

Exploration of high-grade gold prospects in world-class terranes of Côte d'Ivoire

Aggressive exploration program funded and underway

121 Mining Investment Presentation | Cape Town
February 2025

Disclaimer and Cautionary Statement

This Presentation has been prepared as a summary only and does not contain all information about Many Peaks Minerals Limited's ("MPK" or the "Company") assets and liabilities, financial position and performance, profits and losses, prospects and rights and liabilities. The information in this Presentation and made to you verbally is subject to updating, completion, revision, further verification and amendment without notice.

The information contained in this Presentation or subsequently provided to the Recipient of this Presentation whether orally or in writing by or on behalf of the Company or its employees, agents or consultants ("Information") is provided to the Recipients on the terms and conditions set out in this notice. The purpose of this Presentation is to provide Recipients with Information relating to the Company. The Presentation has been prepared by the Company and each Recipient must make his/her own independent assessment and investigation of the Company and its business and assets and should not rely on any statement or the adequacy and accuracy of any Information contained in this Presentation.

The Company makes no representation or warranty (express or implied) as to the accuracy, reliability or completeness of the Information. The Company and its directors, employees, agents and consultants shall have no liability (including liability to any person by reason of negligence or negligent misstatement) for any statements, opinions, information or matters (express or implied) arising out of, contained in or derived from, or for any omissions from the Presentation, except liability under statute that cannot be excluded.

The performance and operations of the Company may be influenced by a number of factors, many of which are outside the control of the Company. No representation or warranty, express or implied, is made by the Company or any of its directors, officers, employees, advisers or agents that any intentions, expectations or plans will be achieved either totally or partially or that any particular rate of return will be achieved. This Presentation does not constitute in any way an offer or invitation to subscribe for securities in the Company pursuant to the Corporations Act.

Statements regarding the Company's plans with respect to its mineral properties are forward-looking statements. There can be no assurance that the Company's plans for development or proposed exploration activity will proceed as currently expected. There can also be no assurance that the Company will be able to confirm the presence of mineral deposits, that any mineralisation will prove to be economic or that a mine will successfully be developed on any of the Company's mineral properties.

The information in this report that relates to Exploration Results is based on, and fairly represents, information compiled by Mr Travis Schwertfeger, who is a Member of the Australasian Institute of Geoscientists. Mr Schwertfeger is the Executive Chairman of the Company and has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity he is undertaking to qualify as a competent person as defined in the 2012 Edition of the "Australasian Code for reporting of Exploration Results, Exploration Targets, Mineral Resources and Ore Reserves" (JORC Code). Mr Schwertfeger consents to the inclusion in this report of the matters based upon his information in the form and context in which it appears.

References may have been made in this announcement to certain past ASX announcements, including references regarding exploration results. For full details, refer to the referenced ASX announcement on the said date. The Company confirms that it is not aware of any new information or data that materially affects the information included in these earlier market announcements.

Released with the authority of the board of Many Peaks Minerals Limited

Investment Highlights

Côte d'Ivoire: a stable and attractive mining investment jurisdiction, with West Africa the fastest growing gold producing region globally

World Class Birimian Gold Terrane in Côte D'Ivoire, the highest ranked region for gold discovery over the past decade, and still under-explored

Experienced Board and Exploration Team with track record of discovery and project development in West Africa. Recent appointment of Mr Francis Harper as Chairman

Projects recently acquired by Many Peaks have extensive high-quality databases from over **US\$4.5M of previous exploration expenditure**

High-grade gold intercepts at recent discovery include **47m @ 3.72 g/t** from surface, with limited drilling across an open 12km anomalous gold corridor

Aggressive exploration program, with 23,655m of reconnaissance drilling completed over past 6 months and a fully funded **>12,000m drilling planned** is planned and already in progress for first half of 2025

Company Snapshot

Capital Structure

Share Price	A\$0.23
Current Shares on Issue	81.5M
Unlisted Options (EX A\$0.25 to A\$0.40 strike)	25.3M
Performance Rights	5M
Market Cap. (undiluted)	\$18.7M
Enterprise Value (undiluted)	A\$12.8M
Cash (as at 31 December 2024)	A\$5.9M
52 Week Trading Range	A\$0.05 – A\$0.295

MPK 12-Month Share Price

Board & Management

FRANCIS HARPER NON-EXECUTIVE CHAIRMAN

Mr Harper is a former Chair of Tietto Minerals Ltd, West African Resources Ltd Predictive Discovery Ltd and Manas Resources Ltd (now Turaco Gold Limited). He co-founded Blackwood Capital in 2002, which has raised over \$1 billion for ASX resources companies including the IPO's of Tietto Minerals, West African Resources, Azumah and Manas Resources.

Prior to Blackwood he spent 15 years with NM Rothschild in the US, the UK and Australia in resources M&A and project finance advisory. He holds LLB (Hons) and BEc degrees.

TRAVIS SCHWERTFEGER MANAGING DIRECTOR

Experienced company director across mineral resources sector with +25yrs global industry experience in exploration, resource estimation, project development and mining operations, including over 7 years' operating in West Africa. Former Director of Exore Resources (acquired by Perseus Mining in Sept. 2020) and previously held roles with Newmont Mining Corporation, Hecla Mining, and executive and non-exec director of various ASX and TSX listed companies.

MARCUS HARDEN NON-EXECUTIVE DIRECTOR

Geologist with extensive exploration and management experience throughout Africa, Australia, Asia and the Americas with a track record for discovery across multiple projects. Former senior exploration roles held with First Quantum Minerals Ltd, Gryphon Minerals Ltd, Bellevue Gold Ltd and Alicanto Minerals Ltd among others and currently President for Gladiator Metals.

