

Presentation – Investor Briefing Webinar

Melbourne, Australia – April 17th, 2025

Please find attached for release to market, Kincora Copper Limited's (ASX & TSXV: **KCC**, **Kincora** or the **Company**) presentation to be given today at an Investor Briefing Webinar.

For further details on the online event and its registration please refer to the Company's April 15 release "*Investor Briefing Webinar – Sixth Asset Level Agreement*".

A replay will be made available at: <https://kincoracopper.com/interviews/>

About Kincora Copper Limited

Kincora Copper is dual listed on the ASX and TSX-V (ticker "KCC") and is an active explorer and project generator focused on new globally significant copper-gold discovery opportunities.

The Company's portfolio includes district scale landholdings and scalable drill ready targets in both Australia and Mongolia's leading porphyry belts, the Macquarie Arc and Southern Gobi, respectively, and the historical Condobolin mining field in the southern section of the Cobar superbasin NSW.

Kincora has adopted an asset level partner model for its large-scale exploration stage porphyry projects and to date has unlocked over A\$110 million of potential partner funding for eight earlier stage and/or non-core projects.

Discussions are ongoing for further agreements for the Company's remaining four, and generally significantly more advanced and/or proximal to existing world-class mines, porphyry projects in NSW, including Fairholme, Jemalong, Trundle and Nyngan West.

Kincora's ambition is to be the operator for exploration budgets of over A\$10 million per annum for the porphyry portfolio providing sufficient project management fees for the Company to be self funding (covering G&A costs) and have partnerships with a diversified portfolio of industry leading producers/explorers.

For more information please visit Kincora's website at www.kincoracopper.com

Forward-Looking Statements

Certain information regarding Kincora contained herein may constitute forward-looking statements within the meaning of applicable securities laws. Forward-looking statements may include estimates, plans, expectations, opinions, forecasts, projections, guidance or other statements that are not statements of fact. Although Kincora believes that the expectations reflected in such forward-looking statements are reasonable, it can give no assurance that such expectations will prove to have been correct. Kincora cautions that actual performance will be affected by a number of factors, most of which are beyond its control, and that future events and results may vary substantially from what Kincora currently foresees. Factors that could cause actual results to differ materially from those in forward-looking statements include market prices, exploitation and exploration results, continued availability of capital and financing and general economic, market or business conditions. The forward-looking statements are expressly qualified in their entirety by this cautionary statement. The information contained herein is stated as of the current date and is subject to change after that date. Kincora does not assume the obligation to revise or update these forward-looking statements, except as may be required under applicable securities laws.

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) or the Australian Securities Exchange accepts responsibility for the adequacy or accuracy of this release.

ASX & TSXV ticker: **KCC**

Cautionary Statement

Kincora Copper Limited (ARBN 645 457 763)

Certain disclosure may constitute "forward-looking statements". In making the forward-looking statements, Kincora Copper Limited ("Kincora" or "the Company") has applied certain factors and assumptions that the Company believes are reasonable. However, the forward-looking statements are subject to numerous risks, uncertainties and other factors that may cause future results to differ materially from those expressed or implied in such forward-looking statements. Such uncertainties and risks are described from time to time in the Company's filings with the appropriate securities commissions, and may include, among others, market conditions, delays in obtaining or failure to obtain required regulatory approvals or financing, fluctuating metal prices, the possibility of project cost overruns, mechanical failure, unavailability of parts and supplies, labour disturbances, interruption in transportation or utilities, adverse weather conditions, and unanticipated costs and expenses, variations in the cost of energy or materials or supplies or environmental impacts on operations. There can be no assurance that such statements will prove to be accurate, and actual results and future events could differ materially from those anticipated in such statements. Readers are cautioned not to place undue reliance on forward-looking statements. The Company does not intend, and expressly disclaims any intention or obligation to, update or revise any forward-looking statements whether as a result of new information, future events or otherwise, except as required by law.

Qualified Person: The scientific and technical information in this presentation was prepared in accordance with the standards of the Canadian Institute of Mining, Metallurgy and Petroleum and National Instrument 43-101 – Standards of Disclosure for Mineral Projects ("NI 43-101") and was reviewed, verified and compiled by Kincora's staff under the supervision of Peter Leaman (M.Sc. Mineral Exploration, FAusIMM), Senior Vice-President of Exploration of Kincora, and John Holliday (BSc Hons, BEc, member of the Australian Institute of Geoscientists), Non-Executive Director and Chairman of Kincora's Technical Committee, who are Qualified Persons for the purpose of NI 43-101.

JORC Competent person statement: Information in this presentation that relates to Exploration Targets and/or Mineral Resources and Exploration Results are those that have been previously reported with the original releases referred to in the Appendix of this presentation. In the case of Exploration Targets and/or Mineral Resources the material assumptions and technical parameters underpinning the estimates have not materially changed. The Company is not aware of any new information or data that materially affects the information included in the relevant original market announcements. The Exploration Targets, Mineral Resources, Exploration Results and other technical information presented in this presentation has been reviewed and approved by John Holliday and Peter Leaman, who are Competent Person's under the definition established by JORC and has sufficient experience which is relevant to the style of mineralization and type of deposit under consideration and to the activity being undertaking to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. John Holliday and Peter Leaman consents to the inclusion in this report of the matters based on his information in the form and context in which it appears. \$ presented in AUD unless otherwise stated. Further details and references provided in the Appendix.

