Livium receives A\$1.7 million in R&D tax incentive rebates

Livium Ltd (ASX: LIT) ("**Livium**" or the "**Company**") is pleased to announce that it has received total research and development ("R&D") tax incentive rebates totalling A\$1.7m from the Australian Tax Office for the 2024 financial year. The final A\$0.8m of the rebates was received on 8 January, 2025.

These rebates have been received for wholly owned subsidiaries of Envirostream Australia Pty Limited (A\$475k), VSPC Pty Limited (A\$437k), and LieNA Pty Limited (A\$767k).

Comment from Livium CEO and Managing Director, Simon Linge

"We are pleased to finalise our R&D tax incentive rebates, highlighting the development of our unique technologies throughout FY24.

Rebates received for LieNA Pty Limited relate to activities under the joint development agreement with MinRes and their associated funding. We look forward to providing an update to shareholders of our plans for this technology."

Authorised for release by the CEO and Managing Director.

Forward-looking statements

This announcement contains forward-looking statements. Forward-looking statements are subject to a variety of risks and uncertainties that it is beyond the Company's ability to control or predict and which could cause actual events or results to differ materially from those anticipated in such forward-looking statements. Investors should be aware that past performance should not be relied upon as being indicative of future performance.

About Livium

Livium (previously Lithium Australia) is aiming to lead and enable the global transition to sustainable lithium production. The Company operates Australia's market leading battery recycler, produces critical battery material lithium ferro phosphate (LFP), and has developed a patented lithium extraction technology. Livium's revenue-generating recycling business and technologies are well-placed to capitalise on growing global lithium-ion battery demand and provides diversification benefits to global supply chains.
