

19 February 2025

APPENDIX 4D: HALF YEAR REPORT FOR THE PERIOD ENDED 31 DECEMBER 2024

Genesis Minerals Limited (ASX:GMD) reports its 31 December 2024 half year financial information and Appendix 4D in accordance with Listing Rule 4.2A.

RESULTS FOR ANNOUNCEMENT TO THE MARKET

Key Information

	Units	Dec 2024	Dec 2023	Change	
Revenue from ordinary activities	\$'000	338,732	215,924	122,808	up 57%
Profit from ordinary activities after tax attributable to members	\$'000	59,800	22,885*	36,915	up 161%

*Information for December 2023 has been restated following a change in the Company's Accounting Policy relating to the treatment of exploration and evaluation expenditure.

Dividend information

No dividends have been paid or declared since the start of the financial year and it is not proposed to pay dividends in respect of the half year.

Net Tangible Assets Per Ordinary Share

	Units	Dec 2024	Dec 2023	Change	
Net tangible asset backing per ordinary share	\$	0.96	0.80	0.16	up 20%

Earnings Per Share

	Units	Dec 2024	Dec 2023*	Change	
Basic earnings per share	Cents	5.49	2.28	3.21	up 141%
Diluted earnings per share	Cents	5.30	2.19	3.11	up 142%

*Information for December 2023 has been restated following a change in the Company's Accounting Policy relating to the treatment of exploration and evaluation expenditure.

Details of entities over which control has been gained or lost

The following non-core interests were sold during the half year ended 31 December 2024:

- ▶ 100% interest in Metallo Resources Ltd was sold to Ordell Minerals Limited on 12 July 2024.
- ▶ 100% interest in Admiral Gold Pty Ltd was sold to Labyrinth Resources Limited on 29 November 2024.

The group did not gain or lose control over any other entities during the period.

FURTHER INFORMATION

The attached half year report should be read in conjunction with the Financial Report for the year ended 30 June 2024.

Further information is available in the attached 31 December 2024 half year report which contains an Operating and Financial review.

The financial statements in the 31 December 2024 half year report have been reviewed by BDO and they are not subject to dispute or qualification and do not include any statement of emphasis.

DIRECTORS' REPORT

The Directors present the half-year financial report of the Genesis Minerals Limited Group ("the Group"), consisting of Genesis Minerals Limited ("the Company", "Genesis" or "GMD") and the entities it controlled at the end of, or during, the half-year ended 31 December 2024 ("the period", "the half" or "the half-year").

Directors

The Directors of the Company during the half-year ended 31 December 2024 and up to the date of this report are set out below. All Directors held their position as a director throughout the entire period and up to the date of this report unless stated otherwise.

Anthony (Tony) Kiernan (AM)	Non-Executive Chair
Raleigh Finlayson	Managing Director & Chief Executive Officer
Michael Bowen	Non-Executive Director
Gerard Kaczmarek	Non-Executive Director
Karen Lloyd	Non-Executive Director
Jacqueline Murray	Non-Executive Director
Michael Wilkes	Non-Executive Director

Company Secretary

Joanne Steer

Principal Activities

The principal activities of the Group during the period were gold mining, project development and exploration activities in Western Australia.

Key Highlights for the half-year ended 31 December 2024

Operating Review

During the first half of FY25, Genesis continued to advance the delivery of its "ASPIRE" 400 5-Year Plan ("5YP"), which included the Company updating its FY25 production guidance to **190,000 – 210,000oz** (from previous guidance of 162,000 – 188,000oz). This strong operational position is the result of a number of key milestones achieved during H1 of FY25:

- ▶ A continued focus on Safety with the roll out of our Fatal Risk Management Program;
- ▶ The early re-start of our Laverton Mill, achieved in October '24 (six months earlier than flagged in the 5YP);
- ▶ Commencement of mining by Genesis Mining Services ("GMS") at the new high-grade Hub open pit operation; and
- ▶ Firing of the first stope at the Ulysses underground mine late 2024.

