Cyprium Metals Limited (ASX: CYM, OTC: CYPMF) (**Cyprium** or the **Company**) is pleased to advise that it has received commitments for a two-tranche placement to raise approximately A\$13.5 million (before costs) via the proposed issue of approximately 483.2 million new fully paid ordinary shares in the Company (**Placement Shares**) at an issue price of A\$0.028 (**Placement**).

Strong support from cornerstone investor, existing shareholders and CYM Directors

The Placement received strong support from existing institutional shareholders, including Flat Footed L.L.C. (**FF**), who agreed to cornerstone the Placement in the amount of A\$5.3 million.

Directors of the Company (or their nominees) have also committed to subscribe for Placement Shares in the aggregate amount of A\$3.0 million. FF's commitment and the Directors participation will be subject to shareholder approval, to be sought at an extraordinary general meeting (**EGM**) anticipated to be held in January 2025 and comprises the entirety of Tranche 2.

It is anticipated that at completion of the Placement, FF will hold approximately 19% of the Company's fully paid ordinary shares. FF's participation also remains subject to a renewal of a previously obtained FIRB approval, which is expected in early 2025.

Executive Chair Matt Fifield said:

"It has been a very productive 2024. The Company had strong support from shareholders to complete this important capital raise, positioning the Company for another great year in 2025. We expect to build off of our recently released PFS to materially advance the redevelopment of the Nifty Copper Complex in the first half of the year."

Proceeds of the Placement will be used as follows:

- Nifty site costs;
- Permit support and DFS preparation and costs;
- Tenement maintenance and geology work;
- Financing costs associated with the MLX convertible notes and Glencore Facility; and
- Working capital and costs of the Placement.
