ACN 612 100 464

CLEANSING PROSPECTUS

For an offer of up to 1,000 Shares at an issue price of \$0.15 per Share to raise up to \$150 (before expenses) (**Offer**).

This Prospectus has been prepared primarily for the purpose of section 708A(11) of the Corporations Act to remove any trading restrictions on the sale of Shares issued by the Company prior to the Closing Date.

IMPORTANT NOTICE

This document is important and should be read in its entirety. If after reading this Prospectus you have any questions about the Shares being offered under this Prospectus or any other matter, then you should consult your professional advisers without delay.

The Shares offered by this Prospectus should be considered as highly speculative.

IMPORTANT NOTICE

This Prospectus is dated 18 November 2024 and was lodged with the ASIC on that date. The ASIC, ASX and their respective officers take no responsibility for the contents of this Prospectus or the merits of the investment to which this Prospectus relates.

No Shares may be issued on the basis of this Prospectus later than 13 months after the date of this Prospectus.

No person is authorised to give information or to make any representation in connection with this Prospectus, which is not contained in this Prospectus. Any information or representation not so contained may not be relied on as having been authorised by the Company in connection with this Prospectus.

It is important that investors read this Prospectus in its entirety and seek professional advice where necessary. The Shares offered by this Prospectus should be considered as highly speculative.

Applications for Shares offered pursuant to this Prospectus can only be submitted on an original Application Form.

This Prospectus is a transaction specific prospectus for an offer of continuously quoted securities (as defined in the Corporations Act) and has been prepared in accordance with section 713 of the Corporations Act. It does not contain the same level of disclosure as an initial public offering prospectus and is only required to contain information in relation to the effect of the issue of securities on a company and the rights attaching to the securities. It is not necessary to include general information in relation to all of the assets and liabilities, financial position, profits and losses or prospects of the issuing company.

Representations contained in this Prospectus are made taking into account that the Company is a disclosing entity for the purposes of the Corporations Act and certain matters are publicly available information or may reasonably be expected to be known to investors and professional advisers whom prospective investors may consult.

No Investment Advice

The information contained in this Prospectus is not financial product advice or investment advice and does not take into account your financial or investment objectives, financial situation or particular needs (including financial or taxation issues). You should seek professional advice from your accountant, financial adviser, stockbroker, lawyer or other professional adviser before deciding to subscribe for Securities under this Prospectus to determine whether it meets your objectives, financial situation and needs.

Forward-looking statements

This Prospectus contains forward-looking statements which are identified by words such as 'may', 'could', 'believes', 'estimates', 'targets', 'expects', or 'intends' and other similar words that involve risks and uncertainties.

These statements are based on an assessment of present economic and operating conditions, and on a number of assumptions regarding future events and actions that, as at the date of this Prospectus, are expected to take place.

Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties, assumptions and other important factors, many of which are beyond the control of the

Company, the Directors and the Company's management.

The Company cannot and does not give any assurance that the results, performance or achievements expressed or implied by the forward-looking statements contained in this Prospectus will actually occur and investors are cautioned not to place undue reliance on these forward-looking statements.

The Company has no intention to update or revise forward-looking statements, or to publish prospective financial information in the future, regardless of whether new information, future events or any other factors affect the information contained in this Prospectus, except where required by law.

These forward-looking statements are subject to various risk factors that could cause our actual results to differ materially from the results expressed or anticipated in these statements. These risk factors are set out in Section 4.

Applicants outside Australia

The distribution of this Prospectus in jurisdictions outside Australia may be restricted by law and persons who come into possession of this Prospectus should seek advice on and observe any of these restrictions. Any failure to comply with such restrictions may constitute a violation of applicable securities laws. This Prospectus does not constitute an offer of Shares in any jurisdiction where, or to any person to whom, it would be unlawful to issue in this Prospectus.

Continuous disclosure obligations

The Company is a "disclosing entity" (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Shares.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the three months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Please refer to Section 5.2 for further details.

Electronic Prospectus

A copy of this Prospectus can be downloaded from the website of the Company at www.metalstech.net. If you are accessing the electronic version of this Prospectus for the purpose of making an investment in the Company, you must be an Australian resident and must only access this Prospectus from within Australia.

The Corporations Act prohibits any person passing onto another person an Application Form unless it is attached to a hard copy of this Prospectus or it accompanies the complete and unaltered version of this Prospectus. You may obtain a hard copy of this Prospectus free of charge by contacting the Company by phone on + 61 8 9388 0468 during office hours or by emailing the Company at paul@metalttech.net.au.

The Company reserves the right not to accept an Application Form from a person if it has reason to believe that when that person was given access to the electronic Application Form, it was not provided together with the electronic Prospectus and any relevant supplementary or replacement prospectus or any of those documents were incomplete or altered.

Company Website

No documents or other information available on the Company's website is incorporated into this Prospectus by reference.

Clearing House Electronic Sub-Register System (CHES) and Issuer Sponsorship

The Company will apply to participate in CHES, for those investors who have, or wish to have, a sponsoring stockbroker. Investors who do not wish to participate through CHES will be issuer sponsored by the Company.

Electronic sub-registers mean that the Company will not be issuing certificates to investors. Instead, investors will be provided with statements (similar to a bank account statement) that set out the number of Securities issued to them under this Prospectus. The notice will also advise holders of their Holder Identification Number or Security Holder Reference Number and explain, for future reference, the sale and purchase procedures under CHES and issuer sponsorship.

Electronic sub-registers also mean ownership of securities can be transferred without having to rely upon paper documentation. Further monthly statements will be provided to holders if there have been any changes in their security holding in the Company during the preceding month.

