If you apply to participate in the SPP Offer, you are accepting the risk that the market price of Shares may change between the date of the SPP Offer and the Allotment Date.

This means it is possible that, up to or after the Allotment Date, you may be able to buy Shares on market at a lower price than the Offer Price. If the market price of Shares is lower than the Offer Price after the Allotment Date, the price at which you will be able to sell your New Shares, and their value, will be less than what you paid for them.

Letter to Shareholders

Dear Shareholder

S2R Resources Limited Share Purchase Plan Offer

On behalf of the Directors of S2R Resources Limited (**S2R** or the **Company**), I am pleased to offer you the opportunity to participate in the Company's SPP Offer. Under the SPP Offer, you can acquire up to \$30,000 worth of new fully paid ordinary shares in the Company (**New Shares**) at an issue price of \$0.072 per New Share (**Offer Price**), without paying any brokerage or transaction costs.

The Offer Price represents a discount of 15.3% to S2R's closing Share price on the ASX on Wednesday, 4 June 2025 (being the last day on which S2R Shares traded before the SPP Offer was announced) and a 19.6% discount to the volume weighted average price over the last five days on which Shares traded immediately prior to announcement of the SPP Offer.

Eligible shareholders who participate in the SPP are also entitled to one (1) free attaching unlisted option (**SPP Option**) for every two (2) New Shares subscribed for and issued under the SPP (**SPP Option Offer**). The SPP Options will each be exercisable at \$0.11 and will expire on 7 July 2027. Each SPP Option gives the holder the right to subscribe for one Share upon exercise. The SPP Option Offer is being made under a Prospectus that is being provided to eligible shareholders, and accompanies this document.

The Offer Price of New Shares offered under the SPP Offer is the same as the issue price of New Shares offered under the terms of the Company's placement to institutional, sophisticated and professional investors announced on Tuesday, 10 June 2025, which received binding commitments for approximately \$3.0 million (before costs) (**Placement**).

The Shares the subject of the Placement will be issued on 18 June 2025 utilising the Company's available placement capacity pursuant to ASX Listing Rule 7.1A.

S2R is seeking to raise up to a further \$0.5 million (before costs) under the SPP Offer, with the capacity to accept oversubscriptions. The Company reserves the right to close the SPP Offer early and/or to scale back applications on the basis set out in the Terms and Conditions accompanying this document. Any excess funds will be returned to applicants without interest.

As previously announced in conjunction with the Placement, the funds raised under the Placement and SPP will be used to fund gold and base metal exploration at the Company's projects in Australia, including the Glenlogan, Warraweena, West Murchison, Jillewarra and Fosterville projects, as well as for ongoing identification, assessment and realisation of pipeline projects and for general working capital purposes. Further details of the proposed use of funds are set out in the Company's announcement released to the ASX on Tuesday, 10 June 2025.

The SPP Offer will open on Wednesday, 18 June 2025 and will remain open until 5.00pm (AWST) on Tuesday, 1 July 2025 (unless varied or extended).

Participation in the SPP Offer is optional and is open to shareholders who were registered as holders of Shares at 5.00pm (AWST) on Friday, 6 June 2025 and whose registered address is in Australia (and its external territories) or New Zealand.

S2R's major Shareholders, Jupiter Asset Management Limited (Jupiter) and Paradise Investment Management Pty Ltd (Paradise) have participated in the Placement to maintain their current relevant interest in the Company through the Placement. Jupiter's and Paradise's shareholdings were 14.62% and 8.85% respectively, immediately prior to announcement of the Placement.

Full details of the SPP and SPP Option Offer, and how to participate, are contained in the Terms and Conditions and the Prospectus accompanying this document, which I encourage you to read and consider carefully. In particular, the Prospectus sets out the terms of issue of the SPP Options and describes the risks associated with an investment in the Company.

If you have any questions in relation to the SPP Offer, please contact Andrea Betti, the Company Secretary at admin@s2resources.com.au or call +61 8 6166 0240. You should consult your financial or other professional adviser when deciding whether or not to participate in the SPP Offer.

Thank you for your continued support of S2R.

Yours sincerely,

Frequently Asked Questions

This section provides a summary of the key aspects of the SPP Offer. You should read it in conjunction with the Terms and Conditions of the SPP Offer provided in the annexure to this document.

What is the SPP Offer?

This share purchase plan is a means by which Eligible Shareholders may subscribe for up to \$30,000 worth of New Shares without brokerage or other transaction costs (subject to any scale back, see further details below).

New Shares issued under the SPP Offer will rank equally with other Shares as at the date of issue, and will be able to be traded on ASX (subject to ASX granting quotation of the New Shares).

S2R is seeking to raise up to \$0.5 million (before costs) under the SPP Offer, with the capacity to accept oversubscriptions. S2R may decide to scale back applications under the SPP Offer on the basis set out in the Terms and Conditions. Any excess funds will be returned to applicants without interest.

Eligible shareholders who participate in the SPP Offer are also entitled to one (1) free attaching option (**SPP Option**) for every two (2) New Shares subscribed for and issued under the SPP Offer (**SPP Option Offer**). The SPP Options will be exercisable at \$0.11 and will expire on 7 July 2027. Each SPP Option gives the holder the right to subscribe for one (1) Share upon exercise

The SPP Option Offer is not being made under this document. The SPP Option Offer is being made under a Prospectus that is being provided to Eligible Shareholders, and accompanies this document.

What is the purpose of the SPP Offer?

The funds raised under the SPP Offer will be used to fund gold and base metal exploration at the Company's projects in Australia, including the Glenlogan, Warraweena, West Murchison, Jillewarra and Fosterville projects, as well as for ongoing identification, assessment and realisation of pipeline projects and for general working capital purposes.

Who is eligible to participate in the SPP Offer?

Shareholders with a registered address in either Australia (or its external territories) or New Zealand as at 5.00pm (AWST) on Friday, 6 June 2025 are eligible to participate in the SPP Offer, provided that such shareholder is not in the United States and is not, or is not acting for the account or benefit of, a person in the United States.

Do I have to participate in the SPP Offer?

No. Participation is voluntary.

Before making a decision whether or not to accept the SPP Offer, you should consult your financial or other professional adviser.

If you do not wish to participate in the SPP Offer, you do not need to do anything, and the SPP Offer will lapse at 5.00pm (AWST) on Tuesday 1 July 2025 (unless varied or extended).

Can a third party participate in the SPP Offer in my place?

No. The SPP Offer is non-renounceable and cannot be transferred.

How much can I invest under the SPP Offer?

The maximum investment under the SPP Offer is \$30,000. You may apply to purchase a parcel of \$1,000, \$2,500, \$5,000, \$7,500, \$10,000, \$15,000, \$20,000, \$25,000 or \$30,000 worth of New Shares.

If S2R receives an application for an amount of New Shares that is not equal to one of the above parcels, or a subscription of over \$30,000 worth of New Shares, by an Eligible Shareholder through multiple or joint holdings, S2R may either:

- reject the application and refund, in full, any application monies (without interest); or
- round down the dollar amount of New Shares that are applied for to the next lowest parcel, and refund the balance of any monies (without interest).

