

Q3 FY25 Results

28 April 2025

Presented by: Andre Labuschagne

Disclaimer

This investor presentation has been prepared by Aeris Resources Limited ("Aeris" or the "Company"). By attending an investor presentation or briefing, or accepting, accessing or reviewing this presentation, you acknowledge and agree to the terms set out below.

SUMMARY INFORMATION

This presentation is for information purposes only and should be read in conjunction with the most recent financial reports and other documents lodged by Aeris with the Australian Securities Exchange ("ASX") in connection with its continuous disclosure obligations. This presentation does not purport to contain all of the information that an investor should consider when making an investment decision nor does it contain all of the information which would be required in a product disclosure statement or prospectus prepared in accordance with the requirements of the Corporations Act.

No reliance should be placed on the information or opinions contained in this presentation, which are provided as at the date of this presentation (unless otherwise stated) and to the maximum extent permitted by law, Aeris has no obligation to update the information contained in this presentation. An investment in securities is subject to known and unknown risks, some of which are beyond the control of Aeris. Investors should consult with their own legal, tax, business and/or financial advisors in connection with any acquisition of securities.

FINANCIAL INFORMATION

All financial information set out in this presentation is expressed in Australian Dollars unless stated otherwise. Investors should be aware that certain financial measures included in this presentation are "non-IFRS financial information" under ASIC Regulatory Guide 230: "Disclosing non-IFRS financial information" published by ASIC and also "Non-GAAP financial measures" within the meaning of Regulation G under the US Securities Exchange Act of 1934 and are not recognised under the AAS or IFRS. Aeris believes the non-IFRS financial information and non-GAAP financial measures provide useful information to users in measuring the financial performance and condition of Aeris.

However, investors should note that the non-IFRS financial information and non-GAAP financial measures do not have standardised meanings prescribed by AAS or IFRS. Therefore, the non-IFRS financial information is not a measure of financial performance, liquidity or value under the IFRS and may not be comparable to similarly titled measures presented by other entities, nor should the information be construed as an alternative to other financial measures determined in accordance with AAS or IFRS. Investors are cautioned, therefore, not to place undue reliance on any non-IFRS financial information included in this presentation.

FUTURE PERFORMANCE AND FORWARD-LOOKING STATEMENTS

This presentation contains certain 'forward-looking' statements, opinions and estimates, which are based on assumptions and contingencies that are subject to change without notice and involve known and unknown risks and uncertainties beyond the control of Aeris and its officers. This includes statements about market and industry trends, which are based on interpretations of current market conditions.

Indications of, and guidance on, future earnings and financial position and performance are forward-looking statements. As are statements containing the words "expect", "anticipate", "estimate", "intend", "believe", "guidance", "should", "could", "may", "will", "predict", "plan" and other similar expressions.

Forward-looking statements are based on information available to Aeris as at the date of this presentation and should not be relied upon as an indication or guarantee of future performance. Except as required by law or regulation (including the ASX Listing Rules), none of Aeris, its representatives or advisers undertakes any obligation to provide any additional or updated information whether as a result of a change in expectations or assumptions, new information, future events or results or otherwise.

Investors are strongly cautioned against placing undue reliance on forward-looking statements, especially considering the current economic climate and significant volatility, uncertainty and disruption caused by recent world events such as the COVID-19 pandemic and international hostilities and associated economic changes.

DISCLAIMER

To the maximum extent permitted by law, Aeris and each of its respective related bodies corporate, shareholders and affiliates, and each of their respective officers, directors, partners, employees, representatives, affiliates, agents, consultants and advisers (each a "Limited Party"):

- expressly disclaim any and all responsibility and liability (including, without limitation, any liability arising from fault, negligence or negligent misstatement) for any direct, indirect, consequential or contingent loss or damage arising from this presentation or reliance on anything contained in or omitted from it or otherwise arising in connection with this presentation;
- disclaim any obligations or undertaking to release any updates or revisions to the information in this presentation and;
- do not make any representation or warranty, express or implied, as to the accuracy, reliability, completeness or fairness of the information, opinions and conclusions contained in this presentation or that this presentation contains all material information about Aeris or the Transaction or that a prospective investor or purchaser may require in evaluating a possible investment in Aeris or acquisition of shares in Aeris, or likelihood of fulfilment of any forward-looking statement or any event or results expressed or implied in any forward-looking statement.

Disclaimer

NO NEW INFORMATION STATEMENT

This presentation refers to Exploration Results, estimates of Mineral Resources and Ore Reserves contained in the Group Mineral Resource and Ore Reserve Statement as at 31 December 2023 which was announced on 17 June 2024 (2024 MROR Group Statement), as well as Updated Mineral Resource Estimate of Constellation (announced on 31 March 2025 "Aeris Delivers Material Increase in Copper and Gold at Constellation") and prior market announcements released by Aeris, (Prior Reports). The Prior Reports are footnote referenced in this presentation and available from: <https://www.aerisresources.com.au/investor>.