Capital Structure And Shareholder Register Summary

Tier-1 Scale Copper-Gold Potential

Kincora Major Project Groups		Partner/ Funding Source	
	Northern Junee-Narromine Belt		AngloGold Ashanti
	Northern Molong Belt - Wongarbron		Fleet Space
	Molong Belt - Cundumbul		Earth AI
	Northparkes Block - Trundle		Seeking Partner
	Cowal Block - Fairholme & Jemalong		Seeking Partner(s)
	Southern Cobar - Condobolin		Kincora
	Southern Gobi - Bronze Fox		Orbminco Limited

6 Deals, >\$110m Partner Funding ...

**Non-core jurisdiction
+ motivated AI partner**

Southern Gobi, Mongolia Bronze Fox Project

Earn-out/JV on emerging fourth intrusive complex (incl. mining license/JORC resource) in rapidly emerging South Gobi copper belt.

Carried interest or cash payment + NSR asset level upside.

Field work ongoing.

**Greenfield, new district scale
extensions of the Macquarie Arc**

Northern Junee- Narromine Belt Portfolio

2 Earn-out/JVs, up to \$100m of expenditure covering 5 contiguous projects & >100km strike ¹.

Drilling & management fees ramping up.

Prior R&D Agreement with Fleet Space.

... More Targeted

**Large mineralised systems
proximal to world-class mines**

Cowal Block Portfolio Fairholme & Jemalong Projects

1.6km gold & multiple porphyry copper systems (all open).

Adjacent to Cowal mine & Marsden deposit. Only ground at the Cowal Block not tied up by a major.

Newmont drilling & earning-in on adjacent license.

**Seeking asset
level partner(s)**

Molong Belt Cundumbul Project

Success based Exploration Alliance with private AI explorer who only upon funding a new discovery earns an NSR.

Kincora retains 100% ownership, drilling & geophysics ongoing.

Northern Molong Belt Wongarbon Project

Multiphysics and drilling Earn-out/JV covering a new district scale/intrusive complex target.

Potential extension of Boda/Kaiser system (15Moz AuEq).

Northparkes Block Trundle Project

Mineralised systems covering a >10km strike. Three new discoveries to date by Kincora.

Brownfield setting within part of the Northparkes Intrusive Complex (host to Australia's 2nd largest porphyry mine).

**Seeking asset
level partner**

¹ Includes the original May 2024 and expanded April 2025 agreements with AngloGold Ashanti including the Nyngan, Nyngan South, Nevertire, Nevertire South and Mulla projects: refer Apr 7, 2025 release "Second Major Earn-in Secured with AngloGold Ashanti". For further details on deals & projects, including any technical disclosures, please refer to Kincora's audited annual FS & MD&A for YE'2024 (Mar 31, 2025).

Why a Project Generator Model?

?

Why buy a junior explorer with an Earn-In/JV agreement with an industry partner

Commercial ¹

- **Cost of Capital/De-risked Funding Source**
- **Non-Dilutive Structure** (for listed equity investors)
- **Potential Management Fees**
- **Potential Exit Strategy**

Technical

- **Endorsement of Project/Concepts**
- **Scale of Upside** (Tier-1 scale)
- **Best in class Exploration / Tech**
- **Best in class ESG considerations**

Kincora Case Study: carried exposure to a new porphyry district ²

- Earn-in/JV's with AngloGold Ashanti in the Northern Junee-Narromine Belt, an undercover extension of the Macquarie Arc
- Strike is >2x than the Vicuña district, also an extension of a world-class porphyry belt
- 4 pre-development discoveries in the Vicuña district are currently valued at >\$10 billion
- Kincora's deal structure with AngloGold Ashanti supports shareholders being carried to the current equivalent stage of these 4 pre-development discoveries in the Vicuña
- Kincora currently receives a management fee being the operator of ongoing exploration

¹ A funding model more common outside of the ASX given the generally materially more favorable commercial terms to the junior and attractive relative cost of capital

² Reference provided in the Appendix

Project Generator Model: Leverage to Exploration Success

Case Study: Success stories

Greatland Gold

Earn-in/JV agreement with Newcrest for the Havieron copper-gold project in the Paterson WA

Mirasol Resources

Project generator model for various projects in the Southern Patagonia gold-silver district

Arequipa Resources

Project generator model which led to the Pierina gold discovery in Peru and Earn-in/JV deal then takeover from with Barrick

Inflection Resources

Earn-in/JV with AngloGold Ashanti for northern extension of June-June Narromine porphyry belt NSW (neighbors Kincora)

AMARC Resources

Project generator model (up to \$200m in earn-ins) for copper-gold porphyry projects in BC with recent AuRora discovery

Project generators & Earn-out/JVs involved in other major discoveries incl.: Cascabel (Cornerstone Capital); Timok (Reservoir Minerals); Treaty Creek (Teuton/American Creek); White Rivers (Mark Creasy); & Oyu Tolgoi (Ivanhoe Mines)

Kincora's Strategy: Value through Deals, Drilling & Discovery

Consolidate 100% Ownership
of all NSW Projects
December 2023

Opportunisticly Grow
**>33% increase in number of
NSW projects**
(In 2024)

Stage 1: Initial Deals
With Asset Level Partners
4 new deals + 1 extension in 2024
(Focused on earlier stage/non-core porphyry projects)

Recommence Drilling
4 rigs, 3 projects in 4Q'2024
(Focused on earlier stage/non-core porphyry projects)

Stage 2: Larger Deals with
Asset Level Partners
1H'2025
(Focused on advanced/proximal to mine projects)

