Disclaimer and Forward-Looking Statements

Disclaimer and Forward-Looking Statements

This presentation is not a prospectus nor an offer to sell, nor a solicitation of an offer to buy, securities for subscription or sale in any jurisdiction nor a securities recommendation. The information in this presentation is an overview and does not contain all information necessary for investment decisions. In making investment decisions, investors should rely on their own examination of AuMEGA Metals Limited (AuMEGA or the Company) and consult with their own legal, tax, business and/or financial advisers in connection with any acquisition of securities or interest in the Company. The information contained in this presentation has been prepared in good faith by the Company. However, no representation or warranty, express or implied, is made as to the completeness or adequacy of any statements, estimates, opinions or other information contained in this presentation. To the maximum extent permitted by law, the Company, its directors, officers, employees and agents disclaim all liability for any loss or damage which may be suffered by any person through the use of, or reliance on, anything contained in or omitted from this presentation.

Certain information in this presentation refers to the intentions of the Company, but these are not intended to be forecasts, forward looking statements, or statements about future matters for the purposes of the Corporations Act 2001 (Cth) or any other applicable law. Some statements contained in this presentation are "forward looking information" within the meaning of Canadian securities laws. Forward looking information include but are not limited to, statements and information regarding: drilling plans and the timing thereof; the ability of the Company to identify new exploration targets and rank and prioritize them; the prospectivity of the Company's deposits, the ability of the Company to maximize return on investment and generate long-term value; the potential for major discoveries; the ability to identify RC drill targets; and the impact of geological mapping on identifying drill targets and understanding geology. Generally, forward-looking information can be identified by the use of forward-looking terminology such as "plans", "expects", "upside potential", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates", "believes" or variations of such words and phrases (including negative or grammatical variations) or statements that certain actions, events or results "may", "could", "would", "might" or "will be taken", "occur" or "be achieved" or the negative connotation thereof. Readers are cautioned that forward-looking statements and information are inherently uncertain and involve risks, assumptions and uncertainties that could cause actual facts to differ materially. Forward-looking information is subject to known and unknown risks, uncertainties and other important factors that may cause the actual results, performance or achievements to be materially different from those expressed or implied by such forward-looking information, including but not limited to: risks related to mining operations, including economic and political instability in foreign jurisdictions; risks related to current global financial conditions and other conditions (including acts of war, terrorism, armed hostilities, and pandemic); risks related to mining operations; actual results of current exploration activities; environmental risks; future prices of gold; possible variations in estimates of mineral resources, grade or recovery rates; mine exploration, development and operating risks; accidents, labour disputes and other risks of the mining industry; and delays in obtaining governmental approvals or financing. The foregoing and other important factors could cause actual results to differ materially from those contained in forward-looking information and statements. There can be no assurance that future developments will be those set forth in this presentation. The Company expressly disclaims, and does not undertake, any obligation to update any estimate at any particular time or in response to any particular event. The occurrence of events in the future are subject to risks, uncertainties and other factors that may alter the Company's actual results, performance or achievements to differ from those referred to in this presentation to occur as contemplated. The presentation contains only a synopsis of more detailed information available in relation to the matters described in this document and accordingly no reliance may be placed for any purpose whatsoever on the sufficiency or completeness of such information and to do so could potentially expose you to a significant risk of losing any of the property invested by you or incurring by you of additional liability. Recipients of this presentation should conduct their own investigation, evaluation and analysis of the business, data and property described in this presentation. In particular, any estimates or projections or opinions contained herein necessarily involve significant elements of subjective judgment, analysis and assumptions and you should satisfy yourself in relation to such matters.

Technical Report – TSXV - NI 43-101

Additional scientific and technical information regarding the Company's mineral project is contained in the technical report titled "Technical Report on the Cape Ray Gold Project, Newfoundland, Canada" dated May 28, 2024 (with an effective date of May 26, 2024), prepared by Trevor Rabb (P. Geo.) and Ronald Voordouw, (P. Geo) of Equity Exploration Consultants Ltd., and Andrew Kelly (P. Eng.) of Blue Coast Research.

Mineral Resource Estimates Reporting – ASX Listing Rule 5.23

The information in this Presentation that relates to the Mineral Resource estimate for the Cape Ray Gold Project was announced on ASX on 30 May 2023. AuMEGA confirms that it is not aware of any new information or data that materially affects the information included in the announcement of 30 May 2023 and that all material assumptions and technical parameters underpinning the Mineral Resource estimate in that announcement continue to apply and have not materially changed.

Mineral Resources are reported using a cut-off grade of 0.30 g/t gold for open pit and 2.00 g/t gold for underground. Assumptions for the open pit and underground grade cut-offs consider the following: a gold price of USD 1750 per troy ounce gold, selling costs of USD 5 per troy ounce gold, exchange rate of 1.3 USD:CAD, open pit mining costs of CAD 3 per tonne, underground mining costs of CAD 92.47 per tonne, processing costs of CAD 20 per tonne, G&A costs of CAD 5 per tonne processed, gold recovery of 96%, and royalty of 3% for Zone 4, 41 and Isle aux Morts and royalty of 1% for Window Glass Hill, Angus, PW Zone and Zone 51. The open pit Mineral Resources are constrained using optimized pit shells that have been generated using Lerchs Grossman algorithm with parameters outlined above, using a maximum of 50 degree pit slopes. The underground Mineral Resources are constrained using a 2.00 g/t gold grade shell below the optimized pit based on the assumptions summarised above.

The Mineral Resource Estimate for the Cape Ray Gold Project has been prepared by Trevor Rabb, P.Geo. (EGBC #39599 and PEGNL #11155) who is a Competent Person as defined by JORC 2012. EGBC (formerly APEGBC) and PEGNL (APEGNL) are Recognised Professional Organisations accepted for the purpose of reporting in accordance with appendix 5A of the Australian Securities Exchange Listing Rules. Mineral Resources for the Cape Ray Gold Project have an effective date of 22 February 2023.

Exploration Results Reporting – ASX Listing Rule 5.23

The information in this Presentation that relates to exploration results reported through Company ASX announcements that can be found on the Company's website: www.aumegametals.com.

Data in this presentation have been previously disclosed by the Company and referenced in previous JORC Table 1 releases. Please see announcements dated: Mineral Resource estimate announced on 30 May 2023, Company 2024 exploration announcements on 28 August 2019, 31 October 2019, 29 October 2020, 16 January 2024, 23 May 2024 and 31 July 2024, Malachite announcements dated 25 November 2024, 20 August 2024, 20 April 2022, 8 June 2022, 12 September 2022, 14 September 2022, 6 October 2022, 12 December 2022, 25 January 2023 and 11 October 2023, Long Range announcements on 14 April 2021, 31 October 2019, 23 February 2023 and 24 August 2023, Bunker Hill announcements on 14 April 2021, 22 March 2023, 6 April 2023, 24 September 2024, 15 October 2024, 25 November 2025 and 22 January 2025, Hermitage prospecting results announced on 18 May 2023, 13 November 2023, 5 September 2024, 22 January 2025 and 4 February 2025, Grandy's announcements on 29 October 2020, 17 February 2021, 18 November 2021, 11 October 2023, Intersection related announcements 16 January 2024 and 29 October 2020, Hermitage announcement on 5 September 2024, 18 March 2024, Winter RC drill results reported on 23 April 2024 and 28 May 2024 and the Resource Corridor announcement on 5 June 2024. Targeting workshop news release dated 4 July 2024.

AuMEGA confirms that it is not aware of any new information or data that materially affects the information included in those announcements.