Is there an oversubscription or scale back policy?

S2R is seeking to raise up to a maximum of \$0.5 million under the SPP Offer. However, the Company may decide to accept applications (in whole or in part) that result in the SPP Offer raising more than that target amount at its absolute discretion, subject to the limits prescribed in the ASX Listing Rules.

In the event that the Company receives valid applications under the SPP Offer in excess of \$0.5 million, the Company reserves the right to:

- scale back the number of New Shares issued under the SPP Offer, or
- accept applications that raise more than this amount,

each in its absolute discretion.

If the Company undertakes a scale back of the number of New Shares that will be issued under the SPP Offer, it is the Company's intention that each applicant will generally be treated equally and scaled back pro rata based on the number of New Shares for which they have applied (subject to any minimum dollar allocation determined by the Company at its absolute discretion). However, when determining the amount (if any) by which to scale back a particular application, the Company may take into account a number of factors, including the size of an applicant's shareholding, the extent to which Eligible Shareholders have sold or bought additional shares after the Record Date, the date an application was made and any other factors that the Company considers relevant in its absolute discretion.

In the event of a scale back, you may be issued New Shares to a value that is less than the value of New Shares you applied for. The balance of any application money that is not applied to acquire New Shares will be refunded to you without interest.

How will refunds be made?

Any application money refunded by S2R will be paid by cheque or direct credit (the payment method will be determined by S2R in its absolute discretion) in Australian dollars.

By applying for New Shares, each shareholder authorises S2R to pay any monies to be refunded by either using the payment instructions of the shareholder recorded in the Share Registry's records, or via cheque if no details are recorded.

Refunds will be made as soon as practicable after the SPP Offer closing date.

What is the issue price of New Shares under the SPP Offer?

The Offer Price is \$0.072 per New Share, representing a discount of 15.3% to S2R's closing Share price on the ASX on Wednesday, 4 June 2025 (being the last day on which S2R Shares traded before the SPP Offer was announced), being \$0.0850.

The Offer Price also represents a 19.6% discount to the volume weighted average price of Shares traded over the last five days on which S2R Shares traded immediately prior to announcement of the SPP Offer, being \$0.0895.

The Offer Price was determined by the Company and agreed by the joint lead managers in connection with the Placement to institutional, sophisticated and professional investors announced on Tuesday, 10 June 2025 (**Placement**).

There is a risk that the market price of Shares may rise or fall between the date of this document and the time of issue of the New Shares under the SPP Offer. This means that the price you pay for the New Shares issued to you under the SPP Offer may be less than or exceed the market price of Shares on the Allotment Date.

Consequently, it is possible that, between the time you make your application and up to or after the Allotment Date, you may be able to buy Shares on market at a lower price than the Offer Price.

Accordingly, you should monitor S2R's announcements and its share price, which can be found on its website at <https://www.s2resources.com.au/> and on the ASX website at www.asx.com.au (ASX code: S2R).

You should be aware that your application, once made, is unconditional and cannot be withdrawn even if the market price of Shares is less than the Offer Price.

What is the SPP Option Offer?

The SPP Option Offer entitles Eligible Shareholders to be issued one (1) free attaching unlisted option for every two (2) New Shares (SPP Option) subscribed for and issued under the SPP Offer.

The application process allows you to apply for both New Shares (offered under this document) and SPP Options (offered under the Prospectus).

If you submit a BPAY®¹ payment, or pay by EFT, you appoint the Company and each of its directors as your attorney to sign all documents and to do all things required to be done in connection with the issue and allotment to you, of the number of SPP Options that you are entitled to.

It is expected that the SPP Options will be issued on or around Monday, 7 July 2025. If you do not wish to participate in the SPP Option Offer, you may notify the Company Secretary of your intention to admin@s2resources.com.au or on +61 8 6166 0240 any time prior to the closing date of the SPP Option Offer and no SPP Options will be issued to you.

How do I apply for New Shares under the SPP Offer?

If you wish to participate in the SPP Offer, please follow the instructions on the personalised Application Form which can be accessed by visiting the Offer Website at www.computersharecas.com.au/s2rspp2025. A copy of the Offer Booklet will also be available on the Offer Website and the Company's website, and you should read this carefully before deciding whether to participate in the SPP Offer.

You will need to do either of the following set out below.

Option 1

Pay via
BPAY®¹

Eligible Shareholders with a registered address in Australia should pay via BPAY®.

To pay via BPAY® you will need to:

- be an account holder with an Australian financial institution
- use the personalised BPAY® reference number shown on your Application Form; and
- ensure that your payment is received by the Share Registry before 5.00pm (AWST) on Tuesday 1 July 2025 (unless varied or extended).

You can only make payment via BPAY® if you are the holder of an account with an Australian branch of a financial institution that supports BPAY® transactions.

Please note that your financial institution may implement earlier cut-off times with regards to electronic payment. Please take this into consideration when making payment via BPAY®.

Option 2

Pay via EFT
(only for
Eligible
Shareholders
in New
Zealand)

Eligible Shareholders with a registered address in New Zealand who cannot pay via BPAY® can pay by electronic funds transfer.

To pay via electronic funds transfer (**EFT**) you will need to:

- follow the instructions on your Application Form; and
- ensure that your payment is received by the Share Registry before 5.00pm (AWST) on Tuesday 1 July 2025 (unless varied or extended).

If you are an Eligible Shareholder in New Zealand, you are encouraged to pay via EFT.

Please note that your financial institution may implement earlier cut-off times with regards to electronic payment. Please take this into consideration when making payment via EFT.

It is the Applicant's responsibility to ensure funds are submitted correctly by the closing date and time.

If you submit a BPAY® payment or make an EFT, you do not need to return your Application Form but you will be taken to have made the statements and certifications on the Application Form. However, Custodians must provide a custodian schedule to the Share Registry. Eligible Shareholders must use the unique Biller Code (in the case of BPAY®) and unique payment reference number shown on the Eligible Shareholder's personalised Application Form as their payment reference / description when processing their BPAY® or EFT payment. Failure to do so

may result in an Eligible Shareholder's funds not being allocated to their application and any New Shares and SPP Options applied for subsequently not being issued.

Eligible Shareholders who are not able to pay by BPAY® or EFT should contact the Company Secretary at admin@s2resources.com.au or on +61 8 6166 0240 for alternative payment options.

If you are a Custodian, please contact the Share Registry by email at custodians@computershare.com.au to obtain more information on how to apply and the form of certification to be given.

If you submit a BPAY® payment or pay by EFT, you certify that:

- you have not applied for, or instructed a Custodian to apply on your behalf for, New Shares with an application price which, when aggregated with the application price for any Shares issued to you or a Custodian on your behalf under the SPP Offer or any similar S2R arrangement in the 12 months prior to your application, exceeds \$30,000; or
- if you are a Custodian, you have not applied for New Shares on behalf of any beneficiary with an application price which, when aggregated with the application price for any Shares issued to you on behalf of that beneficiary under the SPP Offer or any similar S2R arrangement in the 12 months prior to your application, exceeds \$30,000.