Ramp Up Drilling
**From Initial Stage 1, Larger Stage 2
deals + Condobolin**

CURRENT STAGES

Deals + Drilling = Significant Catalysts

Catalysts

Drilling Ramping Up >7000m in 4Q'2024

- 1 Nyngan project, earn-out agreement with AngloGold Ashanti (Kincora receives a 10% management fee)
Initial 6-scout holes drilled in 2024 confirms new district scale potential, expands program:
 - Scout drilling ongoing (permits for a total of 20 holes)
 - Ground gravity survey interpretation ongoing, more targets expected ¹
- 2 Nevertire projects, earn-out agreement with AngloGold Ashanti (Kincora receives a 10% management fee)
April 2025 agreement consolidates the Nevertire Magmatic Complex
 - Most advanced and geologically prospective targets in the undercover extensions of the Macquarie Arc
 - Step-out and scout drilling proposed at the Nevertire and Nevertire South projects ²
- 3 Cundumbul project, success based exploration alliance with Earth AI
 - Fifth hole (Jan'2025), VTEM geophysical survey interpretation ongoing, plans for six (+) hole(s)
 - Results of drilling to date and further outline for 2025 field activities pending ¹
- 4 Bronze Fox project, earn-out agreement with Orbminco Limited (OB1.ASX)
 - Recent higher grade shallow drill and trench results. Mapping and sampling recommenced.
 - New discovery shallow drilling planned at two large intrusive complexes ¹
- 5 Wongarbon project: partnership and minority earn-out option with Fleet Space
 - Commencement of multiphysical surveys / maiden drilling program ¹

Partner Discussions Ongoing Further proposed deals to come

- Deals for 8 of 12 porphyry projects have to date unlocked >\$110m of potential partner funding
- Focused now on more advanced exploration & proximal to existing mine projects ¹

Nevertire Projects: Step out drilling to test Cadia-Ridgeway and Northparkes style targets

Kincora Copper
"KCC": ASX & TSXV

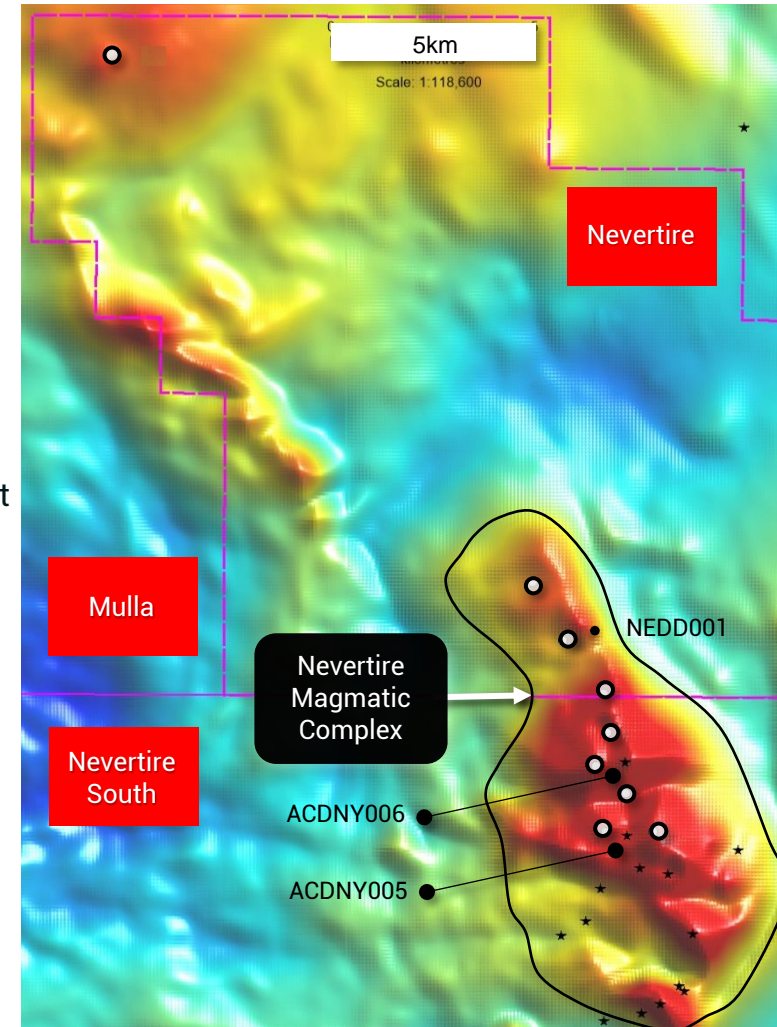

- April 2025 expanded agreement with AngloGold Ashanti consolidates the Nevertire Magmatic Complex (NMC), which Kincora believes hosts the most advanced and geologically prospective targets in the undercover extensions of the Macquarie Arc ¹
 - Prior Newcrest holes (ACDNY005/6) within the central section of the NMC have "identified lithologies, alteration and veining consistent with a setting similar to the Cadia-Ridgeway and Goonumbla (Northparkes) porphyry Cu-Au deposits" (Newcrest Annual Reports) ²
 - Kincora's review of these prior drill core confirms this interpretation, intervals of very encouraging anomalous copper mineralisation (from basement to EOH), veining and magnetite alteration situated in a high volcanic-hosted level and interpreted Macquarie Arc Phase 4 age
- Step-out drilling proposed to either potentially discover or create a vectoring pattern to a targeted porphyry system deposit

Apr 2025 AngloGold Ashanti agreement for Nyngan S, Nevertire S & Mulla ¹

- **Stage I:**
\$25m expenditure by AGA for 70% (minimum \$2m expenditure)
- **Stage II:**
PFS or further \$25m expenditure for 10% (total 80%)
- **Kincora**
the initial operator for 10% management fee

Intrusive complex
(black outline over magnetics)

KCC permitted holes

Prior drill holes

Kincora project name

>8km open strike

not effectively drill tested to the north

Newcrest followed up

23 diamond holes for 7,383.7 metres
drilled to the south

Wongarbone: New Ground + New Partnership

Innovative Partner Structure with Fleet Space

On strike from 14.7Moz AuEq Boda & Kaiser discoveries

- June 2024 Kincora secures the Wongarbone project (173km²) ¹
- ≤10-20km from Alkane, Magmatic & Talisman drilling & Fleet Space survey at Boda/Kaiser ²

