These risk factors are set out in Section 5.</p>	
<p>Risk factors</p> <p>Potential investors should be aware that subscribing for Securities in the Company involves a number of risks. The key risk factors of which investors should be aware are set out in Section 5, including (but not limited to) risks in respect of:</p> <p>(a) Additional requirements for capital</p> <p>The Company's capital requirements depend on numerous factors. Depending on the Company's ability to generate income from its operations, the Company may require further financing in addition to amounts raised under the Offers to execute plans to scale up its operations. Any additional equity financing will dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations.</p> <p>(b) Going Concern risks</p> <p>The Company's Annual Financial Report for the year ending 30 June 2024 and the Company's interim financial report for the half year ended 31 December 2024 (together, Financial Report) include a note on the financial condition of the Company and the possible existence of a material uncertainty about the Company's ability to continue as a going concern.</p> <p>Notwithstanding the 'going concern' qualification included in the Financial Report, the Directors believe that upon the successful completion of the Offer, the Company will have sufficient funds to adequately meet the Company's current commitments and short-term working capital requirements. However, further funding may be required to meet the medium to long-term working capital costs of the Company should it elect to increase discretionary expenditure on the expansion programs identified in Section 4.1.</p> <p>(c) Potential for dilution</p> <p>In addition to potential control impacts set out in Section 4.5, Shareholders should note that if they do not participate in the Offer, their holdings are likely to be diluted by approximately 22% (as compared to their holdings and number of Shares on issue as at the date of this Prospectus).</p> <p>No immediate dilution will occur as a result of the issue of New Options under this Prospectus. However subsequent exercise of any or all of the New Options will result in dilution. Assuming all New Options offered pursuant to this Prospectus are issued and exercised into Shares, Shareholders who do not participate in the Offer, are likely to be diluted by an aggregate of approximately 33% (as compared to their holdings and number of Shares on</p>	Section 5

<p>issue as at the date of the Prospectus).</p> <p>(d) Product recall risk</p> <p>Product recalls as a result of any non-compliance with applicable standards or contamination are a risk and can be costly and may have a material adverse impact on the Company, its business and its industry.</p> <p>(e) Product Liability Risk</p> <p>The risk of injury from the Company's products exposes the Company to loss of product, damage to relationships with customers, liability (including monetary judgements, fines, injunctions, and criminal sanctions) and negative publicity.</p> <p>(f) Loss of key personnel</p> <p>Human resources are the Calmer Co International Limited Group's most important assets and losses of senior team members could have a significant impact on the Company's ability to negotiate contracts, manage costs, exploit opportunities and ultimately ensure business sustainability and profitability.</p> <p>To this end, the Company encourages and fosters team member retention by means of appropriate remuneration packages (salaries and performance-based incentives). The Company intends to implement succession plans and regularly review these.</p> <p>(g) Market access and product acceptance risk</p> <p>The Company intends to capture a significant share in new markets. As such the key to the Company's success will be its ability to access international markets and build product acceptance. On the latter, given that the Company's products are relatively new, while significant marketing efforts can be expended much will depend on acceptance by consumers of these products.</p> <p>(h) Sales and revenue risk</p> <p>The Company's revenue depends, in part, on its ability to respond to current market trends, which can be impacted by a variety of factors. Responding to new market trends can require significant investment. If the Company fails to anticipate, identify, or react to changes in market trends on a timely basis, it could experience reduced demand and/ or profit margins for its products, which could in turn adversely affect financial performance.</p> <p>(i) Major customer risk</p> <p>The Company sells its products to large supermarket chains and foodservice operators. Some of these large customers currently, or could in the future, wield significant market power due to their size, putting them in a strong negotiating position with the Company. There is a risk that if key customers terminate their contracts with the Company (or allow them to expire without renewing them), change the terms to be less favourable than those currently on foot, or promote the products of one or more of the Company's competitors, this may materially impact the financial position, performance and prospects of the Company.</p> <p>(j) Natural disasters</p> <p>Fiji is vulnerable to natural disasters, as underlined by Tropical Cyclone Winston in early 2016. Natural disasters are capable of causing severe</p>

<p>damage to SPE Fiji Farms and its third-party farmer operations. The Company plans to diversify part of its third-party farmer supply to a wider geographic area within Fiji and the Pacific.</p> <p>(k) Threat of substitutes</p> <p>Naturally, to the extent that other natural substitutes for kava are identified, the kava market potential may be compromised. While this is a global issue largely outside the Company's control, the Company monitors market developments and will evaluate and evolve its strategy in response to threats and opportunities.</p> <p>(l) Political risks</p> <p>Fiji has a history of political instability which has the potential to threaten the Company's local production. Although the Company's board and management assess the political risk for its operations throughout Fiji as low, the Company nevertheless implements strategies to mitigate this risk.</p> <p>(m) Other risks</p> <p>Other risks described in Section 5 include risks relating to market access and product acceptance, national regulatory approvals processes, competition risk, risks in research and development, global pandemic risk, related party risk,, regulatory compliance risk, economic risk, volatile market conditions, dividends risk, taxation risk, Ukraine conflict and other risks, legal, regulatory and litigation risks and issues concerning intellectual property.</p> <p>In addition, investment in New Shares and attaching New Options is also subject to general risks, including relating to the general economic climate, securities investments, government and legal risk, litigation, taxation risk and unforeseen risk.</p>	
<p>Transaction specific prospectus</p> <p>This Prospectus is a transaction specific prospectus for offers of continuously quoted securities (as defined in the Corporations Act) and has been prepared in accordance with section 713 of the Corporations Act. It does not contain the same level of disclosure as an initial public offering prospectus. In making representations in this Prospectus, regard has been had to the fact that the Company is a disclosing entity for the purposes of the Corporations Act and certain matters may reasonably be expected to be known to investors and professional advisers whom potential investors may consult.</p>	<p>Important Information Section</p>

The Company is making an offer to all Eligible Shareholders to participate in a renounceable entitlement offer to raise up to \$2,200,000 (before costs) by the issue of up to 729,677,511 New Shares. The Entitlement Offer will be determined on the basis of 2 New Shares for every 7 Shares held by Eligible Shareholders at the Record Date and New Shares will have an issue price of \$0.003 each. The Entitlement Offer is otherwise on the terms and conditions contained in this Prospectus.

