5. DETAILS OF THE SPP OFFER

5.1 The SPP Offer

By this Prospectus, the Company offers for subscription up to 57.1 million SPP Shares to Eligible Shareholders at an Offer Price of 3.5 cents per SPP Share together with up to 28.6 million free SPP Options (subject to rounding) on the basis of one free SPP Option for every two SPP Shares subscribed for and issued to Eligible Shareholders pursuant to the SPP Offer and in accordance with the terms and conditions set out in the Prospectus.

Under the SPP, up to approximately \$2.0 million will be raised by the issue of SPP Shares. Eligible Shareholders can acquire up to \$30,000 worth of SPP Shares without paying any brokerage or transaction costs.

No funds will be raised from the issue of the SPP Options pursuant to this Prospectus as the SPP Options are issued for free attaching to the SPP Shares.

The SPP Options offered under this Prospectus will be issued on the terms set out in Section 9 of this Prospectus.

The SPP Shares and all of the Shares issued upon the future exercise of the SPP Options offered under this Prospectus will rank equally with the Shares on issue at the date of this Prospectus. Please refer to Section 9 for further information regarding the rights attaching to Shares.

If you choose not to participate in the SPP, your right to participate lapses on the Closing Date (or such other date as the Company determines).

The SPP Offer to each Eligible Shareholder (whether as a Custodian or on its own account) is made on the same terms and conditions.

The SPP Offer is non-renounceable and non-transferable and, therefore, Eligible Shareholders cannot transfer their right to purchase SPP Shares to a third party.

The SPP Offer will open on the Opening Date and close on the Closing Date.

5.2 Offer Price

The Offer Price per SPP Share will be 3.5 cents per SPP Share being the same price paid by investors under the Placement announced on 11 February 2025.

The Company notes that:

- (a) on 6 February 2025, being the last trading day immediately prior to the announcement date of the SPP Offer, the closing price of the Shares traded on ASX was 4.44 cents per Share. The Offer Price is a 20.5% discount to that closing price and a 16.3% discount to the volume weighted average market price of Shares in the 5 day period prior to that last trading date;
- (b) the market price of the Shares in the Company may rise and fall between the date of the SPP Offer and the date that any Shares are issued to you as a result of your acceptance of the SPP Offer; and
- (c) if you participate in the SPP by making a payment by BPAY or EFT, you are accepting the risk that the market price of Shares may change between the date on which you make a payment by BPAY or EFT and the Issue Date. This means that, although the Offer Price is at a discount to the closing price specified in (a) above, Shares are a speculative investment and the price of Shares on ASX may change between the date of the Company announcing its intention to make the SPP Offer up to and/or after the Issue Date and you may be able to buy Shares on the ASX at a lower price than the Issue Price and that the value of the Shares received under the SPP Offer may rise or fall accordingly.

The current Share price can be obtained from the ASX.

You agree to pay the Offer Price per SPP Share for the number of SPP Shares you have applied

for or, if there is a scale-back, the number of SPP Shares calculated in accordance with Section 5.11.

5.3 **Minimum subscription**

There is no minimum subscription amount for the SPP Offer.

5.4 **Conditional Offer**

The SPP Offer is conditional upon the Company obtaining Shareholder approval to issue the SPP Shares and SPP Options at the Company's GM. If Shareholder approval is not obtained for the SPP Offer, all application monies will be refunded as soon as practicable.

5.5 **Eligible Shareholders**

- (a) You are eligible to participate in the SPP Offer if you:
 - (i) were registered on the Register as a Shareholder on the Record Date;
 - (ii) have a registered address in either Australia or New Zealand at that time and you are not an Ineligible Shareholder.
- (b) An **Ineligible Shareholder** is any Shareholder (including a Custodian) to the extent they:
 - (i) hold Shares on their own account and reside outside Australia or New Zealand;
 - (ii) hold Shares on behalf of another person who resides outside Australia, or New Zealand; or
 - (iii) are in the United States, or they hold Shares on behalf of a person in the United States, or are acting for the account or benefit of a person in the United States (to the extent they are participating in the SPP on behalf of those persons). The SPP Offer is not made to Shareholders with a registered address outside of Australia or New Zealand.