- Within common transverse structure, interpreted to be a key control to the Boda & Kaiser deposits
- Never drilled

Previously identified by Newcrest as a new district scale/intrusive complex undercover target (not tested due to Cadia East + Ridgeway discoveries)

Kincora continues to secure the best ground, do deals and drill

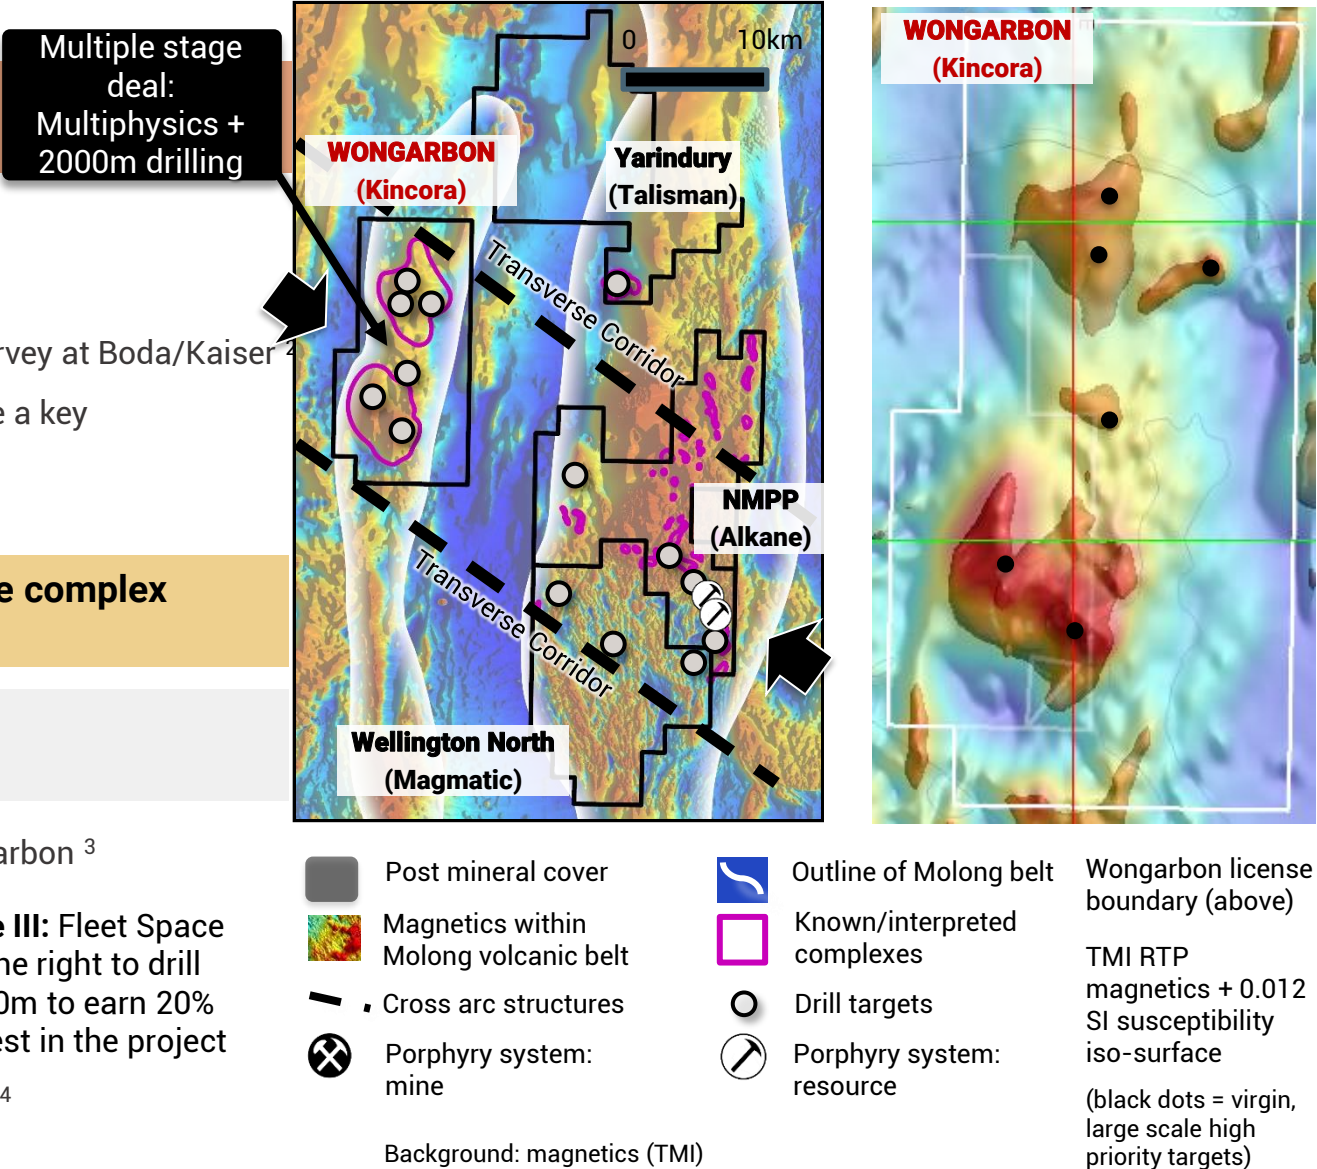

- October 2024 Fleet Space multiple phase agreement for Wongarbone ³

- **Stage I:** Strategic Kincora placement to Fleet Space
- **Stage II:** Fleet Space conducts multiphysic surveys: refines targets
- **Stage III:** Fleet Space has the right to drill >2000m to earn 20% interest in the project

