

# QUARTERLY ACTIVITIES REPORT Quarter ended 31 March 2025

Marvel Gold Limited (ASX: MVL) (Marvel or the Company) is pleased to provide an update on its activities undertaken during the March quarter.

#### **HIGHLIGHTS**

- Acquisition of the Hanang Gold Project, located in the highly prospective
   Iramba-Sekenke Greenstone Belt of Tanzania
- Term sheet to sell Tabakorole & Yanfolila Gold Projects for \$1.65m
- Placement of \$4.235m at \$0.008 per share via a two-tranche placement
- Appointment of Executive Director, Mr Timothy Strong

## **ACQUISITION OF THE HANANG GOLD PROJECT, TANZANIA**

Following an extensive study of potential African gold projects over the last 18 months, the Company acquired the Hanang Gold Project (**Hanang**) in the prospective Iramba-Sekenke Greenstone Belt of Tanzania via the acquisition of 100% of the issued capital in private Tanzania company Cobra Resources Limited (**Cobra**) for total USD\$200,000 cash and the issue of Marvel shares to the value of \$175,000 upon Completion under the terms of the Share Purchase Agreement (SPA) <sup>1</sup>.

The acquisition of Cobra under the SPA is conditional upon satisfaction of a number of conditions which are detailed the Company's ASX Announcement dated 21 March 2025.<sup>2</sup>

The Hanang Gold Project is located in central Tanzania and is owned by Cobra Resources Limited (a Tanzanian registered private company). The Hanang Gold Project is a regional gold project, located within a highly prospective, underexplored greenstone belt on the Eastern Margin of the +70Moz gold endowed Lake Victoria Gold Field. Mines within the Lake Victoria Gold Field include Anglo Gold Ashanti's Geita Mine, Barrick Gold's Bulyanhulu, and Perseus Mining's development project Nyanzaga.

<sup>&</sup>lt;sup>1</sup> The issue price per share is equal to the volume weighted average price over 30 trading days prior to the business day immediately preceding SPA Completion. SPA Completion is expected to occur within six months.

<sup>&</sup>lt;sup>2</sup> "Marvel acquires Hanag Gold Project in Tanzania and raises \$4.2m to underpin exploration".

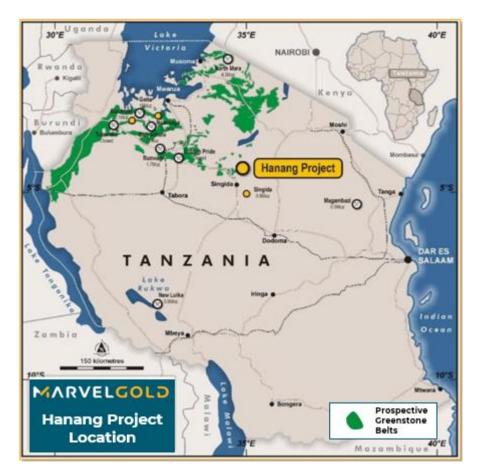

Figure 1: Location of the Hanang Gold Project

The Hanang Gold Project lies within the underexplored Iramba-Sekenke greenstone belt within Nyanzian volcanic rocks, sediments and banded iron formations (BIFs), typical of the Central Craton greenstone belts.

Marvel considers there is significant upside to the Hanang Project, which remains relatively underexplored. There are numerous outcrops of mineralised BIF lithology which is analogous to known mineralisation in the area.

Initially, Marvel intends to assay a significant number of soil and rock samples that have previously been collected by the Cobra team and are yet to be assayed, as well as undertaking a high-resolution drone-borne magnetic survey. Results from of these programs of work will enable the Company to further understand the geological and structural setting of the mineralisation on the property and to plan the commencement of a maiden drill program scheduled for later in the calendar year.

### **TABAKOROLE AND YANFOLILA GOLD PROJECTS**

During the quarter, Marvel entered into a new binding Term Sheet (**Term Sheet**) with Anchises Capital LLC (**Anchises**) to sell its interests in the Tabakorole and Yanfolila Gold Projects in Mali for total consideration of \$1,650,000.

In October 2024, Marvel had previously entered into a term sheet with Precious Metal Consulting and Engineering LLC (**PMCE**), a wholly owned subsidiary of Anchises, which did not proceed due to unforeseen developments in Mali at the time.<sup>3</sup>

Marvel owns, through its subsidiaries, interests in various tenements comprising the Tabakarole Gold Project and the Yanfolila Gold Project (**Tenements**) that are in the process of being renewed by the Mali Mining Cadastre (**Cadastre**). Under the Term Sheet, Anchises has agreed to acquire Marvel's entire equity interests in the subsidiary companies that hold the Tenements (**Transaction**).

