

SECURING FUTURE LITHIUM SUPPLY IN AFRICA***Activities Report for the Quarter Ended 30 September 2024***

Tyranna Resources Limited (ASX: TYX, "Tyranna" or "the Company") is pleased to provide an Activities Report for work undertaken during the September 2024 quarter.

Summary

Assays from the remaining 9 drill holes of the 50 RC drill hole programme undertaken between February and May 2024 returned modest mineralisation.

- **MRC44A intersected lithium, caesium and tantalum (LCT) pegmatite**
 - **best lithium: 1m at 1.17% Li₂O from 23m¹**
 - **best tantalum: 4m at 180ppm Ta₂O₅ from 32m**
 - **best caesium: 1m at 1.12% Cs₂O from 33m**

Previously announced intersections from this drilling programme included:

- **MRC08: 7m at 1.65% Li₂O from 28m and 5m at 1.32% Li₂O from 72m**
- **MRC22: 24m at 1.54% Li₂O from 24m,**
 - **including: 6m at 2.20% Li₂O from 24m and 8m at 2.00% Li₂O from 34m**
- **MRC24: 8m at 1.61% Li₂O from 27m and 4m at 2.33% Li₂O from 47m**
- **MRC25: 12m at 1.67% Li₂O from 24m**
- **MRC30: 4m at 1.42% Li₂O from 65m**
- **MRC37: 23m at 2.42% Li₂O from 21m,**
 - **including: 12m at 3.32% Li₂O from 22m**

A small programme of diamond core drilling has commenced, targeting spodumene pegmatites at the Muvero Prospect to provide samples for metallurgical studies; and first pass drilling at other, more regional targets.

As a priority, the Company is evaluating other projects in Angola that may fit the Company's broader strategy, of acquiring and developing demand-driven commodities.

Financial Snapshot

At the end of the September Quarter the Company has cash reserves of \$6.13 million and no debt. The Muvaro project exploration work is funded from this pursuant to an Agreement with Sinomine Resources (Hainan) Lithium Co., Ltd.

¹ Stated intersections are down-hole length; true thickness is not yet known. While lithium mineralisation is dominated by spodumene, other lithium minerals may occur.

Exploration Update

Fifty reverse circulation completed at the Muvero Prospect between February and May 2024 were closely spaced and drilled in fan patterns, forming a broad NE-SW section across the targeted pegmatite swarm. Forty-one holes were reported during the June 2024 quarter.

The remaining nine drill holes reported this quarter tested flanks to known mineralisation as well as 3 geophysical (low-gravity) anomalies. Only MRC44a intersected LCT Pegmatite; other holes intersected mafic or granitic rocks.

Table 1: Collars of Drill Holes Reported during the September 2024 Quarter						
Hole ID	East (m)	North (m)	Dip (o)	Azimuth (o)	EOH (m)	Comment
MRC43	221,592	8,322,736	-43.6	42.4	138	Mafic
MRC44	221,571	8,322,692	-45.0	255.0	24	Abandoned
MRC44A	221,571	8,322,694	-43.9	254.4	90	Mafic and Pegmatite
MRC45	221,588	8,322,706	-44.2	89.6	150	Mafic
MRC46	221,568	8,322,624	-44.8	45.8	204	Mafic
MRC47	221,595	8,322,591	-45.4	40.1	150	Mafic
MRC48	221,322	8,322,743	-43.7	60.2	150	Low Gravity Anomaly (Granite)
MRC49	221,322	8,322,743	-43.2	83.5	197	
MRC50	221,326	8,322,546	-44.2	39.7	300	

Notes: Grid: WGS84/UTM zone 33S.

Interim coordinates by hand-held GPS with a likely accuracy of ± 1.8 m.

Intersection lengths are 'down hole' metres, and are not necessarily true width.

The Muvero pegmatites are classed as highly differentiated, evidenced by the presence of pollucite, a rare and valuable caesium mineral. Intersections of caesium include:

- MRC11: 3m at 7.62% Cs_2O from 29m including 1m at 11.40% Cs_2O , and
- MRC25: 1m at 4.13% Cs_2O from 31m
- MRC44A: 1m at 1.12% Cs_2O from 33m

A small programme of diamond drilling commenced to provide material for metallurgical testing from the Muvero Prospect, and testing new targets at the Calicatas and Loop Prospects (Figure 3).