- December 2024 Fleet Space raise \$150m in Series D financing ⁴

¹⁻⁴ References provided in the Appendix

Cundumbul: Drilling New Success Based AI Targets

New 2.2km x 800m copper target at Cundumbul ¹

- Ongoing maiden Earth AI drilling program tests new min zone ($\leq 5.2\%$ Cu) associated with a zoned hydrothermal quartz breccia system (a key geological marker at the Boda-Kaiser deposits to the north)
- 5 drill holes for over 2000m testing 3 targets, VTEM geophysical interpretation ongoing and further drilling planned

Targets have been identified, refined and drilling program funded by Exploration Alliance partner Earth AI (EAI) ²

- EAI is a private, Artificial Intelligence and Machine Learning group, supported by a boots on the ground field assessment approach, and an in-house drilling department and geological team

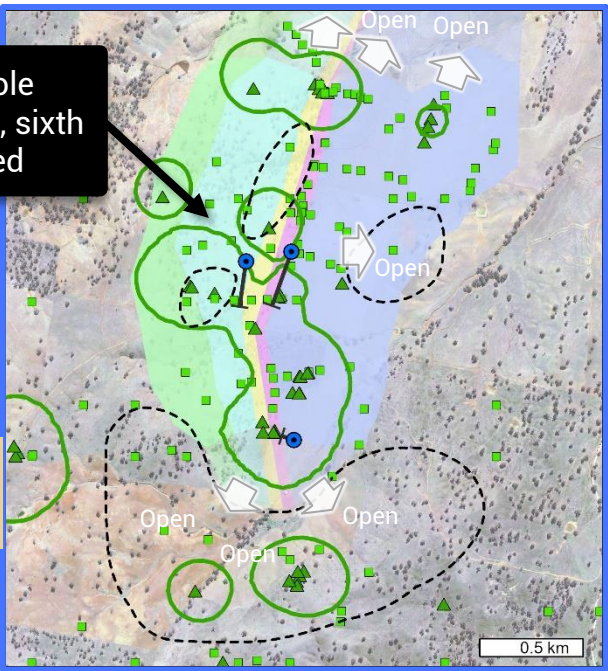

"Success based" deal unlike the "classic earn-in and JV model"

- Kincora retains 100% project ownership
- EAI gains a royalty only upon funding & making a new discovery
- EAI completes oversubscribed US\$20m Series B financing January 2025 ³

	Andesite		Propylitic alteration		2024/25 holes
	Sandstone/Siltstone		Hydrothermal Quartz Breccia		Cu anomaly (>300ppm)
	Volcaniclastics		Limestone		Current field work

Fifth hole completed, sixth planned

Summary of EAI's approach to refine targets:

- 1) Density of AI predictions (referred to as clusters)
- 2) Size of cluster (potential extent of surface anomaly)
- 3) Multiple single-element clusters proximal to, or overlapping

These clusters are then ground truthed & AI/geological target model refined

New drill targets associated with a zoned mineralised hydrothermal quartz breccia system have been defined in an untested section of the license (no prior drilling)

Assayed samples

Mongolia: Exposure to the Rapidly Emerging Southern Gobi

Kincora Copper
"KCC": ASX & TSXV

Attractive exposure to the fourth emerging porphyry district (Bronze Fox) in the Southern Gobi¹

