About Helix Resources

Helix Resources is an ASX-listed resources company which is exploring in the prolific copper producing region of Cobar, NSW. The Company possesses a sizable ground position (~3,200km²) which is largely untested despite being located proximal to significant copper and gold producing operations. The strategy is to generate new copper and gold targets and test them through drilling to make new discoveries.

Helix is the operator of the Helix-Legacy earn-in which is located 10 km west of the Cobar township. The area, which hosts several operating gold, copper and base metal mines, is prospective for Cobar-style copper-gold base metal deposits.

The Western Tenement has 30km of prospective strike and a pipeline of wholly owned copper opportunities, as well as the Canbelego JV Project (70% Helix as operator and 30% Aeris Resources) where a Mineral Resource of 31.8kt of contained copper has been estimated (refer Appendix A).

A 5 km by 1.5 km historical gold field is being evaluated on the Muriel Tank tenement. The Eastern Tenement Group encompasses more than 100km of prospective strike. The company has defined an extensive zone of new anomalies considered prospective for Tritton-style copper-gold deposits.

Appendix A: Canbelego Main Lode Mineral Resource Estimate

A Mineral Resource estimate for the Canbelego Main Lode was completed by MEC Mining. This was the first update of the Canbelego resource since the 2010 resource estimate.

SECTION 1: UPDATE TO HELIX SINCE THE TARGET'S STATEMENT

1.1 Corporate Update

(a) Annual General Meeting

Since the issue of the Target's Statement on 11 November 2024 in response to the Offer, on 19 November 2024 the Company held its Annual General Meeting (**AGM**). Of the resolutions considered at the AGM, three pertained to the election of Messrs Michael Povey, Kevin Lynn and David Scoggin (together, the **Acta Nominees**) to the Helix Board. Helix Shareholders did not vote in favour of the Acta Nominees being elected to the Helix Board which meant the present Helix Board remained unchanged.²

(b) Implementation Agreement between Acta and Helix

On 23 December 2024, Helix announced that it had entered into an implementation agreement dated 23 December 2024 with Acta (**Implementation Agreement**), pursuant to which amongst other things:

- Acta would subscribe for 100 million Helix Shares, or such lower number of Helix Shares so that Acta and its Associates would hold no more than 19.99% of Helix Shares on issue, at \$0.005 per Helix Share, being the same price as the Offer Price (representing an investment in Helix of approximately \$500,000) (**Placement**);
- on completion of the Placement, Mr Michael Rosenstreich will resign as Chairman of Helix and remain as a non-executive Director, and Mr Michael Povey will be appointed as Executive Chairman, constituting a four person Helix Board;
- Acta would drop the majority of the Conditions to the Offer, leaving mainly those related to market conditions and external factors; and
- the Helix Directors would recommend that Helix Shareholders accept the Offer in the absence of a Superior Proposal.

The Placement by Acta is expected to complete on 2 January 2024.

Funds raised from the Placement will be used to progress the Company's highly prospective Cobar exploration assets, including drilling of its Muriel Tank gold prospect, regional scale auger drilling, and will also assist with working capital requirements.

Refer to the ASX announcement dated 23 December 2024 for additional information on the Implementation Agreement.

(c) Reasons why Helix has entered into an Implementation Agreement with Acta,

The following are the key reasons which led to the Helix Board's decision to enter into the Implementation Agreement:

- **Changes to funding expectations for the Bryah Basin acquisitions requiring Helix to withdraw from these purchase and joint venture agreements.** The Western Australia copper strategy envisaged the acquisition of two Bryah Basin opportunities which the Helix Board considered were highly prospective and value accretive for Helix Shareholders.

² Helix ASX announcement dated 19 November 2024.

A key factor in the Helix Board's decision to proceed was an understanding that the transactions would be well supported by significant funding to be facilitated by a Western Australia based wholesale Australian financial services licensed firm on terms the Helix Board considered attractive. However, the ultimate financing terms presented in December 2024 were materially different to those originally discussed prior to Helix entering into the term sheets for the Bryah Basin acquisitions. The proposed reduction in the quantum of capital to be raised and the associated reduction in pricing were considered unacceptable to the Helix Board in the context of the Offer. Faced with an unexpected, highly dilutive funding proposal to enable work on the Bryah Basin projects, the Helix Board resolved to terminate these agreements in the best interests of Helix Shareholders.

- **Conditionality of the Takeover Bid has now been greatly reduced.** As expressed in the Target's Statement, there were numerous Conditions placed on the Offer which provided significant uncertainty to Helix Shareholders that the Offer would be completed.

