The Company is an Australian public company incorporated on 2 March 2021 for the purpose of identifying, acquiring and exploring for critical metals related to the decarbonisation & electrification thematic.

EXPLORATION ACTIVITIES DURING THE PERIOD

RAVENSTHORPE NICKEL PROJECT

The Ravensthorpe Nickel Project (DMC 100%, EL 74/669) is located in a highly prospective geological setting for nickel sulphide deposits. The Project has approximately 15km strike length of the Bandalup ultramafics, the target host rocks that are prospective for Kambalda-style komatiitic nickel sulphide deposits.

The project is very well serviced by roads, power, and other necessary mining infrastructure.

Over past periods, the Company has undertaken systematic and methodical exploration efforts, including geochemistry, EM surveys, and ground geophysics, to assess the potential of the RAV 9 & RAV 11 targets. Both targets are now drill ready, representing a significant milestone in our exploration journey.

Following submission of our Programme of works (POW), DMIRS has requested a flora and fauna assessment over the RAV 11 area. To ensure the highest standards of environmental stewardship, the Company has engaged Rescology Environmental Consultants, who will be advising and conducting necessary assessments for our operations at Ravensthorpe. Their expertise will play a crucial role in ensuring our activities are conducted responsibly and sustainably.

The RAV 9 & RAV 11 targets are located on freehold farming ground (RAV 9) and Crown Land (RAV 11). DMC has an owner/operator access agreement and Heritage Agreement in place to facilitate completion of the planned drilling at RAV 9 & RAV 11 subject to final approvals. See Figure 1, Priority-1 Targets.

We will continue to manage the progress of this project and will keep shareholders informed of any further developments.

INDEPENDENT AUDITOR'S REVIEW REPORT

TO THE MEMBERS OF DMC MINING LIMITED

Report on the Half-Year Financial Report

Conclusion

We have reviewed the half-year financial report of DMC Mining Limited (the company) and controlled entities (consolidated entity) which comprises the consolidated statement of financial position as at 31 December 2024, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, and notes to the financial statements, including material policy information and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at 31 December 2020, or during the half year.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of DMC Mining Limited is not in accordance with the Corporations Act 2001 including:

- (a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2024 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity. Our responsibilities are further described in the Auditor's Responsibilities for the Review of the Financial Report section of our report.

Material Uncertainty Related to Going Concern

Without qualifying our conclusion, we draw attention to Note 1 in the financial report which indicates that the consolidated entity incurred a net loss during the half year ended 31 December 2024 of \$(756,381) (2023: \$(459,462)) and had negative operating cashflow of \$(431,614) (2023: \$(560,275)). In addition at 31 December 2024 the consolidated entity had negative net assets of \$(1,458,195). These conditions, along with other matters as set forth in Note 1, indicate the existence of a material uncertainty which casts significant doubt about the consolidated entity's ability to continue as a going concern and therefore, the consolidated entity may be unable to realise its assets and discharge its liabilities in the normal course of business, and at the amounts stated in the financial report.

Independence

We are independent of the company in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

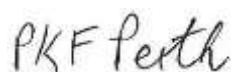

Directors' Responsibility for the Interim Financial Report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with the Australian Accounting Standards and the Corporations Act 2001 and for such internal controls as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the Corporations Act 2001 including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2024 and its performance for the half year ended on that date; and complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporation Regulations 2001.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

CONDENSED NOTES TO THE FINANCIAL STATEMENTS

for the half year ended 31 December 2024

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

STATEMENT OF COMPLIANCE

DMC Mining Limited (the Company) is a public company, limited by shares, domiciled and incorporated in Australia and listed on the Australian Securities Exchange. The consolidated half-year financial report of the Company for the six months ended 31 December 2024, comprise the Company and its subsidiaries (the “Consolidated Entity” or “Group”).

The half-year consolidated financial report is a general-purpose financial report prepared in accordance with the requirements of the *Corporations Act 2001* and AASB 134 *Interim Financial Reporting* as appropriate for for-profit orientated entities. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 *Interim Financial Reporting*.

The half-year consolidated financial report does not include full disclosures of the type normally included in an annual financial report. Accordingly, it is recommended that this half-year financial report be read in conjunction with the annual report for the year ended 30 June 2024 and any public announcements made by DMC Mining Limited and its controlled entities during the half-year reporting period in accordance with the continuous disclosure requirements arising under the *Corporations Act 2001*.

These consolidated half year financial statements were authorised for issue in accordance with a resolution of the Board of Directors on 10 March 2025.

BASIS OF PREPARATION

The half-year consolidated financial report has been prepared on an accruals basis and is based on historical costs modified by the revaluation of selected non-current assets, financial assets and financial liabilities for which the fair value basis of accounting has been applied. The presentation and functional currency is Australian Dollars.