FULLY FUNDED for the Company's major 2025 exploration program

DISTRICT SCALE LAND PACKAGE

On a proven multi-million-ounce gold structure

"BLUE-CHIP" SHAREHOLDER REGISTER

Led by B2Gold as a strategic investor

PORTFOLIO OF POTENTIAL

Several prospective projects with potential for discovery of large deposits

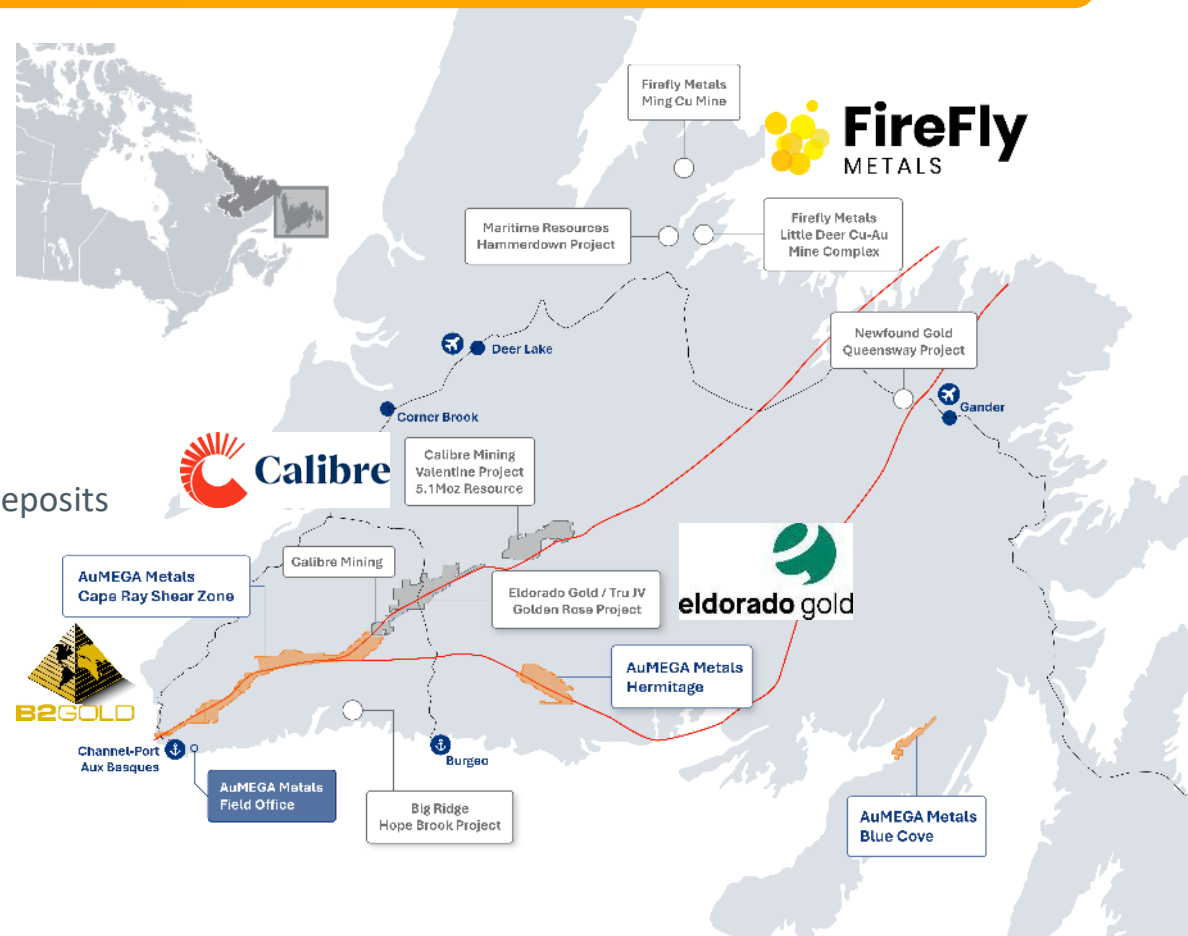

STRONG BOARD & MANAGEMENT

With a proven track record of making major discoveries

HIGH-GRADE, SHALLOW MINERAL RESOURCE

One of only a few explorers in Newfoundland with a resource

AuMEGA Capital Structure

SHAREHOLDER OWNERSHIP

SIGNIFICANT SHAREHOLDERS (>5%)

Highly Experienced Board & Management

Seasoned Mining & Exploration Experience With Proven Track Record Of Success

Management

Sam Pazuki

Managing Director & CEO

20+ years' energy & mining experience
Ex-OceanaGold, EY, Enbridge
Corporate development, investor relations, engineering, management consulting

Rick Greenwood

VP, Exploration

20+ years' exploration experience
Ex-Kinross, Great Bear, Goldcorp, Rainy River
Professional geologist with extensive gold grassroots to resource definition experience

Ryan Finkelstein

Chief Financial Officer

16+ years of experience in accounting and audit
Ex-Grant Thornton, Carbon Group, Automic Group
Chartered Accountant with strong experience in risk management, accounting, etc.

Giles Dodds

Manager, Exploration

10+ years' exploration experience
Ex-Sumitomo, Rio Tinto, Glencore
Grassroots gold exploration in Australia and Canada

Board of Directors

Justin Osborne

Chair

30+ years' mining experience
Ex-Gold Fields, Gold Road
Non-executive director of IGO, Hamelin Gold, Astral Resources

Nikki Adshead-Bell

Non-Executive Director

27+ years corporate, buy-side & sell-side experience in the mining industry
Non-executive director of Altius Minerals, Dundee Precious Metals and Hot Chili

Kerry Sparkes

Non-Executive Director

30+ years' mining experience
Founder of Orla Mining. Ex-Franco Nevada, Rainy River Resources, Voisey's Bay, etc.
Non-executive director of Aurion Resources and Prime Mining

Carol Marinkovich

Executive Director & Company Secretary

25+ years' mining experience
Extensive experience in Corporate Governance Practices as a Company Secretary within Australia and Internationally

Several discrete projects of scale along both prospective gold structures in Newfoundland

LIMITED HISTORIC EXPLORATION

Previous activities and investment focused on resource deposits, little regional exploration