BEN PHILIPS NON-EXECUTIVE DIRECTOR

Over 15 years experience in commercial negotiations across industries including Oil and Gas, Resources, Medical technology, SaaS and Defence. Mr. Phillips advises departments ranging from R&D and exploration through to production, commercialisation and sales. ASX listed positions include Executive Chairman of Norfolk Metals Limited and Non-Executive Chairman of Mount Hope Mining.

MOHAMED NIARÉ MANAGER, CÔTE D'IVOIRE

With over 25 years' experience in the mining and exploration sector, Mohamed has provided tenement management, corporate governance, logistical support and community engagement for multiple public and private West African focused companies.

Previous experience includes senior administrative roles in with West African focussed mining companies including Newmont, Randgold and Resolute.

AARON BERTOLATTI COMPANY SECRETARY

Qualified Chartered Accountant and Company Secretary with over 15 yrs experience in the mining industry and accounting profession.

Significant experience in the administration of ASX listed companies, corporate governance and corporate finance.

Côte d'Ivoire Projects

2024-25 Proposed Work Programmes

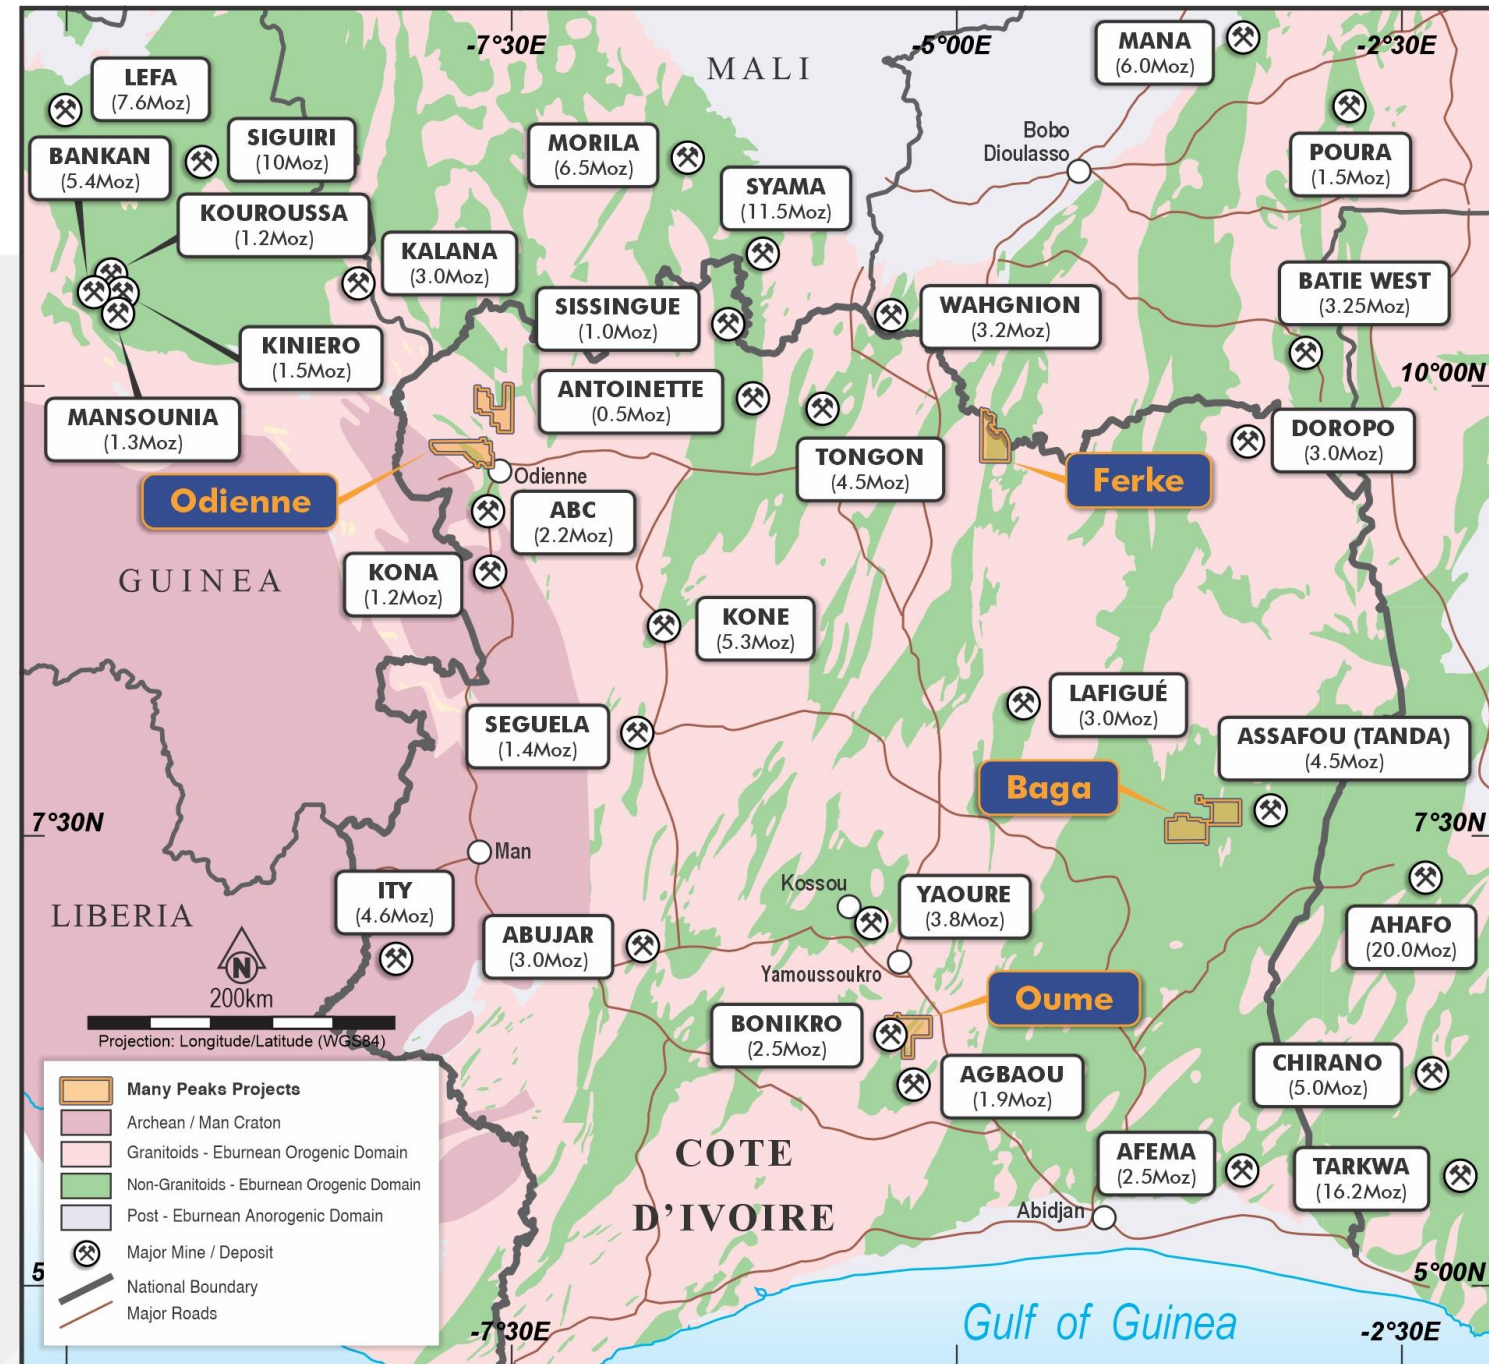

Côte D'Ivoire

Advancing Recent Discoveries towards maiden resource estimations in a world class terrain