The AGM result meant that Condition 12.8(a)(i) (director appointments), which required that before the end of the Offer Period a majority of the Helix Board are nominees of Acta or its Associates, had not been satisfied. Helix also advised³ that it had breached Condition 12.8(a)(iv) (no material acquisitions, disposals or new commitments), which restricted Helix from making any material expenditure greater than \$50,000. This meant that the Offer could have lapsed if the relevant Conditions were not waived. Pursuant to the terms of the Implementation Agreement, Acta has agreed to waive a majority of the Conditions, providing greater certainty to Helix Shareholders that the Offer could be completed.

- **Engagement with the Company's largest Shareholder.** The Helix Board considered it appropriate to engage directly with Acta (as its Associate, Nuevo Royalty, is the largest Helix Shareholder) in the best interests of all Helix Shareholders in order to ascertain if there was a path forward that would reduce the conditionality of the Offer, provide further capital to the Company on acceptable terms and avoid any future potential corporate actions that may pose a distraction to the Company..
- **No superior proposal.** The Company has not received a Superior Proposal and accepts that the Offer is currently the sole proposal.

1.2 Exploration Update

(a) Bryah Basin Acquisitions

On 14 November 2024, Helix announced its intention to acquire a portfolio of copper projects in the highly regarded Bryah Basin region of Western Australia.⁴ These transactions were part of a strategy to diversify and expand Helix's copper exploration footprint, with the Bryah Basin assets intended to complement its existing Cobar copper projects. It was proposed that exploration on the Bryah Basin assets would commence in late 2024 in the knowledge of a financing offer from a Western Australia based Australian financial services licensed firm with competitive and acceptable terms. As noted above, the Bryah Basin transactions have been terminated by mutual agreement with the vendors..

(b) Muriel Tank

³ Target's Statement, Section 5.6.

⁴ Helix ASX announcement dated 14 November 2024.

Helix announced on 12 December 2024 the exploration results from the Muriel Tank gold project⁵ in the Cobar region of NSW, with new auger geochemical results confirming gold continuity between outcropping veins and historical workings.

SECTION 2: HELIX DIRECTORS' RECOMMENDATION

In the Target's Statement, your Helix Directors recommended that Helix Shareholders 'reject' the Offer. The reasons for that recommendation were set out in Sections 2 and 7 of the Target's Statement.

Having regard to the matters set out in Section 1 of this Supplementary Target's Statement, the Helix Directors now recommend that you '**ACCEPT**' the Offer in the absence of a Superior Proposal. The reasons for the recommendation are set out below:

- As a result of the Implementation Agreement Acta has:
 - agreed to participate in a Placement to raise approximately \$500,000 at the same price per share as its Offer Price, which is at a premium to the recent Helix Share trading prices of between \$0.003 and \$0.004.⁶ The final amount and the exact number of shares in the Placement will be such that Acta and its Associates would hold no more than 19.99% of Helix Shares on issue;
 - provided greater certainty to Helix Shareholders of the Offer completing, by agreeing to waive a significant number of the Conditions, including the requirement that nominees of Acta or its Associates form a majority of the Helix Board by the end of the Offer Period and the restriction on incurring expenditures greater than \$50,000. The remaining Conditions are now regarded as 'customary' market-based Conditions which would normally be expected in a bid, such as indices market fall, force majeure and no prescribed occurrence; and
 - revised its proposed Board nominees, to appoint only Mr Michael Povey as Executive Chair and has not insisted on appointing further Helix Directors at this time. Therefore, the majority of directors on the Helix Board remain as prior to the Offer.
- While the agreement to participate in a Placement at the same price as the Offer Price does not replace the proposed fundraising package referred to in Sections 1.1 and 1.2(a) above, it does provide funds on a timely basis on terms considered more favourable than the proposed fundraising referred to above.
- With only Mr Michael Povey being appointed to the Helix Board and the waiver of the Condition requiring a majority of the Helix Board comprise nominees of Acta or its Associates, the Offer no longer reflects a change in control of Helix through the Board composition for which Helix Shareholders would otherwise expect to receive an adequate premium.
- There have been no approaches to Helix regarding Competing Proposals since the Acta bid was announced on 30 August 2024.
- Through increased dialogue with Acta as part of the Implementation Agreement, the Helix Board is now satisfied with the intentions of Acta to work with the Helix Board to complete a comprehensive review of Helix's Cobar assets and its associated capital requirements.

To ACCEPT the Offer, please refer to Section 12.3 of the Bidder's Statement.

The Helix Directors intend to accept the Offer in respect of the Helix Shares they hold or control.

⁵ Helix ASX announcement dated 12 December 2024

⁶ As at 20 December 2024, Helix Shares last traded at \$0.003.