Photographs and Diagrams

Photographs used in this Prospectus which do not have descriptions are for illustration only and should not be interpreted to mean that any person shown endorses the Prospectus or its contents or that the assets shown in them

are owned by the Company. Diagrams used in this Prospectus are illustrative only and may not be drawn to scale.

Definitions and Time

Unless the contrary intention appears or the context otherwise requires, words and phrases contained in this Prospectus have the same meaning and interpretation as given in the Corporations Act and capitalised terms have the meaning given in the Glossary in Section 7.

All references to time in this Prospectus are references to Australian Western Standard Time.

Privacy statement

If you complete an Application Form, you will be providing personal information to the Company. The Company collects, holds and will use that information to assess your Application, service your needs as a Shareholder and to facilitate distribution payments and corporate communications to you as a Shareholder.

The information may also be used from time to time and disclosed to persons inspecting the register, including bidders for your securities in the context of takeovers, regulatory bodies including the Australian Taxation Office, authorised securities brokers, print service providers, mail houses and the share registry.

You can access, correct and update the personal information that we hold about you. If you wish to do so, please contact the share registry at the relevant contact number set out in this Prospectus.

Collection, maintenance and disclosure of certain personal information is governed by legislation including the *Privacy Act 1988* (as amended), the Corporations Act and certain rules such as the ASX Settlement Operating Rules. You should note that if you do not provide the information required on the Application for Shares, the Company may not be able to accept or process your Application.

Enquiries

If you are in any doubt as to how to deal with any of the matters raised in this Prospectus, you should consult with your broker or legal, financial or other professional adviser without delay. Should you have any questions about the Offer or how to accept the Offer please call the Company Secretary on + 61 8 9388 0468.

1. DETAILS OF THE OFFER

1.1 Indicative Timetable

ACTION	DATE
Lodgement of Prospectus with ASIC	18 November 2024
Lodgement of Prospectus and Appendix 3B with ASX	18 November 2024
Opening Date	19 November 2024
Issue of Shares to Market Bull and Mr Zhengrong Chen	20 November 2024
Closing Date*	26 November 2024
Expected date for quotation of Shares issued under the Offer on ASX*	27 November 2024

* These dates are indicative only and may change without notice. The Directors reserve the right to extend the Closing Date at any time after the Opening Date without notice.

1.2 Background to the Offer

As the Company is not currently able to issue a cleansing notice under section 708A(5) of the Corporations Act due to its Shares having been suspended from trading on ASX for more than 5 trading days within the last 12 months, the Company intends to issue:

- (a) 30,000 Shares to The Market Bull Pty Ltd (**Market Bull**) (or its nominees) in lieu of cash payment of outstanding professional fees owing to Market Bull; and
- (b) 70,000 Shares to Mr Zhengrong Chen (or his nominees) in consideration for the extension of the redeemable note deed entered into between Mr Chen and the Company dated 27 September 2023.

The Shares to be issued to Market Bull and Mr Chen (or their nominees) will be issued pursuant to this Prospectus and out of the Company's available Listing Rule 7.1 placement capacity on 20 November 2024.

1.3 The Offer

Pursuant to this Prospectus, the Company invites investors identified by the Directors to apply for up to 1,000 Shares at an issue price of \$0.15 per Share, to raise up to \$150 (before expenses).

The Offer will only be extended, and Application Forms will only be provided to specific parties on invitation from the Directors.

All of the Shares offered under this Prospectus will rank equally with the Shares on issue at the date of this Prospectus. Please refer to Section 3 for further information regarding the rights and liabilities attaching to the Shares.

1.4 Objective

The primary purpose of this Prospectus is to remove any trading restrictions that may have attached to Shares issued by the Company without disclosure under Chapter 6D of the Corporations Act prior to the Closing Date (including prior to the date of this Prospectus). Accordingly, the Company is seeking to raise only a nominal amount of \$150 under this Prospectus as the purpose of this Prospectus is not to raise capital.

As noted above, the Company is not currently able to issue a cleansing notice under section 708A(5) of the Corporations Act due to its Shares having been suspended from trading on ASX for more than 5 trading days within the last 12 months. Accordingly, the primary purpose of this Prospectus is to remove any on-sale restrictions that may affect Shares that may be issued by the Company prior to the Closing Date (including prior to the date of this Prospectus).

Relevantly, section 708A(11) of the Corporations Act provides that a sale offer does not need disclosure to investors if:

- (a) the relevant securities are in a class of securities that are quoted securities of the body; and
- (b) either:
 - (i) a prospectus is lodged with the ASIC on or after the day on which the relevant securities were issued but before the day on which the sale offer is made; or
 - (ii) a prospectus is lodged with ASIC before the day on which the relevant securities are issued and offers of securities that have been made under the prospectus are still open for acceptance on the day on which the relevant securities were issued; and
- (c) the prospectus is for an offer of securities issued by the body that are in the same class of securities as the relevant securities.

1.5 Application for Shares

Applications for Shares must be made by investors at the direction of the Company and must be made using the Application Form accompanying this Prospectus.

Payment for the Shares must be made in full at the issue price of \$0.15 per Share.

Completed Application Forms and accompanying cheques, made payable to "**MetalsTech Limited**" and crossed "**Not Negotiable**", must be mailed or delivered to the Company at the address set out in the Application Form by no later than the Closing Date.

1.6 Minimum subscription

There is no minimum subscription.

1.7 Oversubscriptions

No oversubscriptions will be accepted by the Company.

1.8 Underwriting

The Offer is not underwritten.

1.9 Issue of Shares

As noted in Section 1.4, the primary purpose of the Prospectus is to remove any trading restrictions that may have attached to Shares issued by the Company without disclosure under Chapter 6D of the Corporations Act prior to the Closing Date (including prior to the date of this Prospectus).