As at the date of this Prospectus, the Company has 2,553,871,286 Shares on issue. Assuming no Existing Options are exercised prior to the Record Date (and subject to entitlement rounding up) the Entitlement Offer is for a maximum of 729,677,511 New Shares to raise up to \$2,200,000 (before costs), with 1 free attaching New Option (expiring on 30 June 2026 and exercisable at \$0.006) for every 2 New Shares issued.

The purpose of the Entitlement Offer is to provide the Company with additional funds to be utilised in accordance with the use of funds set out in Section 4.1.

Where the determination of the Entitlement of any Eligible Shareholder results in a fraction of a Share, such fraction will be rounded up to the nearest whole Share.

New Shares issued under the Entitlement Offer will be issued as fully paid ordinary shares and will rank equally in all respects with existing Shares on issue.

Summaries of the rights and liabilities attaching to New Shares and New Options are set out in Sections 6.1 and 6.2 respectively.

2.2 Top Up Offer

Terms

This Prospectus includes a separate offer to Eligible Shareholders who subscribe for their full Entitlement to apply for additional New Shares and attaching free New Option for every 2 New Shares subscribed for that are not subscribed for by other Shareholders pursuant to the Entitlement Offer at the same issue price as the Entitlement Offer (**Top Up Offer**).

New Shares issued under the Top Up Offer will be issued on the same basis as New Shares issued under the Entitlement Offer, as fully paid ordinary shares and will rank equally in all respects with existing Shares on issue. Summaries of the rights and liabilities attaching to New Shares and New Options are set out in Sections 6.1 and 6.2 respectively, being the same rights and liabilities that apply to New Shares and New Options under the Entitlement Offer.

New Shares will only be issued pursuant to the Top Up Offer if the Entitlement Offer is undersubscribed and will only be issued to the extent necessary to make up any shortfall in subscriptions under the Entitlement Offer.

Eligible Shareholders can subscribe for New Shares (and attaching New Options) pursuant to the Top Up Offer by following the instructions set out in Section 3.4.

Allocation policy

The Directors reserve the right to allocate Shares pursuant to the Top Up Offer in their absolute discretion in consultation with the Lead Manager. Accordingly, there is no guarantee that any applications under the Top Up Offer will be successful. In exercising this discretion, the Board will take into consideration a number of factors, including the Company's best interests, minimising any potential unacceptable control effect on the Company, maximising the total funds raised from the Offers, an Applicant's existing shareholdings, the extent to which an Applicant has sold or bought shares in the Company before and after both the announcement of the Entitlement Offer and the Record Date, the financial needs of the Company, and the optimal composition of the Company's register following the Offers.

It is a term of the Top Up Offer that should the Company scale back applications for New Shares thereunder, the Applicant will be bound to accept such lesser number allocated to it. There is no guarantee that Applicants will receive New Shares applied for under the Top Up Offer. The Directors reserve the right to issue to an Applicant a lesser number of New Shares pursuant to the Top Up Offer than the number for which the Applicant applies, or to reject an Application, or to not proceed with the Top Up Offer. In that event, Application Monies for New Shares pursuant to the Top Up Offer will be refunded by the Company (without interest) in accordance with the provisions of the Corporations Act.

The Company will not issue New Shares pursuant to the Top Up Offer where the Company is aware that to do so would result in a breach of the Corporations Act (including section 606 of the Corporations Act) or the Listing Rules. Eligible Shareholders wishing to apply for Shares pursuant to the Top Up Offer must consider whether the issue of Shares pursuant to the Top Up Offer applied for would breach the Corporations Act or the Listing Rules having regard to their own circumstances (including the existence of any Associates). The Company expressly disclaims any responsibility for monitoring such applications or ensuring that individual Shareholders do not breach the Corporations Act or the Listing Rules in connection with participation in the Top Up Offer. In this regard, refer to Section 4.4.

Directors and related parties of the Company will not be issued any New Shares pursuant to the Top Up Offer or the Shortfall without the prior approval of Shareholders.

2.3 Shortfall Placement

The Directors reserve the right to make offers of Shortfall Shares to new investors who are invited to apply for Shortfall Shares, being the balance of any New Shares which are not taken up pursuant to the Entitlement Offer and the Top Up Offer, as contemplated in ASX Listing Rule 7.2 Exception 3, applying the allocation policy described in Section 2.2.

Shortfall Shares (and attaching New Options) will be placed within three months of the Closing Date of the Entitlement Offer and the Top Up Offer.

2.4 Are the Offers underwritten?

The Entitlement Offer is lead managed and partially underwritten by Mahe Capital up to \$500,000, with \$20,000 sub-underwritten by Directors as set out in Section 4.4. The terms of the Underwriting Agreement and sub-underwriting agreements are set out in Section 7.

2.5 Rights trading

The Entitlements under the Entitlement Offer are renounceable. Accordingly, you may trade your Entitlements to subscribe for Shares on the ASX or otherwise. If you do not take up your Entitlement by the Closing Date, your Entitlement will lapse.

2.13 Eligibility of Shareholders

The Offers are made to Eligible Shareholders only. Eligible Shareholders are Shareholders on the Record Date who have a registered address in Australia, New Zealand or Fiji or who are Shareholders that the Company has otherwise determined are eligible to participate.

2.14 Residents outside Australia

(a) General

This Prospectus, and any accompanying Entitlement and Acceptance Form do not, and are not intended to, constitute an offer of Securities in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus or the Securities under the Offers.