LIMITED OUTCROP ON BELT

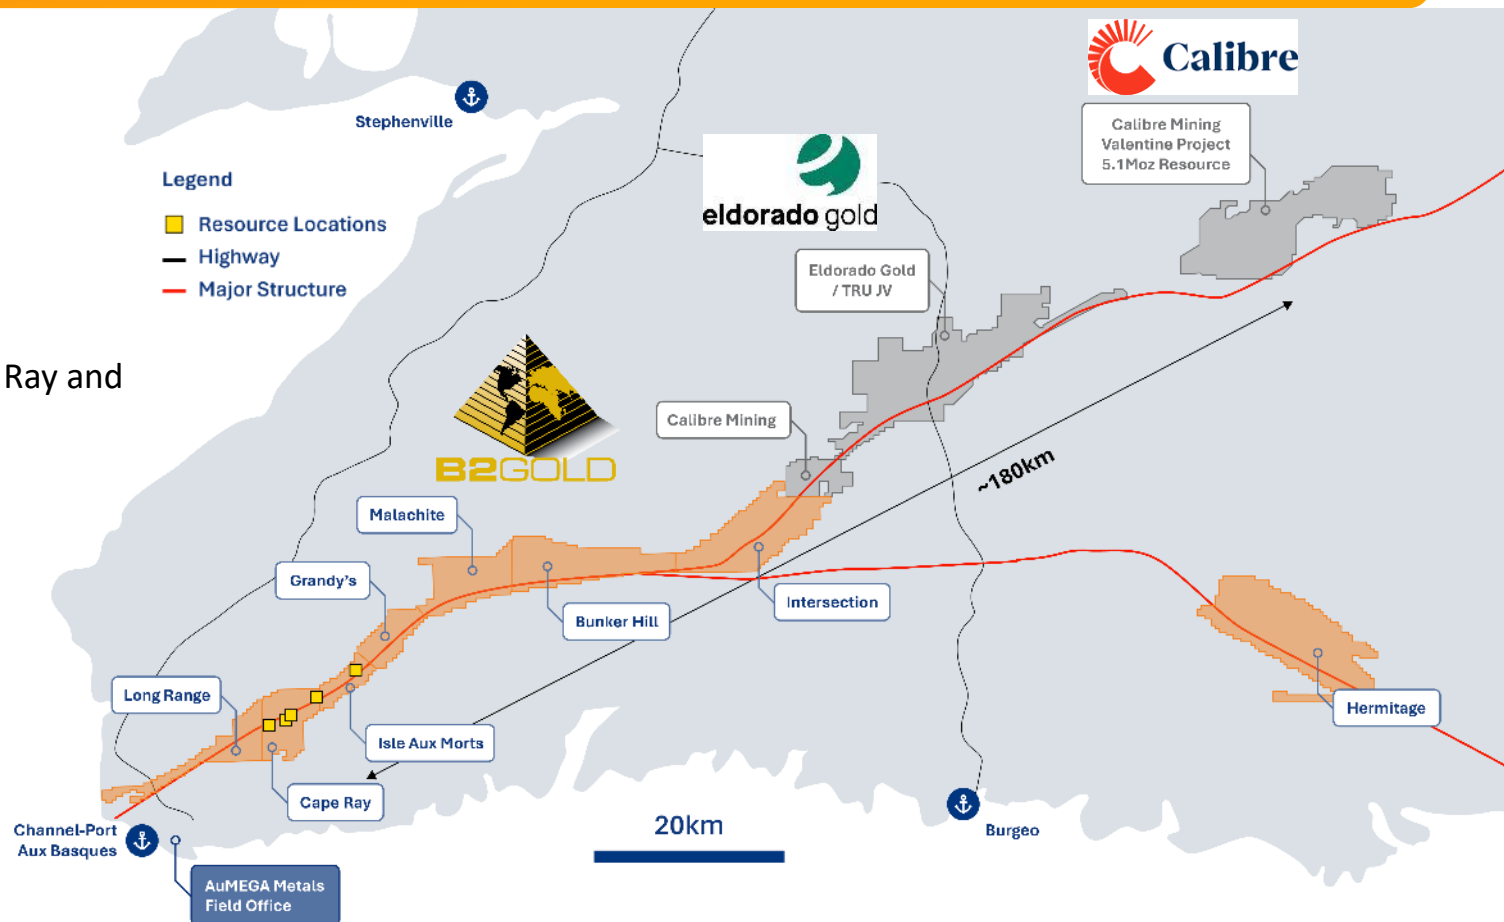

Much of the shear covered by overburden between Cape Ray and Valentine

MAJOR GOLD COMPANY'S FOCUS IN NL

On Cape Ray / Valentine Shear: B2Gold, Eldorado and Calibre

WORLD-CLASS EXPLORATION

Advancing opportunities like no other before

2025 Exploration Program Priorities

1 Bunker Hill

- Vast, underexplored and geologically complex
- Major winter 2025 drill program (~10,000 metres)
- Three main priority areas including Bunker Hill West, Nitty Gritty
- Follow-up drilling depending on results later in 2025

2 Cape Ray

- Site of the Company's defined mineral resources
- Mid-year 2025 diamond drill program planned (~5,000 metres)
- Airborne EM survey planned for Q1 2025
- New areas targeting discovery and resource expansion

3 Hermitage Gold-Antimony

- Largest antimony anomaly in Newfoundland
- Vast, underexplored with several key geological features that are akin to massive global deposits
- Evaluating Antimony and Uranium potential
- Planning to drill in 2025

A Full Year of Exploration and News Flow

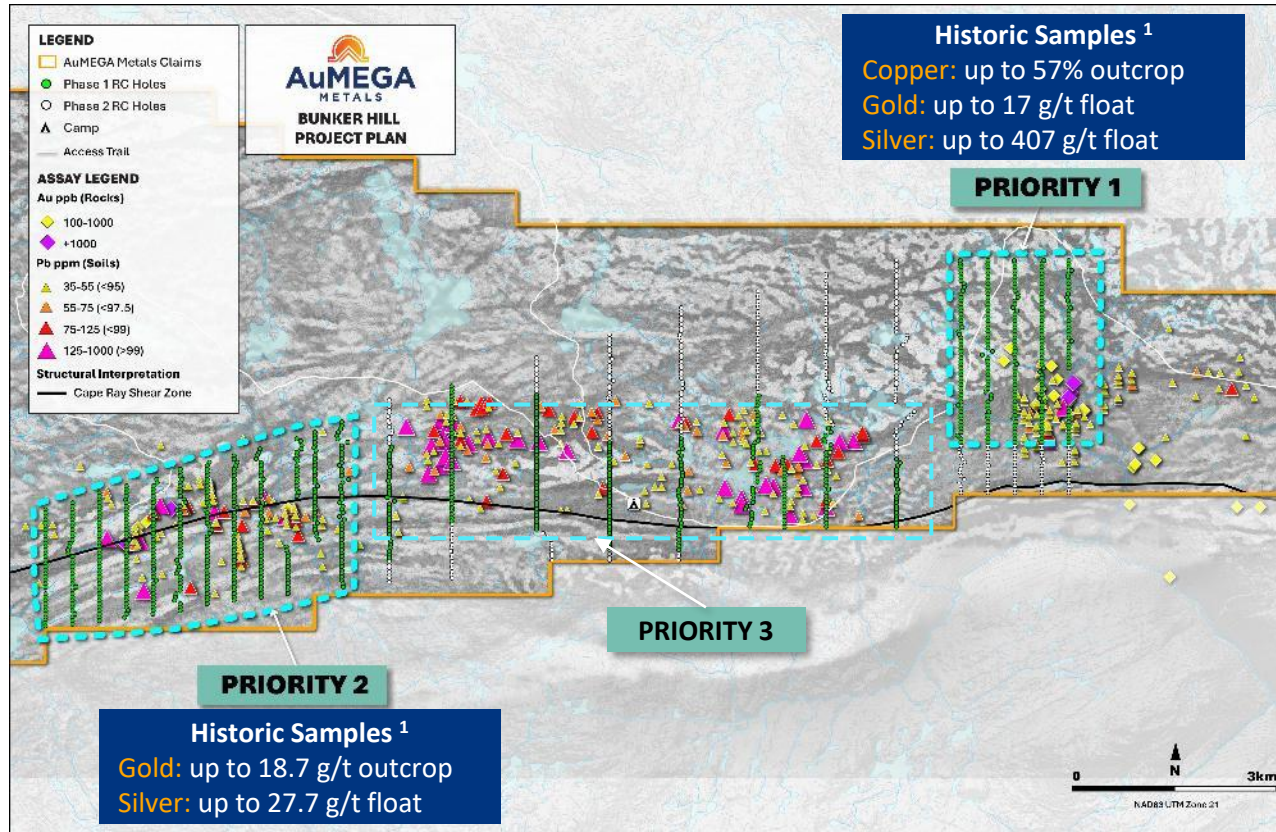

PRIMARY ACTIVITIES	Q1 2025	Q2 2025	Q3 2025	Q4 2025
BUNKER HILL				
RC drilling				
Diamond drilling				
Follow-up drilling (TBD)				
Assay results				
CAPE RAY				
EM survey				
Prospecting				
Diamond drilling				
Assay results				
HERMITAGE				
Prospecting / Mapping				
Diamond drilling				
Assay results				

Bunker Hill

Large area with limited historic exploration work with highest grade copper, gold and silver samples anywhere in the portfolio

LARGE WINTER DRILL PROGRAM PLANNED

- RC drilling with 5,000 to 7,500 metres planned
- Diamond drilling with 5,000 to 6,000 metres planned

PRIORITY 1: NITTY GRITTY GRANITE

- Several high-grade copper, gold and silver samples ^{1,2}
- Appears to be intrusion related mineralisation

PRIORITY 2: BUNKER HILL WEST

- High-grade gold in outcrop samples ^{1,2}
- Samples are coincident with major secondary fault

