**ENTITLEMENT ISSUE PROSPECTUS**

---

For a pro-rata non-renounceable entitlement issue of 1 Share for every 10 Shares held by those Eligible Shareholders registered at the Record Date at an issue price of \$0.008 per Share to raise up to \$2,041,688 (based on the number of Shares on issue as at the date of this Prospectus) (**Offer**).

**IMPORTANT NOTICE**

This document is important and should be read in its entirety. If, after reading this Prospectus you have any questions about the Securities being offered under this Prospectus or any other matter, then you should consult your professional advisers without delay.

The Securities offered by this Prospectus should be considered as highly speculative.

---

## IMPORTANT NOTICE

---

This Prospectus is dated 20 February 2025 and was lodged with the ASIC on that date. The ASIC, ASX and their respective officers take no responsibility for the contents of this Prospectus or the merits of the investment to which this Prospectus relates.

No Securities may be issued on the basis of this Prospectus later than 13 months after the date of this Prospectus.

No person is authorised to give information or to make any representation in connection with this Prospectus, which is not contained in this Prospectus. Any information or representation not so contained may not be relied on as having been authorised by the Company in connection with this Prospectus.

It is important that investors read this Prospectus in its entirety and seek professional advice where necessary. The Securities offered by this Prospectus should be considered as highly speculative.

Applications for Securities offered pursuant to this Prospectus can only be made by an original Entitlement and Acceptance Form or Shortfall Application Form.

This Prospectus is a transaction specific prospectus for an offer of continuously quoted securities (as defined in the Corporations Act) and has been prepared in accordance with section 713 of the Corporations Act. It does not contain the same level of disclosure as an initial public offering prospectus and is only required to contain information in relation to the effect of the issue of securities on a company and the rights attaching to the securities. It is not necessary to include general information in relation to all of the assets and liabilities, financial position, profits and losses or prospects of the issuing company.

Representations contained in this Prospectus are made taking into account that the Company is a disclosing entity for the purposes of the Corporations Act and certain matters are publicly available information or may reasonably be expected to be known to investors and professional advisers whom prospective investors may consult.

### No Investment Advice

The information contained in this Prospectus is not financial product advice or investment advice and does not take into account your financial or investment objectives, financial situation or particular needs (including financial or taxation issues). You should seek professional advice from your accountant, financial adviser, stockbroker, lawyer or other professional adviser before deciding to subscribe for Securities under this Prospectus to determine whether it meets your objectives, financial situation and needs.

### Forward-looking statements

This Prospectus contains forward-looking statements which are identified by words such as 'may', 'could', 'believes', 'estimates', 'targets', 'expects', or 'intends' and other similar words that involve risks and uncertainties.

These statements are based on an assessment of present economic and operating conditions, and on a number of assumptions regarding future events and actions that, as at the date of this Prospectus, are expected to take place.

Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties, assumptions and other important

factors, many of which are beyond the control of the Company, the Directors and the Company's management.

The Company cannot and does not give any assurance that the results, performance or achievements expressed or implied by the forward-looking statements contained in this Prospectus will actually occur and investors are cautioned not to place undue reliance on these forward-looking statements.

The Company has no intention to update or revise forward-looking statements, or to publish prospective financial information in the future, regardless of whether new information, future events or any other factors affect the information contained in this Prospectus, except where required by law.

These forward-looking statements are subject to various risk factors that could cause the Company's actual results to differ materially from the results expressed or anticipated in these statements. These risk factors are set out in Section 5.

### Overseas shareholders

This Offer does not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

It is not practicable for the Company to comply with the securities laws of overseas jurisdictions having regard to the number of overseas Shareholders, the number and value of Shares these Shareholders would be offered and the cost of complying with regulatory requirements in each relevant jurisdiction. Accordingly, the Offer is not being extended, and Securities will not be issued to Shareholders with a registered address which is outside Australia or New Zealand.

For further information on overseas Shareholders please refer to Section 2.9.

### Continuous disclosure obligations

The Company is a "disclosing entity" (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Securities.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquiries as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the three months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Please refer to Section 6.2 for further details.

### **Electronic Prospectus**

A copy of this Prospectus can be downloaded from the website of the Company at [www.peakminerals.com.au](http://www.peakminerals.com.au). If you are accessing the electronic version of this Prospectus for the purpose of making an investment in the Company, you must be an Australian or New Zealand resident and must only access this Prospectus from within Australia or New Zealand.

The Corporations Act prohibits any person passing onto another person an Application Form unless it is attached to a hard copy of this Prospectus or it accompanies the complete and unaltered version of this Prospectus. You may obtain a hard copy of this Prospectus free of charge by contacting the Company by phone on +61 8 6143 6748 during office hours or by emailing the Company at [admin@peakminerals.com.au](mailto:admin@peakminerals.com.au).

The Company reserves the right not to accept an Application Form from a person if it has reason to believe that when that person was given access to the electronic Application Form, it was not provided together with the electronic Prospectus and any relevant supplementary or replacement prospectus or any of those documents were incomplete or altered.

### **Company Website**

No documents or other information available on the Company's website is incorporated into this Prospectus by reference.

### **Financial forecasts**

The Directors have considered the matters set out in ASIC Regulatory Guide 170 and believe that they do not have a reasonable basis to forecast future earnings on the basis that the operations of the Company are inherently uncertain. Accordingly, any forecast or projection information would contain such a broad range of potential outcomes and possibilities that it is not possible to prepare a reliable best estimate forecast or projection.

### **Clearing House Electronic Sub-Register System (CHES) and Issuer Sponsorship**

The Company will apply to participate in CHES, for those investors who have, or wish to have, a sponsoring stockbroker. Investors who do not wish to participate through CHES will be issuer sponsored by the Company.

Electronic sub-registers mean that the Company will not be issuing certificates to investors. Instead, investors will be provided with statements (similar to a bank account statement) that set out the number of Securities issued to them under this Prospectus. The notice will also advise holders of their Holder Identification Number or Security Holder Reference Number and explain, for future reference, the sale and purchase procedures under CHES and issuer sponsorship.

Electronic sub-registers also mean ownership of securities can be transferred without having to rely upon paper documentation. Further monthly statements will be provided to holders if there have been any changes in their security holding in the Company during the preceding month.

### **Photographs and Diagrams**

Photographs used in this Prospectus which do not have descriptions are for illustration only and should not be interpreted to mean that any person shown endorses the Prospectus or its contents or that the assets shown in them are owned by the Company. Diagrams used in this Prospectus are illustrative only and may not be drawn to scale.

### **Definitions and Time**

Unless the contrary intention appears or the context otherwise requires, words and phrases contained in this Prospectus have the same meaning and interpretation as given in the Corporations Act and capitalised terms have the meaning given in the Glossary in Section 8.

All references to time in this Prospectus are references to Australian Western Standard Time.

### **Privacy statement**

If you complete an Application Form, you will be providing personal information to the Company. The Company collects, holds and will use that information to assess your application, service your needs as a Shareholder and to facilitate distribution payments and corporate communications to you as a Shareholder.

The information may also be used from time to time and disclosed to persons inspecting the register, including bidders for your securities in the context of takeovers, regulatory bodies including the Australian Taxation Office, authorised securities brokers, print service providers, mail houses and the share registry.

You can access, correct and update the personal information that we hold about you. If you wish to do so, please contact the share registry at the relevant contact number set out in this Prospectus.

Collection, maintenance and disclosure of certain personal information is governed by legislation including the Privacy Act 1988 (as amended), the Corporations Act and certain rules such as the ASX Settlement Operating Rules. You should note that if you do not provide the information required on the application for Securities, the Company may not be able to accept or process your application.

### **Enquiries**

If you are in any doubt as to how to deal with any of the matters raised in this Prospectus, you should consult with your broker or legal, financial or other professional adviser without delay. Should you have any questions about the Offers or how to accept the Offer please call the Company Secretary on +61 8 6143 6748.

### 1.3 Key Risk Factors

Prospective investors should be aware that subscribing for Securities involves a number of risks and an investment in the Company should be considered as highly speculative. The future performance of the Company and the value of the Securities may be influenced by a range of factors, many of which are largely beyond the control of the Company and the Directors. The key risks associated with the Company's business, the industry in which it operates and general risks applicable to all investments in listed securities and financial markets generally are set out in Section 5.

