The Offers are not being made, directly or indirectly, in or into and will not be capable of acceptance from within any jurisdiction, if to do so would not be in compliance with the laws of that jurisdiction.

It is your sole responsibility to satisfy yourself that you are permitted by any foreign law applicable to you to accept the Offer. You should note that the Offers has been conducted in accordance with the laws enforced in Australia and the ASX Listing Rules. The disclosure requirements in relation to the Offers applicable in Australian may differ from those applying in your jurisdiction. Foreign Shareholders may have difficulties in enforcing their rights and any claims they may have arising under the laws of their jurisdiction. It may also be difficult to compel the Bidder to subject itself to a foreign court's judgement.

This Bidder's Statement does not constitute an offer of Whitebark Shares or Whitebark Options in any jurisdiction in which it would be unlawful. In particular, this Bidder's Statement may not be distributed to any person, and the Whitebark Shares or Whitebark Options may not be offered or sold, in any country outside Australia except to existing King securityholders to the extent permitted below.

United Kingdom

Neither this Bidder's Statement nor any other document relating to the offer has been delivered for approval to the Financial Conduct Authority in the United Kingdom and no prospectus (within the meaning of section 85 of the Financial Services and Markets Act 2000, as amended (**FSMA**)) has been published or is intended to be published in respect of the Whitebark Shares or Whitebark Options.

The Whitebark Shares and Whitebark Options may not be offered or sold in the United Kingdom by means of this Bidder's Statement or any other document, except in circumstances that do not require the publication of a prospectus under section 86(1) of the FSMA. This Bidder's Statement is issued on a confidential basis in the United Kingdom to "qualified investors" (as defined in the UK Prospectus Regulation) and fewer than 150 other persons who are existing King Securityholders. This Bidder's Statement may not be distributed or reproduced, in whole or in part, nor may its contents be disclosed by recipients, to any other person in the United Kingdom.

Any invitation or inducement to engage in investment activity (within the meaning of section 21 of the FSMA) received in connection with the issue or sale of the Whitebark Shares and Whitebark Options has only been communicated or caused to be communicated and will only be communicated or caused to be communicated in the United Kingdom in circumstances in which section 21(1) of the FSMA does not apply to Whitebark.

In the United Kingdom, this Bidder's Statement is being distributed only to, and is directed at, persons (i) who have professional experience in matters relating to investments falling within Article 19(5) (investment professionals) of the Financial Services and Markets Act 2000 (Financial Promotions) Order 2005, as amended ("FPO"), (ii) who fall within the categories of persons referred to in Article 49(2)(a) to (d) (high net worth companies, unincorporated associations, etc.) of the FPO or (iii) to whom it may otherwise be lawfully communicated (together "relevant persons"). The investment to which this Bidder's Statement relates is available only to relevant persons. Any person who is not a relevant person should not act or rely on this Bidder's Statement.

United States

This Bidder's Statement has not been filed with, or reviewed by, the US Securities and Exchange Commission or any state securities authority and none of them has passed upon or endorsed the merits of the offer of Whitebark Shares and Whitebark Options or the accuracy, adequacy or completeness of this document. Any representation to the contrary is a criminal offence.

The Whitebark Shares and Whitebark Options have not been, and will not be, registered under the US Securities Act 1933 or the securities laws of any US state or other jurisdiction. The Whitebark Shares and Whitebark Options are not being offered in any US state or other jurisdiction where it is not legally permitted to do so.

King Securityholders should note that the Offers are made for the securities of an Australian company in accordance with the laws of Australia and the listing rules of the Australian Securities Exchange. The Offers are subject to the disclosure requirements of Australia that are different from those of the United States. Any financial statements included in the Bidder's Statement have been prepared in accordance with Australian accounting standards and may not be comparable to the financial statements of US companies.

It may be difficult for you to enforce your rights and any claim you may have arising under US federal securities laws, since Whitebark is incorporated in Australia and some of its officers and directors are

residents of Australia. You may not be able to sue Whitebark or its officers or directors in Australia for violations of the US securities laws. It may be difficult to compel Whitebark and its affiliates to subject themselves to a US court's judgment.

New Zealand

The Offers to New Zealand investors are regulated offers made under Australian and New Zealand law. In Australia, this is Chapter 8 of the Corporations Act and regulations made under that Act. In New Zealand, this is subpart 6 of Part 9 of the Financial Markets Conduct Act 2013 and Part 9 of the Financial Markets Conduct Regulations 2014.

The Offers and the content of the offer document are principally governed by Australian rather than New Zealand law. In the main, the Corporations Act and the regulations made under that Act set out how the offer must be made.

There are differences in how financial products are regulated under Australian law. For example, the disclosure of fees for managed investment schemes is different under the Australian regime.

The rights, remedies, and compensation arrangements available to New Zealand investors in Australian financial products may differ from the rights, remedies, and compensation arrangements for New Zealand financial products.

Both the Australian and New Zealand financial markets regulators have enforcement responsibilities in relation to the Offers. If you need to make a complaint about these Offers, please contact the Financial Markets Authority, New Zealand (<http://www.fma.govt.nz>). The Australian and New Zealand regulators will work together to settle your complaint.

The taxation treatment of Australian financial products is not the same as for New Zealand financial products.

If you are uncertain about whether this investment is appropriate for you, you should seek the advice of a financial advice provider.

The offers may involve a currency exchange risk. The currency for the financial products is not New Zealand dollars. The value of the financial products will go up or down according to changes in the exchange rate between that currency and New Zealand dollars. These changes may be significant.

If you expect the financial products to pay any amounts in a currency that is not New Zealand dollars, you may incur significant fees in having the funds credited to a bank account in New Zealand in New Zealand dollars.

If the financial products are able to be traded on a financial product market and you wish to trade the financial products through that market, you will have to make arrangements for a participant in that market to sell the financial products on your behalf. If the

financial product market does not operate in New Zealand, the way in which the market operates, the regulation of participants in that market, and the information available to you about the financial products and trading may differ from financial product markets that operate in New Zealand.

3 February 2025

Dear King Securityholders,

As you may be aware, Whitebark Energy Limited (**Whitebark**) and King Energy Limited (**King**) recently announced the signing of a Bid Implementation Agreement (**Implementation Agreement**) regarding unanimously recommended off-market takeover bids for all of your King Shares and King Options.

On behalf of the Whitebark Directors, I am pleased to enclose a share offer of 1.6894072 new Whitebark Shares for every 1 King Share you own (**Share Offer**) and the following option offers (**Option Offers**):

- of 3.3333333 new unquoted Whitebark Options for every 1 King Class A Option you own (**King Class A Option Offer**); and
- of 3.3333333 new unquoted Whitebark Options for every 1 King Class B Option you own (**King Class B Option Offer**),

(together, the **Offers**).

The Share Offer values the King Shares at \$0.011826 each. This is based on the closing price of Whitebark shares on ASX of \$0.007 cents on 19 December 2024, the last trading day prior to the Announcement Date. The implied value of the Offers will change with fluctuations in the Whitebark share price.

The value of the Option Offers is an aggregate of \$469,700 (being \$0.004697 per Option Offer). The value of the Option Offers has been calculated by using a Black & Scholes valuation of the Whitebark Options based on the following variables:

- a 5-day VWAP of Whitebark Shares on 20 December 2024;
- a 3.91% risk free rate; and
- 124% volatility rate.

Should Whitebark acquire 100% of the King Shares and King Options, and assuming no convertible securities of Whitebark or King are converted or exercised, King Shareholders will together hold approximately 12.24% of the Combined Group, and assuming all Whitebark Options are exercised and convertible securities of Whitebark are exercised, King Securityholders will together hold approximately 15.05% of the Combined Group. This interest will enable you to obtain the benefits detailed below.¹

We have summarised below why Whitebark believes that a merger with King makes sense and will generate value for securityholders of both companies. The key benefits of the transaction contemplated by this Bidder's Statement include (subject to the Offers becoming unconditional):

- King's and Whitebark's businesses are complementary with both companies holding interests in oil and gas and hydrogen projects. Their full combination will create an Australian based exploration and production company with a diversified asset base;
- you will have the opportunity to benefit from the cashflow generating capacity of Whitebark, increased market presence, greater liquidity and enhanced funding capability of the Combined Group;

¹ These calculations assume that the Officer Energy Option is exercised and 461,538,462 Whitebark Placement Shares and 230,769,231 Whitebark Placement Options are issued under the Placement prior to or immediately following completion of the Offers. Refer to Section 8.4 for further information.

- King Securityholders will gain full exposure to the Whitebark Board and management team that has a depth of technical experience and operational track record;
- the ability to optimise exploration and development activity across the Combined Group's highly prospective portfolio, with potential synergies associated with future project development and infrastructure requirements;
- enhanced strategic, technical and financial strength to optimise funding of operations, including market presence, share trading liquidity across ASX and exposure to a larger global investor base giving greater financing flexibility;
- the transaction provides Whitebark with direct access to Australia's growing white hydrogen and helium sectors, securing a highly strategic position in global energy markets, particularly as demand for clean energy and industrial gases rises; and
- the consolidation of Whitebark and King's infrastructure, and exploration capabilities will create operational efficiencies, reducing costs while optimising project development strategies.

The King Directors unanimously recommend that King Securityholders accept the relevant Offers made to them, and have agreed to accept the Offers in respect of their own holdings, in the absence of a Superior Proposal.

The King Directors own or control:

- 13,113,180 King Shares (representing 22.15% of King Shares); and
- 6,458,500 King Options (representing 21.53% of the King Options),

on issue at the date of this Bidder's Statement.

As at the date of this Bidder's Statement, Whitebark and King are not aware of any Superior Proposal having been received by King and King has not made Whitebark aware of any party having an intention to make such a proposal.

I encourage you to read this important document carefully. The Offers are open for your acceptance until 5:00pm (WST) on 10 March 2025, unless extended.

To accept the Offers, please follow the instructions in Sections 3 and 12.5 of this Bidder's Statement and on the accompanying personalised Acceptance Form.

If you have any questions about the Offers, please contact the Whitebark Offers Information Line on +61 08 9323 2000 or your professional financial adviser.

Whitebark's Directors look forward to having King Securityholders join Whitebark following the successful completion of this transaction.

Yours sincerely

As a King Securityholder, you have the following choices in respect of your King Securities: (a) accept the Offers with respect to ALL of your King Securities; (b) sell all or some of your King Securities outside of the Offers in accordance with the terms of King's constitution, however given that King Securities are not listed on any public securities exchange, this may be difficult for you to do; or (c) do nothing.	-
How do I accept the Offers?	To accept the Offers, you should follow the instructions set out in this Bidder's Statement and in the enclosed personalised Acceptance Form.	Sections 12.5 and 12.6, and the personalised Acceptance Form enclosed with this Bidder's Statement.
Can I withdraw my acceptance of the Offers?	No. You will not be able to withdraw your acceptance of the Offers unless a right to withdraw arises under the Corporations Act. A withdrawal right will arise if, after you accept the Offers, the Offers remain subject to Conditions and Whitebark varies the Offers in a way that postpones the time that Whitebark has to meet its obligations under the Offers for more than one month (for example, if Whitebark extends the Offers for more than one month while the Offers made to you remain subject to Conditions).	Section 12.8.
What happens if Whitebark improves the Consideration?	If Whitebark improves the Consideration, all the King Securityholders who accept the Offers (whether or not they have accepted the Offers before or after the improved terms were made) will be entitled to the benefit of the improved Consideration, should the Offers become or be declared unconditional.	This is a requirement of the Corporations Act.
What happens if I do not accept the Offers?	If you do not accept the Offers, you will remain a King Securityholder and will not receive the Consideration. If Whitebark becomes entitled to compulsorily acquire your King Shares and King Options, it intends to do so. If your King Shares are	Sections 7.5 and 10.2.

