

Paulsens Gold Operation – Refurbishment on Target

Black Cat Syndicate Limited (“**Black Cat**” or the “**Company**”) is pleased to provide an update on the processing facility refurbishment at the 100% owned Paulsens Gold Operation (“**Paulsens**”).

HIGHLIGHTS

The processing facility refurbishment is progressing safely, efficiently and to plan. Recent activities include:

- Fabrication of the crusher control room (completed) and with installation in November 2024.
- Cyclone cluster installed (Figure 1).
- ROM wall and ROM access completed (Figure 2).
- Crusher and screen walkways installed (Figure 2).
- Refurbished ball mill motor installed, girth gear repaired, pinion and bearing replaced and laser alignment completed (Figure 3).
- Rubber lining of all pipework, underpans and hoppers completed.
- Knelson concentrators on route and expected on site early-November 2024.
- Top of tank services installation underway in conjunction with agitator shafts with new blades (Figure 4).
- Construction and installation of a new cyanide mixing plant completed (Figure 5).
- Elution column and transfer vessel installed.
- LPG gas bullets installed and commissioning gas delivered (Figure 6).
- Tailing storage facility lift progressing to plan (Figures 7 & 8).
- Laboratory setup complete.
- Power station #2 cabling replaced and Neutral Earthing Resistor (NER) installed.
- Pre-works at power station #1 are ongoing, HV board construction is on track for delivery in early-November 2024 along with 5 x 880 KVA generators.
- Fit out of services and mechanical items on the tanks are ongoing.
- Mechanical, electrical and fabrication works on the crusher are ongoing.

Figure 1: Installation of the cyclone cluster.

Black Cat’s Managing Director, Gareth Solly, said: “*The Processing Facility refurbishment activities are progressing safely and efficiently within the budgeted timeframe and cost. Commissioning remains on target for December 2024.*”

Paulsens Gold Operation - Refurbishment on Target

TIMELINE TO GOLD

The refurbishment is on target for commissioning on low-grade stockpiles and first gold pour in December 2024.

Table 1: Timeline to first Gold

PROCESSING FACILITY REFURBISHMENT

All activities on site have been conducted safely and efficiently with no incidents recorded and works on schedule for completion in December 2024 .

The primary, secondary and tertiary crushers have been rebuilt with new grid mesh walkways and handrails installed.

Figure 2: Showing the complete ROM wall and new walkways on the crusher screen.

Paulsens Gold Operation - Refurbishment on Target

The refurbished mill motor has been installed. The girth gear and trunnion bearing has been cleaned and fully inspected. The refurbished pinion has been installed and the mill drive system has been laser lined into position. The gravity tower grid mesh and handrail walkways have all been completed.

Figure 3: The refurbished ball mill motor has been installed and pinion gear installed and fully aligned.

Top of tank structural installation has been completed along with new grid mesh, walkways. Installation of services and agitators is underway. The cyclone cluster has been fully refurbished and installed on the gravity tower.

Figure 4: View of thickener and CIL infrastructure progress and MACA personnel installing an agitator shaft with new blades into position.

Paulsens Gold Operation - Refurbishment on Target

Construction and installation of the new cyanide mixing plant has been completed. The tie-in to infrastructure and setup with overhead lifting systems is underway.

The elution column and transfer vessel have been delivered and installed.

Figure 5: The newly constructed and installed cyanide mixing facility and the new elution column installed in position.

LPG gas bullets have been installed and filled with gas for commissioning.

Figure 6: New LPG bullets have been installed and filled with gas for commissioning.

Paulsens Gold Operation - Refurbishment on Target

The tailing storage facility lift is on track with armour stone being placed around the eastern side of the facility. Work is on track for commissioning in December 2024 following the pipework installation.

Figure 7: Showing the ongoing construction of lift #8 on the tailing storage facility.

Figure 8: Showing scraper working on the tailing storage facility wall lift #8.

Major work planned for November 2024 includes:

- Installation of the crushing circuit control room.
- Completion of electrical repairs on the crushing circuit.
- Installation of remaining mechanical equipment on the CIL circuit.
- Installation of the new Knelson concentrators.
- Delivery of new power station #1 switchboard along with 5 x 880 KVA generators.
- Upgrade of the diesel storage facility.
- Continuation of electrical works/services throughout the facility.
- Mobilisation of internal process and maintenance teams.
- Dry commissioning of the crushing circuit.