Outlook

On-going programmes of mapping and geochemical sampling are continuing away from the Muvero Prospect, to identify new drill targets. (Figure 3). To date, lithium mineralisation² has been returned from rock chip analyses at nine (9) locations outside of the Muvero Prospect.

The Company is also evaluating other projects in Angola that may fit its broader strategy, of acquiring and developing demand-driven commodities.

² ASX Announcement 29 May 2023:

Figure 1. Location of the Namibe Lithium Project, located approximately 25km east of the Port of Namibe.

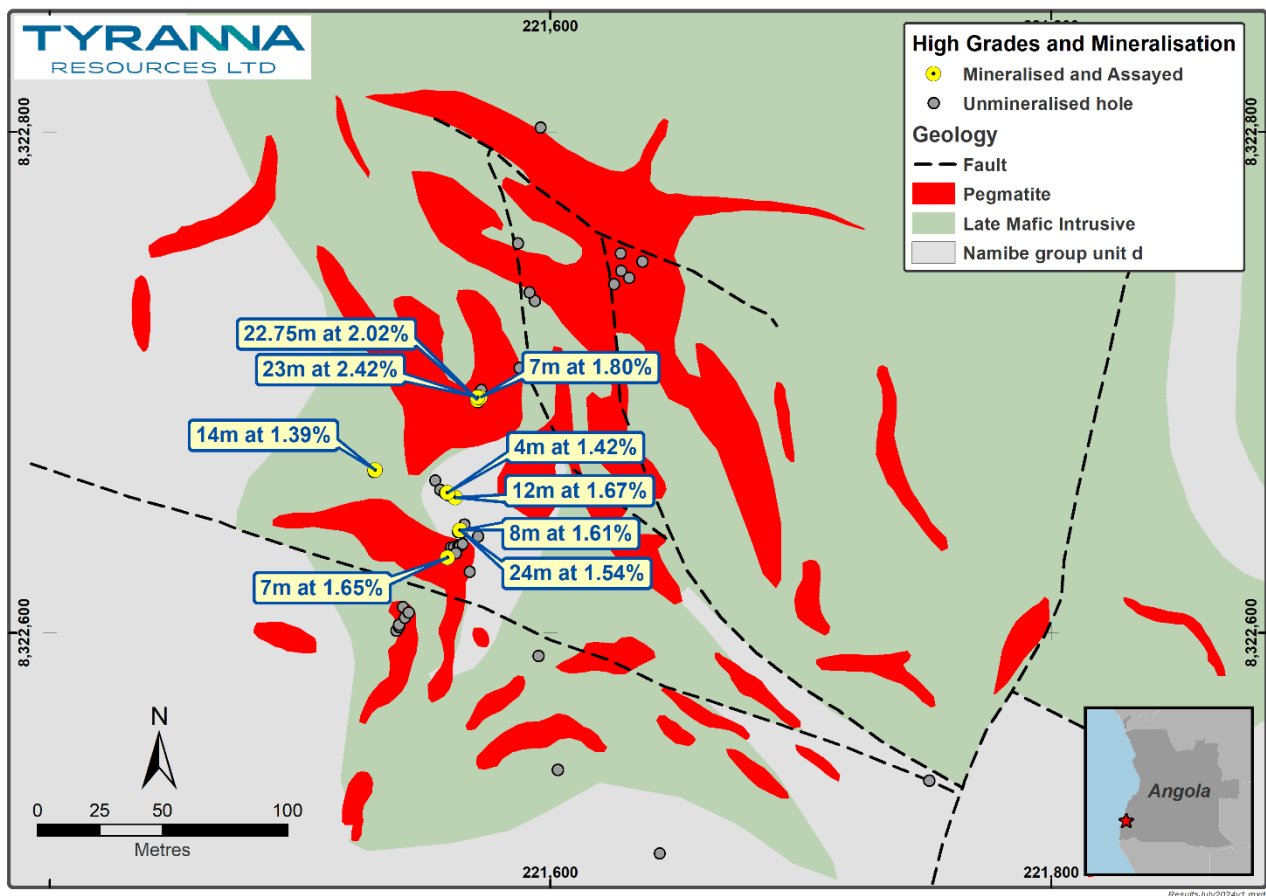

Figure 2: Drill plan displaying collar locations of mineralised drill holes.