	<p>compulsorily acquired by Whitebark, it will be on the same terms as the Share Offer. However, you will receive your Whitebark Shares at a later time than the King Shareholders who choose to accept the Share Offer, provided that, if Whitebark has a Relevant Interest of less than 80% of King Shares, it requires the prior written consent of King to waive the 90% condition.</p> <p>If Whitebark acquires more than 50.1% but less than 90% of the King Shares, Whitebark will hold a controlling interest in King. The remaining King Securityholders will be in a minority position in a company with a large controlling shareholder whose objectives for the company may differ from their own. They could also encounter a lower level of liquidity in King Shares than exists today, which could result in a lower price for those King Shares should they wish to sell them in future.</p>	
<p>Are there conditions to the Offers?</p>	<p>The Share Offer is subject to a number of conditions including:</p> <ul style="list-style-type: none"> (a) a 90% minimum acceptance condition in relation to King Shares; (b) compliance with certain restrictions on King's conduct of business; (c) no material adverse change occurring in relation to King; (d) no regulatory action being taken by ASIC, ASX or other regulatory body which restrains, prohibit or impedes, or threatens to restrain, prohibit or impede, or materially impact on, the making of the Offers; (e) the counterparties to certain agreements with the King Group which contain pre-emptive rights or require the consent of such counterparty in the context of the Offers having given a binding, irrevocable and unconditional release or waiver of that right; (f) no 'prescribed occurrences' occurring; and (g) receipt by Whitebark of all required regulatory and shareholder approvals and consents in connection with the Offers. <p>Each of the Option Offers are subject to the following conditions:</p> <ul style="list-style-type: none"> (a) a 90% minimum acceptance condition in relation to King Shares; and (b) at or before the end of the Offer Period for the Option Offers, the Share Offer is, or has been declared, unconditional in all respects. 	<p>Sections 12.10 and 12.11 for the full list of the Conditions and Section 11.12 for a summary of the status of the Conditions.</p>

QUESTION	ANSWER	FURTHER INFORMATION
	<p>As at the date of this Bidder's Statement, Whitebark is not aware of any act, omission, event or fact that would result in any of the Conditions of the Offers being triggered (or not being satisfied, as appropriate).</p> <p>Refer to Sections 12.10 and 12.11 for the full list of the Conditions and Section 11.12 for a summary of the status of the Conditions.</p>	
Can Whitebark waive the Conditions to the Offers?	<p>Yes, Whitebark is free to decide to waive any of the Conditions, other than the 90% minimum acceptance condition, which cannot be waived by Whitebark where Whitebark has a Relevant Interest of less than 80% of the issued shares in King without the prior written consent of King.</p> <p>If the Offers closes and the Conditions are not satisfied or waived, the Offers will lapse, and your acceptance will be void. In other words, you will continue to hold your King Shares and King Options (unless you otherwise sell them). Whitebark will announce whether the conditions have been satisfied or waived during the Offer Period in accordance with its obligations under the Corporations Act.</p> <p>Further details in respect of the extent to which these Conditions are waived is set out in Section 12.12.</p>	Section 12.12.
Will my Whitebark Securities be listed on ASX?	<p>Within seven days of the date of this Bidder's Statement, Whitebark will apply to the ASX for quotation of the new Whitebark Shares on the ASX. Quotation of the Whitebark Shares depends on ASX exercising its discretion to admit them to quotation on ASX. Whitebark is already admitted to the Official List of ASX and Whitebark Shares in the same class as the new Whitebark Shares being offered are already quoted.</p> <p>For the avoidance of doubt, Whitebark will not apply to the ASX for quotation of the new Whitebark Options offered under the Option Offers on the ASX.</p>	Section 12.14.

2. WHY YOU SHOULD ACCEPT THE OFFERS

2.1 Detailed Reasons Why You Should ACCEPT the Offers

Whitebark Energy Limited believes you should **ACCEPT** the Offers for the following reasons:

1.	Unanimous recommendation from the King Board, to accept the Offers, in the absence of a Superior Proposal.
2.	The businesses are complementary with both companies holding interests in oil and gas and hydrogen projects. Their full combination will create an Australian based exploration and production company with a diversified asset base.
3.	The Option Offers provide an opportunity to realise value for your King Options in circumstances where there is otherwise no market for those King Options.
4.	You will become a securityholder in Whitebark, and have the opportunity to benefit from strategic benefits, diversity and operational synergies in the Combined Group if the Offers are successful.
5.	You will have the opportunity to benefit from the cashflow generating capacity of Whitebark, increased market presence, greater liquidity and enhanced funding capability of the Combined Group.
6.	You will gain full exposure to the Whitebark Board and management team that has a depth of technical experience and operational track record.
7.	The Offers reduce risks associated with remaining a King Securityholder.
8.	If you do not accept the Share Offer, you may be subject to the risks and uncertainties of potentially being a minority shareholder in King.
9.	You may not incur stamp duty in accepting the Offers due to the potential access to CGT scrip for scrip rollover relief.
10.	You may not incur brokerage or stamp duty in accepting the Offers.

The above is only a headline summary of some of the reasons why you should accept the Offers. Each of the reasons is explained in further detail below.

If you wish to accept the Offers, you must return the signed accompanying personalised Acceptance Forms by **5:00pm (WST) on Monday, 10 March 2025**, unless extended in accordance with the Corporations Act.

2.2 Detailed Reasons Why You Should ACCEPT the Offers

(a) **Unanimous recommendation from the King Board, to accept the Offers, in the absence of a Superior Proposal.**

The King Directors have unanimously recommended that King Shareholders accept the Offers, in the absence of a Superior Proposal.

All of the King Directors intend to accept, or procure the acceptance of, the Offers in respect of any King Shares that they own or control, in the absence of a Superior Proposal.

The King Directors own or control:

- (i) 13,113,180 King Shares (representing 22.15% of King Shares); and
- (ii) 6,458,500 King Options (representing 21.53% of the King Options, on issue at the date of this Bidder's Statement.

If you accept the Offers made to you and those Offers become or are declared unconditional, you will receive:

SECURITY	CONSIDERATION
King Shares	1.6894072 Whitebark Shares for every 1 of your King Shares.
King Class A Options	3.3333333 Whitebark Shares for every 1 of your King Class A Option.
King Class B Options	3.3333333 Whitebark Shares for every 1 of your King Class B Option.

As at the date of this Bidder's Statement, Whitebark is not aware of any Superior Proposal having been received by King and King has not made Whitebark aware of any party having an intention to make such a proposal.

- (b) **The businesses are complementary with both companies holding interests in oil and gas and hydrogen projects. Their full combination will create an Australian based exploration and production company with a diversified asset base.**

The petroleum licences located in the Officer Basin in South Australia (**Alinya Project**), of which King holds a 70% interest, are prospective for oil, gas, helium and hydrogen. King has the option to acquire the remaining 30% interest in the Alinya Project on completion of the Offers.

The Board considers the acquisition of King to be highly value accretive for existing and prospective Whitebark securityholders and complementary to Whitebark's existing Warro Gas project and geothermal projects. The acquisition supports the existing portfolio building on the exploration and development of gas as a transition fuel, and the exploration for natural hydrogen supporting Whitebark's strategic direction towards new energy solutions.

Assuming 100% acceptance, King Securityholders who accept the Offers will become part of a larger, diversified mining exploration and production company, with traditional oil and gas assets and a new focus on renewable energy. King Securityholders will become part of a company that intends to capitalise on Australia's energy transition by progressing its investment in geothermal energy projects, hydrogen production and natural gas.

The similarity of Whitebark's assets and King's assets creates the opportunity for numerous synergies, including removal of duplicate overhead costs, corporate fees and charges.

- (c) **You will become a securityholder in Whitebark, and have the opportunity to benefit from strategic benefits, diversity and operational synergies in the Combined Group if the Offers are successful.**

The Alinya Project aligns with Whitebark's strategy to acquire complimentary assets and regenerate its existing asset portfolio.

The Combined Group will have the ability to optimise exploration, production and development activities across its projects due to the synergies that will come from the combination of Whitebark and King.

- (d) **You will have the opportunity to benefit from the cashflow generating capacity of Whitebark, increased market presence, greater liquidity and enhanced funding capability of the Combined Group.**

Whitebark Shares can be traded more freely compared to unlisted King Shares, enabling King Shareholders the ability to easily monetise some or all their investment.

By accepting the Offers, King Securityholders will have exposure to a company with a larger market capitalisation and considerably more share trading liquidity on the ASX. In this respect, as at the closing price on the Last Practicable Trading Day of \$0.008, Whitebark has a market capitalisation of approximately \$2,018,668.

The Combined Group will also have a significantly larger balance sheet compared to King on a standalone basis, which will enhance the Combined Group's ability to attract partners and funding for its current operations and future growth opportunities.

(e) **You will gain full exposure to the Whitebark Board and management team that has a depth of technical experience and operational track record.**

Whitebark's Board, management and technical teams bring a proven track record for advancing acreage and delivering on project milestones. Delivering this outcome could not have been achieved without Whitebark's experienced executive and management team.

Whitebark's Board is highly experienced in oil and gas and geothermal energy and renewable technologies. The experience of Whitebark's Board and management is key to Whitebark's initiative to capitalise on the synergies between geothermal energy and green hydrogen production.

Furthermore, should Whitebark acquire 100% of King, Mr Richard King will be appointed to the Board of Whitebark as an executive director. This enables King Securityholders to benefit from the combination of technical and commercial experience and expertise from both King and Whitebark's board and management.

(f) **The Offers reduce risks associated with remaining a King Securityholder.**

Whitebark believes that the Offers provide compelling value for King Securityholders as well as providing a significantly larger acreage footprint as well as multiple play types, both conventional and unconventional which reduces risks associated with continuing to be an investor in King alone.

If you accept the Offers and the Offers successfully complete, you will have exposure to the projects of the Combined Group and be invested in a company better resourced to realise the potential of the Combined Group's portfolio of projects and investments than either could be on a standalone basis.

However, if you do not accept the Offers, you will remain exposed to the risks and uncertainties associated with being an investor in King, such as potentially dilutive capital raisings to meet King's committed expenditure obligations in respect of its current projects and corporate admin and working capital needs.

(g) **There is a risk that you will be part of the minority if you do not accept the Offers.**

As set out in Sections 12.10 and 12.11, the completion of the Offers are subject to a limited number of Conditions.

Given the limited conditionality of the Offers there is a strong possibility that Whitebark will succeed in reaching the minimum acceptance condition, by acquiring a Relevant Interest in at least 90% of the issued share capital of King, entitling Whitebark to compulsorily acquire the remaining King Shares and King Options.

If Whitebark does not acquire a Relevant Interest in at least 90% of the King Shares it may choose to waive the 90% condition of the Share Offer (provided that, if Whitebark has a Relevant Interest of less than 80% of King, it requires the prior written consent of King).

If Whitebark acquires more than 50.1% but less than 90% of the King Shares, Whitebark will hold a controlling interest in King. The remaining King Securityholders will be in a minority position in a company with a large controlling shareholder whose objectives for the company may differ from their own.

King will likely require additional funding in the immediate term to fund future exploration activities as well as ongoing corporate costs. If some or all of this funding requirement is sought in the form of an equity raising and King Shareholders do not accept the Offers, King Shareholders would likely need to contribute to this equity raise (commensurate with their existing shareholding) to avoid dilution of their respective shareholdings.

Accordingly, King Shareholders could encounter a lower level of liquidity in King Shares than exists today, which may impact the ability of King Shareholders to sell their King Shares without having an adverse impact on the share price received in the sale of those King Shares in future.

(h) **Potential access to CGT scrip for scrip rollover relief (in respect of the Offers only).**

King Securityholders holding their King Shares and/or options on capital account may have access to scrip for scrip rollover relief, in which case they are entitled to disregard any capital gain as a result of accepting the Offers.

Should the Offers be successful and result in Whitebark becoming the holder of 80% or more of the voting shares in King as at the close of the Offer Period, King Securityholders who would otherwise make a capital gain from the disposal of their King Shares and/or options pursuant to the Offers may be able to choose to obtain full scrip for scrip rollover relief.