Paulsens Gold Operation - Refurbishment on Target

PLANNED ACTIVITIES

As at the date of this announcement, the proposed activities and timing for the Company over the coming months includes:

Oct - Dec 2024	Monthly progress reports on Myhree/Boundary open pits, Paulsens high-grade gold strategy and processing facility refurbishment.
27 Nov 2024	Annual General Meeting
11 Dec 2024	General Meeting for Tranche 2 of the Placement
Dec 2024	Paulsens commissioning on low-grade stocks followed by material from the high-grade selective mining strategy.
Jan - Dec 2025	Progress reports on accelerated and expanded Kal East processing facility
Jan - Mar 2025	Kal East near-mine baseload drilling
Jan - Mar 2025	Paulsens near-mine drilling
Mar - Oct 2025	Paulsens regional drilling

For further information, please contact:

Gareth Solly
Managing Director

This announcement has been approved for release by the Board of Black Cat Syndicate Limited.

COMPETENT PERSON'S STATEMENT

The information in this announcement that relates to geology, exploration results, drill planning, Exploration Targets, and Resources was compiled by Mr. Iain Levy, who is a Member of the AIG and an employee, shareholder and option/rights holder of the Company. Mr. Levy has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr. Levy consents to the inclusion in the report of the matters based on the information in the form and context in which it appears.

The Company confirms that it is not aware of any new information or data that materially affects the information in the original reports, and that the form and context in which the Competent Person's findings are presented have not been materially modified from the original reports.

Where the Company refers to the exploration results, Mineral Resources, and Reserves in this report (referencing previous releases made to the ASX), it confirms that it is not aware of any new information or data that materially affects the information included in that announcement and all material assumptions and technical parameters underpinning the Mineral Resource and Reserve estimates with that announcement continue to apply and have not materially changed.

The Company confirms that all material assumptions underpinning the production targets, or the forecast information derived from the production targets, included in the original ASX announcements dated, 8 May 2024, 9 May 2024 and 15 May 2024 continue to apply and have not materially changed.

Paulsens Gold Operation - Refurbishment on Target

SNAPSHOT – PAULSENS GOLD OPERATION

~3,190km² of Highly Prospective Ground, 100% Owned by Black Cat

High-Grade 1,000oz per Vertical Metre Producer

- Paulsens underground is comprised of >2.7km of known mineralisation: including the historically mined Main Zone; the under drilled Eastern Zone; an unmined Footwall Gabbro Zone and the Paulsens Repeat seismic target. Paulsens has produced ~1Moz (at 1,000oz per vertical metre) principally from the Main Zone. The recently discovered 175m plunge/120m vertical extension to the Main Zone has the potential to extend mine life and has been justified for development in the May 2024 Restart Study.
- Paulsens underground is one of Australia's highest-grade gold deposits with a current Resource of 406koz @ 9.5g/t Au (76% Measured & Indicated).
- The 8 May 2024 Restart Study includes planned production of 177koz Au over the first 4.2 years with an All-in Sustaining Cost of \$1,882/oz and Operating Cashflow (after all capital and before tax) of \$201M @ \$3,500/oz.

Quality Infrastructure, Only Gold Processing Facility in 400km Radius, Fully Approved

- Strategically important location being the only gold processing facility in a 400km radius.
- Well maintained, 450ktpa processing facility, on care and maintenance since 2018 and requiring minimal restart capital.
- +128-person camp and village substantially rented out to third parties.
- Mine and advanced Resources on Mining Licences, minimal barriers to restart.
- Underground mine fully dewatered and ventilated.
- Excellent access with sealed road and gas pipeline within 7km.
- Approvals in place.

Significant Opportunities at All Stages – Multi-metal Potential

- Paulsens is an under-explored orogenic gold region with numerous gold and base metal anomalies.
- There is also significant open pit/underground potential at Belvedere, located only 5km from the processing facility. Belvedere is a Paulsens-style target with >2.5km of mineralised strike. To date, minimal drilling has identified a shallow Resource of 30koz @ 6.6g/t Au, part of which is in the May 2024 Restart Study.