The predominant risks relating to the Company and the Offer are summarised below:

RISK	DESCRIPTION	FURTHER INFORMATION
<b>Going Concern</b>	<p>The Company's Annual Report for the Year Ended 30 June 2024 includes a note on the financial condition of the Company and the possible existence of a material uncertainty about the Company's ability to continue as a going concern.</p> <p>In the event that the Offer is not completed successfully there is significant uncertainty as to whether the Company can continue as a going concern which is likely to have a material adverse effect on the Company's activities.</p>	Section 5.2
<b>Sovereign Risk</b>	<p>The Company has key projects in Cameroon which is considered to be a developing country. As such, the Company will be subject to emerging legal and political systems compared with the system in place in Australia.</p> <p>Possible sovereign risks include, without limitation, changes to the terms of mining legislation including renewal and continuity of tenure of permits, transfers of ownership of acquired permits to the Company, changes to royalty arrangements, changes to taxation rates and concessions, restrictions on foreign ownership and foreign exchange, changing political conditions, changing mining and investment policies and changes in the ability to enforce legal rights.</p>	Section 5.3

#### 1.4 Directors' Interests in Securities

The relevant interest of each of the Directors in the Securities of the Company as at the date of this Prospectus, together with their respective Entitlement, is set out in the table below:

DIRECTOR	SHARES	SHARE ENTITLEMENT	\$	PERCENTAGE (%) FULL SUBSCRIPTION, FULLY DILUTED <sup>5</sup>
Robert Boston <sup>1</sup>	36,766,765	3,676,677	\$29,413	1.37%
Oonagh Malone <sup>2</sup>	30,300,000	3,030,000	\$24,240	1.13%
Mathew O'Hara <sup>3</sup>	48,496,169	4,849,617	\$38,796	1.81%
Phillip Gallagher <sup>4</sup>	118,749,988	11,874,999	\$94,999	4.43%

**Notes:**

1. Mr Boston holds 36,766,765 Shares indirectly through R A B Nominees Pty Ltd <RAB Family A/C> of which Mr Boston is a beneficiary.
2. Ms Malone holds 2,800,000 Shares directly and 27,500,000 Shares indirectly through Malone Corporate Services Pty Ltd.
3. Mr O'Hara holds 48,496,169 Shares indirectly through Mrs Phillipa Lee O'Hara <Ohara Investment A/C>.
4. Held indirectly by Mr Gallagher through Dogbolter Pty Ltd an entity in which Mr Gallagher is the director.
5. Based on a full subscription of 255,211,026 Shares issued under the Offer.

The Board recommends all Shareholders take up their Entitlements. The Board advises that the Directors intend to take up their full Entitlements.

## 1.5 Details of Substantial Holders

Based on publicly available information as at the date of this Prospectus, those persons which (together with their associates) have a relevant interest in 5% or more of the Shares on issue are set out below:

SHAREHOLDER	SHARES	%
Mr Jason Peterson (Sunset Capital Management Pty Ltd <Sunset Superfund A/C>), Cityscape Asset Pty Ltd <Cityscape Family A/C> and Celtic Finance Corp Pty Ltd) <sup>1</sup>	154,993,336	6.07%
Thomas Bahen (Kendali Pty Ltd, Hammerhead Holdings Pty Ltd <HHH S/F A/C> and Malekula Projects Pty Ltd) <sup>2</sup>	167,791,337	6.57%

**Notes:**

1. Refer to Form 603 released on 5 November 2024.
2. Refer to Form 603 released on 13 November 2024.

In the event all Entitlements are accepted there will be no change to the substantial holders on completion of the Offer.

## 1.6 Effect on Control

Based on current shareholding and Entitlements of Shareholders (including substantial Shareholders) as at the date of this Prospectus, regardless of the amount raised under the Offer, no Shareholder will increase their holding, to an amount in excess of 19.9% through applying for their Entitlements.

Further as set out in Section 2.6, on the basis of the allocation policy, no person will acquire, through participation in the Shortfall Offer a holding of Shares of, or increase their holding to, an amount in excess of 19.9% of all the Shares on issue on completion of the Offer.

## 1.7 Potential dilution on non-participating Shareholders

In addition to potential control impacts set out in Section 1.6, Shareholders should note that if they do not participate in the Offer, their holdings are likely to be diluted by approximately 9.09% (as compared to their holdings and number of Shares on issue as at the date of this Prospectus).

For illustrative purposes, the table below shows how the dilution may impact the holdings of Shareholders:

HOLDER	HOLDING AS AT RECORD DATE	% AT RECORD DATE	ENTITLEMENT S UNDER THE OFFER	HOLDINGS IF OFFER NOT TAKEN UP	% POST OFFER
Shareholder 1	10,000,000	0.39%	1,000,000	10,000,000	0.36%
Shareholder 2	5,000,000	0.20%	500,000	5,000,000	0.18%
Shareholder 3	1,500,000	0.06%	150,000	1,500,000	0.05%
Shareholder 4	400,000	0.02%	40,000	400,000	0.01%
Shareholder 5	50,000	0.00%	5,000	50,000	0.00%

**Notes:**

1. This is based on a share capital of 2,552,110,264 Shares as at the date of the Prospectus and assumes no Options currently on issue or other Shares are issued including Options are exercised.
2. The dilutionary effect shown in the table is the maximum percentage on the assumption that those Entitlements not accepted by Eligible Shareholders are placed under the Shortfall Offer. In the event all Entitlements are not accepted and some or all of the resulting Shortfall was not subsequently placed, the dilution effect for each Shareholder not accepting their Entitlement would be a lesser percentage.

## 2. DETAILS OF THE OFFER

### 2.1 The Offer

The Offer is being made as a pro-rata non-renounceable entitlement issue of 1 Share for every 10 Shares held by Shareholders registered at the Record Date at an issue price of \$0.008 per Share. Fractional entitlements will be rounded up to the nearest whole number.

Based on the capital structure of the Company as at the date of this Prospectus, (and assuming Shares are issued prior to the Record Date including on exercise or conversion of securities on issue) approximately 255,211,026 Shares may be issued under the Offer to raise up to \$2,041,688.

As at the date of this Prospectus the Company has 142,000,000 Options on issue all of which may be exercised prior to the Record Date in order to participate in the Offer. Please refer to Section 3.3 for information on the exercise price and expiry date of the Options on issue.

All of the Shares offered under this Prospectus will rank equally with the Shares on issue at the date of this Prospectus. Please refer to Section 4.1 for further information regarding the rights and liabilities attaching to the Shares.

The purpose of the Offer and the intended use of funds raised are set out in Section 3.

### 2.2 What Eligible Shareholders may do

The number of Securities to which Eligible Shareholders are entitled is shown on the personalised Entitlement and Acceptance Form which accompanies this Prospectus. Eligible Shareholders may choose any of the options set out in the table below.

<b>Allow all or part of your Entitlement to lapse</b>	If you do not wish to accept any part of your Entitlement, you are not obliged to do anything. If you do not take up your Entitlement by the Closing Date, the Offer to you will lapse.	N/A

The Offer is non-renounceable. Accordingly, a Shareholder may not sell or transfer all or part of their Entitlement.

## 2.3 Payment options

### (a) By BPAY®

For payment by BPAY®, please follow the instructions on the Entitlement and Acceptance Form. You can only make a payment via BPAY® if you are the holder of an account with an Australian financial institution that supports BPAY® transactions. Please note that should you choose to pay by BPAY®:

- (i) you do not need to submit the Entitlement and Acceptance Form but are taken to have made the declarations on that Entitlement and Acceptance Form;
- (ii) if you do not pay for your Entitlement in full, you are deemed to have taken up your Entitlement in respect of such whole number of Shares which is covered in full by your Application monies; and
- (iii) if you pay more than is required to subscribe for your Entitlement, you will be taken to have applied for Shortfall Shares (if any) under the Shortfall Offer, to the extent of the excess.

You should be aware that your own financial institution may implement earlier cut-off times with regard to electronic payment, and you should therefore take this into consideration when making payment. **It is your responsibility to ensure that funds submitted through BPAY® are received by 5:00pm (WST) on the Closing Date. The Company shall not be responsible for any delay in the receipt of the BPAY® payment.**

### **Guidance where you have more than one CRN (Shareholding of Shares)**

If you have more than one shareholding of Shares and consequently receive more than one Entitlement and Acceptance Form, when taking up your Entitlement in respect of one of those Shareholdings only use the CRN specific to that Shareholding as set out in the applicable Entitlement and Acceptance Form. **Do not use the same CRN for more than one of your Shareholdings.** This can result in your Application monies being applied to your Entitlement in respect of only one of your Shareholdings (with the result that any Application in respect of your remaining Shareholdings will not be valid).

(b) **By Electronic Funds Transfer (overseas applicants)**

For payment by Electronic Funds Transfer (**EFT**) for overseas Eligible Shareholders, please follow the instructions on the Entitlement and Acceptance Form. You can only make a payment via EFT if you are the holder of an account that supports EFT transactions to an Australian bank account. Please note that should you choose to pay by EFT:

- (i) you do not need to submit the Entitlement and Acceptance Form but are taken to have made the declarations on that Entitlement and Acceptance Form;
- (ii) if you do not pay for your Entitlement in full, you are deemed to have taken up your Entitlement in respect of such whole number of Shares which is covered in full by your Application monies; and
- (iii) if you pay more than is required to subscribe for your Entitlement, you will be taken to have applied for Shortfall Shares (if any) under the Shortfall Offer, to the extent of the excess.