If the Directors decide to issue Shares under the Offer, the issue of Shares under the Offer will be issued in accordance with the ASX Listing Rules and will take place as soon as practicable after the Closing Date.

Application moneys will be held in a separate subscription account until the Shares are issued. This account will be established and kept by the Company in trust for each Applicant. Any interest earned on the application moneys will be for the benefit of the Company and will be retained by the Company irrespective of whether any Shares are issued and each Applicant waives the right to claim any interest.

The Directors will determine the recipients of all the Shares. The Directors reserve the right to reject any application or to allocate any Applicant fewer Shares than the number applied for. Where the number of Shares issued is less than the number applied for, the surplus monies will be returned by cheque as soon as practicable after the Closing Date. Where no issue of Shares is made, the amount tendered on application will be returned in full by cheque as soon as practicable after the Closing Date. Interest will not be paid on monies refunded.

The Company's decision on the number of Shares to be allocated to an Applicant will be final.

Holding statements for Shares issued under this Prospectus will be mailed as soon as practicable after the issue of Shares as soon as practicable after their issue.

1.10 ASX listing

Application for Official Quotation of the Shares offered pursuant to this Prospectus will be made within 7 days after the date of this Prospectus. If ASX does not grant Official Quotation of the Shares offered pursuant to this Prospectus before the expiration of three months after the date of issue of the Prospectus, (or such period as varied by the ASIC), the Company will not issue any Shares and will repay all Application monies for the Shares within the time prescribed under the Corporations Act, without interest.

The fact that ASX may grant Official Quotation to the Shares is not to be taken in any way as an indication of the merits of the Company or the Shares now offered for subscription.

1.11 Applicants outside Australia

The distribution of this Prospectus outside Australia may be restricted by law and therefore persons into whose possession this document comes should seek advice on and observe any such restrictions. Any failure to comply with these restrictions constitutes a violation of those laws.

The Offer does not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

Residents of countries outside Australia should consult their professional advisers as to whether any government or other consents are required, or whether any formalities need to be observed should they wish to make an Application to take up Shares on the basis of this Prospectus. The return of a duly completed Application Form will be taken to constitute a representation and warranty that there has been no breach of such laws and that all approvals and consents have been obtained.

2. PURPOSE AND EFFECT OF THE OFFER

2.1 Purpose of the Offer

The purpose of this Prospectus is to remove any trading restrictions that may have attached to Shares issued by the Company prior to the Closing Date (including prior to the date of this Prospectus).

Under the Offer, an amount of approximately \$150 (before expenses) may be raised. The funds raised from the Offer will be applied towards the expenses of the Offer. Refer to Section 5.8 of this Prospectus for further details relating to the estimated expenses of the Offer.

2.2 Effect on capital structure

The effect of the Offer on the capital structure of the Company is set out below.

Shares¹

	NUMBER
Shares currently on issue	197,008,383
Shares to be issued to Market Bull	30,000
Shares to be issued to Mr Zhengrong Chen	70,000
Shares offered under this Prospectus	1,000
Total Shares on issue after completion of the Offer	197,109,383

Notes:

1. The rights and liabilities attaching to the Shares are summarised in Section 3 of this Prospectus.

Options

	NUMBER
Options exercisable at \$0.35 with an expiry date of 12 December 2026	3,000,000
Options currently on issue	3,000,000
Options offered under this Prospectus	Nil
Total Options on issue after completion of the Offer	3,000,000

Performance Rights

	NUMBER
Performance Rights currently on issue	5,450,000
Performance Rights offered under this Prospectus	Nil
Total Performance Rights on issue after completion of the Offer	5,450,000

2.3 Financial effect of the Offer

After expenses of the Offer of approximately \$12,000, there will be no proceeds from the Offer. The expenses of the Offer (exceeding \$150) will be met from the Company's existing cash reserves.

As such, the Offer will have an effect on the Company's financial position, by reducing the Company's available cash by approximately \$11,850.

3. RIGHTS AND LIABILITIES ATTACHING TO SHARES

The following is a summary of the more significant rights and liabilities attaching to Shares being offered pursuant to this Prospectus. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights and liabilities attaching to Shares are set out in the Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

(a) **General meetings**

Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of the Company. The Company's constitution permits the use of technology at general meetings of shareholders (including wholly virtual meetings) to the extent permitted under the Corporations Act, Listing Rules and applicable law.

Shareholders may requisition meetings in accordance with section 249D of the Corporations Act and the Constitution of the Company.

(b) **Voting rights**

Subject to any rights or restrictions for the time being attached to any class or classes of shares, at general meetings of shareholders or classes of shareholders:

- (i) each Shareholder entitled to vote may vote in person or by proxy, attorney or representative;
- (ii) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (iii) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder shall, in respect of each fully paid Share held by him, or in respect of which he is appointed a proxy, attorney or representative, have one vote for each Share held, but in respect of partly paid shares shall have such number of votes as bears the same proportion to the total of such Shares registered in the Shareholder's name as the amount paid (not credited) bears to the total amounts paid and payable (excluding amounts credited).

(c) **Dividend rights**

Subject to the rights of any preference Shareholders and to the rights of the holders of any shares created or raised under any special arrangement as to dividend, the Directors may from time to time declare a dividend to be paid to the Shareholders entitled to the dividend which shall be payable on all Shares according to the proportion that the amount paid (not credited) is of the total amounts paid and payable (excluding amounts credited) in respect of such Shares.

