Review of Operations

Operating Result

The loss from continuing operations for the half year ended 31 December 2024 after providing for income tax amounted to \$3,850,093 (2023: Loss of \$3,768,863), with a gain on the sale of discontinued operations of \$6,189,406.

The loss on continuing operations results from \$2,166,837 of exploration expenditure incurred and expensed, \$553,552 of administration including business development costs, \$778,336 of share-based payments expenses, \$53,015 depreciation costs, \$158,533 of other income and net gains/(losses) including finance costs and share of our consolidated statement of loss \$456,886. The exploration expenditure incurred and expensed mainly relates to the Company's Australian projects.

Dividends

No dividends were paid or proposed to be paid to members during the half year ended 31 December 2024.

Significant Changes in the State of Affairs

On 4 March 2024, the Company signed a Letter of Intent (LOI) with Outback Goldfields Corp (subsequently renamed to Valkea Resources Corp) (Outback, Valkea), a TSX-V listed entity based in Vancouver, Canada. As part of this LOI, Outback were to purchase Sakumpu Exploration Oy, a wholly owned subsidiary of the Company, which is the holder of the Company's Finnish exploration assets. The LOI also included an option for the Company to earn majority interests in Outback's Victorian exploration projects.

On 10 May 2024, pursuant to the LOI, S2 Resources Ltd entered into a Share Purchase Agreement (SPA) with Outback to sell its wholly owned Finnish subsidiary, Sakumpu Exploration Oy, for a total consideration of C\$7 million comprising C\$1.5million in cash and C\$5.5 million in shares in Outback.

Sakumpu Exploration Oy is the holder of the Group Finnish exploration assets, which includes the Aarnivalkea gold prospect, and interests in two current exploration earn in deals with Kinross Gold Corporation and Rupert Resources

The transaction was completed on 18 September 2024 and resulted in the Group acquiring 13,750,000 shares in the renamed Valkea Resources Corp (Valkea). In addition, the Group also participated in the placement associated with the transaction, and purchasing 6,250,000 ordinary shares in Valkea for C\$250,000. As part of this transaction, Valkea also undertook a share consolidation on a 1 for 10 basis.

Directors' Report (continued)

bringing the Group's total shareholding in Valkea to 14,375,000 shares. The Group now holds a 44.58% interest in Valkea.

Mark Bennett was appointed as a director on the Board of Valkea Resources on 18 September 2024.

On 4 December 2024 S2 Resources Ltd entered into an earn-in agreement with Valkea based on the terms outlined in the LOI, as executed on 4 March 2024.

Under the terms of the earn-in agreement, S2 has the right to earn an 80% interest in Ballarat West, Silver Spoon and Yeungroon projects by spending a total of \$1.2 million across these three projects, within 4 years. The agreement is subject to Valkea obtaining the approval of the TSX Venture exchange and also receiving Ministerial approval and registration under section 71 of the Mineral Resources (Sustainable Development) Act 1990 in Victoria, Australia.

The four-year earnin period is deemed to start once the above conditions have been met. S2 can withdraw from any or all of the projects at any time providing the tenements are in good standing on a pro-rata expenditure commitment basis for a minimum of three months from the date of its withdrawal notice. In the event of S2 being unable to undertake exploration as a consequence of land access or permitting delays or restrictions outside of its reasonable control, then S2 will be entitled to a fair and reasonable extension to the earn-in term.

Should S2 complete its earnin, Valkea can elect to contribute its share of expenditure or dilute. In the latter circumstance, should Valkea's participating interest decrease to less than 10% it will revert to a 2% Net Smelter Return (NSR) royalty, which S2 can buy back for C\$1.5 million at any time.

The three projects comprise the Silverspoon, Yeungroon and Ballarat West exploration projects, which are all located in the central Victorian Goldfields, and which provide the Company with a variety of gold exploration options.

After Balance Date Events

Subsequent to the end of the period, on 24 February 2025, pursuant to the LOI executed 4 March 2024, the Company entered into a final agreement with Valkea, for the Glenfine Joint Venture. Under the terms of this agreement, the Company has the right to earn Valkea's 51% interest in the Glenfine Joint Venture by sole funding a total expenditure of \$200,000 within 4 years.

The Glenfine Joint Venture covers an area of 92 square kilometres, comprising two granted exploration licences (EL5344 and EL5434), and is located to the south of the Silverspoon, Yeungroon and Ballarat West exploration projects.