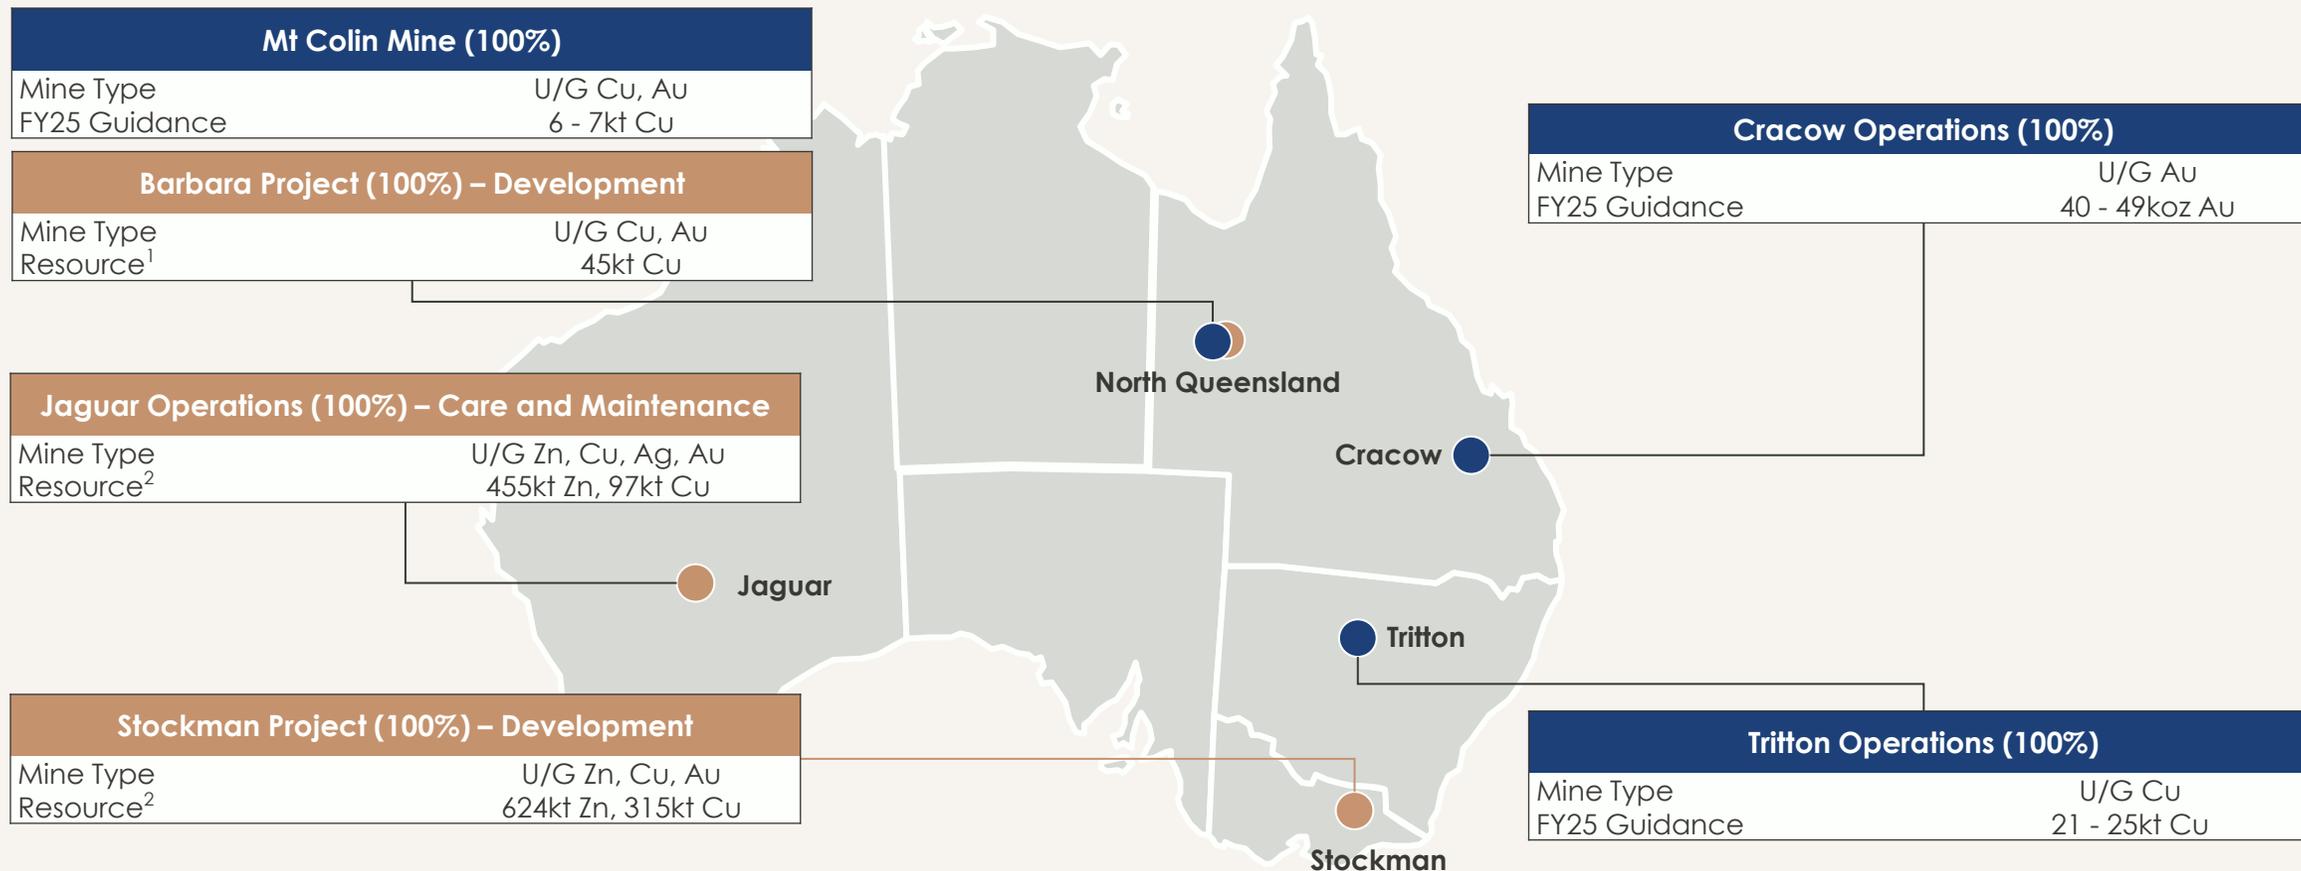

Aeris confirms that it is not aware of any new information or data that materially affects the information included in the Prior Reports and, in the case of Exploration Results, estimates of Mineral Resources or Ore Reserves, that all material assumptions and technical parameters underpinning the results or estimates in the Prior Reports continue to apply and have not materially changed. Aeris confirms that the form and context in which the Competent Person's findings are presented in this document have not been materially modified from the Prior Reports.