PRIORITY 3: CAPE RAY / VALENTINE SHEAR ZONE

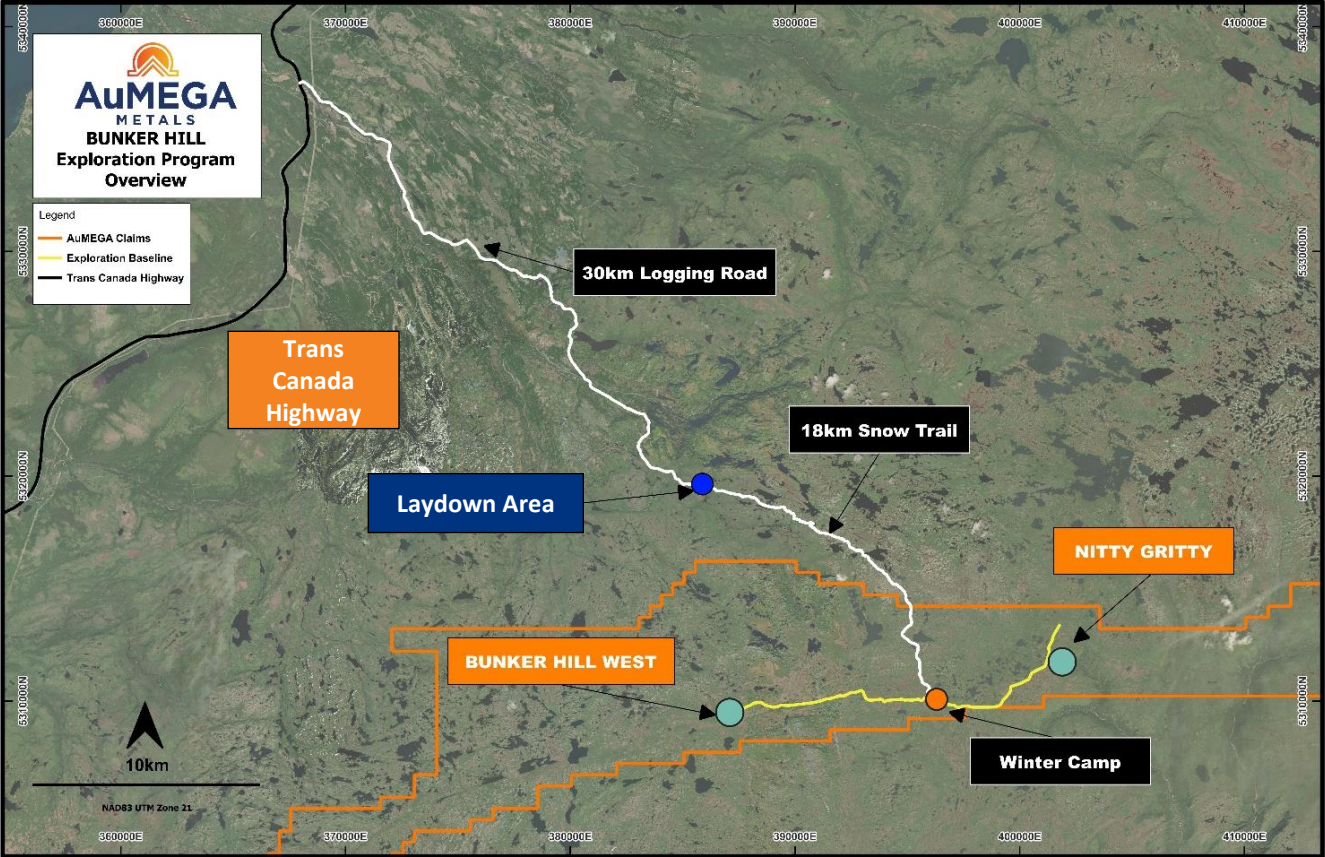

- Significant structural complexity with several second- and third-order structures ^{1,2}
- Cluster of anomalous lead along key geological contacts ^{1,2}

1. News Releases 15 October 2024, 24 September 2024, 6 April 2023, 22 March 2023 and 14 April 2021
 2. Map: News Release 22 January 2025 and 25 November 2024