The four year earn-in period is deemed to start once TSX-V approval has been obtained and Ministerial approval is obtained and registered. S2 can withdraw at any time providing the tenements are in good standing on a pro-rata expenditure commitment basis for a minimum of three months from the date of its withdrawal notice. In the event of S2 being unable to undertake exploration as a consequence of land access or permitting delays or restrictions outside of its reasonable control, then S2 will be entitled to a fair and reasonable extension to the earn-in term.

This is the final component of the transactions considered within the LOI executed with Outback Goldfields Corp on 4 March 2024.

There has been no other matter or circumstance that has arisen since 31 December 2024 that has significantly affected, or may significantly affect:

- the Group's operations in future financial years;
- the result of those operations in future financial years; or
- the Group's state of affairs in future financial years.

Directors' Report (continued)

A copy of the Auditor's Independence Declaration as required under Section 307C of *the Corporations Act 2001* is set out on page 23 of the interim financial report.

Signed in accordance with a resolution of the Board of Directors.

A handwritten signature in dark ink, appearing to read 'Mark Bennett', with a stylized flourish at the end.

Notes to the Consolidated Financial Statements

for the half year ended 31 December 2024

NOTE 1. STATEMENT OF MATERIAL ACCOUNTING POLICIES

Statement of Compliance

The half-year financial report is a general purpose financial report prepared in accordance with the *Corporations Act 2001* and AASB 134 *Interim Financial Reporting*. Compliance with Australia Accounting Standards ensures compliance with International Financial Reporting Standard IAS 34 *Interim Financial Reporting*. The half-year financial report does not include notes of the type normally included in an annual financial report and should be read in conjunction with the most recent annual financial report and any public announcements made during the half year.

Basis of preparation

The consolidated financial statements have been prepared on the basis of historical costs, except for financial assets held at fair value. All amounts are presented in Australian dollars, unless otherwise noted. The accounting policies and methods of computation adopted in the preparation of the half-year financial report are consistent with those adopted and disclosed in the Group's annual financial report for the financial year ended 30 June 2024. These accounting policies are consistent with Australian Accounting Standards and with International Financial Reporting Standards.

The only additional accounting policy required is:

Principles of consolidation and equity accounting

Associates

Associates are all entities over which the Group has significant influence but not control or joint control. This is generally the case where the Group holds between 20% and 50% of the voting rights. Investments in associates are accounted for by using the equity method of accounting after being initially recognised at cost.

Equity method

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the Group's share of the post-acquisition profits or losses of the investee in profit or loss, and the Group's share of movements in other comprehensive income of the investee in other comprehensive income.

Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the Group.

The carrying amount of equity-accounted investments is tested for impairment each reporting period.

Significant influence – Interest in Associates

As per the Shareholder Rights Agreement between the Company and its associate, Valkea Resources Corp, the Group retains a board member on Valkea's board of directors if the shareholding is above 10% with the right to designate a second nominee if their shareholding is above 20% subject to meeting the following conditions:

- at least one of the two nominees must be independent;
- S2R to give 30 days notice in writing; and
- the Board to remain at a maximum of 5 directors until a Board Increase Event.

If Valkea Resources undertakes a share issue / placement and the Groups shareholding is above 10% at the time, then the Group has the right but not the obligation to participate in the new issue on the same terms as the other participants up to such additional number of shares in order to maintain its ownership percentage.

Notes to the Consolidated Financial Statements

for the half year ended 31 December 2024

Therefore, the Company in accordance with AASB 128, determined it has significant influence over Valkea Resources due to its 44.58% holding and retention of a Board member in Valkea Resources for the half year ended 31 December 2024.

Standards and Interpretations applicable to 31 December 2024

In the period ended 31 December 2024, the Directors have reviewed all of the new and revised Standards and Interpretations issued by the AASB that are relevant to the Group and effective for the current reporting period. None of which have a material impact on the Group.

Standards and Interpretations in issue not yet adopted

The Directors have also reviewed all of the new and revised Standards and Interpretations in issue not yet adopted for the period ended 31 December 2024. As a result of this review the Directors have determined that there is no material impact of the Standards and Interpretations in issue not yet adopted on the Group and, therefore, no change is necessary to Group accounting policies.

