HAMMER METALS LIMITED
ACN 095 092 158
STATEMENT OF CORPORATE GOVERNANCE –2024

The Board is responsible for the overall corporate governance of Hammer Metals Limited (“the Company”), including establishing and monitoring key performance goals. In addition, the Board is committed to attaining standards of corporate governance that are commensurate with the Company's needs. In this regard, the Board has created a framework for managing the Company, including internal controls and a business risk management process. This framework is reflected, in part, in the policies and charters described below.

The Board has adopted and endorses The ASX Corporate Governance Council Principles and Recommendations (4th Edition) as amended from time to time (“ASX Recommendations”) and has adopted the ASX Recommendations that are considered appropriate for the Company given its size and the scope of its proposed activities. Details of the Company's compliance with the ASX Recommendations (4th Edition) are set out below.

The Company reports its compliance with, or departure from, the 4th Edition recommendations in the Corporate Governance Statement for the financial year ended 30 June 2024. The policies are available for review on the Company's website at www.hammermetals.com.au.

In light of the Company's current stage of development, the Board considers that its current composition is appropriate. As the Company's activities change in nature and scope, the size of the Board and the implementation of additional corporate governance policies and structures will be reviewed and may change.

This 2024 Corporate Governance Statement has been adopted by the Board on 30 October 2024.

The Board of Directors

Role and responsibilities of the Board

The Board is responsible for the overall corporate governance of the Company including formulating its strategic direction, the management framework of the Company including a system of internal control, business risk management, the establishment of appropriate ethical standards and determining appropriate remuneration policies. The Board is responsible for engaging appropriate management commensurate with the Company's structure and objectives, involvement in the development of corporate strategy and performance objectives and reviewing, ratifying and monitoring systems of risk management and internal control, codes of conduct and legal compliance.

The Board has delegated responsibility for the day to day running of the Company to the Managing Director.

The Managing Director is responsible for setting the operational direction of the Company and which involves setting budgets, forecasts and exploration programs. All budgets and programs are reviewed by the Board and regular updates and forecast revisions are reported to the Board on a routine basis. The Managing Director is responsible for evaluating the performance of staff.

Composition of the Board

The Board currently comprises four Directors, three of whom are non-executive Directors.

Name	Position	Term in Office
Mr Russell Davis	Non-Executive Chairman (Non-independent)	11 years
Mr Daniel Thomas	Managing Director (Non-independent)	5 years
Mr David Church	Non-Executive Director (Independent)	4 years
Mr James Croser	Non-Executive Director (Independent)	1 year

Under the Constitution, the maximum number of Directors is ten and the minimum number is three. At each Annual General Meeting, one third of the Directors, excluding the Managing Director, must resign, with those Directors who have served longest being subject to rotation first. Additionally, any Director appointed by Directors in the preceding year must retire and is eligible for re-election.

The Company has not established a Nomination committee. The Board's view is that the company is not of a size to justify having a Nomination Committee. If any vacancies arise on the Board, all directors are involved in the search and recruitment of a replacement. The Board believes corporate performance is enhanced when the Board has an appropriate mix of skills, experience, expertise and diversity.

Skills and Experience

The Board has considered the key skill sets that would be appropriate for the organisation in its present stage. Skill sets currently on the Company's Board include technical, financial, managerial, corporate, and commercial.

Key skill sets identified as being appropriate for the Board include:

- exploration, mining and development;
- accounting and corporate finance;
- business and industry strategic planning;
- risk management;
- environmental and health and safety.

The Board is comprised of four members, three of whom are non-executive. At this stage of the Groups development the Board believes that there is an appropriate mix of skills, experience, expertise and diversity on the Board.

In the coming years as the Group assesses development options additional expertise may be required and at that time further consideration will be given to ensuring the Board has an appropriate mix of skills and diversity. Further details of the experience of each Director can be found in the Directors report and at www.hammermetals.com.au.

Independence

Directors of the Company are considered to be independent when they are independent of management and free from any business or other relationship that could materially interfere with – or could reasonably be perceived to materially interfere with – the exercise of their unfettered and independent judgment.

David Church and James Croser, being non-executive directors with no substantial interest in the securities of the Company, are considered to be independent. The other directors are not considered independent.