The Directors may from time to time pay to the Shareholders any interim dividends as they may determine. No dividend shall carry interest as against the Company. The Directors may set aside out of the profits of the Company any amounts that they may determine as reserves, to be applied at the discretion of the Directors, for any purpose for which the profits of the Company may be properly applied.

Subject to the ASX Listing Rules and the Corporations Act, the Company may, by resolution of the Directors, implement a dividend reinvestment plan on such terms and conditions as the Directors think fit and which provides for any dividend which the Directors may declare from time to time payable on Shares which are participating Shares in the dividend reinvestment plan, less any amount which the Company shall either pursuant to the Constitution or any law be entitled or obliged to retain, be applied by the Company to the payment of the subscription price of Shares.

(d) **Winding-up**

If the Company is wound up, the liquidator may, with the authority of a special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company, and may for that purpose set such value as he considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

The liquidator may, with the authority of a special resolution, vest the whole or any part of any such property in trustees upon such trusts for the benefit of the contributories as the liquidator thinks fit, but so that no Shareholder is compelled to accept any shares or other securities in respect of which there is any liability.

(e) **Shareholder liability**

As the Shares issued will be fully paid shares, they will not be subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

(f) **Transfer of shares**

Generally, shares in the Company are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act and the ASX Listing Rules.

(g) **Future increase in capital**

The issue of any new Shares is under the control of the Directors of the Company. Subject to restrictions on the issue or grant of Shares contained in the ASX Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing share or class of shares), the Directors may issue Shares as they shall, in their absolute discretion, determine.

(h) **Variation of rights**

Under section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to Shares.

If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

(i) **Alteration of Constitution**

In accordance with the Corporations Act, the Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at the general meeting. In addition, at least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

4. RISK FACTORS

4.1 Introduction

The Shares offered under this Prospectus should be considered as highly speculative and an investment in the Company is not risk free.

The Directors strongly recommend that prospective investors to consider the risk factors set out in this Section 4, together with information contained in this Prospectus.

The future performance of the Company and the value of the Shares may be influenced by a range of factors, many of which are largely beyond the control of the Company and the Directors. The key risks associated with the Company's business, the industry in which it operates and general risks applicable to all investments in listed securities and financial markets generally are described below.

The risks factors set out in this Section 4, or other risk factors not specifically referred to, may have a materially adverse impact on the performance of the Company and the value of the Shares. This Section 4 is not intended to provide an exhaustive list of the risk factors to which the Company is exposed.

If you do not understand any matters contained in this Prospectus or have any queries about whether to invest in the Company, you should consult your accountant, financial adviser, stockbroker, lawyer or other professional adviser.

4.2 Company specific

RISK CATEGORY	RISK
Additional requirements for capital	<p>The Company's capital requirements depend on numerous factors. Depending on the Company's ability to generate income from its operations, the Company may require further financing.</p> <p>The Company's capital requirements include the redemption of the unsecured redeemable notes which are currently on issue. The quantum of redeemable notes, interest rates and redemption dates are set out in the below risk factor relating to "Repayment Obligations".</p> <p>Any additional equity financing will dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations and scale back its exploration programmes as the case may be. There is however no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company.</p>
Repayment Obligations	<p>The Company's capital requirements include the redemption of the unsecured redeemable notes which are currently on issue. The quantum of redeemable notes, interest rates and redemption dates are as follows:</p> <p>(a) redeemable notes with a face value of \$500,000 together with a fixed coupon amount of \$50,000 must be redeemed from 20 October 2024, with an initial payment of \$150,000 payable in cash on or before 21 November 2024, a further payment of \$100,000 payable in cash on or before 31 December 2024, a further payment of \$100,000 payable in cash on or before 31 January 2025 and the balance on or before 28 February 2025;</p>

RISK CATEGORY	RISK
	<p>(b) redeemable notes with a face value of \$300,000 (together with a 15% fixed coupon rate) must be redeemed on 31 December 2024; and</p> <p>(c) redeemable notes with a face value of \$500,000 (together with a 17% fixed coupon rate) must be redeemed on 31 December 2024. These redeemable notes were originally repayable on 27 September 2024, however, the Company negotiated an extension of time to repay with the noteholder such that the new repayment date is 31 December 2024. Pursuant to the variation agreement, the Company agreed to pay an extension fee of \$10,000 payable in Shares.</p> <p>If an event of default occurs, the holder of the redeemable notes may declare all monies owed in respect of the redeemable notes (including interest) immediately due and payable. In respect of the redeemable note described at paragraph (b) above, subject to the agreement of the Company (not to be unreasonably withheld), the noteholder may elect to satisfy the amount payable through an issue of Shares at a deemed issue price equal to the five-day volume weighted average price of Shares immediately before the date of the event of default.</p>
Going concern	<p>The Company's financial report for the financial year ended 30 June 2024 (Financial Report) includes a note on the financial condition of the Company and the possible existence of a material uncertainty about the Company's ability to continue as a going concern. The Financial Report stated that for the year ended 30 June 2024 the Company had a loss of AUD\$2,263,451 (2023: loss of AUD\$6,483,519), experienced net cash outflows from operations of AUD\$1,782,949 (2023: outflows of AUD\$2,385,083) and net cash outflows from investing activities of AUD\$1,310,126 (2023: outflow AUD\$2,111,298). As at 30 June 2024 the cash balance was \$628,398 (2023: \$816,540).</p> <p>Notwithstanding the 'going concern' emphasis of matter included in the Financial Report, the Directors believe that the Company has sufficient funds to adequately meet the Company's current exploration commitments and short-term working capital requirements. However, it is highly likely that further funding will be required to meet the medium to long-term working capital costs of the Company.</p> <p>The Company notes that it has secured a working capital and PFS facility of up to \$5 million. The initial draw down under the facility is \$1 million.</p>
Acquisition and divestment of projects	<p>The Company has, to date, and will continue to actively pursue and assess other new business opportunities. This may involve the divestment of non-core assets, the acquisition of other projects or assets or other new business opportunities such as joint ventures, farm-ins, or direct equity participation.</p> <p>The acquisition of projects or other assets (whether completed or not) may require the payment of monies (as a deposit and/or exclusivity fee) after only limited due diligence and prior to the completion of comprehensive due diligence. There can be no guarantee that any proposed acquisition will be completed or successful. If the proposed acquisition is not completed, monies already advanced may not be</p>