5.6 **Joint holders/Custodians**

- (a) If two or more persons are registered on the Register as jointly holding Shares, they are taken to be a single registered holder of Shares for the purposes of determining whether they are an Eligible Shareholder and a certification given by any of them is taken to be a certification given by all of them.
- (b) Subject to the terms and conditions set out in this Prospectus, Eligible Shareholders who are Custodians may participate in the SPP on behalf of each Eligible Beneficiary on whose behalf the Custodian is holding Shares.

5.7 **Applications for SPP Shares**

- (a) Eligible Shareholders may apply for SPP Shares in parcels of Shares with a dollar value of between \$1,000 and \$30,000 that is a multiple of \$1,000 and one SPP Option for every two SPP Shares (subject to discretionary scale-back by the Company as described in Section 5.11).
- (b) No brokerage or other transaction costs will apply to the acquisition of SPP Shares or SPP Options.
- (c) Eligible Shareholders who wish to apply for SPP Shares and SPP Options must either:
 - (i) make a payment via BPAY in accordance with the instructions on the Application Form so that it is received by the Closing Date; or
 - (ii) make a payment via EFT in accordance with the instructions on the Application Form so that it is received by the Closing Date.
- (d) Eligible Shareholders who receive more than one offer under the SPP (for example, because they hold Shares in more than one capacity or in different registered holdings) may apply on different Application Forms for SPP Shares and SPP Options but may not apply for SPP Shares and SPP Options with an aggregate value of more than \$30,000.

- (e) If you wish to subscribe for SPP Shares and SPP Options as a Custodian for one or more Eligible Beneficiaries, you must also complete and submit an additional Custodian Certificate that contains further certifications and details (required under the terms of Class Order) before your Application will be accepted. Applications by Custodians that are not accompanied by a duly completed Custodian Certificate will be rejected.
- (f) The Company, its officers and agents, may accept or reject your Application for SPP Shares at its discretion including, without limit, if:
 - (i) your Application does not comply with the terms and conditions set out in this Prospectus;
 - (ii) it appears you are not an Eligible Shareholder;
 - (iii) your BPAY or EFT payment is not received by the Share Registry by the Closing Date; or
 - (iv) it appears that you are applying to purchase more than \$30,000 worth of SPP Shares (and SPP Options) in aggregate (including as a result of Shares you hold directly, jointly or through a Custodian or nominee arrangement).
- (g) If you are entitled to a refund of all or any of your Application Monies, the refund will be paid to you (minimum payment being \$0.035), without interest, as soon as is practicable, by direct credit to the nominated bank account as noted with the Share Registry as at the Closing Date, in accordance with the requirements of the Corporations Act. If you wish to advise or change your banking instructions with the Share Registry you may do so by following the instructions below before the Closing Date:
 - Go to the Share Registry's investor portal at <https://investor.automic.com.au>;
 - If you do not already have an account, select "register" to set up an account.
 - If you already have an account, or once you have registered, login using your username and password.
 - Once you have logged in, click on "profile" and then "edit" in the "payment details" section.
 - Once you have added your payment details, click "save".

5.8 **Number of SPP Shares and SPP Options to be issued**

If you apply for SPP Shares, you will apply for a certain value, rather than a certain number, of SPP Shares. If your Application is accepted, the Company will divide the value of your Application Monies by the Offer Price in order to determine the number of SPP Shares that, subject to scale-back, will be issued to you. You will be issued one free SPP Option for every two SPP Shares issued to you.

Where the amount applied for results in a fraction of a Share, the number of SPP Shares issued will be rounded up to the nearest whole number. Where the amount applied for results in a fraction of an Option, the number of SPP Options issued will be rounded up to the nearest whole number.

5.9 **Issue**

- (a) SPP Shares and SPP Options will be issued on the Issue Date.
- (b) SPP Shares will rank equally with existing Shares as at the Issue Date.
- (c) The Share Registry will send you a holding statement, confirming the number of SPP Shares and SPP Options issued to you.

5.11 **Scale-back**

The Company intends to raise up to approximately \$2.0 million under the SPP Offer. If Applications for more than this amount are received before the Closing Date, the Company may, depending on the amounts subscribed by Applicants under the SPP, exercise its absolute discretion to scale back applications to the extent and in the manner it sees fit.

