QUARTERLY ACTIVITIES REPORT FOR PERIOD ENDING 30th JUNE 2025

Triton Minerals Limited (ASX: TON) (“Triton” or “the Company”) is pleased to provide its activity report for the quarter ending 30 June 2025 (“the Quarter”).

QUARTERLY HIGHLIGHTS:

- **Mozambique Graphite Assets Divestment and Dispute** – In April 2025, Triton filed a writ in the Supreme Court to recover the \$8.5 million final payment from NQM after their failure to make a \$3.42 million progress payment.¹ The case management hearing, originally scheduled for 15 May, was rescheduled to 5 June^{2/3}, then adjourned to 30 July⁴, and has now been further adjourned to 9 September⁵ to allow additional time for negotiations. Triton continues to pursue legal recovery while reserving all rights under the SSAP. The Board remains committed to resolving the SSAP matter in a timely and constructive manner and will continue to act in the best interests of shareholders
- **Aucu Gold and Copper Project Update** – The exploration licenses for the Aucu Copper/Gold Project were obtained after the quarter, on 23 July 2025⁶. This marks a significant milestone for the project, which continues to be a key strategic growth initiative for Triton.
- **AGM Results** - The results of the AGM⁷, held on Friday, 30 May, at Triton Minerals’ office in Perth, showed that all resolutions were carried, except for Resolution 4, which pertained to the approval of an additional 10% placement capacity.
- **Austerity Measures to Preserve Cash** - Further cost-cutting measures were implemented on 16 July⁸, including the deferral of 100% of all directors’ fees, along with other measures put in place to enhance financial discipline.
- **Cash on hand** – As of 30 June 2025, Triton held **\$5 million** in cash and no debt, including a \$2.95 million progress payment from the sale of 70% of Mozambique Graphite Assets received on 28 February 2025.

LEGAL PROCEEDINGS CONTINUED

In April 2025, Triton filed a writ of summons in the Supreme Court of Western Australia, seeking recovery of the outstanding \$8.5 million final payment from NQM Gold Pty Ltd, a wholly owned subsidiary of Shandong Yulong Gold Co., Ltd (NQM) under the Share Sale and Purchase Agreement (SSAP), after NQM failed to make the \$3.42 million progress payment due on 28 February 2025. This followed unsuccessful negotiations and two formal letters of demand.

On 7 May 2025, it was announced that the case management hearing, originally set for 15 May, was rescheduled to 5 June, subsequently adjourned to late July, and has now been set for 9 September. This adjournment provides both parties additional time to explore a commercial resolution.

As previously disclosed, Triton has been actively engaged in legal proceedings to resolve outstanding matters under the SSAP. The Company continues to act in good faith and remains committed to working collaboratively with NQM to reach a constructive and timely settlement. Triton understands that both parties are aligned in their intention to bring this dispute to resolution as soon as possible.

The Company remains dedicated to upholding its rights and safeguarding the interests of all shareholders

SALE OF 70% MOZAMBIQUE GRAPHITE ASSETS — TRANSACTION PROGRESS

Despite the ongoing dispute with NQM, Triton remains committed to resolving the matter in good faith and on reasonable terms. In the meantime, the company has implemented a series of austerity measures to extend its operational runway and preserve cash, including deferring 100% of directors' fees until the dispute is resolved.

The completion of the 70% asset sale remains crucial for Triton to realize the original strategic benefits of the transaction, including accelerated funding pathways for the Ancyabe Graphite Project, reduced holding costs, and increased flexibility in the graphite sector through Triton's retained 30% joint venture interest.

Additionally, the Share Sale and Purchase Agreement (SSAP) includes an option for Shandong Yulong to acquire the remaining 30% interest for \$7.5 million in cash, offering potential further value realization for Triton shareholders in the future.

AUCU COPPER/GOLD PROJECT — NEW GROWTH STRATEGY (SUBSEQUENT TO QUARTER-END)

In Q2 2025, Triton advanced its growth strategy by progressing towards acquiring a majority interest in the Aucu Copper/Gold Project in Tete Province, Mozambique. The 588 km² project, which hosts multiple historical artisanal gold and copper workings, presents strong exploration potential.