(c) **By Cheque**

Payment by cheque or cash will not be accepted.

**2.4 Implications of an acceptance**

Returning a completed Entitlement and Acceptance Form or paying any Application monies by BPAY® or EFT will be taken to constitute a representation by you that:

- (a) you have received a copy of this Prospectus and the accompanying Entitlement and Acceptance Form, and read them both in their entirety; and
- (b) you acknowledge that once the Entitlement and Acceptance Form is returned, or a BPAY® or EFT payment instruction is given in relation to any Application monies, the application may not be varied or withdrawn except as required by law.

**2.5 Minimum subscription**

There is no minimum subscription.

**2.6 Shortfall Offer**

Any Entitlement not taken up pursuant to the Offer will form the Shortfall Offer (**Shortfall Shares**). The Shortfall Offer is a separate offer made pursuant to this Prospectus and will remain open for up to three months following the Closing Date. The issue price for each Share to be issued under the Shortfall Offer shall be \$0.008 being the price at which Shares have been offered under the Offer.

If you do not wish to take up any part of your Entitlement you are not required to take any action. That part of your Entitlement not taken up will form part of the Shortfall Offer and potentially be allocated to other Eligible Shareholders or other third parties as part of the Shortfall Offer. The Shortfall Offer will only be available where there is a Shortfall between applications received from Eligible Shareholders and the number of Shares proposed to be issued under the Offer.

Allocation of the Shortfall Shares will be at the discretion of the Board. The Board presently intends to allocate Shortfall Shares as follows:

- (a) to other parties identified by the Directors, which may include parties who are not currently Shareholders; and then
- (b) to Eligible Shareholders who apply for an excess of their full Entitlement, however the Company reserves the right to issue an Eligible Shareholder a lesser number of Shortfall Securities than applied for.

If the Offer is oversubscribed (by take up of Entitlements and applications for Shortfall Shares by Eligible Shareholders), scale back will be applied to applications under the Shortfall Offer on a pro-rata basis to the respective shareholdings of Eligible Shareholders.

There is no guarantee that Eligible Shareholders will receive Securities applied for under the Shortfall Offer.

No Securities will be issued to an applicant under this Prospectus or via the Shortfall Offer if the issue of Securities would contravene the takeover prohibition in section 606 of the Corporations Act. Similarly, no Securities will be issued via the Shortfall Offer to any related parties of the Company.

## **2.7 ASX listing**

Application for Official Quotation of the Shares offered pursuant to this Prospectus will be made within 7 days after the date of this Prospectus. If ASX does not grant Official Quotation of the Shares offered pursuant to this Prospectus before the expiration of three months after the date of issue of the Prospectus, (or such period as varied by the ASIC), the Company will not issue any Shares and will repay all Application monies for the Shares within the time prescribed under the Corporations Act, without interest.

The fact that ASX may grant Official Quotation to the Shares is not to be taken in any way as an indication of the merits of the Company or the Shares now offered for subscription.

## **2.8 Issue of Securities**

Securities issued pursuant to the Offer will be issued in accordance with the ASX Listing Rules and timetable set out at Section 1.

Securities issued pursuant to the Shortfall Offer will be issued on a progressive basis. Where the number of Securities issued is less than the number applied for, or where no issue is made surplus Application monies will be refunded without any interest to the Applicant as soon as practicable after the closing date of the Shortfall Offer.

Pending the issue of the Securities or payment of refunds pursuant to this Prospectus, all Application monies will be held by the Company in trust for the Applicants in a separate bank account as required by the Corporations Act. The Company, however, will be entitled to retain all interest that accrues on the bank account and each Applicant waives the right to claim interest.

Holding statements for Securities issued under the Offer will be mailed as soon as practicable after the issue of Securities and for Shortfall Shares issued under the Shortfall Offer as soon as practicable after their issue.

## **2.9 Overseas shareholders**

This Offer does not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

It is not practicable for the Company to comply with the securities laws of overseas jurisdictions having regard to the number of overseas Shareholders, the number and value of Securities these Shareholders would be offered and the cost of complying with regulatory requirements in each relevant jurisdiction. Accordingly, the Offer is not being extended and Shares will not be issued to Shareholders with a registered address which is outside Australia or New Zealand.

### **New Zealand**

The Securities are not being offered to the public within New Zealand other than to existing shareholders of the Company with registered addresses in New Zealand to whom the offer of these securities is being made in reliance on the transitional provisions of the Financial Markets Conduct Act 2013 (New Zealand) and the Financial Markets Conduct (Incidental Offers) Exemption Notice 2021 (New Zealand).

This Prospectus has been prepared in compliance with Australian law and has not been registered, filed with or approved by any New Zealand regulatory authority. This document is not a product disclosure statement under New Zealand law and is not required to, and may not, contain all the information that a product disclosure statement under New Zealand law is required to contain.

***Nominees and custodians***

Nominees and custodians may not submit an Entitlement and Acceptance Form on behalf of any Shareholder resident outside Australia and New Zealand without the prior consent of the Company, taking into account relevant securities law restrictions. Return of a duly completed Entitlement and Acceptance Form will be taken by the Company to constitute a representation that there has been no breach of those regulations.

### 3. PURPOSE AND EFFECT OF THE OFFER

#### 3.1 Purpose of the offer

The purpose of the Offer is to raise up to \$2,041,688 before costs.

The funds raised from the Offer are intended to be applied in accordance with the table set out below:

ITEM	PROCEEDS OF THE OFFER	FULL SUBSCRIPTION (\$)	%
1.	Ongoing exploration activities at the Minta Rutile Project, West Africa <sup>1</sup>	1,150,000	56.33
2.	Initial exploration activities at the Kitongo and Lolo Uranium Projects, West Africa <sup>2</sup>	300,000	14.69
3.	Ongoing exploration activities at the Company's existing assets located in Western Australia and Victoria	150,000	7.35
4.	Working capital	384,819	18.84
5.	Expenses of the Offer <sup>3</sup>	56,869	2.79
<b>Total</b>		<b>\$2,041,688</b>	<b>100%</b>

**Notes:**

1. Including for ongoing drilling activities across the Minta and Minta Est deposits, first pass exploration activities across other project areas, infill drilling at target zones following receipt of assays and other associated exploration costs such as consultant and assay expenses.
2. Including for first pass mapping and rock chip sampling, a scintillometer radiometric survey and channel sampling activities.
3. Refer to Section 6.7 for further details relating to the estimated expenses of the Offer.

On completion of the Offer, the Board believes the Company will have sufficient working capital to achieve its stated objectives. In the event the Offer is not fully subscribed, operational objectives are likely to be modified, which may result in delay or substantial changes to the Company's future plans. In this event (and after accounting for associated Offer costs) it is likely that the Company will appropriate scale back funds available for ongoing exploration activities at the Minta Rutile Project (Item 1), and initial exploration activities at the Kitongo and Lolo Uranium Projects (Item 2). In addition, it should be noted that the Company's budgets and forecasts will be subject to modification on an ongoing basis depending on the results achieved from its business activities and operations.

The above table is a statement of current intentions as of the date of this Prospectus. As with any budget, intervening events (including exploration success or failure) and new circumstances have the potential to affect the manner in which the funds are ultimately applied. The Board reserves the right to alter the way funds are applied on this basis.

#### 3.2 Effect of the Offer

The principal effect of the Offer, assuming all Entitlements are accepted, and no Options are exercised prior to the Record Date, will be to:

- (a) increase the cash reserves by \$2,041,688 (after deducting the estimated expenses of the Offer) immediately after completion of the Offer; and
- (b) increase the number of Shares on issue from 2,552,110,264 as at the date of this Prospectus to 2,807,321,290 Shares.

#### 3.3 Effect on capital structure

The effect of the Offer on the capital structure of the Company, assuming all Entitlements are accepted and no Options are exercised prior to the Record Date, is set out below.

## Shares

	NUMBER
Shares currently on issue	2,552,110,264
Shares offered pursuant to the Offer	255,211,026
<b>Total Shares on issue after completion of the Offer</b>	<b>2,807,321,290</b>

## Options

	NUMBER
Options currently on issue	
Unquoted Options exercisable at \$0.005 on or before 25 September 2027	90,000,000
Unquoted Options exercisable at \$0.0165 and expiring 10 February 2028	40,000,000
Unquoted Options exercisable at \$0.02 and expiring 10 February 2028	12,000,000
Options to be issued pursuant to the Offer	Nil
<b>Total Options on issue after completion of the Offer<sup>1</sup></b>	<b>142,000,000</b>

### Notes:

- As announced by the Company on 11 February 2025, the Company agreed to issue the Chief Executive Officer (CEO), Casper Adson, with 28 million unquoted options, each with an exercise price of \$0.02 and expiring on 10 February 2028. These Options are proposed to be issued under the Company's Employee Securities Incentive Plan (Plan) following refreshment of the Plan at the Company's next General Meeting. The Company reserves the right to issue these Options to Mr Adson under its Listing Rule 7.1 capacity.