Applications under the SPP Offer will be allocated at the absolute discretion of the Company and the final allocation decision will be at the sole discretion of the Board.

If the scale back produces a fractional number of SPP Shares and SPP Options when applied to your parcel, the number of SPP Shares and SPP Options with which you will be issued will be rounded up to the nearest whole number. If the Company scales back an Application or purported Application, the Company will as soon as practicable return to the Shareholder the

relevant Application Monies, without interest, following issue of the SPP Shares and SPP Options.

5.12 **Shortfall**

Any SPP Shares and SPP Options not taken up pursuant to the SPP Offer (**Shortfall**) will form the SPP shortfall offer (**SPP Shortfall Offer**) which is made by the Company to any investors by way of this Prospectus. In the event of a Shortfall, investors will be identified by the Company and requested to apply under the SPP Shortfall Offer by a SPP Shortfall Securities Application Form. Applicants for Shortfall Securities may therefore not be a Shareholder.

The Company will issue one SPP Option for every two SPP Shares subscribed for by an investor under the SPP Shortfall Offer.

The issue price for Shares to be issued under the SPP Shortfall Offer will be 3.5 cents each, being the price at which SPP Shares have been offered under the SPP Offer and the price of the SPP Options will be nil as they are free attaching to the SPP Shares.

There is no maximum limit on the number of SPP Shares (with free attaching SPP Options) that an investor may apply for under the SPP Shortfall Offer however investors will be limited to the extent that there is a Shortfall.

The SPP Shortfall Offer is conditional upon the Company obtaining shareholder approval to issue any relevant SPP Shortfall Securities at the GM.

The Directors reserve the right to issue SPP Shortfall Securities at their absolute discretion and may issue to an applicant a scaled back, lesser number of, or no, SPP Shortfall Securities than the number for which the Applicant applies pursuant to the SPP Shortfall Securities Application Form.

5.13 **Underwriting**

The SPP is not underwritten.

5.14 **Dispute resolution**

The Company may settle, in any manner it deems, any difficulties, anomalies, or disputes which may arise in connection with the operation of the SPP whether generally or in relation to any participant or any Application for SPP Shares, and its decision shall be conclusive and binding on all participants and other persons to whom the determination relates.

The powers of the Company under this Prospectus may be exercised by the Directors or any delegate or representative of the Directors.

5.15 **Variation and termination of the SPP Offer**

The Company reserves the right at any time to:

- (a) amend or vary the terms and conditions of the SPP;
- (b) waive strict compliance with any provision of the terms and conditions of the SPP;
- (c) withdraw the SPP Offer or suspend or terminate the SPP;
- (d) vary the timetable for the SPP, including the Closing Date; and
- (e) not accept an Application, not issue SPP Shares or issue SPP Shares to a value less than that applied for under the SPP by an Eligible Shareholder (including a Custodian applying on behalf of its Eligible Beneficiaries).

In the event that the SPP is withdrawn or terminated all Application Monies will be refunded as soon as practicable in accordance with the requirements of the Corporations Act. No interest will be paid on any money returned to you.

5.16 **ASX listing - SPP Shares**

Application for Official Quotation of the SPP Shares offered pursuant to this Prospectus will be made within 7 days of the date of this Prospectus. If ASX does not grant Official Quotation of the Shares offered pursuant to this Prospectus before the expiration of 3 months after the date of

issue of the Prospectus (or such period as varied by the ASIC), the Company will not issue any SPP Shares and will repay all application monies for the SPP Shares within the time prescribed under the Corporations Act, without interest.

The fact that ASX may grant Official Quotation to the SPP Shares is not to be taken in any way as an indication of the merits of the Company or the SPP Shares now offered for subscription.

7. INVESTMENT RISKS

7.1 Introduction

The New Securities offered under this Prospectus are considered highly speculative. An investment in the Company is not risk free and the Directors strongly recommend potential investors to consider the risk factors described below, together with information contained elsewhere in this Prospectus and to consult their professional advisers before deciding whether to apply for New Securities pursuant to this Prospectus.

There are specific risks which relate directly to the Company's business. In addition, there are other general risks, many of which are largely beyond the control of the Company and the Directors. The risks identified in this Section 7, or other risk factors, may have a material impact on the financial performance of the Company and the market price of the New Securities.