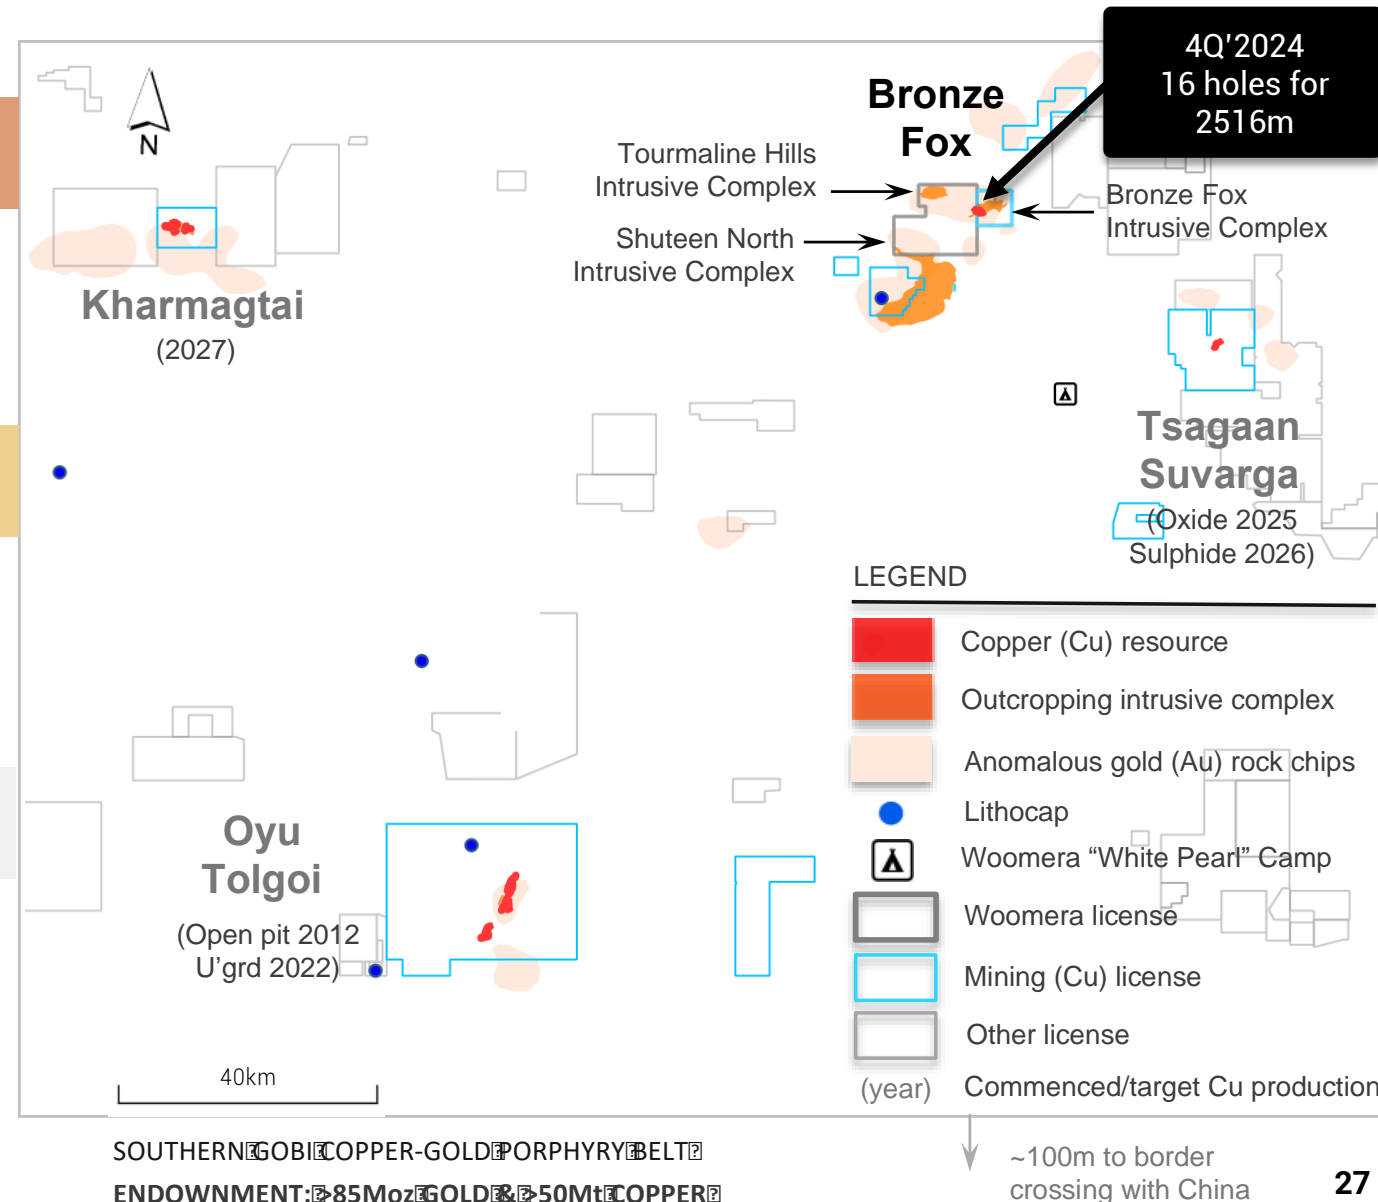

- Region is one of the fastest growing sources of global copper (& coal)
- Kincora is the largest shareholder in Orbminco Limited ("OB1":ASX, formerly Woomera Mining) having vended the Bronze Fox project, retaining carried interest or cash payment + NSR asset level upside

All but one of the 16 first phase holes by Orbminco have returned significant copper intervals²

- Maiden operated & funded program by Orbminco in 4Q'2024 sought to:
 1. Infill existing >400kt copper + >400koz gold JORC resource
(Total inferred mineral resource estimate of 194.1Mt at 0.26% CuEq, at a 0.2% CuEq cut-off to a depth of approximately 325m below surface²)
 2. Satisfy second mining license conversion

Initial mapping, trenching & drilling confirms expansion and higher grade potential of existing JORC resource (highlights):^{2,3}

- Hole F111: 26m @ 0.91% CuEq from 14m (with up to 8.29% Cu)
 - Hole F109: 486m @ 0.21% CuEq from 352m
 - Trench: 17m @ 0.5% Cu & 0.34g/t Au (incl. 6m @ 1% Cu & 0.6g/t Au)
- Field work and geophysics to refine higher grade & new targets
High impact shallow drilling to follow up at two underexplored & large porphyry complexes (western strike at Bronze Fox & Shuteen North)

¹⁻³ References provided in the Appendix

Potential Larger Partner Projects

Kincora Copper
"KCC": ASX & TSXV

Fairholme & Jemalong Projects

Kincora Copper
"KCC": ASX & TSXV

Advanced to earlier stage gold +/- copper targets with Cowal & Marsden equivalent grades

Standout large scale targets

Plans to follow up drilling at 8 target areas

- similar programs to current drilling activities at Magmatic Resources' Wellington North Project, Waratah Minerals' Spur Project and that led to the discovery of the Marsden porphyry deposit

Only ground at the Cowal Block not already tied up by a major

Recent comparable peer option/earn-in agreements between Gold Fields and privately held explorer Gold & Copper ¹

Target generation drilling ongoing by Newmont earning into Koonenberry Gold's adjacent "Fairholme" project ²

Northparkes Block: Clear Strategic Appeal

Kincora Copper
"KCC": ASX & TSXV

- Northparkes is Australia's second largest porphyry mine and was acquired by Evolution Mining in December 2023 ¹
 - Continuous production since 1994 with first quartile cash costs
 - 5.5Moz Au and 4.5Mt Cu endowment
 - Series of 22 porphyry discoveries, 9 with positive economics
- In March 2024, FMG earned into Magmatic's Myall exploration project ²
 - Targeting a Tier 1 copper-gold discovery
 - Regionally significant intrusive complex north of Northparkes
 - Flagship targets >2km mineralised strike, drilling ongoing
- Kincora's Trundle project hosts an extensive mineralised system covering a >10km strike
 - Brownfield setting within part of the Northparkes intrusive complex
 - Three new discoveries to date by Kincora
 - including the largest mineralised skarn in NSW (size of the skarn thought indicative of the size of the causative intrusive source(s))