NOT FOR DISTRIBUTION OR RELEASE IN THE UNITED STATES

This Presentation does not constitute an offer to sell, or the solicitation of an offer to buy, any securities in the United States. The securities referred to in this Presentation have not been, and will not be, registered under the US Securities Act of 1933 (the "US Securities Act") or the securities laws of any state or other jurisdiction of the United States, and may not be offered or sold, directly or indirectly, to any person in the United States or to any person acting for the account or benefit of a person in the United States unless they have been registered under the US Securities Act (which Aeris has no obligation to do or to procure) or are offered or sold pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the US Securities Act and any applicable securities laws of any state or other jurisdiction of the United States.

Aeris Resources

Australian mid-tier, base and precious metals producer

1. Refer to ASX Announcement "Barbara Mineral Resource Update" released on 28 June 2023. MRE comprises Indicated resource of 1.98Mt at 2.0% Cu, 0.2g/t Au, 3.3g/t Ag and Inferred resource of 0.26Mt at 1.8% Cu, 0.1g/t Au, 3.5g/t Ag
 2. See Appendix for Mineral Resource tables and ASX announcement "Group Mineral Resource and Ore Reserve Statement" released on 17 June 2024

Key points for Q3 FY25

Improved group level production and strong operating cash flow

Improved group copper equivalent production of 10.7kt¹

Costs well managed with reduced AISC of A\$4.91/lb Cu eq

Cash and receivables at end of quarter up to \$33.6M with cash flow from operations increasing 37% Q-on-Q to \$45.4M

Strong safety performance – no lost time injuries for the quarter

Cracow continues to deliver cash flow above budget despite lower gold production on 9.0koz and remains on track for guidance

Tritton delivered improved production of 4.3kt Cu at AISC of A\$6.16/lb Cu

Final stockpiles at Mt Colin processed, producing 2.6kt Cu. Final FY25 production of 5.5kt Cu and strong gold production of 4.0koz

Continuing to progress feasibility studies on Jaguar and Stockman

Constellation updated Mineral Resource Estimate increased contained copper metal by 24% and contained gold metal by 29%²