The distribution of this Prospectus in jurisdictions outside Australia may be restricted by law and persons who come into possession of this Prospectus should seek advice on and observe any such restrictions. Any failure to comply with such restrictions may constitute a violation of applicable securities laws.

Shareholders (Ineligible Shareholders) and potential investors with a registered address outside Australia, New Zealand or Fiji should consult their professional advisers as to whether any governmental or other consents are required, or other formalities need to be observed to enable them to accept or deal with their Entitlement. The return of a completed Entitlement and Acceptance Form from a Shareholder or potential investor with a registered address outside Australia, New Zealand or Fiji will be taken by the Company to constitute a representation and warranty by that Shareholder or potential investor that all relevant approvals have been obtained and that the Company may legally issue the New Shares and attaching New Options to that Shareholder or potential investor.

(b) New Zealand offer restrictions

The New Shares and attaching New Options are not being offered or sold to the public within New Zealand other than to existing Shareholders of the Company with registered addresses in New Zealand at the Record Date to whom the offer of New Shares (and attaching New Options) is being made in reliance on the transitional provisions of the *Financial Markets Conduct Act 2013* (New Zealand) and the *Securities Act (Overseas Companies) Exemption Notice 2021* (New Zealand).

(c) Fiji restrictions

This document is not, and will not be, registered as a prospectus or offer document under the *Companies Act 2015* of Fiji. No action has been taken in Fiji to authorise or register this document or to permit the distribution of this document in Fiji. The Company believes that it is unreasonable to extend the Offers to Ineligible Shareholders. The Company has formed this view having considered:

- (a) the number and value of the Securities that would be offered to those Shareholders; and
- (b) the cost of complying with the legal requirements and the requirements of regulatory authorities in the overseas jurisdictions where the Ineligible Shareholders are situated.

2.16 **Appointment of Nominee under ASX Listing Rule 7.7**

Pursuant to ASX Listing Rule 7.7, the Company has appointed Mahe Capital as nominee to sell the Entitlements to which Ineligible Shareholders are entitled. Mahe Capital will have the absolute and sole discretion to determine the timing and price at which the Entitlements will be sold and the manner of any such sale.

Any interest earned on the proceeds of the sale of these Entitlements will, firstly, be applied against expenses of such sale, including brokerage and any balance will accrue to the relevant Ineligible Shareholders as described below.

The net proceeds of the sale of these Entitlements will then be forwarded by the Company as soon as practicable to the Ineligible Shareholders, in proportion to their share of such Entitlements (after deducting brokerage commission). If any such net proceeds of sale are less than the reasonable costs that would be incurred by the Company for distributing those proceeds, such proceeds may be retained by the Company.

Ineligible Shareholders may receive no net proceeds if the costs of the sale are greater than the sale proceeds. In this regard, Mahe Capital will not be required to sell Ineligible Shareholders' Entitlement at a particular price. Neither the Company nor Mahe Capital will be subject to any liability for failure to sell the Entitlements or to sell them at a particular price. If, in the reasonable opinion of Mahe Capital, there is no viable market for the Entitlements of the Ineligible Shareholders, or a surplus over the expenses of the sale cannot be obtained the Entitlements that would have been offered to the Ineligible Shareholders, then those Entitlements will be allowed to lapse.

2.17 **Notice to nominees and custodians**

If Eligible Shareholders pay by BPAY® and do not pay for their full Entitlement, their remaining Entitlements will lapse.

If Eligible Shareholders have more than one holding, they will receive separate forms for each holding. If Eligible Shareholders do not use the correct Reference Number specific to that holding, or inadvertently use the same Reference Number for more than one of their holdings, their application will be recorded against the holding associated with Reference Number they use.

Please note that when paying by BPAY® or EFT:

- (a) you do not need to submit the personalised Entitlement Form but are taken to have made the statements on that personalised Entitlement Form; and
- (b) if you do not pay for your full Entitlement, you are deemed to have taken up your Entitlement in respect of such whole number of New Shares which is covered in full by your Application Monies received.

You should be aware that your Australian financial institution branch may implement earlier cut-off times with regard to electronic payment and you should therefore take this into consideration when making payment. It is your responsibility to ensure that your BPAY® or EFT payment is received by the Share Registry by no later than the relevant date by which funds are required to have been received.

Your BPAY® or EFT acceptance cannot be withdrawn once received. No cooling off period applies.

3.9 Payments by cheque or bank draft

Payments by cheque or bank draft must accompany the relevant Entitlement and Acceptance Form. All cheques must be drawn on an Australian bank or bank draft made payable in Australian currency to "The Calmer Co International Limited" and crossed "Not Negotiable". Your completed Entitlement and Acceptance Form and cheque must reach the Company's Share Registry no later than 5:00 pm (AEST) on the Closing Date.

To the extent that the Company does not raise the maximum of \$2,200,000 (before costs) pursuant to the Offers, the Company will adjust the use of funds pro rata to reflect the amount actually raised.

The above is a statement of current intentions at the date of this Prospectus. Intervening events and new circumstances have the potential to affect the manner in which the funds are ultimately applied. The Board reserves the right to alter the way the funds are applied on this basis.

4.2 Effect of the Offers on the capital structure of the Company

4.3 Substantial Holders

The Company does not currently have any Substantial Holders, being Shareholders holding at least 5% of the Company's issued share capital.

4.4 Effect of the Offers on control of the Company

(a) The Rule in section 606(1)

Section 606(1) of the Corporations Act prohibits a person, unless an exception applies, from increasing their voting power in the Company:

- from 20% or below to above 20%; or
- from a starting point of above 20% and below 90%.