Inserts on slide 32

¹⁻²⁻ References provided in the Appendix

Trundle Project

Multiple advanced gold-copper targets stepping out from existing large intrusive systems

Shallow drilling focus

Plans to follow up drilling at 6 target areas

- similar setting and targets to Magmatic Resource's Myall Project (subject to the recent Earn-In/JV agreement with FMG)

Recent comparable peer option/earn-in agreements between Gold Fields and privately held explorer Gold & Copper ¹

¹⁻³ References provided in the Appendix

Region 1: Northparkes Porphyry Cluster ²

- 80% interest for US\$475m by Evolution in Dec 2023
- 5.5Mt Cu & 4.5Moz Au
- 22 porphyry deposits discovered, 9 economic

Region 3: Trundle: Mordialloc Prospects

- Limited deeper drilling returns broad mineralisation
- Large co-incident geochemical & geophysical targets in confirmed fertile Macquarie Arc system

Region 2: Myall Porphyry Project ³

- \$14m earn-in for 75% with FMG in March 2024
- 0.354Mt CuEq maiden resource

Region 4: Trundle: Dunn's to Botfield Prospects

3 new Kincora discoveries so far, including

- SEZ: 34m @ 1.45g/t Au, 0.25% Cu
- Trundle Park: 51m @ 1.17g/t Au, 0.54% Cu

Multiple step out drill targets

Sole-Funded Exploration

Kincora Copper
"KCC": ASX & TSXV

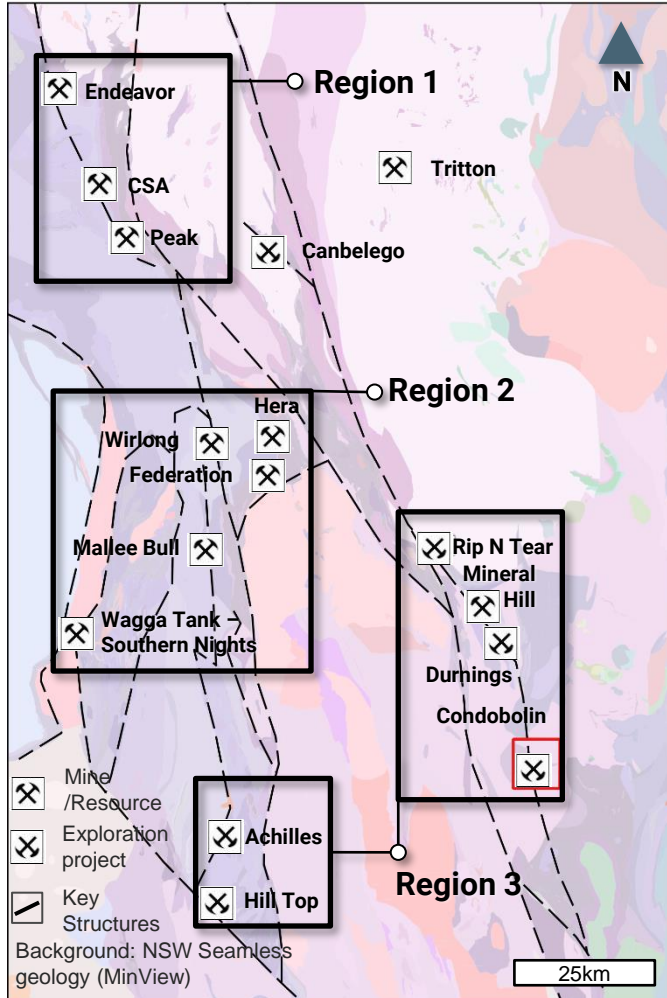

Cobar District: Kincora's Condobolin Project

Kincora Copper
"KCC": ASX & TSXV

Emerging new Cobar districts: Different levels of exploration maturity within the Cobar Superbasin

Resulting in new significant investment and discoveries

Region 1 MATURE MINES

Slide 4 - Corporate Snapshot

¹ "Market Cap" as @ COB Apr 15, 2025. KCC 291.7m shares @ 3.2c (ASX).

^{2, 3 & 4} Recent asset level deals and field based exploration activities that support "4Q'24 Drilling >7000m", "Partner Funding >\$3.5m" & ">\$110m Partner Funding", includes:

(a) AngloGold Ashanti (NYSE:AU) up to A\$50m earn-in & JV agreement for the Nyngan & Nevertire projects: refer May 28, 2024 release "AngloGold Ashanti to earn-in to the NJNB Project" (estimated budget to Dec'2024, \$1.5m, incl. 2707m drilling, Kincora currently the project manager receiving a 10% fee of expenditure).

(b) AngloGold Ashanti (NYSE:AU) up to A\$50m earn-in & JV agreement for the Nyngan South, Nevertire South and Mulla projects: refer Apr 7, 2025 release ""Second Major Earn-in Secured with AngloGold Ashanti".