The following is not intended to be an exhaustive list of the risk factors to which the Company is exposed.

7.2 Risks specific to the Company

(a) *Exploration and appraisal activities*

Potential investors should understand that gas exploration and development are high-risk undertakings. There can be no assurance that exploration and appraisal of Elixir's projects, or any other permits or tenure rights that may be acquired in the future, will result in the discovery and development of an economic gas resource or reserve. Even if an apparently viable resource is identified, there is no guarantee that it can be economically exploited. The future exploration and appraisal activities of the Company may be affected by a range of factors including geological conditions, limitations on activities due to seasonal weather patterns, unanticipated operational and technical difficulties, industrial and environmental accidents, native title process, changing government regulations and many other factors beyond the control of the Company. The success of the Company will also depend upon the Company having access to sufficient development capital, being able to maintain title to its tenure rights and obtaining all required approvals for its activities. In the event that exploration and appraisal programs prove to be unsuccessful this could lead to a diminution in the value of its permits, a reduction in the case reserves of the Company and possible relinquishment of the tenure rights. The exploration and appraisal costs of the Company are based on certain assumptions with respect to the method and timing of exploration and appraisal. By their nature, these estimates and assumptions are subject to significant uncertainties and, accordingly, the actual costs may materially differ from these estimates and assumptions. Accordingly, no assurance can be given that the cost estimates and the underlying assumptions will be realised in practice, which may materially and adversely affect the Company's viability.

(b) *Foreign risk*

The Nomgon Project and the Renewables (Solar and Gobi H2) Projects are located in Mongolia. There can be no assurance that government regulations relating to foreign investment, repatriation of foreign currency, taxation in Indonesia will not be amended or replaced in the future to the detriment of the Company's business and/or projects. As such there is exposure to sovereign risk. There can be no assurance that the systems of government and the political systems in Mongolia will remain stable.

Additionally, operations in Mongolia are subject to risk of key infrastructure unavailability such as access roads and utilities which could have a materially adverse effect upon the Company's operations and which are outside of the Company's control.

On 20 February 2025, the Company executed Farmout Agreements for its Mongolian assets under which the Farminee will fully carry Elixir through all costs to a final investment decision (FID).

The key terms of the Nomgon Project Gas Farmout Agreement are as follows:

- The Agreement establishes an incorporated joint venture (IJV) that holds Elixir's Mongolian coal bed methane (CBM) business – primarily the Nomgon CBM PSC and sundry related equipment and facilities.
- The Farminee party acquires a 51% interest in the IJV and will fully carry Elixir through all costs to a FID on a gas development.
- The Farmout Agreement also contains conditional put and call options that can be exercised upon FID being reached, providing for Elixir to exit at a price of US\$0.30/GJ of 2P booked reserves, capped at US\$30 million.
- The Farminee is a UK registered company controlled by Mongolian business interests that are well known to Elixir.

The key terms of the Renewables Farmout Agreement is as follows:

- The Agreement establishes an incorporated joint venture (IJV) that holds Elixir's Mongolian based renewable energy business – the Solar Ilch pre-development solar farm, wind/solar monitoring equipment and all data/IP.
- The Farminee party will acquire a 51% interest in the IJV and fully carry Elixir through all costs to any FIDs on the proposed solar/wind farm developments.
- The Farmout Agreement also contains conditional put and call options that can be exercised upon FID being reached, providing for Elixir to exit on the following terms:
 - Solar farm – US\$2 million and US\$20k per MW of installed capacity up to a maximum of 50 MW. A 50 MW solar farm would therefore entail a total payment of \$US3 million to Elixir.
 - Wind farms – US\$1 million and US\$10k per MW of installed capacity up to a maximum of 200 MW. A 200 MW wind farm would therefore entail a total payment of US\$3 million to Elixir.
- The Farminee is the same party as noted above.

(c) **Potential acquisitions**

As part of its business strategy, the Company may make acquisitions of, or significant investments in, complementary companies, projects, blocks or prospects and make asset divestments. Any such transactions would be accompanied by the risks commonly encountered in making such acquisitions and any divestment activity could result in realising values less than fair value.