Key highlights for the quarter:

- Triton secured the right to acquire up to 80% of the Aucu Project through a staged earn-in.
- The project offers significant exploration opportunities, with minimal modern exploration conducted to date, allowing Triton to define high-grade targets through soil geochemistry, geophysics, and drilling.

- Preliminary work focused on reviewing geological data, planning field reconnaissance, and engaging in-country consultants for environmental, social, and permitting assessments.

A major milestone was achieved post-quarter, on 23 July 2025, when Triton successfully obtained the exploration licenses for the Aucu Copper/Gold Project. This approval marks a pivotal moment in the company's growth strategy, enabling Triton to fully advance the project and unlock its substantial potential. With the license in hand, Triton can now move forward with planning and implementing key exploration activities, positioning the company to drive shareholder value and expand its high-quality asset portfolio.

The Aucu Copper/Gold Project represents a crucial strategic initiative. The license approval strengthens Triton's ability to develop this early-stage gold and copper asset, which already holds significant resources. This milestone is expected to not only enhance Triton's position in the gold and copper sectors but also contribute positively to the local economy by generating jobs, supporting community development, and fostering long-term economic benefits in Mozambique.

Following the license approval, Triton has begun preliminary planning for future exploration. Fieldwork planning is underway, and the company is reviewing permitting and logistical frameworks to ensure efficient project execution. External consultants will also be engaged to assess historical exploration data and prepare a comprehensive work program for the upcoming exploration season.

The successful acquisition of the exploration licenses represents a significant step forward in Triton's long-term growth strategy, with substantial upside potential for both the company and its stakeholders. Further updates will be provided in the coming quarters as on-ground activities progress, marking continued momentum towards realizing the full value of the Aucu Project.

BUSINESS DEVELOPMENT

The proceeds from the divestment will bolster Triton's balance sheet, reinforce its 30% retained interest in the Mozambique Graphite Assets joint venture, and provide additional funding for working capital and new growth initiatives. Triton remains strategically committed to expanding its footprint in the battery minerals and broader resource sectors, with a focus on developing small to medium-sized mineral projects.

The company aims to position itself as an emerging mid-tier player in the resource industry. This transaction marks a key milestone in enhancing Triton's financial flexibility and supporting its long-term growth strategy.

MOZAMBIQUE POLITICAL UPDATE

In the June 2025 quarter, Triton continued to closely monitor the operating environment in Mozambique. No significant changes in the political or regulatory landscape impacting Triton's graphite or copper/gold interests were observed during this period.

Exploration planning for the Aucu Copper/Gold Project in Tete Province progressed smoothly within a stable environment.

Triton maintains ongoing engagement with Mozambican regulatory authorities to facilitate the advancement of its projects, reaffirming its commitment to operating safely and responsibly in the region.

FINANCIAL POSITION AND COST MANAGEMENT

As of 30 June 2025, the Company reported a cash balance of \$5 million with no outstanding debt. The Company remains committed to preserving its cash reserves to support operational requirements, business development initiatives, and the ongoing legal proceedings relating to the NQM dispute.

To align with this strategy, the Board of Directors has resolved to further defer directors' fees, increasing the deferral from 50% to 100%, effective July 2025, until the dispute is resolved.

In light of the ongoing uncertainty and the need to preserve cash, the Company has also implemented immediate austerity measures to extend its operational runway. These measures include:

- Negotiating extended payment terms with key service providers; and
- Reducing all discretionary expenditure wherever possible.

During Q4 2024, the Company recorded a related party transaction of AUD 105,000, representing the payment of directors' fees

TENEMENTS

- **Ancuabe (MC913 2C)** - The Company holds a 100% legal and beneficial interest in the Ancuabe Mining Concession.
- **Cobra Plains (MC11584)** - The Company holds an 80% beneficial interest in the Cobra Plains Mining Concession.
- **AUCU (12937L, 12858L)** - The company currently holds an initial 25% legal and beneficial interest, which is set to increase to 80% on an earn-in basis.