The capital structure on a fully diluted basis as at the date of this Prospectus would be 2,552,110,264 Shares and on completion of the Offer (assuming all Entitlements are accepted no Options are exercised prior to the Record Date) would be 2,859,321,290 Shares.

No Shares, Options or Performance Rights on issue are subject to escrow restrictions, either voluntary or ASX imposed.

### 3.4 Pro-forma balance sheet

The unaudited balance sheet as at 31 December 2024 shown below has been prepared on the basis of the accounting policies normally adopted by the Company and reflect the changes to its financial position.

The pro-forma balance sheet has been prepared assuming all Entitlements are accepted, no Options or convertible securities are exercised prior to the Record Date and including expenses of the Offer.

The pro-forma balance sheet has been prepared to provide investors with information on the assets and liabilities of the Company and pro-forma assets and liabilities of the Company as noted below. The historical and pro-forma financial information is presented in an abbreviated form, insofar as it does not include all of the disclosures required by Australian Accounting Standards applicable to annual financial statements.

## **4. RIGHTS AND LIABILITIES ATTACHING TO SHARES**

### **4.1 Rights and liabilities attaching to Shares**

The following is a summary of the more significant rights and liabilities attaching to the Shares being offered pursuant to this Prospectus. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights and liabilities attaching to Shares are set out in the Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

#### **(a) General meetings**

Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of the Company. The Company's constitution permits the use of technology at general meetings of shareholders (including wholly virtual meetings). To the extent permitted under the Corporations Act, Listing Rules and applicable law.

Shareholders may requisition meetings in accordance with section 249D of the Corporations Act and the Constitution of the Company.

#### **(b) Voting rights**

Subject to any rights or restrictions for the time being attached to any class or classes of shares, at general meetings of shareholders or classes of shareholders:

- (i) each Shareholder entitled to vote may vote in person or by proxy, attorney or representative;
- (ii) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (iii) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder shall, in respect of each fully paid Share held by him, or in respect of which he is appointed a proxy, attorney or representative, have one vote for each Share held, but in respect of partly paid shares shall have such number of votes as bears the same proportion to the total of such Shares registered in the Shareholder's name as the amount paid (not credited) bears to the total amounts paid and payable (excluding amounts credited).

#### **(c) Dividend rights**

Subject to the rights of any preference Shareholders and to the rights of the holders of any shares created or raised under any special arrangement as to dividend, the Directors may from time to time declare a dividend to be paid to the Shareholders entitled to the dividend which shall be payable on all Shares according to the proportion that the amount paid (not credited) is of the total amounts paid and payable (excluding amounts credited) in respect of such Shares.

The Directors may from time to time pay to the Shareholders any interim dividends as they may determine. No dividend shall carry interest as against the Company. The Directors may set aside out of the profits of the Company any amounts that they may determine as reserves, to be applied at the discretion of the Directors, for any purpose for which the profits of the Company may be properly applied.

Subject to the ASX Listing Rules and the Corporations Act, the Company may, by resolution of the Directors, implement a dividend reinvestment plan on such terms and conditions as the Directors think fit and which provides for any dividend which the Directors may declare from time to time payable on Shares which are participating Shares in the dividend reinvestment plan, less any amount which the Company shall either pursuant to the Constitution or any law

be entitled or obliged to retain, be applied by the Company to the payment of the subscription price of Shares.

(d) **Winding-up**

If the Company is wound up, the liquidator may, with the authority of a special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company, and may for that purpose set such value as he considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

The liquidator may, with the authority of a special resolution, vest the whole or any part of any such property in trustees upon such trusts for the benefit of the contributories as the liquidator thinks fit, but so that no Shareholder is compelled to accept any shares or other securities in respect of which there is any liability.

(e) **Shareholder liability**

As the Shares issued will be fully paid shares, they will not be subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

(f) **Transfer of shares**

Generally, shares in the Company are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act and the ASX Listing Rules.

(g) **Future increase in capital**

The issue of any new Shares is under the control of the Directors of the Company. Subject to restrictions on the issue or grant of securities contained in the ASX Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing share or class of shares), the Directors may issue Shares as they shall, in their absolute discretion, determine.

(h) **Variation of rights**

Under section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to Shares.

If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

(i) **Alteration of constitution**

In accordance with the Corporations Act, the Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at the general meeting. In addition, at least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

## 5. RISK FACTORS

### 5.1 Introduction

The Shares offered under this Prospectus should be considered as highly speculative and an investment in the Company is not risk free.

The Directors strongly recommend that prospective investors consider the risk factors set out in this Section 5, together with all other information contained in this Prospectus.

The future performance of the Company and the value of the Securities may be influenced by a range of factors, many of which are largely beyond the control of the Company and the Directors. The key risks associated with the Company's business, the industry in which it operates and general risks applicable to all investments in listed securities and financial markets generally are described below.

The risks factors set out in this Section 5, or other risk factors not specifically referred to, may have a materially adverse impact on the performance of the Company and the value of the Shares. This Section 5 is not intended to provide an exhaustive list of the risk factors to which the Company is exposed.

Before determining whether to invest in the Company you should ensure that you have a sufficient understanding of the risks described in this Section 5 and all of the other information set out in this Prospectus and consider whether an investment in the Company is suitable for you, taking into account your objectives, financial situation and needs.

If you do not understand any matters contained in this Prospectus or have any queries about whether to invest in the Company, you should consult your accountant, financial adviser, stockbroker, lawyer or other professional adviser.

### 5.2 Company specific

RISK CATEGORY	RISK
<b>Potential for dilution</b>	<p>In addition to potential control impacts set out in Section 1.6, Shareholders should note that if they do not participate in the Offer, their holdings are likely to be diluted by approximately 9.09% (as compared to their holdings and number of Shares on issue as at the date of this Prospectus).</p> <p>It is not possible to predict what the value of the Company, a Share will be following the completion of the Offer being implemented and the Directors do not make any representation as to such matters.</p> <p>The last trading price of Shares on ASX prior to the Prospectus being lodged of \$0.011 is not a reliable indicator as to the potential trading price of Shares after implementation of the Offer.</p>
<b>Additional requirements for capital</b>	<p>The Company's capital requirements depend on numerous factors. Depending on the Company's ability to generate income from its operations, the Company may require further financing in addition to amounts raised under the Offer. Any additional equity financing will dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations and scale back its exploration programmes as the case may be. There is however no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company.</p>

RISK CATEGORY	RISK
<b>Going Concern</b>	<p>The Company's Annual Report for the Year Ended 30 June 2024 (<b>Financial Report</b>) includes a note on the financial condition of the Company and the possible existence of a material uncertainty about the Company's ability to continue as a going concern.</p> <p>The consolidated entity made a loss after tax of \$902,265 for the year ended 30 June 2024 (30 June 2023: loss of \$1,649,926) and the net cash used in operating activities was \$718,956 (30 June 2023: \$1,543,628 net flow).</p> <p>Notwithstanding the 'going concern' comments included in the Financial Report, the Directors believe that upon the successful completion of the Offer, the Company will have sufficient funds to adequately meet the Company's current exploration commitments and short term working capital requirements. However, it is highly likely that further funding will be required to meet the medium to long term working capital costs of the Company.</p> <p>In the event that the Offer is not completed successfully there is significant uncertainty as to whether the Company can continue as a going concern which is likely to have a material adverse effect on the Company's activities.</p>
<b>Climate Risk</b>	<p>There are a number of climate-related factors that may affect the operations and proposed activities of the Company. The climate change risks particularly attributable to the Company include:</p> <ul style="list-style-type: none"> <li>(a) the emergence of new or expanded regulations associated with the transitioning to a lower-carbon economy and market changes related to climate change mitigation. The Company may be impacted by changes to local or international compliance regulations related to climate change mitigation efforts, or by specific taxation or penalties for carbon emissions or environmental damage. These examples sit amongst an array of possible restraints on industry that may further impact the Company and its profitability. While the Company will endeavour to manage these risks and limit any consequential impacts, there can be no guarantee that the Company will not be impacted by these occurrences; and</li> <li>(b) climate change may cause certain physical and environmental risks that cannot be predicted by the Company, including events such as increased severity of weather patterns and incidence of extreme weather events and longer-term physical risks such as shifting climate patterns. All these risks associated with climate change may significantly change the industry in which the Company operates.</li> </ul>
<b>Pandemics</b>	<p>The outbreak of a pandemic such as the coronavirus disease (SARS-CoV-2 (severe acute respiratory syndrome coronavirus 2), coronavirus disease 2019 or COVID 19, including any future resurgence or evolutions or mutations thereof or any related or associated epidemic, pandemic or disease outbreak) (<b>COVID-19</b>) may impact global economic markets. While COVID-19 is not currently materially affecting the Company's operations, with the potential for further outbreaks and new strains of the virus, the ongoing nature and extent of the effect</p>