RISK CATEGORY	RISK
	<p>recoverable, which may have a material adverse effect on the Company.</p> <p>If a non-core asset is divested or an acquisition is completed, the Directors will need to reassess, at that time, the funding allocated to current projects and new projects or assets, which may result in the Company reallocating funds from other projects and/or the raising of additional capital (if available). Furthermore, notwithstanding that an acquisition may proceed upon the completion of due diligence, the usual risks associated with the new project/business activities will remain.</p> <p>Furthermore, if a new investment or acquisition by the Company is completed, ASX may require the Company to seek Shareholder approval and to meet the admission requirements under Chapters 1 and 2 of the ASX Listing Rules as if the Company were a new listing. There would be costs associated in re-complying with the admission requirements. The Company may be required to incur these costs in any event, were it to proceed to seek to acquire a new project which is considered to result in a significant change to the nature or scale of its existing operations.</p> <p>If a new investment or acquisition is not completed, then the Company may not be in a position to comply with the ongoing ASX Listing Rules, which includes but is not limited to, maintaining a sufficient level of operations and financial position. Given the nature of resource exploration, this may also occur if the Company abandons and/or relinquishes a project which is no longer considered viable. Any divestment of non-core assets or new project or business acquisition may change the risk profile of the Company, particularly if any new project acquired is located in another jurisdiction, involving a new commodity and/or changes to the Company's capital/funding requirements. Should the Company propose or complete a divestment of non-core assets or the acquisition of a new project or business activity, investors should re-assess their investment in the Company in light of the Company's changed circumstances.</p>
Sovereign risk	<p>The Company's key project is located in Slovakia. Adverse changes in Slovakian government policies or legislation may affect ownership of mineral interests, taxation, royalties, land access, labour relations, and mining and exploration activities of the Company. It is possible that the current system of exploration and mine permitting in Slovakia may change, resulting in impairment of rights and possibly expropriation of the Company's properties without adequate compensation. Any of these factors may, in the future, adversely affect the financial performance of the Company and the market price of its Shares.</p>
Overseas assets	<p>The Company's key project is located outside of Australia in Slovakia. It may be difficult to enforce judgments obtained in Australian courts against this project. In addition, there is uncertainty as to whether the courts of Slovakia or any other jurisdiction in which the Company may operate in the future would recognise or enforce judgments of Australian courts based on provisions of the laws of Australia.</p>
Resource and reserves, exploration targets and production targets	<p>The Company has reported an exploration target in respect of its Sturec Gold Project (as announced on 30 March 2022) based on the current geological understanding of the geometry of the mineralised zones at the relevant area. There</p>

RISK CATEGORY	RISK
	<p>has been insufficient exploration to estimate a mineral resource over the relevant area and it is uncertain if further exploration will result in the estimation of a mineral resource.</p> <p>The Company has also reported a mineral resource at its Sturec Gold Project (as announced on 8 May 2023) which does not incorporate the exploration target. Reserve and resource estimates are expressions of judgement based on knowledge, experience and industry practice. Estimates which were valid when initially calculated may alter significantly when new information or techniques become available. In addition, by their very nature resource and reserve estimates are imprecise and depend to some extent on interpretations which may prove to be inaccurate.</p> <p>The Company has also reported a production target at its Sturec Gold Project (as announced on 14 November 2023) which does not incorporate the exploration target. Approximately 78% of the total production target is in the Measured and Indicated resource categories with 22% in the Inferred resource category. The Company has concluded that it has reasonable grounds for disclosing a production target which includes a modest amount of Inferred material. However, there is a lower level of geological confidence associated with Inferred mineral resources and there is no certainty that further exploration work (including infill drilling) on the Sturec deposit will result in the determination of additional Indicated mineral resources or that the production target itself will be realised.</p>

4.3 Industry specific

RISK CATEGORY	RISK
Exploration and operating risks	<p>Potential investors should understand that mineral exploration and development are high-risk undertakings. There can be no assurance that future exploration of the Company's current project or any mining licences that may be acquired in the future, will result in the discovery of an economic resource. Even if an apparently viable resource is identified, there is no guarantee that the required permits, consents and access agreements will be granted or that it can be economically exploited. The future exploration activities of the Company may be affected by a range of factors including geological conditions, limitations on activities due to seasonal weather patterns or adverse weather conditions, unanticipated operational and technical difficulties, difficulties in commissioning and operating plant and equipment, mechanical failure or plant breakdown, unanticipated metallurgical problems which may affect extraction costs, industrial and environmental accidents, industrial disputes, unexpected shortages and increases in the costs of consumables, spare parts, plant, equipment and staff, changing government regulations and many other factors beyond the control of the Company. The success of the Company will also depend upon the Company being able to maintain title to mineral exploration licences and obtaining all required approvals for its contemplated activities. In the event that exploration programmes prove to be unsuccessful, this could lead to a diminution in the value of the projects, a reduction in the cash reserves of the Company and possible relinquishment of its projects.</p>

