17 October 2024

**KAISER REEF LIMITED – COMPANY UPDATE**

Kaiser Reef Limited (ACN 635 910 271) (the **Company**) wishes to provide Shareholders with an update as to the Company's activities in connection with the lodgement of the cleansing prospectus today, which is attached to this letter.

During the preparation of its 2024 notice of annual general meeting, the Company has become aware that it has failed to:

- (a) appoint its auditor, BDO Audit Pty Ltd, at the annual general meeting of the Company convened on 23 November 2023 which is required by section 327B(1)(b) of the *Corporations Act 2001* (Cth) (**Corporations Act**); and
- (b) lodge a cleansing prospectus which is required by section 708A(11) of the Corporations Act for the issue of fully paid ordinary shares in the capital of the Company (**Shares**) to participants of a placement in September 2021.

Shareholders should note that the Company's decision to change auditors from BDO (WA) Pty Ltd to BDO Audit Pty Ltd was as a result of the Company's operations being based primarily over east. In effect, there was no change to the auditor of the Company.

The Company has applied to the Court seeking orders to enable the Company to undertake the necessary actions to ensure that any existing and future on-sale of Shares affected by the above failures do not breach the Corporations Act and will update the market accordingly. The Company has advised ASIC and ASX of these matters and of the application to the Court.

Consistent with ASX's Guidance Note 30, the Company does not expect to re-commence trading until the later of:

- (a) the date the orders referred to above have been granted; and
- (b) completion of the proposed capital raising announced on 16 October 2024.

Yours faithfully

**Jonathan Downes**

The distribution of this Prospectus in jurisdictions outside Australia may be restricted by law and persons who come into possession of this Prospectus should seek advice on and observe any of these restrictions. Any failure to comply with such restrictions may constitute a violation of applicable securities laws. This Prospectus does not constitute an offer of Shares in any jurisdiction where, or to any person to whom, it would be unlawful to issue in this Prospectus.

### Continuous disclosure obligations

The Company is a "disclosing entity" (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Shares.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the three months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

## 1. DETAILS OF THE OFFER

### 1.1 Indicative Timetable

Lodgement of Prospectus with the ASIC and ASX	17 October 2024
Opening Date	17 October 2024
Closing Date*	5:00pm (WST) 18 October 2024

\*These dates are indicative only and may change without notice. The Directors reserve the right to extend the Closing Date at any time after the Opening Date without notice.

### 1.2 The Offer

Pursuant to this Prospectus, the Company invites investors identified by the Directors to apply for up to 1,000 Shares at an issue price of \$0.165 per Share, to raise up to \$165 (before expenses).

The Offer will only be extended, and Application Forms will only be provided, to specific parties on invitation from the Directors.

All of the Shares offered under this Prospectus will rank equally with the Shares on issue at the date of this Prospectus. Please refer to Section 3 for further information regarding the rights and liabilities attaching to the Shares.

### 1.3 Objective

The primary purpose of this Prospectus is as a cleansing prospectus to meet disclosure requirements for offers and sales of Shares going forward so as to remove any trading restrictions that may have attached to Shares issued by the Company without disclosure under Chapter 6D of the Corporations Act prior to the Closing Date (including prior to the date of this Prospectus). Accordingly, the Company is seeking to raise only a nominal amount of \$165 under this Prospectus as the purpose of this Prospectus is not to raise capital.

Relevantly, section 708A(11) of the Corporations Act provides that a sale offer does not need disclosure to investors if:

- (a) the relevant securities are in a class of securities that are quoted securities of the body; and
- (b) either:
  - (i) a prospectus is lodged with the ASIC on or after the day on which the relevant securities were issued but before the day on which the sale offer is made; or
  - (ii) a prospectus is lodged with ASIC before the day on which the relevant securities are issued and offers of securities that have been made under the prospectus are still open for acceptance on the day on which the relevant securities were issued; and
- (c) the prospectus is for an offer of securities issued by the body that are in the same class of securities as the relevant securities.

### 1.4 Application for Shares

Applications for Shares must be made by investors at the direction of the Company and must be made using the Application Form accompanying this Prospectus.

Payment for the Shares must be made in full at the issue price of \$0.165 per Share.