The Application Form allows you to apply for both New Shares (offered under this document) and SPP Options (offered under the Prospectus).

Are there any other terms and conditions attached to the SPP Offer?

The terms and conditions relating to the SPP Offer are set out in full from page 11 of this document onwards. Please read the Terms and Conditions carefully, as you will be bound by them in participating in the SPP Offer. Shareholders accepting the SPP Offer will also be bound by the constitution of the Company.

What is the maximum investment for each shareholder?

The maximum investment for each shareholder is \$30,000. If you receive more than one offer (eg. due to multiple registered holdings), you may only apply for a parcel of New Shares with an aggregate value of \$30,000 across those offers. For example, you may apply for one maximum parcel of \$30,000 for one holding or, alternatively, apply for parcels of New Shares across multiple holdings so long as the aggregate total amount applied for across those holdings does not exceed \$30,000.

How many New Shares will I receive?

You may apply for a parcel of New Shares with one of the application amounts set out in **clause 6** of the Terms and Conditions.

In the absence of a scale back, the number of New Shares to be issued to you will be calculated by dividing your chosen application amount by the Offer Price, with any resulting fractions of a New Share being rounded down to the nearest whole number of Shares.

¹ © Registered to BPAY Pty Limited ABN 69 079 137 518. New Zealand based shareholders cannot apply using BPAY® unless they have an Australian bank account.

When will I receive my New Shares?	Subject to the Company varying the indicative timetable, New Shares will be allotted on the Allotment Date (Monday, 7 July 2025) and holding statements will be despatched on Wednesday, 9 July 2025.
---	---

When can I trade allocated New Shares?	You can trade your New Shares after the Allotment Date. However, given the possibility that applications may be scaled back, you should confirm your holding on or after the Allotment Date before trading any New Shares you believe you have acquired under the SPP Offer.
---	--

Is the SPP Offer underwritten?	<p>No, the SPP Offer is not underwritten.</p> <p>Subject to the ASX Listing Rules (including ASX Listing Rule 7.1), to the extent that there is a shortfall in the subscription of New Shares under the SPP Offer (Shortfall), the Directors reserve the right to issue the New Shares and attaching options that comprise the Shortfall at the same Offer Price and on the same terms to institutional, sophisticated and professional investors at their absolute discretion.</p>
---------------------------------------	--

What are the risks associated with the Company?	<p>There are a number of factors which may affect the development, future operation and financial performance and/or financial position of S2R, its prospects, and/or the value of the New Shares. Many of the circumstances giving rise to these risks are beyond the control of the Company, the Directors or its management. Some of the major risks associated with an investment in the Company are set out in the “Risk Factors” section of the Prospectus.</p> <p>There may be additional risks (including financial and taxation risks) that investors should consider in light of their own personal circumstances. Potential investors should consider an investment in New Shares as speculative and should consult their professional adviser before deciding whether to invest.</p> <p>You should be aware that your application, once made, is unconditional and may not be withdrawn even if the market price of Shares is less than the Offer Price.</p>

It is the responsibility of the applicant to ensure that funds submitted through BPAY® or EFT are received in time. Application Forms do not need to be returned when paying via BPAY® or EFT.

- 6.6. Cash and cheque payment will not be accepted. Receipts for payment will not be issued.
- 6.7. Funds paid via BPAY® or EFT must be received by the Share Registry by 5.00pm (AWST) on Tuesday 1 July 2025 (unless that date is varied or extended). S2R reserves the right, but is not obligated, to accept applications for New Shares that are received after that time. If your payment does not clear, your application will not be accepted and you agree to be responsible for any dishonour fees or other costs incurred.
- 6.8. If your Application Form is incomplete, contains errors or is otherwise invalid or defective, S2R may, in its sole discretion, accept, reject, correct or amend your application, issue such number of New Shares to you as it considers appropriate, refund your application money, or take any combination of these actions. Any necessary refund will be paid to you as soon as practicable after the close of the SPP Offer. No interest will be paid on any refunded money.
- 6.9. You cannot withdraw or revoke your application once you have paid via BPAY® or EFT.

7. SPP Option Offer

- 7.1. Eligible Shareholders who participate in the SPP Offer are also entitled to one (1) free attaching unlisted option (**SPP Option**) for every two (2) New Shares subscribed for and issued under the SPP Offer (**SPP Option Offer**). The SPP Options will be exercisable at \$0.11 and will expire on 7 July 2027. Each SPP Option gives the holder the right to subscribe for one (1) new Share in the Company upon exercise. The SPP Options will not be quoted on ASX.
- 7.2. In the event of a scale-back under the SPP Offer, the number of SPP Options to be issued to you will be scaled-back in the same proportion as the number of New Shares applied for is scaled-back (so that the number of SPP Options issued to you will be 50% of the number of New Shares issued to you under the SPP Offer).
- 7.3. The SPP Option Offer is not being made under this document. The SPP Option Offer is being made under a Prospectus that is being provided to Eligible Shareholders, and accompanies this document.

- 7.4. If you submit a BPAY® payment, or pay by EFT, you appoint the Company and each of its directors as your attorney to sign all documents and to do all things required to be done in connection with the issue and allotment to you, of the number of SPP Options that you are entitled to.
- 7.5. It is expected that the SPP Options will be issued on or around Monday, 7 July 2025. If you do not wish to participate in the SPP Option Offer, you may notify the Company Secretary of your intention on +61 8 6166 0240 at any time prior to the closing date of the SPP Option Offer and no SPP Options will be issued to you.

8. Effect of making an application

8.1. If you submit a BPAY® payment or pay by EFT:

- (a) you will be deemed to have represented and warranted that you are an Eligible Shareholder and are eligible to participate in the SPP Offer, you have read and understood these Terms and Conditions and you subscribe for New Shares subject to and in accordance with these Terms and Conditions;
- (b) you acknowledge the risk that the market price of Shares may rise or fall between the date of the SPP Offer and the Allotment Date and that the Offer Price you pay for the New Shares may exceed or be less than the market price of the Shares on the Allotment Date;
- (c) you agree that your application will be irrevocable and unconditional (that is, it cannot be withdrawn even if the market price of Shares is less than the Offer Price);
- (d) you accept the risk associated with any refund that may be despatched to you at your address as shown on the Share register;
- (e) if your payment does not clear, you acknowledge that your application will not be accepted and you agree to be responsible for any dishonour fees or other costs incurred;
- (f) you acknowledge that the New Shares have not been, and will not be, registered under the US Securities Act or the securities laws of any state or other jurisdictions in the United States, and accordingly, the New Shares purchased under the SPP Offer may not be offered, sold or otherwise transferred except in accordance with an available exemption from, or in a transaction not subject to, the registration requirements of the US Securities Act and any other applicable US state securities laws;
- (g) you represent and warrant that you are not a person in the United States, and are not applying under the SPP Offer for or on behalf of a person in the United States;
- (h) you represent and warrant that you have not sent and will not send any materials relating to the SPP Offer to any person: (i) in the United States or that is acting for the account or benefit of a person in the United States; or (ii) outside Australia (and its external territories) and New Zealand;
- (i) you acknowledge that you have not been provided with investment advice or financial product advice by S2R or the Share Registry;
- (j) if you are acting as a nominee or custodian, each beneficial holder on whose behalf you are making an application is resident in Australia (or its external territories) or New Zealand, and you have not sent and will not send, this document or any information related to the SPP Offer to any person in the United