A: Schematic isometric long-section looking towards the north showing >2.7km of known mineralisation comprised of: Main Zone (~1Moz mined @ 1,000oz per vertical metre), under-drilled Eastern Zone, unmined Footwall Gabbro Zone and the Paulsens Repeat seismic target;
B: Aerial view of Paulsens processing facility and site offices; and **C:** Paulsens village and camp

Paulsens Gold Operation - Refurbishment on Target

ABOUT BLACK CAT SYNDICATE (ASX: BC8)

Assuming the completion of the secured debt, Black Cat is fully funded and the key pillars are in place for Black Cat to become a multi operation gold producer at its three 100% owned operations. The three operations are:

Paulsens Gold Operation: Paulsens is located 180km west of Paraburdoo in WA. Paulsens consists of an underground mine, 450ktpa processing facility, 128 person camp, numerous potential open pits and other related infrastructure. The operation has commenced the mill refurbishment stage, with a plan to be in production by the end of 2024. Paulsens has a Resource of 4.3Mt @ 4.0g/t Au for 548koz and significant exploration and growth potential.

Coyote Gold Operation: Coyote is located in Northern Australia, ~20km on the WA side of the WA/NT border, on the Tanami Highway. There is a well-maintained airstrip on site that is widely used by government and private enterprises. Coyote consists of an open pit and an underground mine, 300ktpa processing facility, +180 person camp and other related infrastructure. The operation is currently on care and maintenance and has a Resource of 3.7Mt @ 5.5g/t Au for 645koz with numerous high-grade targets in the surrounding area.

Kal East Gold Project: comprises ~650km² of highly prospective ground to the east of the world class mining centre of Kalgoorlie, WA. Kal East contains a Resource of 18.8Mt @ 2.1g/t Au for 1,294koz, including a preliminary JORC 2012 Reserve of 3.7Mt @ 2.0 g/t Au for 243koz. A turn-key funding, development & processing arrangement to mine and mill the Myhree and Boundary open pit deposits is underway¹. Separately and in the future, Black Cat plans to construct a central processing facility near the Majestic deposit, ~50km east of Kalgoorlie. The 800ktpa processing facility will be a traditional carbon-in-leach gold processing facility which is ideally suited to Black Cat's Resources as well as to third party free milling ores located around Kalgoorlie.

Operation	Paulsens	Kal East	Coyote	Strategy
Land Size	~3,190 km ²	~650 km ²	~1050 km ²	>4,890 km ² - prime discovery potential
Resources	0.55Moz @ 4.0g/t Au	1.3Moz @ 2.1g/t Au	0.65Moz @ 5.5g/t Au	2.5Moz @ 2.9g/t Au (growing)
Initial Production Targets	177koz @ 4.1g/t Au	381koz @ 2.1g/t Au	200koz @ 3.7g/t Au	Conservative targets with upside
Production milestone - LTI ²	60-70kozpa	50-60kozpa	40-50kozpa	Grow to 150-180kozpa
Activity/Infrastructure	Refurbish	Install owned mill	Relocate mill & refurbish	Dominate 3 prolific gold districts
Maximum Cash Drawdown	\$34M	\$92M	\$56M	Low capital / reduced risk
Operating Cashflow \$3,500/oz (after all capital)	\$201M	\$401M	\$295M	Strong cashflow >\$897M
AISC	\$1,882/oz	\$1,724/oz	\$1,613/oz	Low cost / high margin

Notes on Resources:

- The preceding statements of Mineral Resources conforms to the 'Australasian Code for Reporting of Exploration Results Mineral Resources and Ore Reserves (JORC Code) 2012 Edition'.
- All tonnages reported are dry metric tonnes.
- Data is rounded to thousands of tonnes and thousands of ounces gold. Discrepancies in totals may occur due to rounding.
- Resources have been reported as both open pit and underground with varying cut-offs based off several factors discussed in the corresponding Table 1 which can be found with the original ASX announcements for each Resource.
- Resources are reported inclusive of any Reserves.
- Paulsens Inferred Resource includes Mt Clement Eastern Zone Au of 7koz @ 0.3g/t Au accounting for lower grades reported.