Aeris remains on track for group copper equivalent production guidance

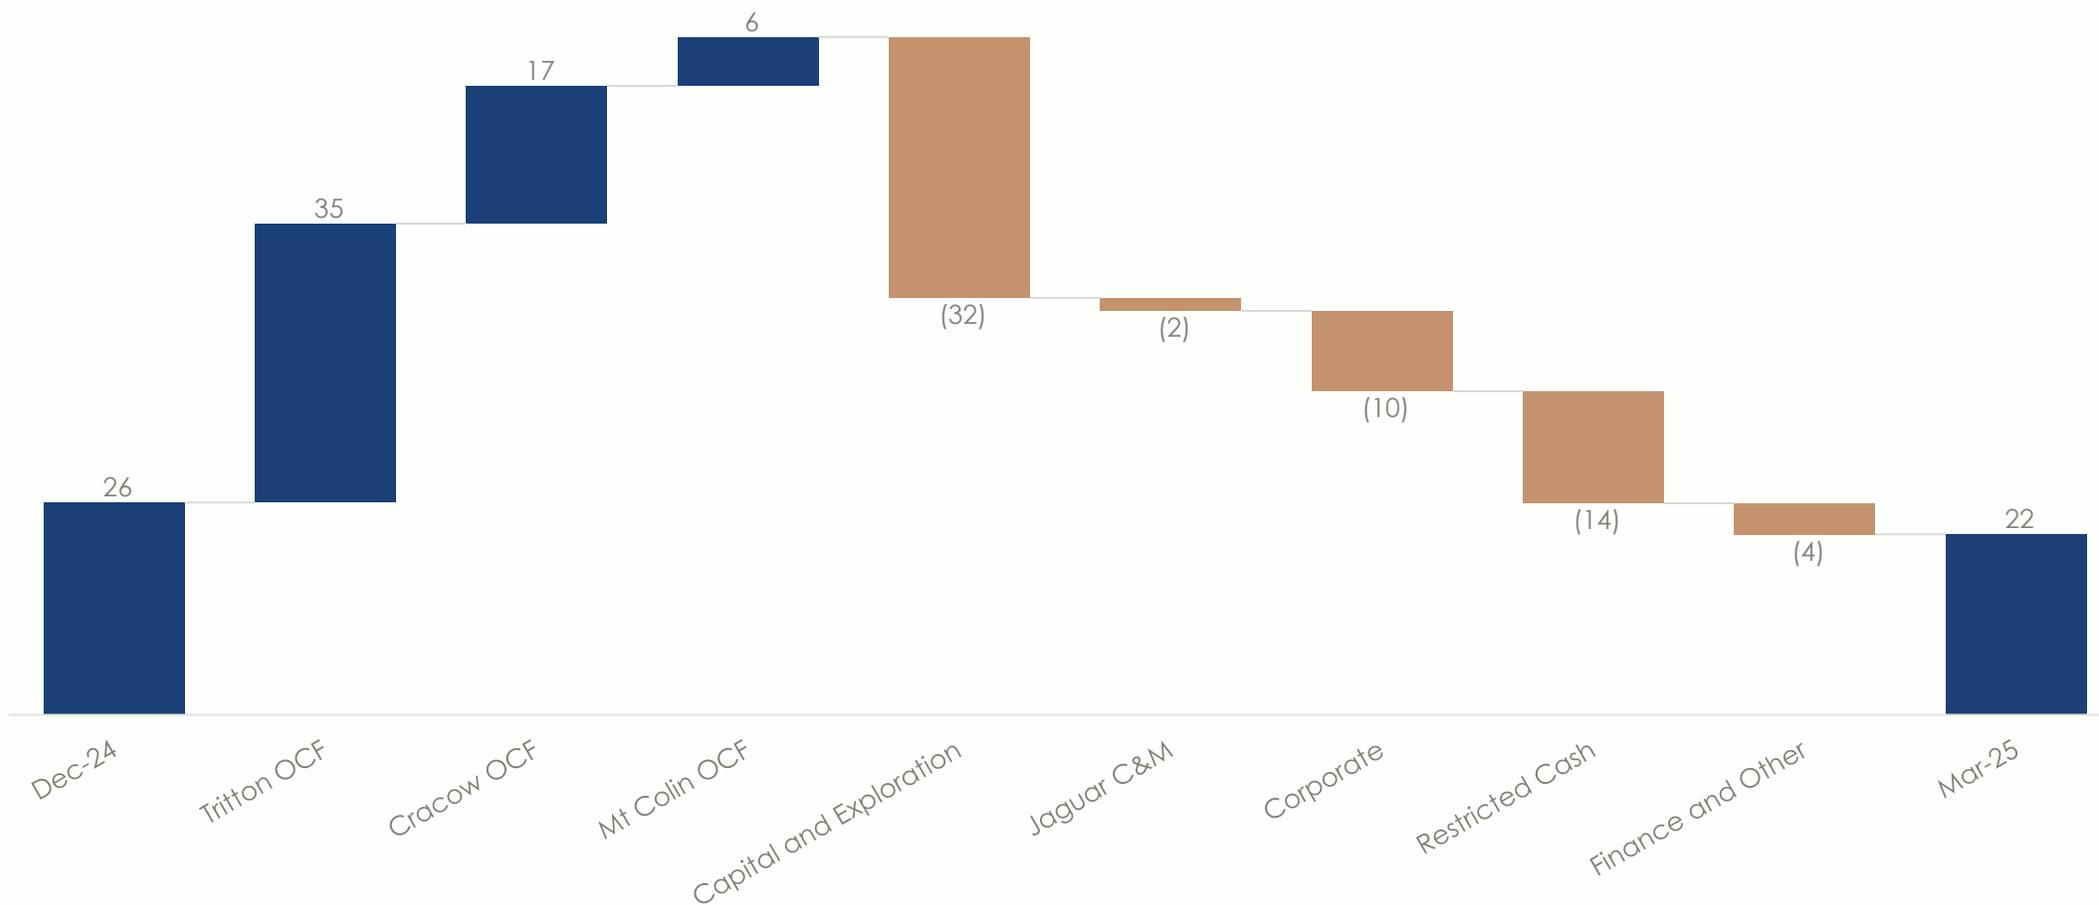

1. Refer to ASX release "Quarterly Activities Report – March 2025", 28 April 2025 for production detail.

$$\text{CuEq} = ((\text{Cu Produced} \times \text{Cu } \$/\text{t}) + (\text{Au Produced} \times \text{Au } \$/\text{oz}) + (\text{Ag Produced} \times \text{Ag } \$/\text{oz})) / (\text{Cu } \$/\text{t})$$
 Commodity prices: US\$9,345/t Cu, US\$2,861/oz Au and US\$32/oz Ag
 2. Refer to ASX announcement "Material Increase in Copper and Gold at Constellation", dated 31 March 2025