(b) Exceptions to the rule in section 606(1)

There are certain exceptions to the above prohibition in section 611 of the Corporations Act. Item 13 of section 611 of the Corporations Act (**Underwriting Exception**) provides an exception for an acquisition pursuant to a disclosure document where:

- the issue is to a person as an underwriter to the issue; and
- the disclosure document discloses the effect that the acquisition would have on the person's Voting Power in the company.

Item 10 of section 611 of the Corporations Act (**Rights Issue Exception**) provides an exception for an acquisition pursuant to a rights issue if the following conditions are satisfied:

- the Company offers to issue securities to every person who holds securities on a pro-rata basis;
- all of those persons have a reasonable opportunity to accept the offers made to them;
- agreements to issue are not entered into until the closing date of the offer; and
- the terms of the offer are all the same.

The Company has not appointed a nominee in respect of the Entitlements of Ineligible Shareholders pursuant to section 615 of the Corporations Act. Accordingly, the Rights Issue Exception under section 611 of the Corporations Act is not available to Shareholders taking up their Entitlement under the Offer.

However, the Underwriting Exception applies to the Underwriter.

Following the Offers, the Underwriter and sub-underwriters may increase their Voting Power in the Company in accordance with this Prospectus.

(c) **Section 606 cap on allocations under the Offers**

As a consequence of the non-application of the Underwriting Exception to Eligible Shareholders, the Company will not issue New Shares (or attaching New Options) to any Applicant or other person if the result of any such issue would result in any person (and that person's associates) acquiring a relevant interest contrary to section 606 of the Corporations Act. This may result in the Company scaling back applications from Eligible Shareholders to ensure that no breach of section 606 of the Corporations Act occurs.

Without limiting the above, it is the responsibility of Eligible Shareholders to ensure that their participation under the Offers does not result in them breaching section 606 of the Corporations Act. Eligible Shareholders, by lodging applications for New Shares, acknowledge and accept the right and obligation of the Company to not allot or issue New Shares to them which would result in any breach by them of section 606 of the Corporations Act and direct the Company to so act. Eligible Shareholders who may be at risk of exceeding the 20% voting power threshold in section 606 as a result of acceptance of their Entitlement should seek professional advice before completing and returning their Entitlement and Acceptance Form.

(d) **Underwriting and sub-underwriting**

Mahe Capital has agreed to underwrite the Entitlement Offer up to \$500,000, representing 166,666,667 Shares, being 6.53% of current Shares on issue as at the date of this Prospectus. However, that amount and resulting New Shares that may be taken up by Mahe is reduced by the dispersion to sub-underwriters described below.

Mahe Capital does not currently hold any securities in the Company.

The Underwriter's and sub-underwriter's maximum relevant interests in Shares and voting power in the Company under several scenarios are set out in the table below:

Shareholder acceptance scenario ¹	Maximum Underwriter Shares ²	Underwriter VotingPower
Fully subscribed	0	0%
75% subscribed by Shareholders other than Underwriter	118,333,333	3.60%
50% subscribed by Shareholders other than Underwriter	76,666,667	2.33%
25% subscribed by Shareholders other than Underwriter	35,000,000	1.06%
No subscriptions - underwritten Shares only	160,000,000	4.87%

Notes:

1. Assumes that the Directors take up their full entitlements, as set out in Section 4.5

2. Assumes that the Underwriter does not place New Shares forming part of the shortfall to third parties and allocates the first \$20,000 shortfall to the sub-underwriter.
3. Assumes that the sub-underwriter takes up its full entitlement under the Offer and the full \$20,000 to which it has committed as sub-underwriter.

The maximum voting power of Mr Yoshida as sub-underwriter, including their respective entitlements, are set out in the table below:

Current Shares	Current Voting Power	Entitlement	Amount Sub-Underwritten	Sub-Underwritten Shares	Max. Shares	Max. Voting Power ¹
58,014,045 ¹	2.27	16,575,441	\$20,000	6,666,667	81,256,153	2.47%

Notes:

1. Held directly or through controlled entities.

The table above illustrates that the maximum voting power that Mr Yoshida as sub-underwriter may acquire after taking up his full entitlement and assuming that he is also called upon to take up his sub-underwritten amount.

4.5 Effect of the Offers on Shareholder voting power

Shareholders should note that if they do not participate in the Offers, their holdings are likely to be diluted (as compared to their holdings and number of Shares on issue as at the date of the Prospectus). The maximum dilution that would occur if no Entitlements were taken up by existing Shareholders is approximately 22%.

Examples of how the dilution may impact Shareholders are set out in the table below:

Holder	Holding as at Record Date	% at Record Date	Entitlement	Holding if Entitlement Offer not taken up	% holding if Entitlement Offer not taken up
Shareholder 1	154,798,260	6.06%	44,288,075	154,798,260	4.71%
Shareholder 2	56,065,380	2.20%	16,018,680	56,065,380	1.71%
Shareholder 3	26,110,000	1.02%	7,460,000	26,110,000	0.80%
Shareholder 4	16,110,000	0.63%	4,602,858	16,110,000	0.49%
Shareholder 5	1,488,888	0.06%	425,397	1,488,888	0.05%

The dilution effect shown in the table above is the maximum percentage on the assumption that those Entitlements not accepted are subscribed for under the Top Up Offer. In the event all Entitlements are not accepted and some or all of the resulting shortfall is not subsequently taken up, the dilution effect for each Shareholder not accepting their Entitlement will be a lesser percentage.

Assuming all New Options offered pursuant to this Prospectus (including Lead Manager Options) are issued and exercised into Shares, Shareholders who do not participate in the Offers are likely to be diluted by an aggregate of approximately 31% (as compared to their holdings and number of Shares on issue as at the date of the Prospectus).

The above table also assumes that no other Shares are issued or equity securities converted into Shares prior to the Record Date.

4.6 Foreign Ineligible Shareholders

As the Entitlement Offer is renounceable, the Company will, in accordance with ASX Listing Rule 7.7, appoint Mahe Capital to arrange for the sale of Entitlements that would have been given to Ineligible Shareholders and to account to them for the net proceeds of the sale.

