of Financial Position.

Cash flows are presented in the statement of cash flows on a gross basis, except for the GST on investing and financial activities, which are disclosed as operating cash flows

The assets identified above represents the carrying amount of assets Burraga Pty Ltd and Old Lloyd Pty Ltd, subsidiaries of Paterson Resources Limited, which was the subject of a sale agreement entered into on 22 May 2024. On 29 August 2024, the sale was completed.

Accounting policy

Assets of disposal groups are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continued use. They are measured at the lower of their carrying amount and fair value less costs of disposal. For non-current assets or assets of disposal groups to be classified as held for sale, they must be available for immediate sale in their present condition and their sale must be highly probable.

An impairment loss is recognised for any initial or subsequent write down of the non-current assets and assets of disposal groups to fair value less costs of disposal. A gain is recognised for any subsequent increases in fair value less costs of disposal of a non-current assets and assets of disposal groups, but not in excess of any cumulative impairment loss previously recognised.

Non-current assets are not depreciated or amortised while they are classified as held for sale. Interest and other expenses attributable to the liabilities of assets held for sale continue to be recognised. Non-current assets classified as held for sale and the assets of disposal groups classified as held for sale are presented separately on the face of the statement of financial position, in current assets. The liabilities of disposal groups classified as held for sale are presented separately on the face of the statement of financial position, in current liabilities.

Impairment expense ⁽ⁱ⁾	(566,498)	(4,769,630)
At the end of the year	4,580,818	6,628,186

(i) During the year, the Board performed a full review across all the projects and made relinquishment decisions based on the following assumptions:

- a. the right to explore in the specific area has expired during the period or will expire in the near future, and is not expected to be renewed;
- b. expenditure on further exploration for and evaluation of mineral resources in the specific area is neither budgeted nor planned;
- c. exploration for and evaluation of mineral resources in the specific area have not led to the discovery of commercially viable quantities of mineral resources and the entity has decided to discontinue such activities in the specific area;
- d. sufficient data exist to indicate that, although a development in the specific area is likely to proceed, the carrying amount of the exploration and evaluation asset is unlikely to be recovered in full from successful development or by sale.

The Company surrendered Bellary tenement E47/3578 during the year, writing off \$15,534. Moreover, The Company surrendered the Lake Grace tenements E45/5130 subsequent to year end, writing off \$377,415 in 2024. In consideration of the sale of the Burruga tenements, the Company wrote off \$213,973.

Accounting Policy

Acquisition, exploration and evaluation costs associated with mining tenements are accumulated in respect of each identifiable area of interest. These costs are only carried forward to the extent that the Group's rights of tenure to that area of interest are current and that the costs are expected to be recouped through the successful commercial development or sale of the area or where activities in the area have not yet reached a stage that permits reasonable assessment of the existence of economically recoverable reserves.

Costs in relation to an abandoned area are written off in full against profit in the year in which the decision to abandon the area is made.

Each area of interest is also reviewed annually, and acquisition costs written off to the extent that they will not be recoverable in the future.

Trade payables are non-interest bearing and are normally settled on 30-day terms.

Due to the short-term nature of these payables, their carrying value is assumed to be the same as their fair value.

Accounting Policy

Trade payables and other payables represent liabilities for goods and services provided to the Group prior to the end of the financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition.

NOTE 14 CONTRIBUTED EQUITY (Continued)

Accounting Policy

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds. Incremental costs directly attributable to the issue of new shares or options for the acquisition of a business are not included in the cost of the acquisition as part of the purchase consideration.

If the Company reacquires its own equity instruments, for example, as a result of a share buy-back, those instruments are deducted from equity and the associated shares are cancelled. No gain or loss is recognised in the profit or loss and the consideration paid including any directly attributable incremental costs (net of income taxes) is recognised directly in equity.

Notes to the Consolidated Financial Statements

NOTE 16 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk and interest rate risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of the financial markets and seeks to minimise potential adverse effects on the financial performance of the Group. The Group uses different methods to measure and manage different types of risks to which it is exposed. These include monitoring levels of exposure to interest rate and foreign exchange risk and assessments of market forecasts for interest rate and foreign exchange prices. Ageing analysis and monitoring of specific credit allowances are undertaken to manage credit risk. Liquidity risk is monitored through the development of future cash flow forecasts.

Risk management is carried out by Management and overseen by the Board of Directors with assistance from suitably qualified external advisors.

The main risks arising for the Group are foreign exchange risk, interest rate risk, credit risk and liquidity risk. The Board reviews and agrees policies for managing each of these risks and they are summarised below.

The carrying values of the Group's financial instruments are as follows:

	2024 \$	2023 \$
Financial Assets		
Cash and cash equivalents	475,514	586,640
Trade and other receivables	100,733	101,194
Financial assets at fair value through profit or loss	2,462	11,194
	578,709	699,028
Financial Liabilities		
Trade and other payables	505,240	213,907
Other current liabilities	181,818	-
	687,058	213,907

(a) Market risk

(i) Foreign exchange risk

The Group was not significantly exposed to foreign currency risk fluctuations.

(ii) Interest rate risk

The Group is exposed to interest rate risk, which is the risk that a financial instrument's value will fluctuate as a result of changes in the market interest rates on interest bearing financial instruments. The Group's exposure to this risk relates primarily to the Group's cash and any cash on deposit. The Group does not use derivatives to mitigate these exposures. The Group manages its exposure to interest rate risk by holding certain amounts of cash in fixed and floating interest rate facilities. At the reporting date, the interest rate profile of the Group's interest-bearing financial instruments was:

	2024		2023	
	Weighted average interest rate ⁽ⁱ⁾	Balance \$	Weighted average interest rate	Balance \$
Cash and cash equivalents	0.43%	475,514	1.54%	586,640

(i) This interest rate represents the average interest rate for the period.