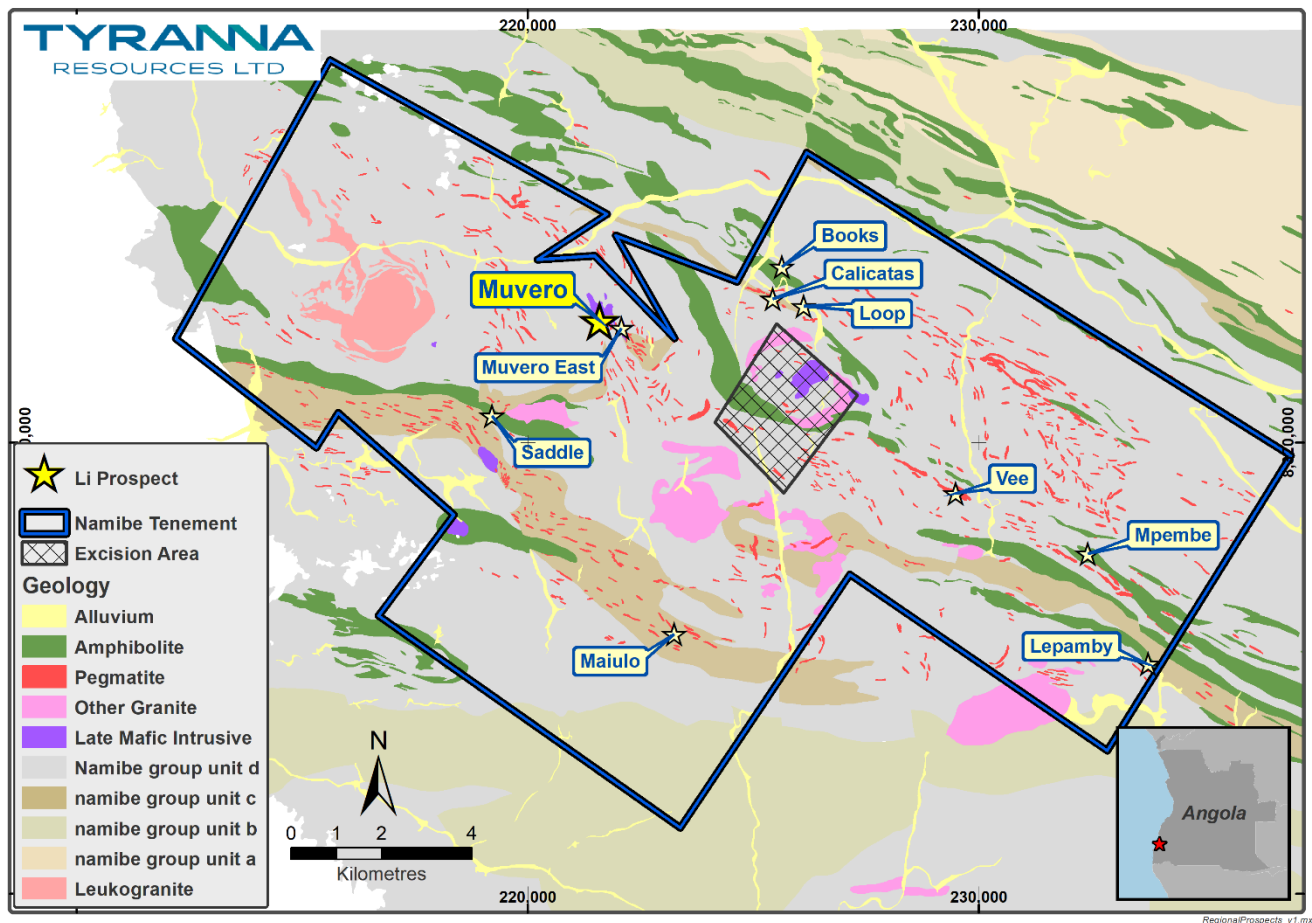

Figure 3: Current lithium targets at the Namibe Project. Lithium minerals have been detected in rock chip sampling at 9 locations outside of the Muvero Prospect. A Company priority is to increase the number of these targets and prepare them for drilling later this year.