- Highly prospective 1,919km² land position in West Africa
- Côte D'Ivoire has strong economy and stable government and is host to multiple gold mines producing >1Moz pa
- Host to largest proportion of the world-class Birimian Gold Terrane in West Africa

Recent gold discoveries for immediate drilling:

- **Ferké Gold Project**, high-grade gold mineralisation from surface – **currently drilling**
- **Odienné Gold Project**, Extensive gold anomalism adjoining Awalé/Newmont Joint Venture, and on trend with 5.4Moz Bankan Project, with gold mineralisation confirmed in initial drill tests
- **8,089m air core drilling – Assays Pending**
- **Baga Gold Project**, Structurally complex setting within Birimian greenstones, located 21km west of Endeavour's 4.5Moz Assafou gold discovery

Ferké Project

Gold discovery confirmed in diamond drilling with significant growth potential

Initial RC drilling and trenching in early reconnaissance returned;

- **34m @ 5.29g/t gold** and **92m @ 1.76g/t gold** in trenching
- **25m @ 3.06g/t gold** from 64m – FNRC016

Central to the >12km north-south gold corridor, initial diamond drill tests return significant mineralisation from surface including;

- **91.1m @ 2.02 g/t gold** from surface – FNDC008
- **47m @ 3.72 g/t gold** from surface – FNDC012
- **15m @ 2.06 g/t gold** from surface, followed by **116.5m @ 0.98 g/t gold** – FNDC005

