

Dr. Alex Alonso Joins Singular Health Group as U.S. Radiology Advisor and Leads Clinical Trial at Life Radiology FL

HIGHLIGHTS

- SHG appoints Dr. Alex Alonso, a highly experienced U.S.-based radiologist, as a consultant
- The appointment as a US based radiologist expert is part of SHG's Binding Enterprise Agreement with Provider Network Solutions (PNS)¹
- Dr. Alonso to deploy the 3Dicom solution at Life Radiology, FL²
- Dr Alonso's role includes providing clinical insights for future deployment of 3DICOM, and also guiding product refinement and supporting U.S. market entry
- Dr. Alonso brings over 20 years of hands-on experience in radiology leadership and imaging technology

Singular Health Group (ASX: SHG, "Singular Health" or "the Company") is pleased to announce the appointment of Dr. Alex Alonso as the approved U.S. radiologist architect under the Company's Binding Enterprise Agreement with Provider Network Solutions (PNS). With more than 20 years of experience in diagnostic imaging, Dr. Alonso will provide strategic input into the development of SHG's 3DICOM software, ensuring alignment with the needs and standards of U.S. radiologists.

In addition to his role with SHG and PNS, Dr. Alonso will deploy the 3DICOM solution at Life Radiology FL, a diagnostic centre he founded that operates in Doral, Florida. Life Radiology FL has a full range of advanced imaging services - including MRI, CT scans, X-rays, ultrasounds, mammograms, serving the South Florida population of over 7 million people.

The use of the 3Dicom solution at Life Radiology FL will support early diagnostic workflows, and involve PACS integration, secure image sharing, and patient access tools. SHG is supporting these efforts by contributing integration and marketing costs.

Together, Dr. Alonso's advisory role under PNS and the independent Life Radiology FL deployment represent key steps in SHG's expansion into the U.S. national market, combining clinical validation with on-the-ground expertise to shape a radiology imaging solutions platform built for real-world impact.

The engagement with Dr Alonso has a 6-month duration. Singular will issue Dr Alonso (or his nominee) USD\$27,000 in Singular fully paid ordinary shares calculated using the 14-day VWAP at the end of the 6-month engagement period in lieu of payment of a consulting fee to Dr. Alonso, further aligning the consultants' interests with those of shareholders of the Company.

Singular Health's Managing Director and CEO Denning Chong said:

"This is an exciting appointment for Singular Health. Dr. Alonso is a renowned radiologist in Florida with his own specialist radiologist centre. He brings not just deep clinical experience, but a real-world understanding of how imaging and duplicate imaging actually occurs in practice particularly in the U.S."

Having Dr. Alonso onboard as an approved U.S. radiological architect with respect to our partnership with PNS is a big win for us. And the fact that he's also commissioned and deploying our 3DICOM at his own centre Life Radiology FL solidifies his belief in 3Dicom. That kind of backing and validation, from someone who's seen it all and who is heavily involved in the medical imaging industry, is incredible, as we push forward nationally in the U.S."

Dr Alex Alonso, Founder and CEO of Life Radiology FL said:

"I'm really excited to be working with the team at Singular Health. What they've built with 3DICOM and the 3DICOM solution is incredibly impressive - this is technology that doesn't just look good on paper, it actually solves real problems that radiologists and patients face every day."

The 3DICOM platform has huge potential in the U.S. market, especially nationally, and I do see a real pathway to have this rolled out everywhere in USA as we move toward more connected, patient-focused care. I'm looking forward to helping shape its growth and enjoying the benefits of what the 3DICOM solution brings to a real clinical environment like our own."

This announcement is authorised for release by the Board of Directors for the Company.