Board Changes

The Company announced a Board restructure on 1 July 2024. Mr David Crook was appointed Managing Director, Mr Paul Williams transitions from executive Director to non-executive Director, Mr Peter Spitalny transitions to Exploration Manager & Chief Geologist and Mr David Wheeler has resigned from the Board.

Authorised by the Board of Tyranna Resources Ltd

David Crook

Managing Director

About the Muvero Lithium Project

The 207km² project area targets the Giraul pegmatite field, in which at least – 1000 pegmatites have been identified. The exposed pegmatites are up to 1,500m long and up to 100m wide, presenting as patches of outcrop surrounded by rubble and shallow soil derived from eroded rock.

The pegmatite field was discovered in the 1960's and small amounts feldspar and beryl were produced prior to 1975. Between the mid-2000s and 2021, studies of mineralogy and geochemistry were undertaken, along with mapping and assessment of the economic potential of the pegmatite field. Prior to Tyranna, none of the pegmatites had been tested by drilling.

The Company commenced drilling at the Muvero Prospect in 2022 with 9 diamond drill holes completed shortly after acquiring the Project, some of which intersected high-grade lithium (spodumene) mineralisation. Subsequently, during 2024 the Company completed 50 reverse circulation drill holes.

Lithium mineralisation, including spodumene, has been identified by Tyranna geologists at 10 different pegmatite outcrops to date. As vehicle access is gained, the Company plans to drill-test these targets progressively.

About Tyranna Resources Limited

Tyranna Resources Ltd (TYX) is an ASX listed mineral explorer and is an early mover into Angola, Africa. It currently has one project, the Muvero Lithium Project, located near the Port of Namibe (or Moçâmedes), where drilling is targeting spodumene mineralisation. The Company aim's is to discover and develop demand-driven minerals in this emerging jurisdiction, to create wealth for shareholders and local Angolans and assist the global adoption of clean energy.

Forward Looking Statement

This announcement may contain some references to forecasts, estimates, assumptions, and other forward-looking statements. Although the company believes that its expectations, estimates and forecast outcomes are based on reasonable assumptions, it can give no assurance that they will be achieved. They may be affected by a variety of variables and changes in underlying assumptions that are subject to risk factors associated with the nature of the business, which could cause actual results to differ materially from those expressed herein. All references to dollars (\$) and cents in this presentation are to Australian currency, unless otherwise stated. Investors should make and rely upon their own enquires and assessments before deciding to acquire or deal in the Company's securities.

CORPORATE

Financial Snapshot

The Company's net cashflow used in operations for the quarter was \$0.976 million. The operational expenses mainly comprised of Exploration and Evaluation expenditure (\$0.690 million) and Administration and corporate costs, less Interest Received (\$0.286 million).

The Company's cash position at the end of the quarter is \$6,126 million.

Listing Rule 5.4.5

In item 6 of the attached Appendix 5B, payments to related parties of approximately \$100k comprising of director remuneration (\$85k), bookkeeping (\$10k), serviced office (\$4k) and reimbursements (\$1k) were paid during the quarter.

Competent Person's Statement

The information in this report that relates to exploration results for the Namibe Lithium Project is based on, and fairly represents, information and supporting geological information and documentation that has been compiled by Mr Peter Spitalny who is a Fellow of the AusIMM. Mr Spitalny is employed by Han-Ree Holdings Pty Ltd, through which he provides his services to Tyranna as Chief Geologist; he is a shareholder of the company. Mr Spitalny has more than five years relevant experience in the exploration of pegmatites and qualifies as a Competent Person as defined in the 2012 edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves" (the JORC Code). Mr Spitalny consents to the inclusion of the information in this report in the form and context in which it appears.