Use of estimates and judgements

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, that it believes to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. The judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities (refer to the respective notes) within the next financial year are discussed below:

Share-based payment transactions

The Group measures the cost of equity-settled transactions by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by using the Black-Scholes model taking into account the terms and conditions upon which the instruments were granted. The accounting estimates and assumptions relating to equity-settled share-based payments would have no impact on the carrying amounts of assets and liabilities within the next annual reporting period but may impact profit or loss and equity. Refer to Note 7.

Exploration and evaluation costs

Exploration and evaluation costs for each area of interest in the early stages of the project life are expensed as they are incurred except for acquisition costs, until they satisfy the requirements that are stated below.

Exploration and evaluation costs are capitalised in an identifiable area of interest upon announcement of a JORC 2012 compliant resource and costs will be amortised in proportion to the depletion of the mineral resources at the commencement of production. Key judgements are applied in considering costs to be capitalised which includes determining expenditures directly related to these activities and allocating overheads between those that are expensed and capitalised. In addition, costs are only capitalised that are expected to be recovered either through successful development or sale of the relevant mining interest. Factors that could impact the future commercial production at the mine include the level of reserves and resources, future technology changes, which could impact the cost of mining, future legal changes and changes in commodity prices. To the extent that capitalised costs are determined not to be recoverable in the future, they will be written off in the period in which this determination is made.

Significant influence

The Group has considered its investment in Valkea and the rights and obligations contained within the Shareholder Rights Agreement (dated 18 September 2024) concluding the Group has significant influence but not control or joint control.

Impairment

The Group assesses at each reporting period whether there are any indicators of impairment for the

Notes to the Consolidated Financial Statements

for the half year ended 31 December 2024

investment in associate. None were noted for the period from acquisition to 31 December 2024.

NOTE 2: SEGMENT INFORMATION

For management purposes, the Group has one reportable segment as follows:

- Australia exploration activities, which includes exploration and evaluation of mineral tenements in Western Australia, New South Wales and Victoria.
- Corporate costs and all other expenses that cannot be directly attributed to Australian exploration are presented as unallocated costs when segment information is provided to Chief Operating Decision Maker (CODM)

Segment information that is evaluated by the CODM (as defined by AASB 8 Operating Segments) is prepared in conformity with the accounting policies adopted for preparing the financial statements of the Group.

Revaluation Reserve (iv)	(2,652,077)	(2,633,056)
	1,668,136	2,382,563

- (i) The share-based payments reserve recognises the fair value of the options issued to Directors, employees and service providers.

Each share option converts into one ordinary share of the Company on exercise. No amounts are paid or payable by the recipient on receipt of the option. The options carry neither rights to dividends nor voting rights. Options may be exercised at any time from the date of vesting to the date of their expiry.

In the period ended 31 December 2024, \$1,359,546 in relation to the fair value of options which has lapsed or expired was transferred to accumulated losses.

- (ii) The other reserve recognised the remaining non-controlling interest (33%) that was purchased from the Sakumpu vendors on 30 November 2015. Due to the sale of Sakumpu Exploration Oy this reserve has been reduced to nil.
- (iii) Exchange differences arising on translation of the foreign controlled entity are recognised in other comprehensive income and accumulated in a separate reserve within equity. The cumulative amount is reclassified to profit or loss when the net investment is disposed of.
- (iv) The revaluation reserve recognises the change in fair value of investments.

DECLARATION OF INDEPENDENCE BY ASHLEIGH WOODLEY TO THE DIRECTORS OF S2 RESOURCES LIMITED

As lead auditor for the review of S2 Resources Limited for the half-year ended 31 December 2024, I declare that, to the best of my knowledge and belief, there have been:

1. No contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the review; and
2. No contraventions of any applicable code of professional conduct in relation to the review.

This declaration is in respect of S2 Resources Limited and the entities it controlled during the period.

INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of S2 Resources Limited

Report on the Half-Year Financial Report

Conclusion

We have reviewed the half-year financial report of S2 Resources Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 31 December 2024, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, material accounting policy information and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of the Group does not comply with the *Corporations Act 2001* including:

- i. Giving a true and fair view of the Group's financial position as at 31 December 2024 and of its financial performance for the half-year ended on that date; and
- ii. Complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to the audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be the same terms if given to the directors as at the time of this auditor's review report.

Responsibility of the directors for the financial report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibility for the review of the financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2024 and its financial performance for the half-year ended on that date and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