4.7 Effect of the Offers on the Company's financial position

To illustrate the effect of the Offers on the financial position of the Company, set out in Section 9 is the reviewed statement of financial position of the Company and the unaudited pro forma statement of financial position, both as at 30 December 2024 (**Balance Date**).

The unaudited pro forma statement of financial position has been prepared on a going concern basis, which contemplates the continuity of normal business activity and the realisation of assets and settlement of liabilities in the normal course of business.

The unaudited pro forma statement of financial position has been prepared on the basis that the assets and liabilities of the Company have not been subject to any material change between 31 December 2024 and the completion of the Offers except for movements in working capital resulting from transactions and expenditures incurred in the normal course of business.

5. Risk Factors

Activities in the Company and its controlled entities, as in any business, are subject to risks, which may impact on the Company's future performance. The Company and its controlled entity have implemented appropriate strategies, actions, systems and safeguards for known risks, however, some are outside its control.

The Directors consider that the following summary, which is not exhaustive, represents some of the major risk factors which Shareholders need to be aware of in evaluating the Company's business and risks of increasing investment in the Company. Shareholders should carefully consider the following factors in addition to the other information presented in this Prospectus.

The principal risks include, but are not limited to, the following:

5.1 Risks specific to the Company

(a) Additional requirements for capital

The Company's capital requirements depend on numerous factors. Depending on the Company's ability to generate income from its operations, the Company may require further financing in addition to amounts raised under the Offers. Any additional equity financing will dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations. There is no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company.

(b) Going concern

The Company's Annual Financial Report for the year ending 30 June 2024 included a note on the financial condition of the Company and the possible existence of a material uncertainty about the Company's ability to continue as a going concern.

Notwithstanding the 'going concern' qualification included in the Financial Report, the Directors believe that upon the successful completion of the Offer, the Company will have sufficient funds to adequately meet the Company's current exploration commitments and short-term working capital requirements. However, further funding may be required to meet the medium to long-term working capital costs of the Company.

(c) Liquidity risk

Managing the Company's liquidity to meet cashflow requirements, including purchasing inventory, payments to staff and suppliers and payment of debts as and when they fall due, are important for Company's business operations. Unexpected reductions in sales or increases to operating or other costs could result in the Company's cash requirements exceeding available liquidity. To the extent that the Company's operating cash flows, debt facilities and equity base are insufficient to meet its requirements for ongoing operations, for example, the Company may be materially adversely affected. However, investors are referred to Section (b) above.

(d) Potential for dilution

In addition to potential control impacts set out in Section 4.4 and 4.5, Shareholders should note that if they do not participate in the Offer, their holdings are likely to be

diluted by approximately 22% (as compared to their holdings and number of Shares on issue as at the date of this Prospectus).

No immediate dilution will occur as a result of the issue of New Options under this Prospectus. However subsequent exercise of any or all of the New Options will result in dilution. Assuming all New Options offered pursuant to this Prospectus (including Lead Manager Options) are issued and exercised into Shares, Shareholders who do not participate in the Offer, are likely to be diluted by an aggregate of approximately 31% (as compared to their holdings and number of Shares on issue as at the date of the Prospectus).

It is not possible to predict what the value of the Company, a Share or an Option will be following the completion of the Offer being implemented and the Directors do not make any representation as to such matters.

The last trading price of Shares on ASX prior to the Prospectus being lodged of \$0.006 is not a reliable indicator as to the potential trading price of Shares after implementation of the Offer.

(e) **Product recall risk**

Product recalls as a result of any non-compliance with applicable standards or contamination can be costly and may have a material adverse impact on the Company, its business and the industry. The Company has implemented quality assurance processes to mitigate this risk, but risk cannot be excluded altogether.

(f) **Product Liability Risk**

The risk of injury from the Company's products exposes the Company to loss of product, damage to relationships with customers, liability (including monetary judgements, fines, injunctions, and criminal sanctions) and negative publicity. Even if a product liability claim is unsuccessful or is not fully pursued, negative publicity surrounding any assertion that the Company's product has caused injury could adversely affect its reputation and brands. While the Company maintains insurance cover for some of these risks, it may not be able to recover fully under those policies in all circumstances, and any amounts that it does recover may not be sufficient to offset any damage to the financial performance, reputation or prospects of the Company caused by any produce contamination, recall or produce liability claim or the negative publicity surrounding such event or claim.

(g) **Loss of key personnel**

Human resources are the Calmer Co International Limited Group's most important assets and losses of senior team members could have a significant impact on the Company's ability to negotiate contracts, manage costs, exploit opportunities and ultimately ensure business sustainability and profitability.

(h) **Market access and product acceptance risk**

The Company intends to capture a significant share in new markets. As such the key to the Company's success will be its ability to access international markets and build product acceptance. On the latter, given that the Company's products are relatively new, while significant marketing efforts can be expended much will depend on acceptance by consumers of these products.

To this end, the Company has developed many distribution relationships. It will also continue to collaborate closely with the main agents/wholesalers/retailers in key markets (being Fiji, Australia, New Zealand, and the USA) and actively maintain and diversify its international customer base. The Company is also strongly moving into the private-label space as an additional means to access new markets and develop new products.

(i) Sales and revenue risk

The Company's revenue depends, in part, on its ability to respond to current market trends, which can be impacted by a variety of factors, including changing health and dietary habits of consumers, entry of new market participants and changes in the purchasing patterns of the Company's customers. Responding to new market trends can require significant investment. If the Company fails to anticipate, identify, or react to changes in market trends on a timely basis, it could experience reduced demand and/or profit margins for its products, which could in turn adversely affect financial performance.