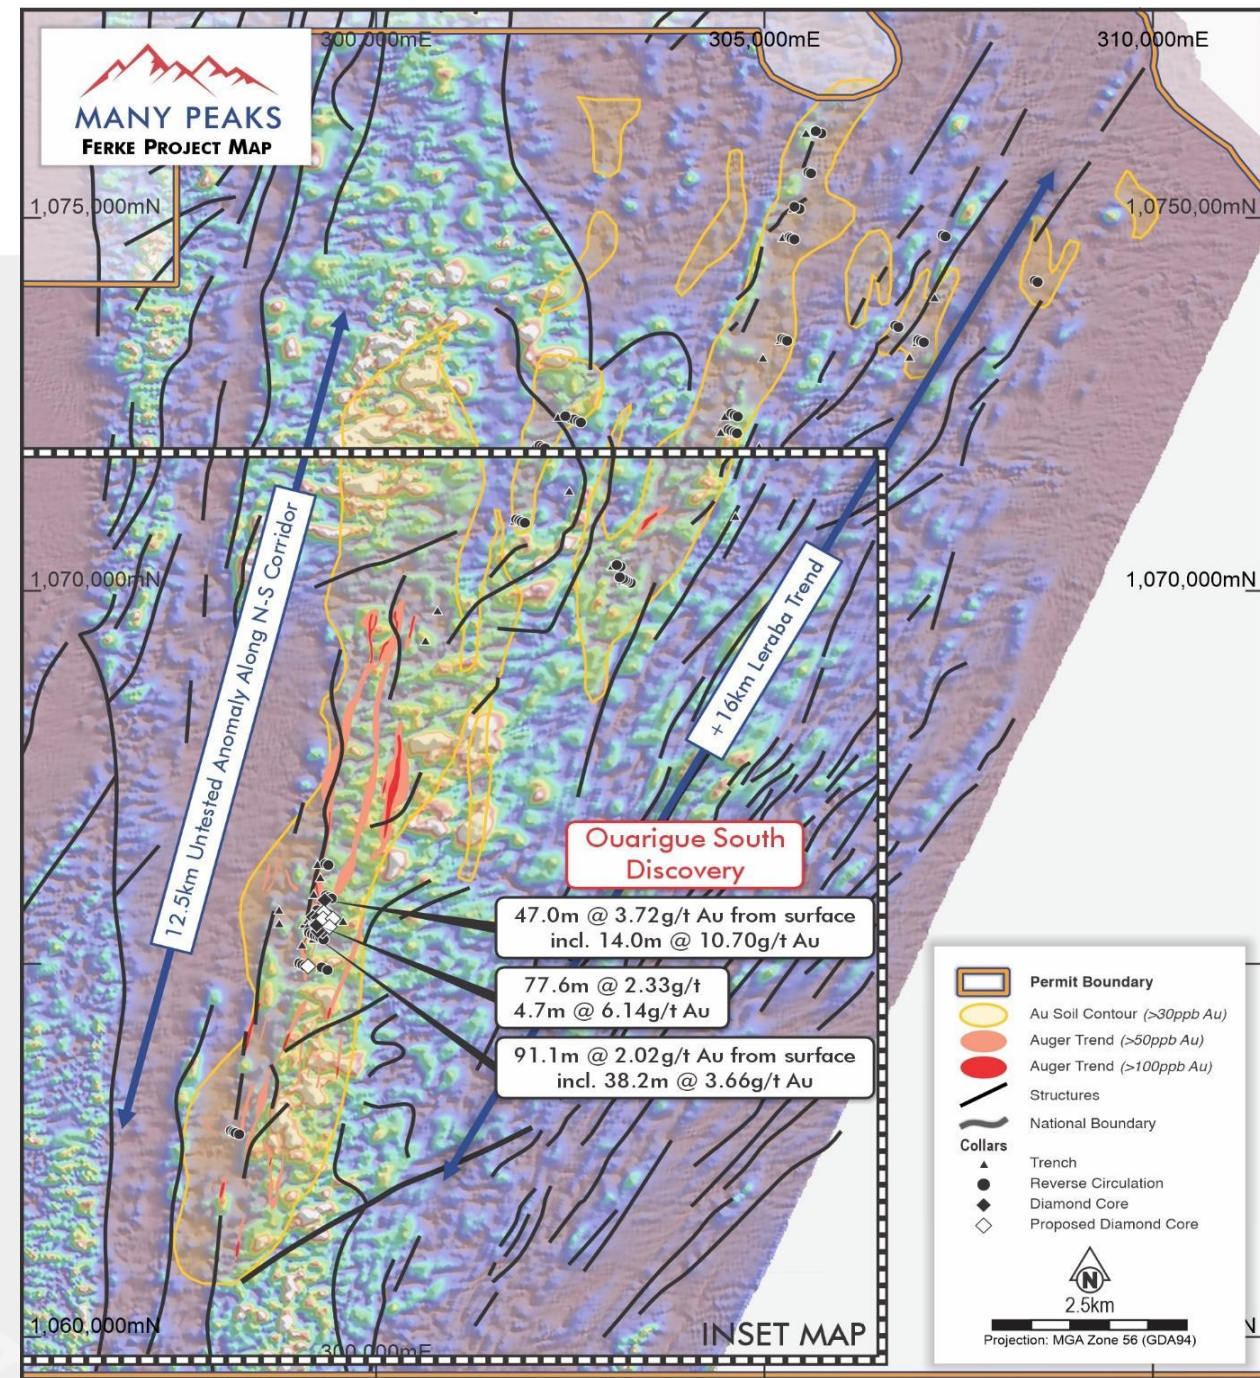

Current exploration is focused on extensions to High-Grade Mineralisation

- **Multiple targets defined in auger - recently completed** (Next Slide)
- **+1,000m diamond drilling targeting step-outs to Ouarigue gold intercepts - In Progress**
- **Air Core and RC Follow-up - to commence in March**

Refer to ASX releases dated 26 March 2024 and 29 January 2025

ASX: MPK

www.manypeaks.com.au

Ferké – Auger Drilling Results

January 2025 Auger Results Define Multiple Drill-Ready Targets

- 10,000m Air Core and RC Drilling Campaign advancing towards March Commencement.
- Mapping and rock chip sampling in progress on priority targets