If scrip for scrip rollover relief is available and is chosen King Securityholders, who would otherwise have made a capital gain on the disposal of their King Shares and/or options under the Offers, all of the capital gain from the disposal may be disregarded.

However, King Securityholders may be subject to capital gains tax as a result of a later taxable event (such as a disposal) happening to the Whitebark Shares and/or options received as consideration under the Offers.

Refer to Section 9 of this Bidder's Statement for further information.

(i) **Additional considerations for King Optionholders**

The Option Offers provide an opportunity for you to realise value for King Options in circumstances where there is otherwise no market for the King Options.

If you do not accept the Option Offers and still wish to exit your investment in your King Options, you would need to exercise your King Options and sell the Shares you receive upon conversion. As a result of the Offers, it is likely that the market for your King Shares will be at a lower level of liquidity which may make it more difficult for you to sell your King Shares and may result in a lower price for your King Shares if you wish to sell them in the future.

(j) **You may not incur brokerage or stamp duty in accepting the Offers**

If you accept the Share Offer or the Option Offers and your King Shares or your King Options are registered in an Issuer Sponsored Holding in your name, you will not incur brokerage on the transfer of your King Shares or your King Options to Whitebark pursuant to the Offers. If you accept the Share Offer and if you are a beneficial owner whose King Shares are registered in the name of a broker, bank, custodian, or other nominee, you should ask your Controlling Participant (usually your broker) or that nominee whether it will charge any transactional fees or service charges in connection with acceptance of the Share Offer. If you sell your King Shares rather than disposing of them via the Share Offer, you may incur brokerage charges (and, potentially, GST on those charges). You will not be required to pay any stamp duty on the disposal of your King Shares or your King Options under the Offers or on the acquisition of Whitebark Shares or Whitebark Options under the Offers.

Full details on how to accept the Offers are set out in Section 12.5.

3. HOW TO ACCEPT THE OFFERS

Please refer to Section 12.5 of this Bidder's Statement and your personalised Acceptance Form (which accompanies this Bidder's Statement) for full details on how to accept either or both of the Offers.

You may accept the Offers at any time during the Offer Period. You may only accept the Offers in respect of ALL of your King Shares and ALL of your King Options of each class, you cannot accept the Offers in part.

Information about which subregister your King Shares are held is shown on your personalised Acceptance Form. Please refer to Sections 12.5 and 12.6 for further details.

4. PROFILE OF WHITEBARK ENERGY LIMITED

4.1 Overview of Whitebark

Whitebark was incorporated on 22 July 1997 and its shares were admitted to trading on ASX under the name 'TranServ Australia Limited' on 10 March 2004.

Whitebark was incorporated as a transport maintenance company concentrating on projects in Western Australia. During this time, it successfully provided transport maintenance services to many sectors within the Australian economy such as the transport manufacturing, agriculture, construction and resource sectors.

Whitebark now operates as a mining production and exploration company with assets in Australia and Canada and has recently shifted focus towards the renewable energy sector. During the last financial year, Whitebark has been seeking to diversify its asset base with a particular focus on investing in a number of new geothermal portfolio opportunities with the goal of becoming the first commercial geothermal producer in Australia. Whitebark's current projects align with its vision to meet future energy demands and support sustainable energy development with a commitment to contributing to Australia's renewable energy targets.

4.1.1 Wizard Lake asset in Canada

At a general meeting of Whitebark Shareholders held on 29 November 2024 (**November General Meeting**), Whitebark's shareholders approved the partial divestment of 90% of Whitebark's interest in its Wizard Lake oil and gas field in the province of Alberta (**Wizard Lake**), to Conflux Energy Corp (**Conflux**). Wizard Lake is a well-established producer with four producing wells, existing oil and gas processing facilities and pipelines to market.

Following receipt of shareholder approval, Whitebark and Conflux are in the process of formalising the completion of the divestment, whereby Whitebark, via its wholly owned subsidiary Rex Energy Limited, will retain a 10% working interest in Wizard Lake.

As per Whitebark's ASX releases dated 14 June 2024 and 3 July 2024, Conflux effectively assumed the role of 'operator' of Wizard Lake immediately upon signing the related sale and purchase agreement.

Under an operator arrangement, Conflux receives all revenue from production at Wizard Lake and distributes such revenue to the joint venture. Conflux provides joint interest billing statements outlining Whitebark's share of revenue, operating costs and royalties from production ('net revenue') each month.

The operator arrangement and continued partnership with Conflux ensured that Whitebark benefitted from a 'free carry' on all expenditures related to returning Wizard Lake wells to production in July 2024, and allowed the wells to return to production after several months of closure.

The Wizard Lake asset continues to demonstrate robust production levels, contributing to Whitebark's overall output. Whitebark's share of production in the Wizard Lake asset will be retained on completion of the divestment and will contribute to providing a steady stream of revenue for the company.

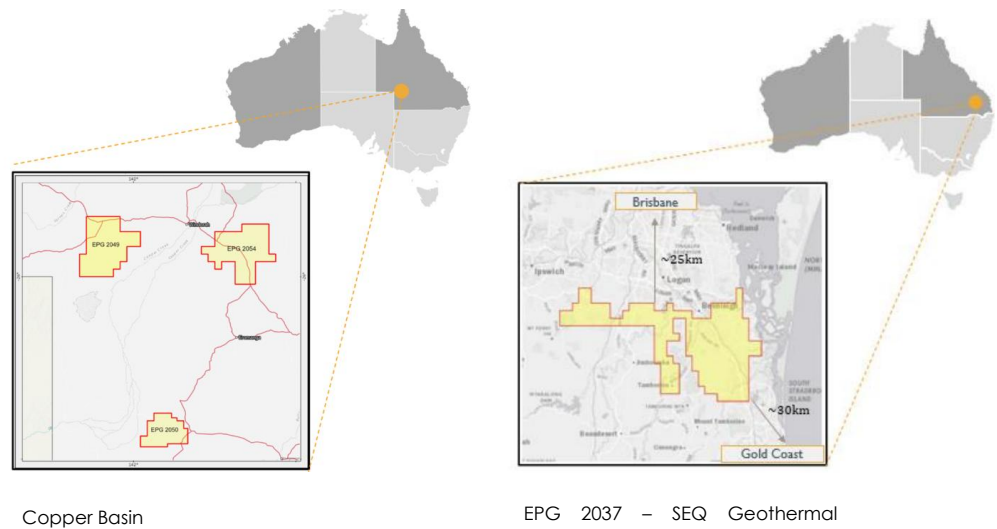

4.1.2 Warro Gas Project

In Western Australia, through wholly owned subsidiary, Latent Petroleum, Whitebark holds a 100% working interest in the 4.4-11.6tcf undeveloped Warro Gas Project, about 200km north of Perth.

The Warro Gas Project was put into care and maintenance in 2018, and remains in care and maintenance awaiting Government guidance on the regulatory changes to be made to implement the recommendations of the Western Australian Government's fracking inquiry. All necessary work to maintain the regulatory compliance of the Warro Gas Project (well inspections, soil and water sample analysis) continues to be conducted along with the administration of the title (fees, insurance, lease access costs and rates). The Whitebark Directors continue to assess opportunities for the Warro Gas Project to determine whether it is to be retained or divested to focus on other core projects.

4.1.3 South-West Queensland Project

Whitebark holds 100% interest in a suite of four Exploration Permits for Geothermal Energy (EPGs) located in Southwest Queensland (**South-West Queensland Project**). The company's recent acceptance of EPG2054 in the Cooper Basin expanded Whitebark's geothermal acreage to approximately 10,113 square kilometres, further solidifying Whitebark's position as a prospective leader in Australia's emerging geothermal market.

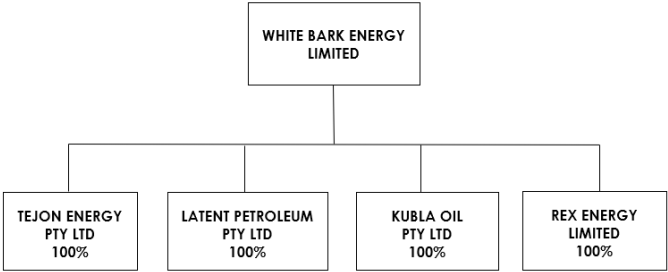

The addition of EPG2054 further consolidates Whitebark's geothermal asset portfolio that supports Whitebark's vision for hydrogen production using geothermal energy.

Whitebark's ambition to become a key player in the hydrogen economy is centred around the development of the South-West Queensland Project, where it is proposed that geothermal energy will be harnessed to produce hydrogen. The company's hydrogen commercialisation strategy aligns with Australia's growing commitment to hydrogen as a renewable energy source for the future.

The South-West Queensland Project add strategic value to Whitebark's asset portfolio, placing the company in an advantageous position to capitalise on both domestic and international hydrogen markets.

4.2 Corporate Structure

The corporate structure of Whitebark is shown in the diagram below:

Each of the subsidiaries shown above are wholly owned by Whitebark.

The current Constitution was adopted on 3 July 2017 and was amended by special resolution of Whitebark Shareholders at Whitebark's annual general meeting held on 11 November 2019.

4.3 Overview of Whitebark's Activities

This Section 4.3 contains a summary of Whitebark's activities. Further information on Whitebark can be obtained from Whitebark's website www.whitebarkenergy.com.

South-West Queensland Operations

Whitebark is continuing to consider opportunities to expand its geothermal asset portfolio, which currently comprises four EPG's in Sout-West Queensland - EPG 2037, EPG 2049, EPG 2050 and EPG 2054.

Whitebark believes that these assets will allow the company to develop Australia's first geothermal energy-to-hydrogen project and subsequently represents an opportunity to validate the use of geothermal energy to produce hydrogen, similar to other projects that are successfully being commissioned internationally.

Budget focus for the Sout-West Queensland Project in the short term will be to continue to undertake geological modelling and resource assessment with a goal to arrive at a final investment decision for initial operations in the second half of the 2025 financial year.

Canadian Operations - Wizard Lake – (Whitebark 10% WI)

Whitebark continued to work with Conflux to develop the Wizard Lake Project in Alberta, Canada during the September 2024 quarter after the wells were brought back online by Conflux following a period of closure.

Whitebark is currently completing the formal process to further monetise the Wizard Lake asset via a divestment to Conflux, which is described in further detail in Section 4.1.1 above.

Western Australian Operations - Warro Gas Project (Whitebark WI 100%)

The Whitebark Board approved a realignment of the utilisation of the Warro Gas Project as a potential renewable energy project, which aligns with the broader renewable energy targets of Western Australia. The Warro Gas Project is located in an ideal location for a renewable energy project, with the potential for multiple streams of energy to be able to be extracted from the location.

Budget focus for the Warro Gas Project in the over the in the short term will be to meet the current compliance requirements set by the Department of Energy, Mines, Industry Regulation and Safety for the existing retention licence and developing a work program to review renewable energy options for the site including gas production for beneficial use.

In addition, the Environmental Plan for Warro was submitted for approval on 16 July 2024.

(c) **Management Commentary on Historical Results**

(i) **(Assets):**

Non-current assets (or disposal groups) are classified as held for sale and measured at the lower of their carrying amount and fair value less costs of disposal if their carrying amount will be recovered principally through a sale transaction. They are not depreciated or amortised. For an asset to be classified as held for sale, it must be available for immediate sale in its present condition and its sale must be highly probable.

An impairment loss is recognised for any initial or subsequent write-down of the asset (or disposal group) to fair value less cost of disposal. A gain is recognised for any subsequent increases in fair value less cost of disposal of an asset (or disposal group) but not in excess of any cumulative impairment loss previously recognised. A gain or loss not

previously recognised by the date of the sale of the non-current asset (or disposal group) is recognised at the date of derecognition. On 28 August 2023, Wizard Lake was deliberately shut-in with the planned mitigation measures for each well and cost estimates to return to optimal production. In November 2023, Whitebark announced it had entered into a formal process to explore the monetisation of all or part of the wholly owned Wizard Lake assets held by its wholly owned Canadian subsidiary company, Rex Energy Ltd. The process resulted in a number of bids for the assets. On 14 June 2024, Whitebark announced it has executed a Purchase and Sale Agreement which will allow Conflux Energy Corp. to purchase a 90% interest in the Wizard Lake assets. The transaction is subject to shareholder approval in a general meeting. In July 2024, production from all four wells were successfully recommenced.