(j) Major customer risk

The Company sells its products to large supermarket chains and foodservice operators. Some of these large customers currently, or could in the future, wield significant market power due to their size, putting them in a strong negotiating position with the Company. There is a risk that if key customers terminate their contracts with the Company (or allow them to expire without renewing them), change the terms to be less favourable than those currently on foot, or promote the products of one or more of the Company's competitors, this may materially impact the financial position, performance and prospects of the Company.

(k) Research and development risk

The Company can make no representation that any of its research into or development of additional kava products will be successful, that development milestones will be achieved, or that the research and development undertaken by the Company will lead to the development of products that are commercially exploitable.

There are many risks inherent in the development of kava products, particularly where the products are in the early stages of development. Projects can be delayed or fail to demonstrate any benefit, or research may cease to be viable for a range of scientific and commercial reasons.

(l) Competition

The Company faces competition from other producers in Fiji as well as in Vanuatu and other Pacific Islands. Although the Company currently enjoys several advantages over most, if not all, of its regional competitors, it must continue to develop and innovate to stay ahead. In this regard, the Company's strategies include:

- (i) Continuous investment in research and development concerning all aspects of the kava value chain including tissue culture, nursery, planting, extraction, manufacture, export, and marketing.
- (ii) Development of the Calmer Co International Limited Group's supply chain to unlock significant cost advantages in production.
- (iii) Active development of key business relationships, distribution channels and markets internationally to lock in key customers and market access.

- (iv) Implementation of its 'vertical integration' strategy to realise economies of scale and maintain an important point of difference vis-à-vis its competitors.

(m) **Regulatory compliance risk**

If the Company seeks to expand its wholesale and retail businesses to new jurisdictions, there may be restrictions on the manner in which the Company's product may be sold in these new jurisdictions. Until the Company applies for and/or receives the relevant regulatory certification, clearance or confirmations the Company will not be able to expand its operations into new jurisdictions.

(n) **Natural disasters**

Fiji is vulnerable to natural disasters, as underlined by Tropical Cyclone Winston in early 2016. Natural disasters are capable of causing severe damage to SPE Fiji Farms and its third-party farmer operations. The Company plans to diversify part of its third-party farmer supply to a wider geographic area within Fiji and the Pacific.

(o) **Global Pandemic risk**

The outbreak of a Global Pandemic may impact global economic markets. While COVID-19 or other pandemic pathogens is not currently materially affecting the Company's operations, with the potential for further outbreaks and new strains of the virus, the ongoing nature and extent of the effect of the outbreak on the performance of the Company remains unknown. The Company's Share price may be adversely affected in the short to medium term by the economic uncertainty caused by further pandemic outbreaks.

Further, any new governmental or industry measures taken in response to COVID-19 or other pandemic outbreaks may adversely impact the Company's operations and are likely to be beyond the control of the Company.

(p) **Climate Change**

Climate change could adversely affect the Company by increasing cyclone risk (described separately above), changing the ecosystem (likely making it wetter) in which the Company produces its products and potentially thereby increase disease risk (notably kava die-back and other fungal/bacterial diseases) and by creating economic and political instability in Fiji, which would adversely affect the Company and its performance.

Supply chain risks

Disruption to the Company's supply chain may have an adverse effect on the productivity and results of the Company's operations during the affected period. Any material damage or disruption to the Company's supply chain will impair the Company's ability to deliver its products and result in significant disruption to the business and the Company's customers.

Information Technology & Cyber Security

The Company relies heavily on its computer hardware, software and information technology systems to operate its business. There is a risk that the data migration via cloud-based platforms could cause unexpected system disruptions or loss of business information. Should this occur, or if the Company's information technology systems or disaster recovery processes are otherwise not adequate, there may be a negative impact

on the Company's performance. Any data or information security breach has the potential to result in unauthorised access, disclosure, loss and/or misuse of company information and funds which may cause significant business and reputational damage, adverse regulatory and financial impacts and legal proceedings. Additionally, business interruptions due to a failure of operating systems could impact the operations of the Company and lead to financial loss.

5.2 Industry-specific risks

(a) Threat of kava substitutes

Naturally, to the extent that other natural substitutes for kava are identified, the kava market potential could be compromised. While this is a global issue largely outside the Company's control, the Company still makes an effort to influence this process through:

- (i) actively promoting and educating the public on kava's benefits and efficacy, in each market the Company sells in;
- (ii) an emphasis on product innovation to continuously develop new and value-added products for introduction to the market; and
- (iii) the acquisition of Danodan Hempworks LLC (USA) and the associated patents for extraction of CBD rich liquid dispersible extracts from industrial hemp.

(b) Legal, regulatory and litigation risks

Like any other business, the Company is exposed to legal, regulatory and litigation risks that may hinder operations and/or damage its reputation. In particular, the Codex Alimentarius Commission, a body established by the Food and Agriculture Organisation of the United Nations and the World Health Organisation, is in the process of standardising operating procedures for the growth, harvesting and processing of kava which may have an impact on the Company's operations moving forward. In this regard, the Company:

- (i) regularly evaluates the legal and regulatory obligations in each country that it sells its products, in particular the requirements of the Therapeutic Goods Association in Australia and the Food and Drug Administration in the United States. In these markets the Company retains regulatory consultants to advise on labelling claims and wording requirements and when required to obtain the necessary permits required to market its products;
- (ii) when entering new geographic markets, will engage the appropriate regulatory consultants to guarantee we meet the local requirements and registrations;
- (iii) regularly reviews, monitors, implements, and enforces systems of risk management and internal control, codes of conduct, legal and regulatory compliance;
- (iv) actively participates in both local and international forums, committees and other bodies tasked with developing kava laws and regulations; and
- (v) will put in place and maintain the appropriate product liability, product recall and other relevant insurances for the markets that the product is and will be sold in.