The accounting policies and methods of computation adopted in the preparation of the half-year financial report are consistent with those adopted and disclosed in the Company’s annual financial report for the financial year ended 30 June 2024. Those accounting policies are consistent with Australian Accounting Standards and with International Financial Reporting Standards.

Going concern basis

The half-year consolidated financial report has been prepared on the going concern basis, which contemplates the continuity of normal business activities and the realisation of assets and the settlement of

liabilities in the normal course of business. Cash outflow from operating activities was \$428,724 for the half-year to 31 December 2024 (31 December 2023: outflow of \$560,275), Net liabilities of \$1,458,195 and \$32,611 Cash at 31 December 2024, and the loss for the half-year to 31 December 2024 was \$756,381 (31 December 2023: loss of \$459,462).

The Company's ability to continue as a going concern is dependent on the successful completion of its capital raise through the Public Offer. As of the date of this Second Supplementary Prospectus, the exploration permits over the Guinean Projects have not yet been granted, and several conditions precedent, including the grant of these permits and the raising of the Minimum Subscription, remain unsatisfied. The Company is reliant on securing the necessary funding from the Public Offer and meeting the outstanding conditions in order to continue its operations and meet its financial obligations. Failure to complete the capital raise and fulfill these conditions impacts on the company's ability to continue as a going concern. The Directors believe that the planned capital raising will be successful and the Company will continue to be able to pay its debts as and when they fall due and continue as a going concern.

However due to the net liability and cash position and the uncertainty of the success of the capital raise, there is the existence of a material uncertainty that casts significant doubt about the Company's ability to continue as a going concern and realise its assets and discharge its liabilities in the normal course of business.

New, revised or amending Accounting Standards and Interpretations adopted

The Consolidated Entity has adopted all of the new, revised or amending Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are relevant to their operations and mandatory for the current reporting period.

Any new, revised or amending Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

The adoption of these Accounting Standards and Interpretations did not have any significant impact on the financial performance or position of the Consolidated Entity and are consistent with those of the previous financial years and corresponding interim reporting period.

Impact of new standards and interpretations issued but not yet adopted

There are no new standards that have been issued since 30 June 2024 that have been applied by the Consolidated Entity. The 30 June 2024 annual report disclosed that the Consolidated Entity anticipated no new material impacts arising from initial application of those standards issued but not yet applied at that date, and this remains the assessment as at 31 December 2024.

SIGNIFICANT ACCOUNTING ESTIMATES, JUDGMENTS AND ASSUMPTIONS

The preparation of financial statements requires management to make judgments and estimates relating to the carrying amounts of certain assets and liabilities. Actual results may differ from the estimates made. Estimates and assumptions are reviewed on an ongoing basis.

The key estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of certain assets and liabilities within the next accounting period are:

(i) *Share based payment transactions*

The Consolidated Entity measures the cost of equity settled transactions by reference to the fair value of the equity instruments at the date at which they are granted. The fair value of share options is determined by an external valuer using an appropriate valuation model.

(ii) *Income tax expenses*

Judgement is required in assessing whether deferred tax assets and liabilities are recognised on the statement of financial position. Deferred tax assets, including those arising from temporary differences, are recognised only when it is considered more likely than not that they will be recovered, which is dependent on the generation of future assessable income of a nature and of an amount sufficient to enable the benefits to be utilised.

(iii) *Impairment of exploration and evaluation assets*

The ultimate recoupment of the value of exploration and evaluation assets is dependent on the successful development and commercial exploitation, or alternatively, sale, of the exploration and evaluation assets.

Exploration and evaluation assets are assessed for impairment when facts and circumstances suggest that the carrying amount of an exploration and evaluation asset may exceed its recoverable amount. There is significant estimation and judgement in determining the inputs and assumptions used in determining the recoverable amounts.

The key areas of judgement and estimation include:

- Recent exploration and evaluation results and resource estimates;
- Environmental issues that may impact on the underlying tenements;
- Fundamental economic factors that have an impact on the operations and carrying values of assets and liabilities.

2. SEGMENT INFORMATION

IDENTIFICATION OF REPORTABLE SEGMENTS

The consolidated entity is organised into one operating segment, being exploration operations. This operating segment is based on the internal reports that are reviewed and used by the Board of Directors (who are identified as the Chief Operating Decision Makers ('CODM')) in assessing performance and in determining the allocation of resources.

The accounting policies adopted for internal reporting to the CODM are consistent with those adopted in the financial statements.

The information reported to the CODM is on a monthly basis.

The reportable segment is represented by the primary statements forming these financial statements.