Completed Application Forms and accompanying cheques, made payable to "**KAISER REEF LIMITED**" and crossed "**Not Negotiable**", must be mailed or delivered to the Company at the address set out in the Application Form by no later than the Closing Date.

### **1.5 Minimum subscription**

There is no minimum subscription.

### **1.6 Oversubscriptions**

No oversubscriptions will be accepted by the Company.

### **1.7 Underwriting**

The Offer is not underwritten.

### **1.8 Issue of Shares**

As noted in Section 1.3, the primary purpose of the Prospectus is to remove any trading restrictions that may have attached to Shares issued by the Company without disclosure under Chapter 6D of the Corporations Act prior to the Closing Date (including prior to the date of this Prospectus).

If the Directors decide to issue Shares under the Offer, the issue of Shares under the Offer will be issued in accordance with the ASX Listing Rules and will take place as soon as practicable after the Closing Date.

Application moneys will be held in a separate subscription account until the Shares are issued. This account will be established and kept by the Company in trust for each Applicant. Any interest earned on the application moneys will be for the benefit of the Company and will be retained by the Company irrespective of whether any Shares are issued and each Applicant waives the right to claim any interest.

The Directors will determine the recipients of all the Shares. The Directors reserve the right to reject any application or to allocate any Applicant fewer Shares than the number applied for. Where the number of Shares issued is less than the number applied for, the surplus monies will be returned by cheque as soon as practicable after the Closing Date. Where no issue of Shares is made, the amount tendered on application will be returned in full by cheque as soon as practicable after the Closing Date. Interest will not be paid on monies refunded.

The Company's decision on the number of Shares to be allocated to an Applicant will be final.

Holding statements for Shares issued under this Prospectus will be mailed as soon as practicable after the issue of Shares as soon as practicable after their issue.

### **1.9 ASX listing**

Application for Official Quotation of the Shares offered pursuant to this Prospectus will be made within 7 days after the date of this Prospectus. If ASX does not grant Official Quotation of the Shares offered pursuant to this Prospectus before the expiration of three months after the date of issue of the Prospectus, (or such period as varied by the ASIC), the Company will not issue any Shares and will repay all Application monies for the Shares within the time prescribed under the Corporations Act, without interest.

The fact that ASX may grant Official Quotation to the Shares is not to be taken in any way as an indication of the merits of the Company or the Shares now offered for subscription.

### **1.10 Applicants outside Australia**

The distribution of this Prospectus outside Australia may be restricted by law and therefore persons into whose possession this document comes should seek advice on and observe any such restrictions. Any failure to comply with these restrictions constitutes a violation of those laws.

The Offer does not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

Residents of countries outside Australia should consult their professional advisers as to whether any government or other consents are required, or whether any formalities need to be observed should they wish to make an Application to take up Shares on the basis of this Prospectus. The return of a duly completed Application Form will be taken to constitute a representation and warranty that there has been no breach of such laws and that all approvals and consents have been obtained.

### 3. RIGHTS AND LIABILITIES ATTACHING TO SHARES

The following is a summary of the more significant rights and liabilities attaching to Shares being offered pursuant to this Prospectus. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights and liabilities attaching to Shares are set out in the Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

(a) **General meetings**

Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of the Company. The Company's constitution permits the use of technology at general meetings of shareholders (including wholly virtual meetings) to the extent permitted under the Corporations Act, Listing Rules and applicable law.

Shareholders may requisition meetings in accordance with section 249D of the Corporations Act and the Constitution of the Company.

(b) **Voting rights**

Subject to any rights or restrictions for the time being attached to any class or classes of shares, at general meetings of shareholders or classes of shareholders:

- (i) each Shareholder entitled to vote may vote in person or by proxy, attorney or representative;
- (ii) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (iii) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder shall, in respect of each fully paid Share held by him, or in respect of which he is appointed a proxy, attorney or representative, have one vote for each Share held, but in respect of partly paid shares shall have such number of votes as bears the same proportion to the total of such Shares registered in the Shareholder's name as the amount paid (not credited) bears to the total amounts paid and payable (excluding amounts credited).

(c) **Dividend rights**

Subject to the rights of any preference Shareholders and to the rights of the holders of any shares created or raised under any special arrangement as to dividend, the Directors may from time to time declare a dividend to be paid to the Shareholders entitled to the dividend which shall be payable on all Shares according to the proportion that the amount paid (not credited) is of the total amounts paid and payable (excluding amounts credited) in respect of such Shares.