(d) **Title of permits**

The Company's title to its:

- 100% interest Grandis Gas Project, ATP 2077 and ATP 2044;
- 50% (post Farmin) owned exploration licences in the Taroom Trough – ATP 2056 and ATP 2057; and
- 49% working interest (post Farmout) in the Nomgon Project are regulated by the relevant petroleum laws applying in the place of their location and are typically evidenced by the granting of licences, permits or contracts.

Each licence, permit or contract is typically for a specific term and carries with it annual expenditure and reporting commitments, as well as other conditions requiring compliance. Consequently, the Company could lose title to, or its interest in, these assets if the imposed conditions are not met or if insufficient funds are available to meet expenditure commitments.

(e) **Additional requirements for capital**

The Company's capital requirements depend on numerous factors. If the Company identifies a new opportunity in which it wishes to invest, the Company is likely to have insufficient funds to pursue the acquisition of such an interest without the raising of

further funds (either through equity or debt or a combination of both).

There can be no assurance that such funding will be available on satisfactory terms or at all. Any inability to obtain finance will adversely affect the business and financial condition of the Company and its performance. Existing shareholders may be diluted if additional funds are raised by equity securities.

7.3 **Reliance on key personnel**

The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially on its senior management and its key personnel. There can be no assurance given that there will be no detrimental impact on the Company if one or more of these employees ceases their employment with the Company.

7.4 **Industry specific**

(a) ***Hydrocarbon reserve estimates***

Hydrocarbon reserve estimates are expressions of judgment based on knowledge, experience, interpretation and industry practice. Estimates that were valid when made may change significantly when new information becomes available. In addition, reserve estimates are necessarily imprecise and depend to some extent on interpretations, which may prove inaccurate. Should the Company encounter gas deposits or formations that are different from those predicted by past drilling, sampling and similar examinations, then reserve estimates may have to be adjusted and production plans may have to be altered in a way which could adversely affect the Company's operations. Where possible, the Company will seek to have any such estimates verified or produced by an independent party with sufficient expertise in their chosen field.

Gas exploration, production and related operations are subject to extensive rules and regulations promulgated by federal, state and local agencies. Failure to comply with such rules and regulations can result in substantial penalties. The regulatory burden on the gas industry increases the cost of doing business and affects profitability. Because such rules and regulations are frequently amended or reinterpreted, the Company is unable to predict the future cost or impact of complying with such laws.

(b) ***Farm in or out partners and contractors***

Gas ventures are often operated under a farm in or out and/or joint venture arrangements. These arrangements include provisions that often require certain decisions relating to the projects to be passed with unanimous or majority approval of all participants. Where a venture partner does not act in the best commercial interest of the project, it could have a material adverse effect on the interests of the Company.

The Company is unable to predict the risk of:

- financial failure, non-compliance with obligations or default by a participant in any venture to which the Company is, or may become, a party; or
- insolvency or other managerial failure by any of the contractors used by the Company in any of its activities; or
- insolvency or other managerial failure by any of the other service providers used by the Company for any activity,
- all of which could have a material adverse effect on the operations and financial performance of the Company

(c) ***Drilling***

Gas drilling activities are subject to numerous risks, many of which are beyond the Company's control. The Company's drilling operations may be curtailed, delayed or cancelled due to a number of factors including weather conditions, mechanical difficulties, shortage or delays in the availability or delivery of rigs and/or other

equipment and compliance with governmental requirements. Hazards incident to the exploration and development of gas properties such as unusual or unexpected formations, pressures or other factors are inherent in drilling and operating wells and may be encountered by the Company. Completion of a well does not assure a profit on the investment or recovery of drilling, completion and operating costs.

(d) **Insurance**

The Company seeks to maintain appropriate policies of insurance consistent with those customarily carried by organisations in their industry sector. Any increase in the cost of the insurance policies of the Company or the industry in which they operate could adversely affect the Company's business, financial condition and operational results. The Company's insurance coverage may also be inadequate to cover losses it sustains. Uninsured loss or a loss in excess of the Company's insured limits could adversely affect the Company's business, financial condition and operational results.

(e) **Environmental**

The Company will be subject to environmental laws and regulations with operations it may pursue in the gas industry. The Company intends to conduct its activities in an environmentally responsible manner and in accordance with all applicable laws. However, the Company may be the subject of accidents or unforeseen circumstances that could subject the Company to extensive liability.