Genesis Group tenure

Operations Summary					
	Unit	Sep Q	Dec Q	H1 Dec '24	H1 Dec '23
Underground Mining					
Ore Mined	kt	211	214	425	412

Contained Gold	oz	17,070	28,717	28,717	5,901

Sustainability

The first half of FY25 has been firmly focused on continuing the safe integration of our operations, strengthening our management systems and building on our progressive approach to sustainability in preparation for the delivery of our inaugural FY25 Sustainability Report.

During the period, the business prioritised the development and implementation of our Fatal Risk Management Program, ensuring fatal risks are identified, understood and controlled. Importantly, our leaders are actively engaging their teams in the field to verify the presence and effectiveness of fatal risk controls, and ensure gaps are identified and corrected.

The integration of sustainability throughout all aspects of the business continued, with an assessment of materiality undertaken to identify key environmental, social and governance issues through a comprehensive stakeholder survey. This work will be finalised in the second half of FY25 to further inform Genesis' sustainability strategy and long-term programs.

As part of our approach to climate change, a project was initiated to undertake climate scenario risk and opportunity assessments. In conjunction with this work, the business has begun an assessment against the recently released requirements for mandatory climate-related financial disclosures that will apply to Genesis from FY26 onwards.

Support for the local communities in which we operate continues to be a priority. Throughout the first half a number of events were conducted to facilitate the bringing together of community and Genesis team members. Through a variety of forums, including

sundowners, formal engagement meetings, community BBQ & sporting events, Christmas luncheons and gifts for locals, the Genesis Team continue to strengthen the close relationships we have with our local communities and Traditional Owners.

The Board Risk and Sustainability Committee convened during the period. As is now a regular feature of these meetings, as well as discussing the Company's key risks, the Committee also participated in a detailed "deep dive" review and discussion of one of Genesis' top risks, providing greater understanding and assurance of the risk and control strategies in place.

One Lost time Injury ("LTI") was reported in H1 of FY25, with our recordable injury performance reported in the table below.

LTI	LTIFR	TRIFR
1	0.5	10.6

Lost Time Injury Frequency Rate ("LTIFR")
 Total Recordable Injury Frequency Rate ("TRIFR")

Focus in the second half of FY25 will be on continuing to strengthen our Fatal Risk Management Program, ongoing standardisation of HSE and Sustainability management systems and completion of the current projects to establish our foundations for future climate-related strategies and reporting.

Leonora Operations

Genesis Leonora tenure

Gwalia Underground

Production and development activities continued at the Gwalia mine during the half. Over 1.8km of development was completed, with a strong focus on developing the next two production levels from the Hoover Decline. Production was focused on the 'Heart of Gold' section of the orebody, with the 1700H SB1 565 bulk stope being completed in the half, producing over 18koz.

Infrastructure upgrades to support the long-life asset included the refurbishment and reline of both the primary and secondary paste fill holes from surface and an increase in chilling capacity for the mine ventilation network to support development activities at depth.

Total mined ore for the half was 366kt of ore @ 5.53g/t for 65.2koz.

Admiral Open Pit

Operations continued at the Admiral mine with performance exceeding FY25 Budget targets. Following detailed assessment (and cognisant of the current strong gold price environment) activities were expanded into the Clark pit which sits adjacent to the Admiral pit, maximising the productivity of the GMS fleet. Ore haulage to the Company's Laverton Mill (in addition to ongoing haulage to the Leonora Mill) commenced in October.

Total material movement amounted to 4.5Mbcm for the half, with 681kt of ore @ 1.42g/t mined for 30koz.

Hub Open Pit

Establishment works for the high-grade Hub open pit at the Redcliffe Project commenced, with stripping and construction activities all completed by August. Located 55km northeast of Leonora, Hub is a conventional load and haul operation with mining activities completed by GMS. First ore was mined to stockpile from the central pit in September, with first material processed through the Leonora Mill in mid-October. In December, first ore was presented to the Laverton Mill for processing, highlighting the flexibility of the Hub deposit in providing feed to both the Leonora and Laverton operations.

Total material movement for the half was 1.5Mbcm, with 81kt of ore @ 2.26g/t mined for 2.5koz.

