# ASX Announcement

14 October 2024

## Entitlement Offer – Intention to Quote New Options

**QEM Ltd** (“QEM” or “the Company”) advises that it has today lodged a Second Supplementary Prospectus in relation to its partially underwritten \$3.0 million Entitlement Offer.

The Second Supplementary Prospectus is intended to be read with the Company’s Prospectus dated 23 September 2024 (**Prospectus**) as amended by its Supplementary Prospectus dated 8 October 2024.

Section 6.2(c) of the Prospectus stated that the Company was not intending to seek official quotation of the New Options, but reserved the right to do so. **On the basis of feedback from Shareholders, the Company will now seek official quotation of the New Options on the ASX.** As official quotation is at the discretion of the ASX, if permission is not granted for quotation of the New Options, the Company will issue the New Options as unquoted, subject to its right to seek their quotation in the future.

As announced last week, the **Closing Date** for the Offer has been extended to Friday, **18 October 2024** to allow shareholders more time to consider the Offer. The revised timetable for the Entitlement Offer is set out in the Second Supplementary Prospectus.

The Company also provides the below information to assist shareholders with accessing their Entitlement and Acceptance Form.

## **Access**

The Company advises that the Prospectus and personalised application forms are available to download online through:

<https://investor.automic.com.au/>

To access the personalized application form and to apply for Offer Securities online via the Share Registry website by taking the following steps:

- (1) Click on Register
- (2) Enter 'QEM Ltd' or 'QEM'
- (3) Enter your Holder Number (HIN/SRN)
- (4) Enter your Australian postcode (If you are not an Australian resident, please amend the country name as appropriate)
- (5) Once you have completed the registration prompts, click on the 'documents and statements' button next to their holding.

## **Payment**

Payment for the Entitlement Offer can be made by either:

- (1) BPAY®, if you are an Eligible Shareholder with a registered address in Australia; or
- (2) Electronic Funds Transfer (EFT), with the unique reference number that has been assigned to your application.

If Shareholders require further information about the Offer, please contact Automic on 1300 288 664 (within Australia), +61 2 9698 5414 (outside Australia) or at [corporate.actions@automicgroup.com.au](mailto:corporate.actions@automicgroup.com.au) between 9:00am and 5:00pm (AEST).

## **ENDS**

*This announcement was authorised for release on the ASX by the Board of QEM Limited.*

## ABOUT QEM

QEM Limited (ASX: QEM) is a publicly listed company which is focused on the exploration and development of its flagship Julia Creek Project, covering 250km<sup>2</sup> in the Julia Creek area of North Western Queensland.

The Julia Creek vanadium and oil shale project is a unique world class resource with the potential to utilise and deliver innovative and sustainable energy solutions, through the production of energy fuels and vanadium pentoxide. QEM strives to become a leading producer of liquid fuels and in response to a global vanadium deficit, also aims to become a global supplier of high-quality vanadium pentoxide, to both the nascent energy storage sector and the Australian steel industry.

This globally significant JORC (2012) Mineral Resource of 2,870 Mt @ 0.31% V<sub>2</sub>O<sub>5</sub> is one of the single largest ASX listed vanadium resources and represents a significant opportunity for development. The resource is comprised of 461Mt @ 0.28% V<sub>2</sub>O<sub>5</sub> in the Indicated category and 2,406Mt @ 0.31% V<sub>2</sub>O<sub>5</sub> in the Inferred category, with the added benefit of a contingent (SPE-PRMS 2018) in-situ oil resource of 6.3 MMbbls of Oil equivalent in the 1C category, 94MMbbls in the 2C category, and 654MMbbls in the 3C category, contained within the same ore body.

The tenements form part of the vast Toolebuc Formation, which is recognised as one of the largest deposits of vanadium and oil shale in the world and located less than 6km east of the township of Julia Creek. In close proximity to all major infrastructure and services, the project is intersected by the main infrastructure corridor of the Flinders Highway and Great Northern Railway, connecting Mt Isa to Townsville.

*\*The information in this announcement that relates to the mineral resource and contingent resource estimates for the Company's Julia Creek Project was first reported by the Company in its IPO prospectus dated 20 August 2018 and supplementary prospectus dated 12 September 2018 (together, the "Prospectus") and the subsequent resource upgrade announcements ("Resource Upgrade") dated 14 October 2019, 7 April 2022 and 5 March 2024. The Company confirms that it is not aware of any new information or data that materially affects the information included in the Prospectus and Resource Upgrade, and in the case of estimates of Mineral Resources and Contingent Resources, that all material assumptions and technical parameters underpinning the estimates in the Prospectus and Resource Upgrade continue to apply and have not materially changed.*