States or elsewhere outside Australia (and its external territories) and New Zealand; and

- (k) you certify that you have not applied for, or instructed a Custodian to apply on your behalf for, New Shares with an application price which, when aggregated with the application price for any Shares issued to you or a Custodian on your behalf under the SPP Offer or any similar S2R arrangement in the 12 months prior to your application, exceeds \$30,000. This certification by one joint holder of Shares will be effective in respect of the other joint holder(s).

8.2. If you are a Custodian, you certify:

- (a) that, as at the Record Date, you hold Shares on behalf of one or more beneficiaries (directly or indirectly) who are resident in Australia (and its external territories) or New Zealand, and that those beneficiaries have been provided with a copy of this document and instructed you (or an interposed Custodian on their behalf) to apply for New Shares;
- (b) details of the number of beneficiaries who have instructed you (or an interposed Custodian on their behalf) to apply for New Shares on their behalf, their names and addresses, the number of Shares you hold on their behalf (directly or indirectly) and the number (or dollar amount) of New Shares they have instructed you (or an interposed Custodian on their behalf) to apply for are correct;
- (c) if you hold Shares on behalf of a beneficiary indirectly through one or more interposed Custodians, that the details of the names and addresses of each interposed Custodian are correct;
- (d) you have not applied for New Shares on behalf of any beneficiary with an application price which, when aggregated with the application price for any Shares issued to you on behalf of that beneficiary under the SPP Offer or any similar S2R arrangement in the 12 months prior to your application, exceeds \$30,000; and
- (e) that you:
 - (i) hold an Australian financial services licence that covers the provision of a custodial or depositary service (within the meaning given by section 766E of the Corporations Act) or covers the operation of an IDPS (as defined in the Instrument); or
 - (ii) do not hold an Australian financial services licence for the provision of a custodial or depositary service as described in the Instrument and are exempt from the requirement to hold such a licence; or
 - (iii) otherwise meet the definition of Custodian in the Instrument.

8.3. Custodians wishing to participate on behalf of one or more beneficiaries should contact the Share Registry by email at custodians@computershare.com.au to obtain more information on how to apply and the form of certification to be given. The completed certification must be emailed to custodians@computershare.com.au

8.4. Please note that if you hold Shares in the capacity of a trustee or a nominee for another person but you do not meet the definition of Custodian in the Instrument, you cannot participate for beneficiaries in the manner outlined in **clause 8.2** above. In this case, the rules for multiple registered holdings as described in **clause 2.3** apply.

9. Rights attached to the New Shares

New Shares issued under the SPP Offer will rank equally with existing Shares and will carry the same voting rights, dividend rights and other entitlements as at the Allotment Date. S2R will apply for the New Shares to be quoted on ASX.

10. Costs of participation

No brokerage, commissions or other transaction costs will be payable by Eligible Shareholders in respect of the application for, and allotment of, New Shares under the SPP Offer.

11. Oversubscriptions and scale backs

- 11.1. S2R is seeking to raise up to a maximum \$0.5 million under the SPP Offer. However, the Company may decide to accept applications (in whole or in part) that result in the SPP Offer raising more than that target amount at its absolute discretion, subject to the limits prescribed in the ASX Listing Rules.
- 11.2. In the event S2R receives valid applications under the SPP Offer in excess of \$0.5 million, S2R reserves the right to scale back your entitlement to acquire New Shares under the SPP Offer. If this occurs, excess funds will be returned to applicants without interest.
- 11.3. S2R also reserves the right to accept applications that raise more than this amount in its absolute discretion.
- 11.4. To the extent S2R determines to scale back the number of New Shares that will be issued under the SPP Offer, it is S2R's intention that each applicant will generally be treated equally and scaled back pro rata based on the number of New Shares for which they have applied (subject to any minimum dollar allocation determined by S2R in its absolute discretion). However, when determining the amount (if any) by which to scale back a particular application, S2R may take into account a number of factors, including the size of an applicant's shareholding, the extent to which Eligible Shareholders have sold or bought additional shares after the Record Date, the date an application was made and any other factors S2R considers relevant in its absolute discretion.
- 11.5. If the scale back produces a fractional number of New Shares when applied to your parcel, the number of New Shares you will be allocated will be rounded down to the nearest whole number of New Shares.
- 11.6. If there is a scale back, you may receive less than the parcel of New Shares for which you have applied.

12. Refunds

- 12.1. Refunds under the SPP Offer may be paid under various circumstances. For example, if applications are made incorrectly, the entire payment may be refunded, or if allocations are scaled back, a partial refund may be made.
- 12.2. If a refund is made, payment will be made to you, as soon as is practicable after the SPP Offer closes:
 - (a) by direct credit to your nominated account (as recorded on the Share register); or
 - (b) by cheque mailed to your address as shown on the Share register.
- 12.3. You will not receive any interest on funds refunded to you.
- 12.4. Any refund made to you is despatched at your risk.

13. United States

- 13.1. Participation in the SPP Offer is not being offered, directly or indirectly, in the United States or to any person that is, or is acting for the account or benefit of, a person in the United States. This document and any related offering documents must not be mailed or otherwise transmitted or distributed in or into the United States or to any person that is, or is acting for the account or benefit of, a person in the United States. Participation in the SPP Offer, directly or indirectly, in violation of these restrictions is not permitted, and any such participation will be invalid.
- 13.2. This document is not an offer of securities for sale in the United States or to any person that is, or is acting for the account or benefit of, a person in the United States. The New Shares, SPP Options and any shares that may be required to be issued upon the exercise of SPP Options, have not been, and will not be, registered under the US Securities Act and may not be offered, sold or delivered, directly or indirectly, in the United States, except in accordance with an available exemption from, or in a transaction not subject to, the registration requirements of the US Securities Act and any other applicable US state securities law.
- 13.3. Because of the legal restrictions summarised above, you must not send copies of any Offer materials to any of your clients (or any other person) in the United States or to any person that is, or is acting for the account or benefit of, a person in the United States. Consistent with the warranties set out above, you are also advised not to submit any Application Form or make payment by BPAY® or EFT or otherwise in respect of the purchase of New Shares under the SPP Offer on behalf of any of your clients (or any other person) in the United States or that is, or is acting for the account or benefit of, a person in the United States. Failure to comply with these restrictions may result in violations of applicable securities laws.