Ulysses Underground

Development continued at the Ulysses underground mine, located 35km south of Leonora, with 2.1km of lateral and decline development completed during the half. This consisted of a mixture of capital waste development and ore drive development with first ore being treated through the Leonora Mill in August. At the end of December, decline development had reached ~89m below the portal at the base of the Ulysses West open pit.

First stope production was achieved in December, with pleasing results observed in terms of adherence to stope design, in particular dilution performance and stope recovery. Office and workshop infrastructure is now in place and primary ventilation works are expected to be completed during Q3 of FY25, facilitating an increase in work areas and development rates.

Total ore movement for the half was 58kt @3.3g/t mined for 6.1koz.

Stope charging at Ulysses

Leonora Processing

Leveraging off the ramp-up activities completed in FY24, the Leonora processing facility outperformed on planned throughput rates during the half. Aligned with the 5YP, all four operational mines contributed ore feed facilitating strong production, with plant recovery performing in line with FY25 Budget expectations. During Q2 of FY25, throughput was consistent at an annualised throughput rate of ~1.4Mpta (nameplate capacity for the Leonora Mill), with the mill full for the first time since 2015. Capital works continued on leach tank refurbishment with the program expected to be complete by the end of FY25.

Total production for the half amounted to 694kt of ore processed @ 3.82g/t for 79.6koz recovered.

Tower Hill Project

Tower Hill is a shallow high-grade deposit located just over 1km north of the Gwalia mine with a Reserve of 15.4Mt @ 2.0g/t for 1.0Moz, in one planned open pit. Strong progress on several fronts has ensured key approvals and planning processes are all running on or ahead of schedule. These achievements mean that Genesis is on track to unlock the substantial value of Tower Hill in a timely manner.

During the period, the key achievements in the progress of Tower Hill included:

- ▶ Heritage – Section 18 approval received.
- ▶ Environmental & Approvals – Clearing permit application and mining proposal for Stage 1 submitted.

- ▶ Water – Water discharge licences approved for increased discharge capacities. 1.9GL of water now pumped from the pit.
- ▶ Rail Shortening – targeting agreement with key stakeholders by the end of Q4 FY25.
- ▶ Mine Design – Stage 1 technical studies completed including geotechnical, hydrological, hydrogeological, mine design and infrastructure assessments.

Advancing Tower Hill

Laverton Operations

Genesis Laverton tenure

Laverton Processing

A total of 700kt (primarily from existing legacy stockpiles) was processed at a grade of 0.7g/t for recovered gold of 13.5koz.

Production successfully commenced during the half following the recommissioning of the processing plant and associated site infrastructure. The refurbishment of the plant was carried out with a combination of Genesis full time employees and a number of specialised contractors. This was completed ahead of time and on budget.

Establishment of power station and gas supply contracts were completed in readiness for processing commencement as well as the re-establishment of key reagent and consumable contracts. Stockpile rehandle and crusher feed contracts were awarded and road train haulage from the Company's Leonora operations commenced in October.

During the half, construction and future stage planning successfully commenced on borefield infrastructure to ensure availability and reliability of water to support life of mine requirements. Construction of Tailings Storage Facility Cell 1, Stage 3 commenced in October and was completed in January '25.

Jupiter Project

The Jupiter open pit is currently scheduled for H1 of FY26 as the most likely first operation for the re-introduction of mining at the Laverton hub. Works are underway to establish the infrastructure required to enable a smooth commencement of operations and mining fleet orders have been placed for the third GMS fleet.

Westralia Project

During the half, technical assessment works commenced on re-evaluation of the Westralia Resource, located just 15km from the Laverton mill. This assessment is initially focussed on the opportunity of a larger, bulk open pit mining opportunity utilising GMS, in contrast to the underground mining strategy employed under previous ownership. The technical works will continue during the second half of FY25.

Geology and Exploration

During the first half of the financial year, a significant drill program was undertaken at the **Hub** open pit, testing for potential high grade extensions to the mineralisation. Drilling revealed down plunge continuity and has identified targets that require follow up, as well as providing valuable information for potential underground mining opportunities. Drilling was also completed at the proposed open pit asset **Bruno Lewis** open pit to infill the resource model to an indicated classification, which will enable an updated resource model to be generated.