RISK CATEGORY	RISK
	<p>of the COVID-19 outbreak on the performance of the Company remains unknown.</p> <p>The Company's Share price may be adversely affected in the short to medium term by the economic uncertainty caused by a pandemic such as COVID-19. Further, any governmental or industry measures taken in response to a pandemic may adversely impact the Company's operations and are likely to be beyond the control of the Company.</p> <p>In addition, the effects of a pandemic on the market price of the Shares and global financial markets generally may also affect the Company's ability to raise equity or debt if and when required or require the Company to issue capital at a discount, which may result in dilution for some or all Shareholders.</p>
<b>Exploration costs</b>	<p>The exploration costs of the Company are based on certain assumptions with respect to the method and timing of exploration. By their nature, these estimates and assumptions are subject to significant uncertainties and, accordingly, the actual costs may materially differ from these estimates and assumptions. Accordingly, no assurance can be given that the cost estimates and the underlying assumptions will be realised in practice, which may materially and adversely affect the Company's viability.</p>
<b>Funding and future capital needs</b>	<p>As at the date of this Prospectus, the Company has no income producing assets and will generate losses for the foreseeable future. Until it is able to develop a project and generate appropriate cash flow, it is dependent upon being able to obtain future equity debt funding to support long term exploration, after the expenditure of the net proceeds raised under the Offers. Further funding will be required by the Company to support its ongoing activities and operations. There can be no assurance that such funding will be available on satisfactory terms or at all. Further, if additional funds are raised by issuing equity securities, this may result in dilution for some or all of the Shareholders.</p> <p>Neither the Company nor any of the Directors or any other party can provide any guarantee or assurance that if further funding is required, such funding can be raised on terms favourable to the Company.</p> <p>Any additional equity funding will dilute existing Shareholders.</p> <p>Also, no guarantee or assurance can be given as to when a project can be developed to the stage where it will generate cash flow. As such, a project would be dependent on many factors, for example exploration success, subsequent mine development, commissioning and operational performance.</p>
<b>Exploration success</b>	<p>The Company's tenements are at various stages of exploration, and potential investors should understand that mineral exploration and development are speculative and high-risk undertakings that may be impeded by circumstances and factors beyond the control of the Company. Success in this process involves, among other things:</p> <ul style="list-style-type: none"> <li>(a) discovery and proving-up, or acquiring, an economically recoverable resource or reserve;</li> <li>(b) access to adequate capital throughout the acquisition/discovery and project development phases;</li> </ul>

RISK CATEGORY	RISK
	<p>(c) securing and maintaining title to mineral exploration projects;</p> <p>(d) obtaining required development consents and approvals necessary for the acquisition, mineral exploration, development and production phases; and</p> <p>(e) accessing the necessary experienced operational staff, the applicable financial management and recruiting skilled contractors, consultants and employees.</p> <p>There can be no assurance that exploration of the tenements, or any other exploration properties that may be acquired in the future, will result in the discovery of an economic mineral resource. Even if an apparently viable deposit is identified, there is no guarantee that it can be economically exploited.</p> <p>There is no assurance that exploration or project studies by the Company will result in the definition of an economically viable mineral deposit or that the exploration tonnage estimates, and conceptual project developments discussed in this Prospectus are able to be achieved.</p> <p>The future exploration activities of the Company may be affected by a range of factors including geological conditions, limitations on activities due to seasonal weather patterns or adverse weather conditions, unanticipated operational and technical difficulties, difficulties in commissioning and operating plant and equipment, mechanical failure or plant breakdown, unanticipated metallurgical problems which may affect extraction costs, industrial and environmental accidents, industrial disputes, unexpected shortages and increases in the costs of consumables, spare parts, plant, equipment and staff, native title process and Aboriginal heritage factors, changing government regulations and many other factors beyond the control of the Company.</p>

### 5.3 Risks specific to doing business in Cameroon

RISK CATEGORY	RISK
<b>Risks associated with operating in West Africa</b>	<p>On 5 July 2024, the Company announced that it had executed binding agreements with respect to its acquisition of an 80% interest in uranium and rutile projects in Cameroon (<b>Acquisition</b>). As announced by the Company on 15 October 2024, the Acquisition completed on or about 16 September 2024. The Company is therefore subject to the risks associated with operating in Cameroon.</p> <p>Such risks can include economic, social or political instability or change, disease outbreak, hyperinflation, currency instability and changes of law affecting foreign ownership, government participation, taxation, working conditions, royalty arrangements, mining, rates of exchange, export duties, mine safety, labour relations, exploration licensing, environmental protection, as well as government control over mineral properties or government regulations that require the employment of local residents or contractors.</p> <p>In addition, changes to exploration, mining or investment policies or a shift in political attitude in the jurisdictions in which the Company operates may adversely affect the Company's proposed operations and profitability. The Company may also</p>

RISK CATEGORY	RISK
	<p>be required by local authorities to invest in social projects for the benefit of the local community.</p> <p>Any of these factors may, in the future, adversely affect the financial performance of the Company and the market price of its shares. No assurance can be given regarding future stability in any country in which the Company operates.</p>
<b>Legal system</b>	<p>The legal system of Cameroon is less developed than those in more established countries and this could result in the following risks:</p> <ul style="list-style-type: none"> <li>(a) political difficulties in obtaining effective legal redress in courts whether in respect of a breach of law or regulation or in an ownership dispute;</li> <li>(b) a higher degree of discretion held by various government officials or agencies;</li> <li>(c) the lack of political or administrative guidance on implementing applicable rules and regulations, particularly in relation to taxation and property rights;</li> <li>(d) inconsistencies or conflicts between and within various laws, regulations, decrees, orders and resolutions; or</li> <li>(e) relative inexperience of the judiciary and courts in matters affecting the Company.</li> </ul> <p>The commitment from local business people, government officials and the judicial system to abide by legal requirements and negotiated agreements may be more uncertain, creating particular concerns with respect to licences and agreements material to the operations of the Company. There can be no assurance that the Company will not be adversely affected by the actions of the government authorities or others. As such, the effectiveness and enforcement of such arrangements cannot be assured.</p>
<b>Civil unrest</b>	<p>Cameroon has recently experienced elements of civil unrest, along with terrorist activities and insurgencies. No assurance can be given that such activities and insurgencies will not continue or recur. The security of the Company's employees and contractors in Cameroon is key to the Company's ability to perform its exploration and development activities and hence its success. The security environment in Cameroon may deteriorate and adversely affect the Company's operations or profitability.</p>
<b>Sovereign Risk</b>	<p>The Company has key projects in Cameroon which is considered to be a developing country. As such, the Company will be subject to emerging legal and political systems compared with the system in place in Australia.</p> <p>Possible sovereign risks include, without limitation, changes to the terms of mining legislation including renewal and continuity of tenure of permits, transfers of ownership of acquired permits to the Company, changes to royalty arrangements, changes to taxation rates and concessions, restrictions on foreign ownership and foreign exchange, changing political conditions, changing mining and investment policies and changes in the ability to enforce legal rights.</p>

## 5.4 Industry specific

RISK CATEGORY	RISK
<b>Title</b>	<p>The exploration licences in which the Company has now, or may, in the future, acquire an interest, including its applications for permits, are subject to the applicable local laws and regulations. Although the Company has taken steps to verify the title to the resource properties in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee title. Title to resource properties may be subject to unregistered prior agreements or transfers and may also be affected by undetected defects or other stakeholder rights.</p> <p>All of the tenements in which the Company has an interest will be subject to application for licences renewal from time to time. Renewal of the term of each licence is subject to applicable legislation. There is no guarantee that any licences, applications or conversions in which the Company has a current or potential interest will be granted. If the licence is not renewed for any reason, the Company may suffer significant damage through loss of the opportunity to develop and discover any mineral resources on that licence.</p>
<b>Exploration and development risks</b>	<p>Mineral exploration and development are high-risk undertakings, and there is no assurance that exploration of the Company's tenements will result in the discovery of an economic resource deposit. Even if an apparently viable deposit is identified there is no guarantee that it can be economically exploited.</p> <p>The future exploration activities of the Company may be affected by a range of factors including geological conditions, limitations on activities due to permitting requirements, availability of appropriate exploration equipment, exploration costs, seasonal weather patterns, unanticipated operational and technical difficulties, industrial and environmental accidents and many other factors beyond the control of the Company.</p> <p>The success of the Company will also depend upon the Company having access to sufficient development capital, being able to maintain title to its tenements and obtaining all required approvals for its activities. In the event that exploration programmes prove to be unsuccessful this could lead to a diminution in the value of the tenements, a reduction in the cash reserves of the Company and possible relinquishment of the tenements.</p>
<b>Failure to satisfy Expenditure Commitments</b>	<p>Interests in tenements in Western Australia are governed by legislation and are evidenced by the granting of leases and licences by the State. The Company is subject to the <i>Mining Act 1978 (WA)</i> (<b>Mining Act</b>) and the Company has an obligation to meet conditions that apply to the tenements, including the payment of rent and prescribed annual expenditure commitments.</p> <p>The tenements held by the Company are subject to annual review and periodic renewal. While it is the Company's intention to satisfy the conditions that apply to the tenements, there can be no guarantees made that, in the future, the tenements that are subject to renewal will be renewed or that minimum expenditure and other conditions that apply to the tenements will be satisfied. Renewal conditions may include increased expenditure and work commitments or compulsory</p>

