

ACQUISITION OF TWO DIAMOND DRILL RIGS TO EXPEDITE KAMEELBURG DRILLING

Highlights

- Acquisition of two diamond drill rigs to expedite exploration and resource definition at Kameelburg.
- Drilling rigs to arrive at Kameelburg 1st week of November along with drill rods, consumables and spares.
- Purchased drill rigs capable of drilling 2,000 meters per month to a depth of ~100-300 meters.
- Local expertise and workforce to be employed and trained in the forthcoming drilling program.

Aldoro Resources Ltd (“Aldoro”, “The Company”) (ASX: ARN) is pleased to advise that it has purchased two Nock portable diamond drill rigs to allow it to expedite exploration and resource definition at the Kameelburg project. The portable diamond drill rig is considered to be more environmentally friendly to the local community as it does not require an upgrade to the road or construction of a large drilling pad.

There is currently significant demand for drill rigs in Namibia due to the amount of exploration currently occurring for gold and uranium making it difficult for the Company to secure drilling services in a timely manner which can adversely impact its licenses. The acquisition of these two portable diamond rigs will see the Company in a strong position to delineate a resource at the Kameelburg project in 2025 in addition to providing valuable employment and training opportunities to the local community situated close to the Kameelburg project area.

The models purchased are as follows and are expected to arrive at Kameelburg along with drilling consumables and spares in the 1st week of November:

- 1 x Nock Crawler 300 Diamond Drilling Rig
- 1 x Nock Crawler 600 Diamond Drilling Rig

Images of the Nock 600 Crawler Rig and shipped Company drill rods are featured below:

Authorised for and on behalf of the Board,

Sarah Smith
Company Secretary

About Aldoro Resources