Further, the Company may require approval from the relevant authorities before it can undertake activities that are likely to impact on the environment. Failure to obtain such approvals may prevent the Company from undertaking its desired activities. The Company is unable to predict the effect of additional environmental laws and regulations that may be adopted in the future, including whether any such laws and regulations would materially increase the Company's cost of doing business or affect its operations in any area.

(f) **Contractual disputes**

The Company's business model is dependent in part on contractual agreements with third parties that have an interaction with the Company's target market. The Company is aware that there are associated risks when dealing with third parties including but not limited to insolvency, fraud and management failure. Should a third party contract fail, there is the potential for negative financial and brand damage for the Company.

7.5 **General risks**

(a) **Economic & political**

General economic conditions, introduction of tax reform, new legislation, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's activities, as well as on its ability to fund those activities.

Adverse changes in the general economic and political climate in Australia and Mongolia, and on a global basis that could impact on economic growth, gas prices, interest rates, the rate of inflation, taxation and tariff laws and domestic security, which may affect the viability of any gas activity that may be conducted by the Company upon the Grandis Gas Project or its Mongolian projects.

(b) **Market conditions**

Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:

- general economic outlook;
- introduction of tax reform or other new legislation;
- interest rates and inflation rates;

- changes in investor sentiment toward particular market sectors;
- the demand for, and supply of, capital; and
- terrorism or other hostilities.

The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and industrial stocks in particular. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

(c) ***Litigation***

The Company is exposed to the risk of actual or threatened litigation or legal disputes in the form of customer claims, intellectual property claims, personal injury claims, employee claims and other litigation and disputes. If any claim was successfully pursued it may adversely impact the financial performance, financial position, cash flow and share price of the Company.

As at the date of this Prospectus, the Company is not aware of any pending litigation.

7.6 Investment risk

The above list of risk factors ought not to be taken as an exhaustive list of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the New Securities offered under this Prospectus.

Therefore, the New Securities to be issued pursuant to this Prospectus carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those New Securities.

Potential investors should consider that the investment in the Company is highly speculative and should consult their professional advisers before deciding whether to apply for Shares pursuant to this Prospectus.

8. RIGHTS AND LIABILITIES ATTACHING TO SPP SHARES

The following is a summary of the more significant rights attaching to the SPP Shares. **This summary is not exhaustive** and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights attaching to Shares are set out in the Company's Constitution, a copy of which is available on the Company's website at: www.elixirenergy.com.au. A copy is also available for inspection at the Company's registered office during normal business hours.

8.1 Rights attaching to SPP Shares

Ordinary shares

The SPP Shares to be issued under this Prospectus will rank equally with the existing fully paid ordinary Shares on issue in the Company. The rights attaching to Shares are set out in the Company's Constitution and, in certain circumstances, are regulated by the Corporations Act, the Listing Rules and general law.

General meetings

Shareholders are entitled to be present in person or by proxy, attorney or representative to attend and to vote at general meetings of the Company.

Shareholders may requisition meetings in accordance with section 249D of the Corporations Act and the Constitution.

Voting rights

Subject to any rights or restrictions for the time being attached to any class or classes of Shares, at general meetings of Shareholders or of classes of Shareholders:

- (a) each Shareholder entitled to vote may vote in person or by proxy, attorney or representative;
- (b) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (c) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder shall, in respect of each Share held by that person or in respect of which the person is appointed proxy, attorney or representative, have one vote for each Share held, but in respect of partly paid Shares shall have a fraction of a vote equivalent to the proportion which the amount paid up bears to the total issue price for the Share.

Dividend rights

The Board may from time to time declare and pay or credit a dividend in accordance with the Corporations Act. Subject to any special right as to dividends attaching to a Share, all dividends will be declared and paid according to the proportion of the amount paid on the Share to the total amount payable in respect of the Shares (but any amount paid during the period in respect of which a dividend is declared only entitles the Shareholder to an apportioned amount of that dividend as from the date of payment). The Directors may from time to time pay or credit to Shareholders such interim dividends as they may determine. No dividends shall be payable except out of profits. A determination by the Board as to the profits of the Company shall be conclusive. No dividend shall carry interest as against the Company.