(c) **Political risk**

Fiji has a history of political instability which has the potential to threaten the Company's local production. Although the Company's board and management assess the political risk for its operations throughout Fiji, as well as those of its partners, as low, the Company nevertheless has implemented or will implement several strategies to mitigate this, including:

- (i) Developing and maintaining a close working relationship with the relevant authorities whilst always maintaining a neutral stance politically; and
- (ii) maintenance of close ties and a mutually beneficial relationship with the wider community.

(d) **Intellectual property**

Securing rights to intellectual property, and in particular patents, is an integral part of securing potential product value from the outcomes of research and development. Competition in retaining and sustaining protection of intellectual property and the complex nature of intellectual property can lead to expensive and lengthy patents disputes for which there can be no guaranteed outcome.

The granting of a patent does not guarantee that the rights of others are not infringed nor that competitors will not develop competing intellectual property that circumvents such patents. The Company's success depends, in part, on its ability to obtain patents, maintain trade secret protection and operate without infringing the proprietary rights of third parties.

Although the Company are not aware of any third party interests in relation to the intellectual property rights of the Company or the Company, and has taken steps to protect and confirm its interest any such rights, there is always a risk of third parties claiming involvement in discoveries, and if any disputes arise, they could adversely affect the Company.

Although the Company will implement all reasonable endeavours to protect its intellectual property, there can be no assurance that these measures have been or will be sufficient.

5.3 **General risks**

(a) **Economic risk**

General economic conditions, movements in interest and inflation rates and currency exchange rates, introduction of tax reform and new legislation may have an adverse effect on the Company, as well as on its ability to fund its operations.

(b) **Market conditions**

Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:

- (i) general economic outlook;
- (ii) introduction of tax reform or other new legislation;

- (iii) interest rates and inflation rates;
- (iv) changes in investor sentiment toward particular market sectors;
- (v) the demand for, and supply of, capital; and
- (vi) terrorism or other hostilities.

The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

In addition, the extent of the effects of COVID-19 is at this stage uncertain and continuing to evolve. The COVID-19 pandemic is having, and is expected to continue to have, a significant influence on the volatility of equity markets generally and may continue to impact and influence the value of the Company's quoted securities..

(c) **Litigation risks**

The Company is exposed to possible litigation risks including intellectual property claims, contractual disputes, occupational health and safety claims and employee claims. Further, the Company may be involved in disputes with other parties in the future which may result in litigation. Any such claim or dispute if proven, may impact adversely on the Company's operations, financial performance and financial position. The Company is not currently engaged in any litigation.

(d) **Dividends**

Any future determination as to the payment of dividends by the Company will be at the discretion of the Directors and will depend on the financial condition of the Company, future capital requirements and general business and other factors considered relevant by the Directors. No assurance in relation to the payment of dividends or franking credits attaching to dividends can be given by the Company.

(e) **Force majeure**

Force majeure is a term used to refer to an event beyond the control of a party claiming that the event has occurred. Significant catastrophic events – such as war, acts of terrorism, pandemics, loss of power, cyber security breaches or global threats – or natural disasters - such as earthquakes, fire or floods or the outbreak of epidemic disease – could disrupt the Company's operations and interrupt critical functions, or otherwise harm the business. To the extent that such disruptions or uncertainties result in delays or cancellations of the deployment of the Company's products and solutions, its business, results of operations and financial condition could be harmed.

(f) **Taxation**

The acquisition and disposal of Shares will have tax consequences, which will differ depending on the individual financial affairs of each investor. All prospective investors in the Company are urged to obtain independent financial advice about the consequences of acquiring Shares from a taxation viewpoint and generally.

To the maximum extent permitted by law, the Company, its officers and each of their respective advisors accept no liability and responsibility with respect to the taxation consequences of subscribing for Shares under this Prospectus.

(g) Ukraine conflict and other risks

General economic conditions, laws relating to taxation, new legislation, trade barriers, movements in interest and inflation rates, currency exchange controls and rates, national and international political circumstances (including outbreaks in international hostilities, wars, terrorist acts, sabotage, subversive activities, security operations, labour unrest, civil disorder, and states of emergency), natural disasters (including fires, earthquakes and floods), and quarantine restrictions, epidemics and pandemics, may have an adverse effect on the Company's operations and financial performance, including the Company's exploration, development and production activities, as well as on its ability to fund those activities.

General economic conditions may also affect the value of the Company and its market valuation regardless of its actual performance.

Specifically, it should be noted that the current evolving conflict between Ukraine and Russia is impacting global macroeconomics and markets generally. The nature and extent of the effect of this conflict on the performance of the Company and the value of the Shares remains unknown. The Company's Share price may be adversely affected in the short to medium term by the economic uncertainty caused by the conflict between Ukraine and Russia and overall impacts on global macroeconomics. Given the situation is continually evolving, the outcomes and consequences are inevitably uncertain.

(h) Unforeseen risk

There may be other risks which the Directors are unaware of at the time of issuing this Prospectus which may impact on the Company, its operations and/or the valuation and performance of its Shares.

5.4 Investment speculative

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the Shares offered under this Prospectus.

Therefore, the Securities to be issued pursuant to this Prospectus carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those Securities.

Potential investors should consider that the investment in the Company is highly speculative and should consult their professional advisers before deciding whether to apply for Shares pursuant to this Prospectus.

6. Rights attaching to Securities

6.1 Rights and liabilities attaching to Shares

A summary of the rights attaching to Shares (with which New Shares rank equally) in the Company is below. This summary is qualified by the full terms of the Constitution (a full copy of the Constitution is available from the Company on request free of charge) and does not purport to be exhaustive or to constitute a definitive statement of the rights and liabilities of Shareholders. These rights and liabilities can involve complex questions of law arising from an interaction of the Constitution with statutory and common law requirements. For a Shareholder to obtain a definitive assessment of the rights and liabilities which attach to Shares in any specific circumstances, the Shareholder should seek legal advice.

(a) General meeting and notices

Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of the Company.