Cash Flow

Strong operating cash flows funding investment into assets

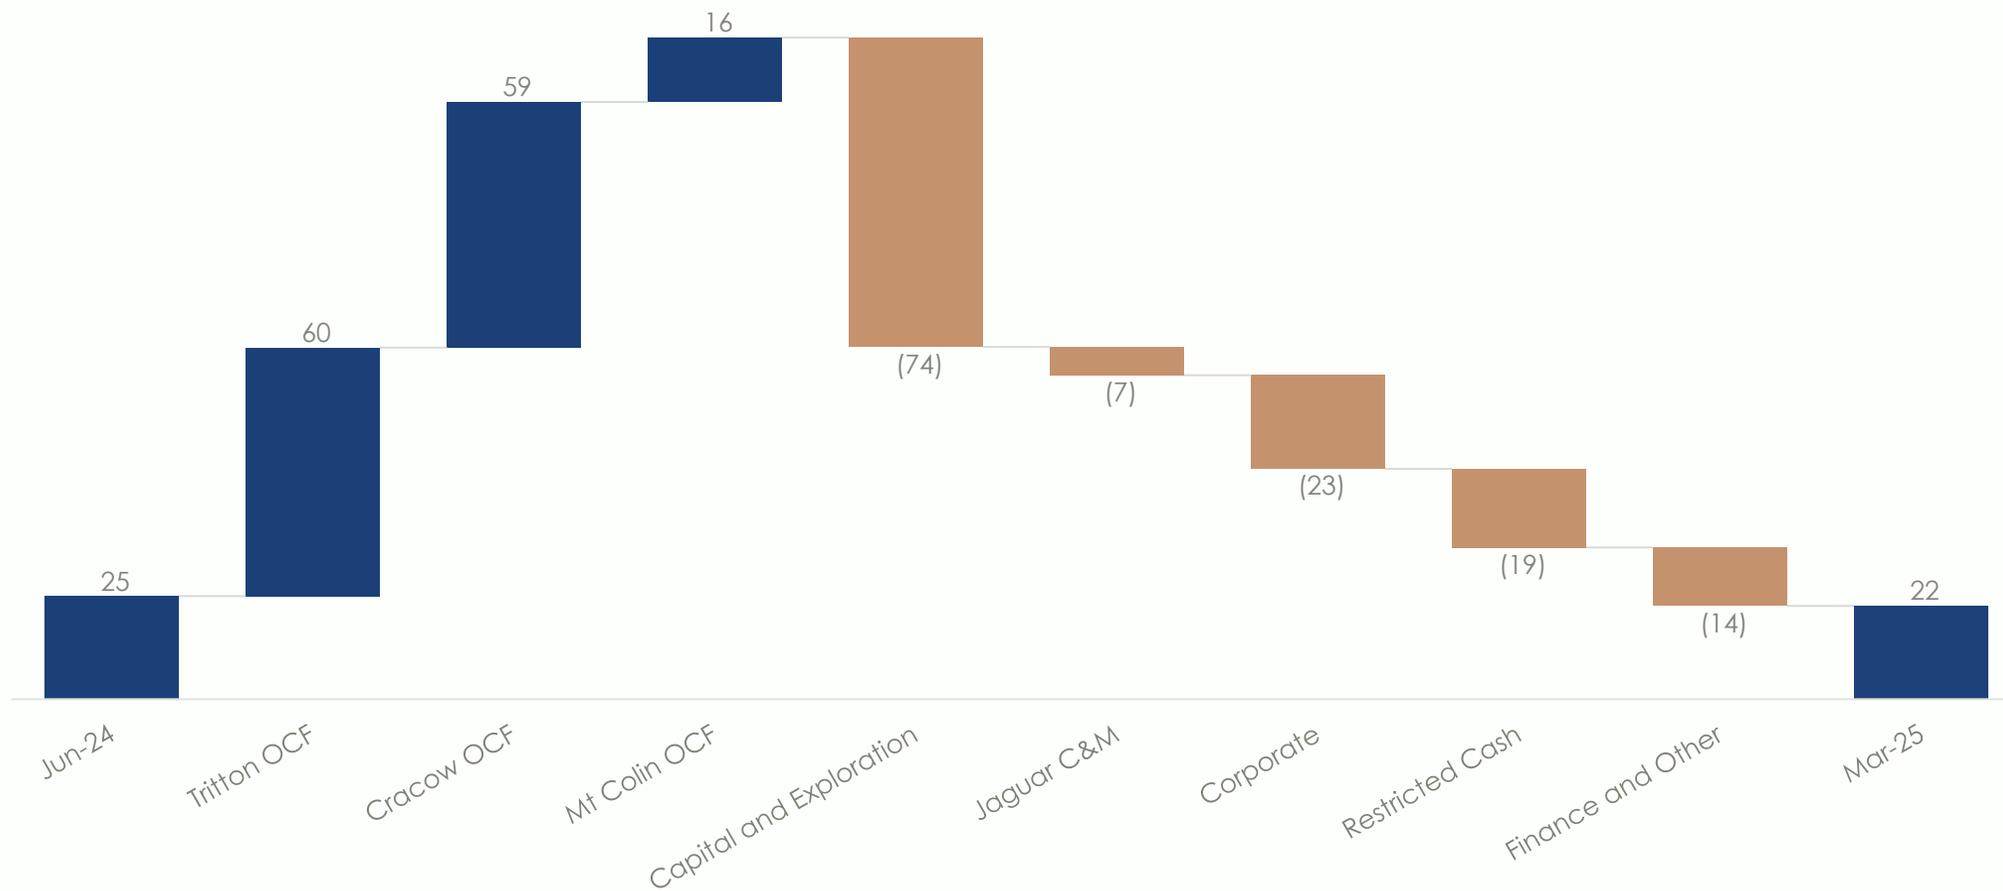

March QTR Group Cash Flow (A\$M)

1. OCF = Operating cash flow

YTD Cash Flow

A\$ million

1. OCF = Operating cash flow

Tritton

NSW

Q3 results

Tritton production improved; no change to annual guidance

Improved production of 4.3kt Cu at AISC of A\$6.16/lb

Mining improvement project delivering increased development, backfill and diamond drilling rates

Murrawombie Open Pit production commenced, delivering ore to the mill and waste to cap old heap leach pads

Mill forecast to reach capacity (1.8Mtpa rate) in Q4 with Murrawombie Pit ore

No change to annual guidance

Production Summary	Unit	Sep 24 Qtr	Dec 24 Qtr	Mar 25 Qtr	FY25 YTD	FY25 Guidance
Copper Produced	kt	5.0	3.9	4.3	13.2	21 - 25
Gold Produced	koz	1.5	1.1	1.4	4.0	7 - 9
Silver Produced	koz	43.9	35.2	45.2	124.3	200 - 240
Cost Summary						
Mining	A\$M	27.4	24.9	28.1	80.4	105 - 128
Processing	A\$M	7.4	7.8	7.5	22.7	29 - 36
Site G&A	A\$M	5.2	6.5	6.4	18.1	21 - 25