The Board is committed to operating to industry best practice standards in all aspects of the Company's business and is responsible for the overall internal control of the Company. The internal control process derives from direct involvement in management and operations by the Managing Director with close and regular consultation and review between all the Directors and external accountants.

The Board has not conducted a formal independent evaluation of its performance. However, the Board is at all times aware of the need for it and individual Board members to perform to the benefit of all stakeholders.

Remuneration of Directors and executives

Non-executive directors are eligible to receive a fixed directors' fee. The aggregate amount of directors' fees payable by the Company must be presented for approval to the shareholders in general meeting. The current pool of Directors fees available is \$300,000.

The objective of the Company's remuneration policies, processes and practices are to attract and retain appropriately qualified and experienced Directors who will add value by adopting competitive remuneration and reward programmes which are fair and responsible and aligned with shareholder objectives.

Options are issued to non-executive directors as a cost-effective incentive for them to build and establish the Company. Details of options issued are provided in the Financial Statements.

The Managing Director is contracted by the Company on normal commercial terms and is not being paid director's fees in addition to the contracted amount. Details of remuneration paid to the Managing Director is described in the Directors' Report and the notes to the financial statements, included in the Company's annual report.

The Managing Director may be further incentivised by the issue of performance-based options or performance rights which become exercisable once the share price has achieved certain threshold levels, or other performance indicators as deemed appropriate by the Board and approved by shareholders.

The Company does not have a separate remuneration committee. The Board considers that the Company is not currently of a size, nor are its affairs of such complexity to justify the formation of a remuneration committee. The Board as a whole is responsible for the remuneration arrangements for Directors and executives of the Company and considers it more

appropriate to set aside time at Board meetings each year to specifically address matters that would ordinarily fall to a remuneration committee.

Details of remuneration, including the Company's policy on remuneration, are contained in the "Remuneration Report" which forms part of the Directors' Report.

Conflict of interest

In accordance with the Corporations Act 2001 and the Company's constitution Directors must keep the Board advised, on an ongoing basis, of any interest that could potentially conflict with those of the Company. Where the Board believes that a significant conflict exists, the Director concerned does not receive the relevant board papers and is not present at the meeting whilst the item is considered.

Whistleblower Policy

The Company has adopted a formal Whistleblower policy which is made available on the Company's website (www.hammermetals.com.au).

This policy applies to all directors, officers, employees, consultants and contractors of Hammer Metals Limited (Personnel). This policy also applies, as far as is reasonably achievable, to the Company's service providers, suppliers and third-party contractors.

The purpose of this policy is to encourage the persons to whom the policy applies to raise any concerns or report instances of any potential breach of law, any violations (or suspected violations) of the Company's Code of Conduct or any other legal or ethical concern without the fear of detriment.

Anti-bribery and Corruption Policy

The Company has adopted a formal Anti-bribery and corruption policy in recognition that bribery and corruption act to undermine legitimate business activities, distort competition and may expose the Company, its employees and other stakeholders to significant risks.

The Company provides a safe mechanism pursuant to its Whistleblower Policy to enable and encourage the reporting of any actual, alleged, or perceived, instances of bribery or corruption by any individual to which this policy applies.

A copy of the Anti-bribery and Corruption Policy is currently made available on the Company's website at (www.hammermetals.com.au).

Independent professional advice and access to Company information

Each Director has the right of access to all relevant company information and to the Company's executives, and subject to prior consultation with the Chairman, may seek independent professional advice at the Company's expense. A copy of the advice received by the Director is made available to all other members of the Board.

Board Committees

To assist the Board in fulfilling its responsibilities, it can appoint committees comprising people nominated at the discretion of the Board based on their expertise. ASX best practice recommendations suggest a company constitute Audit, Remuneration and Nomination Committees. Given the size of the Company the Board has not formed separate committees for Audit; Nominations; and Remuneration.

The Board's view is that the matters which would ordinarily be dealt with by these committees on behalf of the Board are more adequately dealt with by the full Board and that there are no efficiencies or benefits which could be gained by establishing an Audit, Nomination or Remuneration Committee.