Drilling activities continued at **Gwalia** utilising two diamond drill rigs that primarily targeted infill of immediate mining fronts, down plunge conversion and testing for extensions to the north of the main ore body. Drill results have enabled ongoing grade control model updates that have been used to refine the mine design, as well as identifying high grade plunges for long term planning considerations.

Grade control drilling was completed at the **Admiral** mining complex which was fed into an updated geological model for the Admiral and Clark open pits. Both resource models continue to perform well with improved confidence from the tighter spaced drilling.

Financial Review

Overview

The table below sets out the financial performance of the Group for the half-year ended 31 December 2024.

Key Financial Result	HY Dec. 2023		Change \$'000	Change %
	HY Dec. 2024 \$'000	Restated* \$'000		
Revenue	338,732	215,924	122,808	57
Cost of sales (excluding D&A) ¹	(163,232)	(142,695)	(20,537)	14
Corporate, Exploration and other	(21,851)	(18,590)	(3,261)	18
EBITDA ¹	153,649	54,639	99,010	181

Profit or Loss

Revenue for the half-year ended 31 December 2024 increased by 57% to \$338.7 million (31 December 2023: \$215.9 million). The increase in revenue was mainly attributable to the combination of higher gold production of 93,075 ounces (31 December 2023: 69,361 ounces) coupled with a higher gold price. Total gold sold was 86,527 ounces (31 December 2023: 70,077 ounces) and the average gold price achieved was \$3,909/oz (31 December 2023: \$2,984/oz). The Group entered the following hedge arrangements during the half year period:

- Zero cost collars: 12,000 ounces per quarter from January 2025 to December 2025 with a put strike price of A\$3,700/oz and a call strike price of A\$5,300/oz; and
- Put options: 18,000 ounces per quarter from July 2025 to June 2026 with a put strike price of A\$3,700/oz.

The Group achieved a statutory net profit after tax of \$59.8 million for the period (31 December 2023: \$22.9 million) reflecting the enlarged business and operational efficiencies introduced during the period, compared to last year.

Statement of Financial Position (Balance Sheet)

Total assets increased by 8% during the half-year ended 31 December 2024 to \$1,350 million (30 June 2024: \$1,249 million). This increase was primarily driven by ongoing investment at the Ulysses underground and Hub open pit assets and the re-start of the Laverton Mill. In addition, the second GMS open pit fleet was purchased utilising an asset finance facility and this fleet is now operating at the Hub operation.

Total liabilities for the Group increased to \$264 million (30 June 2024: \$218 million), primarily relating to the financing of the acquisition of the second GMS fleet. Borrowings (current and non-current) increased to \$72 million (30 June 2024: \$45 million) accordingly.

Cash Flows

Total cash inflow for the period amounted to \$30.7 million (31 December 2023: \$8.7 million inflow).

Cash inflow from operating activities increased by \$65 million to \$140.9 million (31 December 2023: inflow of \$75.8 million) primarily attributable to higher gold production of 93,075 ounces (31 December 2023: 69,361 ounces) coupled with a higher realised gold price.

Cash outflow from investing increased by \$4 million to \$104.8 million (31 December 2023: \$100.7 million) primarily attributable to the restart of the Laverton mill and development at the Admiral and Hub open pit mines.

Financing cash flows for the period resulted in a net outflow of \$5.3 million (31 December 2023: inflow of \$33.7 million) primarily due to fleet lease repayments.

Significant changes in the state of affairs

There were no significant changes in the state of affairs of the Group during the period.

Events occurring after the reporting period

There has not arisen in the interval between the end of the reporting period and the date of this report, any item, transaction or event of a material and unusual nature likely, in the opinion of the Directors of the Company to affect substantially the operations of the Group, the results of those operations or the state of affairs of the Group in subsequent financial years.

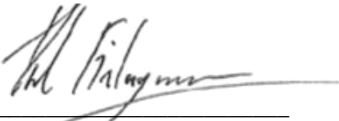

Auditor's Independence Declaration

A copy of the auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 14.

Rounding of Amounts

The Group is of a kind referred to in Corporations Instrument 2016/191, issued by the Australian Securities and Investments Commission, relating to 'rounding-off'. Amounts in this report have been rounded off in accordance with that Corporations Instrument to the nearest thousand dollars.