RISK CATEGORY	RISK
Mine development	<p>Possible future development of a mining operation at the Company's Sturec Gold Project or any other projects that may be acquired in the future is dependent on a number of factors including, but not limited to, the acquisition and/or delineation of economically recoverable mineralisation, favourable geological conditions, receiving the necessary approvals from all relevant authorities and parties, seasonal weather patterns, unanticipated technical and operational difficulties encountered in extraction and production activities, mechanical failure of operating plant and equipment, shortages or increases in the price of consumables, spare parts and plant and equipment, cost overruns, access to the required level of funding and contracting risk from third parties providing essential services.</p> <p>If the Company commences production, its operations may be disrupted by a variety of risks and hazards which are beyond its control, including environmental hazards, industrial accidents, technical failures, labour disputes, unusual or unexpected rock formations, flooding and extended interruptions due to inclement or hazardous weather conditions and fires, explosions or accidents. No assurance can be given that the Company will achieve commercial viability through the development or mining of its projects.</p> <p>The risks associated with the development of a mine will be considered in full should the projects reach that stage and will be managed with ongoing consideration of stakeholder interests.</p>
Environmental risk	<p>The operations and proposed activities of the Company are subject to Slovakian laws and regulations concerning the environment. As with most exploration projects and mining operations, the Company's activities are expected to have an impact on the environment, particularly if advanced exploration or mine development proceeds. It is the Company's intention to conduct its activities to the highest standard of environmental obligation, including compliance with all environmental laws.</p> <p>Mining operations have inherent risks and liabilities associated with safety and damage to the environment and the disposal of waste products occurring as a result of mineral exploration and production. The occurrence of any such safety or environmental incident could delay production or increase production costs.</p> <p>Events, such as unpredictable rainfall or bushfires may impact on the Company's ongoing compliance with environmental legislation, regulations and licences. Significant liabilities could be imposed on the Company for damages, clean up costs or penalties in the event of certain discharges into the environment, environmental damage caused by previous operations or non-compliance with environmental laws or regulations.</p> <p>The disposal of mining and process waste and mine water discharge are under constant legislative scrutiny and regulation. There is a risk that environmental laws and regulations become more onerous making the Company's operations more expensive.</p>
Regulatory risk	<p>Changes in government policy (such as in relation to taxation, environmental protection, competition and pricing regulation</p>

RISK CATEGORY	RISK
	<p>and the methodologies permitted to be used for water use and brine disposal) or statutory changes may affect the Company's business operations and its financial position. A change in government regime may significantly result in changes to fiscal, monetary, property rights and other issues which may result in a material adverse impact on the Company's business and its operations.</p> <p>Companies in the mining industry may also be required to pay direct and indirect taxes, royalties, and other imposts in addition to normal company taxes. The Company currently has operations or interests in Slovakia. Accordingly, its profitability may be affected by changes in government taxation and royalty policies or in the interpretation or application of such policies in Slovakia.</p> <p>The Company monitors changes in legislation, regulations, rules and procedures across the jurisdictions in which it operates.</p>
Compliance risk	<p>The Company's operating activities are subject to laws and regulations governing exploration of property, health and worker safety, employment standards, waste disposal, protection of the environment, land and water use, prospecting, taxes, labour standards, occupational health standards, toxic wastes, the protection of endangered and protected species and other matters.</p> <p>While the Company understands that it is currently in substantial compliance with all material current laws and regulations affecting its activities, future changes in applicable laws, regulations, agreements or changes in their enforcement or regulatory interpretation could result in changes in legal requirements or in the terms of existing permits and agreements applicable to the Company or its properties, which could have a material adverse impact on the Company's current operations or planned development projects. Where required, obtaining necessary permits and licences can be a complex, time-consuming process and the Company cannot be sure whether any necessary permits will be obtainable on acceptable terms, in a timely manner or at all.</p> <p>The costs and delays associated with obtaining necessary permits and complying with these permits and applicable laws and regulations could stop or materially delay or restrict the Company from proceeding with any future exploration or development of its properties. Any failure to comply with applicable laws and regulations or permits, even if inadvertent, could result in interruption or closure of exploration, development or other activities and could result in material fines, penalties or other liabilities.</p>
Commodity prices	<p>The price of gold and other mineral commodities fluctuates due to variations in supply and demand, and global economic conditions. A decline in the price of gold may have a material adverse effect on the economic potential of the Company's lithium resources.</p> <p>The Company incorporates price ranges in economic analyses to assess price exposures.</p>
Tenement renewal risk	<p>Mining and exploration tenements are subject to periodic renewal. The renewal of the term of granted tenements is subject to compliance with the applicable mining legislation and regulations and the discretion of the relevant mining authority. Renewal conditions may include increased</p>

RISK CATEGORY	RISK
	<p>expenditure and work commitments or compulsory relinquishment of areas of the tenements. The imposition of new conditions or the inability to meet those conditions may adversely affect the operations, financial position and/or performance of the Company.</p> <p>The Company considers the likelihood of tenure forfeiture to be low given the laws and regulations governing exploration in Slovakia and the ongoing expenditure budgeted for by the Company. In respect of the Sturec Gold Project, there are no expenditure commitments, however the Company is obliged to conduct a minimum level of mining (1,000tpa) to keep the permit in good standing. However, the consequence of forfeiture or involuntary surrender of the Sturec Gold Project for reasons beyond the control of the Company could be significant.</p>
Exchange rate	<p>The Group operates in England (holding company only) and Slovakia (gold exploration activities). Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the entity's functional currency. The risk is measured using sensitivity analysis and cash flow forecasting. The Group manages foreign exchange risk by monitoring forecast cash flows in currencies other than the Australian dollar.</p>