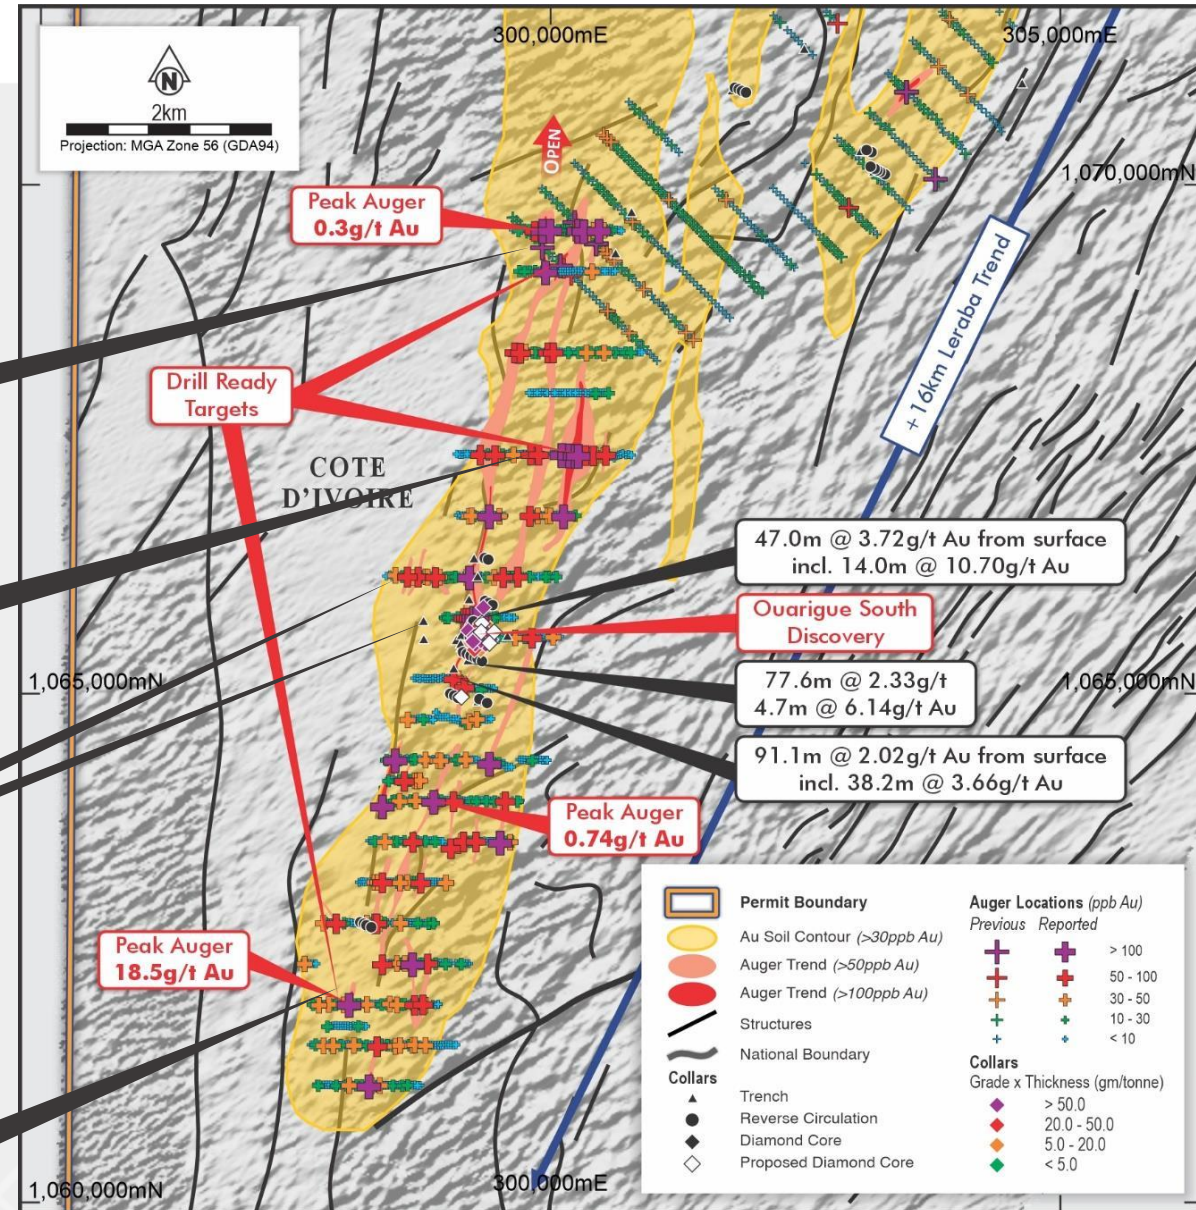

650m wide anomaly, open to the north and anomalism extends >1km south,

340m wide anomaly with consistent >100ppb gold on 600m spaced auger lines

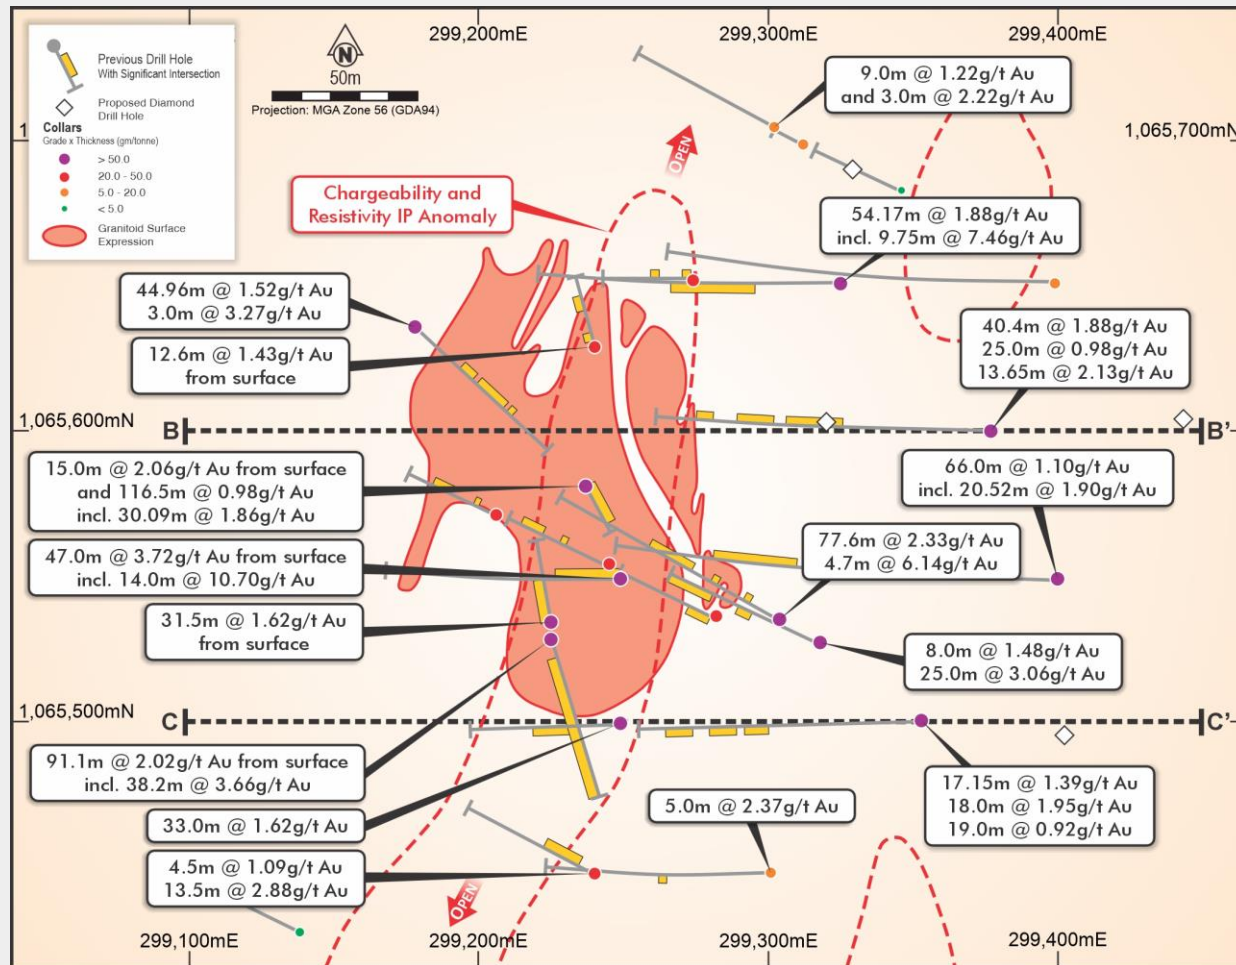

Two priority anomalies on trends offset to west of Ouarigue South Discovery

Peak Assay Result of 18.5g/t gold, on trend with high tenor soil anomalism

Ferké – Ouarigue Prospect

Gold Hosted with Quartz-Veined granitic intrusion

Diamond Drilling In-Progress

(+1,000m / 5 holes)

100m to 400m spaced drill holes targeting extensions of gold mineralisation and testing plunge controls on high-grade shoots