RISK CATEGORY	RISK
	<p>relinquishment of areas of the tenements.</p> <p>If a tenement holder fails to comply with the terms and conditions of a tenement, the Warden or Minister (as applicable) may impose a fine or order that the tenement be forfeited. In most cases an order for forfeiture can only be made where the breach is of sufficient gravity to justify forfeiture of the tenement. In certain cases, a third party can institute administrative proceedings under the Mining Act before the Warden seeks forfeiture of the tenement.</p> <p>As of the date of this Prospectus, the Company is in compliance with respect to its material tenements' minimum expenditure commitments.</p>
<b>Operating risk</b>	<p>The operations of the Company may be affected by various factors, including failure to locate or identify mineral deposits, failure to achieve predicted grades in exploration and mining, operational and technical difficulties encountered in mining, difficulties in commissioning and operating plant and equipment, mechanical failure or plant breakdown, unanticipated metallurgical problems which may affect extraction costs, adverse weather conditions, industrial and environmental accidents, industrial disputes and unexpected shortages or increases in the costs of consumables, spare parts, plant and equipment.</p> <p>No assurances can be given that the Company will achieve commercial viability through the successful exploration and/or mining of its tenements, or any other tenements that may be acquired by the Company in the future. Until the Company is able to realise value from its projects, it is likely to incur ongoing operating losses.</p>
<b>Metallurgy</b>	<p>Metal and/or mineral recoveries are dependent upon the metallurgical process, and by its nature contain elements of significant risk such as:</p> <ul style="list-style-type: none"> <li>(a) identifying a metallurgical process through test work to produce a saleable metal and/or concentrate;</li> <li>(b) developing an economic process route to produce a metal and/or concentrate; and</li> <li>(c) changes in mineralogy in the ore deposit can result in inconsistent metal recovery, affecting the economic viability of the project.</li> </ul>
<b>Payment obligations</b>	<p>The Company will become subject to payment and other obligations. In particular, tenement holders are required to expend the funds necessary to meet the minimum work commitments attaching to their projects. Failure to meet these work commitments may render the Company's projects subject to forfeiture or result in the holders being liable for fees. Further, if any contractual obligations are not complied with when due, in addition to any other remedies that may be available to other parties, this could result in dilution or forfeiture of the Company's interest in its projects.</p>
<b>Occupational health and safety</b>	<p>The Company is committed to providing a healthy and safe environment for its personnel, contractors and visitors. Mining activities have inherent risks and hazards. The Company provides appropriate instructions, equipment, preventative measures, first aid information and training to all stakeholders through its occupational, health and safety management</p>

RISK CATEGORY	RISK
	systems.
<b>Metals and currency price volatility</b>	<p>The Company's ability to proceed with the development of its projects and benefit from any future mining operations will depend on market factors, some of which may be beyond its control. It is anticipated that any revenues derived from mining will primarily be derived from the sale of gold and base metals. Consequently, any future earnings are likely to be closely related to the price of this commodity and the terms of any off-take agreements that the Company enters into.</p> <p>The world market for minerals is subject to many variables and may fluctuate markedly. These variables include world demand for gold and base metals that may be mined commercially in the future from the Company's project areas, forward selling by producers and production cost levels in major mineral-producing regions. Mineral prices are also affected by macroeconomic factors such as general global economic conditions and expectations regarding inflation and interest rates. These factors may have an adverse effect on the Company's exploration, development and production activities, as well as on its ability to fund those activities.</p> <p>Metals are principally sold throughout the world in US dollars. The Company's cost base will be payable in various currencies including Australian dollars and US dollars. As a result, any significant and/or sustained fluctuations in the exchange rate between the Australian dollar and the US dollar could have a materially adverse effect on the Company's operations, financial position (including revenue and profitability) and performance. The Company may undertake measures, where deemed necessary by the Board to mitigate such risks.</p>
<b>Competition risk</b>	<p>The industry in which the Company will be involved is subject to domestic and global competition, including major mineral exploration and production companies. Although the Company will undertake all reasonable due diligence in its business decisions and operations, the Company will have no influence or control over the activities or actions of its competitors, which activities or actions may, positively or negatively, affect the operating and financial performance of the Company's projects and business.</p>
<b>Land access risk</b>	<p>Land access is critical for exploration and evaluation to succeed. In all cases the acquisition of prospective mining licences is a competitive business, in which proprietary knowledge or information is critical and the ability to negotiate satisfactory commercial arrangements with other parties is often essential.</p> <p>Access to land for exploration purposes can be affected by small non-mechanised mining operations or land ownership, including registered and unregistered land interests and regulatory requirements within the jurisdiction where the Company operates.</p>
<b>Safety</b>	<p>Safety is a fundamental risk for any exploration and production company in relation to personal injury, damage to property and equipment and other losses. The occurrence of any of these risks could result in legal proceedings against the Company and substantial losses to the Company due to injury or loss of life, damage or destruction of property, regulatory investigation, and penalties or suspension of operations.</p> <p>Damage occurring to third parties as a result of such risks may</p>

RISK CATEGORY	RISK
	give rise to claims against the Company.
<b>Third party risks</b>	<p>The Company acknowledges that exploration success may result in extended work programs on its tenements that may require further third party consents and/or compliance with compensation obligations with respect to the private landholders, underlying petroleum tenure, native title processes and pastoralist activities. As part of the process of submitting a program of works for any ground disturbing activities, pastoralists and other third parties will be notified and the Company will work to minimise disturbance in relation to the proposed activities in accordance with applicable law. The Directors acknowledge that delays may be caused to commencement of exploration programs.</p>
<b>Environmental risk</b>	<p>As with all exploration projects and mining operations, the Company's activities are expected to have an impact on the environment, particularly if mine development proceeds.</p> <p>The Company intends to conduct its activities in an environmentally responsible manner and in accordance with applicable laws. The costs and complexity of complying with the applicable environmental laws and regulations may prevent the Company from being able to develop potentially economically viable mineral deposits.</p> <p>Activities on the Company's tenements must comply with the conditions of their respective environmental authorities (Commonwealth and State Government Acts and Regulations (Western Australia and Victoria) and Cameroon). The Company may be required to obtain further approvals from the relevant authorities before it can undertake particular activities that are likely to impact the environment. Failure to obtain such approvals will prevent the Company from undertaking its desired activities.</p> <p>Environmental issues may compromise the exploration and development of the Company's tenements.</p>
<b>Licences, permits and approvals</b>	<p>The Company holds all material authorisations required to undertake the current exploration programs of the Company. However, many of the mineral rights and interests to be held by the Company are subject to the need for ongoing or new government approvals, licences and permits. These requirements, including work permits and environmental approvals, will change as the Company's operations develop. Delays in obtaining, or the inability to obtain, required authorisations may significantly impact on the Company's operations.</p>
<b>Mine Development</b>	<p>The Company's ability to sustain or increase the proposed levels of production is dependent upon the successful development of new producing mines and/or identification of additional reserves at existing mining operations. Whilst the Directors consider the Company's tenements to have good potential for the discovery of additional resources, there is no guarantee of a discovery or that any discovery will be commercially feasible. If the Company is unable to develop new ore bodies, it will not be able to sustain the proposed production levels. Reduced production could have a material adverse effect on future cash flows, results of operations and financial condition.</p> <p>Feasibility studies are used to determine the economic viability of a deposit. Many factors are involved in the determination of the economic viability of a deposit, including the achievement</p>

RISK CATEGORY	RISK
	of satisfactory mineral reserve estimates, the level of estimated metallurgical recoveries, capital and operating cost estimates and the estimate of future metals prices. Capital and operating cost estimates are based upon many factors, including anticipated tonnage and grades of ore to be mined and processed, the configuration of the ore body, ground and mining conditions, expected recovery rates of the copper from the ore and anticipated environmental and regulatory compliance costs. Each of these factors involves uncertainties and as a result, the Company cannot give any assurance that its development or exploration projects will become operating mines. If a mine is developed, actual operating results may differ from those anticipated in a feasibility study.
<b>Equipment and availability</b>	The Company's ability to undertake mining and exploration activities is dependent upon its ability to source and acquire appropriate mining equipment. Equipment is not always available and the market for mining equipment experiences fluctuations in supply and demand. If the Company is unable to source appropriate equipment economically or at all then this would have a material adverse effect on the Company's financial or trading position.
<b>Reliance on key management</b>	<p>The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially on its senior management and its key personnel.</p> <p>There can be no assurance given that there will be no detrimental impact on the Company if one or more of these employees cease their employment.</p>
<b>Conflicts of interest</b>	Certain Directors are also directors and officers of other companies engaged in mineral exploration and development and mineral property acquisitions. Accordingly, mineral exploration opportunities or prospects of which these Directors become aware may not necessarily be made available to the Company. Although these Directors have been advised of their fiduciary duties to the Company, there exist actual and potential conflicts of interest among these persons and situations could arise in which their obligations to, or interests in, other companies could detract from their efforts on behalf of the Company.