The value of the Wizard Lake assets have been revalued and impaired downwards in line with the highest of the third party, independent non-binding offers made. This revaluation is recorded in the Canada segment of the business. Should the sale process not proceed, the Whitebark Directors reserves its right to take other courses of action including engaging with other parties in respect of the asset's monetisation and reactivating production in the field.

Total property, plant and equipment transferred to assets held for sale as at 30 June 2024 was \$3,242,090.

(ii) **(Liabilities):**

Whitebark's decommissioning result from its ownership interest in oil and natural gas well sites and facilities. Total decommissioning obligation is estimated based on estimated costs to reclaim and abandon these wells and facilities and the estimated timing of costs to be incurred in future years.

The provision at reporting date represents management's best estimate of the present value of the future decommissioning costs required. Total decommissioning obligations transferred to Liabilities directly associated with assets held for sale was \$997,790.

(iii) **(Results):**

4.6 Forecast Information

- (a) Abiotic source rocks for both white hydrogen and natural helium are present. Significantly, the uranium / thorium / iron rich Hiltaba granite (likely the source for the Ramsay-1 and -2 discoveries (ASX:GHY) outcrops immediately adjacent to the Alinya Project.
- (b) Thick (>100m) regionally extensive salt seals critical for effective long-term storage are present at multiple levels.
- (c) Conventional sandstone reservoirs are present at multiple levels – thick (>100m), high net to gross, high porosity and permeability.
- (d) Late-stage tectonic uplift, critical to exsolution (advection) process for hydrogen and helium release in the free-gas phase. Helium and hydrogen are confirmed present in the Officer Basin and in PEL-81 from FIS and DST.

6.4 Alinya Project - Prospective Resources

Rickerscote gas (hydrogen/helium/Hydrocarbon) and liquids volumes are presented below in Table 1. The Milford and Milford East prospects, which are of similar size to Rickerscote also hold significant follow-up potential.

	Low Estimate (P90)	Best Estimate (P50)	High Estimate (P10)
Hydrogen (Kg)	67 Million	710 Million	4.1 Billion
+			
Helium (Bcf)	17	97	499
+			
Hydrocarbons (mmboe)	47	153	500

Table 1: Rickerscote Prospect Recoverable Volumes Estimate²

Due to the strength of the geological model, the probability of success at the Rickerscote prospect is currently estimated to be >20%. Given success and due to the conventional nature of the reservoir system, at P50 volumes and current resource prices, the probability of development is considered probable with a 50% likelihood.

6.5 Qualified Petroleum Resources Evaluator Statement

The information in this document relating to resources is based on, and fairly represents, information and supporting documentation compiled by Mr Stuart King, a director of King. Mr King is a Petroleum Geologist and has a Bachelor of Science in Geology and Geography (Hons) from the University of Western Australia and a Masters of Business Administration in Oil & Gas Management from Robert Gordon University. He is a member of the Society of Petroleum Engineers (SPE), the American Association of Petroleum Geologists (AAPG), the South East Asian Petroleum Exploration Society (SEAPEX) and the Australian Geothermal Association (AGA) and has 25 years' experience in the industry in exploration, appraisal, field development planning, reserves and resources assessment, commercial valuations and business development. Mr King consents to the inclusion in this Bidder's Statement of the estimated prospective resources and the supporting information in the form and context in which it is presented.

6.6 Option to acquire remaining 30% of Officer Energy

King issued a 30% shareholding in Officer Energy to Mulgowrie Capital Ltd ATF the Valentina Valentine Family Trust, Jonathan Jenkins, and Fish Funds NZ Limited ATF the Fish Funds NZ Trust (together, the **Elpis Vendors**) in part consideration for Officer Energy acquiring Elpis Resources from the Elpis Vendors on 5 April 2023.

King, the Elpis Vendors and Officer Energy are parties to a shareholders' agreement that governs the activities of Officer Energy and the Alinya Project (**Shareholders Agreement**). King controls the operations of the Alinya Project and has an option to acquire the remaining 30% of Officer Energy from the Elpis Vendors (**Officer Energy Option**).

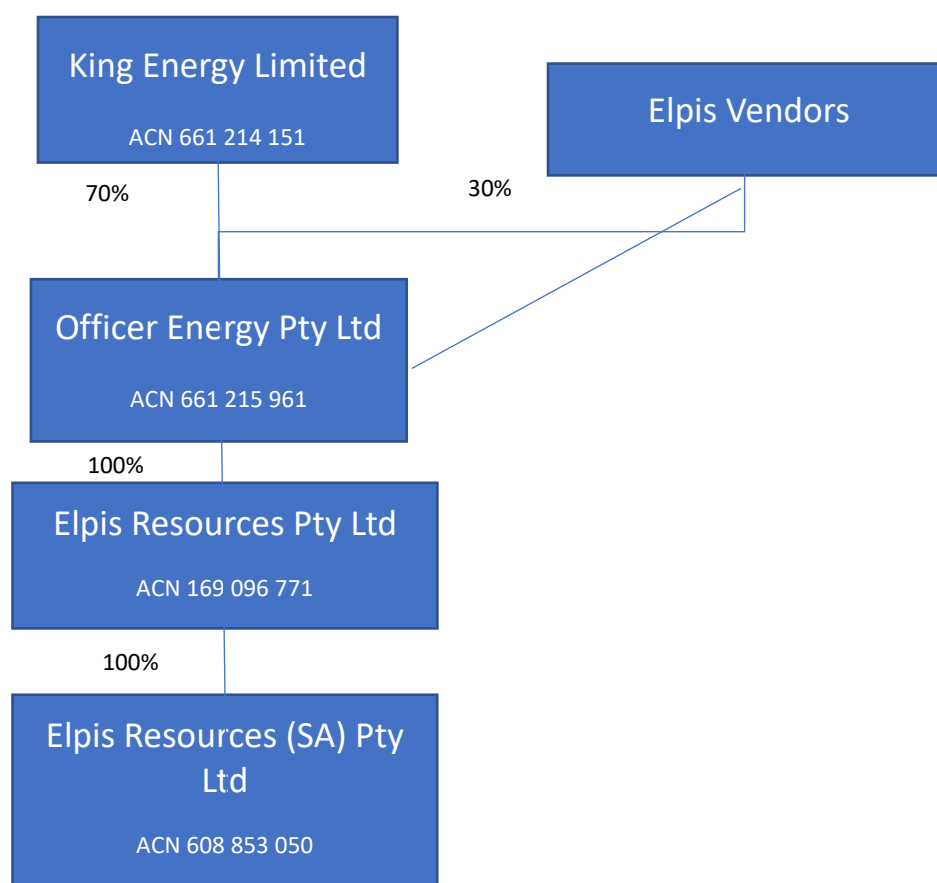

Upon Whitebark acquiring 100% of King Shares and King Options, and subject to the Alinya Project permits PELs 81 and 253 being in good standing with no outstanding payments owed to the Maralinga Tjarutja (MT) People, King is required, no later than 31 October 2025, to exercise the Officer Energy Option to acquire the remaining 30% shareholding in Officer Energy from the Elpis Vendors, with the result that King will indirectly holding 100% of the Alinya Project.

The consideration payable for King acquisition of the final 30% shareholding will be the issue of 2,955,000 Whitebark Shares (**Officer Energy Consideration Shares**) and 2,955,000 Whitebark Options to the Elpis Vendors (**Officer Energy Consideration Options**). Together, the Officer Energy Consideration Shares and Officer Energy Consideration Options are referred to as the **Officer Energy Consideration Securities**.

² The Prospective Resource estimates presented above are prepared as at 1 December 2024. The estimates have been prepared by King Energy in accordance with the definitions and guidelines set forth in the Petroleum Resources Management System, 2018, approved by the Society of Petroleum Engineers. The Prospective Resource estimates are un-risked and have not been adjusted for either an associated chance of discovery or chance of development. They are net after royalties and net to King Energy (at 70%) and have been determined via probabilistic methods and for hydrogen and helium volumes using analogue data from the Amadeus Basin (11.5% H₂ and 9% He) and the Yorke Peninsula (89% H₂ and 11% He at the Ramsay-1 well field, and 75% H₂ and 25% He at the Ramsay-2 well). Stacked reservoir volumes have been aggregated via arithmetic summation and gas volumes (bcf) have been converted to liquid volumes (mmboe) using a conversion factor of 5.8 bcf per mmboe.

7. RATIONALE FOR THE OFFERS AND INTENTIONS OF WHITEBARK

7.1 Introduction

The intentions of Whitebark in relation to King are set out in this Section of the Bidder's Statement. Those intentions have been formed on the basis of facts and information concerning King, and the general business environment, which are known at the time of preparing this Bidder's Statement. Final decisions will only be reached by Whitebark in light of material information and circumstances at the relevant time. Accordingly, the statements set out in this section are statements of current intention only and may vary as new information becomes available or circumstances change.

7.2 Disclaimer Regarding Forward-Looking Statements

This Bidder's Statement includes forward-looking statements that have been based on Whitebark's current expectations and predictions about future events including Whitebark's intentions (which include those set out in this Section 7). These forward-looking statements are, however, subject to inherent risks, uncertainties and assumptions that could cause actual results, performance or achievements of Whitebark, King and the Combined Group to differ materially from the expectations and predictions, expressed or implied, in such forward-looking statements. These factors include, among other things, those risks identified in Section 10 of this Bidder's Statement.

None of Whitebark, its officers, nor persons named in this Bidder's Statement with their consent or any person involved in the preparation of this Bidder's Statement makes any representation or warranty (express or implied) as to the accuracy or likelihood of any forward looking statements. You are cautioned not to place reliance on these statements in the event that the outcome is not achieved. These statements reflect views and opinions as at the date of this Bidder's Statement.

7.3 Rationale for the Offers

Whitebark believes that there are a number of key strategic and financial benefits that will arise from the successful acquisition of King by Whitebark. These include:

- (a) strategic access to one of Australia's largest onshore white hydrogen, helium, and hydrocarbon projects in the Alinya Project, significantly enhancing its current asset base and adding to Whitebark's clean energy portfolio;
- (b) King's business and management team brings over 50 years of energy commercialisation expertise to the Whitebark team;
- (c) the transaction offers Whitebark shareholders a highly attractive entry point into a major resource opportunity, with substantial potential for long-term value creation upon successful resource discovery;
- (d) the alignment of the interests of the two shareholder groups into a like-minded, single group of shareholders;
- (e) the ability to consolidate human, technical and financial resources; and
- (f) the reduction of corporate overheads and duplicated roles.

7.4 Whitebark's Intentions Regarding King as a Wholly Controlled Entity

This Section 7.4 describes Whitebark's intentions if Whitebark acquires a Relevant Interest in 90% or more of the King Shares so as to become entitled to proceed to compulsory acquisition of the outstanding King Shares in accordance with Part 6A.1 of the Corporations Act. Whitebark intends (based on the information currently available to it) to implement its strategy for the Combined Group as set out below.

(a) Acquisition of 100% interest in Alinya Project

Upon Whitebark acquiring 100% of King Shares and King Options, and subject to the Alinya Project permits PELs 81 and 253 being in good standing with no outstanding payments owed to the Maralinga Tjarutja (MT) People, King is required, no later than 31 October 2025, to exercise the Officer Energy Option to

acquire the remaining 30% shareholding in Officer Energy from the Elpis Vendors, with the result that King will indirectly holding 100% of the Alinya Project.

Following satisfaction of the above conditions, Whitebark intends to procure that King exercises the Officer Energy Option to acquire 100% in the Alinya Project.