Odienné Project

Key landholding in an emerging gold province of West Africa

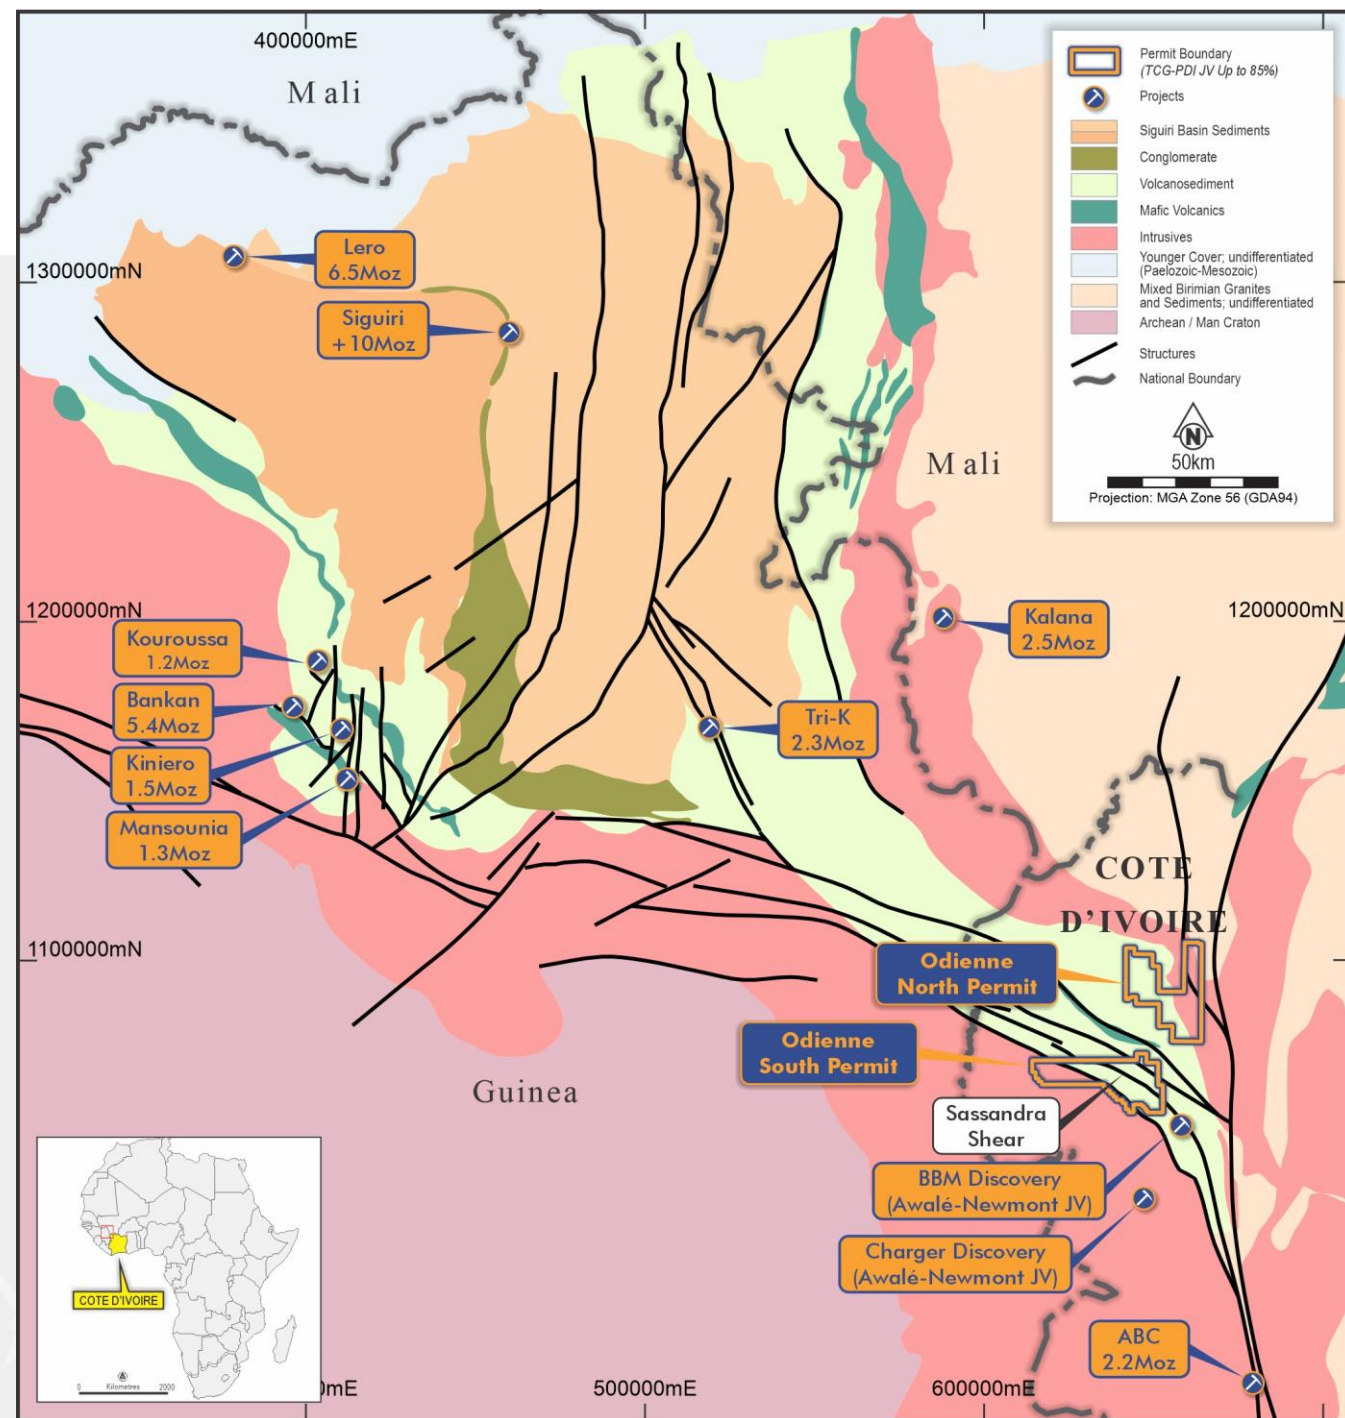

Two permits covering 758km²

Project covers significant extent of high strain corridor associated with the Archean domain margin, comparable in stratigraphy to Guinea's Siguiri basin

Same tectonic corridor hosting;

- Predictive Discovery's 5.4Moz Bankan gold discovery
- Centamin's 2.2Moz ABC Project, and
- Recent gold discoveries advancing at BBM and Charger prospects in adjoining Awalé-Newmont JV

Largely unexplored region emerging as a new exploration province attracting investment in a proven mining jurisdiction

