

ASX Release 27 February 2025

Boss passes another key milestone with completion of first Sustainability Report

The report highlights Boss' commitment to strong ESG practices and the benefits they deliver for all its stakeholders

Boss Energy (ASX: BOE; OTCQX: BQSSF) is pleased to present its first annual Sustainability Report.

The report provides Boss' stakeholders with important information relating to the implementation of its refreshed Sustainability Framework and Roadmap along with an outline of Boss' sustainability performance over the past year. The report can be viewed at: <https://bossenergy.com/sustainability>.

This is part of our strong commitment to sustainability, which in turn reflects the Company's commitment to being a best-in-class uranium mining company.

Boss' refreshed Sustainability Framework and Roadmap draws on the Global Reporting Initiative (GRI), Towards Sustainable Mining (TSM) and Australian Sustainability Reporting Standard – Australian Accounting Standards Board (AASB) S2 Climate-related Disclosures standards.

Boss Managing Director Duncan Craib said: *"I am pleased to present our inaugural Sustainability Report, which represents another significant milestone for the Company. We are committed to delivering strong Environmental, Social and Governance (ESG) outcomes. Superior ESG results create value for all the Company's stakeholders, including customers, suppliers and communities. This in turn drives the long-term sustainability of the Company.*

"The Sustainability Report helps to ensure that Honeymoon makes a meaningful contribution to the energy transition while placing the highest priority on our material ESG topics and all stakeholder relationships".

This announcement was approved and authorised by the Board of Boss Energy Limited.