The Directors may from time to time pay to the Shareholders any interim dividends as they may determine. No dividend shall carry interest as against the Company. The Directors may set aside out of the profits of the Company any amounts that they may determine as reserves, to be applied at the discretion of the Directors, for any purpose for which the profits of the Company may be properly applied.

Subject to the ASX Listing Rules and the Corporations Act, the Company may, by resolution of the Directors, implement a dividend reinvestment plan on such terms and conditions as the Directors think fit and which provides for any dividend which the Directors may declare from time to time payable on Shares which are participating Shares in the dividend reinvestment plan, less any amount which the Company shall either pursuant to the Constitution or any law be entitled or obliged to retain, be applied by the Company to the payment of the subscription price of Shares.

(d) **Winding-up**

If the Company is wound up, the liquidator may, with the authority of a special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company, and may for that purpose set such value as he considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

The liquidator may, with the authority of a special resolution, vest the whole or any part of any such property in trustees upon such trusts for the benefit of the contributories as the liquidator thinks fit, but so that no Shareholder is compelled to accept any shares or other securities in respect of which there is any liability.

(e) **Shareholder liability**

As the Shares issued will be fully paid shares, they will not be subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

(f) **Transfer of shares**

Generally, shares in the Company are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act and the ASX Listing Rules.

(g) **Future increase in capital**

The issue of any new Shares is under the control of the Directors of the Company. Subject to restrictions on the issue or grant of Shares contained in the ASX Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing share or class of shares), the Directors may issue Shares as they shall, in their absolute discretion, determine.

(h) **Variation of rights**

Under section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to Shares.

If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

(i) **Alteration of Constitution**

In accordance with the Corporations Act, the Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at the general meeting. In addition, at least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

## 4. RISK FACTORS

### 4.1 Introduction

The Shares offered under this Prospectus should be considered as highly speculative and an investment in the Company is not risk free.

The Directors strongly recommend that prospective investors to consider the risk factors set out in this Section 4, together with information contained in this Prospectus.

The future performance of the Company and the value of the Shares may be influenced by a range of factors, many of which are largely beyond the control of the Company and the Directors. The key risks associated with the Company's business, the industry in which it operates and general risks applicable to all investments in listed securities and financial markets generally are described below.

The risks factors set out in this Section 4, or other risk factors not specifically referred to, may have a materially adverse impact on the performance of the Company and the value of the Shares. This Section 4 is not intended to provide an exhaustive list of the risk factors to which the Company is exposed.

If you do not understand any matters contained in this Prospectus or have any queries about whether to invest in the Company, you should consult your accountant, financial adviser, stockbroker, lawyer or other professional adviser.

### 4.2 Company specific

RISK CATEGORY	RISK
<b>Trading halt</b>	<p>As at the date of this Prospectus, the Company's securities are presently in a trading halt on the ASX pending the Company applying to the Supreme Court of Western Australia for orders rectifying the inadvertent failure to lodge a cleansing prospectus upon the issue of Shares on 14 September 2021.</p> <p>Should the Company be unsuccessful in obtaining those orders, there is a risk that the Company may be suspended from trading until it is able to establish a process or mechanism for ensuring the trading of its securities can occur in accordance with the Corporations act. However, the Company takes comfort that there is established precedent for companies to seek the orders that the Company is pursuing in the circumstances the Company is presently in.</p>
<b>Going Concern</b>	<p>The Company's annual financial report for the year ended 30 June 2024 (<b>Financial Report</b>) includes a note on the financial condition of the Company and the possible existence of a material uncertainty about the Company's ability to continue as a going concern.</p> <p>Notwithstanding the 'going concern' emphasis of matter included in the Financial Report, the Directors believe that the Company will have sufficient funds to adequately meet the Company's medium to long-term working capital costs of the Company.</p>
<b>Operating risks</b>	<p>The operations of the Company may be affected by various factors, including operational and technical difficulties encountered in mining, difficulties in commissioning and operating plant and equipment, mechanical failure or plant breakdown, unanticipated metallurgical problems which may affect extraction costs, natural disasters, industrial and environmental accidents, industrial disputes, and unexpected shortages or increases in the costs of consumables, spare parts, plant and equipment.</p> <p>Such changes may have an adverse effect on the operations and production ability of the Company by increasing costs or</p>

