About Helix Resources

Helix Resources is an ASX-listed resources company which is exploring in the prolific copper producing region of Cobar, NSW. The Company possesses a sizable ground position (~3,200km²) which is largely untested despite being located proximal to significant copper and gold producing operations. The strategy is to generate new copper and gold targets and test them through drilling to make new discoveries.

Helix is the operator of the **Helix-Legacy** earn-in which is located 10 km west of the Cobar township. The area, which hosts several operating gold, copper and base metal mines, is prospective for Cobar-style copper-gold base metal deposits.

The **Western Tenement** Group has 30km of prospective strike and a pipeline of wholly owned copper opportunities, including the Canbelego copper deposit.

On the **Muriel Tank** tenement, a 5 km by 1.5 km historical gold field is being evaluated.

The **Eastern Tenement** Group encompasses more than 100km of prospective strike. The company has defined an extensive zone of new anomalies considered prospective for Tritton-style copper-gold deposits.