This report is made in accordance with a resolution of Directors under section 306(3) of the *Corporations Act 2001* dated 19th February 2025 and authorised for released by the Board of Directors.

DECLARATION OF INDEPENDENCE BY PHILLIP MURDOCH TO THE DIRECTORS OF GENESIS MINERALS LIMITED

As lead auditor for the review of Genesis Minerals Limited for the half-year ended 31 December 2024, I declare that, to the best of my knowledge and belief, there have been:

1. No contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the review; and
2. No contraventions of any applicable code of professional conduct in relation to the review.

This declaration is in respect of Genesis Minerals Limited and the entities it controlled during the period.

Cash and cash equivalents at the end of the period	5	202,017	190,243

*Refer to Note 1(b): Change in Accounting Policy. The amount shown as payments for exploration and evaluation assets for the half-year 2023 of \$7,872 has been restated. These payments were previously shown as payments for exploration and evaluation expenditure within operating activities.

The above consolidated statement of cash flows should be read in conjunction with the accompanying notes.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE HALF-YEAR ENDED 31 DECEMBER 2024

Note 1 Basis of Preparation and Material Accounting Policies

(a) Basis of Preparation

The interim consolidated financial statements of Genesis Minerals Limited and its subsidiaries (collectively referred to as the "Group") for the six months ended 31 December 2024 have been prepared in accordance with Accounting Standard AASB134 *Interim Financial Reporting* and the *Corporations Act 2001*. Compliance with AASB134 ensures compliance with IFRS Accounting Standard IASB134 *Interim Financial Reporting*.

This half year financial report does not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 30 June 2024 and any public announcements made by Genesis Minerals Limited during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, except as noted below.

The interim consolidated financial statements were approved by the Board of Directors on the 19th of February 2025.

(b) New and Amended Accounting Standards and Policies Adopted by the Group

Exploration and evaluation assets

The financial report has been prepared on the basis of a voluntary change in accounting policy in accordance with AASB 108 *Accounting Policies, Changes in Accounting Estimates and Errors*.

The group previously expensed all ongoing exploration costs across its operations. However, due to the Group's rapid growth and its transition to an ASX 200 listed gold producer in FY24, a review of the accounting policy in relation to exploration expenditure was conducted to align with industry peers. As a result, the Group has adopted a policy of capitalising exploration and evaluation expenditure in accordance with AASB 6 *Exploration for and Evaluation of Mineral Resources*. The change has been applied retrospectively to the extent practicable being from 1 July 2022, while earlier periods remain as previously stated.

The Board determined that this revised policy provides more relevant financial information without compromising reliability, ensuring greater comparability with industry standards.

The aggregate effect of the change in accounting policy on the interim financial statements for the period ending 31 December 2024 is as follows:

	Previous policy \$'000	Effect of the change in accounting policy for exploration and evaluation \$'000	Revised policy \$'000
Consolidated Statement of Profit or Loss and Other Comprehensive Income – period ended 31 December 2023			
Exploration and evaluation expenses	8,048	(8,048)	-
Profit before income tax	14,837	8,048	22,885
Income tax expense	-	-	-
Basic earnings per share (cents)	1.52	0.76	2.28
Consolidated Statement of Financial Position – as at 30 June 2024			
Exploration and evaluation assets	287,874	23,366	311,240
Mine Properties	356,093	16,884	372,977
Accumulated losses	(129,247)	40,250	(88,997)

(c) Use of Judgements and Estimates

In preparing these interim financial statements, the Company's management have made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The significant judgements made by the Company's management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those described in the last financial statements.