Refer to Section 6.6 for further information with respect to the Officer Energy Option.

(b) **Exploration plan**

Whitebark will immediately commence its exploration plan for the Alinya Project, which includes the acquisition of a soil geochemistry survey using the most recently developed monitoring technology to assess ground soil presence of hydrogen and helium, followed by 250km of modern, 2D seismic infill across the Rickerscote and potentially the Milford prospect to finalise drilling locations (see Figure 2 in Section 6.3). Whitebark is aiming to commence field operations in Q1 2025, followed by planned exploration drilling at the Alinya Project in Q1 2026.

(c) **Strategic review**

Subject to what is disclosed elsewhere in this Section 7, Whitebark intends to undertake a detailed review of King's activities, assets and liabilities to evaluate their prospects, strategic relevance, funding requirements and financial performance. This may lead to modification of some of King's existing projects and activities. This strategic review will provide the main platform for Whitebark to identify and assess the specific areas that may provide benefits to Whitebark and the expected costs and time frames.

(d) **Corporate matters**

Whitebark intends to:

- (i) if entitled to do so, proceed with the compulsory acquisition of any King Shares not acquired under the Offers and any other King Securities on issue which it is entitled to compulsorily acquire in accordance with Part 6A.1 of the Corporations Act;
- (ii) consider proceeding with the compulsory acquisition of any King Options which have not been exercised and that have not expired or lapsed. Alternatively, Whitebark may pursue other arrangements to acquire those King Options; and
- (iii) amend King's constitution to reflect King's status as a wholly owned subsidiary of Whitebark and seek to convert King from a public company to a proprietary company.

(e) **Composition of the King Board**

Whitebark intends to replace some or all of the members of the board of directors of King with a board structure and directors appropriate for a wholly owned subsidiary. In accordance with the Bid Implementation Agreement, as soon as practicable after Whitebark has a Relevant Interest in more than 90% of the King Shares and the Offers become or are declared unconditional, King must take all actions necessary to ensure the resignation and appointment of directors of King such that a majority of the directors of King are directors nominated by Whitebark in writing, but provided that a minimum of two of the existing King Board remain, a proper board is constituted at all times and that Whitebark procures that its appointees to the King Board do not participate in decisions of King in relation to the takeover bids until after the End Date and a quorum remains for that purpose. The Whitebark nominees have not yet been identified and their identity will depend on the circumstances at the relevant time.

In addition, it is Whitebark's current intention, in the event that the Offers are successful, to seek to reflect in the organisation structure of the Combined Group, King personnel whose skills are highly regarded and who have extensive knowledge of King's assets.

(f) **Corporate office and employees**

Subject to the strategic review, Whitebark intends to continue to conduct the King business. Whitebark will, however, consider centralising the corporate head office of King by incorporating those functions performed by it into the administrative structure of Whitebark. It is proposed that functions such as company secretarial, financial management and accounting will be centralised. It is intended that the centralised corporate office will be in Perth, Western Australia.

As a result of the implementation of Whitebark's intentions, some of King's employees may undertake functions that will be centralised in the Combined Group. Some job losses may occur as a result, however, the incident, extent and timing of such job losses cannot be predicted in advance. Whitebark intends to discuss employment arrangements with the existing personnel of King.

(g) **General business integration**

As part of the strategic review, Whitebark intends to undertake a specific review of:

- (i) King's assets and liabilities; and
- (ii) the possible synergies and benefits between Whitebark and King.

Whitebark intends to prepare a business integration plan and implement that plan.

(h) **Accounting policy**

Whitebark intends to conduct a review of King's accounting policies. It is expected that this review will result in the adoption of Whitebark's accounting policies.

7.5 Whitebark's Intentions Regarding King as a Part Owned Entity

Whitebark reserves the right to declare the Offers free from the 90% minimum acceptance condition (or any other condition) provided that, if Whitebark has a Relevant Interest of less than 80% of King, it requires the prior written consent of King to waive the 90% minimum acceptance condition. However, Whitebark has not decided whether it will free the Offers from any conditions.

For the avoidance of doubt, if Whitebark obtains less than an 80% Relevant Interest in King Shares, it will not be able to waive the 90% minimum acceptance condition without the consent of King.

This Section 7.5 describes Whitebark's intentions if, on completion of the Offers, Whitebark holds a sufficient number of King Shares to exercise control over the management and operations of King, but is not entitled to compulsorily acquire all outstanding King Shares.

Whitebark may continue acquiring King Shares in reliance on the '3% creep' exception in item 9 of section 611 of the Corporations Act following completion of the Offers.

King Shareholders should be aware that, in this circumstance, the liquidity of King Shares may be materially decreased.

It is possible that, even if Whitebark is not entitled to proceed to compulsory acquisition of outstanding King Shares under Part 6A.1 of the Corporations Act, it may subsequently become entitled to exercise rights of general compulsory acquisition under Part 6A.2 of the Corporations Act. If so, it intends to exercise those rights.

(a) **General**

Whitebark will implement the intentions described in Section 7.4 above to the extent that it is economically feasible and subject to the requirements of the Corporations Act and any other applicable laws or regulations. These intentions specifically include those in respect of strategic review, corporate matters, corporate office and employees and general business integration.

(b) **Composition of the King Board**

Upon completion of Whitebark's proposed acquisition of King, it is intended that:

- (i) Mr Richard King of King will be appointed to the Board as an Executive Director; and
- (ii) no less than two of the existing Board directors will remain appointed to the Board.

(c) **Elimination of duplication**

To the extent that activities and functions, including management, presently carried out by Whitebark and King will be duplicated, such duplication will be eliminated where it is economically efficient to do so.

(d) **Remaining King Securityholders**

If Whitebark acquires less than 90% but more than 50% of the King Shares on issue, then King Securityholders should be aware that if they do not accept the Offers they may become a "locked-in" minority after the end of the Offer Period (i.e. if Whitebark holds a majority of King Shares but is not entitled to compulsorily acquire the remaining King Shares).

(e) **Dividends and Funding**

King does not currently pay dividends. The payment of dividends by King is at the discretion of the King Board, the majority of which will comprise Whitebark's nominees. Whitebark has not formed an intention about retaining or varying the current dividend policy of King (through its nominee's on the board of King), and will do so when the strategic review in Section 7.4(a) is completed.

(f) **Limitations in Giving Effect to Intentions**

There may be limitations to Whitebark's intentions as outlined in this Section 7.5 due to the legal obligations of the directors of King to have regard to the best interests of King and its securityholders, including the rights of minority securityholders, and the requirements of the Corporations Act, other applicable laws, and ASX Listing Rules relating to transactions between related parties. Whitebark may require legal and/or financial advice before deciding what action to take in connection with the intentions outlined in this Section 7.5.

7.6 Other Intentions

Subject to the matters described above in this Section 7, it is the present intention of Whitebark (based on the information presently available to it) to:

- (a) continue to hold the key assets of King and not to redeploy its fixed assets;
- (b) substantially continue to conduct King's business in its current manner;
- (c) subject to the strategic review, not make any major changes to the business or assets of King and not redeploy any of the fixed assets of King; and
- (d) continue the employment of retained employees of King.

8. EFFECT OF THE OFFERS ON WHITEBARK AND PROFILE OF THE COMBINED GROUP

8.1 Approach

This Section 8 provides an overview of Whitebark and its subsidiaries following the acquisition by Whitebark of all, or a portion of the King Shares on issue, in various scenarios following the Offers, and the effect of the Offers on Whitebark and King if the Offers are successful.

If Whitebark does not acquire at least 90% of the King Shares during the Offer Period, and therefore does not become entitled to compulsorily acquire the remainder of the King Shares, some of the benefits that would otherwise accrue to Whitebark if King were to become a wholly-owned subsidiary of Whitebark may not be fully realised.

8.2 Disclaimer Regarding King and the Combined Group Information

In preparing the information relating to King and the Combined Group contained in this Bidder's Statement, Whitebark has relied on publicly available information relating to King which has not been independently verified by Whitebark or its Directors. Risks may exist in relation to King (which may affect the Combined Group) of which Whitebark is unaware. If any material risks are known to the directors of King, they must be disclosed in the Target's Statement to be issued by King.

Accordingly, subject to any applicable laws, Whitebark makes no representations or warranties (express or implied) as to the accuracy and completeness of such information.

8.3 Profile of the Combined Group

If the Offers are successful, King Securityholders will receive Whitebark Securities in exchange for their King Securities. If Whitebark is successful in obtaining effective control of King, all of the Whitebark Securityholders (including King Securityholders who have received Whitebark Securities pursuant to the Offers) will be Securityholders in the Combined Group.

Whitebark believes that there are a number of key strategic and financial benefits that will arise from the successful acquisition of King by Whitebark. These include:

- (a) rationalisation of future decision-making processes in relation to the Combined Group and its prospective assets;
- (b) the potential improvement of the efficiency and timeliness in the development of the assets of the Combined Group to maximise shareholder value by accelerating exploration and development;
- (c) King's technical resources will supplement and enhance Whitebark's technical and operational capabilities;
- (d) the alignment of the interests of the two shareholder groups into a like-minded, single group of Securityholders; and
- (e) the reduction of corporate overheads and duplicated roles.

8.4 Effect of Completion of the Offers on Whitebark's Capital Structure

There are a range of factors that may impact the number of Whitebark Securities that will be on issue following completion of the Offers, including the number of acceptances of the Offers, the number of unlisted securities exercised during the Offer Period (if any), and the number of Whitebark Shares and Whitebark Options otherwise issued by Whitebark during the Offer Period (if any).

Assuming that:

- (a) the Officer Energy Option is exercised;
- (b) the maximum subscription of \$3,000,000 is achieved under the Placement;
- (c) the Offers are accepted in respect of all King Shares and King Options on issue as at the date of this Bidder's Statement; and

- (d) no Whitebark Shares or Whitebark Options are issued prior to the Consideration being provided to all King Securityholders who have accepted the Offers,

approximately 100,000,000 new Whitebark Shares and 100,000,000 new Whitebark Options will be issued to King Securityholders, resulting in the number of Whitebark Shares on issue increasing to approximately 816,866,933 on an undiluted basis and 1,328,766,619 on a fully diluted basis. The number of Whitebark Options on issue would increase to approximately 476,483,020.

On completion of the Offers, King Shareholders will hold approximately 12.24% of the total number of Whitebark Shares on issue (on an undiluted basis). Furthermore, assuming all new Whitebark Options issued under the Offers are exercised, King Shareholders will hold up to a 15.05% interest in Whitebark (on a fully diluted basis).³

A summary of the capital structure of the Combined Group on completion of the Offers based on the assumptions set out above, is set out in the tables below.

TOTAL WHITEBARK SECURITIES	NUMBER
Whitebark Shares	252,333,471
Whitebark Unlisted Options ¹	142,718,789
Whitebark Convertible Notes ²	425,000
Officer Energy Consideration Shares ³	2,995,000

Whitebark Option consideration	100,000,000
TOTAL UNDILUTED	816,866,933
TOTAL DILUTED²	1,328,766,619

Notes:

1. Refer to table below for further details of Whitebark Options proposed to be issued in connection with the Offers or prior to completion of the Offers.
2. Assuming 35,416,667 Whitebark Shares would be issued on conversion of 425,000 Whitebark Convertible Notes (assuming a conversion price per Whitebark Share of \$0.012 for each Whitebark Convertible Note).
3. To be issued on exercise of the Officer Energy Option. Refer to Section 6.6 for further information with respect to the Officer Energy Option.
4. Assuming that the maximum amount of \$3,000,000 is raised under the Placement. If the minimum subscription is raised (being \$2,000,000, then 307,692,308 Whitebark Placement Shares and 153,846,154 Whitebark Placement Options will be issued). Refer to Section 5.1 for further information.