JORC Table 1 included in Previous Tyranna announcements to ASX

This Quarterly Activities Report contains information extracted from ASX market announcements reported in accordance with the 2012 edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves" (2012 JORC Code). Further details (including 2012 JORC Code reporting tables where applicable) of exploration results referred to in this Quarterly Activities Report can be found in the following announcements lodged on the ASX:

- 30/05/2022 ("Confirmation of High-Grade Assays from Namibe Lithium Project"),
- 22/08/2022 ("Further outstanding results from Namibe Lithium Project"),
- 11/11/2022 ("Lithium mineralisation intersected at Muvero"),
- 06/12/2022 ("Maiden Drilling of Muvero Completed"),
- 22/02/2023 ("Maiden drill program intersects 2.02% lithium over 22.75m"),
- 08/03/2023 ("Outstanding Metallurgy Results from Muvero Prospect"),
- 08/05/2023 ("New Lithium Discoveries at Namibe Lithium Project"),
- 29/05/2023 ("Assay results demonstrate Lithium mineralisation at Namibe"),
- 7/11/2023 ("Drilling at Muvero intersects Lithium Mineralisation"),
- 16/11/2023 ("Numerous Intersections of Spodumene-Bearing Pegmatites"),
- 12/12/2023 ("More Spodumene-Bearing Pegmatites Intersected at Muvero"),
- 01/02/2024 ("Drilling Re-Start Yields Significant Spodumene Intersections").

- 22/03/2024 ("March Exploration Update").
- 08/05/2024 ("Muvero; High Grade Lithium, Caesium, Tantalum"),
- 27/05/2024 ("Further High Grade Results at Muvero reveal Multi-element potential"),
- 12/06/2024 ("High Grade Lithium Results and Confirmation of Link Zone Potential"),
- 01/08/2024 ("Final Results from RC Drilling Campaign at Muvero Lithium Project, Angola")

With reference to previously reported exploration results, included in this report and accompanied by proximal reference footnotes, the company confirms that it is not aware of any new information or data which materially affects the information included in the original announcement to the market. The company confirms that the form and context of the Competent Person's findings have not been modified from original announcements.

5.4	Other (provide details)		
5.5	Cash and cash equivalents at end of quarter (should equal item 4.6 above)	6,126	7,466

6.	Payments to related parties of the entity and their associates	Current quarter \$A'000
6.1	Aggregate amount of payments to related parties and their associates included in item 1	100
6.2	Aggregate amount of payments to related parties and their associates included in item 2	-

Note: if any amounts are shown in items 6.1 or 6.2, your quarterly activity report must include a description of, and an explanation for, such payments.

Executive Director Remuneration - \$70,000
Non-Executive Director Remuneration - \$15,000
Non-Director Services:

- Bookkeeping - \$10,000
- Serviced Office - \$4,000
- Reimbursements - \$1,000

Mining exploration entity or oil and gas exploration entity quarterly cash flow report

7. Financing facilities <i>Note: the term "facility" includes all forms of financing arrangements available to the entity. Add notes as necessary for an understanding of the sources of finance available to the entity.</i>	Total facility amount at quarter end \$A'000	Amount drawn at quarter end \$A'000
7.1 Loan facilities	-	-
7.2 Credit standby arrangements	-	-
7.3 Other (please specify)	-	-
7.4 Total financing facilities	-	-
7.5 Unused financing facilities available at quarter end		
7.6 Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.		

8. Estimated cash available for future operating activities	\$A'000
8.1 Net cash from / (used in) operating activities (item 1.9)	(976)
8.2 (Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	-
8.3 Total relevant outgoings (item 8.1 + item 8.2)	(976)
8.4 Cash and cash equivalents at quarter end (item 4.6)	6,126
8.5 Unused finance facilities available at quarter end (item 7.5)	-
8.6 Total available funding (item 8.4 + item 8.5)	6,126
8.7 Estimated quarters of funding available (item 8.6 divided by item 8.3)	6
<i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i>	
8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
N/A	
8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
N/A	
8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?	
N/A	
<i>Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.</i>	

Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Date:29 October 2024.....

Authorised by:By the Board.....
(Name of body or officer authorising release – see note 4)

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