## 5.5 General risks

RISK CATEGORY	RISK
<b>Securities investments</b>	There are risks associated with any securities investment. The prices at which the securities of the Company trade may fluctuate in response to a number of factors. Furthermore, the stock market, and in particular the market for mining and exploration companies, has experienced extreme price and volume fluctuations that have often been unrelated or disproportionate to the operating performance of such companies. There can be no guarantee that trading prices will be sustained. These factors may materially affect the market price of the securities of the Company regardless of its operational performance.
<b>Economic risks</b>	General economic conditions, introduction of tax reform, new legislation, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's business activities and potential exploration and

RISK CATEGORY	RISK
	<p>development programs, as well as on its ability to fund those activities.</p> <p>As with any exploration or mining project, the economics are sensitive to metal and commodity prices. Commodity prices fluctuate and are affected by many factors beyond the control of the Company. Such factors include supply and demand fluctuations for minerals, technological advances, forward selling activities and other macro-economic factors. These prices may fluctuate to a level where the proposed mining operations are not profitable. Should the Company achieve success leading to mineral production, the revenue it will derive through the sale of commodities also exposes potential income of the Company to commodity price and exchange rate risks.</p>
<b>Force majeure</b>	<p>The Company's projects now or in the future may be adversely affected by risks outside the control of the Company, including labour unrest, civil disorder, war, subversive activities or sabotage, fires, floods, explosions or other catastrophes, epidemics or quarantine restrictions.</p>
<b>Market conditions</b>	<p>Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:</p> <ul style="list-style-type: none"> <li>(a) general economic outlook;</li> <li>(b) introduction of tax reform or other new legislation;</li> <li>(c) interest rates and inflation rates;</li> <li>(d) changes in investor sentiment toward particular market sectors;</li> <li>(e) the demand for, and supply of, capital; and</li> <li>(f) terrorism or other hostilities.</li> </ul> <p>The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and resource exploration stocks in particular. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.</p>
<b>Native title and Aboriginal Heritage</b>	<p>In relation to tenements which the Company has an interest in or will in the future acquire such an interest, there may be areas over which legitimate common law native title rights of Aboriginal Australians exist. If native title rights do exist, the ability of the Company to gain access to tenements (through obtaining consent of any relevant landowner), or to progress from the exploration phase to the development and mining phases of operations may be adversely affected.</p> <p>The Directors will closely monitor the potential effect of native title claims or Aboriginal heritage matters involving tenements in which the Company has or may have an interest.</p>
<b>Uranium market</b>	<p>Unlike other commodities, uranium does not trade on an open market. Contracts are negotiated privately by buyers and sellers. Changes in the price of uranium can have a significant impact on the economic performance of the Company's projects.</p> <p>The marketability of uranium and acceptance of uranium mining is subject to numerous factors beyond the control of the Company. The price of uranium may experience volatile and</p>

RISK CATEGORY	RISK
	<p>significant price movements over short periods of time. Factors known to affect the market and the price of uranium include demand for nuclear power; political and economic conditions in uranium mining, producing and consuming countries; costs; interest rates, inflation and currency exchange fluctuations; government regulations; availability of financing for nuclear plants, reprocessing of spent fuel and the re-enrichment of depleted uranium tails or waste; sales of excess civilian and military inventories (including from the dismantling of nuclear weapons) by governments and industry participants; production levels and costs of production in certain geographical areas such as Russia, Africa, and Australia; and changes in public acceptance of nuclear power generation as a result of any future accidents or terrorism at nuclear facilities.</p> <p>No assurance can be given on the accuracy of future prices used in the derivation of the Company's ability to generate positive cashflow from its planned future operations.</p>
<b>Rehabilitation of Tenements</b>	<p>In relation to the Company's proposed operations, issues could arise from time to time with respect to abandonment costs, consequential clean-up costs, environmental concerns and other liabilities. In these instances, the Company could become subject to liability if, for example, there is environmental pollution or damage from the Company's exploration activities and there are consequential clean-up costs at a later point in time.</p>
<b>Climate change risks</b>	<p>There are a number of climate-related factors that may affect the Company's business or its assets, including its tenements. For instance:</p> <ul style="list-style-type: none"> <li>(a) climate change or prolonged periods of adverse weather and climatic conditions (including rising sea levels, floods, hail, drought, water, scarcity, temperature extremes, frosts, earthquakes and pestilences) may have an adverse effect on the Company's ability to access and utilise its tenements and/or on the Company's ability to transport or sell mineral commodities; and</li> <li>(b) changes in policy, technological innovation and consumer or investor preferences could adversely impact the Company's business strategy or the value of its assets (including its tenements) or may result in less favourable pricing for mineral commodities, particularly in the event of a transition (which may occur in unpredictable ways) to a lower-carbon economy.</li> </ul>
<b>Significant Conflicts</b>	<p>Ongoing significant military and political conflicts, including the conflict between Ukraine and Russia and the conflict between Israel and Palestine, (<b>Significant Conflicts</b>) are impacting global economies and financial markets. The nature and extent of the effect Significant Conflicts may have on the Company's operations remains uncertain at this time. In the short to medium term, the Company's Share price may be adversely affected by the economic uncertainty caused by the Ukraine Conflict and the wider effect the conflict has on global economies and financial markets.</p> <p>The Directors are monitoring the potential secondary and tertiary macroeconomic impacts of the Significant Conflicts, including the fluctuations in commodity and energy prices and</p>

RISK CATEGORY	RISK
	<p>the potential risk of cyber activity impacting governments and businesses.</p> <p>Further, any governmental or industry measures taken in response to the Significant Conflicts, including limitations on travel and changes to import/export restrictions and arrangements involving the relevant nations, may adversely impact the Company's operations and are likely to be beyond the control of the Company. The Company is monitoring the situation closely and considers the impact of the Significant Conflicts on the Company's business and financial performance to, at this stage, be limited. However, the situations with respect to the Significant Conflicts are continually evolving, and the consequences are therefore inevitably uncertain.</p>
<b>Litigation risks</b>	<p>The Company is exposed to possible litigation risks including intellectual property claims, contractual disputes, occupational health and safety claims and employee claims. Further, the Company may be involved in disputes with other parties in the future which may result in litigation. Any such claim or dispute if proven, may impact adversely on the Company's operations, financial performance and financial position. The Company is not currently engaged in any litigation.</p>
<b>Dividends</b>	<p>Any future determination as to the payment of dividends by the Company will be at the discretion of the Directors and will depend on the financial condition of the Company, future capital requirements and general business and other factors considered relevant by the Directors. No assurance in relation to the payment of dividends or franking credits attaching to dividends can be given by the Company.</p>
<b>Taxation</b>	<p>The acquisition and disposal of Shares will have tax consequences, which will differ depending on the individual financial affairs of each investor. All prospective investors in the Company are urged to obtain independent financial advice about the consequences of acquiring Shares from a taxation viewpoint and generally.</p> <p>To the maximum extent permitted by law, the Company, its officers and each of their respective advisers accept no liability and responsibility with respect to the taxation consequences of subscribing for Shares under this Prospectus.</p>
<b>Insurance</b>	<p>The Company intends to insure its operations in accordance with industry practice. However, in certain circumstances, the Company's insurance may not be available or of a nature or level to provide adequate insurance cover. The occurrence of an event that is not covered or fully covered by insurance could have a material adverse effect on the business, financial condition and results of the Company. In addition, there is a risk that an insurer defaults in the payment of a legitimate claim by the Company.</p>
<b>Social Licence</b>	<p>In order to explore, develop or operate in communities, the general acceptance of certain stakeholder populations may be required. This may include formal agreements that can require extended negotiations with large numbers of stakeholders, for example indigenous communities and groups with native title rights. There can be no guarantee these negotiations will be concluded successfully or not be protracted and cause significant delay to the Company's plans.</p>

## **5.6 Speculative investment**

The risk factors described above, and other risk factors not specifically referred to, may have a materially adverse impact on the performance of the Company and the value of the Shares.