(c) Fleet Space Technologies (which in December 2024 raised \$150m in a Series D financing) partnership under R&D Grant for geophysical surveys at Nyngan: refer Jul 25, 2024 release "ANT and Gravity Geophysical Surveys at the Nyngan Project" (est. budget \$500k)

(d) Fleet Space partnership for the Wongarbon project: refer Oct 16, 2024 release "Kincora announces Strategic Investment & Expanded Partnership with Fleet Space" (Fleet Space is to conduct ANT & gravity surveys with the right to fund >2000m of drilling for an earn-in/JV. Est. budget for ANT & gravity surveys \$600k, follow up drilling >\$1m)

(e) Exploration Alliance partner Earth AI (which in January 2025 raised US\$20m in a Series B financing) drilling commenced at the Cundumbul project: refer May 20, 2024 release "Artificial Intelligence Partner Drilling New Copper Targets at the Cundumbul Project" (Earth AI has the right to right to spend up to \$4.5m at Cundumbul and earn an NSR upon a "qualifying interval". Estimated budget to date >\$900k, incl. 5 completed holes for >2000m with analysis of a VTEM geophysical survey ongoing)

(f) Woomera Mining (now Orbminco Ltd – ASX:OB1) agreement for Kincora's Mongolian assets: refer Aug 12, 2024 release "Kincora secures funded, successful and motivated partner for Mongolian assets" & Orbminco release Jan 14, 2025 "Drilling Results for Bronze Fox Copper-Gold Project", incl. drilling results & technical details/disclaimers (Orbminco has the right to spend US\$4m for a 80% interest in the Mongolian subsidiaries with Kincora free carry also to FID or a cash payment + NSR acquisition right for 100% interest. Orbminco consideration shares to Kincora \$450k. Estimated budget >C\$929k incl. 2516m of drilling)

⁵ "Cash" cash as at Dec 31, 2024, reported Mar 31 2024, Audited annual FS & MD&A for YE'2024

⁶ "Shares" As reported Aug 12, 2024, Kincora has received A\$450,000 of share consideration (@ 0.0025/sh with a 1:1 attaching option @ 0.005/sh) in Woomera Mining Limited (now Orbminco Ltd, "OB1":ASX) in relation to the binding earn-in agreement for Kincora's wholly owned Mongolian assets. Kincora is now OB1's largest shareholder ahead of Lotaka Pty Ltd.

⁷ "Skin in the game" Board/senior management receive a significant portion of remuneration in share compensation and via this compensation and cash participation in capital raisings represent an estimated 11% of Kincora's shareholder register.

⁵ "Insider ownership" Representative on Board, includes RareX (15%) The Bloomfield Group (13%) and board/management (11%).

Slide 9 - Why a Project Generator Model?

² "Vicuña district projects and market value includes values for Filo Corp & Josemaria based on the Jul 29, 2024 transaction values from Lundin Mining & BHP (see public market releases, "Lundin Mining and BHP to Acquire Filo and Form a 50/50 Joint Venture to Progress the Filo del Sol and Josemaria Projects") and Mar31, 2025 market capitalisation of NGEx Minerals

Slide 12 - Catalysts

¹ For further details on deals and projects, including any technical disclosures, please refer to Kincora's audited annual FS & MD&A for YE'2024 (Mar 31, 2025)

² AngloGold Ashanti (NYSE:AU) up to A\$50m earn-in & JV agreement for the Nyngan South, Nevertire South and Mulla projects: refer Apr 7, 2025 release "" Kincora Secures Second Major Earn-in with AngloGold Ashanti".

Slide 15 - Why Australia?

¹ Geoscience Australia – "Australia's Identified Mineral Resources 2020".

² Bespoke request by Richard Schodde from MinEx Consulting for Kincora. Gold-Rich Copper Deposits (ie where Au accounts for at least 20% of the in-situ value).

Slide 16 - Why New South Wales porphyries?

¹ MinEx Consulting report for Kincora

² Ocean Blue Equities Oct 8, 2024 initiation research report on Waratah Minerals with the addition of Newmont's earn-in and joint venture agreements with Koonenberry Gold (KNB.ASX) for the:

(a) June porphyry project (\$23.9m of expenditure to date, ex the Jan 2025 drilling with Koonenberry Gold carried until commercial production); and,

(b) Fairholme porphyry project (Koonenberry carried until \$15m of exploration expenditure, with \$1.14m spent to date, ex the Jan 2025 drilling program).

Macquarie Arc cover, deposits, belts & magmatic complex target outlines based on public access regional magnetics and geological data (<https://minview.geoscience.nsw.gov.au>)

Slide 17 - World-Class Porphyry Belt Extensions

- ¹ AngloGold Ashanti (the world's 4th largest gold company by production) has earn-in agreements with Kincora for the Nyngan project and designated Duck Creek as a Stage 2 project under its multiple phase/project earn-in agreement with Inflection Resources. Kincora and Inflection have had positive drill results in the immediate district, refer to the following respective releases: "Encouraging results expands Kincora Copper and AngloGold Ashanti's First Drilling Program" (Feb 13, 2025), and, "Inflection Resources Intercepts Porphyry Gold-Copper Mineralisation in New South Wales" (Feb 4, 2025) and "Inflection Resources Provides Drilling Update from Phase I Exploration Program in New South Wales" (Jul 30, 2024).
- ² "Discoveries drive >\$10 billion market value": includes values for Filo Corp & Josemaria based on the Jul 29, 2024 transaction values from Lundin Mining & BHP (see public market releases, "Lundin Mining and BHP to Acquire Filo and Form a 50/50 Joint Venture to Progress the Filo del Sol and Josemaria Projects") and Mar 31, 2025 market capitalisation of NGEx Minerals
- ³ "Current valuation" as @ COB Apr 15, 2025 for Kincora (KCC.TSXV & ASX) & Inflection (AUCU.CSE) with both Inflection and Kincora have earn-out agreements with AngloGold Ashanti – see note ¹.
- ⁴ "Pre discovery valuation": NGEx Minerals valuation 2009 when it owned the projects included in ². Refer to NGEx's presentation July 2024 for further details.

Slide 19 - Hotspot for M&A
