Verity Resources Limited (**ASX: VRL, Verity or the Company**) is pleased to provide shareholders an update on its recent fundraising initiatives.

As announced to the market on 13 March 2025, the Company raised \$308k via a private placement to professional and sophisticated investors utilising its available placement capacity under ASX Listing Rules 7.1 and 7.1A (**Placement**). The Company also announced a proposed placement to raise an additional \$1.1M from professional and sophisticated investors, subject to approval of shareholders at a general meeting to be called (**Proposed Placement**). The Placement and Proposed Placement comprised an issue price of \$0.012 per share, with one (1) free attaching unlisted option for every one (1) share subscribed exercisable at \$0.022 per option expiring 19 March 2028 (**Option**).

Following strong support from current shareholders and in the interest of providing an opportunity for loyal shareholders to participate, the Company has decided to cancel the Proposed Placement and undertake a one

(1) for two (2) renounceable rights issue (**Rights Issue**) on the same terms as the Placement and Proposed Placement to raise approximately \$1.1 million (before costs).

The Rights Issue is partially underwritten by CAP Holdings Pty Ltd ATF CAP Trust (ACN 139 779 203) an entity associated with Director Patrick Volpe (whom is a director and shareholder of CAP Holdings Pty Ltd and beneficiary of CAP Trust) and substantial shareholder Patrick John Volpe for up to \$293,000 (**Underwriter**). The Underwriter will not receive a fee in connection with underwriting the Rights Issue. A summary of the key termination events included in the underwriting agreement are set out in Annexure 1 below.

Terms of Rights Issue

For every one (1) new share subscribed, eligible shareholders will receive one (1) free attaching new unlisted Option with an exercise price of \$0.022 and expiring on 19 March 2028.

The issue price under the Rights Issue represents a discount of:

- 33% to the Company's last closing price of \$0.018 per share on the ASX; and
- 23% to the Company's 15-day VWAP on ASX of \$0.016 per share.

Shareholders can apply for shortfall in excess of their entitlement.

The Rights Issue is open to all eligible shareholders who are registered shareholders with a registered address within Australia, New Zealand, Germany, Hong Kong, Qatar, Botswana, Singapore, Switzerland, Thailand or the United Kingdom as at 7.00pm (AEST) on Wednesday, 9 April 2025 (**Record Date**) (**Eligible Shareholders**). Ineligible shareholders are all those shareholders with a registered address as at the Record Date outside those jurisdictions (**Ineligible Shareholders**). The Rights Issue will open on Friday, 11 April 2025 and close at 5.00pm on Thursday, 1 May 2025 (unless extended), and Eligible Shareholders can apply for additional shares in the shortfall in excess of their entitlement.

All New Shares issued will rank equally with existing shares on issue and the Company will apply for quotation of the new shares.

Shortfall

To the extent there are any shortfall shares remaining the Board reserves the right to place those remaining shortfall shares, together with free attaching Options, within 3 months of the closing date of the Rights Issue (**Shortfall Offer**).

The Underwriter has committed to partially underwrite the available Rights Issue shortfall up to \$293,000 (**Underwritten Amount**).

The Company reserves the right to pay commissions of up to 6% plus GST on funds raised (excluding the Underwritten Amount subscribed for by the Underwriter) in respect of the Shortfall Offer placed through licensed securities dealers or Australian financial services licensees.

Renounceable Offer

Since the Rights Issue is renounceable, shareholders can also trade their rights on ASX from Tuesday, 8 April 2025 to Wednesday, 23 April 2025. There is no guarantee that there will be a market for the rights. It is the responsibility of purchasers of rights to inform themselves of the eligibility criteria for the exercise of the rights. If holders of rights after the end of the trading period do not meet the eligibility criteria, they will not be able to exercise the rights.

Use of Funds

Funds raised under the Rights Issue will be applied towards:

- exploration activities at the Monument Gold Project in the Laverton-Leonora Goldfields in Western Australia, including:

 - additional step out drilling at Korong-Waihi MRE;
 - testing additional targets across 20km of anomalous Au strike at Monument;
- costs of the Rights Issue and Shortfall Offer; and

About the Monument Gold Project

The Monument Gold Project is in WA's world-class Laverton Gold District and comprises ~232km² of tenure located approximately 40km west of Laverton, adjacent and along strike of Genesis Minerals' (ASX: GMD) **3.3Moz Au Mt Morgan Project**. A Mineral Resource Estimate of 154koz of gold (see ASX announcement on 2 August 2021) was undertaken on the Korong and Waihi deposits, which occur along ~20km of relatively untested banded iron formation, interpreted to be the same unit that hosts the 1.4Moz Westralia gold deposit, located immediately southeast of Monument.

To date, only ~10% of the potential 20km strike has been drilled with detailed air core and reverse circulation drilling. There is currently additional priority targets identified along the banded iron formations horizon, that forms part of a 20km potential structural strike length identified that could also potentially host multiple other syenite-intrusion style targets (in total approximately 60 targets remaining to be tested).