Shareholders may requisition meetings in accordance with section 249D of the Corporations Act and the Constitution of the Company.

(b) Ranking of Shares

At the date of this Prospectus, all Shares are of the same class and rank equally in all respects. Specifically, the New Shares issued pursuant to this Prospectus will rank equally with existing Shares.

(c) Voting rights

Subject to any rights or restrictions, at general meetings of Shareholders or classes of shareholders:

- (i) every Shareholder present and entitled to vote may vote in person or by attorney, proxy or representative;
- (ii) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (iii) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder, has one vote for every fully paid Share held and a fraction of one vote for each partly paid up Share held, equal to the proportion which the amount paid up on that Share (excluding amounts credited) is to the total amounts paid up and payable (excluding amounts credited) on that Share.

(d) Dividend rights

Subject to the rights of the holders of any shares with special rights to dividends, the Directors may determine or declare a dividend to be paid to the Shareholders entitled to the dividend which shall be payable on all Shares according to the proportion that the amount paid is of the total amounts paid and payable in respect of such Shares.

No dividend carries interest against the Company and the declaration of Directors as to the amount to be distributed is conclusive.

The Company must not pay a dividend unless the Company's assets exceed its liabilities immediately before the dividend is declared and the excess is sufficient for the payment of the dividend. The Directors may capitalise any profits of the Company and distribute that capital to the Shareholders, in the same proportions as the Shareholders are entitled to a distribution by dividend.

(e) **Variation of rights**

Under section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to Shares.

If at any time the share capital is divided into different classes of shares, the rights attaching to the Shares may only be varied by the consent in writing of the holders of three-quarters of the issued shares of that class, or with the sanction of a special resolution passed at a separate general meeting of the holders of the shares in that class.

(f) **Transfer of Shares**

Generally, shares in the Company are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act and the ASX Listing Rules.

(g) **Future increase in capital**

The issue of any Shares is under the control of the Board of the Company as appointed from time to time. Subject to restrictions on the issue or grant of Securities contained in the Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing Share or class of shares), the Directors may issue Shares and other Securities as they shall, in their absolute discretion, determine.

(h) **Rights on winding up**

If the Company is wound up, the liquidator may with the sanction of special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company and may for that purpose set such value as the liquidator considers fair on any property to be so divided and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

(i) **Alteration of constitution**

In accordance with the Corporations Act, the Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at the general meeting. In addition, at least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

6.2 **Rights and liabilities attaching to New Options**

(a) **Class**

The amount payable upon exercise of each New Option will be \$0.006 (**Exercise Price**)

(d) **Expiry Date**

Each New Option will expire at 5:00 pm (AEST) on 30 June 2026 (**Expiry Date**). A New Option not exercised before the Expiry Date will automatically lapse on the Expiry Date.

(e) **Exercise Period**

The New Options are exercisable at any time on or prior to the Expiry Date (Exercise Period).

(f) **Notice of Exercise**

The New Options may be exercised during the Exercise Period by notice in writing to the Company in the manner specified on the New Option certificate (Notice of Exercise) and payment of the Exercise Price for each New Option being exercised in Australian currency by electronic funds transfer or other means of payment acceptable to the Company.

(g) **Exercise Date**

A Notice of Exercise is only effective on and from the later of the date of receipt of the Notice of Exercise and the date of receipt of the payment of the Exercise Price for each New Option being exercised in cleared funds (Exercise Date).

(h) **Timing of issue of Shares on exercise**

Within 5 Business Days after the Exercise Date, the Company will:

- (i) issue the number of Shares required under these terms and conditions in respect of the number of New Options specified in the Notice of Exercise and for which cleared funds have been received by the Company;
- (ii) if required, give ASX a notice that complies with section 708A(5)(e) of the Corporations Act, or, if the Company is unable to issue such a notice, lodge with ASIC a prospectus prepared in accordance with the Corporations Act and do all such things necessary to satisfy section 708A(11) of the Corporations Act to ensure that an offer for sale of the Shares does not require disclosure to investors; and
- (iii) if admitted to the official list of ASX at the time, apply for official quotation on ASX of Shares issued pursuant to the exercise of the New Options. If a notice delivered under (h)(ii) for any reason is not effective to ensure that an offer for sale of the Shares does not require disclosure to investors, the Company must, no later than 20 Business Days after becoming aware of such notice being ineffective, lodge with ASIC a prospectus prepared in accordance with the Corporations Act and do all such things necessary to satisfy section 708A(11) of the Corporations Act to ensure that an offer for sale of the Shares does not require disclosure to investors.

(i) **Shares issued on exercise**

Shares issued on exercise of the New Options rank equally with the then issued shares of the Company.

(j) **Reconstruction of capital**

If at any time the issued capital of the Company is reconstructed, all rights of an Option holder are to be changed in a manner consistent with the Corporations Act and the ASX Listing Rules at the time of the reconstruction.

(k) **Participation in new issues**

There are no participation rights or entitlements inherent in the New Options and holders will not be entitled to participate in new issues of capital offered to Shareholders during the currency of the New Options without first exercising the New Options.

(l) **Change in exercise price**

A New Option does not confer the right to a change in Exercise Price or a change in the number of underlying securities over which the New Option can be exercised.

(m) **Transferability**

The New Options are proposed to be listed on the ASX (subject to exercise by ASX of its discretion whether or not to grant quotation) transferable subject to any restriction or escrow arrangements imposed by ASX or under applicable Australian securities laws.

(n) **Quotation**

The Company will seek quotation of the New Options, but ASX retains a discretion regarding whether or not to grant quotation. These terms of issue may be amended to the extent required to satisfy any requirement imposed by ASX.

6.3 **Rights and liabilities attaching to Lead Manager Options**

The Lead Manager Options fall into the same class and are issued on the same terms as the New Options. In this regard, refer to Section 6.2