Sensitivity

Within the analysis, consideration is given to potential renewals of existing positions and the mix of fixed and variable interest rates. The following sensitivity analysis is based on the interest rate risk exposures in existence at the reporting date. The 1% increase and 1% decrease in rates is based on reasonably expected possible changes over a financial year, using the observed range of historical rates for the preceding five-year period.

Notes to the Consolidated Financial Statements

NOTE 16 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

At 30 June 2024, if interest rates had moved, as illustrated in the table below, with all other variables held constant, post-tax losses and equity would have been affected as follows:

<i>Judgements of reasonably possible movements:</i>	Profit higher/(lower)	
	2024	2023
	\$	\$
+ 1.0% (100 basis points)	4,755	5,866
- 1.0% (100 basis points)	(4,755)	(5,866)

(b) Credit risk

Credit risk arises from the financial assets of the Group, which comprise cash and cash equivalents, trade and other receivables and other financial assets. The Group's exposure to credit risk arises from potential default of the counterparty, with maximum exposure equal to the carrying amount of the financial assets.

The Group's policy is to trade only with recognised, creditworthy third parties. It is the Group's policy that all customers who wish to trade on credit terms will be subject to credit verification procedures.

In addition, receivable balances are monitored on an ongoing basis with the result that the Group's exposure to bad debts is not significant. There are no significant concentrations of credit risk within the Group.

(c) Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to its reputation.

The Group manages liquidity risk by maintaining adequate cash reserves from funds raised in the market and by continuously monitoring forecast and actual cash flows. The Group does not have any external borrowings.

The following are the contractual maturities of financial liabilities:

	6 months	6-12 months	1-5 years	> 5 years	Total
	\$	\$	\$	\$	\$
2024					
Trade and other payables	505,240	-	-	-	505,240
2023					
Trade and other payables	213,907	-	-	-	213,907

(d) Capital risk management

The Group's objectives when managing capital are to:

- Safeguard their ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders; and
- Maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the number of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

Given the stage of the Group's development there are no formal targets set for return on capital. The Group is not subject to externally imposed capital requirements. The net equity of the group is equivalent to capital. Net capital is obtained through capital raisings on the Australian Securities Exchange ("ASX").

**INDEPENDENT AUDITOR'S REPORT
TO THE MEMBERS OF
PATERSON RESOURCES LIMITED**

Opinion

We have audited the financial report of Paterson Resources Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 30 June 2024, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial statements, including material accounting policy information, the consolidated entity disclosure statement and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the Corporations Act 2001, including:

- (i) giving a true and fair view of the Group's financial position as at 30 June 2024 and of its financial performance for the year then ended; and
- (ii) complying with Australian Accounting Standards and the Corporations Regulations 2001.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including independence standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matter	How our audit addressed this matter
Exploration and Evaluation Expenditure Refer to Note 11 in the financial statements	
<p>The Group has capitalised exploration and evaluation expenditure with a carrying value of \$4,580,818 as at 30 June 2024.</p> <p>We considered this to be a key audit matter due to the significant management judgments involved in assessing the carrying value of the asset including:</p> <ul style="list-style-type: none"> • Determination of whether the expenditure can be associated with finding specific mineral resources, and the basis on which that expenditure is allocated to an area of interest; • Determination of whether exploration activities have progressed to the stage at which the existence of an economically recoverable mineral reserve may be assessed; and • Assessing whether any indicators of impairment are present, and if so, judgments applied to determine and quantify any impairment loss. 	<p>Our audit procedures included:</p> <ul style="list-style-type: none"> • Assessing the Group's accounting policy for compliance with Australian Accounting Standards; • Assessing the Group's right to tenure of each relevant area of interest; • Agreeing on a sample basis, additions of capitalised exploration and evaluation expenditure to supporting documentation, including assessing whether amounts are capital in nature and relate to the relevant area of interest; • Assessing the amount of capitalised exploration and evaluation expenditure written off during the year; • Assessing and evaluating management's assessment that no indicators of impairment existed at the reporting date; • Assessing management's determination that exploration and evaluation activities have not yet reached a stage where the existence or otherwise of economically recoverable reserves may be reasonably determined; • Enquiring with management and assessing budgets and other supporting documentation to corroborate that active and significant operations in, or relation to, each relevant area of interest will be continued in the future; and • Assessing the appropriateness of the disclosures in financial report.

Other Information

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2024 but does not include the financial report and the auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of:

- a. the financial report (other than the consolidated entity disclosure statement) that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001*; and
- b. the consolidated entity disclosure statement that is true and correct in accordance with the *Corporations Act 2001*, and

for such internal control as the directors determine is necessary to enable the preparation of:

- i. the financial report (other than the consolidated entity disclosure statement) that gives a true and fair view and is free from material misstatement, whether due to fraud or error; and
- ii. the consolidated entity disclosure statement that is true and correct and is free of misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at: https://www.auasb.gov.au/admin/file/content102/c3/ar2_2020.pdf. This description forms part of our auditor's report.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included within the directors' report for the year ended 30 June 2024.

In our opinion, the Remuneration Report of Paterson Resources Limited, for the year ended 30 June 2024, complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the Corporations Act 2001. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
