

## KAMEELBURG OPERATIONAL UPDATE

### Highlights

- Drilling preparation continues at pace with both diamond drill rigs arriving at the Kameelburg project along with drill rods and consumables.
- Track and road construction underway and currently 70% complete.
- Water bores along with storage tanks and pipe network installed allowing prompt expansion of the drilling program should results warrant an expansion beyond the initial 2,000 meters.
- Onsite geology team bolstered with 3 new appointments.
- Drill hole locations to be finalised this week upon completion of the expanded trenching program.
- Community engagement continues with local employment opportunities offered and approval received to undertake drilling on a 24-hour basis.

Aldoro Resources Ltd (“Aldoro”, “The Company”) (ASX: ARN) is pleased to advise that diamond drilling preparations continue at pace at the Kameelburg project for the maiden 2,000 meter drilling program which is expected to commence in the next fortnight.

Both the Nock 300 and Nock 600 drilling rigs have arrived at site and have been commissioned. The rigs have crawler flexibility and track construction to drill pads is 70% complete. See image 1:

**Image 1:**

- Excavator currently preparing roads to access the multiple drill collar locations.
- Nock crawler diamond drill rig commissioned at Kameelburg.

Water bores, high pressure pipelines and solar pumping installations have been completed and will supply water to be used for drilling operations in addition to providing the local community with an improved ability to access to water for stock and local farming operations.

The Company continues to engage and involve the local community where possible. Approval has been received to allow drilling operations to occur on a 24-hour basis, local community members have been employed to assist with the drilling program and the geology resources have been bolstered with the appointment of three new geologists to assist in logging and drill core review. See image 2:

**Image 2:**

- Solar pump setup at Bore 2 has been completed.
- Local employees and drilling supervisors commissioning the Nock crawler 3diamond drilling rig.

The expanded pre-drill trenching program is nearing completion and data will be cross referenced with the assays from the rock chip sampling programs to confirm the final drill hole locations.