The announcements containing the Table 1 Checklists of Assessment and Reporting Criteria relating for the 2012 JORC compliant Resources are:

Kal East Gold Project

- Boundary, Trump, Myhree – Black Cat ASX announcement on 9 October 2020 "Strong Resource Growth Continues including 53% Increase at Fingals Fortune"
- Strathfield – Black Cat ASX announcement on 31 March 2020 "Bulong Resource Jumps by 21% to 294,000 oz"
- Majestic – Black Cat ASX announcement on 25 January 2022 "Majestic Resource Growth and Works Approval Granted"
- Sovereign, Imperial – Black Cat ASX announcement on 11 March 2021 "1 Million Oz in Resource & New Gold Targets"
- Jones Find – Black Cat ASX announcement 04 March 2022 "Resource Growth Continues at Jones Find"
- Crown – Black Cat ASX announcement on 02 September 2021 "Maiden Resources Grow Kal East to 1.2Moz"
- Fingals Fortune – Black Cat ASX announcement on 23 November 2021 "Upgraded Resource Delivers More Gold at Fingals Fortune"
- Fingals East – Black Cat ASX announcement on 31 May 2021 "Strong Resource Growth Continues at Fingals"
- Trojan – Black Cat ASX announcement on 7 October 2020 "Black Cat Acquisition adds 115,000oz to the Fingals Gold Project".
- Queen Margaret, Melbourne United – Black Cat ASX announcement on 18 February 2019 "Robust Maiden Mineral Resource Estimate at Bulong"
- Anomaly 38 – Black Cat ASX announcement on 31 March 2020 "Bulong Resource Jumps by 21% to 294,000 oz"
- Wombola Dam – Black Cat ASX announcement on 28 May 2020 "Significant Increase in Resources - Strategic Transaction with Silver Lake"
- Hammer and Tap, Rowe's Find – Black Cat ASX announcement on 10 July 2020 "JORC 2004 Resources Converted to JORC 2012 Resources"

Coyote Gold Operation

- Coyote OP&UG – Black Cat ASX announcement on 16 January 2022 "Coyote Underground Resource increases to 356koz @ 14.6g/t Au – One of the highest-grade deposits in Australia"
- Sandpiper OP&UG, Kookaburra OP, Pebbles OP, Stockpiles, SP (Coyote) – Black Cat ASX announcement on 25 May 2022 "Coyote & Paulsens High-Grade JORC Resources Confirmed"

Paulsens Gold Operation - Refurbishment on Target

Paulsens Gold Operation

- Paulsens UG – Black Cat ASX announcement on 31 October 2023 "24% Resource Increase, Paulsens Underground - 406koz @ 9.5g/t Au"
- Paulsens SP – Black Cat ASX announcement on 19 April 2022 "Funded Acquisition of Coyote & Paulsens Gold Operations - Supporting Documents"
- Belvedere UG – Black Cat ASX announcement on 21 November 2023 "Enhanced Restart Plan for Paulsens"
- Mt Clement – Black Cat ASX announcement on 24 November 2022 "High-Grade Au-Cu-Sb-Ag-Pb Resource at Paulsens"
- Merlin, Electric Dingo – Black Cat ASX announcement on 25 May 2022 "Coyote & Paulsens High-Grade JORC Resources Confirmed"

TOTAL Reserves	93	4.5	14	4,262	2.3	317	4,356	2.4	330

Notes on Reserve:

1. The preceding statements of Mineral Reserves conforms to the 'Australasian Code for Reporting of Exploration Results Mineral Resources and Ore Reserves (JORC Code) 2012 Edition'.
2. All tonnages reported are dry metric tonnes.
3. Data is rounded to thousands of tonnes and thousands of ounces gold. Discrepancies in totals may occur due to rounding.
4. Cut-off Grade:
 - o Open Pit - The Ore Reserves are based upon an internal cut-off grade greater than or equal to the break-even cut-off grade.
 - o Underground - The Ore Reserves are based upon an internal cut-off grade greater than the break-even cut-off grade.
5. The commodity price used for the Revenue calculations for Kal East was AUD \$2,300 per ounce.
6. The commodity price used for the Revenue calculations for Paulsens was AUD \$2,500 per ounce.
7. The Ore Reserves are based upon a State Royalty of 2.5% and a refining charge of 0.2%.

The announcements containing the Table 1 Checklists of Assessment and Reporting Criteria relating for the 2012 JORC compliant Reserves are:

Kal East Gold Project

- Black Cat ASX announcement on 03 June 2022 "Robust Base Case Production Plan of 302koz for Kal East"

Paulsens Gold Operation

- Black Cat ASX announcement on 10 July 2023 "Robust Restart Plan for Paulsens"