RISK CATEGORY	RISK
	<p>delaying activities. The Company manages operating risks through a variety of means including selecting suitably experienced and qualified contractors and operators, regular monitoring of the performance of contractors and operators, the recruitment and retention of appropriately qualified employees and contractors and the regular review by the board of the Company's risks.</p> <p>The Company will endeavour to take appropriate action to mitigate these operational risks (including by ensuring legislative compliance, properly documenting arrangements with counterparties, and adopting industry best practice policies and procedures) or to insure against them, but the occurrence of any one or a combination of these events may have a material adverse effect on the Company's performance and the value of its assets.</p>
<b>Reliance on transportation facilities and infrastructure</b>	<p>The Company depends on the availability and affordability of reliable transportation facilities and infrastructure (e.g. roads, bridges, airports, air transport, power sources and water supply) to deliver consumables to site, and final product to market. Interruption in the provision of such infrastructure (e.g. due to adverse weather, pandemic, community or government interference) could adversely affect the Company's operations, financial condition and results of operations. The Company's operating procedures include business continuity plans which can be enacted in the event any particular infrastructure is temporarily unavailable.</p>
<b>Resource and reserve estimates</b>	<p>Resource and reserve estimates are inherently prone to variability. They involve expressions of judgement with regard to the presence and quality of mineralisation and the ability to extract and process the mineralisation economically. Estimates which were valid when originally calculated may alter significantly when new information or techniques become available. This may result in alterations to development and mining plans which may, in turn, adversely affect the Company's operations and reduce the estimated amount of mineral resources and ore reserves available for production and expansion plans. The Company manages the risk associated with resource and reserve estimates by engaging suitably experienced and qualified contractors and operators and ensuring that the Competent Person meets the requirements of the JORC Code 2012.</p> <p>Actual mineralisation of ore bodies may be different from those predicted, and any material variation in the estimated Ore Reserves, including metallurgy, grade, dilution, ore loss, or stripping ratio at the Company's properties may affect the economic viability of its properties, and this may have material adverse impact on the Company's results of operations, financial condition and prospects. There is also a risk that depletion of resource and reserves will not be offset by discoveries or acquisitions, or that divestitures of assets will lead to a lower resource and reserve base. The resource and reserve base of the Company may decline if reserves are mined without adequate replacement and the Company may not be able to sustain production beyond current mine lives, based on current production rates.</p>
<b>Climate Risk</b>	<p>There are a number of climate-related factors that may affect the operations and proposed activities of the Company. The climate change risks particularly attributable to the Company</p>

RISK CATEGORY	RISK
	<p>include:</p> <p>(a) the emergence of new or expanded regulations associated with the transitioning to a lower-carbon economy and market changes related to climate change mitigation. The Company may be impacted by changes to local or international compliance regulations related to climate change mitigation efforts, or by specific taxation or penalties for carbon emissions or environmental damage. These examples sit amongst an array of possible restraints on industry that may further impact the Company and its profitability. While the Company will endeavour to manage these risks and limit any consequential impacts, there can be no guarantee that the Company will not be impacted by these occurrences; and</p> <p>(b) climate change may cause certain physical and environmental risks that cannot be predicted by the Company, including events such as increased severity of weather patterns and incidence of extreme weather events and longer-term physical risks such as shifting climate patterns. All these risks associated with climate change may significantly change the industry in which the Company operates.</p>
<b>Natural disasters</b>	<p>Seismic activity is of particular concern to mining operations and may affect the Company's operations or cause delays. The A1 mine in Victoria is in an area known to be seismically active and is subject to risks of earthquakes. The A1 Mine is also located in the Victoria (Australia) high country forest area which is in the high risk area for bush fire.</p>