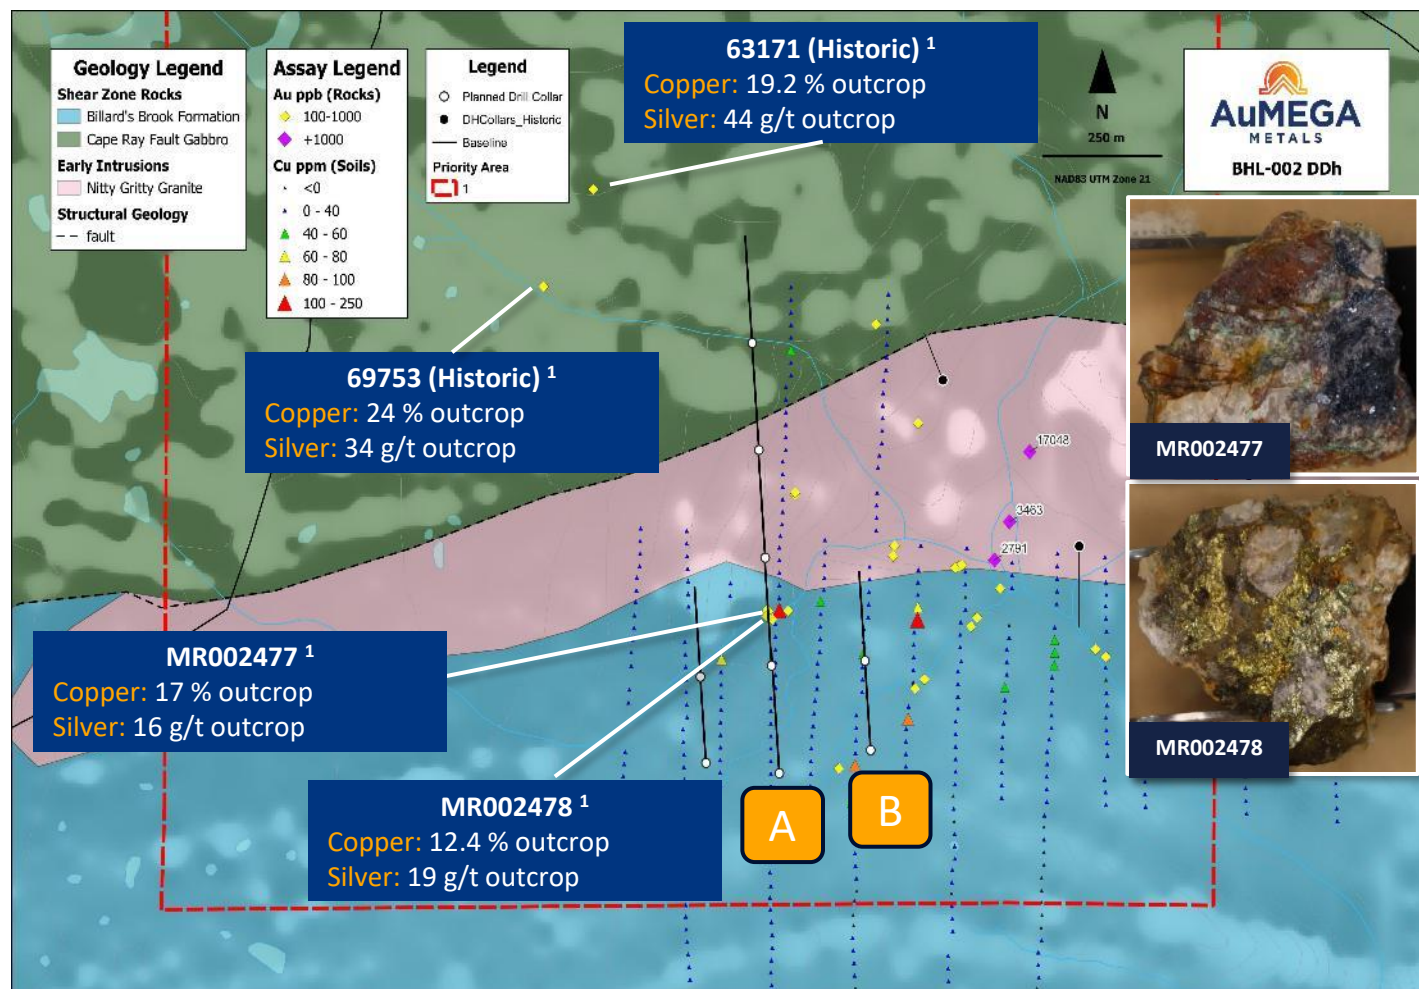

Bunker Hill Winter Program Update

Company's largest ever winter exploration program underway

Priority 1: Nitty Gritty Granite

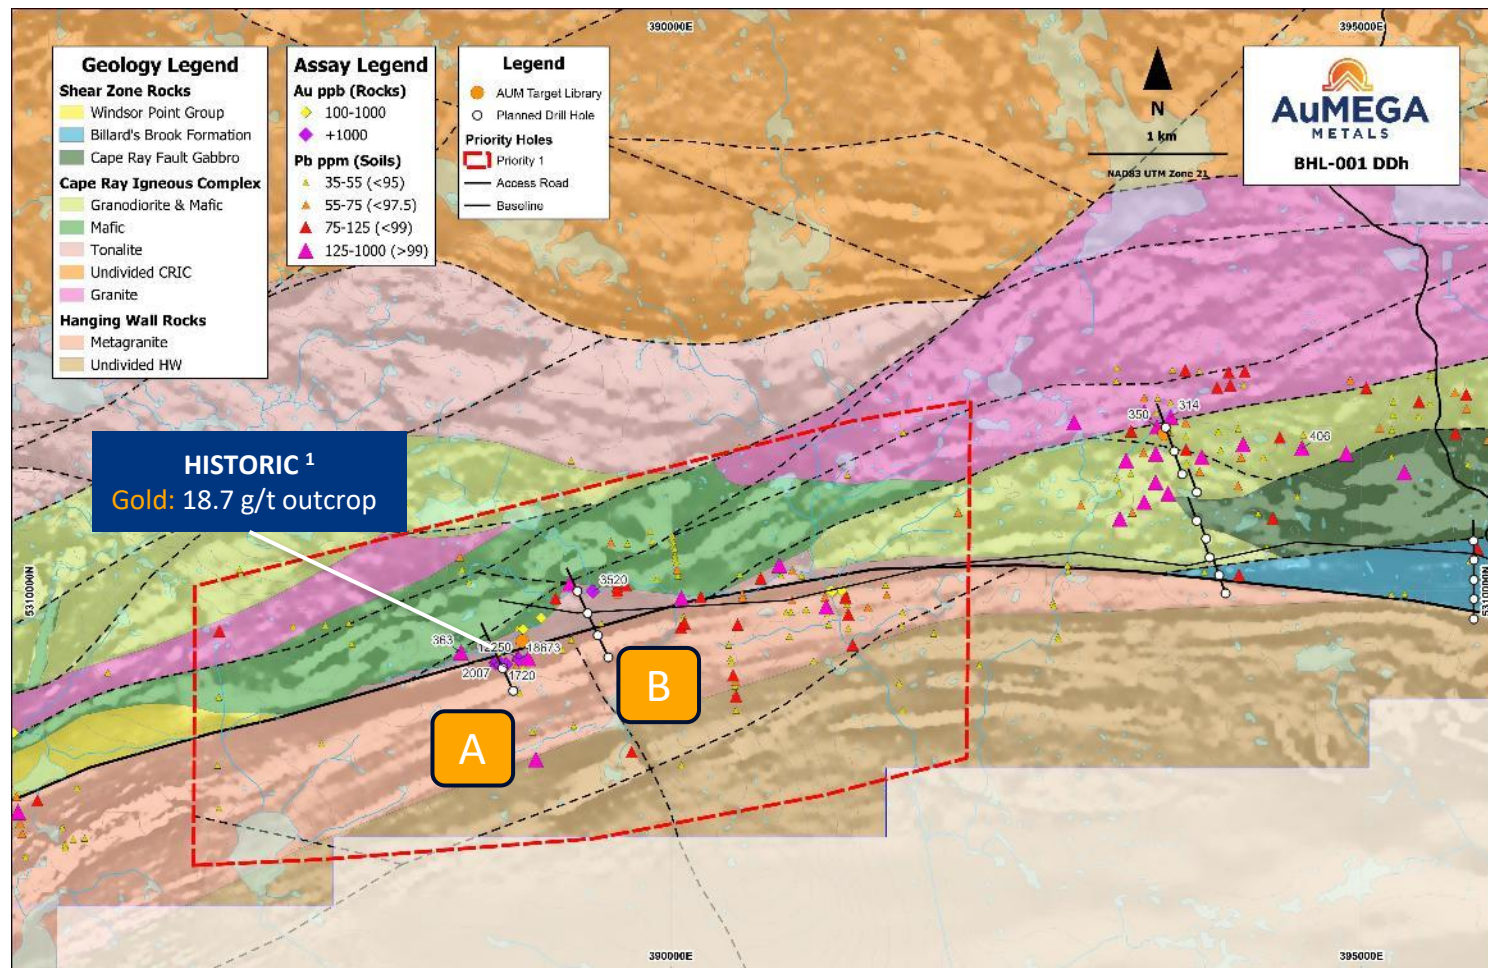

RC AND DIAMOND DRILLING

- Approximately 500 RC drill holes planned for bottom-of-hole, basal till drilling
- Several drill holes across multiple fences
- Drilling based on geophysics, geophysical inversion and high-grade samples

1. News Releases 15 October 2024, 24 September 2024, 6 April 2023, 22 March 2023 and 14 April 2021
2. Map: News Release 22 January 2025 and 25 November 2024

Priority 2: Bunker Hill West

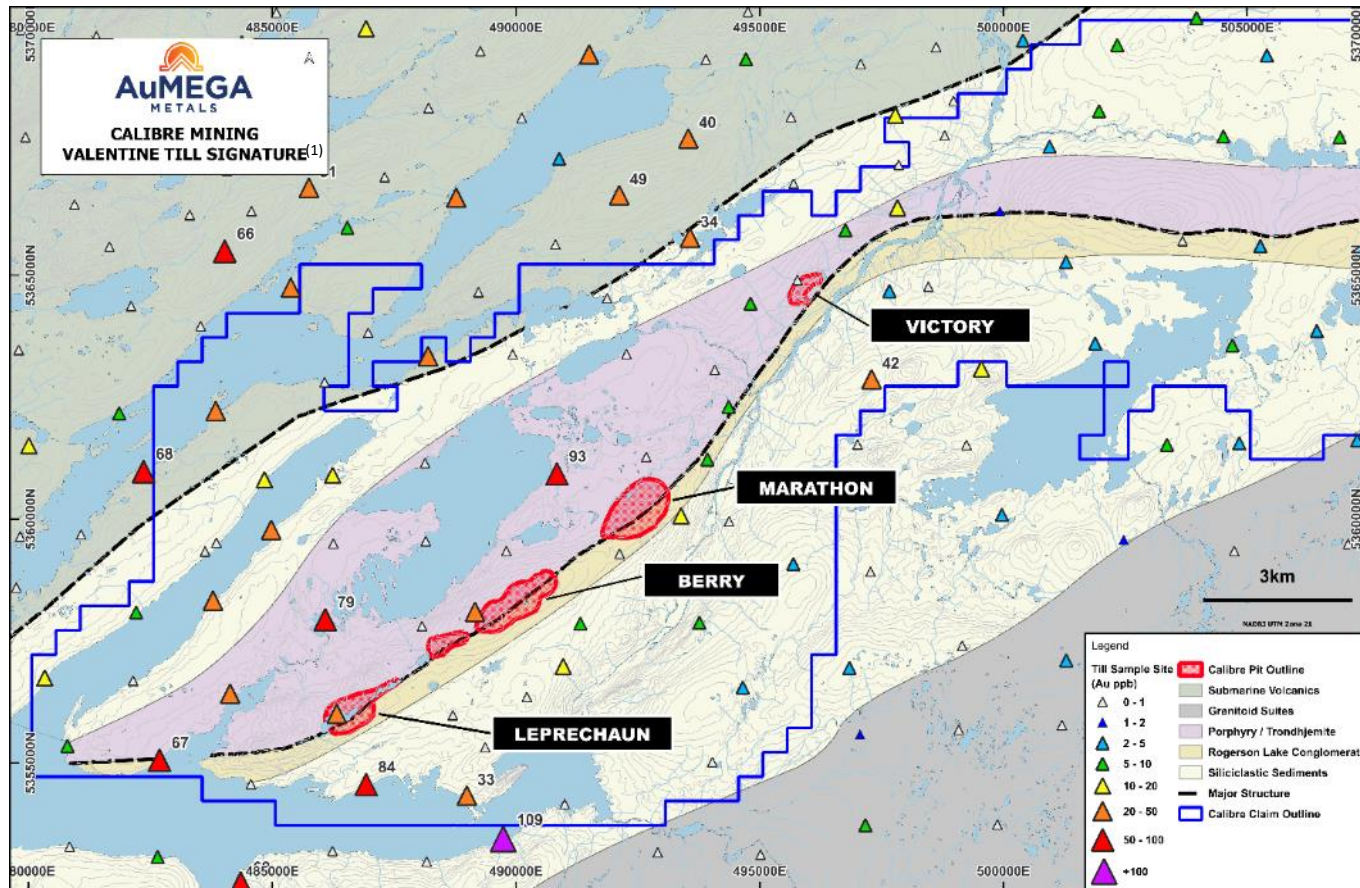

RC AND DIAMOND DRILLING

- Approximately 500 RC drill holes planned for bottom-of-hole, basal till drilling
- Several drill holes across multiple fences
- Drilling based on geophysics, geophysical inversion and high-grade samples

1. News Releases 15 October 2024, 24 September 2024, 6 April 2023, 22 March 2023 and 14 April 2021
2. Map: News Release 22 January 2025 and 25 November 2024

Valentine deposits presenting similar geological attributes to that of Bunker Hill

1. Image Source: Calibre Mining & NL Government

EXPLORATION HISTORY OF VALENTINE

Analogous to AuMEGA's exploration history

STRUCTURAL SETTING

Similar characteristics to that of the Company's projects, particularly Bunker Hill