<sup>&</sup>lt;sup>3</sup> "Marvel Enters Binding Term Sheet to Sell Mali Assets" – 22 October 2024 and "Sale of Mali Assets Update" – 20 November 2024

# **Key terms of the Transaction**

- Total consideration of \$1,650,000 comprising of:
  - An up-front, non-refundable, Exclusivity Fee of \$150,000 which has been received by Marvel; and
  - \$1,500,000 (Final Payment) payable within 14 days of the date that the Tenements are renewed by the Mali Mining Cadastre (unless otherwise agreed). Anchises may, at their discretion, make the Final Payment prior to the Tenements being renewed.
- Exclusivity Period to undertake further technical and legal due diligence, expiring on the earlier of 14 days after the date that the Tenements are renewed or 90 days after signing of the Term Sheet.
- Good faith negotiation of the transaction documents to implement the Transaction to be undertaken during the Exclusivity Period.
- Marvel to use its best endeavours to facilitate the official renewal of the Tenements as soon as possible, and not to take any actions that would prejudice the renewal of the Tenements.
- Transaction is subject to a number of conditions, including receipt of any requisite regulatory approvals (Mali and Australia).
- Term Sheet contains other customary provisions for agreements of this nature, including representations and warranties being provided by the Parties.

#### **CORPORATE**

# **Appointment of Executive Director**

Following the successful acquisition of Cobra and completion of the Placement, Mr Timothy Strong has been appointed as Executive Director of Marvel. Mr Strong is an exploration geologist and mining executive with over 16 years of experience in project generation, exploration management and leadership of ASX listed companies.

## **Placement**

The Company successfully raised \$4.235m via a two-tranche placement from sophisticated and institutional investors, including \$125,000 from Directors and Management (**Placement**).

The Placement is comprised of the issue of 529.38m fully paid ordinary shares (**Placement Shares**) at an issue price of \$0.008. The Placement Shares to be issued under the Placement will rank equally with the Company's existing shares on issue.

The first tranche of 215.95m Placement Shares to raise approximately \$1.73m was completed utilising the Company's existing placement capacity pursuant to ASX Listing Rule 7.1 and 7.1A and settled on 26 March 2025.

The second tranche of approximately 313.4m Placement Shares to raise approximately \$2.5m is subject to shareholder approval (**Tranche 2 Placement**). Completion of the Tranche 2 Placement (which includes participation by all directors who have applied for shares valued at approximately \$95,000 in aggregate) is subject to the Company

obtaining shareholder approval to be sought at its Annual General Meeting (**AGM**), scheduled for late May 2025.

The proceeds of the Placement will be applied towards the acquisition of Cobra, exploration activities at Hanang and general working capital.

#### Cash

As at 31 March 2025, the Company had cash of \$2.363m.

## **Shareholding in Evolution Energy Minerals**

Pursuant to the completion of a spin out of the Chilalo Graphite Project and an initial public offering and listing on ASX of Evolution Energy Minerals Limited (**Evolution**) in November 2021, Marvel was issued and retained 50,000,000 ordinary shares in Evolution (**Evolution Shares**).

At Evolution's closing share price of \$0.019 at 31 March 2025, the Evolution shares held by Marvel have a market value of \$0.950 million.

The Company intends to dispose of its shareholding in Evolution Energy Minerals if and when circumstances permit.

#### MALI EXPLORATION ASSETS

Marvel holds a 70% interest in the Tabakorole Gold Project and a 100% interest in the Kolondieba Gold Project and the Yanfolila Gold Project located in Southern Mali.<sup>4</sup>

The Tabakarole exploration licence expired at the end of its second renewal in June 2023. Since November 2022, the Cadastre has not accepted new tenement applications or processed tenement renewals or transfers. As a result, the licence renewal process for Tabakorole and the process to transfer licences relating to Kolondieba and Yanfolila from B2 Gold to the Company has been delayed. The Company was informed by the Government of Mali that the Cadastre was due to partially open on 15 March 2025. Since the partial opening of the Cadastre, the Company's in-country management has been engaging with the Mali Government to facilitate the renewal and transfers of the Company's licences.

All the Company's licences are currently compliant in terms of statutory reporting requirements, and the Company remains confident that when the Cadastre recommences accepting licence applications, title to its tenements can be renewed or transferred as necessary.

<sup>&</sup>lt;sup>4</sup> Marvel reached an agreement with B2Gold Corporation (**B2Gold**) in April 2023 to acquire the remaining 20% interest in exploration licences that we were held under a joint venture with B2Gold. These licences included the Kolondieba and Yanfolila Gold Projects (**JV exploration licences**). Completion of the acquisition and the transfer of the JV exploration licences to the Company is subject to the Mali Cadastre resuming normal operations. In May 2023, Marvel entered into a JV agreement with Resolution Mining Limited (**Resolute**) under which Resolute can earn up to a 70% interest in the Kolondieba Gold Project. The JV agreement is subject to a number of conditions precedent including that the licences be transferred to Marvel under the agreement with B2Gold.

# **INFORMATION REQUIRED UNDER ASX LISTING RULES**

# Information required under Listing Rules 5.3.1 and 5.3.2