Exploration	A\$M	0.5	0.2	0.9	1.6	1 - 2

1. Refer to ASX release "Constellation Project Update", 22 January 2025

Murrawombie Pit

Murrawombie Pit operations

Progressive mine rehabilitation of old heap leach pads underway using clean waste rock from Murrawombie Pit

Constellation

Updated Mineral Resource Estimate

Updated Mineral Resource Estimate 7.6Mt of 2.01% copper and 0.66g/t gold containing **153kt copper and 161koz gold**¹

Represents a **24% increase in contained copper** and **29% increase in contained gold**²

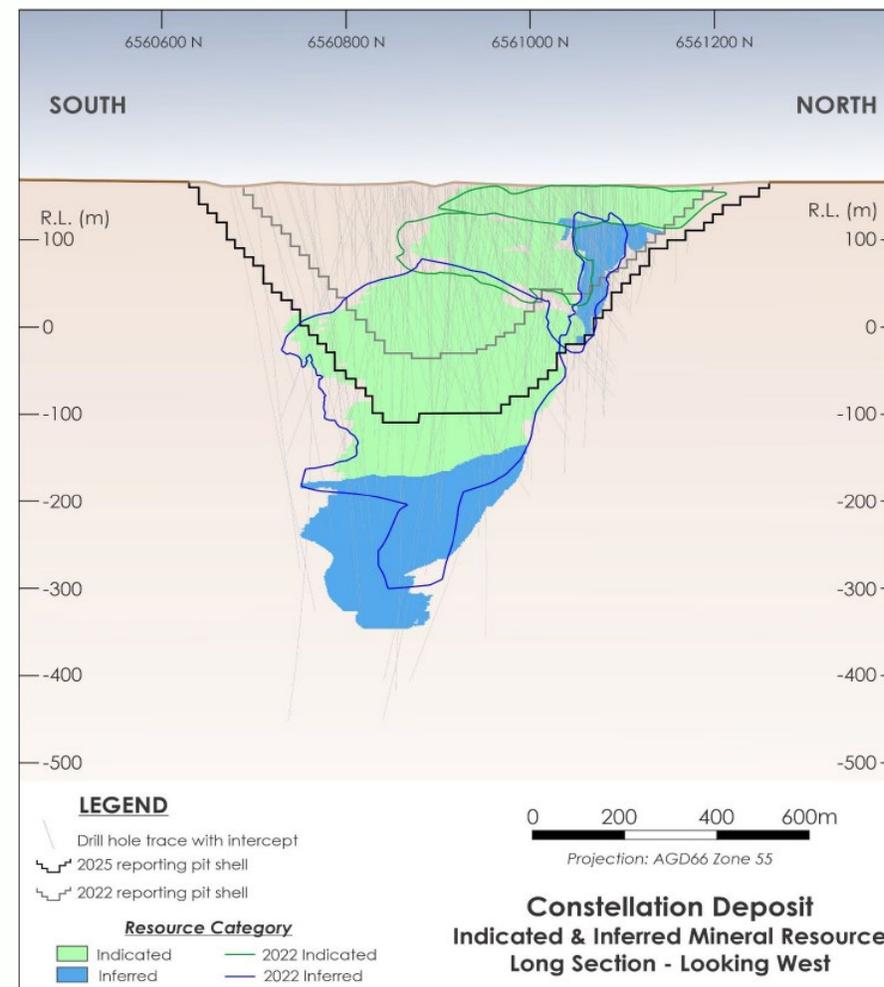

Indicated Resource 5.3Mt at 1.75% copper and 0.66g/t gold provides a strong foundation for potential conversion to Ore Reserve³

Open pit resource increased by 46% to 4.7Mt at 1.9% Cu and 0.6g/t Au⁴ with 3.2Mt⁵ of potential high-grade, primary/supergene mill feed

Constellation **deposit remains open** down-plunge, with strong potential for further growth

1. See ASX release "Aeris Delivers Material Increase in Copper and Gold at Constellation" 31 March 2025. Comprises Indicated resource of 5.3Mt at 1.8% Cu, 0.7g/t Au, and Inferred resource of 2.3Mt at 2.6% Cu, 0.7g/t Au
2. Compared to previous estimate; refer to ASX release "Constellation Mineral Resource Update", 18 August 2022
3. Conversion to Ore Reserve is subject to economic assessment and the application of appropriate modifying factors
4. Comprises Indicated resource of 4.1Mt at 1.7% Cu, 0.6g/t Au and Inferred resource of 0.6Mt at 3.5% Cu, 0.5g/t Au
5. Comprises Indicated resource of 2.6Mt at 2.3% Cu, 0.9g/t Au and Inferred resource of 0.6Mt at 3.5% Cu, 0.5g/t Au subject to conversion to an Ore Reserve

Long section looking west showing the March 2025 Mineral Resource and open pit shell

Constellation development pathway

Potential long life mine from three stages

1. Oxide for heap leach

- 1.5Mt @ 0.6% Cu with high-grade zones (1-2% Cu)
- Starting 5m below surface

2. Supergene and primary open pit feed to Tritton mill:

- 3.2Mt at 2.5% Cu and 0.7g/t Au, starts 50m below surface
- Potential significant contribution to gold production with contained Au metal of 91koz

3. Underground grades of +2%

- 1.2Mt @ 2.1% Cu and 0.8g/t Au (Indicated)
- 1.7Mt @ 2.3% Cu and 0.7g/t Au (Inferred)
- Development to be funded from open pit operations

Development plan

- EIS¹ lodged with regulator – expect approval Q2 FY26
- Feasibility study and Maiden Ore Reserve targeted Q2 FY26
- Investigating larger open pit operation with potential to delay capital associated with underground development
- High gold recoveries into concentrate to improve economics
- Potential for Murrawombie Pit contractor to transition to Constellation in early CY26 to commence early works