14. New Zealand

- 14.1. The New Shares are not being offered or sold to the public within New Zealand other than to existing shareholders of S2R with registered addresses in New Zealand to whom the offer of New Shares is being made in reliance on the Financial Markets Conduct (Incidental Offers) Exemption Notice 2021. In addition, for shareholders who subscribe for New Shares, the Company will issue SPP Options for no consideration.

15. Dispute resolution

S2R's decision will be conclusive and binding on all shareholders and other persons to whom the determination relates.

16. Waiver, amendment, suspension and termination

- 16.1. S2R may, in its discretion, waive compliance with any provision of these Terms and Conditions, amend or vary these Terms and Conditions, suspend, withdraw or terminate the SPP Offer or close the SPP Offer early at any time. Any such waiver, amendment,

variation, suspension, withdrawal, termination or early closure will be binding on all Eligible Shareholders even where S2R does not notify you of the event.

16.2. S2R is not liable for loss, cost or expense arising out of any exercise of its discretions under these Terms and Conditions.

17. ASIC relief

17.1. The SPP Offer is made in accordance with the Instrument. The Instrument grants relief from the requirement to prepare a prospectus for the offer of New Shares up to \$30,000 under the SPP Offer, subject to certain terms and conditions.

17.2. In accordance with the terms of the Instrument, S2R has given a notice to ASX that complies with the Instrument.

2.6 Key risks

The grant of Options pursuant to this document are granted for nil consideration. Participants are not obliged to either make payment for the grant of Options or to ultimately exercise the Options granted to them.

There are a number of factors which may affect the development, future operation and financial performance and/or financial position of the Company, its prospects, and/or the value of Shares and Options. Section 4 of this Options Prospectus sets out a non-exhaustive list of risks which the Directors regard as the major risks associated with an investment in the Company.

Potential investors should consider that any investment is speculative and should consult their professional advisers before deciding whether to apply for Options pursuant to this Options Prospectus.

Canada (Ontario, Quebec and British Columbia provinces only)

filed in the Provinces with respect to the offering of Options or the resale of such securities. Any person in the Provinces lawfully participating in the offer will not receive the information, legal rights or protections that would be afforded had a prospectus been filed and receipted by the securities regulator in the applicable Province. Furthermore, any resale of the Options in the Provinces must be made in accordance with applicable Canadian securities laws. While such resale restrictions generally do not apply to a first trade in a security of a foreign, non-Canadian reporting issuer that is made through an exchange or market outside Canada, Canadian purchasers should seek legal advice prior to any resale of the Options.

The Company as well as its directors and officers may be located outside Canada and, as a result, it may not be possible for purchasers to effect service of process within Canada upon the Company or its directors or officers. All or a substantial portion of the assets of the Company and such persons may be located outside Canada and, as a result, it may not be possible to satisfy a judgment against the Company or such persons in Canada or to enforce a judgment obtained in Canadian courts against the Company or such persons outside Canada.

Statutory rights of action for damages and rescission. Securities legislation in certain Provinces may provide a purchaser with remedies for rescission or damages if an offering memorandum contains a misrepresentation, provided the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's Province. A purchaser may refer to any applicable provision of the securities legislation of the purchaser's Province for particulars of these rights or consult with a legal adviser.

Certain Canadian income tax considerations. Prospective purchasers of the Options should consult their own tax adviser with respect to any taxes payable in connection with the acquisition, holding or disposition of the Options as there are Canadian tax implications for investors in the Provinces.

Language of documents in Canada. Upon receipt of this document, each investor in Canada hereby confirms that it has expressly requested that all documents evidencing or relating in any way to the sale of the Options (including for greater certainty any purchase confirmation or any notice) be drawn up in the English language only. *Par la réception de ce document, chaque investisseur canadien confirme par les présentes qu'il a expressément exigé que tous les documents faisant foi ou se rapportant de quelque manière que ce soit à la vente des valeurs mobilières décrites aux présentes (incluant, pour plus de certitude, toute confirmation d'achat ou tout avis) soient rédigés en anglais seulement.*

2.9 Enquiries

Any questions concerning the Offers should be directed to Andrea Betti, Company Secretary, at admin@s2resources.com.au or on +61 8 6166 0240.

3 EFFECT OF THE OFFERS

3.1 Effect on capital structure

The principal effect of the Offers, assuming \$0.5 million (before costs) is raised under the SPP, will be to issue up to approximately 23,541,667 Options (subject to rounding).

One (1) Option will be offered for every two (2) Shares issued under the SPP and the Placement. The final number of Shares issued under the SPP (and hence the final number of Options) will depend on the level of applications received and accepted under the SPP.

The effect of the Offers on the Company's capital structure is set out below (assuming \$0.5 million (before costs) is raised under the SPP and no other options are exercised):

Class	Shares	Options
Currently on issue ^{1, 3}	492,996,882 ¹	45,250,000 ³
Shares to be issued pursuant to SPP ²	6,944,444	-
Options to be issued pursuant to SPP Option Offer	-	3,472,222 ⁵
Options to be issued pursuant to Options Offer	-	20,069,445 ⁴

Diluted capital position	523,482,993⁴	45,250,000⁴

1 Includes Shares issued under the Placement announced by the Company on 10 June 2025 but excludes the 1,527,778 Shares yet to be issued under the Placement that remain subject to Shareholder approval at the General Meeting.

2 Assumes the Company raises \$0.5 million (before costs) under the SPP, including via the placement of any SPP Shortfall.

3 The Options currently on issue are each exercisable into one Share and comprise:

- 10,300,000 options expiring 11 November 2025 exercisable at \$0.29;
- 300,000 options expiring 18 April 2026 exercisable at \$0.25;

- 200,000 options expiring 27 April 2026 exercisable at \$0.23;
 - 8,100,000 options expiring 21 October 2026 exercisable at \$0.20;
 - 13,350,000 options expiring 8 September 2027 exercisable at \$0.25; and
 - 13,000,000 options expiring 1 July 2028 exercisable at \$0.135.
- 4 Excludes the remaining 763,888 Options to be issued to Directors under the Placement subject to the receipt of Shareholder approval at the General Meeting.
- 5 Subject to rounding.

3.2 Effect on control of the Company

The Offers will not have a material impact on the control (as defined in section 50AA of the Corporations Act) of the Company. No investor or existing Shareholder will have voting power (as defined in the Corporations Act) of greater than 20% as a result of the completion of the Offers.

Assuming the Company raises \$0.5 million (before costs) under the SPP, the Company will issue approximately 3,472,222 Options (subject to rounding). If all of these Options and the Options under the Options Offer are exercised, the Shares issued on exercise will represent approximately 4.71% of the Shares on issue following completion of the Offers (assuming no other Shares are issued).