NOTES TO THE FINANCIAL STATEMENTS
 FOR THE HALF-YEAR ENDED 31 DECEMBER 2024

Note 2 Revenue

	31 December 2024 \$'000	31 December 2023 \$'000
Revenue from contracts with customers		
Gold Sales	338,224	209,102
Silver Sales	508	244
Toll Milling Revenue	-	6,578
	338,732	215,924

Note 3 Expenses

	31 December 2024 \$'000	31 December 2023 \$'000
a) Cost of goods sold		
Costs of production	148,930	121,452
Ore purchase	923	13,309
Royalties	13,378	7,933

Closing net book value	280,828	280,867

NOTES TO THE FINANCIAL STATEMENTS
 FOR THE HALF-YEAR ENDED 31 DECEMBER 2024

Note 8 Exploration and Evaluation Assets

	31 December 2024 \$'000	30 June 2024 \$'000
		Restated *
Opening carrying amount	311,240	259,354
Exploration costs capitalised	8,846	14,704
Acquisition of Bruno Lewis tenements from Kin Mining NL	-	41,829
Acquisition of Raeside tenements from Kin Mining NL	-	14,808
Additions – acquisition of mineral tenements	-	35
Capitalisations of royalties	-	1,999
Transfer to mine development – Ulysses Project	-	(21,489)
Disposals of exploration tenements	(3,437)	-
Closing net book value	316,649	311,240

* Refer to Note 1(b): Change in Accounting Policy for details of the impact on the change in the Company's Accounting Policy relating to the treatment of exploration and evaluation expenditure.

Note 9 Mine Properties

	31 December 2024 \$'000	30 June 2024 \$'000
		Restated *
Opening carrying amount	372,977	296,990
Transfer from Exploration – Ulysses Project	-	21,489
Change in rehabilitation provision	-	(10,098)
Additions	65,847	92,393
Transfer from/ (to) PPE CWIP	10,951	(29)
Asset write off	-	(1,701)
Amortisation expense	(37,439)	(26,067)
Closing net book value	412,336	372,977

* Refer to Note 1(b): Change in Accounting Policy for details of the impact on the change in the Company's Accounting Policy relating to the treatment of exploration and evaluation expenditure.

Note 10 Borrowings

	31 December 2024 \$'000	30 June 2024 \$'000
Current:		
Asset finance facility	9,103	6,289
Lease liabilities	5,816	6,639
	14,919	12,928
Non-Current:		
Asset finance facility	45,620	26,120
Lease liabilities	11,275	6,155
	56,895	32,275

The above liabilities are secured over the assets acquired and supported by a parent company guarantee. During the period Genesis established a senior corporate financing facility for a term of three years with a syndicate of three premium banking partners. The Facility comprises a \$120 million revolving cash advance facility equally shared between Westpac, National Australia Bank and Sumitomo Mitsui, and a \$10 million bank guarantee facility with National Australia Bank. The Facility remains undrawn at 31 December 2024.

NOTES TO THE FINANCIAL STATEMENTS
 FOR THE HALF-YEAR ENDED 31 DECEMBER 2024

Note 11 Issued Capital and Reserves

i) Issued Capital

	No. 31 December 2024	No. 30 June 2024	\$'000 31 December 2024	\$'000 30 June 2024
Issued share capital	1,128,664,943	1,121,933,336	1,144,180	1,132,546
Share movements during the year				
Balance at the start of the period	1,121,933,336	1,028,802,175	1,132,546	1,011,428
Acquisition of Dacian Gold Ltd	-	46,894,583	-	73,533
Acquisition of Kin Mining NL tenements	-	21,917,532	-	38,500
Share issues	154,550	4,687,855	340	6,168
Exercise of options	6,513,982	12,539,523	11,751	12,569
Exercise of rights	63,075	7,091,668	116	-
Less takeover transaction costs	-	-	-	(8,685)
Less share issue costs	-	-	(81)	(967)
Balance at the end of the period	1,128,664,943	1,121,933,336	1,144,672	1,132,546

ii) Reserves

Nature and purpose of reserves

i) Share-based payments reserve

The share-based payments reserve is used to recognise the fair value of options and performance rights issued. The movement in the reserve is reconciled as follows:

	31 December 2024 \$'000	30 June 2024 \$'000
Balance at the start of the period	50,823	41,324
Options and performance rights exercised	(11,607)	-
Recognition of share-based payments for options and performance rights	6,841	9,499
Balance at the end of the period	46,057	50,823