VALENTINE TILL RESULTS

Similar in amplitude and scale to Bunker Hill Project

VALENTINE GROWTH

Exponential growth in resources when exploring new areas

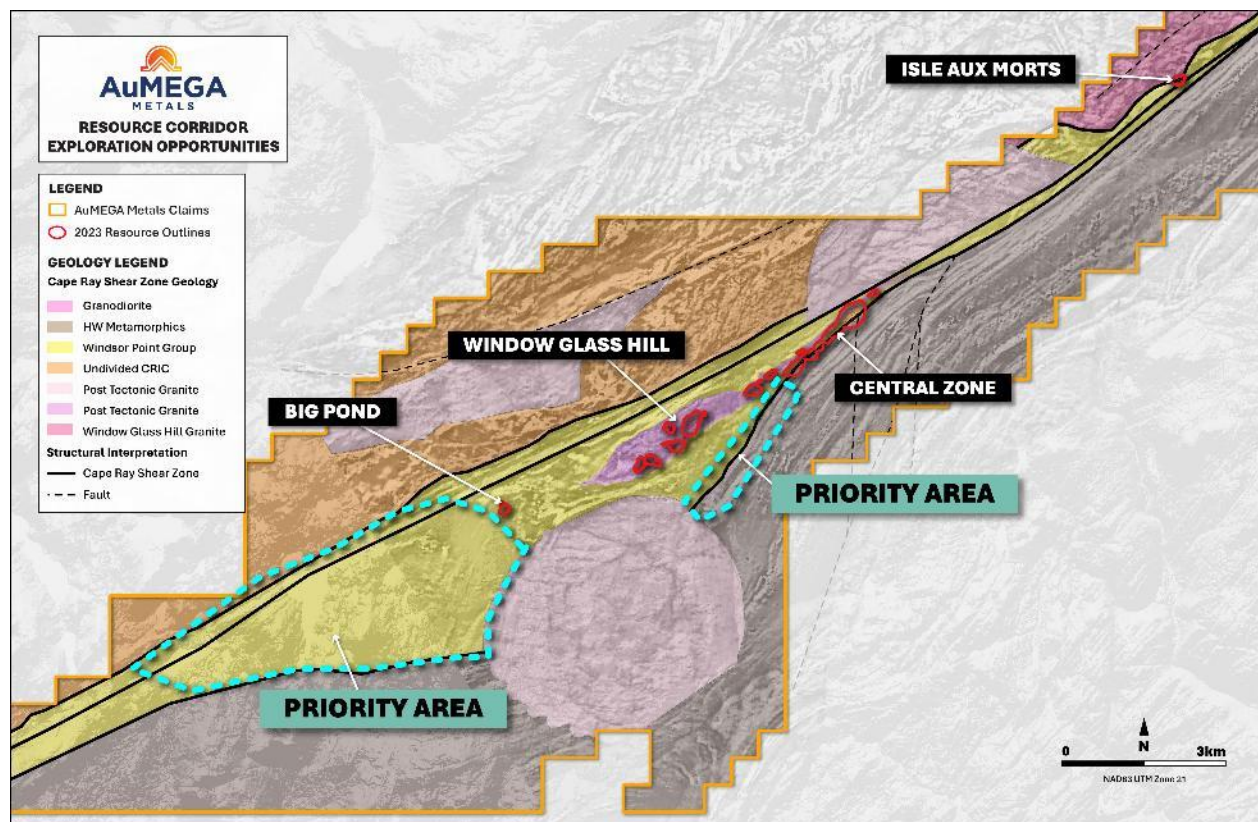

Cape Ray Project

Cape Ray Project Overview

INDICATED MINERAL RESOURCES¹
6.2 Mt @ 2.25 g/t for 450 koz Au

INFERRED MINERAL RESOURCES¹
3.5 Mt @ 1.4 g/t for 160 koz Au

HIGH-GRADE RESOURCE

Shallow mineralisation predominately at Central Zone and Window Glass Hill

HISTORIC EXPLORATION LIMITED TO DEPOSITS

Presents several new opportunities

ALONG STRIKE POTENTIAL

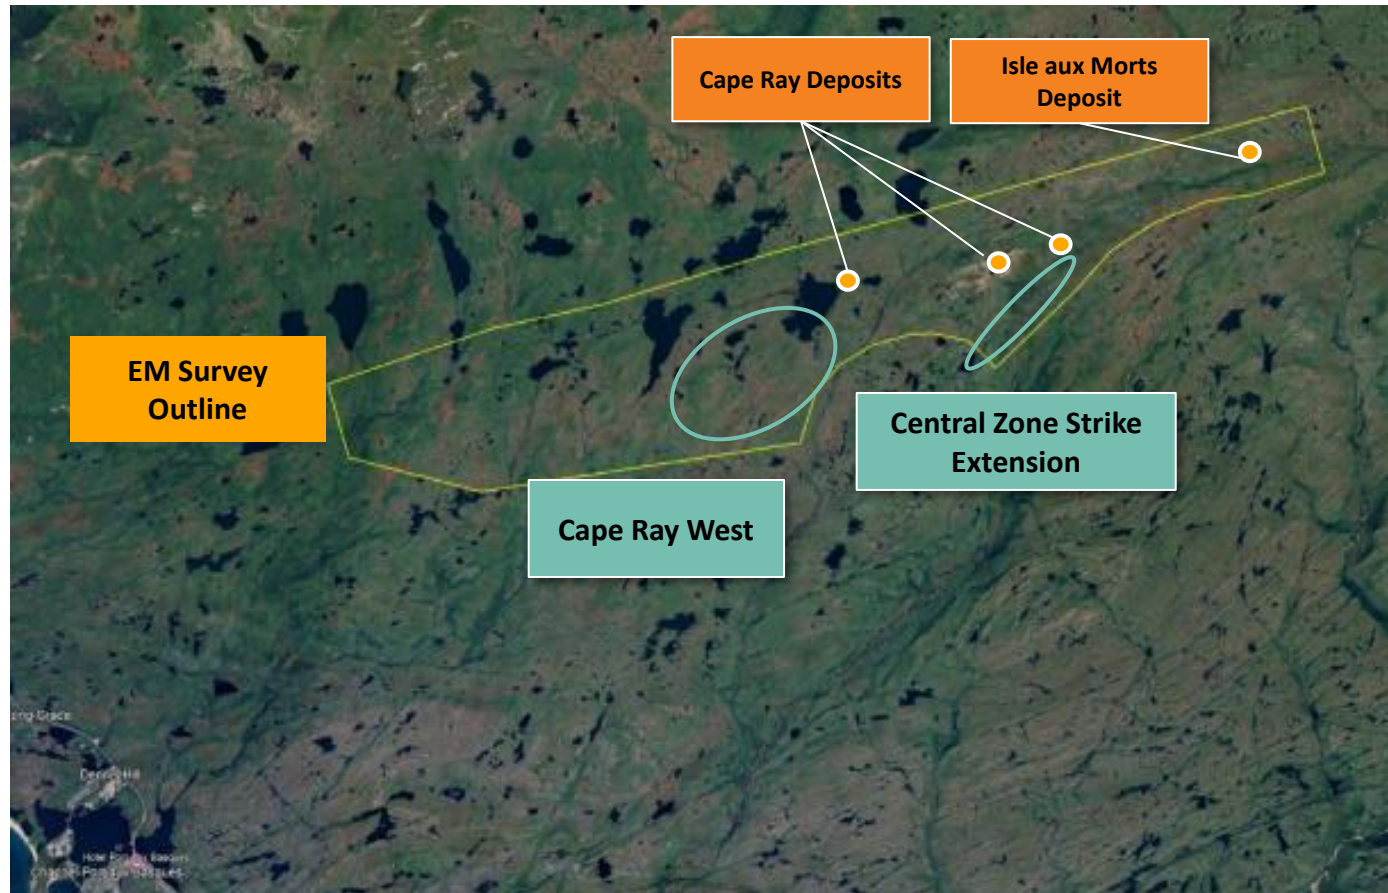

Limited to no drilling, exploration along strike of Central Zone

CAPE RAY WEST TARGET

Several new targets identified west of Big Pond

1. News release dated 30 May 2023

Airborne electromagnetic survey planned for Q1 2025

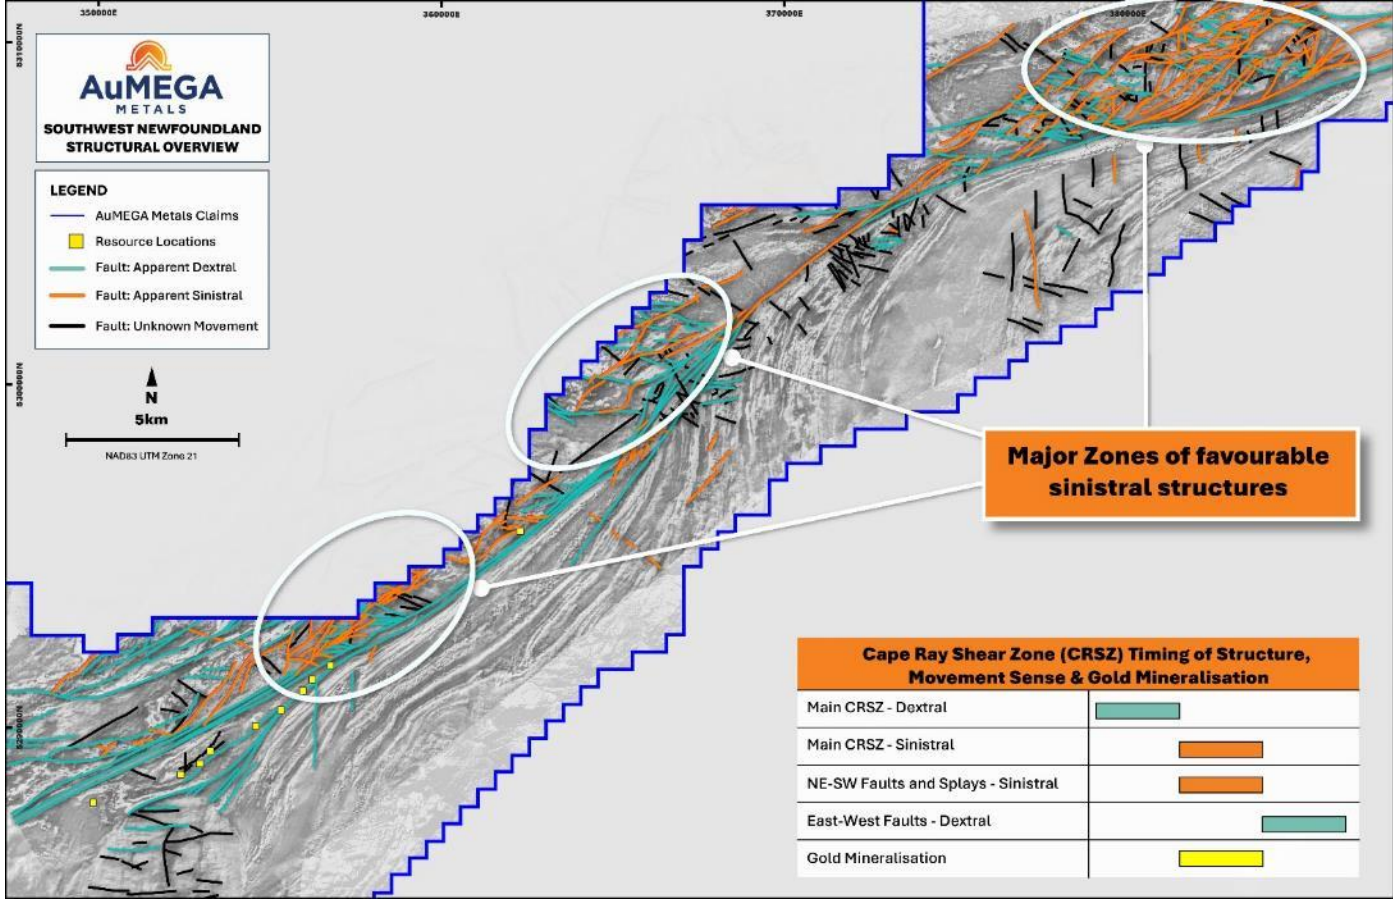

EM SURVEY