3.3 Ownership structure

Based on publicly available information as at the date of this Options Prospectus, assuming the Company raises \$0.5 million (before costs) under the SPP, those persons who (together with their associates) will have a relevant interest in 5% or more of the Shares on issue are set out below:

Shareholder ¹	Shares ^{2, 3}	%
Mark Creasy/Yandal Investments Pty Ltd	67,419,935	13.49%
Jupiter Asset Management Limited	72,270,320	14.46%
Paradice Investment Management Pty Ltd	43,764,895	8.75%

- 1 The table above does not include options held.
- 2 Assuming completion of the Offers and no acquisitions or disposals of Shares from the date of this Options Prospectus until completion.
- 3 The table above includes the 6,083,333 Shares that Jupiter Asset Management Limited has agreed to subscribe for pursuant to the Placement and includes the 3,687,463 Shares that Paradice Investment Management Pty Ltd has agreed to subscribe for pursuant to the Placement.

3.4 Financial impact of the Offers

No funds are being raised from the grant of Options. Accordingly, the issue of the Options pursuant to the Offers will not have a material impact on the Company's current financial position. However, if all Options granted pursuant to this Options Prospectus are exercised, the Company will receive approximately \$2.6 million in additional funds.

A pro-forma statement of financial position of the Company showing the financial effect of the Offers has not been included in this Options Prospectus.

The Company will assess the use of funds raised from the exercise of Options at the relevant time, which may include using such funds for the exploration at the Company's projects, general working capital and corporate purposes.

The Company has incurred expenses in conducting the Offers. Please see Section 5.9 for more detail in respect of these expenses.

3.5 The amount raised under the SPP may vary

As announced on 10 June 2025, the Company is seeking to raise approximately \$0.5 million (before costs) under the SPP.

The Company has assumed that the SPP will raise \$0.5 million (before costs). The amount raised under the SPP may be less (due to there being a shortfall) than \$0.5 million. In the event that less than \$0.5 million is applied for under the SPP the Company may, at its absolute discretion, seek to place that number of Shares and attaching options equivalent to the SPP Shortfall at the same issue price and same terms to raise A\$0.5 million (before costs), subject to compliance with the Corporations Act and ASX Listing Rules.

The SPP is not underwritten.

4 RISK FACTORS

4.1 Introduction

The Options offered under this Options Prospectus (and the underlying Shares into which those Options are convertible into) are considered highly speculative. An investment in the Company is not risk free and the Directors strongly recommend that potential investors consider the risk factors described below, together with information contained elsewhere in this Options Prospectus and to consult their professional advisers before deciding whether to apply for Options pursuant to this Options Prospectus.

The Options offered under this Options Prospectus, and the Shares to be issued pursuant to the exercise of those Options, carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those Options or Shares.

There are specific risks which relate directly to the Company's business. In addition, there are other general risks, many of which are largely beyond the control of the Company and the Directors. The risks identified in this Section, or other risk factors, may have a material impact on the financial performance of the Company and the value and market price of Options and the underlying Shares.

The following is not intended to be an exhaustive list of the risk factors to which the Company is exposed.

4.2 Company-specific risks

4.2.1 Key Personnel

In formulating its exploration programs, the Group relies to a significant extent upon the experience and expertise of the directors and management. A number of key personnel are important to attaining the business goals of the Group. One or more of these key employees could leave their employment, and this may adversely affect the ability of the Group to conduct its business and, accordingly, affect the financial performance of the Group and its share price. Recruiting and retaining qualified personnel is important to the Group's success.

4.2.2 Future Capital Raisings

The Group's ongoing activities may require substantial further financing in the future. Any additional equity financing may be dilutive to shareholders and may be undertaken

at lower prices than the current market price. Although the Directors believe that additional capital can be obtained, no assurances can be made that appropriate capital or funding, if and when needed, will be available on terms favourable to the Company or at all. If the Group is unable to obtain additional financing as needed, it may be required to reduce, delay or suspend its operations and this could have a material adverse effect on the Group's activities and could affect the Group's ability to continue as a going concern.

4.2.3 Exploration Risk

The success of the Group depends on the delineation of potentially economic mineral resources, securing and maintaining title to the Group's exploration and mining tenements, meeting joint venture earn-in commitments and obtaining all consents and approvals necessary for the conduct of its exploration activities. Exploration on the Group's existing tenements may be unsuccessful, resulting in a reduction in the value of those tenements, diminution in the cash reserves of the Group and possible relinquishment of the tenements. The exploration costs of the Group are based on certain assumptions with respect to the method and timing of exploration. By their nature, these estimates and assumptions are subject to significant uncertainties and, accordingly, the actual costs may materially differ from these estimates and assumptions.

Accordingly, no assurance can be given that the cost estimates and the underlying assumptions will be realised in practice, which may materially and adversely affect the Group's viability. If the level of operating expenditure required is higher than expected, the financial position of the Group may be adversely affected. The Group may also experience unexpected shortages or increases in the costs of consumables, spare parts, plant and equipment.

4.2.4 Title Risk

All licenses are subject to compliance with certain requirements, including but not limited to meeting the minimum exploration work commitments, lodgement of reports, payment of rent and compliance with environmental conditions and environmental legislation, and government policies. Consequently, the Group could lose title to or its interest in any of the licences to any of its assets/projects if these requirements are not met.

4.2.5 Land Access Risk

Land access is critical for exploration and exploitation to succeed. Having the Title, or Licence, to the Mineral Rights does not necessarily provide the right of surface access to pursue those rights. In the case of freehold land, leasehold land and crown land, the Company may be required to negotiate access rights with the holders of such land, and the Company's rights to obtain access vary from state to state. The Company may not be successful in acquiring or obtaining the necessary approvals or agreements to access the surface in order to conduct exploration or evaluation activities. Furthermore, having Mineral Rights under the auspices of an exploration Licence is no guarantee of the Company being able to obtain all Licences (eg, Mining Leases) and other permits and approvals for mining activities to proceed

4.2.6 Native Title, First Nations and Aboriginal Heritage Risk

Access to land for exploration purposes can be adversely affected by the rights of traditional owners, including but not limited to native title claims under the Native

Title Act 1993 (Cth) (NTA) (or similar legislation in the jurisdiction where the Group operates). The effect of the NTA is that existing and new tenements held by the Group may be affected by native title claims and procedures, and the Company may be required to enter into agreements with traditional owners. The Company may not be successful in acquiring or obtaining the necessary approvals or agreements with traditional owners in order to obtain Mineral Rights via statutory heritage-related agreements and/or other prerequisites required for the grant of exploration Licence applications. Furthermore, having Mineral Rights under the auspices of an exploration Licence is no guarantee of the Company being able to obtain all Licences (eg, Mining Leases) and other permits and approvals for mining activities to proceed

4.2.7 Feasibility and Development Risks

It may not always be possible for the Group to exploit successful discoveries which may be made in areas in which the Group has an interest. Such exploitation would involve obtaining the necessary licences or clearances from relevant authorities that may require conditions to be satisfied and/or the exercise of discretions by such authorities. It may or may not be possible for such conditions to be satisfied. Further, the decision to proceed to further exploitation may require participation of other companies whose interests and objectives may not be the same as the Group's. In the event of the discovery of potentially economic mineral resources, there is a risk that a feasibility study and associated technical works will not achieve the results expected. There is also a risk that, even if a positive feasibility study is produced, the project may not be successfully developed for commercial or financial reasons.