#### 4.3 Industry specific

RISK CATEGORY	RISK
<b>Commodity price volatility and exchange rate risks</b>	<p>The revenue the Company derives through the sale of product exposes the potential income of the Company to commodity price and exchange rate risks. Commodity prices fluctuate and are affected by many factors beyond the control of the Company. Such factors include supply and demand fluctuations for precious and base metals, technological advancements, forward selling activities and other macro-economic factors.</p> <p>Furthermore, international prices of various commodities are denominated in United States dollars, whereas the income and expenditure of the Company will be taken into account in Australian currency, exposing the Company to the fluctuations and volatility of the rate of exchange between the United States dollar and the Australian dollar as determined in international markets.</p>
<b>Native title and Aboriginal Heritage</b>	<p>In relation to tenements which the Company has an interest in or will in the future acquire such an interest, there may be areas over which legitimate common law native title rights of Aboriginal Australians exist. If native title rights do exist, the ability of the Company to gain access to tenements (through obtaining consent of any relevant landowner), or to progress from the exploration phase to the development and mining phases of operations may be adversely affected.</p>

RISK CATEGORY	RISK
	<p>There is currently a settlement agreement Indigenous Land Use Agreement (<b>ILUA</b>) (<b>Settlement Agreement</b>) between the State of Victoria and the Dja Dja Native Title Gorup in place in relation to MIN 5528 and MIN 5529. The Settlement Agreement operates to provide the parties' consent to Future Acts within the ILUA area on or after 24 October 2013 and the surrender of native title for the purposes of extinguishment over land where a Future Act is done. The effect of the Settlement Agreement is that the parties agree that the Right to Negotiate provisions of the Native Title Act do not apply as alternative consultation provisions are to be followed instead.</p> <p>The Directors will closely monitor the potential effect of native title claims or Aboriginal heritage matters involving tenements in which the Company has or may have an interest.</p>
<b>Exploration costs</b>	<p>Exploration costs of the Company are based on certain assumptions with respect to the method and timing of exploration. By their nature, these estimates and assumptions are subject to significant uncertainty, and accordingly, the actual costs may materially differ from the estimates and assumptions. Accordingly, no assurance can be given that the cost estimates and the underlying assumptions will be realised in practice, which may materially and adversely impact the Company's viability.</p>
<b>Resource and reserves and exploration targets</b>	<p>The Company has identified a number of exploration targets based on geological interpretations and limited geophysical data, geochemical sampling and historical drilling. Insufficient data however, exists to provide certainty over the extent of the mineralisation. Whilst the Company intends to undertake additional exploratory work with the aim of defining a resource, no assurances can be given that additional exploration will result in the determination of a resource on any of the exploration targets identified. Even if a resource is identified no assurance can be provided that this can be economically extracted.</p> <p>Reserve and resource estimates are expressions of judgement based on knowledge, experience and industry practice. Estimates which were valid when initially calculated may alter significantly when new information or techniques become available. In addition, by their very nature resource and reserve estimates are imprecise and depend to some extent on interpretations which may prove to be inaccurate.</p>
<b>Grant of future authorisations to explore and mine</b>	<p>If the Company discovers an economically viable mineral deposit that it then intends to develop, it will, among other things, require various approvals, licence and permits before it will be able to mine the deposit. There is no guarantee that the Company will be able to obtain all required approvals, licenses and permits. To the extent that required authorisations are not obtained or are delayed, the Company's operational and financial performance may be materially adversely affected.</p>
<b>Environmental</b>	<p>The operations and proposed activities of the Company are subject to State and Federal laws and regulations concerning the environment. As with most exploration projects and mining operations, the Company's activities are expected to have an impact on the environment, particularly if advanced exploration or mine development proceeds. It is the Company's intention to conduct its activities to the highest standard of environmental obligation, including compliance</p>