WHITEBARK OPTIONS	NUMBER
WBEAO Unlisted Options exercisable at \$0.03 on or before 28 March 2027	45,000,000
WBEAN Unlisted Options exercisable at \$0.03 on or before 01 January 2027	38,349,950
WBEAK Unlisted Options exercisable at \$0.15 on or before 30 November 2025	600,000
WBEAI Unlisted Options exercisable at \$0.20 on or before 23 May 2025	12,498,189

³ These calculations assume that the Officer Energy Option is exercised and 461,538,462 Whitebark Placement Shares and 230,769,231 Whitebark Placement Options are issued under the Placement prior to or immediately following completion of the Offers.

WHITEBARK OPTIONS	NUMBER
WBEAP Listed Options exercisable at \$0.03 on or before 01 January 2027 (Restricted)	4,739,817
Unlisted Options exercisable at \$0.03 on or before 01 January 2027	41,530,833
New class to be confirmed: Unlisted Options exercisable at \$0.05 on or before the date that is 5 years following the date of issue	102,995,000
New class to be confirmed: Unlisted Options exercisable at \$0.015 on or before the date that is 2 years following the date of issue	230,769,231
TOTAL	476,483,020

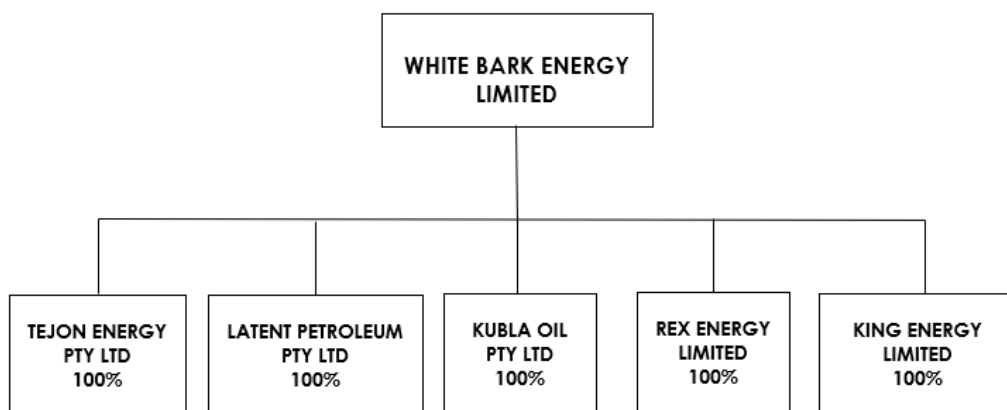

The above scenario is an example only and is not the only scenario that may eventuate.

The Share Offer extends to any person who becomes registered as a holder of King Shares during the period from the Register Date until the end of the Offer Period, due to the exercise of King Options that are on issue at the Register Date.

If all King Options were exercised into King Shares (an aggregate of 30,000,000 King Shares) during the Offer Period and the holders of those options accepted the Share Offer, an additional 50,682,216 Whitebark Shares would be issued, resulting in a total of 867,549,149 (undiluted) Whitebark Shares being on issue on completion of the Placement, exercise of the Officer Energy Option and completion of the Offers. As the King Options are out of the money as at the date of this Bidder's Statement, Whitebark does not currently anticipate that these additional Whitebark Shares will be issued.

8.5 Corporate Structure of the Combined Group

If the Offers are successful and Whitebark acquires all King Shares and King Options on issue, the corporate structure of the Combined Group will be as shown in the diagram.

8.6 Basis for Preparation of the Pro Forma Financial Information

The pro forma balance sheet as at 30 June 2024 set out below (**Pro Forma Balance Sheet**) has been prepared for illustrative purposes only and on the assumption that the acquisition of the ownership interest in King occurred on one day, that is, there are no staged acquisitions.

The Pro Forma Balance Sheets have been prepared assuming two scenarios, being that Whitebark acquires 100% of King and that Whitebark acquires 50.1% of King.

The Pro Forma Balance Sheet has been prepared in accordance with the measurement and recognition principles of International Financial Reporting Standards.

The Pro Forma Balance Sheet has not been audited and may be subject to changes arising from an audit process if an audit was performed on them. The audit reviewed balance sheet of King as at 30 June 2024 and audited consolidated balance sheet of Whitebark as at 30 June 2024 are also presented below.

The Pro Forma Balance Sheet is indicative only. Whitebark has drawn its own conclusions based on the known facts and other publicly available information.

This Section should be read in conjunction with the underlying financial information from which it was extracted, and the accounting policies of Whitebark and King as disclosed in their most recent financial reports.

8.7 Outlook for the Combined Group

This Bidder's Statement does not include any financial forecasts or projections for revenue or profit in relation to Whitebark, King or the Combined Group.

Whitebark has given careful consideration as to whether there is a reasonable basis to produce reliable and meaningful forecast financial information for the Combined Group. The Whitebark Directors have concluded that as at the date of this Bidder's Statement, it would be misleading to provide forecast financial information for the Combined Group.

9. AUSTRALIAN TAX CONSIDERATIONS

9.1 Overview

The following is a general summary of the Australian income tax, GST and duty considerations for King Shareholders who accept the Offer.

This summary does not provide an exhaustive consideration of all possible Australian income tax, GST and duty implications that could apply to King Shareholders who accept the Offer. Furthermore, this summary does not consider any tax implications in jurisdictions outside of Australia.

Only King Shareholders who are individuals, trusts, complying superannuation funds and corporate shareholders that hold their King Shares on capital account have been considered in this summary. This summary is not intended to cover King Shareholders who:

- (a) are exempt from Australian income tax;
- (b) hold their King Shares on revenue account or as trading stock;
- (c) acquired their King Shares for the purpose of resale at a profit;
- (d) are partnerships or persons that are partners of such partnerships;
- (e) acquired their King Shares under an employee share scheme or similar employee incentive plan;
- (f) are subject to the taxation of financial arrangements rules in Division 230 of the Income Tax Assessment Act 1997 in relation to gains and losses on their King Shares; or
- (g) are subject to the 'Investment Manager Regime' under Subdivision 842-I of the Income Tax Assessment Act 1997 in respect of their King Shares.

This summary does not constitute tax advice and is intended only as a general guide to the Australian tax implications of accepting the Offers based upon Australian taxation law and administrative practice in effect as at the date of this Bidder's Statement. It does not consider any specific facts or circumstances that may apply to King Shareholders. As the tax consequences of accepting the Offers depend on each King Shareholder's individual circumstances, all King Shareholders are advised to seek independent professional advice regarding the Australian and foreign tax consequences of accepting the Offers according to their own particular circumstances.

9.2 Australian Tax Resident Shareholders

This Section 9 applies to King Shareholders who accept the Offers and are residents of Australia for Australian income tax purposes that hold their King Shares on capital account.

(a) Capital Gains Tax Event

By accepting the Offer, King Shareholders will dispose of their King Shares and/or Options to Whitebark in exchange for the Consideration Shares and/or Options, comprising Whitebark Shares and/or Options. The disposal of the King Shares and/or Options to Whitebark will give rise to a CGT event. The time of the CGT event should be the date the King Shares and/or Options are disposed of, which will be the date that King Shareholders enter into a contract with Whitebark.

If a King Shareholder does not accept the Offers and their King Shares are compulsorily acquired in accordance with Part 6A.1 of the Corporations Act, the date of disposal for CGT purposes will be the date when Whitebark becomes the owner of the King Shares.

In the absence of CGT roll-over relief, the following tax consequences are expected to arise for King Shareholders accepting the Offer:

- (i) a capital gain will be made to the extent the capital proceeds received by King Shareholders from the disposal of their King Shares and/or Options (being the market value of the Whitebark Shares) exceed the cost base of those King Shares; or

- (ii) a capital loss will be made to the extent the capital proceeds received by King Shareholders from the disposal of their King Shares and/or Options are less than the reduced cost base of those shares.

(b) **CGT Scrip for Scrip Roll-over Relief**

King Shareholders who make a capital gain from the disposal of their King Shares and/or Options may be eligible to choose CGT scrip for scrip roll-over relief (provided certain conditions are met). CGT scrip for scrip roll-over relief enables King Shareholders to disregard the capital gain they make from the disposal of their King Shares and/or Options under the Offer.

Broadly, for roll-over relief to be available, Whitebark must become the owner of 80% or more of the King Shares under the Offers and King Shareholders must make a capital gain on the disposal of their King Shares and/or Options. If a capital loss arises, no CGT scrip for scrip roll-over relief is available.

King Shareholders do not need to inform the ATO, or document their choice to claim CGT scrip for scrip roll-over relief in any particular way, other than to complete their income tax return in a manner consistent with their choice.

(c) **Consequences of Choosing CGT Scrip for Scrip Roll-over Relief**

If a King Shareholder chooses to obtain CGT scrip for scrip roll-over relief, the capital gain arising on the disposal of their King Shares and/or Options under the Offers should be disregarded.

Further, the first element of the cost base for the Whitebark Shares received is determined by attributing to them, on a reasonable basis, the existing cost base of the King Shares exchanged under the Offer. The first element of the reduced cost base is determined similarly.

Finally, for the purposes of determining future eligibility for the CGT Discount, the acquisition date of the Whitebark Shares and/or Options is taken to be the date when the King Shareholder originally acquired their King Shares.

(d) **Consequences if CGT Scrip for Scrip Roll-over Relief is not available or is not chosen**

If a King Shareholder does not qualify for CGT scrip for scrip roll-over relief or does not choose to obtain CGT scrip for scrip roll-over relief, the general CGT treatment outlined above at Section 9.2(a) will apply.

(e) **Capital Proceeds**

The capital proceeds on the disposal of the King Shares should be equal to the market value of the Consideration Shares received by King Shareholders, at the time of the disposal (or change of ownership where there is no disposal contract).

(f) **Cost Base and Reduced Cost Base of a King Share**

The cost base of a King Share will generally be equal to the cost of acquiring the King Share, plus any incidental costs of acquisition and disposal (such as brokerage fees and legal costs). The reduced cost base of a King Share is determined in a manner similar to the cost base although some differences in the calculation of the reduced cost base may exist depending on the King Shareholder's particular individual circumstances. The cost base and reduced cost base of each King Share will depend on the individual circumstances of each King Shareholder.

(g) **CGT Discount**

The CGT Discount may apply to King Shareholders that are individuals, complying superannuation funds or trusts, who have held, or are taken to have held, their King Shares for at least 12 months (not including the date of acquisition or the date of disposal) at the time of the disposal of their King Shares.

The CGT Discount is:

- (i) one-half if the King Shareholder is an individual or trust; meaning only 50% of the capital gain will be included in assessable income of the shareholder; and
- (ii) one-third if the King Shareholder is a trustee of a complying superannuation entity; meaning only two-thirds of the capital gain will be included in assessable income of the shareholder.

The CGT Discount is not available to King Shareholders that are companies.

If a King Shareholder makes a discount capital gain, any carried forward capital losses will be applied to reduce the undiscounted capital gain before either the one-half or one-third discount is applied. The resulting amount is then included in the King Shareholder's net capital gain for the income year and included in assessable income.

The CGT Discount rules relating to trusts are complex. Accordingly, we recommend trustees seek their own independent advice on how the CGT Discount applies to them and the trust's beneficiaries.

9.3 Foreign resident capital gains withholding ('FRCGW')

The FRCGW provisions place obligations on the purchaser of *inter alia*, non-portfolio (10% or greater) shareholdings in a company whose principal assets are taxable Australian property (which includes Australian mining assets). Whilst referred to as applying to acquisitions from 'foreign residents' the obligations need to be considered for both resident and foreign resident shareholders in King.

The obligation to withhold 1.5% of the purchase price and remit that amount to the ATO is obviated where the shareholder provides either a Clearance Certificate from the Commissioner of Taxation (which attests to their Australian tax residency) or a Vendor Declaration.

Where Whitebark considers it may have obligations under the FRCGW regime it will contact the King shareholder to provide them with an opportunity to seek a Clearance Certificate or make a Vendor Declaration if they are entitled to do so.

9.4 GST

No GST will be payable by King Shareholders on the acquisition of their King Shares by Whitebark under the Offer, or on the receipt of Whitebark Shares as consideration for acceptance of the Offer.