The Board may from time to time grant to Shareholders or to any class of Shareholders the right to elect to reinvest cash dividends paid by the Company by subscribing for Shares on such terms and conditions as the Directors think fit. The Directors may at their discretion resolve, in respect of any dividend which it is proposed to pay or to declare on any Shares, that holders of such Shares may elect to forgo their right to the whole or part of the proposed dividend and to receive instead an issue of Shares credited as fully paid to the extent and on the terms and conditions provided for in the Constitution. The Directors may set aside out of the profits of the Company

such amounts as they may determine as reserves, to be applied at the discretion of the Directors, for any purpose for which the profits of the Company may properly be applied.

Winding-up

If the Company is wound up, the liquidator may, with the authority of a special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company, and may for that purpose set such value as he or she considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

The liquidator may, with the authority of a special resolution, vest the whole or any part of any such property in trustees upon such trusts for the benefit of the contributories as the liquidator thinks fit, but so that no Shareholder is compelled to accept any Shares or other securities in the Company in respect of which there is any liability.

Transfer of Shares

Generally, Shares are freely transferable, subject to formal requirements, and so long as the registration of the transfer will not result in a contravention of or failure to observe the provisions of a law of Australia, including the Corporations Act and the Listing Rules.

Variation of rights

If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of at least three quarters of the issued shares of that class or, if authorised by a special resolution passed at a separate meeting, of the holders of the shares of that class.

9. **TERMS OF SPP OPTIONS**

The SPP Options entitle the holder to subscribe for Shares on the following terms and conditions:

- (a) The Options are listed options ASX code: EXROB.
- (b) Each Option gives the holder the right to subscribe for one fully paid ordinary Share.
- (c) The SPP Options will expire at 5.00pm (Adelaide time) on 17 October 2026 (**Expiry Date**).
- (d) Any SPP Options not exercised before 5.00pm (Adelaide time) on the Expiry Date will automatically lapse at that time and be cancelled by the Company.
- (e) The amount payable upon exercise of each Option will be 12 cents (**Exercise Price**).
- (f) The Company will provide to each New Option holder a notice that is to be completed when exercising the Options (**Notice of Exercise**).
- (g) The SPP Options may be exercised by the Option holder in whole or in part by completing the Notice of Exercise and forwarding the same to the Company Secretary at Company's registered office (or such other address notified by the Company to the holder) to be received prior to the Expiry Date. The Notice of Exercise must, among other things, state the number of Options exercised, the consequent number of Shares to be allotted and the identity of the proposed allottee. The Notice of Exercise by an Option holder must be accompanied by payment in full for the relevant number of Shares being subscribed, being an amount of the exercise price per Share.
- (h) A Notice of Exercise is only effective on and from the later of the date of receipt of the Notice of Exercise and the date of receipt of the payment of the applicable Exercise Price for each Option being exercised in cleared funds (**Exercise Date**).
- (i) As soon as practicable after the relevant Exercise Date, the Company will:
 - (i) issue the number of Shares required under these terms and conditions in respect of the number of Options specified in the Notice of Exercise and for which cleared funds have been received by the Company; and
 - (ii) if admitted to the official list of ASX at the time, apply for official quotation on ASX of Shares issued on the exercise of the Options.
- (j) All Shares issued upon the exercise of the SPP Options will upon issue rank equally in all respects with the then issued Shares.
- (k) The SPP Options are transferable.
- (l) If at any time the issued capital of the Company is reconstructed, all rights of an Option holder are to be changed in a manner consistent with the Corporations Act and the ASX Listing Rules at the time of the reconstruction.
- (m) There are no participating rights or entitlements inherent to the SPP Options and the Option holder will not be entitled to participate in new issues of capital offered to Shareholders during the currency of the SPP Options. However, the Company will ensure that for the purposes of determining the entitlements to any such issue, the record date will be at least 3 Business Days after the issue is announced. This will give the Option holder the opportunity to exercise their SPP Options prior to the date for determining entitlements to participate in any such issue.
- (n) Subject to clause (k) above, an Option does not confer the right to a change in Exercise Price or a change in the number of underlying securities over which the Option can be exercised.
