## Management Comment

New World Managing Director, Nick Woolrych, said: *“We are pleased to welcome a number of prominent North American institutional investors as cornerstone investors in this pivotal capital raising. The strong response to this equity raising reflects the growing recognition that New World now has a clear development pathway ahead of it to advance one of the highest-grade copper assets in the USA into production.*

*“Our development strategy is unfolding against the backdrop of a strengthening copper market, a robust outlook for copper and critical minerals generally, and a growing recognition of the vital importance of developing new sources of domestic critical mineral supply in the USA. The planets are aligning for New World and we are looking forward to completing our permitting, delivering a DFS and commencing development of one of the most exciting new copper assets.”*

## Placement Details

In addition to the Institutional Placement, members of the Company’s Board of Directors and Senior Management have committed to subscribe for approximately \$640,000 as part of a conditional second tranche placement, which is subject to shareholder approval to be sought at an upcoming Extraordinary General Meeting (“**EGM**”) expected to be held in April 2025 (“**Director Participation**”).

The New Shares issued under the Placement will be issued in two tranches:

- **Tranche One:** 700 million New Shares will be issued at the Offer Price to raise approximately \$14.0 million, utilising the Company’s placement capacity, pursuant to ASX Listing Rules 7.1 & 7.1A; and
- **Tranche Two:** Approximately 32 million New Shares will be issued at the Offer Price to raise \$640,000 under the Director Participation, which is subject to shareholder approval at the upcoming EGM.

Settlement of Tranche One of the Placement is expected to occur on Wednesday 12 March 2025 with allotment on Thursday 13 March 2025. The settlement of the Director Participation under Tranche Two of the Placement will be contingent on receiving shareholder approval at the EGM expected in April 2025. The Offer Price represents a discount of:

- 8.7% to the 15-day VWAP as of 4 March 2025 of \$0.0219.

Canaccord Genuity (Australia) Limited acted as Sole Lead Manager and Bookrunner to the Placement. Taylor Collison Limited acted as Co-Manager to the Placement. Agentis Capital Mining Partners acted as North American Capital Markets Advisor to the Company.
