DECEMBER 2024 QUARTERLY ACTIVITIES REPORT

Xstate Resources Limited (**ASX:XST**) (**Xstate, XST or the Company**) is pleased to provide the Quarterly Activities Report for the quarter ending 31 December 2024.

Suspension and Relisting

Following the suspension of the Company's shares by the ASX on 26th August 2024¹, the Board has continued to work on identifying a new project for the Company and expedite the re-quotation of the Company's shares. The Board has been actively engaged with the ASX on a number of projects and hopes to finalise and announce a new project within the coming weeks.

The Company has been previously advised by the ASX that it must re-comply with Listing Rules 1 & 2 which will require it to meet the assets test and shareholder spread. As part of that re-compliance process, in addition to other matters of compliance, the Company will be required to issue a Disclosure Document and raise capital from at least 300 new or existing shareholders.

Once the Company has finalized its new project, we will be writing to all shareholders confirming the details of the re-compliance process and associated Entitlements Issue.

Activities

The Company has continued to focus solely on identifying new projects over the past quarter.

The Company retains its interests in the Crest Jinn wells (Canada), the Anshof project (Austria) and in the USA (California) however the Board is constantly reviewing the Company's portfolio and looking for opportunities to enhance or monetise its projects.

Finances

The Company's cash balance upon conclusion of the quarter was A\$3.55m.

¹ See ASX release dated 26 August 2024. XST shares were suspended under Listing Rule 17.3 when the ASX determined that XST's level of operations were not sufficient to warrant the continued quotation of its securities.

CANADA: CREST JINN (25% WI)

Xstate's 25% Working Interest in the Crest Jinn assets resulted in the following production for the quarter:

Oil production in Canada (bbl)	December 2024	September 2024

About Xstate Resources Limited

Xstate Resources (**ASX:XST**) is an ASX listed company focused on the oil and gas sector. The Company has existing oil and gas assets located in the California in the United States of America, and oil production assets in Alberta, Canada and Austria. Xstate is presently pursuing new opportunities in the oil and gas sector onshore North America and around the world.

Leases

US and Canadian exploration is conducted on leases granted by Mineral Right owners, including the respective Governments and private individuals or groups. Leases can vary in size from very small parcels (part of an acre) to large landholdings (covering a few square miles). Leases generally are for 5 years and rentals are paid annually. There are no firm work commitments associated with the leases. Some leases are 'Held By Production' (HBP) and royalties are paid to mineral right owners in lieu of rentals. XST has not listed all its leases as it is impractical and not meaningful for potential project value assessment in a conventional natural gas play. A detailed listing of leases may also lead to a loss of competitive advantage and consequent reduced value to XST shareholders.

Competent Person

The technical information provided has been supervised and reviewed in detail by XST's Competent Person, Mr Greg Channon, who is also a Non-Executive Director of the Company. Mr Channon is a qualified geoscientist with over 35 years of oil and gas industry experience and a member of the American Association of Petroleum Geologists and the South East Asian Exploration Society and is a graduate of the Australian Institute of Company Directors. He is qualified as a competent person in accordance with ASX listing rule 5.41. Mr Channon consents to the inclusion of the information in this report in the form and context in which it appears.