March 2025 Constellation Mineral Resource

Cracow

Queensland

Q3 results

Operation generating strong cash flow at current gold price

Gold production slightly lower than plan producing 9.0koz at increased AISC of \$3,473/oz

Sustaining capital spend includes investment in the secondary cyclone project to improve recoveries

Cracow generating free cash flow significantly above budget at current gold prices

Secondary cyclone circuit being commissioned – forecast to improve gold recoveries by ~1%

Remains on track to achieve annual production guidance

Production Summary	Unit	Sep 24	Dec 24	Mar 25	FY25	FY25

Mt Colin

North Queensland

Q3 results

Final processing completed, Mt Colin now on care and maintenance

Final stockpiled material processing was completed and Mt Colin operations moved into care and maintenance

2.6kt Cu produced at AISC of A\$1.64/lb

FY25 production of 5.5kt Cu and 4koz Au

Higher gold production improved overall Group Cu eq production

Rehabilitation activities commenced including removal of surface infrastructure and reprofiling/seeding of areas no longer in use

Options for divestment of the North Queensland assets including Barbara are being considered

Jaguar

Western Australia

Q3 activities

Advancing restart studies to feasibility level

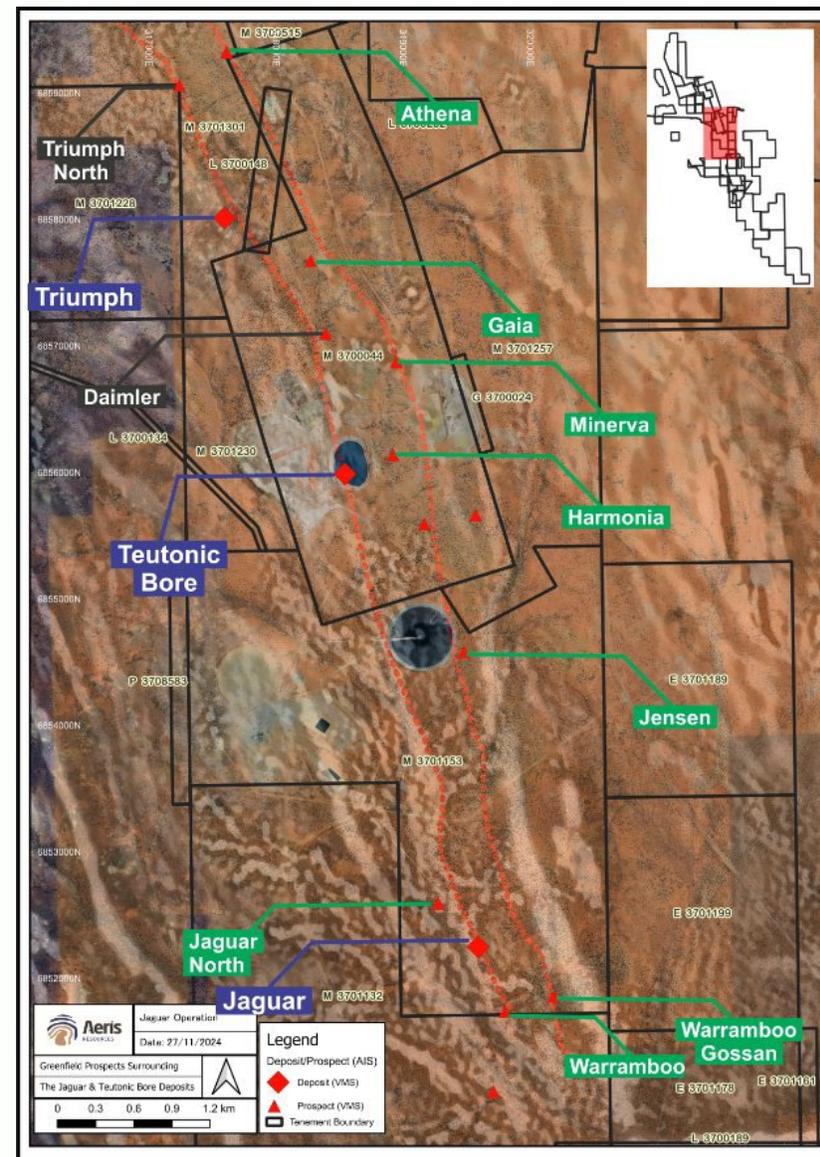

Operation on care and maintenance with costs of \$2.9M for the quarter

Feasibility study continuing

Focus on technical review of ventilation and ground control requirements

Infrastructure review of power supply and distribution options to meet revised mine design requirements

Several prospective VMS areas identified by gravity anomalies, surface alteration and geochemical pathfinders