4.4 General risks

RISK CATEGORY	RISK
Economic	<p>General economic conditions, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's exploration, development and production activities, as well as on its ability to fund those activities.</p>
Reliance on key personnel	<p>The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially on its senior management and its key personnel. There can be no assurance given that there will be no detrimental impact on the Company if one or more of these employees cease their employment.</p>
Market conditions	<p>Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:</p> <ul style="list-style-type: none"> (a) general economic outlook; (b) introduction of tax reform or other new legislation; (c) interest rates and inflation rates; (d) changes in investor sentiment toward particular market sectors; (e) the demand for, and supply of, capital; and (f) terrorism or other hostilities. <p>The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and resource exploration stocks in particular. Neither the Company nor the Directors warrant</p>

RISK CATEGORY	RISK
	the future performance of the Company or any return on an investment in the Company.
Commodity price volatility and exchange rate risks	<p>The value of the Company's assets and potential earnings may be affected by fluctuations in commodity prices and exchange rates.</p> <p>These prices can significantly fluctuate and are exposed to numerous factors beyond the control of the Company, such as world demand for energy, forward selling by producers and production cost levels in major coal and gas producing regions. Other factors include expectations regarding inflation, the financial impact of movements in interest rates, global economic trends and domestic and international fiscal, monetary and regulatory policy settings.</p> <p>At this time, the Company has not put any hedging arrangements in place but may do so in future when the Directors consider it appropriate.</p>
Litigation risks	<p>The Company is exposed to possible litigation risks including intellectual property claims, contractual disputes, occupational health and safety claims and employee claims. Further, the Company may be involved in disputes with other parties in the future which may result in litigation. Any such claim or dispute if proven, may impact adversely on the Company's operations, financial performance and financial position.</p>
Dividends	<p>Any future determination as to the payment of dividends by the Company will be at the discretion of the Directors and will depend on the financial condition of the Company, future capital requirements and general business and other factors considered relevant by the Directors. No assurance in relation to the payment of dividends or franking credits attaching to dividends can be given by the Company.</p>
Taxation	<p>The acquisition and disposal of Shares will have tax consequences, which will differ depending on the individual financial affairs of each investor. All prospective investors in the Company are urged to obtain independent financial advice about the consequences of acquiring Shares from a taxation viewpoint and generally.</p> <p>To the maximum extent permitted by law, the Company, its officers and each of their respective advisors accept no liability and responsibility with respect to the taxation consequences of subscribing for Shares under this Prospectus.</p>
Economic conditions and other global or national issues	<p>General economic conditions, laws relating to taxation, new legislation, trade barriers, movements in interest and inflation rates, currency exchange controls and rates, national and international political circumstances (including outbreaks in international hostilities, wars, terrorist acts, sabotage, subversive activities, security operations, labour unrest, civil disorder, and states of emergency), natural disasters (including fires, earthquakes and floods), and quarantine restrictions, epidemics and pandemics, may have an adverse effect on the Company's operations and financial performance, including the Company's exploration, development and production activities, as well as on its ability to fund those activities.</p>

RISK CATEGORY	RISK
	General economic conditions may also affect the value of the Company and its market valuation regardless of its actual performance.
Climate Risk	<p>There are a number of climate-related factors that may affect the operations and proposed activities of the Company. The climate change risks particularly attributable to the Company include:</p> <p>(a) the emergence of new or expanded regulations associated with the transitioning to a lower-carbon economy and market changes related to climate change mitigation. The Company may be impacted by changes to local or international compliance regulations related to climate change mitigation efforts, or by specific taxation or penalties for carbon emissions or environmental damage. These examples sit amongst an array of possible restraints on industry that may further impact the Company and its profitability. While the Company will endeavour to manage these risks and limit any consequential impacts, there can be no guarantee that the Company will not be impacted by these occurrences; and</p> <p>(b) climate change may cause certain physical and environmental risks that cannot be predicted by the Company, including events such as increased severity of weather patterns and incidence of extreme weather events and longer-term physical risks such as shifting climate patterns. All these risks associated with climate change may significantly change the industry in which the Company operates.</p>

4.5 Speculative investment

The risk factors described above, and other risk factors not specifically referred to, may have a materially adverse impact on the performance of the Company and the value of the Shares.

Prospective investors should consider that an investment in the Company is highly speculative.

There is no guarantee that the Shares offered under this Prospectus will provide any return on capital, payment of dividends or increases in the market value of those Shares.

Before deciding whether to subscribe for Shares under this Prospectus you should read this Prospectus in its entirety and consider all factors, taking into account your objectives, financial situation and needs.

5. ADDITIONAL INFORMATION

5.1 Litigation

On 22 October 2024, a writ of summons was filed in the Supreme Court of Western Australia (CIV 2180 of 2024) against MetalsTech Limited. The Plaintiffs are Glenn Griesbach and Junita Tedy Asihto. The litigation is in relation to the Company's termination of the agreement to acquire the Sauvolles Lithium Project in Quebec, Canada (**Agreement**). The Company intends on defending its position and considers that termination of the Agreement remains valid on the basis that the Sauvolles Lithium Project did not meet a satisfactory result for due diligence and that the end date of the Agreement had passed.

5.2 Continuous disclosure obligations

As set out in the Important Notes Section of this Prospectus, the Company is a disclosing entity for the purposes of section 713 of the Corporations Act. Accordingly, information that is already in the public domain has not been reported in this Prospectus other than that which is considered necessary to make this Prospectus complete.