9.5 Duty

No Australian duty should be payable by King Shareholders on the acquisition of their King Shares by Whitebark under the Offer, or on the receipt of Whitebark Shares as consideration for acceptance of the Offer.

10. RISK FACTORS

10.1 Overview

If the Offers become unconditional, King Securityholders who accept the Offers will become Whitebark Securityholders. In those circumstances, King Securityholders will:

- (a) continue to be exposed to the risks associated to the investment in King as a result of their indirect interest in King through Whitebark;
- (b) be exposed to the risks which are specific to an investment in Whitebark; and
- (c) be exposed to additional risks relating to the Offers and the Combined Group.

The risks outlined in this Section 10 are not necessarily exhaustive. King Securityholders should read the Bidder's Statement carefully and consult their professional advisers before deciding whether to accept the Offers. By accepting the Offers, King Securityholders will be investing in Whitebark.

The business activities of Whitebark are subject to various risks that may impact on the future performance of Whitebark. Some of these risks can be mitigated by the use of safeguards and appropriate systems and controls, but some are outside the control of Whitebark and cannot be mitigated.

Accordingly, an investment in Whitebark carries no guarantee with respect to the payment of dividends, return of capital or price at which shares will trade and should be considered speculative. The principal risk factors include, but are not limited to, the following.

10.2 Risks Relating to the Offers

RISK CATEGORY	RISK
Conditions of the Offers	As described in Section 12.10 and 12.11 the Offers are subject to a number of Conditions. Subject to any statutory withdrawal rights that may be available King Securityholders who accept the Offers whilst they remain conditional will no longer be able to sell any of their shares in King or withdraw their acceptance of the Offers. For those King Securityholders who accept the Offers and the Conditions remain unsatisfied at the end of the Offer Period and are not otherwise waived by Whitebark, there is no obligation on Whitebark to issue Whitebark Shares to you as consideration for your King Shares. In those circumstances, any acceptances of the Offers will be void and you would then be free to deal with your King Shares as you wish.
Limited withdrawal rights	As described in Section 12.8, King Securityholders may only withdraw their acceptance of the Offers in limited circumstances. Otherwise, King Securityholders will be unable to withdraw their acceptances, even if the value of the Whitebark Shares to be issued to King Securityholders as consideration varies from the date of their acceptance.
Issue of Whitebark Securities as consideration	<p>King Securityholders are being offered specific quantities of Whitebark Shares and Whitebark Options as part of the consideration under the Offers. As a result, the value of the Consideration will fluctuate depending upon the market value of Whitebark Shares. Accordingly, the market value of the Whitebark Shares at the time you receive them may vary significantly from their market value on the date of your acceptance of the Offers.</p> <p>Furthermore, some of the King Shareholders that receive Whitebark Shares as consideration under the Share Offer may not intend to continue to hold those Whitebark Shares and may wish to sell them on ASX. There is a risk that if a significant number of King Shareholders seek to dispose of their Whitebark</p>

RISK CATEGORY	RISK
	<p>Shares, this may adversely impact the price of Whitebark Shares.</p> <p>Accordingly, the market value of the Whitebark Shares at the time you receive them may vary significantly from their market value on the date of your acceptance of the Offers. This may result in the value of the consideration to King Shareholders increasing or decreasing.</p>
Transaction and other costs	<p>Transaction and other cash costs incurred (or which are expected to be incurred by Whitebark) in relation to the successful implementation of the Offers are currently estimated at approximately \$147,995 (exclusive of GST), comprising adviser, legal, accounting, expert fees, planned redundancy costs and various other costs.</p>
Rollover Relief	<p>A condition of the Offers is that the level of acceptance must result in Whitebark obtaining a Relevant Interest in at least 90% of all King Shares.</p> <p>If Whitebark does not acquire a Relevant Interest of at least 90% of the King Shares, it may choose to waive the 90% condition of the Share Offer provided that, if Whitebark has a Relevant Interest of less than 80% of King Shares, it requires the prior written consent of King to waive the 90% condition.</p> <p>Should Whitebark become the holder of 80% or more of the voting shares in King as at the close of the Offer Period, King Shareholders who would otherwise make a capital gain from the disposal of their King Shares pursuant to the Offers may be able to choose to obtain full scrip for scrip rollover relief. If Whitebark does not acquire the number of King Shares sufficient to bring its total interest in King to at least 80% (on a fully diluted basis), scrip-for-scrip CGT rollover relief will not be available to holders of King Shares.</p>
Sale of Whitebark Shares	<p>In accordance with the Offers, Whitebark may issue a significant number of new Whitebark Shares. Some holders of Whitebark Shares may not intend to continue to hold their Whitebark Shares and may wish to sell them. There is a risk that this may adversely impact on the price of and demand for Whitebark Shares.</p>
Change in Control Risk	<p>If the Offers results in a change in control of King, there may be adverse consequences for the Combined Group. For example, a change of control event may trigger termination rights or revision of terms in key contracts held by King.</p>
Acquisition of Less than 50.1% of King Shares	<p>There are some risks associated with the Offers for King Securityholders who do not accept the Offers and remain King Securityholders. If, in connection with or following the Offers, Whitebark acquires 90% or above but less than 100% of the King Shares, Whitebark may be entitled to compulsorily acquire the remaining King Shares.</p> <p>If Whitebark does not acquire a Relevant Interest of at least 90% of the King Shares, it may choose to waive the 90% condition of its Share Offer provided that, if Whitebark has a Relevant Interest of less than 80% of King Shares, it requires the prior written consent of King to waive the 90% condition</p> <p>If Whitebark acquires more than 50.1% but less than 90% of the King Shares, Whitebark will hold a controlling interest in King. The remaining King Securityholders will be in a minority position in a company with a large controlling shareholder whose objectives for the company may differ from their own. They</p>

RISK CATEGORY	RISK
	<p>could also encounter a lower level of liquidity in King Shares than exists today, which could result in a lower price for those King Shares should they wish to sell them in future.</p> <p>Further, if Whitebark elects to free the Offers from the 90% minimum acceptance condition, subject to Section 12.13(e), it is possible that Whitebark could acquire less than 50.1% of King Shares on issue under the Offers. The existence of a minority interest in King may have an impact on the operations of the Combined Group, although this impact will depend upon the ultimate level of King ownership acquired by Whitebark.</p>
Merger Integration	The integration of Whitebark and King may produce some risks, including the integration of management, information systems and work practices. There is no guarantee that any synergy benefits or costs savings will be achieved on time or at all.
Stamp Duty and Government Charges	Stamp duty and other government charges may be payable by Whitebark in relation to the Offers. The amount of these duties and charges may be material.
Forward Looking Information	Certain information in this Bidder's Statement constitutes forward looking information that is subject to risks and uncertainties and a number of assumptions, which may cause the actual expenditure of the Combined Group to be different from the expectations expressed or implied in this Bidder's Statement.
Due Diligence	In preparing the information relating to King contained in this Bidder's Statement, Whitebark has relied on information provided by King. Risks may exist in relation to King (which will affect the Combined Group) of which Whitebark is unaware.

10.3 Risks Relating to the Combined Group

RISK CATEGORY	RISK
Additional Requirements for Capital	<p>The Combined Group may be required to raise additional funds in the future in the event exploration costs exceed its estimates, to effectively implement its business and operations plans in the future, to take advantage of opportunities for acquisitions, joint ventures or other business opportunities, and to meet any unanticipated liabilities or expenses which the Combined Group may incur.</p> <p>The Combined Group may seek to raise further funds through equity or debt financing, joint ventures, production sharing arrangements or other means. Failure to obtain sufficient financing for the Combined Group's activities and future projects may result in delay and indefinite postponement of exploration, development or production on the Combined Group's properties or even loss of a property interest. There can be no assurance that additional finance will be available when needed or, if available, the terms of the financing might not be favourable to the Combined Group and might involve substantial dilution to Whitebark Shareholders.</p> <p>Further, the Combined Group, in the ordinary course of its operations and developments, will be required to issue financial assurances, particularly insurances and bond/bank guarantee instruments to secure statutory and environmental performance undertakings and commercial arrangements. The Combined Group's ability to provide such assurances is</p>

RISK CATEGORY	RISK
	<p>subject to external financial and credit market assessment, and its own financial position.</p> <p>Loan agreements and other financing rearrangements such as debt facilities, convertible note issues and finance leases (and any related guarantee and security) that may be entered into by the Combined Group may contain covenants, undertakings and other provisions which, if breached, may entitle lenders to accelerate repayment of loans and there is no assurance that the Combined Group would be able to repay such loans in the event of an acceleration. Enforcement of any security granted by the Combined Group or default under a finance lease could also result in the loss of assets.</p>
<p>The pro forma consolidated financial statements of the Combined Group are presented for illustrative purposes only and may not be an indication of the Combined Group's financial conditions or results of operations following the Offers</p>	<p>The Combined Group's unaudited pro forma consolidated financial statements contained in this Bidder's Statement are presented for illustrative purposes only as of their respective dates and may not be an indication of the financial condition or results of operations of the Combined Group following the Offers for several reasons. For example, the unaudited pro forma condensed consolidated financial statements have been derived from the respective historical financial statements of Whitebark and King, and certain adjustments and assumptions made as of the dates indicated therein have been made to give effect to the Offers and the other relevant transactions. The information upon which these adjustments and assumptions have been made is preliminary and these kinds of adjustments and assumptions are difficult to make with complete accuracy. Moreover, the unaudited pro forma consolidated financial statements do not reflect all costs expected to be incurred by the Combined Group in connection with the Offers. For example, the impact of any incremental costs incurred in integrating Whitebark and King is not reflected in unaudited pro forma consolidated financial statements.</p>
<p>Liquidity risk</p>	<p>Liquidity risk is the risk that Whitebark will not be able to meet its financial obligations as they fall due. Whitebark's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to its reputation.</p> <p>Whitebark manages liquidity risk by maintaining adequate cash reserves from funds raised in the market and by continuously monitoring forecast and actual cash flows.</p>
<p>The Combined Group may not be able to effectively manage its growth and operations, which could materially and adversely affect its business/Integration</p>	<p>The Combined Group may in the future experience rapid growth and development in a relatively short period of time. The management of this growth will require, among other things, proper integration and continued development of the Combined Group's financial and management controls and management information systems, stringent control of costs, the ability to attract and retain qualified management personnel and the training of new personnel. Failure to successfully manage its possible growth and development could have a material adverse effect on the Combined Group's business and the value of the shares of the Combined Group.</p>
<p>Insurance</p>	<p>Whitebark intends to insure its operations in accordance with industry practice. However, in certain circumstances, Whitebark 's insurance may not be of a nature or level to provide adequate insurance cover. The occurrence of an</p>

RISK CATEGORY	RISK
	<p>event that is not covered or fully covered by insurance could have a material adverse effect on the business, financial condition and results of Whitebark.</p> <p>Insurance against all risks associated with mining exploration and production is not always available and where available the costs can be prohibitive.</p>
Commodity price volatility and exchange rate risks	<p>If Whitebark achieves success leading to mineral production, the revenue it will derive through the sale of commodities exposes the potential income of Whitebark to commodity price and exchange rate risks. Commodity prices fluctuate and are affected by many factors beyond the control of Whitebark. Such factors include supply and demand fluctuations for precious and base metals, technological advancements, forward selling activities and other macro-economic factors.</p> <p>Furthermore, international prices of various commodities are denominated in United States dollars, whereas the income and expenditure of the Combined Group will be taken into account in Australian currency, exposing the Combined Group to the fluctuations and volatility of the rate of exchange between the United States dollar and the Australian dollar as determined in international markets.</p>
Trading Price of Whitebark Shares	<p>The Combined Group's credit quality, operating results, economic and financial prospects and other factors may affect the trading price of the Whitebark Shares. In addition, the price of Whitebark Shares is subject to varied and often unpredictable influences on the market for equities, including, but not limited to general economic conditions including the Australian dollar and US dollar performance on world markets, commodity price fluctuations, inflation rates, foreign exchange rates and interest rates, variations in the general market for listed stocks in general or United States and Australian energy stocks in particular, changes to government policy, legislation or regulation, industrial disputes, general operational and business risks and hedging or arbitrage trading activity that may develop involving the Whitebark Shares. No assurances can be made that Whitebark's market performance will not be adversely affected by any such market fluctuations or factors.</p>
JV partners and contractors	<p>Mining production and exploration ventures are typically operated under joint venture arrangements. These arrangements include provisions that often require certain decisions relating to the projects to be passed with unanimous or majority approval of all participants. Where a venture partner does not act in the best commercial interest of the project, it could have a material adverse effect on the interests of the Combined Group.</p> <p>Whitebark is unable to predict the risk of:</p> <ul style="list-style-type: none"> (a) financial failure, non-compliance with obligations or default by a participant in any venture to which the Combined Group is, or may become, a party; (b) insolvency or other managerial failure by any of the contractors used by the Combined Group in any of its activities; or (c) insolvency or other managerial failure by any of the other service providers used by the Combined Group for any activity,

