About Sultan Resources

Sultan Resources is an Australian exploration company with a portfolio of quality assets in emerging discovery terranes. Sultan's tenement portfolio includes a significant tenement package in the South West terrane region of the Yilgarn Craton in the wheatbelt of Western Australia with priority nickel-cobalt and gold targets and tenements located in the highly prospective east Lachlan Fold Belt of Central NSW considered prospective for copper and gold. Sultan's board and management is committed to the responsible discovery of metals via modern exploration techniques, and to add value to these projects for the benefit of the company and its shareholders.