Prospective investors should consider that an investment in the Company is highly speculative.

There is no guarantee that the Shares offered under this Prospectus will provide a return on capital, payment of dividends or increases in the market value of those Shares.

Before deciding whether to subscribe for Shares under this Prospectus you should read this Prospectus in its entirety and consider all factors, taking into account your objectives, financial situation and needs.

## **6. ADDITIONAL INFORMATION**

### **6.1 Litigation**

As at the date of this Prospectus, the Company and its subsidiaries are not involved in any legal proceedings and the Directors are not aware of any legal proceedings pending or threatened against the Company or its subsidiaries.

### **6.2 Continuous disclosure obligations**

As set out in the Important Notice Section of this Prospectus, the Company is a disclosing entity for the purposes of section 713 of the Corporations Act. Accordingly, information that is already in the public domain has not been reported in this Prospectus other than that which is considered necessary to make this Prospectus complete.

The Company, as a disclosing entity under the Corporations Act states that:

- (a) it is subject to regular reporting and disclosure obligations;
- (b) copies of documents lodged with the ASIC in relation to the Company (not being documents referred to in section 1274(2)(a) of the Corporations Act) may be obtained from, or inspected at, the offices of the ASIC; and
- (c) it will provide a copy of each of the following documents, free of charge, to any person on request between the date of issue of this Prospectus and the Closing Date:
  - (i) the annual financial report most recently lodged by the Company with the ASIC;
  - (ii) any half-year financial report lodged by the Company with the ASIC after the lodgement of the annual financial report referred to in (i) and before the lodgement of this Prospectus with the ASIC; and
  - (iii) any continuous disclosure documents given by the Company to ASX in accordance with the ASX Listing Rules as referred to in section 674(1) of the Corporations Act after the lodgement of the annual financial report referred to in (i) and before the lodgement of this Prospectus with the ASIC.

Copies of all documents lodged with the ASIC in relation to the Company can be inspected at the registered office of the Company during normal office hours.

Details of documents lodged by the Company with ASX since the date of lodgement of the Company's latest annual financial report and before the lodgement of this Prospectus with the ASIC are set out in the table below.

### 6.3 Market price of Shares

The Company is a disclosing entity for the purposes of the Corporations Act and its Shares are enhanced disclosure securities quoted on ASX.

The highest, lowest and last market sale prices of the Shares on ASX during the three months immediately preceding the date of lodgement of this Prospectus with the ASIC and the respective dates of those sales were:

	\$	DATE
Highest	0.015	3 February 2025 (latest)
Lowest	0.006	6 December 2024 (latest)
Last	0.011	20 February 2025

### 6.4 Interests of Directors

Other than as set out in this Prospectus, no Director or proposed director holds, or has held within the 2 years preceding lodgement of this Prospectus with the ASIC, any interest in:

- (a) the formation or promotion of the Company;
- (b) any property acquired or proposed to be acquired by the Company in connection with:
  - (i) its formation or promotion; or

- (ii) the Offer; or
- (c) the Offer,

and no amounts have been paid or agreed to be paid and no benefits have been given or agreed to be given to a Director or proposed director:

- (d) as an inducement to become, or to qualify as, a Director; or
- (e) for services provided in connection with:
  - (i) the formation or promotion of the Company; or
  - (ii) the Offer.

### **Security holdings**

The relevant interest of each of the Directors in the Securities as at the date of this Prospectus, together with their respective Entitlement, is set out in Section 1.4.

### **Remuneration**

The remuneration of an executive Director is decided by the Board, without the affected executive Director participating in that decision-making process. The total maximum remuneration of non-executive Directors is initially set by the Constitution and subsequent variation is by ordinary resolution of Shareholders in general meeting in accordance with the Constitution, the Corporations Act and the ASX Listing Rules, as applicable. The determination of non-executive Directors' remuneration within that maximum will be made by the Board having regard to the inputs and value to the Company of the respective contributions by each non-executive Director. The current amount has been set at an amount not to exceed \$250,000 per annum.

A Director may be paid fees or other amounts (i.e. non-cash performance incentives such as Options, subject to any necessary Shareholder approval) as the other Directors determine where a Director performs special duties or otherwise performs services outside the scope of the ordinary duties of a Director. In addition, Directors are also entitled to be paid reasonable travelling, hotel and other expenses incurred by them respectively in or about the performance of their duties as Directors.

The following table shows the total (and proposed) annual remuneration paid to both executive and non-executive Directors.

DIRECTOR	FY ENDING 30 JUNE 2025 (Proposed)	FY ENDING 30 JUNE 2024
Robert Boston	60,000 <sup>1</sup>	\$80,000 <sup>2</sup>
Oonagh Malone	48,000 <sup>3</sup>	\$60,000 <sup>4</sup>
Mathew O'Hara	72,000 <sup>5</sup>	\$90,000 <sup>6</sup>
Phil Gallagher	34,000 <sup>7</sup>	Nil <sup>8</sup>

#### **Notes:**

- Comprising Director fees of \$53,100 and a superannuation payment of \$6,900.
- Comprising Director fees of \$72,072 and a superannuation payment of \$7,928. An amount of \$66,066 of these fees was satisfied via the issue of 33,033,000 Shares, following receipt of Shareholder approval at the General Meeting held on 16 September 2024 (**September Meeting**).
- Comprising Director fees of \$48,000.
- Comprising Director fees of \$60,000. An amount of \$55,000 of these fees was satisfied via the issue of 27,500,000 Shares, following receipt of Shareholder approval at the September Meeting.
- Comprising Director fees of \$48,000 and Company Secretary fees of \$24,000.
- Comprising Director fees of \$60,000 and Company Secretary fees of \$30,000. An amount of \$82,500 of these fees was satisfied via the issue of 41,250,000 Shares, following receipt of Shareholder approval at the September Meeting.
- Comprising Director fees of \$34,000.
- Mr Gallagher was appointed as a Director on 15 October 2024.

## 6.5 Interests of experts and advisers

Other than as set out below or elsewhere in this Prospectus, no:

- (a) person named in this Prospectus as performing a function in a professional, advisory or other capacity in connection with the preparation or distribution of this Prospectus;
- (b) promoter of the Company; or
- (c) underwriter (but not a sub-underwriter) to the issue or a financial services licensee named in this Prospectus as a financial services licensee involved in the issue,

holds, or has held within the 2 years preceding lodgement of this Prospectus with the ASIC, any interest in:

- (d) the formation or promotion of the Company;
- (e) any property acquired or proposed to be acquired by the Company in connection with:
  - (i) its formation or promotion; or
  - (ii) the Offer; or
- (f) the Offer,

and no amounts have been paid or agreed to be paid and no benefits have been given or agreed to be given to any of these persons for services provided in connection with:

- (g) the formation or promotion of the Company; or
- (h) the Offer.

Steinepreis Paganin has acted as the solicitors to the Company in relation to the Offer. The Company estimates it will pay Steinepreis Paganin \$25,000 (excluding GST and disbursements) for these services. Steinepreis Paganin has been paid a total of \$105,754.08 (excl GST and disbursements) by the Company in the last 24-months.

## 6.6 Consents

Chapter 6D of the Corporations Act imposes a liability regime on the Company (as the offeror of the securities), the Directors, the persons named in the Prospectus with their consent as Proposed Directors, any underwriters, persons named in the Prospectus with their consent having made a statement in the Prospectus and persons involved in a contravention in relation to the Prospectus, with regard to misleading and deceptive statements made in the Prospectus. Although the Company bears primary responsibility for the Prospectus, the other parties involved in the preparation of the Prospectus can also be responsible for certain statements made in it.

Each of the parties referred to in this Section:

- (a) does not make, or purport to make, any statement in this Prospectus other than those referred to in this Section;
- (b) in light of the above, only to the maximum extent permitted by law, expressly disclaim and take no responsibility for any part of this Prospectus other than a reference to its name and a statement included in this Prospectus with the consent of that party as specified in this Section; and
- (c) has not withdrawn its consent prior to the lodgement of this Prospectus with the ASIC.

Steinepreis Paganin has given its written consent to being named as the solicitors to the Company in this Prospectus.

## 6.7 Expenses of the offer

In the event that all Entitlements are accepted, the total expenses of the Offer are estimated to be approximately \$56,869 (excluding GST) and are expected to be applied towards the items set out in the table below:

	\$
ASIC fees	3,206
ASX fees	9,837
Legal fees	25,000
Printing and distribution	16,326
Miscellaneous	2,500
<b>Total</b>	<b>56,869</b>

---

**7. DIRECTORS' AUTHORISATION**

This Prospectus is issued by the Company and its issue has been authorised by a resolution of the Directors.

In accordance with section 720 of the Corporations Act, each Director has consented to the lodgement of this Prospectus with the ASIC.

---