Communication with shareholders

The Board aims to ensure that shareholders are informed of all major developments affecting the Company's state of affairs. The Board supports practices that provide effective and clear communication with shareholders and allow shareholders participation at general meetings. Information is communicated to shareholders as follows:

- The Annual Report, incorporating the annual audited financial statements, and the Half Yearly Report
- Notices of shareholder meetings including comprehensive explanatory statements as required.
- All documents that are publicly released through the ASX company announcements platform, and which contain material or price sensitive information, are immediately made available at the Company's website; www.hammermetals.com.au
- Copies of presentations made by the Company are also posted to the Company's website.
- Shareholder update letters and brochures are periodically mailed to all shareholders.

Shareholders are able to pose questions on the audit process directly to the independent auditor who attends the Annual General Meeting for that purpose.

Continuous Disclosure

The Company has adopted a continuous disclosure policy so as to comply with its continuous disclosure obligations as an ASX listed company. The aims of this policy are to:

- assess new information and co-ordinate any disclosure or releases to ASX, or any advice required in relation to that information, in a timely manner;
- provide an audit trail of the decisions regarding disclosure to substantiate compliance with the Company's continuous disclosure obligations;
- report to the Board on continuous disclosure matters; and
- ensure that employees, consultants, associated entities and advisers of the Company understand the obligations to bring material information to the attention of the Company Secretary.

This policy is to be reviewed each year by the full Board in the absence of an Audit Committee.

Risk Management

Principle 7.1 of the Corporate Governance Council requires the Company to establish a system of risk oversight and management and internal control. The Company recognises the importance of managing risk and continues to put in place systems to assess, monitor and manage risk based on the Company's size, history and strategy. The Company policies are designed to ensure strategic, operational, legal, reputation and financial risks are identified, assessed, effectively and efficiently managed and monitored to enable achievement of the Company's business objectives.

Economic, Environmental and Social Sustainability Risks

The Company is focused on the discovery and exploitation of mineral deposits and operates in diverse physical environments in Australia. As a result, there is some potential for material exposure to economic, environmental and social sustainability risks.

The Company is very aware of the potential for risk in this area and is committed to ensuring that sound environmental management and safety practices are carried out in its exploration activities.

Significant resources have been focussed on establishing and maintaining a culture of best practice and the Company is committed to environmental sustainability, recognising the Company's obligations to practice good environmental "stewardship" of the tenements on which we operate.

The Company's underlying goals relating to environmental sustainability are to minimise any adverse impacts upon the environment resulting from our core activities.

The Company's activities are conducted in a manner that minimises our environmental "footprint" as much as possible, and are conducted strictly in accordance with all necessary permits and approvals from regulators.

The Company's Managing Director, subject to the review of the Board, is responsible for the identification of material risks to the business and the design and implementation of internal control systems to manage the identified risks. The Company has an internal control framework that includes the following:

- Financial reporting – there is a comprehensive budgeting and forecasting system with updates provided to the Board at each Board meeting. Monthly actual results are reported to the Board. Quarterly, half yearly and annual financial reports are prepared in accordance with the Corporations Act and ASX Listing Rules. The Company does not have an internal audit function; the Board and executive management believe that given the size of the Company and the internal controls in place such a function is not warranted.
- The Company has comprehensive written policies covering;
 - Environmental principles
 - Resource development on or near aboriginal land
 - Health, Safety and the Environment
 - Environmental Management and Monitoring

The Managing Director and the Chief Financial Officer have provided a declaration to the Board in accordance with section 295A of the Corporations Act and have assured the Board that such declaration is founded on a sound system of risk management and internal control and that the system is operating effectively in all material respects.

Ethical standards

The Board adopts a proactive approach to promoting the practice of high ethical standards. All directors and employees are expected to act with the utmost integrity and objectivity, striving at all times to enhance the reputation and performance of the Company, in the following areas;

- professional conduct,
- dealings with suppliers, advisers and regulators,
- dealings with the community, and specifically in dealings with traditional landholders, and
- dealings with other employees.

Diversity policy

The Board has implemented a Diversity Policy in line with the ASX's Corporate Governance guidelines. The Company believes that the promotion of diversity on its Boards, in senior management and within the organisation generally is good practice.

The Diversity Policy seeks to attract and retain people by promoting an environment where employees are treated with fairness and respect and have equal access to opportunities as they arise. Diversity within the workforce includes such factors as religion, race, ethnicity, language, gender, disability and age.