4.2.8 Regulatory Risk

The Group's operations are subject to various Commonwealth, State and Territory and local laws and plans, including those relating to mining, prospecting, development permit and licence requirements, industrial relations, environment, land use, land access, royalties, water, native title and cultural heritage, mine safety and occupational health. Approvals, licences and permits required to comply with such rules are subject to the discretion of the applicable government officials. No assurance can be given that the Group will be successful in maintaining such authorisations in full force and effect without modification or revocation.

To the extent such approvals are required and not retained or obtained in a timely manner or at all, the Group may be curtailed or prohibited from continuing or proceeding with exploration. The Group's business and results of operations could be adversely affected if applications lodged for exploration licences are not granted. Mining and exploration tenements are subject to periodic renewal. The renewal of the term of a granted tenement may also be subject to the discretion of the relevant Minister. Renewal conditions may include increased expenditure and work commitments or compulsory relinquishment of areas of the tenements comprising the Group's projects. The imposition of new conditions or the inability to meet those conditions may adversely affect the operations, financial position and/or performance of the Group.

4.2.9 Environmental Risk

The operations and activities of the Group are subject to the environmental laws and regulations of Australia. As with most exploration projects and mining operations, there is potential for the Group's operations and activities to have an impact on the environment, particularly if mine development proceeds. The Group attempts to conduct its operations and activities to the highest standard of environmental obligation, including compliance with all environmental laws and regulations. The Group is unable

to predict the effect of additional environmental laws and regulations which may be adopted in the future, including whether any such laws or regulations would materially increase the Group's cost of doing business or affect its operations in any area. However, there can be no assurances that new environmental laws, regulations or stricter enforcement policies, once implemented, will not oblige the Group to incur significant expenses and undertake significant investments which could have a material adverse effect on the Group's business, financial condition and performance.

4.2.10 Climate Change Risk

We are an exploration company however we acknowledge that the operations and activities of the Group are subject to changes to local or international compliance regulations related to climate change mitigation efforts, specific taxation or penalties for carbon emissions or environmental damage, and other possible restraints on industry that may further impact the Group and its profitability. While the Group will endeavour to manage these risks and limit any consequential impacts, there can be no guarantee that the Group will not be impacted by these occurrences. Climate change may also cause certain physical and environmental risks that cannot be predicted by the Group, including events such as increased severity of weather patterns, incidence of extreme weather events and longer-term physical risks such as shifting climate pattern.

4.2.11 Macro-Economic Risk

The operations and activities of the Group are exposed to a number of global external factors, including macroeconomic risks affecting profitability and business continuity, increasing interest rates, significant fluctuations in foreign exchange, changes in commodity prices and ability to raise equity funding. While the Group has limited direct controls over these issues, continued oversight is essential to ensuring the ongoing operations and activities of the Group.

4.2.12 New Projects, Acquisitions and Disposals

The Company has to date and continues to assess existing and other new business opportunities. These new business opportunities may take the form of direct project acquisitions, joint ventures, farm-ins, acquisition of tenements/permits, direct equity participation, or divestment, via sale, farmout or relinquishment.

The acquisition of projects or other assets (whether completed or not) may require the payment of monies (as a deposit and/or exclusivity fee) after only limited due diligence and prior to the completion of comprehensive due diligence. There can be no guarantee that any proposed acquisition will be completed or successful. If the proposed acquisition is not completed, monies already advanced may not be recoverable, which may have a material adverse effect on the Company.

The Company continues to review its portfolio of projects and if appropriate from time to time will divest projects, via sale, farmout or relinquishment. Such divestments will be based on commercial and business considerations and be made on the basis of the judgement of the Board and Management, or recommended in the event that shareholder approval is deemed to be required by the ASX.

If a transaction is completed, the Directors will need to reassess, at that time, the funding allocated to current projects and new projects or assets, which may result in the Company reallocating funds from or to other projects and/or the raising of additional capital (if applicable and available). Furthermore, notwithstanding that an acquisition may proceed upon the completion of due diligence, the usual risks associated with the new project/business activities will remain.

Furthermore, if a new investment, acquisition or divestment by the Company is completed, ASX may require the Company to seek Shareholder approval and/or to meet the admission requirements under Chapters 1 and 2 of the Listing Rules as if the Company were a new listing, which would require the Company to incur material costs and effort in achieving re-listing.

Any new project, business acquisition or divestment of an existing project, may change the risk profile of the Company, particularly if the new project is located in another jurisdiction, involving a new commodity and/or changes to the Company's capital/funding requirements. Should the Company propose or complete the acquisition of a new project or business activity, or divest an existing project, investors should re-assess their investment in the Company in light of this change.

4.2.13 Taxation

The acquisition and disposal of Options and underlying Shares may have tax consequences, which will differ depending on the individual financial affairs of each investor. All prospective investors in the Company are urged to obtain independent financial advice about the consequences of acquiring Options and underlying Shares from a taxation viewpoint and generally.

To the maximum extent permitted by law, the Company, its officers and each of their respective advisors accept no liability and responsibility with respect to the taxation consequences of subscribing for Options or underlying Shares.

4.3. General investment risks

4.3.1. General Economic and Political Risks

Changes in the general economic and political climate in the jurisdictions in which the S2R Group and its assets are located, or on a global basis, could impact on economic growth, commodity prices, interest rates, the rate of inflation, taxation and tariff laws and domestic security, which may affect the value and viability of any mining activity that may be conducted by the Group.

The operating and financial position of the Group is influenced by a range of general domestic and global economic and business conditions that are outside the control of the Group. These conditions may include, but are not limited to, political movements, stock market movements, interest rates, industrial disruption, environmental impacts, natural disasters, taxation changes and legislative or regulatory changes. A prolonged deterioration in market, business or economic conditions may potentially have an adverse impact on the Group and its operations.

4.3.2 Investment in capital markets

As with all stock market investments, there are risks associated with an investment in the Company. Securities listed on stock markets, and in particular securities of mining and exploration companies, have experienced extreme price and volume fluctuations that have often been unrelated to the operating performances of such companies. These factors may materially affect the market price of Options and Shares regardless of the Company's performance.

4.3.3 Legislative

Changes in relevant taxes, legal and administrative regimes, accounting practice and government policies may adversely affect the financial performance of the Group.

5 ADDITIONAL INFORMATION

5.1 Litigation

As at the date of this Options Prospectus, the Company is not involved in any legal proceedings and the Directors are not aware of any legal proceedings pending or threatened against the Company.

