About Bowen Coking Coal

Bowen Coking Coal has established a significant hard coking coal position in Queensland's world class Bowen Basin as the company serves the increasing demand for high-quality steelmaking coal around the world.

The Company's flagship Burton Mine Complex near Moranbah encompasses multiple operations with the Ellensfield South Mine and the Plumtree North development serving a centralised Coal Handling and Preparation Plant (CHPP) and train load out facility connected by a haul road. The co-located Lenton and Issac pits are undeveloped open-cut projects which will provide production continuity at Burton.

Bowen's other assets include the Broadmeadow East Mine near Moranbah and the Bluff Mine near Blackwater, which are both currently under care and maintenance. The company also holds the Isaac River (100%), Hillalong (85%) Cooroorah (100%), Carborough (100%) and Comet Ridge (100%) coking coal development projects and is a joint venture partner in Lilyvale (15% interest) and Mackenzie (5% interest) with Stanmore Resources Limited.
