# Alliance secures additional \$1.2m funding and loan extensions to 30 June 2026

24 June 2025

**HIGHLIGHTS**

- **Alliance secures additional A\$1.2 million in unsecured loan facilities from major shareholder Zeta Resources and Company Directors**
- **Existing A\$4 million in loans extended to 30 June 2026 with interest capitalised until loan maturity**
- **Extension and additional funding at competitive terms signals lenders' strong commitment to Alliance's long-term objectives**
- **Loans provide ongoing funding while strategic discussions with multiple potential partners continue**

Alliance Nickel Limited ("Alliance" or "the Company") (ASX:AXN) advises that it has secured an additional A\$1.2 million in unsecured loan facilities and extended existing loans of A\$4 million to 30 June 2026.

The additional A\$1.2 million comprises A\$600,000 from Zeta Resources Limited ("Zeta Resources") and A\$600,000 from Company Directors. Existing loans of A\$4 million, which were set to reach maturity on 31 July 2025, have now been extended to 30 June 2026 with all other terms unchanged.

Zeta Resources is a long-term major shareholder of Alliance. The key terms of the new unsecured loans from Zeta Resources and the Company Directors are as follows:

- Interest rate of 12% per annum (capitalised until repayment) reflecting the interest capitalisation structure
- New maturity date of 30 June 2026 (or such other date as agreed in writing)

**Alliance Nickel Managing Director and CEO Mr Paul Kopejtka said:**

*"We appreciate the continued support from our lenders in extending these competitive, non-dilutive loans. This extension demonstrates strong confidence in our Company and the NiWest Project as we continue strategic discussions with multiple potential partners "*

## About Alliance Nickel Limited

*Alliance Nickel Limited is an ASX-listed critical minerals development company with its principal asset being its flagship 100% owned NiWest nickel cobalt project containing one of the highest-grade undeveloped nickel laterite resources in Australia. The Project has access to existing primary mining infrastructure such as an established network of roads, a railway and gas pipeline and is strategically situated adjacent to Glencore's Murrin Murrin Operations. The Company has completed a Definitive Feasibility Study (see ASX announcement 21 November 2024) which has confirmed the technical and economic viability of a heap leach and direct solvent extraction operation where it aims to produce low-cost, high-quality Class 1 nickel and cobalt sulphate for battery manufacturers and automakers in the Electric Vehicle (EV) sector.*

*The Company confirms that all material assumptions underpinning the production target and forecast financial information in the Definitive Feasibility Study continue to apply and have not materially changed.*