5.2 ASIC instrument

The Offers are made pursuant to *ASIC Corporations (Exposure Period) Instrument 2016/74* which exempts the Company from complying with section 727(3) of the Corporations Act, to the extent that that section prohibits the Company from issuing the Options in the seven-day period after the date of lodgement of the Options Prospectus with ASIC.

5.3 Continuous disclosure obligations

The Company is a “disclosing entity” (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. ASIC has not made a determination which would prevent the Company from relying on section 713 of the Corporations Act in issuing the Options under this Options Prospectus.

Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Company’s securities.

This Options Prospectus is a “transaction specific prospectus”. In general terms, a “transaction specific prospectus” is only required to contain information in relation to the effect of the issue of securities on a company and the rights attaching to the securities. It is not necessary to include general information in relation to all of the assets and liabilities, financial position, profits and losses or prospects of the issuing company.

This Options Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquiries as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the period from lodgement of the Company’s annual financial report for the financial year ended 30 June 2024 to the issue of this Options Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Information that is already in the public domain has not been reported in this Options Prospectus other than that which is considered necessary to make this Options Prospectus complete.

The Company, as a disclosing entity under the Corporations Act, states that:

- (a) it is subject to regular reporting and disclosure obligations;
- (b) copies of documents lodged with ASIC in relation to the Company may be obtained from, or inspected at, the offices of ASIC; and

- (c) it will provide a copy of each of the following documents, free of charge, to any person on request between the date of issue of this Options Prospectus and the Closing Date of the Offers:
- (i) the Company's annual financial report for the year ended 30 June 2024, being the annual financial report most recently lodged by the Company with ASIC;
 - (ii) any half-year financial report lodged by the Company with ASIC after the lodgement of the annual financial report referred to in Section 5.3(c)(i) and before lodgement of this Options Prospectus with the ASIC; and
 - (iii) any continuous disclosure documents given by the Company to ASX after the lodgement of the annual financial report referred to in Section 5.3 (c)(i) and before the lodgement of this Options Prospectus with ASIC.

Copies of all documents lodged with the ASIC in relation to the Company are available, free of charge, at the registered office of the Company during normal office hours.

Details of documents lodged by the Company with ASX since 24 October 2024 (being the date of lodgement of the Company's most recent annual financial report referred to in Section 5.3 (c)(i) and before the lodgement of this Options Prospectus with ASIC) are set out in the table below.

SCHEDULE 1 - RIGHTS ATTACHING TO SECURITIES

1 TERMS AND CONDITIONS OF OPTIONS

(a) Entitlement

All Shares issued upon the exercise of the Options will rank equally in all respects with the Company's then existing Shares.

(b) Exercise Price

The Options are exercisable at \$0.11 each (**Exercise Price**).

Each Option shall entitle the holder to acquire one (1) Share upon payment of the Exercise Price to the Company.

(c) Exercise of Options

The Options may be exercised at any time prior to the 7 July 2027 (**Expiry Date**) in whole or in part, by completing and delivering a duly completed form of notice of exercise to the registered office of the Company together with the payment of the exercise price in immediately available funds for the number of Shares in respect of which the Options are exercised.

An Option not exercised on or before the Expiry Date will lapse.

Shares allotted and issued pursuant to the exercise of the Options will be allotted and issued, and a holding statement or share certificate provided to the holders of Options in respect of those Shares, on the above terms and conditions not more than ten Business Days after the receipt of a duly completed form of notice of exercise and the exercise amount in immediately available funds in Australian dollars in respect of the Options exercised.

(g) Bonus issue

If, from time to time, before the expiry of the Options the Company makes a pro-rata issue of Shares to shareholders for no consideration, the number of Shares over which an Option is exercisable will be increased by the number of Shares

which the holder would have received if the Option had been exercised before the date for calculating entitlements to the pro-rata issue.

(h) Pro-rata issue

If the Company makes a pro-rata issue of securities (except a bonus issue) to shareholders (other than an issue in lieu or in satisfaction of dividends or by way of a dividend reinvestment) the Exercise Price of an Option shall be reduced according to the following formula and in accordance with the Listing Rules:

where:

$$O' = O - (E(P - (S + D))) / (N + 1)$$

- O' = the new exercise price for an Option
- O = the old exercise price for an Option
- E = the number of underlying securities into which an Option is exercisable

- S = the subscription price for a security under the pro-rata issue
- D = the dividend due but not yet paid on the existing underlying securities (except those to be issued under the pro-rata issue)

- (b) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and

- (c) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote for every fully paid share and, in respect of each partly paid share held, has a fraction of a vote equal to the proportion which the amount paid bears to the total issue price of the share (excluding amounts paid in advance of a call or credited without payment in money or money's worth).

(c) Dividend rights

Subject to the Corporations Act, Listing Rules and the Constitution, the Directors may determine or declare that a dividend (whether interim, final or otherwise) is payable.

Subject to the terms on which Shares (or any class of shares) are issued, all dividends will be payable equally on all shares, save and except that a partly paid share confers an entitlement on the holder only to that proportion of the dividend that the amount actually paid (not credited as paid) on that share bears to the total amounts paid and payable on the shares.

Interest is not payable on a dividend.

Subject to the Constitution, the Directors may set aside out of the profits of the Company, any provision or reserve as they determine.

The Directors may establish a dividend reinvestment plan on terms they decide, under which dividends or interest due to Shareholders who participate in the plan on their shares may be applied in subscribing for or purchasing securities in the Company.

(d) Winding-up

If the Company is wound up, the liquidator may, with the sanction of a special resolution, divide among the Shareholders the whole or any part of the Company's property and decide how the division is to be carried out as between the Shareholders or different classes of shareholders.

(e) Shareholder liability

As the Shares issued on exercise of the Options offered under this Options Prospectus will be fully paid shares, they will not be subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

(f) Transfer of shares

Generally, shares in the Company are freely transferable, subject to certain formal requirements and the Constitution, the Corporations Act and the Listing Rules.

(g) Future increase in capital

Subject to the Corporations Act, the Listing Rules and the Constitution, the Directors may allot and issue shares in the Company, or options to acquire shares in the Company, to any person on such terms and with such rights as the Directors determine.

(h) Non-marketable parcels

The Constitution permits the Directors to sell the shares held by a Shareholder if they comprise less than a marketable parcel within the meaning of the Listing Rules. The Company must give the Shareholder notice of the intended sale and,

if the Shareholder does not want their shares sold, they may notify the Company accordingly.

(i) Variation of rights

Under section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to shares.

The rights attached to any class of shares may, unless their terms of issue state otherwise, be varied with the written consent of the holders of 75% of the shares of the class or by a special resolution passed at a separate meeting of the holders of shares of that class.

(j) Powers of the Board

Subject to the Constitution, the Corporations Act and the Listing Rules, the activities of the Company are to be managed by, or under the direction of, the Directors.

(k) Alteration of Constitution

In accordance with the Corporations Act, the Constitution can only be amended by a special resolution passed by at least 75% of Shareholders present and voting at the general meeting. In addition, at least 28 days' written notice specifying the intention to propose the resolution as a special resolution must be given.