The Company, as a disclosing entity under the Corporations Act states that:

- (a) it is subject to regular reporting and disclosure obligations;
- (b) copies of documents lodged with the ASIC in relation to the Company (not being documents referred to in section 1274(2)(a) of the Corporations Act) may be obtained from, or inspected at, the offices of the ASIC; and
- (c) it will provide a copy of each of the following documents, free of charge, to any person on request between the date of issue of this Prospectus and the Closing Date:
 - (i) the annual financial report most recently lodged by the Company with the ASIC;
 - (ii) any half-year financial report lodged by the Company with the ASIC after the lodgement of the annual financial report referred to in (i) and before the lodgement of this Prospectus with the ASIC; and
 - (iii) any continuous disclosure documents given by the Company to ASX in accordance with the ASX Listing Rules as referred to in section 674(1) of the Corporations Act after the lodgement of the annual financial report referred to in (i) and before the lodgement of this Prospectus with the ASIC.

Copies of all documents lodged with the ASIC in relation to the Company can be inspected at the registered office of the Company during normal office hours.

2. Held by Mandalay Mining Pty Ltd <Hudson Ave Investment A/C>. Ms Stevenson is a director and shareholder of Mandalay Mining Pty Ltd and a beneficiary of Hudson Ave Investment A/C.
3. Appointed as a Director on 2 September 2024.

No Director or any of their associates intend to participate in the Offer.

Remuneration

The remuneration of an executive Director is decided by the Board, without the affected executive Director participating in that decision-making process. The total maximum remuneration of non-executive Directors is initially set by the Constitution and subsequent variation is by ordinary resolution of Shareholders in general meeting in accordance with the Constitution, the Corporations Act and the ASX Listing Rules, as applicable. The determination of non-executive Directors' remuneration within that maximum will be made by the Board having regard to the inputs and value to the Company of the respective contributions by each non-executive Director. The current amount has been set at an amount not to exceed \$500,000 per annum.

A Director may be paid fees or other amounts (ie non-cash performance incentives such as Options, subject to any necessary Shareholder approval) as the other Directors determine where a Director performs special duties or otherwise performs services outside the scope of the ordinary duties of a Director. In addition, Directors are also entitled to be paid reasonable travelling, hotel and other expenses incurred by them respectively in or about the performance of their duties as Directors.

The following table shows the total annual remuneration paid to both executive and non-executive Directors as disclosed in the Company's Annual Report for the financial year ended 30 June 2024 and proposed annual remuneration for the financial year ending 30 June 2025.

DIRECTOR	FY ENDED 30 JUNE 2024	FY ENDING 30 JUNE 2025

Candice Stevenson ^{3,4}	\$120,000	\$120,000
Clifford Fitzhenry ^{5,6}	\$nil	\$70,000

Notes:

1. Comprising Directors' fees/salary of \$354,890.
2. Comprising Directors' fees and professional consulting fees of \$350,000.
3. Comprising Directors' fees/salary of \$120,000.
4. Comprising Directors' fees and professional consulting fees of \$120,000.
5. Appointed as a Director on 2 September 2024.
6. Comprising Directors' fees and professional consulting fees of \$70,000.

5.6 Interests of experts and advisers

Other than as set out below or elsewhere in this Prospectus, no:

- (a) person named in this Prospectus as performing a function in a professional, advisory or other capacity in connection with the preparation or distribution of this Prospectus;
- (b) promoter of the Company; or
- (c) underwriter (but not a sub-underwriter) to the issue or a financial services licensee named in this Prospectus as a financial services licensee involved in the issue,

holds, or has held within the 2 years preceding lodgement of this Prospectus with the ASIC, any interest in:

- (d) the formation or promotion of the Company;
- (e) any property acquired or proposed to be acquired by the Company in connection with:
 - (i) its formation or promotion; or
 - (ii) the Offer; or
- (f) the Offer,

and no amounts have been paid or agreed to be paid and no benefits have been given or agreed to be given to any of these persons for services provided in connection with:

- (g) the formation or promotion of the Company; or
- (h) the Offer.

Steinepreis Paganin has acted as the solicitors to the Company in relation to the Offer. The Company estimates it will pay Steinepreis Paganin \$7,500 (excluding GST and disbursements) for these services. During the 24 months preceding lodgement of this Prospectus with the ASIC, Steinepreis Paganin has been paid fees totalling 44,469.93 (excluding GST and disbursements) for legal services provided to the Company.

5.7 Consents

Chapter 6D of the Corporations Act imposes a liability regime on the Company (as the offeror of the Shares), the Directors, the persons named in the Prospectus with their consent as proposed directors, any underwriters, persons named in the Prospectus with their consent having made a statement in the Prospectus and persons involved in a contravention in relation to the Prospectus, with regard to misleading and deceptive statements made in the Prospectus. Although the Company bears primary responsibility for the Prospectus, the other parties involved in the preparation of the Prospectus can also be responsible for certain statements made in it.

Each of the parties referred to in this Section:

- (a) does not make, or purport to make, any statement in this Prospectus other than those referred to in this Section;
- (b) in light of the above, only to the maximum extent permitted by law, expressly disclaim and take no responsibility for any part of this Prospectus other than a reference to its name and a statement included in this Prospectus with the consent of that party as specified in this Section; and
- (c) has not withdrawn its consent prior to the lodgement of this Prospectus with the ASIC.

Steinepreis Paganin has given its written consent to being named as the solicitors to the Company in this Prospectus.

5.8 Expenses of the Offer

The total expenses of the Offer are estimated to be approximately \$12,000 (excluding GST) and are expected to be applied towards the items set out in the table below:

EXPENSE	(\$)
ASIC fees	3,206
ASX fees	2
Legal fees	7,500
Miscellaneous, printing and other distribution	1,292
Total	12,000

6. DIRECTORS' AUTHORISATION