Stockman Project

Victoria

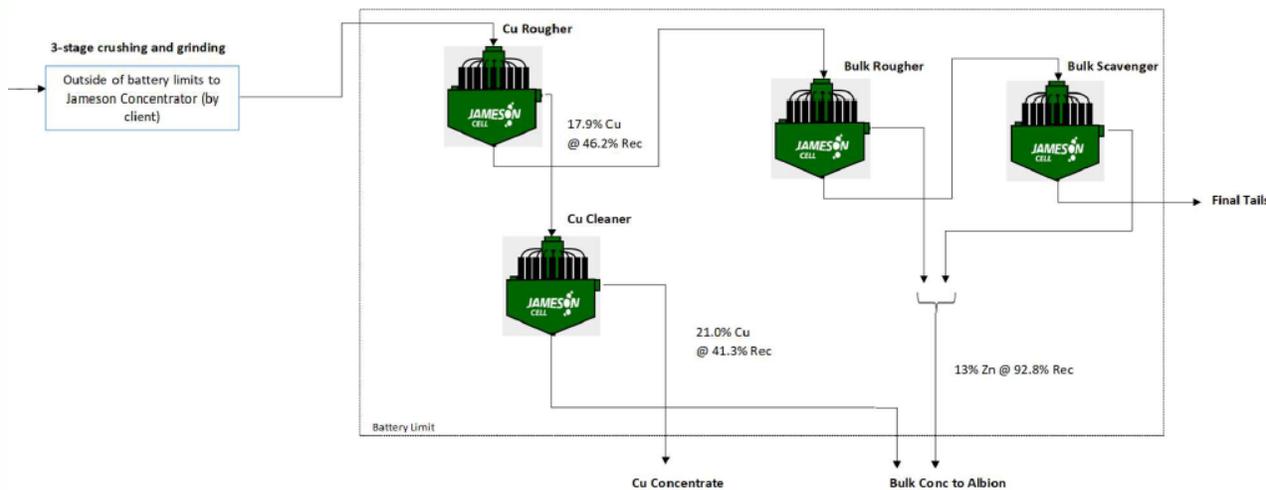

Q3 activities

Albion process feasibility study progressing

Albion leach metallurgical test work underway, due for completion in Q4

Further investigation of off-mine site locations for the downstream ore processing facility with access to power, water and rail infrastructure

Reviewing options for metal products and qualities that can be produced and impacts on final processing flowsheet design

Concentrator flow sheet design for Albion Process

Corporate

Closing cash and receivables of \$33.6 million with cash of \$22.4 million

\$10M cash backed against ANZ guarantee facility during the quarter

Total restricted cash \$28.9 million at end of quarter

Cash flow from operations increasing 37% quarter on quarter to \$45.4 million

Debt unchanged with \$40 million drawn on the WHSP facility

(A\$ Million)	Sep	Dec	Mar

Aeris Resources

Australian mid-tier, base and precious metals producer

2 producing operations

3 development / re-start projects

Highly prospective for further discoveries

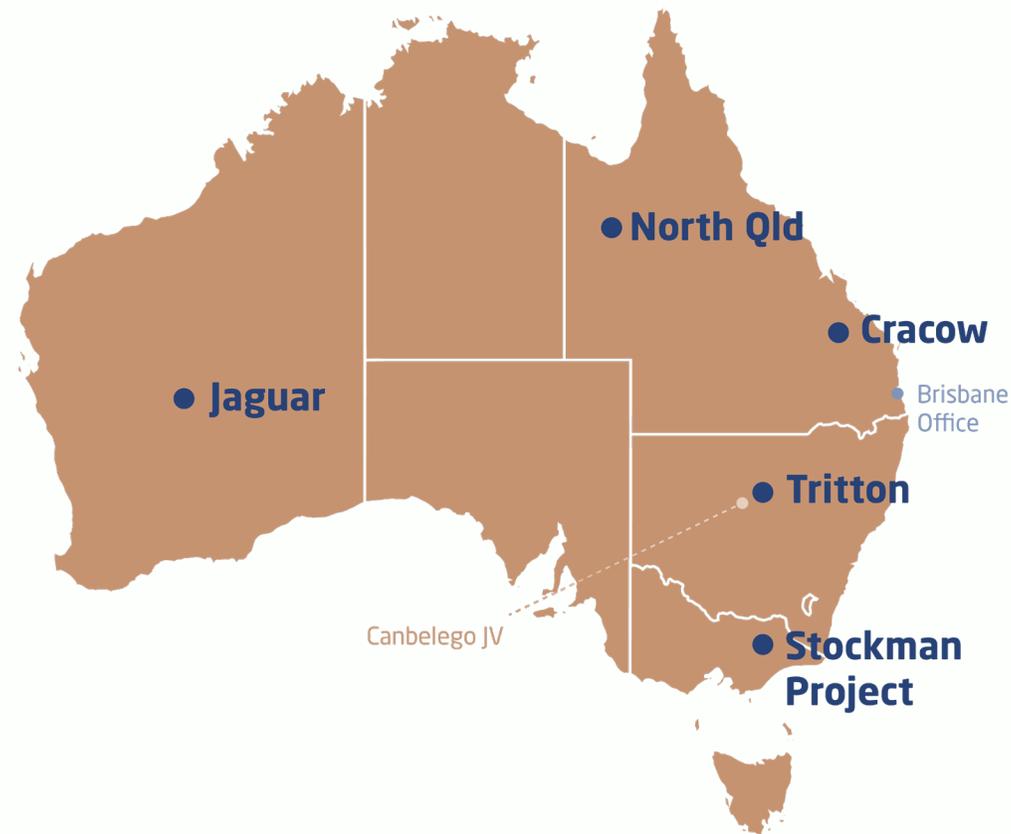

FY25 production guidance of 40-48kt Cu eq¹

Substantial copper metal inventory

Excellent platform for growth

1. Copper Equivalent (CuEq) values – Requirements under the JORC Code

Formula: $CuEq = ((Cu \text{ Produced} \times Cu \text{ \$/t}) + (Au \text{ Produced} \times Au \text{ \$/oz}) + (Ag \text{ Produced} \times Ag \text{ \$/oz})) / (Cu \text{ \$/t})$

Assumed commodity prices are US\$9,620/t Cu, US\$2,341/oz Au and US\$29.43/oz Ag

Aeris Resources confirms that it is the Company's opinion that all the elements included in the metal equivalents calculation have a reasonable potential to be recovered and sold.