Gender diversity

The Company, in keeping with the recommendations of the Corporate Governance Council provides the following information regarding the proportion of gender diversity in the organisation as at 30 June 2024:

	Male	Female	Total	Proportion female
Board	4	-	4	0%
Balance of Employees / Contractors	6	4	10	40%
	10	4	14	29%

Measurable objectives

The recommendations of the Corporate Governance Council relating to reporting require a Board to set measurable objectives for achieving diversity within the organisation, and to report against them on an annual basis. The Company has implemented measurable objectives as follows:

Measurable Objective	Objective Satisfied	Comment
To ensure Company policies are consistent with and aligned with the goals of the Diversity Policy	Yes	The Company's selection, remuneration and promotion practices are merit based and as such are consistent with the goals of the Company's Diversity Policy.
To provide flexible work and salary arrangements to accommodate family commitments, study and self-improvement goals, cultural traditions and other personal choices of current and potential employees.	Yes	The Company does, where considered reasonable, and without prejudice, accommodate requests for flexible working arrangements.
To implement clear and transparent policies governing reward and recognition practices.	Yes	The Company grants reward and promotion based solely on merit and responsibility as part of its annual and ongoing review processes.
To provide relevant and challenging professional development and training opportunities for all employees.	Yes	The Company seeks to continually encourage self-improvement in all employees, irrespective of seniority, ability or experience, through external and internal training courses, regular staff meetings and relevant on job mentoring.

The Company has not implemented specific measurable objectives regarding the proportion of females to be employed within the organisation or implement requirements for a proportion of female candidates for employment and Board positions. The Board considers that the setting of quantitative gender based measurable targets is not consistent with the merit and ability-based policies currently implemented by the Company.

The Board will consider the future implementation of gender-based diversity measurable objectives when more appropriate to the size and nature of the Company's operations.

Trading in Securities

The Company has adopted a policy that imposes certain restrictions on Directors and employees trading in the securities of the Company. The restrictions have been imposed to prevent trading in contravention of the insider trading provisions of the Corporations Act. The key aspects of the policy are:

¹ "Corporate governance statement" is defined in Listing Rule 19.12 to mean the statement referred to in Listing Rule 4.10.3 which discloses the extent to which an entity has followed the recommendations set by the ASX Corporate Governance Council during a particular reporting period.

Listing Rule 4.10.3 requires an entity that is included in the official list as an ASX Listing to include in its annual report either a corporate governance statement that meets the requirements of that rule or the URL of the page on its website where such a statement is located. The corporate governance statement must disclose the extent to which the entity has followed the recommendations set by the ASX Corporate Governance Council during the reporting period. If the entity has not followed a recommendation for any part of the reporting period, its corporate governance statement must separately identify that recommendation and the period during which it was not followed and state its reasons for not following the recommendation and what (if any) alternative governance practices it adopted in lieu of the recommendation during that period.

Under Listing Rule 4.7.4, if an entity chooses to include its corporate governance statement on its website rather than in its annual report, it must lodge a copy of the corporate governance statement with ASX at the same time as it lodges its annual report with ASX. The corporate governance statement must be current as at the effective date specified in that statement for the purposes of Listing Rule 4.10.3.

Under Listing Rule 4.7.3, an entity must also lodge with ASX a completed Appendix 4G at the same time as it lodges its annual report with ASX. The Appendix 4G serves a dual purpose. It acts as a key designed to assist readers to locate the governance disclosures made by a listed entity under Listing Rule 4.10.3 and under the ASX Corporate Governance Council's recommendations. It also acts as a verification tool for listed entities to confirm that they have met the disclosure requirements of Listing Rule 4.10.3.

The Appendix 4G is not a substitute for, and is not to be confused with, the entity's corporate governance statement. They serve different purposes and an entity must produce each of them separately.

² Tick whichever option is correct and then complete the page number(s) of the annual report, or the URL of the web page, where your corporate governance statement can be found. You can, if you wish, delete the option which is not applicable.

³ Throughout this form, where you are given two or more options to select, you can, if you wish, delete any option which is not applicable and just retain the option that is applicable. If you select an option that includes "OR" at the end of the selection and you delete the other options, you can also, if you wish, delete the "OR" at the end of the selection.