- Designed to identify shear-hosted vein systems along Windsor Point Group sediments that are similar to Central Zone
- Seeking to identify sulphide-rich zones
- Results to determine specific diamond drill targets for 2025 diamond drill program

New regional kinematic framework presents significant change to previous theories

COMPREHENSIVE STRUCTURAL REVIEW

Review of drill core, geochemistry and geophysics

VARIABLE CONTRIBUTIONS TO GOLD FLUID TRANSPORT

Metal inventory hypothesized as soured from intrusion-related fluids

MAJOR CHANGE TO KINETIC FRAMEWORK

Age of mineralisation potentially later than previously believed or tested

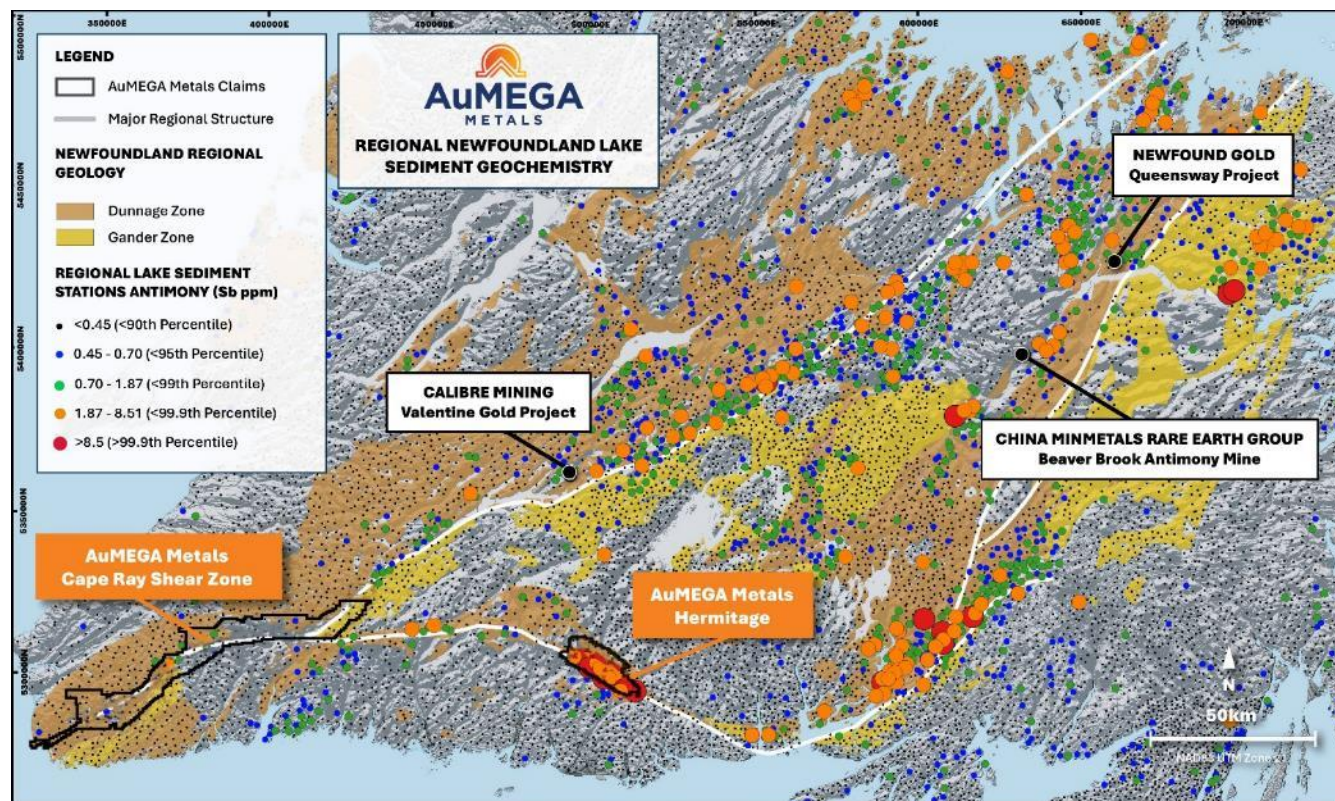

Hermitage Gold – Antimony Project

Hermitage Gold – Antimony Project Overview

Largest arsenic & antimony anomaly in Newfoundland – with confirmed association with gold

GEOLOGICALLY AKIN TO MAJOR GOLD BELT

Similar geology to world-class Bendigo, Fosterville in Australia, Windfall in Quebec

