

Heritage Clearance Secured and RC Drilling Contractor Engaged at Yandal West

Key Highlights:

- **Heritage Clearance:** Priority targets at the Ives Find Prospect have been cleared following a comprehensive heritage survey in collaboration with the Kultju People. A number of minor heritage areas were identified but are not expected to impact upcoming drilling activities.
- **Drill Contractor Secured:** A Reverse Circulation (RC) drilling contractor has been engaged, with drilling scheduled to commence in mid-June. Site preparation, including track and pad clearing, will begin shortly.

Albion Resources Limited (ASX: ALB) is pleased to advise that heritage fieldwork has been successfully completed across key target areas at Ives Find prospect located at the Company's **Yandal West Gold Project**, in the Yandal Greenstone Belt of Western Australia.

The heritage survey was undertaken in close partnership with the **Kultju People**, the Traditional Owners of the land, and managed by qualified heritage consultants to ensure all cultural heritage obligations were met. The clearance allows Albion to advance toward its maiden drilling campaign at Yandal West.

CEO Peter Goh commented:

"We acknowledge and thank the Kultju People for their cooperation during the recent fieldwork. Securing heritage clearance at Ives Find represents a critical milestone for our maiden drill campaign. We are now well-positioned to unlock the potential of this underexplored part of the Yandal Greenstone Belt."

Next Steps?

- A second **heritage survey** covering untested targets along the **Barwidgee Fault** is scheduled for 8 June 2025, with the final report expected by the end of the month.
- A **3,000 – 4,000 metre RC drill campaign** will commence mid-June.
- An additional **3,000 – 4,000 metre AC program** is also being planned to test broader regolith anomalies and structural targets across the project.

This announcement has been approved for release by the Board.
