

ASX ANNOUNCEMENT

By e-lodgement

Notice Under Section 708A(5) of the Corporations Act 2001 (the Act)

This notice is given by Volt Resources Limited (ASX: VRC) ("**Volt**" or the "**Company**") in relation to the issue of 155,384,615 fully paid ordinary shares (Shares) as detailed in the Appendix 2A announced today.

The Corporations Act 2001 (Cth) (Act) restricts the on-sale of securities issued without disclosure unless the sale is exempt under section 708 or 708A of the Act. By giving this notice, the Shares detailed in the Appendix 2A announced on 25 March 2025 will fall within the exemption in section 708A(5) of the Act. Pursuant to section 708A(5)(e) of the Act, the Company gives notice that:

- a) the Company issued the Shares without disclosure to investors under Part 6D.2 of the Act;
- b) as at the date of this notice the Company has complied with the provisions of Chapter 2M of the Act as they apply to the Company, and sections 674 and 674A of the Act; and
- c) as at the date of this notice there is no information:
 - i) that has been excluded from a continuous disclosure notice in accordance with the Listing Rules; and
 - ii) that investors and their professional advisors would reasonably require for the purpose of making an informed assessment of:
 - 1) the assets and liabilities, financial position and performance, profits and losses and prospects of the Company; or
 - 2) the rights and liabilities attaching to the Shares.

-ENDS-

This announcement was authorised for release by the Board of Volt Resources Limited.

About Volt Resources Limited

Volt Resources Limited (“Volt”) is critical minerals and advanced materials company listed on the Australian Stock Exchange under the ASX code VRC. We are an established graphite producer and advanced materials developer.

In 2021, Volt acquired a 70% interest in each of the companies comprising the ZG Group, namely - Zavalievsky Graphite LLC (processing plant buildings, processing plant, mining equipment, power sub-station, and distribution), Stone Found LLC (crushed rock operations), and Graphite Invest LLC (holds a 79% interest in PJC Zavalievsky Graphite Kombinat – mine, land, main administration office building. It is this entity that holds the 636 hectares of freehold land on which the Zavalievsky mine, and other related buildings and facilities are located) [1].

Volt holds two licence applications that are prospective for lithium-borate mineralisation. The licence applications are located in Serbia and are west and south-west of the Serbian capital, Belgrade[2].

Volt is also progressing the development of its large wholly owned Bunyu Graphite Project in Tanzania. The Bunyu Graphite Project is ideally located near critical infrastructure with sealed roads running through the project area and ready access to the deep-water port of Mtwara. In August 2023, Volt reported the completion of the revised Feasibility Study (“FS”) for Stage 1 development of the Bunyu Graphite Project. The Stage 1 development is based on a mining and processing plant with annual throughput rate of 400,000 tonnes of ore to produce on average 24,780 tpa of graphite products [3]. Key objectives of Stage 1 development are to establish Bunyu Graphite Project as a world-class supplier of graphite products, grow Volt’s existing natural flake graphite business, provide cashflow, and establish infrastructure in support of the development of the significantly larger Stage 2 expansion project.

Volt’s wholly owned US subsidiary, Volt Energy Materials LLC, is headquartered in EcoComplex “Clean Energy Centre” in New Jersey, US. EcoComplex has laboratories which provide bench space for wet chemistry, chemical hoods, vented hood, a clean room, separate gas storage, and laboratory refrigeration. This facility also offers 1,200 square feet, two story scale-up space, specifically designed for pilot scale demonstration of new clean technologies.

Information in this report that relates to the production target of the Bunyu Graphite Project was first released to the ASX on 14 August 2023 and is available to view on www.asx.com.au. Volt Resources Limited confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement, and that all material assumptions underpinning the production target continue to apply and have not materially changed.