RISK CATEGORY	RISK
	<p>with all environmental laws.</p> <p>Mining operations have inherent risks and liabilities associated with safety and damage to the environment and the disposal of waste products occurring as a result of mineral exploration and production. The occurrence of any such safety or environmental incident could delay production or increase production costs. Events, such as unpredictable rainfall or bushfires may impact on the Company's ongoing compliance with environmental legislation, regulations and licences. Significant liabilities could be imposed on the Company for damages, clean up costs or penalties in the event of certain discharges into the environment, environmental damage caused by previous operations or non-compliance with environmental laws or regulations.</p> <p>The disposal of mining and process waste and mine water discharge are under constant legislative scrutiny and regulation. There is a risk that environmental laws and regulations become more onerous making the Company's operations more expensive.</p> <p>Approvals are required for land clearing and for ground disturbing activities. Delays in obtaining such approvals can result in the delay to anticipated exploration programmes or mining activities.</p>
<b>Regulatory Compliance</b>	<p>The Company's operating activities are subject to extensive laws and regulations relating to numerous matters including resource licence consent, environmental compliance and rehabilitation, taxation, employee relations, health and worker safety, waste disposal, protection of the environment, native title and heritage matters, protection of endangered and protected species and other matters. The Company requires permits from regulatory authorities to authorise the Company's operations. These permits relate to exploration, development, production and rehabilitation activities.</p> <p>While the Company believes that it is in substantial compliance with all material current laws and regulations, agreements or changes in their enforcement or regulatory interpretation could result in changes in legal requirements or in the terms of existing permits and agreements applicable to the Company or its properties, which could have a material adverse impact on the Company's current operations or planned development projects.</p> <p>Obtaining necessary permits can be a time-consuming process and there is a risk that Company will not obtain these permits on acceptable terms, in a timely manner or at all. The costs and delays associated with obtaining necessary permits and complying with these permits and applicable laws and regulations could materially delay or restrict the Company from proceeding with the development of a project or the operation or development of a mine. Any failure to comply with applicable laws and regulations or permits, even if inadvertent, could result in material fines, penalties or other liabilities. In extreme cases, failure could result in suspension of the Company's activities or forfeiture of one or more of the Tenements.</p>

#### 4.4

#### General risks

RISK CATEGORY	RISK
<b>Economic</b>	General economic conditions, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's exploration, development and production activities, as well as on its ability to fund those activities.
<b>Market conditions</b>	<p>Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:</p> <ul style="list-style-type: none"> <li>(a) general economic outlook;</li> <li>(b) introduction of tax reform or other new legislation;</li> <li>(c) interest rates and inflation rates;</li> <li>(d) changes in investor sentiment toward particular market sectors;</li> <li>(e) the demand for, and supply of, capital; and</li> <li>(f) terrorism or other hostilities.</li> </ul> <p>The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and resource exploration stocks in particular. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.</p>
<b>Reliance on key personnel</b>	The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially on its senior management and its key personnel. There can be no assurance given that there will be no detrimental impact on the Company if one or more of these employees cease their employment.
<b>Economic conditions and other global or national issues</b>	<p>General economic conditions, laws relating to taxation, new legislation, trade barriers, movements in interest and inflation rates, currency exchange controls and rates, national and international political circumstances (including outbreaks in international hostilities, wars, terrorist acts, sabotage, subversive activities, security operations, labour unrest, civil disorder, and states of emergency), natural disasters (including fires, earthquakes and floods), and quarantine restrictions, epidemics and pandemics, may have an adverse effect on the Company's operations and financial performance, including the Company's exploration, development and production activities, as well as on its ability to fund those activities.</p> <p>General economic conditions may also affect the value of the Company and its market valuation regardless of its actual performance.</p>
<b>Global Conflicts</b>	<p>The current evolving conflict between Ukraine and Russia and Israel and Palestine (<b>Ukraine and Gaza Conflicts</b>) is impacting global economic markets. The nature and extent of the effect of the Ukraine and Gaza Conflicts on the performance of the Company remains unknown. The Company's Share price may be adversely affected in the short to medium term by the economic uncertainty caused by the Ukraine and Gaza Conflicts.</p> <p>The Directors are continuing to closely monitor the potential</p>

RISK CATEGORY	RISK
	<p>secondary and tertiary macroeconomic impacts of the unfolding events, including the changing pricing of commodity and energy markets and the potential of cyber activity impacting governments and businesses. Further, any governmental or industry measures taken in response to the Ukraine and Gaza Conflicts, including limitations on travel and changes to import/export restrictions and arrangements involving the relevant countries may adversely impact the Company's operations and are likely to be beyond the control of the Company.</p> <p>The Company is monitoring the situation closely and considers the impact of the Ukraine and Gaza Conflicts on the Company's business and financial performance to, at this stage, be limited. However, the situation is continually evolving, and the consequences are therefore inevitably uncertain.</p>
<b>Litigation risks</b>	<p>The Company is exposed to possible litigation risks including intellectual property claims, contractual disputes, occupational health and safety claims and employee claims. Further, the Company may be involved in disputes with other parties in the future which may result in litigation. Any such claim or dispute if proven, may impact adversely on the Company's operations, financial performance and financial position. The Company is not currently engaged in any litigation.</p>