ANOMALOUS GEOLOGICAL ORIENTATION

Orientation different than nearly all other major structures

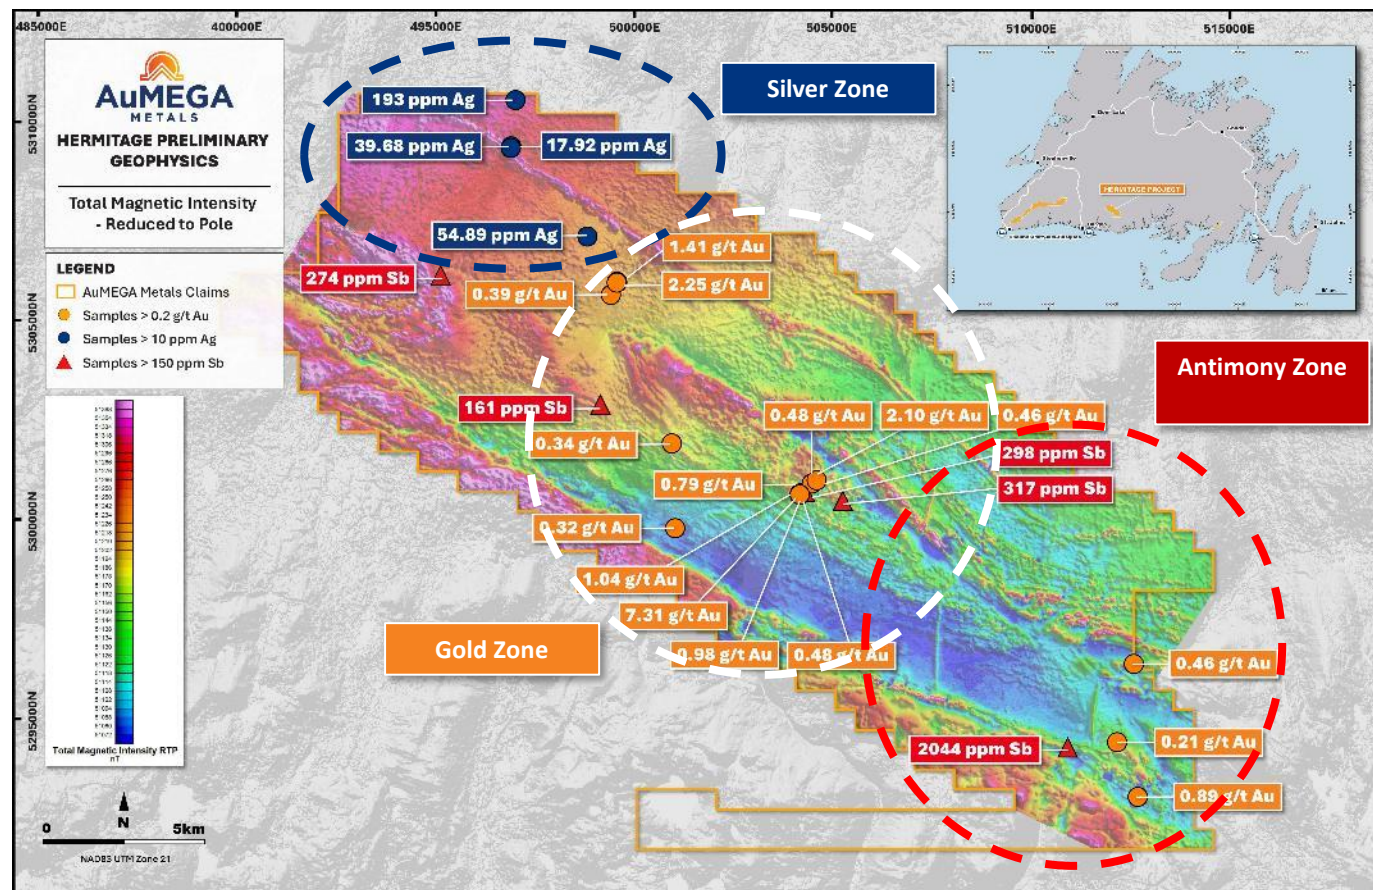

LIMITED EXPLORATION TO-DATE

Scale and location have prevented previous exploration

PLANNING LARGER EXPLORATION PROGRAM

Expecting to diamond drill in 2025

Discreet areas of significant identified by work completed to-date

THREE DISCREET AREAS

Silver Zone: High-grade silver samples

Gold Zone: High-grade gold and cluster of gold samples

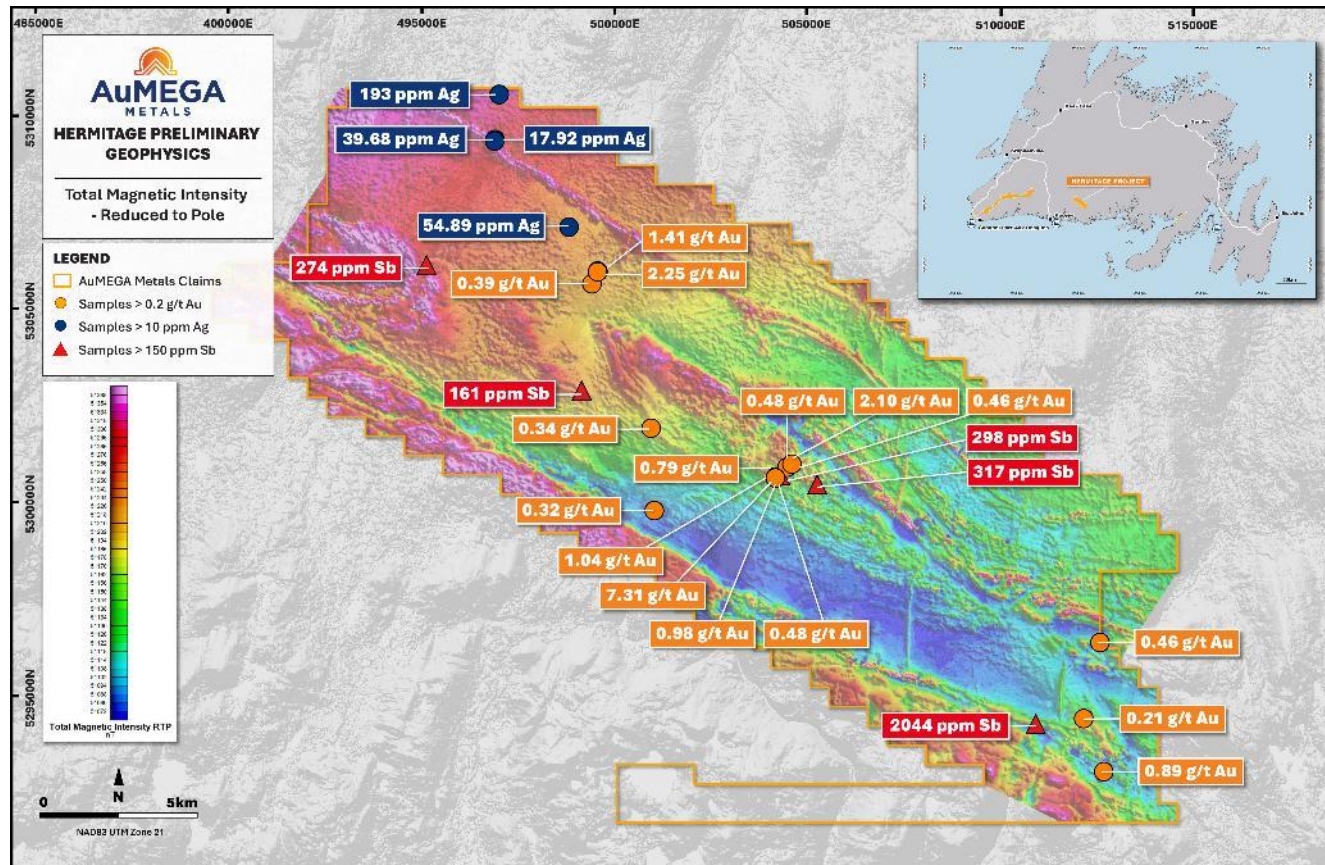

Antimony Zone: Several samples sampled

1. News releases dated 5 September 2024, 4 July 2024, 2 November 2023, 13 September 2023, 17 May 2023

Hermitage Geophysical Survey Results

Significant structural complexity of massive Hermitage Gold-Antimony Project Area

GEOPHYSICS COMPLETED LATE 2024

High-resolution, airborne survey

LARGE AREA OF SURVEYED

4,756 line-kms over 27 kms of strike flown for a total of 234 km²

COMPELLING RESULTS¹

Major structural boundaries and broad scale deformation features throughout

GEOLOGICAL STRUCTURAL ALIGNMENT

Prospecting samples appear coincident with major structures

1. News release dated 4 February 2025
2. Map: News releases dated 5 September 2024, 4 July 2024, 2 November 2023, 13 September 2023, 17 May 2023

**Focused on discovering the next
major gold deposit in
Newfoundland, Canada**