Odienné Project

> 16km of priority gold targets ready for follow-up

8,810m reconnaissance drilling completed – July

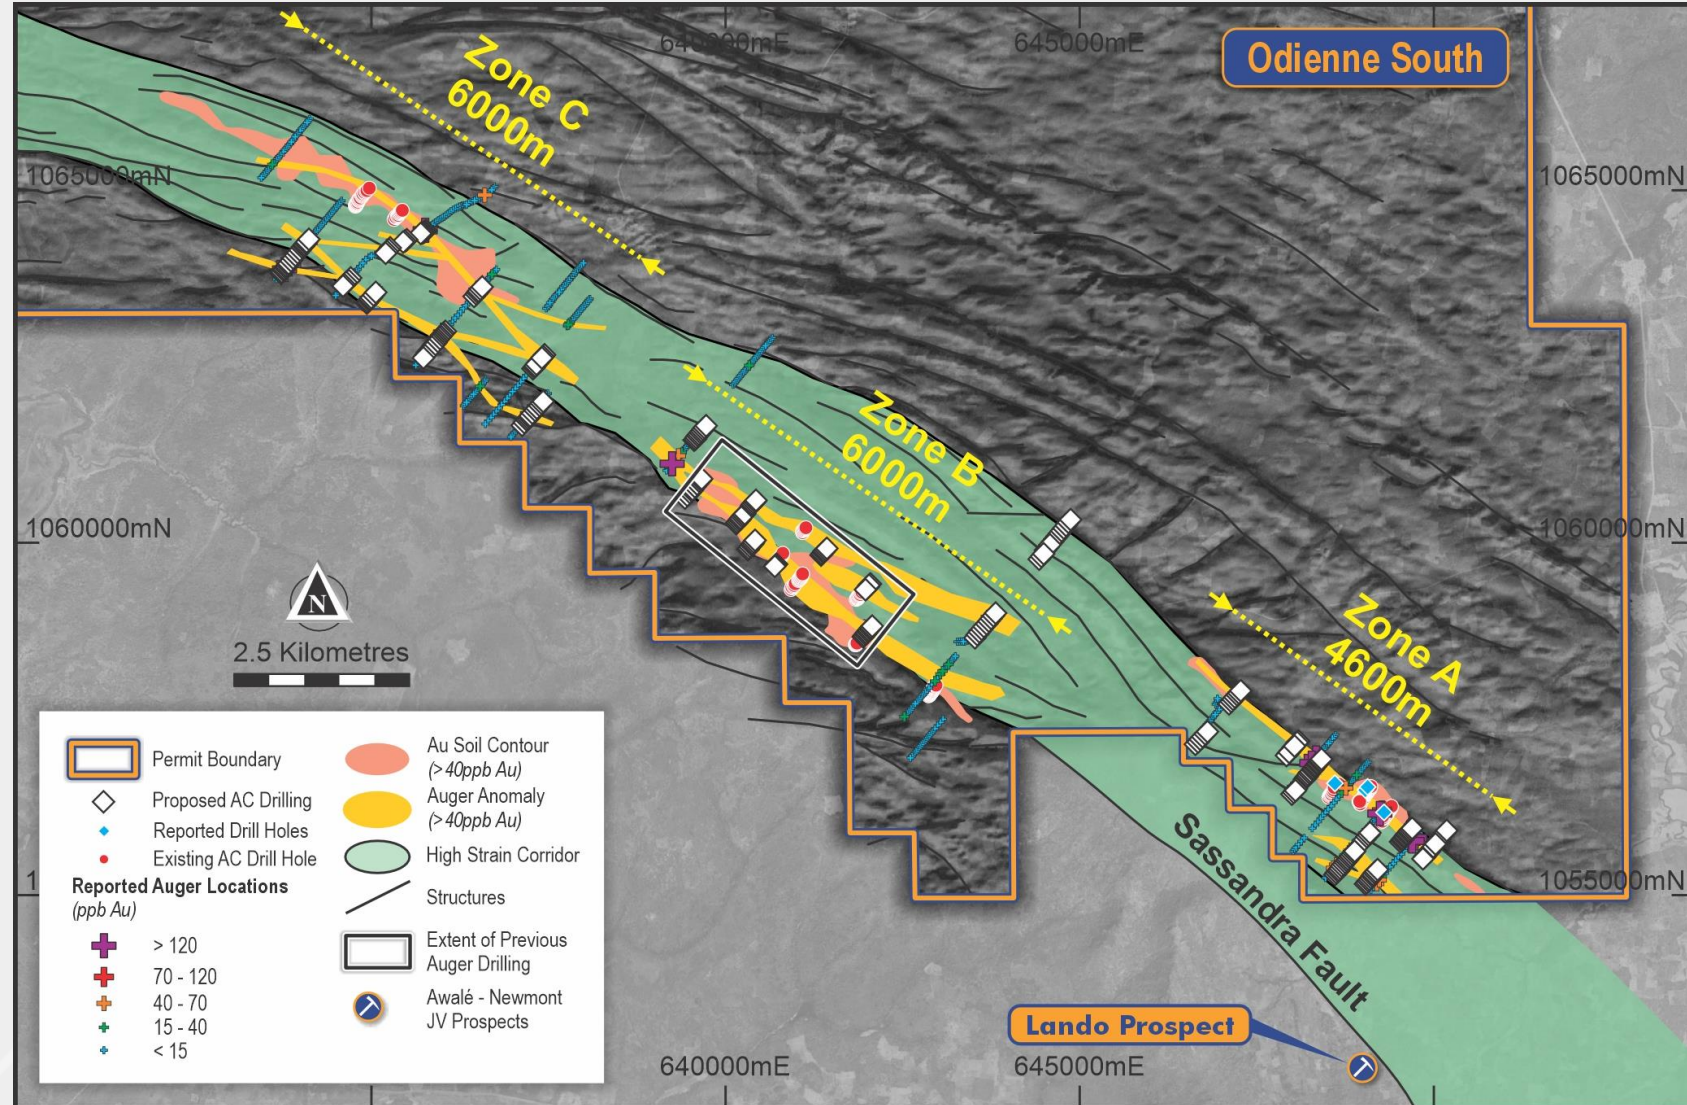

5,000m air core drilling follow-up programme,
- commencing end of November

Recent Auger results prioritise several discrete targets within an extensive anomalous gold corridor

Reconnaissance diamond drilling identifies coherent gold-bearing structure in maiden three hole test - **open in all directions**

Emerging Discovery at adjoining permit
Awalé-Newmont JV Recent Drill Results include;
57m @ 26g/t gold (Charger) &
75m @ 1.8g/t gold (BBM)

Refer to ASX releases dated 26 March, 26 July, and 20 August 2024

Baga Gold Project

Baga located ~21km west of 4.5Moz Assafou gold discovery (Tanda-Iguela Project / Endeavour Mining)

Reconnaissance mapping has identified occurrences of previously unmapped intrusions and shear corridors with coincident alteration and sulphide minerals

Highly prospective area in underexplored terrain

Staged Surface Geochemistry Campaign In-Progress

- Stream sediment sampling completed
- Soil sampling commencing March quarter

24 Month Option Agreement – Key Terms

Option Fees: US\$40k and 500k MPK shares paid at signing

500k MPK shares due 26 June 2025 if extending 12 mo

Exercise of Option: 6M fully paid ordinary shares in MPK

Milestone Payment(s) of \$1 per oz Au M&I resource, capped at US\$1M

- **Côte d'Ivoire emerging as a top tier Jurisdiction for operating in West Africa**
- **Fastest growing gold producing region over past decade with West Africa emerging as the largest global gold producing region¹**
- **Exposure to World Class West African Birimian Gold Terranes**
- **Strong technical team with significant West African Discovery experience. Recent addition of Mr Francis Harper as Chairman.**
- **Multiple drill ready targets for follow-up, with multiple campaigns for 2024-25 season planned and funded**
- **Compelling value proposition of <A\$20M market capitilisation, with exploration underway at highly prospective projects**
- **Money into the ground, Corporate and Administrative Costs <17% of expenditure first 2 years since listing**