During the period 4.4 million performance rights valued at \$8.1 million were issued to employees and key management personnel of Genesis Minerals. The value of the rights is allocated to the Statement of Profit or Loss over the vesting period. \$6.8 million was expensed to the Statement of Profit or Loss for the six months to December 2024 comprising \$0.7million for performance rights issued during the period and \$6.1million relating to existing performance rights.

ii) Transactions with non-controlling interests reserve

Transactions with non-controlling interests reserve is used to recognise transactions with non-controlling interests that do not result in a loss of control. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and the consideration paid or received is recognised in the reserve. The movement in the reserve is reconciled as follows:

	31 December 2024 \$'000	30 June 2024 \$'000
Balance at the start of the period	(62,384)	(1,273)
Recognition of adjustment on acquisition of ownership interest in Dacian Gold Limited	-	(61,111)
Balance at the end of the period	(62,384)	(62,384)

NOTES TO THE FINANCIAL STATEMENTS
 FOR THE HALF-YEAR ENDED 31 DECEMBER 2024

iii) Fair value through other comprehensive income reserve

The fair value through other comprehensive income reserve is used to recognise the effective portion of gains or losses on derivatives and investments that are designated and qualify as cash flow hedges. The movement in the reserve is reconciled as follows:

	31 December 2024 \$'000	30 June 2024 \$'000
Balance at the start of the period	(357)	-
Loss on changes in fair value of zero-cost collar – time value reserve	(10,106)	(700)
(Loss) / Gain on changes in fair value of zero-cost collar designated as cash flow hedges	(83)	191
Tax effect on fair value of hedge	1,774	152
Revaluation of investments	5,740	-
Balance at the end of the period	(3,032)	(357)

Note 12 Operating Segments

The Group has identified its operating segments based on the internal reports that are reviewed and used by the Board of Directors in assessing performance and determining the allocation of resources.

Reportable segments disclosed are based on one operating segment. The Group's sole activity is mineral production, exploration and development of mineral interests in the Leonora and Laverton regions (which are in close proximity to each other), wholly within Australia. Given the Company strategy and location of the assets, all key operational decisions in relation to the different assets are made from a consolidated perspective. This encourages production efficiencies and costs saving as well as the ongoing realisation of synergies that cannot be realised if the operational decisions are considered in isolation. Therefore, the Company has aggregated all operating segments into the one reportable segment being mineral production, exploration and development.

Note 13 Commitments & Contingencies

There have been no significant changes to commitments and contingencies disclosed in the most recent financial report.

Note 14 Events Subsequent to the Reporting Date

There has not arisen in the interval between the end of the reporting period and the date of this report, any item, transaction or event of a material and unusual nature likely, in the opinion of the Directors of the Company to affect substantially the operations of the Group, the results of those operations or the state of affairs of the Group in subsequent financial years.

DIRECTORS' DECLARATION

In the opinion of the Directors of Genesis Minerals Limited (the 'Company'):

- a. The financial statements and notes of Genesis Minerals Limited for the half-year ended 31 December 2024 are in accordance with the *Corporations Act 2001*, including:
 - i. complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*; and
 - ii. giving a true and fair view of the consolidated entity's financial position as at 31 December 2024 and of its performance for the half-year ended on that date;
- b. There are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

This declaration is signed in accordance with a resolution of the Board of Directors made pursuant to section 303(5)(a) of the *Corporations Act 2001*.

DATED at Perth this 19th day of February 2025

Raleigh Finlayson
Managing Director

Report on the Half-Year Financial Report

Conclusion

We have reviewed the half-year financial report of Genesis Minerals Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 31 December 2024, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, material accounting policy information and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of the Group does not comply with the *Corporations Act 2001* including:

- i. Giving a true and fair view of the Group's financial position as at 31 December 2024 and of its financial performance for the half-year ended on that date; and
- ii. Complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to the audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be the same terms if given to the directors as at the time of this auditor's review report.

Responsibility of the directors for the financial report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibility for the review of the financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2024 and its financial performance for the half-year ended on that date and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

BDO Audit Pty Ltd

A handwritten signature in black ink, appearing to read 'P. Murdoch', is written over a horizontal line. Above the signature, the letters 'BDO' are handwritten in a smaller, less distinct script.