RISK CATEGORY	RISK
	all of which could have a material adverse effect on the operations and financial performance of the Combined Group.
Potential acquisitions	As part of its business strategy, Whitebark may make acquisitions of, or significant investments in, companies or assets. Any such transactions will be accompanied by risks commonly encountered in making such acquisitions. There are a number of uncertainties with the acquisition of interests in oil and gas assets including, the amount of recoverable reserves, development and operating costs and potential environmental and other liabilities. Even with careful due diligence, it may be impossible to ascertain certain environmental or structural problems such as pipeline corrosion or hazardous spills. This risk could have a negative effect on Whitebark and the Combined Group's future operations and financial position.
Climate Change	<p>There are a number of climate-related factors that may affect the operations and proposed activities of the Combined Group. For instance:</p> <ul style="list-style-type: none"> (a) climate change or prolonged periods of adverse weather and climatic conditions (including rising sea levels, floods, hail, drought, water, scarcity, temperature extremes, frosts, earthquakes and pestilences) may have an adverse effect on the Combined Group's mining and exploration operations; and (b) changes in policy, technological innovation and consumer or investor preferences could adversely impact the Combined Group's operations and proposed activities, or may result in less favourable pricing for mining products, particularly in the event of a transition (which may occur in unpredictable ways) to a lower-carbon economy.
Taxation Risk	Future changes in taxation law in Australia, including changes in interpretation or application of the law by courts or taxation authorities in Australia, may affect taxation treatment of an investment in Whitebark, or the holding or disposal of Whitebark Shares. Further changes in taxation law, or the way in which the Combined Group operates, may impact the Combined Group's future tax liabilities and may affect the Combined Group's ability to provide returns to shareholders and/or alter the post-tax returns to shareholders.
Reliance on Key Management	The responsibility of overseeing the day-to-day operations and the strategic management of the Combined Group depends substantially on its senior management and its key personnel. There can be no assurance given that there will be no detrimental impact on the Combined Group if one or more of these employees cease their employment.
Competition Risk	The industry in which the Combined Group is involved is subject to domestic and global competition. Although Whitebark considers that it undertakes all reasonable due diligence in its business decisions and operations, Whitebark has no influence or control over the activities or actions of its competitors, which activities or actions may, positively or negatively, affect the operating and financial performance of the Combined Group's projects and business.

RISK CATEGORY	RISK
Economic Risk	<p>General economic conditions, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Combined Group's exploration, development and production activities, as well as on its ability to fund those activities.</p> <p>Further, share market conditions may affect the value of Whitebark's quoted securities regardless of the Combined Group's operating performance. Share market conditions are affected by many factors such as:</p> <ul style="list-style-type: none"> (a) general economic outlook; (b) interest rates and inflation rates; (c) currency fluctuations; (d) changes in investor sentiment toward particular market sectors; (e) the demand for, and supply of, capital; and (f) terrorism or other hostilities.
Share Market	<p>There are general risks associated with any investment and the share market. The price of Whitebark Shares on ASX may rise and fall depending on a range of factors beyond Whitebark's control and which are unrelated to the Combined Group's financial performance. These factors may include movements on international stock markets, interest rates and exchange rates, together with domestic and international economic conditions, inflation rates, investor perceptions, changes in government policy, commodity supply and demand, government taxation and royalties, war, global hostilities and acts of terrorism.</p>
Regulatory Risk	<p>Whitebark is based in Australia and is subject to Australian laws and regulations. For example, Whitebark is required to comply with the Corporations Act. Changes in relevant taxes, legal and administration regimes, accounting practice and government policies in the countries in which the Combined Group operates (Canada and the US), and may operate, may adversely affect the financial performance of the Combined Group.</p> <p>Additionally, the Combined Group's Wizard Lake Project (which Whitebark has a 10% is based in Canada and are subject to extensive laws and regulations. Whitebark requires permits from regulatory authorities to authorise the Combined Group's operations in Wizard Lake.</p> <p>Obtaining necessary permits can be a time-consuming process and there is a risk that the Combined Group will not obtain these permits on acceptable terms, in a timely manner or at all. The costs and delays associated with obtaining necessary permits and complying with these permits and applicable laws and regulations could materially delay or restrict Whitebark from proceeding with the development of a project or the operation or development of a well. Any failure to comply with applicable laws and regulations or permits, even if inadvertent, could result in material fines, penalties or other liabilities. In extreme cases, failure could result in suspension of Whitebark's Shares.</p>

RISK CATEGORY	RISK
Force Majeure	The Combined Group's projects now or in the future may be adversely affected by risks outside the control of Whitebark including labour unrest, civil disorder, war, subversive activities or sabotage, fires, floods, explosions or other catastrophes, epidemics, pandemics or quarantine restrictions.
Coronavirus (COVID-19) Risk	<p>The outbreak of the coronavirus pandemic (COVID-19) is impacting global economic markets. The nature and extent of the effect of the outbreak on the performance of the Combined Group remains unknown. Whitebark's share price may be adversely affected in the short to medium term by the economic uncertainty caused by COVID-19. Further, any governmental or industry measures taken in response to COVID-19 may adversely impact the Combined Group's operations and are likely to be beyond the control of Whitebark.</p> <p>The Whitebark Directors are monitoring the situation closely and have considered the impact of COVID-19 on Whitebark's business and financial performance, including the potential impact of COVID-19 on the Combined Group. However, the situation is continually evolving, and the consequences are therefore inevitably uncertain. In compliance with its continuous disclosure obligations, Whitebark will continue to update the market in regard to the impact of COVID-19 on its revenue channels and adverse impact on the Combined Group. If any of these impacts appear material prior to close of the Offers, Whitebark will notify investors under a supplementary bidder's statement.</p>
Litigation Risks	The Combined Group will be exposed to possible litigation risks including environmental claims, occupational health and safety claims and employee claims. Further, the Combined Group may be involved in disputes with other parties in the future which may result in litigation. Any such claim or dispute if proven, may impact adversely on the Combined Group's operations, financial performance and financial position. Whitebark is not currently engaged in any litigation.

10.4 Risks relating to Whitebark

RISK CATEGORY	RISK
Going Concern	<p>Whitebark's annual report for the financial year ended 30 June 2024 (Annual Report) includes a note on the financial condition of Whitebark and the possible existence of a material uncertainty about Whitebark's ability to continue as a going concern.</p> <p>Notwithstanding the 'going concern' qualification included in the Annual Report, the Whitebark Directors believe that upon the successful completion of the Offers, Whitebark will have sufficient funds to adequately meet Whitebark's current exploration commitments and short term working capital requirements.</p> <p>In the event that the Offers are not completed successfully there is significant uncertainty as to whether Whitebark can continue as a going concern which is likely to have a material adverse effect on Whitebark's activities.</p>

RISK CATEGORY	RISK
Counter Party Risk	Whitebark assumes customer credit risk associated with oil, Natural Gas Liquids, natural gas sales and joint venture participants. To mitigate this risk, Whitebark performs regular reviews of receivables to minimize default or non-payment and takes the majority of its production in kind.
Costs and Availability of Equipment and Services	Inflation is a risk common to all businesses in Canada. During times of high commodity prices for oil, Natural Gas Liquids and natural gas, there is a risk of substantially increased costs of operation, which impacts both the amount of capital required to perform operations and the netback Whitebark achieves from its production sales. Oil and natural gas exploration and development activities are dependent on the availability of drilling and related equipment in the particular areas where such activities will be conducted. Demand for such limited equipment or access restrictions may affect the availability of such equipment to Whitebark and may delay exploration and development activities. To the extent Whitebark is not the operator of its oil, Natural Gas Liquids and natural gas properties, Whitebark will be dependent on other operators for the timing of activities related to such properties and will be largely unable to direct or control the activities of the operators. Although Whitebark strives for continuous improvement in its planning, operations and procurement of materials, unexpected changes in the market for such equipment and services could negatively affect Whitebark's financial performance.
Uncertainty of Reserve Estimates	<p>Resource estimates are expressions of reserves and exploration targets judgement based on knowledge, experience, interpretation and industry practice. Estimates which were valid when initially calculated may alter significantly when new information or techniques become available. In addition, by their very nature resource and reserve estimates are imprecise and depend to some extent on interpretations which may prove to be inaccurate. There are a number of uncertainties inherent in estimating the quantities of reserves and resources, including many factors beyond the control of Whitebark. In general, estimates of reserves and the future net cash flows therefrom are based upon a number of variable factors and assumptions, such as commodity prices, historical production from the properties, the assumed effects of regulation by government agencies and future operating costs, all of which may vary considerably from actual results. For these reasons, estimates of the economically recoverable reserves attributable to any particular group of properties, classification of such reserves based on risk of recovery and estimates of future net revenues expected therefrom, prepared by different engineers or by the same engineer at different times, may vary substantially. The actual production, revenues, taxes and development and operating expenditures with respect to these reserves will vary from such estimates, and such variances could be material.</p> <p>Geothermal resources are reported according to the UNFC framework which is recognised internationally and is the legislative reporting requirement in Queensland.</p>
Delays in Business Operations	In addition to the usual delays in payments by purchasers of oil, natural gas liquids and natural gas to Whitebark or to the operators, and the delays by operators in remitting payment to Whitebark, payments between these parties may be delayed due to restrictions imposed by lenders, accounting delays,

RISK CATEGORY	RISK
	delays in the sale or delivery of products, delays in the connection of wells to a gathering system, adjustment for prior periods, or recovery by the operator of expenses incurred in the operation of the properties. Any of these delays could reduce the amount of funds from operations available for the business of Whitebark in a given period and expose Whitebark to additional third-party credit risks.
Expiration of Licences and Leases	Whitebark's properties are held in the form of licences and leases. If Whitebark or the holder of the licence or lease fails to meet specific requirements of a licence or lease, the licence or lease may terminate or expire. There can be no assurance that any of the obligations required to maintain each licence or lease will be met. The termination or expiration of licences or leases may have a material adverse effect on results of operations and the business of Whitebark. To mitigate this risk, Whitebark intends to carefully monitor its undeveloped land position and plans operations in order to keep key licences and leases from terminating or expiring.
Availability of Processing and Pipeline Capacity	The Projects are subject to deliverability uncertainties related to the proximity of its reserves to energy infrastructure and the possible inability to secure space on infrastructure which deliver energy to commercial markets. The majority of Whitebark's production is expected to be reliant on third party infrastructure prior to it being ready for transfer at designated commodity sales points. There is a risk that this infrastructure could fail and cause a significant portion of Whitebark's production to be shut-in and unable to be sold, which could have a material adverse effect on available funds from operations.
Indigenous claims	Indigenous Australian peoples have claimed indigenous title and rights to portions of Australia. Whitebark is not aware that any claims have been made in respect of the Projects; however, if a claim arose and was successful, it could have a material adverse effect on Whitebark and its operations.
